Written Ministerial Statement

Monday 9 January 2006

HOME DEPARTMENT

Terrorism Bill

The Secretary of State for the Home Department (Mr. Charles Clarke): I am today placing in the Libraries of both Houses a letter from Louise Arbour, the UN High Commissioner for Human Rights, on the Terrorism Bill. I am grateful to the high commissioner for her letter. She suggests that the Bill would benefit from further scrutiny. The Bill is of course currently before the House of Lords where it is subject to detailed consideration.

The high commissioner has a number of specific concerns about the Bill. We do not believe that these are justified. She suggests that the Bill lacks a precise definition of terrorism. In fact, the Bill draws on the definition of terrorism contained in Section 1 of the Terrorism Act 2000. As has been made clear during the Bill's parliamentary passage, the Government do not believe that a better definition of terrorism can easily be created, but we have asked the independent reviewer of our terrorism legislation, Lord Carlile of Berriew, to conduct a review of the definition of terrorism used in legislation. He has said that in doing so he will consult widely and will report within a year of commencement of the new Act.

The high commissioner is concerned about Clauses 1 and 2 of the Bill. The Government have made a number of changes to these clauses during the Bill's parliamentary passage and given indications of further planned changes. These include imposing an intent test, with subjective recklessness, in Clause 1 and widening the defence of non-endorsement in both Clauses 1 and 2. The Government are satisfied that these clauses constitute a proportionate and necessary response to the threat of terrorism.

The high commissioner queries Clause 21, which extends the grounds for proscription to include those organisations that glorify terrorism. The Government believe that such organisations can create a climate in which terrorism can flourish and their activities need to be restricted. The full safeguards, including parliamentary approval subject to the affirmative resolution and appeal rights, will apply to any groups proscribed under these powers.

The high commissioner expresses concern about the proposal to extend the maximum pre-charge detention period in terrorism cases to 28 days. This has been extensively debated in Parliament and the Government accept Parliament's decision in this matter. The Government are satisfied that the safeguards in place, including regular judicial oversight, mean that an extension to the maximum pre-charge detention period to 28 days (as would an extension to 90 days) would be compatible with the UK's international human rights obligations.

Written Ministerial Statements

Tuesday 10 January 2006

CONSTITUTIONAL AFFAIRS

Court Fee Increases

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): The Parliamentary Under-Secretary of State, the Baroness Ashton of Upholland, has made the following written ministerial statement in the other place today.

"I am today announcing the outcome of the recent consultation on Civil and Family Court Fee Increases. The Consultation Paper was published on 23 September and the consultation closed on 18 November. Some 50 responses were received from the judiciary, legal profession and other stakeholder bodies.

After careful consideration of these, my right hon. and noble Friend, the Secretary of State for Constitutional Affairs and Lord Chancellor has, with two exceptions, decided to proceed with all the fee increases proposed. Three Statutory Instruments containing the new civil, family and magistrates' court fees were laid before the House on 20 December 2005 and will take effect today. A report analysing the responses to consultation in detail will be published shortly.

The Lord Chancellor has decided not to introduce at this stage the proposed increase from £210 to £380 of the fee for an application for ancillary relief. Consultees expressed particularly strong concerns about the size and timing of this proposal. There were also concerns that a detrimental impact on access to justice in this context could also harm any children of the family. It will be necessary to look again at this fee following the planned review of the system of exemptions and remissions.

The Lord Chancellor has also decided not to pursue the proposed increases to the fees for issuing lower value monetary claims. Some consultees were concerned that these fees were disproportionately high relative to the amount claimed. These increases would also run counter to our longer-term strategy of achieving a better match between income and cost within the system.

The increases will raise about £10.6 million additional income in the current financial year, £43 million in a full year. They are necessary to ensure that Her Majesty's Courts Service can balance its budget and meet its cost recovery targets for this and future years. As the Consultation Paper made clear, the need to raise this income and the underlying fees policy were not in question; the issue was whether the particular package of increases proposed was most apt to meet the need.

A key objective of that package, with which the majority of those who commented agreed in principle, was to harmonise the fees, which shall enable more effective allocation of cases to the lowest appropriate level of judiciary. This in turn will benefit court users by enabling many cases to be dealt with more quickly.

The Government's policy remains that court fees should generally be set to reflect (on average) the cost of the service provided. Where they can afford to do so, it is right that litigants using the civil courts, rather than the taxpayer, should meet the cost. This ensures that the taxpayers' contribution to the cost of the civil and family courts is focused on funding the cost of the system of fee exemptions and remissions, in order to ensure that less well-off citizens are not denied access to justice. Setting fees generally at levels lower than the full cost would mean that corporations and other wealthy litigants would benefit from taxpayers contribution—increasing cost and putting pressures on other budgets like legal aid.

The current increases form part of our longer term strategy for court fees. Its objectives are to ensure that the system:

meets the cost recovery targets set for civil, family and probate business (including, as appropriate, the cost of investment to modernise the courts);

protects access to justice through a well-targeted system of exemptions and remissions;

ensures that the taxpayers' contribution to the cost of the court system remains affordable;

so far as practicable, broadly matches the level of particular fees or sets of related fees to thecost of the particular processes and type of case concerned.

This year, we plan to undertake two major reviews as the next steps in delivering this strategy.

The first will be a fundamental review of the system of exemptions and remissions to ensure that it adequately protects access to justice and is operated consistently. This review will be overseen by a steering group of stakeholders, including representatives of the Civil and Family Justice Councils, which I will chair.

The second will review the structure of the system, that is the points at which fees are charged. The key objective will be to achieve a closer match of income and cost drivers, in particular through the introduction of trial fees. This is necessary both to make the system fairer as between different types of litigant, and make it easier to ensure that cost and funding remain in balance as workload changes. This review will also consider the various specific suggestions for changing the fee structure raised by respondents to consultation."

DEFENCE

Reserve Forces

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am announcing today that a new order has been made under section 54 of the Reserve Forces Act 1996, so that reservists may continue to be called out into service to support operations in Iraq. The new order is effective until 3 January 2007 and replaces the previous order that expired earlier this month.

During the course of the last year, some 2,000 reservists were called out and accepted into service to support operations in Iraq. Details of the next tranche of reservists to be called out were announced to the House on 6 December 2005, *Official Report*, column 86WS. Some 700 reservists are involved and they will be deployed to theatre from May, where the majority will complete six month tours. We remain very appreciative of the continuing support and commitment shown by reservists, their employers and their families.

FOREIGN AND COMMONWEALTH AFFAIRS

Iraq: Export Licence System

The Minister for the Middle East (Dr. Kim Howells): The arms embargo in Iraq continues under United Nations Security Council Resolution 1546 with exemptions for supplies of arms and related matériel

required by the Government of Iraq (GOI) or the Multi-National Force (MNF) to serve the purposes of the resolution.

Following a thorough review of its procedures for processing export licence applications to Iraq, Her Majesty's Government will consider as exempt from the embargo exports to the GOI, the MNF, the United Nations Assistance Mission in Iraq, diplomatic missions in Iraq and entities contracted or subcontracted to GOI or the MNF. Export licence applications to these end users will not therefore require the approval of the GoI or MNF prior to approval of the application. For exports serving the purposes of UNSCR 1546 to entities other than these, Her Majesty's Government will seek the approval of the GOI or MNF to ensure that the proposed export is exempt from the embargo. Her Majesty's Government will keep the Government of Iraq informed on a quarterly basis of all exports of military equipment to Iraq.

Rendition: Additional Information

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): My reply of 12 December 2005, *Official Report*, column 1652W to the question put by the right hon. and learned Member for North-East Fife (Sir Menzies Campbell) stated that officials had identified a few instances during the administration of President Clinton where the US authorities had requested permission to render a detainee through UK territory or airspace. I added that officials continued to search the records.

Foreign and Commonwealth Office officials have now completed a search of all relevant records back to May 1997. This search has turned up one further case, also in 1998; the Government declined a US request to refuel a flight carrying two detainees in route to the US.

HOME DEPARTMENT

Respect Action Plan

The Minister for Policing, Security and Community Safety (Hazel Blears): I have placed in the Library of the House a copy of the "Respect Action Plan", which is launched today.

The "Respect Action Plan" sets out the Government's intention to broaden the current approach to tackling antisocial behaviour through addressing disrespect in every walk of life. We intend to deepen the approach by tackling the causes of antisocial behaviour, intervening early where problems occur and the agenda goes further than before by empowering communities themselves to challenge disrespect and encourage positive behaviour.

Broadening our approach will be accomplished through measures which include addressing school discipline and attendance. The plan stresses the critical role of schools and parents in tackling disrespectful behaviour, persistent truancy and inadequate supervision of excluded children. We also want to ensure that young people are active and learn how to make a positive impact as individuals in our society. There is a strong emphasis on expanding the role of sport, constructive activities and volunteering as positive routes to nurture a culture of respect among young people.

The cross-Government drive to address problem families and support good parenting is at the heart of our strategy to build a code of respect for the 21st century. By deepening our approach, we intend to intervene in families in crisis and provide support and practical advice. The plan promises a major new programme of projects to work intensively with the most problematic families who can cause such distress within our communities

And we will take our approach to dealing with antisocial behaviour further by ensuring that respect is promoted across government and throughout our programmes, funding and inspection regimes. Neighbourhoods will be empowered to ensure that local services deal quickly and effectively with the disrespectful behaviour of a minority. Our aim is to bring speedy, visible and reparative justice through a raft of measures which extend the powers available to address low-level crime and antisocial behaviour.

The "Respect Action Plan" is available on the web at: www.respect.gov.uk

NORTHERN IRELAND

Northern Ireland Companies Registry

The Parliamentary Under-Secretary of State for Northern Ireland (Angela E. Smith): In accordance with article 677 of The Companies (Northern Ireland) Order 1986, copies of the Companies Registry Annual Report 2004 have been placed today in the Libraries of both Houses.

Northern Ireland Credit Unions

The Parliamentary Under-Secretary of State for Northern Ireland (Angela E. Smith): In accordance with Article 81 of The Credit Unions (Northern Ireland) Order 1985 and Section 100 of the Industrial and Provident Societies Act (Northern Ireland) 1969, copies of the Credit Unions Annual Report 2004 have been placed today in the Libraries of both Houses.

TRANSPORT

Container Port Development

The Secretary of State for Transport (Mr. Alistair Darling): Ports in the United Kingdom play a vital role in supporting the national economy and contributing to sustainable development. The Government are committed to maintaining and enhancing that role through our broad approach to ports policy and through the decisions we take on individual ports applications. We aim to exercise our responsibility in respect of applications as promptly as possible, consistent with the need to consider all relevant factors and allow all interested parties sufficient opportunity to comment.

I can now report to the House that, as part of that process, the Parliamentary Under-Secretary of State for Transport my hon. Friend the Member for Halton (Derek Twigg) announced on 21 December that he was minded to approve the proposal from Hutchison Ports UK for a container port at Bathside Bay at Harwich,

Essex. He noted, however, that there are some matters which require further clarification, including making sure that the right conditions are imposed on the development to secure the necessary highways improvements in good time to provide congestion relief. A similar letter, covering planning and listed building appeals related to the development, was issued by my right hon. Friend the Deputy Prime Minister. The Government believe this expansion in deep-sea container port capacity is justified by the economic benefits it will bring regionally and nationally. But we understand that there should be controls imposed on the development, to provide new road and rail infrastructure so that congestion does not increase, to provide compensatory habitats for wildlife displaced by the scheme, and to reduce other environmental impacts such as noise, pollution and the visual impact.

My hon. Friend had already announced in July last year that he was minded to approve the proposal from P&O Ports for a new container port at London Gateway, near Thurrock in Essex. Working in conjunction with my right hon. Friend the Deputy Prime Minister, who had announced in parallel that he was minded to approve the proposed adjoining logistics centre at London Gateway, we have invited representations regarding road access and other matters both on that proposal and now on Bathside Bay. We will consider any representations carefully before moving to final decisions.

My hon. Friend is also considering a separate proposal from Hutchison for providing further deep-sea container port capacity through the reconfiguration of the Felixstowe South site in Suffolk. He, together with my right hon. Friend the Deputy Prime Minister, expects to make announcements on that shortly.

The ports industry is responding to demand for capacity in other traffic sectors as well. On 21 December my hon. Friend also made a final decision approving the application from Associated British Ports plc to construct a short-sea container terminal at Quay 2005 in Hull. After carefully considering the likely impacts on local residents, and balancing them against the wider economic benefits, the Government are satisfied that this project will overall bring significant benefits to the city of Hull and the region as a whole. The Government are also satisfied that the project's likely impacts on nature conservation sites will be adequately compensated for by the creation of replacement habitat in the Humber estuary.

Airports (Policing)

The Secretary of State for Transport (Mr. Alistair Darling): Following my statement of 21 November in which I announced that the Government had decided to commission an independent, wide-ranging review of policing at airports, I am pleased to announce today, that I have appointed Stephen Boys Smith, a retired Home Office Director-General, to lead the review. I expect the review to be completed by late spring.

The review will aim to identify a sustainable approach to the policing of airports that takes account of the roles and responsibilities of all stakeholders in protecting an airport and in particular addresses the need for funding arrangements that are objective and transparent. The review will compare the present method of policing airports with that of other modes of transport and will consider whether the principle of designation can be made to work. If it cannot, the review is asked to propose alternative options. The full terms of reference are:

to review the role of the police service at airports, using as a base-line the recommendations of Sir John Wheeler's 2002 review of airport security. The Review will take account of any other relevant reports and will consider how the airport manager, the police and other stakeholders at the airport can best work together, given their respective roles and responsibilities, including under the National Aviation Security Programme. Account will also be taken of the extent of any overlap in security activities at airports and the scope for efficiencies;

to compare the present approach to the policing of airports with that applied to other modes of transport to establish any differences or similarities in policing approaches, roles, responsibilities and accountabilities that may apply. This will include the current review into the BTP;

to develop a model—with options recognising that different airports may require different approaches—for the policing of airports;

to develop criteria upon which an objective assessment can be made as to whether an airport should be designated for policing purposes. Then to consider whether, on the basis of these criteria and taking account of voluntary multi-agency risk assessments (MATRA), the principle of the existing designation process can be made to work; and if not, to propose alternative options;

to consider options and mechanisms for funding policing at airports in the light of any findings or recommendations that emerge from the review, taking account of the resources committed separately to security by airport operators and others. The Review will take into account the economic impact of any recommendations that it makes;

to consider any requirement for changes in legislation.

Written Ministerial Statements

Wednesday 11 January 2006

CONSTITUTIONAL AFFAIRS

Adoption and Children Act (Representation of Children)

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): The Parliamentary Under-Secretary of State, the Baroness Ashton of Upholland has made the following written ministerial statement in the other place today

"The final stages of the Adoption and Children Act 2002 were implemented on 30 December 2005. This date saw the commencement of the core provisions for local authorities by the Department for Education and Skills and the National Assembly for Wales and rules of court from my Department that underpin the new provisions. Subsection 1(a) of s122 provides for representation of children within placement proceedings and rules made to come into force on 30 December 2005.

Subsection 1(b) and subsection (2) provide rule making powers for the separate representation of children in Children Act cases generally and in particular in section 8 cases. Both provisions were commenced on 7 December 2004. To inform our consideration of what rules of court might be made, my Department commissioned research by Cardiff University. We wanted to understand whether formal representation through a solicitor and guardian is meeting children's needs, or whether there are other ways in which their needs can be met. It also met our commitment to consult with children on this issue.

The Cardiff University research with children and families focused on their views on how they were heard/how involved when children were separately represented under the existing rule 9.5 of the Family Proceedings Rules 1991. We have now received the first draft of that research which I hope to publish next month.

The views of children themselves were not conclusive due to the small sample size, but when added to other evidence the research does not indicate that separate representation would be right for all children in all cases. New rules of court will be developed in the light of this research evidence and CAFCASS's important proposals in 'Every Day Matters'.

Existing provisions for the representation of children remain unaffected and offer a range of ways in which a court making decisions about them may hear children's wishes and feelings. In the first year after the issue of the rule 9.5 Practice Direction by the President of the Family Division in April 2004, CAFCASS figures indicate that courts made more than double the number of rule 9.5 appointments by comparison with the previous year. An updated analysis of figures at the end of the current financial year will provide further information about the extent of the courts' use of CAFCASS officers to undertake rule 9.5 work on behalf of children. The increased use of rule 9.5 appointments following the issue of the Practice Direction appears to have refocused issues on the child at an earlier stage in the proceedings, alongside consideration of the protracted concerns of the parents".

EDUCATION AND SKILLS

Safeguarding Children/Vulnerable Adults

The Secretary of State for Education and Skills (Ruth Kelly): The protection of children is a top priority for this Government. The case which has come to public attention this week raises very serious issues.

I take full responsibility for all decisions taken in the Department on whether individuals should be placed on LIST 99, the list covering those barred working in schools.

The LIST 99 barring scheme is a process that has operated for decades. In a number of specified serious offences an individual will automatically be included on LIST 99. Initial inquiries indicate that there have been a small number of cases where, on the basis of advice, in accordance with the process that has been in operation for many years, Ministers have made the decision not to include on LIST 99 an individual on the Sex Offenders Register.

It is of the utmost importance that the House and wider public are not misled by any information put into the public domain. I have therefore decided to commission as a matter of urgency an exhaustive review of all such cases since the introduction of the Sex Offenders Register in 1997—a register which provides an additional safeguard for prospective employers. I will also review the decision-making process surrounding such cases and any immediate policy implications. For example, I will consider:

How the closest possible alignment can be secured between LIST 99, the Sex Offenders Register and other data sources.

The role of Ministers in the decision making process.

How police advice can be more fully considered prior to decisions being made.

I will make a further statement to the House shortly.

The Government are already committed to implementing Sir Michael Bichard's recommendations to tighten the system for vetting and barring those who wish to work with children and vulnerable adults and to bringing forward legislation in this session of Parliament.

In the meantime, with immediate effect, I will personally consider any cases of individuals on the Sex Offenders Register where a Ministerial decision is required as to whether they should be placed on LIST 99.

HEALTH

Mental Health Act Commission

The Minister of State, Department of Health (Ms Rosie Winterton): The Mental Health Act Commission's 11th biennial report entitled "In Place of Fear?" was laid before Parliament today.

Copies have been placed in the Library.

Written Ministerial Statements

Thursday 12 January 2006

CABINET OFFICE

Civil Service (Management Functions) Act 1992 (Delegations/Authorisations)

The Parliamentary Under-Secretary of State for the Cabinet Office (Mr. Jim Murphy): No such delegations or authorisations were made during 2005.

DEFENCE

QinetiQ Shareholder Team

The Secretary of State for Defence (John Reid): I am pleased to announce to Parliament the decision to float QinetiQ, formerly part of the Defence Evaluation and Research Agency (DERA), on the London Stock Exchange. This represents the next step in the Public Private Partnership for defence research, which was first announced in 1998 as part of the Strategic Defence Review. It is a significant achievement to have reached this stage five years after QinetiQ was first vested as a Government-owned company, and three years after the Carlyle Group became, through its minority stake, our strategic partner.

The aims of the Public Private Partnership were to strengthen the linkages between defence and civil technologies, encourage the commercial exploitation of taxpayers' investment in science and technology and create a sustainable future for DERA and its staff, while retaining within Government those functions not appropriate to the private sector.

Carlyle became our strategic partner in February 2003, following a competitive process that achieved the best possible deal for the taxpayer at that time. Through the introduction of private sector investment and expertise into the company, this partnership has enabled QinetiQ to build on its remarkable heritage to produce a strong trading performance, exploit its capabilities in the civil sector and develop a significant business in the US through its successful strategy of US acquisitions, while continuing to be a key supplier of cutting edge technology and services for our Armed Forces. For example, QinetiQ's rapid development of a new system to provide fast and safe ways of clearing mines from shallow waterways through the fitting of remote control technology to unmanned combat support boats has added to the capability of UK forces operating in Iraq. Its runway hazard detection system, Tarsier, developed from advanced radar research in the wake of the Concorde tragedy, has been trialled at some of the world's busiest airports and will shortly be protecting air travellers at Vancouver International Airport. The growth and development of the company, both in the UK and on a global level since our strategic partnership with Carlyle, has significantly increased its value and therefore the benefit to the taxpayer as its majority shareholder.

Against this background, and informed by the advice of our joint financial advisors, the Government, Carlyle and the company itself judge that QinetiQ is now ready for the next stage in the process: an initial public offering (IPO). The Government believe that an IPO provides the best route for QinetiQ further to develop its excellence as a supplier of battle-winning technology to our armed forces while also creating new opportunities to exploit British technology in a global market. Subject to market conditions, our current intention is to complete the IPO during February.

Following the IPO, both the Government and Carlyle will continue to retain a significant stake in the company reflecting our confidence in its future. The Government will also retain a special share in QinetiQ to protect the United Kingdom's defence and security interests.

Merlin Capability Sustainment Programme

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am announcing today the award of a contract to Lockheed Martin UK for the upgrade of the Royal Navy's Merlin Mk 1 helicopters. This upgrade, known as the Merlin Capability Sustainment Programme, is vital in keeping the Merlin Mk 1 effective until its planned out-of-service date in 2029. The contract, which includes upgrading the Merlin MK1 Training System, is valued at some £750 million and the first squadron of MCSP aircraft will enter service by September 2014. This contract award will help sustain some 1,400 high technology jobs across the UK mainly at Lockheed Martin in Havant and Agusta Westlands in Yeovil as well as in Smiths Industries, Thales UK, Selex and Ael.

DEPUTY PRIME MINISTER

Regulatory Reform (Fire Safety) Order

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Jim Fitzpatrick): The Regulatory Reform (Fire Safety) Order (SI 2005 No 1541) was made on 7 June 2005.

During the passage of the Order it was of concern to the House that business and enforcers should have adequate time to familiarise themselves with the new regime and the guidance that will accompany it and that the coming into force date should, so far as practicable, be timed to coincide as closely as possible with reform of fire safety laws in Scotland.

Despite extensive work with stakeholders it is clear that all the guidance documents will not be ready for a full 12 week gap between publication and coming into force on 1 April 2006.

In the light of the commitments we have given to the House and our commitment to ensuring this reform is properly backed, we have therefore concluded that the coming into force of the substantive provisions of the Regulatory Reform (Fire Safety) Order should be put back. We will therefore bring an Order, under article 52 of the Regulatory Reform (Fire Safety) Order 2005, to amend the coming into force date of the new regime before the House as quickly as possible.

Hon. Members will also wish to note that the Scottish Authorities have determined that more time should be allowed for reform north of the border. The reform in Scotland is now expected to come into force in October 2006 at the earliest.

HOME DEPARTMENT

Asylum Applications

The Minister for Immigration, Citizenship and Nationality (Mr. Tony McNulty): The Home Office (IND) have requested that a pilot scheme be undertaken by the International Organisation for Migration (IOM) to evaluate the effects that increased reintegration assistance may have on incentivising failed asylum seekers, and those who wish to withdraw any outstanding asylum applications or appeals, to return to their country of origin. Voluntary returns are always preferable to enforced returns. The pilot which began on 1 January will run for a period of six months.

VARRP (Voluntary Assisted Return and Reintegration Programme) is the generic programme through which those who have made an asylum application can return to their country of origin with assistance. During 2004–05 there were 2,678 returns under VARRP. Between 1 April and 30 November 2005 there have been 2,236 returns and we are projecting returns in the region of 3,500 for 2005–06. The recent NAO report on failed asylum seekers recommended that more should be done to promote voluntary returns. IND and IOM have undertaken a significant amount of work to promote voluntary returns over the last 18 months, and this exercise will look at the levels of incentive required to stimulate return. It will also assist in developing the most appropriate level of incentive in future voluntary return programmes.

Currently, VARRP provides all returnees with reintegration assistance to the value of £1,000. This assistance is provided in kind. This means that returnees are not provided with cash grants but are given help with starting up a small business, vocational training or education. All those who leave the UK under this scheme will be offered an additional £2,000 which they can choose to take as either additional re-integration assistance or cash grants. This offer will be available only to those who leave the UK between 1 January and 30 June 2006 and no-one who made an application for asylum after 31 December 2005 will be eligible for this. It is anticipated that such an offer could increase the number of predicted returns from about 1,950 to over 3,000 for the six month period.

In order to promote this exercise the Home Office has undertaken a mailshot to all those currently on National Asylum Support Service support and is publicising the scheme to those who attend reporting centres and to those who are eligible in detention. IOM will also advertise the scheme through posters and advertisements.

The additional cost of this scheme will be £6.2 million over six months if the increased assistance is paid to 3,000 volunteers.

These additional costs represent good value for money against the cost of enforced returns which the NAO has calculated to cost £11,000 each on average. There are also significant potential savings in the provision of NASS accommodation, support costs and detention expenditure.

Private Security Industry (Approved Contractor Scheme)

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): Following public consultation during the autumn, the Government have decided to introduce an Approved Contractor Scheme (ACS) for the private security industry.

The ACS will include elements from two of the options in the consultation paper: Option 3, which would require companies to possess one or more of a list of specified existing standards, and Option 4 which would introduce a new standard defined by the Security Industry Authority. These two options were the most popular in the consultation, with over 90 per cent. of respondents expressing a preference for one of them. By adopting a mixture of the two, we will enable those firms that have already achieved an existing standard to take credit for that, without requiring smaller firms, in particular, to go through the same procedure.

There is still a lot of detail to be worked through. The detail of the scheme, including the fee structure, will be announced as soon as possible, so that companies are able to plan and prepare for the implementation date. The detail of the ACS will be subject to annual review. Companies approved under the scheme will be permitted to deploy a small proportion of their security personnel who are not yet licensed but have completed training and have an application pending. They will not be able to deploy unlicensed personnel on assignments that involve contact with children or vulnerable adults. This will ensure that those dealing with this particularly sensitive group have undergone, and satisfied any SIA requirements relating to a Criminal Records Bureau check.

The date on which it will become mandatory for manned guards to be licensed remains 20 March 2006. Licensing for door supervisors and vehicle immobilisers is already mandatory.

WORK AND PENSIONS

Buncefield Oil Depot Fire

The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire): The Health and Safety Commission (HSC) is today announcing the appointment of the right hon. Lord Newton of Braintree as the independent chairman of the board supervising the investigation into the incident at the Buncefield oil depot on 11 December 2005.

The investigation board, set up by the HSC under powers set out in Section 14(2)(a) of the Health and Safety at Work etc. Act 1974, will report to both HSC and the Environment Agency. As well as the board chair, it also includes two other independent members

with relevant expertise: Professor Dougal Drysdale, one of the leading international authorities in Fire Safety Engineering and Dr. Peter Baxter, a consultant physician in occupational and environmental medicine. The board will also include three members of staff from the Environment Agency and HSE.

The Commission will publish the special report produced by the Investigation Board.

The HSC's decision to establish an investigation board highlights the severity of the incident and the degree of concern for people living close to the Buncefield site and to the local business community. It is determined to ensure the investigation is carried out thoroughly, objectively, transparently and concluded in a timely manner with its findings made public as soon as possible, subject to legal considerations.

HSC is an independent body of 10 people, appointed by the Secretary of State for Department for Work and Pensions, after consultation with organisations representing employers, employees, local authorities and others. HSC's primary function is to make arrangements to secure the health and safety of workers and the public in the way work activities are conducted; including proposing new law and standards, conducting research and providing information and advice.

Written Ministerial Statements

Monday 16 January 2006

DEFENCE

UK Gulf Veterans (Mortality Data)

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): As part of the Government's continuing commitment to investigate Gulf veterans' illnesses openly and honestly, data on the mortality of veterans of the 1990–91 Gulf conflict are published regularly. The most recent figures for the period 1 April 1991 to 31 December 2005, are published today as a National Statistic on the Defence Analytical Services Agency website.

The data for Gulf veterans are compared to that of a control group known as the "Era cohort" which is made up of armed forces personnel of a similar profile in terms of gender, service, regular/reservists status and rank, who were not deployed to the Gulf. As in the previous release, the "Era" group has been adjusted for a small difference in the age-profile of those aged 40 years and over, to ensure appropriate comparisons.

Key points to note in the data are:

There have been 755 deaths among the Gulf veterans and 765 in the age-adjusted era comparison group.

The 755 deaths among Gulf veterans compare with approximately 1,206 deaths which would have been expected in a similar sized cohort taken from the general population of the UK with the same age and gender profile. This reflects the strong emphasis on fitness when recruiting and retaining service personnel.

These statistics continue to confirm that UK veterans of the 1990–91 Gulf conflict do not suffer an excess of overall mortality compared with service personnel that did not deploy.

The full notice can be viewed at www.dasa.mod.uk

FOREIGN AND COMMONWEALTH AFFAIRS

Nicaragua (British Embassy)

The Minister for Europe (Mr. Douglas Alexander): Copies of the reply to a freedom of information request relating to the decision to close the British Embassy in Nicaragua in 2003 have been placed in the Library of the House.

NORTHERN IRELAND

Hydebank Wood Prison

The Secretary of State for Northern Ireland (Mr. Peter Hain): I wish to announce that with effect from 23 January 2006, in accordance with the powers conferred on me by Rule 5(1) of the Prisons and Young Offenders Centre Rules (Northern Ireland) 1995, that the boundaries of Hydebank Wood Prison are hereby altered to include that part of Hydebank Wood Young Offenders Centre known as Beech House. The area to be included is indicated on the site map, which I have today placed in the Libraries of both Houses, by the words 'Beech House'.

TRADE AND INDUSTRY

Construction Industry

The Minister for Industry and the Regions (Alun Michael): I am pleased to announce that today, with Edwina Hart AM MBE, the Welsh Assembly Government Minister for Social Justice and Regeneration, I am publishing the analysis of our consultation, held last year, on "Improving Payment Practices in the Construction Industry".

The consultation proposed a number of amendments to Part II of the Housing Grants Construction and Regeneration Act 1996 and the Scheme for Construction Contracts (England and Wales) Regulations 1998. In the light of the consultation response I am proposing to:

introduce a requirement that certification of the sum due, by one of the contracting parties or a third party, becomes an essential feature of contractual payment mechanisms;

remove the section 110(2) requirement for a payer notice;

introduce a right to apply for payment where a certificate is not issued by the due date;

make certain payment mechanisms including pay-when-certified clauses ineffective;

enhance the existing right of suspension under the Construction Act to allow the suspending party to claim for loss and expense;

prohibit the use of trustee stakeholder accounts for awards made by adjudicators;

make "final and conclusive" clauses unenforceable where they apply to decisions under the contract that are of substance to interim payments only;

take forward the Government's existing commitment to make contractual agreements on adjudication costs unenforceable and to provide a statutory framework for allocating them, including cases where adjudicators resign in response to a challenge to jurisdiction.

Our aim is to improve upon the existing legislative framework, which is generally recognised as making a valuable contribution to fairness in the way construction contracts are agreed and operated. The legislation is largely working as was intended, thanks to the willingness of the construction industry and its clients to develop their culture in the light of a changed legal framework. This is in the context of an ongoing process of change and improvement in the construction industry.

The consultation has demonstrated strong support for continued regulation of construction contracts and the current process improving the current framework. We have received 356 consultation responses—a startling demonstration of the level of interest in these issues in the construction industry and among its stakeholders. We are very grateful to all those who responded. They have had to consider some difficult and complex issues, which have required careful analysis and innovative solutions. Launching this consultation last year, my predecessor as construction Minister, my hon. Friend the Member for Edinburgh, South

(Nigel Griffiths), observed that "*Fair payment practice is something everyone agrees with and a fair payment culture underpins any progressive and modern industry*". That is something all the responses have recognised.

The analysis also sets out the next steps we intend to take, working with the construction industry over the coming months, to ensure the package of amendments is based upon a clear and thorough understanding of all the issues, when it is published for further consultation. The DTI has already asked a sounding board of key figures in the industry to assist in the development of the proposals to ensure they match the needs of the construction industry and its clients, as well the strict requirements of the Regulatory Reform Order framework. The sounding board members are:

Richard Bayfield—Immediate past chairman of the Society of Construction Law, a Chartered Civil Engineer and project management consultant on dispute avoidance and resolution. He is an adviser on the DTI sponsored Constructing Excellence programme.

Chris Dancaster—Chairman of the Royal Institution of Chartered Surveyors' Dispute Resolution Faculty Board and an adjudicator, arbitrator and mediator. Both he and Richard Bayfield were members of the adjudication group during Sir Michael Latham's review of the Construction Act.

Richard Haryott—Chaired the payment working group during Sir Michael Latham's review of the Construction Act. He is chairman of the Ove Arup Foundation, having been a Director of Arup for over 20 years with extensive experience of the design and implementation of major projects.

Sir Michael Latham—Chaired the review of the Construction Act, which led to the DTI/Welsh Assembly Government consultation last year. Author of the 1994 report "Constructing the Team".

His Honour Humphrey Lloyd QC—Barrister and arbitrator specialising in construction law until he became a judge of the Technology and Construction Court in 1993. Having retired from the bench in 2005, he continues to act as an arbitrator.

Peter Rogers—Director and Co-founder of Stanhope plc and Chairman of Constructing Excellence. He has recently stepped down as chairman of the Strategic Forum for Construction and is chairing the taskforce on the construction industry's contribution to the 2012 Olympics.

The sounding board will advise Ministers as the DTI develops the proposals in detail and improves its understanding of their potential impacts. The members are not intended to represent specific sectors within the construction industry.

I am looking forward to involving the sounding board in a process of dialogue over the coming months with the construction industry and its stakeholders. This will include a post-consultation event, which I will be hosting on 14 February. Assuming it is possible to implement these measures via a Regulatory Reform Order, the DTI then intends to issue a further consultation on a final package of amendments in the Spring.

The analysis is available at http://www.dti.gov.uk/construction/hgcra/hgcralead.htm

UK Gas Quality Exercise

The Minister for Energy (Malcolm Wicks): On 8 January 2004, in a written ministerial statement, *Official Report*, columns 13–14WS, the then Energy Minister launched the second phase of a three-phase strategy addressing the issue of future changes to the quality of gas imports to Great Britain. I can now inform the House that assessment of the available policy options, under phase two of the exercise, is complete. All of the available evidence points to a strong case for retaining the current gas quality specifications, and during the Christmas recess the Government launched a public consultation on this basis.

Phase 1 of this exercise, an independent scoping report commissioned by Government, was completed in November 2003. It confirmed that the Wobbe Index specification of certain anticipated gas imports is, before processing, likely to fall outside the current limits of the Health and Safety Executive's Gas Safety (Management) Regulations (GS(M)R). In light of Great Britain's increasing dependence on imported gas, phase 2 of the exercise was launched to identify an appropriate policy response.

As stated in previous announcements, our broad policy options appear to be: to retain the current specifications, requiring off-specification imports to be blended or processed so that the gas composition complies with existing limits, or to amend the current specifications to reflect more closely the expected quality of future gas supplies.

During the course of phase 2 the Department has let a variety of independent technical research contracts, and officials have worked closely with key stakeholders, to evaluate these options. The results show that treating off-specification imports is technically feasible and relatively cost-effective, but that the investment required risks deterring certain supplies at the gas quality margins. Alternatively, amending Great Britain's gas quality specifications could improve access to more diverse sources of supply, thus safeguarding against supply shortfalls and maintaining competition in the British gas supply market. However, introducing such changes would pose a potential threat to the safety of many gas appliances, and would risk increasing environmental emissions. Changes to Great Britain's gas quality regulations could not therefore be implemented without first undertaking a nation-wide programme to manage at-risk appliances. This would be extremely expensive. The Government therefore propose to retain the current gas quality specifications and have moved to public consultation on this basis.

During the consultation period the Department plans to hold a workshop, to provide an opportunity for stakeholders to register their interest, and to brief them.

I shall report to the House in due course on the outcome of this consultation, and on the timetable for the remainder of the exercise.

This exercise has been developed by the DTI as a member of the Sustainable Energy Policy Network (SEPN) which is working to deliver the Energy White Paper "Our Energy Future—creating a low carbon economy".

WORK AND PENSIONS

Benefit Fraud Inspectorate (Bromsgrove District Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Bromsgrove district council was published today and copies have been placed in the Library.

In 2004–05, Bromsgrove district council administered some £10.5 million in housing benefits, about 33 per cent. of its gross revenue expenditure. There had been sustained improvement in the reported time taken to process new claims, from an average of 50 days in 2003–04 to 44 days in 2004–05 and 42 days for the first quarter of 2005–06. However, this performance was still below the Department's standard of 36 days.

BFI found that a lack of prioritisation and inefficient practices were creating unnecessary delays at each stage of the claims process. This was compounded by a failure to ensure that the evidence provided by its customers met the minimum requirements of the Department's Verification Framework.

Members and senior officers were not aware of very poor performance in preventing and recovering benefit overpayments and overpayment debt had increased by almost 400 per cent. between 2002–03 and 2004–05. Very little action was being taken to minimise avoidable overpayments.

Performance in the application of sanctions against benefit fraudsters was found to have improved. The council applied 11 sanctions in 2002–03, increasing to 37 in 2004–05. However, it had failed to prosecute offenders in nine instances where fraud had been proven. This was due to delays within its Legal Services Department.

The inspection revealed that management information provided to Members, senior officers and the Department was often inaccurate with performance being overstated in some instances. Inspectors found minimal management checks being carried out, inadequate audit coverage and a failure to act on audit recommendations.

My right hon. Friend the Secretary of State is considering the report and may ask the council for proposals in response to BFI's findings.

Benefit Fraud Inspectorate (Falkirk Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Falkirk Council was published today and copies have been placed in the Library.

In 2004–05 Falkirk council administered some £37.7 million in housing benefits, about 10 per cent. of its gross revenue expenditure. The inspection focused on the council's counter-fraud arrangements, as it reported to the Department that it had not applied any sanctions between April 2003 and March 2005.

BFI found that the council had strengths in its processes to limit the opportunities for fraud and error to enter the benefit system. In particular, claims were consistently verified to the standard of the Department's verification framework and effective arrangements were in place to carry out claim reviews and data matches.

However, while the council had a prosecution policy, the inspection found that it did not apply it in practice. Its failure to administer any form of counter-fraud sanction had undermined the council's ability to create an anti-fraud culture and send a clear message to benefit fraudsters.

The inspection also revealed that the council lacked key management controls over its counter-fraud activities. Its investigation work and file management were ineffective and there was a need to improve the monitoring of performance and analysis of casework within the fraud team.

Falkirk council has acknowledged its shortcomings in this area and there is a commitment to improve performance, which includes developing an action plan to address the recommendations made in BFI's report.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings

Benefit Fraud Inspectorate (South Northamptonshire Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on South Northamptonshire council was published today and copies have been placed in the Library.

In 2004–05 South Northamptonshire council administered some £8.7 million in housing benefits, about 20 per cent. of its gross revenue expenditure. The inspection focused on the council's arrangements for processing claims, as it was taking an average of 104 days to process new claims for housing benefit in 2003–04.

BFI found that the council's performance in processing new claims had significantly improved. The average time taken had reduced from 104 days in 2003–04 to 81.5 days in 2004–05, and 43.5 days in the first quarter of 2005–06. While this remained longer than the Department's Standard of 36 days, there had clearly been a considerable improvement in the council's performance.

The inspection revealed a similar situation in the time taken to process changes of circumstances, which had improved from an average of 44 days in 2003–04, to 19.7 days in 2004–05, and 18.7 days in the first quarter of 2005–06. Again, this performance was below the Department's Standard of nine days, but represented a significant improvement.

The council's lack of workload prioritisation and forward planning was causing unnecessary delays. In particular, it had not set any internal targets for Benefits staff. This was compounded by a lack of procedural guidance throughout the Benefits service, leading to inconsistent working practices. Inspectors found that this was one of a number of internal audit recommendations that the council had failed to act upon.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings.

Benefit Fraud Inspectorate (Bridgend County Borough Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Bridgend county borough council was published today and copies have been placed in the Library.

In 2004–05 Bridgend county borough council administered some £33.3 million in housing benefits, about 14.8 per cent. of its gross revenue expenditure. The inspection focused on the council's arrangements for processing claims, as it was taking an average of 58 days to process new claims for housing benefit in 2004–05.

The council introduced a new benefits IT system in April 2004. The subsequent transfer of data and issues with installation resulted in the IT system being inaccessible for six weeks. This led to backlogs of work. Senior management and Members were supportive of the need to address this and employed temporary staff to clear the work.

BFI found that the outstanding work on new claims had been cleared by April 2005 and that processing performance in this area had since improved to 30 days. The inspection identified no other backlogs of work.

Inspectors found that the council had largely overcome difficulties with the implementation of the new benefits IT system and had many good practices in place. The main aspect of performance that required attention related to processing changes of circumstances, which remained below the Department's standard.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings.

Written Ministerial Statements

Tuesday 17 January 2006

DEFENCE

RAF Communications Hub

The Minister of State, Ministry of Defence (Mr. Adam Ingram): Air Combat Service Support Units provide logistics and communications support to RAF aircraft and units on deployed operations. In July 2004 we announced that we had decided to form these units into two hubs: a logistics hub and a communications hub, to enable the more effective use of defence resources. Accordingly, logistics units would move to RAF Wittering (Cambridgeshire); and communications units would move to RAF Scampton (Lincolnshire) alongside Air Surveillance and Control System (ASACS) units.

The build up of the logistics hub at RAF Wittering has proceeded well and is scheduled to be completed by April 2006. Increased site preparation cost estimates at RAF Scampton have caused us to review whether this location remained the best value for money option for a communications hub. This work has now concluded and, subject to Trades Unions consultation, I have decided that the RAF communications hub will be formed at RAF Leeming (North Yorkshire) instead of RAF Scampton as this will be significantly more cost effective.

This means that communications personnel would move from RAF Sealand to RAF Leeming by April 2006. Communications personnel from RAF Brize Norton and RAF High Wycombe would move to RAF Leeming in 2007. The future location of ASACS units, currently at RAF Scampton, RAF Kirton-in-Lindsey and RAF Boulmer, will be the subject of further work.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): I chaired the Agriculture and Fisheries Council on 20 December for the agriculture items on the agenda. The Under-Secretary of State for Environment, Food and Rural Affairs, my hon. Friend the Member for Exeter (Mr. Bradshaw) chaired the fisheries items and the Under-Secretary of State for Environment, Food and Rural Affairs, my hon. Friend the Member for South Dorset (Jim Knight) represented the United Kingdom. The Scottish Environment and Rural Affairs Minister (Ross Finnie), also attended.

The Council unanimously adopted a revised directive on measures to control and eradicate avian influenza and reached unanimous political agreement on funding for avian influenza controls.

In the absence of a qualified majority in favour or against, the Council was unable to reach decisions on the Commission's proposal to authorise the placing on the market of food produced from genetically modified maize variety 1507. In the absence of Council decisions, therefore, the Commission is now free to implement its proposal under its own competence.

The Council adopted conclusions on the Commission's Communication on Simplification and Better Regulation for the Common Agricultural Policy (CAP), stressing actions to deliver real reductions in administrative burdens in the agriculture sector.

The Council adopted the first stage of the European Community and United States agreement on trade in wine, a major achievement after 20 years of negotiation with the EU's biggest export market.

At the request of Germany, the Council discussed the implementation of cross compliance rules under the CAP single payment scheme. In response to concerns from member states the Commission recommended the problem be looked at during the review of cross compliance in 2007.

The Council reached agreement on total allowable catches and quotas for fishing in the Baltic sea and on total allowable catches (TACS) and quotas and related measures in waters outside the Baltic (the latter regulation covers the waters in which the UK has a fishing interest).

The Baltic regulation also included effort control measures, mainly in the form of seasonal closures of parts of the Baltic to protect cod.

The wider regulation included further action to protect cod stocks including modest cuts in days for the whitefish fleet and larger cuts for the smaller mesh sectors which have high levels of discards (mainly beam trawlers and nephrops trawlers). There were also 15 per cent. cuts in cod TACs. Among the other significant changes were large increases in TACs for the important nephrops fisheries and severe restrictions on the industrial fishery for North sea sandeels. The regulation imposes a cut in effort on deep sea stocks and a ban on the use of fixed nets in deep waters to the west of Ireland. All member states agreed the two regulations apart from Sweden who voted against the Baltic regulation and abstained on the general TACs and quota regulation.

Prior to the Council an agreement—after six years of negotiation—had been reached between the EU, Norway, Iceland and the Faroes on a total allowable catch and split of the TAC for blue whiting. The Council agreed a split of the agreed EU share between the interested countries.

The council reached unanimous political agreement on recovery measures for Bay of Biscay sole.

Under "Any Other Business", the Fisheries Commissioner presented an action plan for simplifying and improving the Common Fisheries Policy in 2006-08.

The Health and Consumer Affairs Commissioner updated the Council on the recent outbreaks of avian influenza in Ukraine and Romania. He also gave an update on the development of the Commission's action plan on animal welfare which will be published in January.

Spain, supported by Portugal and Greece called on the Commission to provide assistance to neighbouring third countries, particularly those in North Africa, to combat animal diseases particularly bluetongue and rabies. Discussions would continue in 2006.

Italy, supported by Spain, Germany, The Netherlands, Greece, Portugal, Poland, Hungary, Latvia and Malta, asked the Commission to act to improve the state of the poultrymeat market, following a drop in sales after the avian influenza outbreak. The Commission said it had increased both the level and the product coverage of export refunds for poultry.

The Commission issued a press release, before the Council meeting saying it had decided to end export subsidies on live animal exports to third countries and would put the relevant proposal to Management Committee on 23 December.

The Agriculture Commission decided not to give the planned update on the WTO agriculture negotiations in Hong Kong since all delegations had been represented there, many at ministerial level.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan: London Conference

The Minister for the Middle East (Dr. Kim Howells): The UK will host an international conference on Afghanistan in London on 31 January and 1 February. My right hon. Friend the Prime Minister will open the conference with His Excellency Hamid Karzai, President of the Islamic Republic of Afghanistan, and the UN Secretary-General Kofi Annan. My right hon. Friends the Secretary of State for Foreign and Commonwealth Affairs, the Secretary of State for Defence, the Secretary of State for International Development and I will represent the UK at different sessions.

The conference has three aims:

(a) to launch the Afghanistan Compact, which is the successor to the Bonn Agreement, and will provide a framework for international community engagement in Afghanistan for the next five years. The Compact will also establish a new coordination and monitoring mechanism to achieve greater coherence of effort between the Afghan Government and the international community, led for the latter by the UN.

(b) to provide an opportunity for the Government of Afghanistan to present its interim Afghan National Development Strategy (ANDS) to the international community. The strategy will set out the Afghan Government's priorities for accelerating development, increasing security, tackling the drugs trade, and strengthening governance. The Government of Afghanistan will also launch its updated National Drugs Control Strategy (NDCS) at the London conference.

(c) to ensure that the Government of Afghanistan has adequate resources to meet its domestic ambitions and international commitments. The conference will review existing aid flows and future plans, and agree ways to improve the co-ordination, predictability and effective use of development assistance better to support the Afghan Government's priorities.

While the main conference focus will be the launch of the Afghanistan Compact, there will also be an opportunity to make new pledges in support of the aims outlined in the interim ANDS and the NDCS. Following the opening session and the launch of the Compact, there will be further sessions on political perspectives, security, counter-narcotics, governance and on reconstruction and development. The conference will be co-chaired throughout by the Afghan Government, UK and UN.

HEALTH

Health and Social Care Information (PPP)

The Secretary of State for Health (Ms Patricia Hewitt): A new public-private partnership is to be formed through a joint venture between the Health and Social Care Information Centre (HSCIC), (a special health authority established on 1 April 2005 with responsibility for managing and developing NHS and social care data resources) and Dr Foster Ltd, a commercial provider of healthcare information.

The joint venture takes the form of a new company, to be called Dr Foster Intelligence; 50 per cent. of the company will be owned by the HSCIC, 50 per cent. by a new private company Dr Foster Holdings LLP. All the existing health service related business of Dr Foster will migrate to the joint venture, together with some of HSCIC's existing services. The HSCIC is investing £12 million in the joint venture: a direct injection of £4.4 million equity into Dr Foster Intelligence Ltd to fund working capital requirements and a payment of £7.6 million to Dr Foster as a further contribution to working capital in Dr Foster Intelligence Ltd and to compensate the shareholders of Dr Foster Ltd.

The aim of the joint venture is to improve use and accessibility of information across the health and care system, in support of the overall aim of giving people more choice and control over health and social care. It will compete with other providers of management information solutions to support better commissioning, choice, quality and efficiency: all areas of the reform programme where better use of information by patients, users, professionals and managers is vital.

Dr Foster Intelligence Ltd will be managed as a private company, with a board of six members: three from HSCIC and three from Dr Foster Holdings LLP. It will compete for business on the open market in the health and care system; and it will have no privileged access to data provided by HSCIC. It will be launched officially on 13 February.

The statutory functions of the HSCIC are unchanged. It will retain responsibility for data collection and for ensuring equitable access to public information and will continue to manage national statistics. It will be a principal shareholder in Dr Foster Intelligence Ltd; but it will be free to work with other organisations in the development of data services and products. It will establish an information suppliers forum and will be transparent in the rules governing access to and use of information from the health and care system. A consultation document setting out the details of this approach will be issued in February. This is a positive and welcome example of the public and private sectors combining to work in partnership in support of better services for patients and the public.

HOME DEPARTMENT

A Co-ordinated Strategy for Prostitution

The Parliamentary Under-Secretary of State for the Home Department, (Fiona Mactaggart): The summary of responses to "Paying the Price: A Public Consultation Paper on Prostitution" and a co-ordinated strategy for prostitution have been published today. Copies have been placed in the Library and are available from the Home Office website at: http://www.homeoffice.gov.uk/documents/cons-paying-the-price.

The consultation exercise was the starting point for the development of a realistic and coherent strategy to deal with prostitution and its serious detrimental consequences for individuals and communities. The Government have considered in detail the arguments for and against managed areas and have concluded that they would create misery for the communities in which they were located, could attract other criminal activity and would not necessarily improve safety or conditions for those involved in prostitution. They would also imply an acceptance of street prostitution. Instead the Government's approach is to address all aspects of the street sex market to significantly reduce the numbers of those involved and to restore respect and safety to local communities.

The strategy provides a framework for local areas to disrupt street markets and to crack down on commercial sexual exploitation. It aims to reduce the numbers of those selling sex through preventive measures which will safeguard children and young people at risk of commercial sexual exploitation, and through the development of routes out for those already trapped in prostitution. It aims to reduce the demand for sex markets by sustained enforcement of the law against kerb crawlers. The strategy also focuses on the need to crack down on the groomers, the traffickers and others who control prostitution through the robust legal framework laid down in the Sexual Offences Act 2003.

Written Ministerial Statements

FOREIGN AND COMMONWEALTH AFFAIRS

Oral Answer (Correction)

The Minister for Trade (Ian Pearson): During Foreign and Commonwealth Office oral questions on Tuesday 10 January, in response to a supplementary question from my hon. Friend for Northampton, North (Ms. Keeble), I said that "the United Kingdom is providing £10 million in support for the emergency housing programme"—*Official Report*, column 144. I should have said that the United Kingdom has disbursed over £1 million in support to the international response to Operation Murambatsvina, which has included support for basic supplies, water and sanitation. The £10 million figure actually refers to HMG's commitment to the UN World Food Programme for food distribution. I apologise to my hon. Friend and to the House for this inadvertent error.

HEALTH

Foundation Trusts

The Secretary of State for Health (Ms Patricia Hewitt): Section 4(1) of the Health and Social Care (Community Health and Standards) Act 2003 provides that a National Health Service trust may make an application to Monitor (the statutory name of which is the independent regulator of NHS foundation trusts) for authorisation to become an NHS foundation trust, if the application is supported by the Secretary of State for Health.

I am today announcing that I support the following 18 NHS trusts in their bids to become NHS foundation trusts as part of wave 2 of NHS foundation trust applications:

Chelsea and Westminster Healthcare NHS Trust

Clatterbridge Centre for Oncology NHS Trust

Gloucestershire Partnership NHS Trust

Heatherwood and Wexham Park Hospitals NHS Trust

James Paget Healthcare NHS Trust

North Staffordshire Combined Healthcare NHS Trust

Nothumbria Health Care NHS Trust

Oxleas NHS Trust

Royal Berkshire and Battle NHS Trust

Salford Royal Hospitals NHS Trust

Salisbury Health Care NHS Trust

Sheffield Children's Hospital NHS Trust

Sherwood Forest Hospitals NHS Trust

South Devon Healthcare NHS Trust

South Essex Partnership NHS Trust

South Staffordshire Healthcare NHS Trust

Tameside and Glossop Acute Services NHS Trust

York Healthcare Services NHS Trust

I can also announce that Monitor will be reviewing the applications of six national health service trusts that have previously received the support of the Secretary of State for Health. The trusts are:

Aintree Hospitals NHS Trust

Calderdale and Huddersfield NHS Trust

East Somerset NHS Trust

King's College Hospital NHS Trust

Newcastle upon Tyne Hospitals NHS Trust

Southend Hospitals NHS Trust

Section 6 of the 2003 Act sets out the matters to be taken into account by Monitor and the terms under which authorisation of NHS foundation trust status can be given.

I understand from the Chairman of Monitor that it would expect successful applicant NHS trusts to be authorised as NHS foundation trusts in two batches on either 1 April 2006 or 1 July 2006.

HOME DEPARTMENT

Immigration

The Minister for Immigration, Citizenship and Nationality (Mr. Tony McNulty): As a result of intelligence received in 2001 and July 2004 suggesting systematic fraud in applications for UK Ancestry from Zimbabwean nationals, consideration of such applications was suspended pending further investigation.

In the light of continued evidence of fraudulent Zimbabwean applications for indefinite leave to remain in the UK on grounds of UK ancestry lodged prior to 25 October 2004, I have made an authorisation under section 19D of the Race Relations Act 1976 of six months' duration. This authorisation enables staff in the Immigration and Nationality Directorate to subject these applications to more rigorous investigation than applications from persons of other nationalities, for the purpose of detecting fraudulent applications.

We will review the continued need for this authorisation before its expiry. In addition, the Independent Race Monitor appointed under section 19E of the Race Relations Act 1976 (as amended) will submit a report to the Home Secretary for submission to Parliament on the likely effect of authorisations made by Ministers and on how they are operated in practice by officials.

A copy of the authorisation has been placed in the Library of both Houses of Parliament.

NORTHERN IRELAND

Independent Commissioner for Detained Terrorist Suspects (Annual Report)

The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Shaun Woodward): Copies of Dr Bill Norris's annual report for 2005 have been placed in the Library of both Houses. This is the final report to be submitted by the Commissioner and I am grateful to him for all the hard work he has carried out in this post.

I welcome Dr Norris's report and will consider it carefully. I will respond as soon as possible.

Written Ministerial Statements

Thursday 19 January 2006

CONSTITUTIONAL AFFAIRS

Mental Capacity Act

The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice): My noble Friend the Parliamentary Under-Secretary of State, Baroness Ashton, has made the following written ministerial statement:

"The Department for Constitutional Affairs will publish a consultation paper on the forms and guidance to be used when making a Lasting Power of Attorney tomorrow. The Act provides a statutory framework to empower people to make decisions for themselves as far as possible and protect vulnerable people who are not able to make their own decisions. It enables people to plan ahead for a time when they may lack capacity. A key element of this is the new Lasting Power of Attorney (LPA). The Department is seeking views on the content of the prescribed forms, the prescribed information and the draft guidance to accompany the forms. Copies will be placed in the Libraries of both Houses".

HEALTH

Ofcom Investigation (Telephone Charges)

The Minister of State, Department of Health (Jane Kennedy): The Office of Communications (Ofcom) published its investigation into the price of telephone calls to hospital patients yesterday. A copy has been placed in the Library.

In response, the Department will set up a review group, as originally intended and as recommended by Ofcom, to explore how communication services can be offered to hospital patients without charging as high a price for incoming calls. The group will consist of Department of Health officials, the providers of bedside communications and entertainment services and representation from National Health Service trusts.

The Department has worked closely with Ofcom during its investigation and will continue to do so in taking forward the work of the review group.

The membership and terms of reference of the review group will be agreed as soon as possible and an update will be provided in due course.

HOME DEPARTMENT

Bichard Inquiry

The Secretary of State for the Home Department (Mr. Charles Clarke): The Government have been working hard over a number of years to ensure that those who have either been convicted of sexual offences or who are believed to have been engaged in them are not permitted to work with children.

We set up the Criminal Records Bureau (CRB) in 2002, which has significantly improved the vetting of people working with children and vulnerable adults. It has carried out 8 million disclosures since its inception and in 2005 over 20,000 people in total were refused employment as the result of a CRB check. Since September 1997, we have required individuals convicted of or cautioned for certain sexual offences to notify the police of their personal details and to update them regularly, placing them on what is commonly known as the sex offenders register. That has ensured the police know of their whereabouts. In 2003, we revised these requirements and overhauled the legislation covering sexual offending and last year we launched the violent and sex offenders register, which now contains information on around 50,000 people, of whom the vast majority are convicted offenders.

Sir Michael Bichard produced his report on the Soham murders in June 2004. Since then, we have been driving forward a complex and ambitious programme of work to implement all of his 31 recommendations. So far, 13 have been implemented in full or in part and work is progressing on giving effect to the rest, as set out in the progress report I gave to the House on 7 November 2005. For example, we are taking forward a substantial programme to enhance information management handling capabilities across the police service. This includes:

ensuring since February last year that the Criminal Records Bureau has had access to the Interim Police Local Cross-Check System (I-PLX);

extending this facility to all 43 forces' Child Abuse Investigation Units through the IMPACT nominal index, enabling them to identify which other forces hold information about a specific individual;

improving police information management nationally by bringing a new statutory code of practice into effect in November 2005. That will ensure best practice and consistency of standards across England and Wales and implementation will be underpinned by detailed operational guidance, which will come into effect this spring;

improving the quality of data on the police national computer, as Her Majesty's inspectorate of constabulary have embedded the monitoring of the timely input and quality of all forces' data into their baseline assessments.

We have also made improvements to the Criminal Records Bureau's vetting procedures. These include:

implementing a quality assurance framework in partnership with the police service which standardises disclosure processes across all forces;

the CRB's issue of revised guidance to all registered bodies, strengthening the disclosure application processes;

enabling the CRB to access information from a wider range of appropriate data sources to strengthen further the vetting regime.

My right hon. Friend the Secretary of State for Education and Skills is driving forward the recommendations which fall to her Department, in consultation with others, as appropriate. These include:

establishing a new integrated vetting and barring scheme, together with the enabling legislative framework;

rolling out on-line training of head teachers and governors in those child protection issues which arise as part of recruitment and selection procedures.

In the light of recent events, the Home Office has discussed with the Association of Chief Police Officers what more might be done to ensure the Department for Education and Skills are informed as soon as information linking an individual to a sexual offence comes to light, if that individual is thought to be working with children. I am writing today to all chief constables, to the Prison and Probation Services and to the Youth Justice Board, to restate how the current system works, the way in which it is changing and the priority the Government attach to the protection of children.

However, the key to avoiding the risk of recruiting unsuitable individuals to work with children lies in the employer undertaking the appropriate checks through the CRB, whose disclosure service will reveal any criminal conviction, caution or reprimand which has led to the person being made subject to sex offenders registration. It will also allow chief constables the opportunity to disclose that someone is on the sex offenders register in appropriate cases. That is why my right hon. Friend, the Secretary of State for Education and Skills is today announcing that those checks will in future be a mandatory requirement.

NORTHERN IRELAND

Fifth Report by Justice Oversight Commissioner

The Secretary of State for Northern Ireland (Mr. Peter Hain): The Government have received and welcomed the fifth report from the Justice Oversight Commissioner, the right hon. Lord Clyde, on the progress achieved in implementing the recommendations of the Review of the Criminal Justice System in Northern Ireland. Consistent with his terms of reference, the report was submitted to the Attorney-General and as in the Secretary of State's statement.

Lord Clyde concludes that the last six months has been a period of consolidation and general steady progress. He acknowledges that progress has continued on a number of fronts with some important developments including: the signing of an Intergovernmental Agreement on co-operation on criminal justice matters; the bringing of 17-year-olds within the ambit of the youth court; the introduction of a criminal justice module as part of the post primary school citizenship agenda; and the launch of the Probation Board's Victims' Information Scheme. He concludes that the implementation of the recommendations is now generally far advanced. The Government warmly endorse these conclusions.

Copies of the Commissioner's report have been placed in the Library.

Written Ministerial Statements

Friday 20 January 2006

TREASURY

Finance Bill Measures

The Paymaster General (Dawn Primarolo): Legislation will be included in the next Finance Bill to stop financial institutions and share dealers claiming wholly artificial losses by buying and selling the right to a dividend on shares and claiming that the sale proceeds are exempt from tax.

Schemes have been disclosed to HM Revenue and Customs (HMRC) under the legislation in Part 7 Finance Act 2004 which seek to exploit a perceived weakness in section 730 of the Income and Corporation Taxes Act. HMRC believes that the schemes may not work, but to put the matter beyond doubt, subsection (3) of section 730 will be repealed.

The repeal will be effective in relation to any sale, transfer or other realisation of a right to receive a dividend taking place on or after today.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Grey Squirrels

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jim Knight): I am pleased to advise that we will, on Sunday 22 January, publish a Policy and Action Statement for the management of the Grey Squirrel in England's Woodlands. This has been prepared jointly by the Forestry Commission England and Defra.

The grey squirrel was introduced into this country in the 19th century and has spread widely. Grey squirrels are enjoyed by many as part of our wildlife but also represent a serious and growing threat to our native woodland and priority species.

This policy will set out the rationale and actions for the control of grey squirrels.

The Forestry Commission will continue to provide best practice guidance on the control of grey squirrel populations and will be targeting support where it will be most beneficial.

Copies of the Policy and Action Statement will be placed in the Libraries of both Houses on Monday and will also be available on Sunday from 7.30 am on the Forestry Commission website at: http://www.forestry.gov.uk/greysquirrel.

FOREIGN AND COMMONWEALTH AFFAIRS

Rendition Allegations (Inquiries)

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): Some media reports over the last 48 hours, based on a leaked Government document, have suggested that the Government may be aware that there have been cases of "extraordinary rendition" through UK territory or airspace about which it has not informed Parliament.

This is not the case. I have given Parliament clear answers, updated as information has become available to me. The following chronology makes this clear:

7 December: the leaked document was sent by my office to the Prime Minister's Office, setting out our understanding at that time.

12 December: after continuing searches of official records over the following few days, my written answer to the right hon. Member for North East Fife, (Sir Menzies Campbell), Official Report, Column 1652W,set out the facts as they had then been established: there had been three instances in 1998 where the US authorities had requested permission to render a detainee through UK territory or airspace; and in two of these cases, where the detainee was to be transferred to the US for trial, the US request had been granted. In the other case, it had been refused. I added that officials continued to search the records.

13 December: I discussed these issues at length in my public evidence session with the Foreign Affairs Committee.

10 January: I issued a written ministerial statement saying that Foreign and Commonwealth Office officials had now completed a search of their records back to May 1997. This search had turned up one further case, also in 1998: the Government had declined a US request to refuel a flight carrying two detainees en route to the US.

To summarise the position:

We have found no evidence of detainees being rendered through the UK or Overseas Territories since 11 September 2001.

We have found no evidence of detainees being rendered through the UK or Overseas Territories since 1997 where there were substantial grounds to believe there was a real arisk of torture.

There were four cases in 1998 where the US requested permission to render one or more detainees through the UK or Overseas Territories. In two of these cases, records show the Government granted the US request, and refused two others.

Since before September 2001 we have worked closely with the US to achieve our shared goal of fighting terrorism. As part of that close co-operation, we have made clear to the US authorities, including in recent months:

that we expect them to seek permission to render detainees via UK territory and airspace (including Overseas Territories);

that we will grant permission only if we are satisfied that the rendition would accord with UK law and our international obligations, and

how we understand our obligations under the UN Convention Against Torture.

We are also clear that the US would not render a detainee through UK territory or airspace (including Overseas Territories) without our permission. As noted above, the US has sought such permission in the past.

The Government are committed to fulfilling their obligations under United Kingdom and international law. I have sought throughout to keep the House informed of developments. And shall do so again if new information comes to light.

Military-listed Exports (Bosnia and Herzegovina)

The Minister for Europe (Mr. Douglas Alexander): In December 2005, the Government issued one licence for the export of 20 units of body armour to the Ministry of Justice, Judicial Police in Bosnia-Herzegovina. The equipment will be used by the Judicial Police in operations to protect against crime and preserve the safety of the civilian community or for humanitarian activities.

An EU arms embargo has been in place against Bosnia and Herzegovina since 1996. The purpose of the embargo was to aid the establishment of peace and stability for the people of the region, taking into account in particular the need to ensure the safety of international troops and civilian personnel deployed. The embargo was amended in 1999 to exclude demining equipment and the transfer of small arms to the police.

We fully support the EU embargo. However, we are, in limited circumstances, prepared to make exceptions where denying an export would frustrate the purposes of the embargo. The UK has been active in encouraging Bosnia and Herzegovina to take greater responsibility for maintaining the rule of law and strengthening civilian policing. I am confident that granting this exception is fully consistent with this responsible approach of supporting the development of civilian policing whilst respecting the aims of the embargo.

Written Ministerial Statements

Monday 23 January 2006

TREASURY

ECOFIN

The Chancellor of the Exchequer (Mr. Gordon Brown): Items on the agenda are as follows:

Presidency Work Programme—The Austrian Presidency will give a presentation on its major priorities for the next six months;

Stability and Growth Pact—ECOFIN will adopt Council Opinions on the Stability and Programme of Finland and the Convergence Programmes of Denmark, Sweden, the Czech Republic, Hungary and Slovakia; and a Council Decision under Article 104(6) and Recommendation under Article 104(7) of the EC Treaty with regard to the UK;

Preparation of the European Council—Council will discuss the forthcoming Commission Annual Progress Report in the run up to the Spring European Council. Council will also adopt conclusions on the Economic Policy Committee Report regarding the quality of EU public finances;

Taxation: VAT Reduced rates—ECOFIN will seek political agreement on the VAT Reduced Rates dossier;

Energy Issues—ECOFIN will discuss energy issues following on from its December meeting.

Identity Fraud

The Paymaster General (Dawn Primarolo): The Parliamentary Under-Secretary of State for the Home Department, my hon. Friend the Member for Leigh (Andy Burnham), and I are today meeting the banking industry to discuss the application of the Government's identity fraud strategy.

The Home Office is today making a statement about the national strategy for tackling ID fraud. Within this strategy, the Treasury and the FSA are working with the financial services industry to ensure it has in place the most effective systems to fight financial crime. New industry guidance to be published shortly will strengthen the system of ID checks while reducing the inconvenience for the consumer.

HMRC will carry out an assessment of the typical profile of frauds committed against it, to assist the banks in identifying suspect payments and accounts, enabling them to make timely suspicious activity reports to the National Criminal Intelligence Service (NCIS). HMRC will contact any firms that have been party to these frauds.

The Chancellor and the Home Secretary recently asked Sir Stephen Lander, chair-designate of the forthcoming new Serious Organised Crime Agency (SOCA), to undertake a review of the suspicious activity reporting regime. Sir Stephen is to report by the end of March 2006.

CONSTITUTIONAL AFFAIRS

Constitutional Reform Act

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My noble Friend the Secretary of State and Lord Chancellor has made the following written ministerial statement.

"The Government announced plans for significant constitutional reform on 12 June 2003, designed to enhance the independence of the judiciary and to ensure clarity in the relationship between the Executive and the judiciary. I plan shortly to introduce the required statutory instruments to bring into force those parts of the Constitutional Reform Act 2005 that will deliver the central aspects of those reforms. As of 3 April 2006, I intend to bring the new Judicial Appointments Commission into being and commence those aspects of the Act that give statutory effect to the provisions of the concordat I agreed with the Lord Chief Justice.

Roles of the Lord Chancellor and Lord Chief Justice

As of 3 April, the Lord Chancellor's role as a judge will cease. The Lord Chief Justice will hold the additional title of President of the Courts of England and Wales and be legally recognised as the head of the judiciary in England and Wales. As set out in the Concordat, the role of the Lord Chief Justice will be significantly reformed and strengthened. To support the Lord Chief Justice, the Judicial Office for England and Wales has been established and the new head of that office has recently been appointed and taken up post.

"In addition, to give effect to the new arrangements for the handling of judicial disciplinary matters, a new office for judicial complaints will be established. The arrangements relating to judicial complaints and discipline will be published shortly".

Judicial Independence and Rule of Law

As of 3 April, for the first time there will be a guarantee of continued judicial independence enshrined in statute, underpinned by particular duties binding on the Lord Chancellor and Ministers of the Crown to uphold judicial independence. The Act also formally recognises the constitutional principle of the rule of law and the Lord Chancellor's role in relation to that principle.

Judicial Appointments Commission

As of 3 April 2006, the Judicial Appointments Commission will be formally launched. The appointment of Baroness Prashar as the inaugural Chair of the new Commission was announced on 6 October 2005. The Queen has given effect to the following appointments:

Judicial members

Lord Justice Sir Robin Ernest Auld

Lady Justice Heather Hallett DBE

Her Honour Judge Frances Margaret Kirkham

District Judge Charles William Frank Newman

Tribunal member

His Honour Judge David Stephen Pearl

Lay Justice Member

Lorna May Boreland-Kelly DBE JP

Professional Members

Mr Jonathan Philip Chadwick Sumption QBE QC

Mr Edward Nally

Lay Members

Professor Hazel Gillian Genn CBE

Sir Geoffrey David Inkin QBE

Mr Francis John Plowden

Ms Harriet Greville Spicer

Ms Sara Catherine Nathan

The appointment of the final judicial member will be announced shortly.

The Judicial Appointments Commission will have responsibility for making selections for the appointment of all judicial office-holders (as provided for in schedule 14 to the Constitutional Reform Act 2005). Baroness Prashar, the Lord Chief Justice and I have considered the arrangements necessary to ensure that the Commission can make the decisive and confident start that we are all agreed is essential. Details of these agreed arrangements have been published today on my Department's website at: http://www.dca.gov.uk/pubs/statements/st060123.htm. They will ensure that the transitional period is as short as possible, while bringing about a smooth and effective handover of business to the new Commission."

CULTURE, MEDIA AND SPORT

TV Licence

The Secretary of State for Culture, Media and Sport (Tessa Jowell): The television licence fee settlement announced by the Government in February 2000 provides for changes in the licence fee of RPI plus 1.5 per cent. for each year from 2000–01 to 2006–07. This settlement is designed to enable the BBC to provide a strong and distinctive schedule of high quality programmes and remain at the forefront of broadcasting technology. The settlement includes a requirement for the corporation to raise over £1 billion through efficiency savings and increased income over the period.

Application of the RPI figure of 2.7 per cent. for the year to September 2005, plus 1.5 per cent., to the current un-rounded licence fees produces new rounded totals of £131.50 for a colour licence and £44.00 for a black and white licence. The necessary regulations to bring these fees into force will be laid before the House in due course. The changes will come into effect from the 1 April this year.

DEPUTY PRIME MINISTER

Fire Prevention Grants

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Jim Fitzpatrick): I have today announced £11.4 million grant funding for fire and rescue authorities in England over the period April 2006 to March 2008 to support fire prevention work, including community fire safety, arson reduction and work with children and young people. This single grant to all fire and rescue authorities will replace the grants paid to some authorities under the Community Fire Safety Innovation Fund and the Arson Control Forum Implementation Fund in 2003–06, and provide revenue funding to complement the capital grants paid to all fire and rescue authorities under the Home Fire Risk Check Initiative in 2004–08.

Our substantial investment will support fire and rescue authorities, in partnership with others, to make continuing reductions in accidental fire deaths in the home and deliberate fires and to reduce inequality in the impact of fire by reaching the deprived households and communities most at risk. The additional funding will also assist the Government's wider neighbourhood renewal plans and complements our antisocial behaviour action plan launched recently. Copies of a table summarising the successful bids are available in the Library of the House.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): I will be representing the United Kingdom at this month's Agriculture and Fisheries Council.

This being the first Council of the Austrian Presidency, the new Chairman of the Council will start by setting out his Presidency work programme.

The Energy Commissioner and the Agriculture Commissioner will then jointly present the Commission's Communication on a Biomass action plan. It covers four broad areas: use of biomass in heating and electricity generation; use of biofuels for transport; cross-cutting issues such as information campaigns; and research. There will also be an exchange of views on the action plan, during which I will intervene to welcome the initiative.

The Agriculture Commissioner will then present her proposal on organic farming, which aims to simplify and improve the structure of current regulations, setting out the scope of organic production and definitions for organic food. She will also present a proposal on changes to the rules for protected geographical indications and traditional specialties for agriculture products, which need changing to comply with a WTO ruling. These are simply presentations of the proposals to the Council with no discussion likely at this stage.

Cyprus will seek Council approval for a national state aid which it wishes to pay farmers and others as compensation for debts arising following the Turkish military intervention there.

In the afternoon, the Commissioner for Health and Consumer Protection will present the Commission's action plan on animal welfare. He will also update the Council on the Avian Influenza outbreak including the outcome of the Donor Pledging Conference in Beijing and the situation in Romania and Turkey.

There will be a lunch at which the Agriculture Commissioner will update the Council on the outcome of the WTO agricultural negotiations in Hong Kong and the next steps.

HEALTH

Strategic Health Authorities

The Secretary of State for Health (Ms Patricia Hewitt): In my statements of 18 October 2005, *Official Report*, columns 49–50WS, and 1 December 2005, *Official Report*, columns 36–37WS, I set out the need to streamline strategic health authorities (SHAs) and strengthen primary care trusts (PCTs) and the timetable and process for local consultations on these changes. Local consultations on changes to the boundaries of SHA began on 14 December 2005, *Official Report*, columns 151–153WS.

The NHS Chief Executive, Sir Nigel Crisp, has now announced the appointment of 11 people who will lead the transition between current and future SHAs. The transition leads will take on this responsibility from 1 February until, subject to the final results of the consultation, new SHAs are created. Their task will be to oversee the creation of the new system over the next six months and specifically to:

oversee planning for next year

the development programme for existing and new PCTs

communications.

These arrangements are being made for essential business continuity purposes. They do not prejudice the outcome of the consultation on the future shape of SHAs and each current SHA Board will remain accountable to the Department of Health for their part of the NHS until Ministers determine whether, following the consultation, to establish new SHAs. Existing SHAs will remain responsible for managing the consultation process following Commissioning a Patient-Led NHS.

The transition leads will ensure consistent management of the outcome of the consultation process across the cluster. Following the consultation process, if Ministers decide to establish new SHAs, the transition leads will be responsible for oversight of the process for establishing the new SHA, until permanent appointments are made. We expect to make permanent appointments to any new SHAs, if necessary, in the summer.

We have emphasised that it is essential to ensure that the transition leads are creating a new system locally which works effectively with all our partners and stakeholders and, particularly, promotes joint working between health and social care and in the field of public health.

The following have agreed to be SHA transition leaders:

John Bacon—London

Mike Farrar—Yorkshire

David Flory—North East

Neil Goodwin—North West

Terry Hanafin—Eastern

Thelma Holland—South West (South West Peninsula and Dorset/Somerset)

Trevor Jones—South West (Avon, Gloucestershire and Wiltshire)

Candy Morris—South East (Kent and Medway, Surrey and Sussex)

David Nicholson—West Midlands

Nick Relph—South East (Thames Valley/Hampshire and Isle of Wight)

David Sissling—East Midlands

HOME DEPARTMENT

Identity Fraud

The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham): Further to Baroness Scotland's statement of Wednesday 18 January, the Paymaster General and I are this afternoon meeting senior figures in law enforcement and the banking sector to discuss action against ID fraud. The significance of ID fraud has been further emphasised by recent attempts by organised criminals to defraud the tax credit system.

The meeting will discuss further ways of improving joint working on ID fraud, in particular through developing the work of public-private groups like the Home Office-led Identity Fraud Steering Committee (IFSC). Criminals who target the public sector are also likely to target the private sector. The meeting will also be discussing ways of ensuring the maximum appropriate sharing of information to protect public and private sector organisations from ID fraud.

As Baroness Scotland set out in her statement, the introduction of a secure national identity scheme/ identity cards scheme using biometric information will make a step change in protecting people from identity fraud. As part of the work of the Ministerial Committee on ID cards, HMRC and the Home Office continue to evaluate the role of the national identity register in combating identity fraud.

At the meeting, the Paymaster General and I will be proposing a four step action programme to be taken forward urgently over the next few months under the Identity Fraud Steering Committee:

First, Government will explore with CIFAS—the UK's Fraud Prevention Service—the procedures for notifying them of the details of employees whose identities have been compromised as a result of large scale ID theft. This will help ensure that employees whose records have been stolen will not suffer adverse impact on their credit ratings and protect their identities from further abuse.

Secondly, the IFSC will take forward urgently plans to encourage credit reference agencies and CIFAS to share information with the public sector, for example by welcoming public sector organisations into the CIFAS membership. It will also work to ensure public sector organisations take full advantage of these new opportunities, for example by becoming full members of the CIFAS network. This will ensure that the details of criminals who defraud, for example, the tax credit system are shared in the same way as those criminals who attack private sector organisations. This will enable partners in both the public and private sector to detect and prevent identity related crime.

Thirdly, the National Criminal Intelligence Service (NCIS) and the Serious Organised Crime Agency (SOCA) will carry out a strategic review of all suspicious activity reports relating to tax credit and identity fraud to inform the strategy to tackle this threat.

Fourthly, HMRC will produce an assessment of the typical profile of frauds committed to assist the banks in identifying suspect payments and accounts, enabling them to make timely suspicious activity reports to NCIS and SOCA.

TRADE AND INDUSTRY

Energy Review

The Minister for Energy (Malcolm Wicks): Further to the statement made, by the Secretary of State for Trade and Industry on 29 November 2005 launching the Energy Review, I am pleased to inform the House that the Government have today launched the public phase of this Review, and that I have written to all MPs to inform them of the launch.

The consultation has a broad scope and will consider both energy supply and demand. The consultation reinforces the Government's commitment to the four main policy goals as set out in the 2003 Energy White Paper:

- to put ourselves on a path to cut the UK's carbon dioxide emissions—the main contributor to global warming—by some 60 per cent. by about 2050 with real progress by 2020;
- to maintain the reliability of energy supplies;
- to promote competitive markets in the UK and beyond, helping to raise the rate of sustainable economic growth and to improve our productivity; and
- to ensure that every home is adequately and affordably heated.

The consultation document sets out the energy challenges we are currently facing, and invites responses to the evidence presented as well as asking what more should be done to secure clean, affordable energy for the long term, I am keen to stimulate a wide-ranging and informed debate on energy policy issues.

I have made copies of the consultation document, "Our Energy Challenge: securing clean, affordable energy for the long term" available in the Vote Office and the Libraries of the House. Copies and further information are also available on the Internet at www.dti.gov.uk/energy/review.

The key questions posed by the consultation document are:

- What more could the Government do on the demand or supply side to ensure that the UK's long-term goal of reducing carbon emissions is met?
- With the UK becoming a net energy importer and with big investments to be made over the next 20 years in generating capacity and networks, what further steps, if any, should the Government take to develop our market framework for delivering reliable energy supplies? In particular, we invite views on the implications of increased dependence on gas imports.
- The Energy White Paper left open the option of nuclear new build. Are there particular considerations that should apply to nuclear, as the Government re-examine the issues bearing on new build? If so, what are these, and how should the Government address them?
- Are there particular considerations that should apply to carbon abatement and other low-carbon technologies in the context of electricity generation?
- What further steps should be taken towards meeting the Government's goals for ensuring that every home is adequately and affordably heated?

Comments are also invited on:

- The long term potential of energy efficiency measures in the transport, residential business and public sectors, and how best to achieve that potential
- Implications in the medium and long term for the transmission and network networks of significant new build in gas and electricity generation infrastructure
- Opportunities for more joint working with other countries on our energy policy goals
- Potential measures to help bring forward technologies to replace fossil fuels in transport and heat generation in the medium and long term.

The Government have a genuinely open mind on solutions. However, it is clear that there are no simple "one-technology" answers. The Review will take account of the evidence gathered during the consultation when developing its proposals.

Written Ministerial Statements

Tuesday 24 January 2006

INTERNATIONAL DEVELOPMENT

Ethiopia

The Secretary of State for International Development (Hilary Benn): I visited Ethiopia on 18 January and met Prime Minister Meles, leaders of the Opposition, family members of detainees and international NGOs in Addis Ababa. I expressed our deep concern over recent political events and told the Prime Minister that the UK will not at present provide general budget support to Ethiopia under current circumstances. This is because the provision of budget support is based upon shared commitments between partners, one of which is upholding human rights. Recent political events represent a breach of trust.

All donors who have been giving budget support have now reached the same conclusion to withhold this form of support in the current circumstances and wrote to the Minister of Finance in December of last year to explain the decision.

However, the UK remains committed to supporting poor people in Ethiopia in their fight against poverty. Ethiopia is desperately poor and already receives less aid per head than any other country in sub-Saharan Africa. It would be wrong therefore to reduce our aid programme, and thereby punish the poor in Ethiopia for recent political events in the country.

We are therefore working with other donors and the Government to try to design a new mechanism for providing funds in a more transparent and accountable way. This is so that basic services such as health, education and water can continue to be provided throughout the country and that we can be sure that aid is reaching those in need. We are also looking at providing additional assistance to the Productive Safety Nets Programme. This is a programme which the UK is already supporting and which, as I was able to see for myself in Ethiopia, is enabling the poorest to earn or receive small amounts of money to invest in assets like clothes, chicken and goats and for communities to improve their conditions, for example by building roads, water springs and classrooms.

Southern Africa

The Secretary of State for International Development (Hilary Benn): Since my statement of 8 December, the number of people assessed to be at risk of food shortages in Zimbabwe, Malawi, Zambia, Mozambique, Lesotho and Swaziland has remained at around 11.4 million.

The Scale of the Problem

Rains started late across the region. During the past few weeks, however, very heavy rains have flooded parts of Malawi and Mozambique, leading to loss of lives, crops and homes. The Governments of Malawi and Mozambique do not think that additional emergency assistance is needed at the moment. But we are monitoring the situation closely, especially in Mozambique, as the cyclone season approaches and the risk of further flooding increases.

The period between January and the end of March/April, when harvests start to come in and the price of staple food crops begins to fall, is particularly difficult. At the moment, food shortages are worst in Zimbabwe, southern Malawi, and southern Mozambique.

The breakdown by country is as follows:

Zimbabwe: The national assessment was formally released on 17 November and indicates that 2.88 million people will face food shortages, assuming stable maize prices. However, maize prices have risen significantly and, while hyperinflation in Zimbabwe makes it difficult to assess affordability, it is possible that as many as 5 million people face food shortages. Despite this, widespread starvation is unlikely. Recent nutritional data shows that malnutrition is below emergency levels. The underlying causes of food shortages are a combination of erratic rains, HIV/AIDS and bad governance. WFP has expanded operations in the country, helped by a £10.5 million contribution from DFID. They are providing rations to 3.4 million vulnerable people during the peak months until the harvest comes in at the end of March. In addition, approximately 1 million schoolchildren, orphans and people affected by HIV/AIDS are benefiting from supplementary feeding programmes. WFP signed a Memorandum of Understanding with the Government of Zimbabwe on 1 December which guarantees WFP and their implementing partners humanitarian access and freedom from political interference in their operations. Only a few minor attempts to politically interfere with the food aid operation have been reported. These have been dealt with appropriately.

The UN Under-Secretary General for Humanitarian Affairs and Emergency Relief Coordinator, Jan Egeland, recently visited Zimbabwe. He urged the Government to allow NGOs free access to assist the affected population. It is regrettable that the Zimbabwe Government continue to delay and obstruct UN Agencies in their attempts to provide shelter to displaced people. Despite these problems, the UN and NGOs continue to operate relief programmes reaching 40,000 affected households, including those affected by HIV and AIDS, providing food, blankets, medical care and other essential items. DFID's most recent commitments are helping tackle problems of overcrowding and access to basic services for the worst affected people in urban areas.

Malawi: The numbers at risk of experiencing some food shortages before the next harvest has not changed since my last statement. Around 4.9 million people are affected. The Government and WFP are implementing a coordinated emergency response across affected areas of the country. We are supporting these efforts. Plans are in place to reach all of those facing food shortages in the period leading up to the harvest in March/April 2006. Total aid pledged so far to the Government and to WFP's humanitarian operation is $116 million.

Zambia: The numbers of people in Zambia facing food shortages before the next harvest in March/April remains at around 1.4 million people. Most of them live in the Southern, Western and Eastern Provinces of the

country. The Government have appealed for assistance and have declared a national disaster. WFP, the Government of Zambia and an NGO consortium are leading the response. Priority concerns over the next few weeks are in ensuring that food aid reaches those most in need—supplies have been limited due to transport bottlenecks—and that the nutritional situation does not deteriorate.

Mozambique: A total of about 800,000 people face some degree of food shortage until the end of April. WFP continues to scale up its distribution of food aid and plans to feed 75 per cent. of the worst affected populations between now and the end of the hunger season. The cereals pipeline is healthy until the end of April. Flooding has affected parts of central and southern districts of the country. Although this has not yet increased the numbers of people who face food shortages, further flooding and cyclones could increase the numbers in need of assistance. A national contingency plan is in operation to monitor flooding risks.

Lesotho: Assessments in Lesotho have not changed. About 440,000 people could face food shortages until the end of March. WFP have adequate supplies until the end of April. Commercial imports of maize from South Africa have been good this year and these have helped to keep prices stable. The Government of Lesotho are responding through safety nets, including a recently introduced pension for those over 70 years of age. With support from DFID and FAO, implementing partners are promoting seeds distribution and livestock programmes in the worst affected areas.

Swaziland: Assessments in Swaziland have also not changed. About 225,000 people could face food shortages until the end of the hunger season. As in Lesotho, other responses to chronic hunger, apart from food aid, are being encouraged. These include providing seeds and fertiliser to poorer households. Late rains in Swaziland have created problems for the maize crop, which is planted earlier in the year. The Ministry of Agriculture and co-operatives will undertake a rapid assessment at the end of the month to check the latest situation. We will closely monitor the situation through our links to the VAC system.

What are the UK Government doing?

In response to this crisis, the UK Government have now allocated over £65 million in humanitarian assistance for the region this year. Some of this has been channelled through UN agencies and some has gone through Governments or NGOs. The breakdown of our commitments so far this year is as follows:

Zimbabwe: £40 million covering relief programmes for up to 3 million people provided through non-Government channels, including contributions to WFP and HIV/AIDS programmes. DFID has also committed over £1 million in response to the Government of Zimbabwe's forced clearance of unauthorised dwellings earlier this year, under Operation Murambatsvina ("Clean Up"), which displaced or destroyed the livelihoods of 700,000 people.

Malawi: DFID has contributed £19.7 million (equivalent to US$35 million) or about 30 per cent. of total food needs. This makes DFID the largest contributor to the relief effort this year. Our support has been used largely to purchase food for distribution in affected districts in the centre and northern areas of the country. It has also provided logistical support, and money for seeds and other inputs. It has also allowed for an expansion of nutritional programmes across the country. Planning for the emergency began in March with help from early pledges from the UK.

Zambia: DFID has provided a range of assistance to help people facing food shortages this year. We have given £2.43 million to WFP for food aid programmes to cover the needs of approximately 150,000 people. In addition, we have also provided £1 million to Oxfam for a programme of cash transfers to provide emergency relief to approximately 81,000 people in need. We have also provided £500,000 for emergency seed distribution to 20,000 vulnerable households. To stem the risk of worsening malnutrition in Zambia, we are providing £500,000 for nutrition programmes, targeting vulnerable groups.

Mozambique: We have already provided £235,000 to provide seeds to drought-affected farmers, using the Ministry of Agriculture's drought mitigation plan. WFP's cereals pipeline is currently healthy until the end of the hunger season. We are working with WFP to see how we can help fill funding gaps in the vegetable, oil and pulses pipelines between now and the end of the hunger season. This will improve the protein content of rations distributed by WFP. We are also carefully monitoring flooding and cyclone risks.

Lesotho: We have provided FAO with £350,000 for distribution of seeds, fertilisers and small-scale livestock interventions for affected households in Lesotho.

Swaziland: We have provided £300,000 for distribution of seeds and fertilisers to help vulnerable households. In both Lesotho and Swaziland, we have supported programmes that help diversify production towards more drought-resistant crops.

I am once more urging EU partners to review their response to current needs in the region and to co-ordinate closely with the UN in the international community's response. I also urge them to consider support for strengthened early warning systems and better vulnerability assessments in the region. Improvements in this are needed to ensure better responses to hunger.

The Wider Challenge

As I said in my last statement, we must address the high levels of chronic hunger in southern Africa more effectively and take action to reduce the risk of repeated crises affecting the region.

In addition to the short-term responses I have outlined, and as we have done in previous years, DFID will work with SADC as part of a wider effort to improve vulnerability assessment and analysis in the region. This is needed to improve the effectiveness of our response to hunger. We will be providing funds to allow the VAC system in southern Africa to undertake further needs assessments later this year.

TRADE AND INDUSTRY

Regional Development Agencies

The Minister for Industry and the Regions (Alun Michael): I am publishing today the reported mid-year output results for 2005–06 for England's regional development agencies.

The data show the progress made by the regional development agencies between April and September 2005 in delivering against the core output targets set in RDA corporate plans for 2005–08. The figures cover employment creation and support, business creation and support, leverage of reclamation/redevelopment, and skills development.

Copies of the mid-year output results have been placed in the Libraries of both Houses and the results have also been placed on the DTI website at: www.dti.gov.uk/rda/info.

TRANSPORT

Disability Rights Commission (Transport Vehicles)

The Parliamentary Under-Secretary of State for Transport (Ms Karen Buck): I have today laid copies of the Disability Rights Commission's (DRC's) draft Code of Practice on the provision and use of transport vehicles before the House.

The Code, which has been developed in consultation with major stakeholders including industry representatives and the Disabled Persons Transport Advisory Committee and been subject to public consultation, is a supplement to the DRC's existing Code of Practice: Rights of Access to Services and Premises for all other service providers, and it is intended to be read in conjunction with that publication.

It is designed to assist the operators of rail vehicles (including light rail, underground and trams), buses, coaches, taxis, private hire vehicles, vehicle hire, breakdown services and vehicles used on leisure and tourism transport services in meeting their new duties under Part 3 of the Disability Discrimination Act (DDA) 1995 as amended by the DDA 2005.

The new duties, which stem from the Disability Discrimination (Transport Vehicles) Regulations 2005, will come into force on 4 December 2006.

When the regulations are in force, disabled people will have certain rights to transport services in the same way as they do to other services such as shops and banks.

Written Ministerial Statements

Wednesday 25 January 2006

DEFENCE

Historic Medals

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): I am announcing today that I have approved significant additional resources for the Ministry of Defence medal office in order that it may further improve the delivery of existing medals and reduce the existing backlog of applications for historic medals.

When the Ministry of Defence medal office was formed last February there were some 50,000 medal applications of all kinds awaiting action. This total has been reduced to 24,000 against a background of an enormous and unprecedented demand for medals arising from current operations such as Iraq and for historic campaigns such as Suez and World War II. There are currently some 9,000 World War II medal applications outstanding, with a further 780 applications on average a month.

The 60th anniversary celebrations to mark the end of World War II have led to a resurgence of interest in historic medals. In particular, applications received from second and subsequent generations, claiming on strength of their next of kin status, have increased significantly, and this has resulted in an average application taking up to 14 months to process because of the onerous nature of the research of historic files involved.

I have therefore decided to re-prioritise applications to give precedence to veterans and spouses ahead of second and subsequent generation applications. I understand that for some it may result in a slightly longer wait initially. However, in order to ensure both veterans and spouses receive the medals to which they are entitled, we must also consider their age, and this means they should not have to wait any longer than is absolutely necessary.

In addition I have directed that the team processing World War II medal applications should be expanded by an additional 21 staff—the maximum we can train in this specialist task without total diversion of our current experts. Six of these posts have already been filled and further recruitment action is already under way. With successful recruitment, I expect the backlog of applications for veterans and spouses to be cleared by the end of July 2006, and later generation applications by the end of October 2006.

Thereafter, I would expect to see all new applications for historic medals being processed within four months of receipt of the application.

FOREIGN AND COMMONWEALTH AFFAIRS

Entry Clearance Refusals

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): I have pleasure in announcing the appointment of Mrs. Linda Costelloe Baker as independent monitor for entry clearance refusals without the right of appeal. Mrs. Costelloe Baker succeeds Ms Fiona Lindsley whose appointment ended on 30 November 2005.

Mrs. Costelloe Baker is the fourth independent monitor. The position is full-time and the monitor will be expected to submit two reports a year to lay before the House.

HEALTH

NHS Finance

The Secretary of State for Health (Ms Patricia Hewitt): Further to my statement on 1 December 2005, *Official Report*, column 37WS, I am today publishing a report showing the action that my Department is taking to achieve financial turnaround in the national health service. The report has been placed in the Library.

On 1 December I published unaudited in-year financial forecasts for each NHS trust, primary care trust and strategic health authority. Those figures showed that halfway through the financial year NHS bodies were forecasting a net deficit by year-end of around £620 million.

Today Mr. Richard Douglas, finance director at the Department of Health, has produced a report on the organisations that are currently overspending and the conditions required to deliver a sustainable financial position for all organisations.

The majority of NHS organisations are successfully managing their finances, delivering balance or better, as well as cutting waiting times and generally improving services. A minority of organisstions are overspending by significant amounts.

The focus is on the organisations with the largest financial challenges and the Department and the NHS are employing turnaround techniques that are more widely used in the private sector. These focus on delivering organisational turnaround covering both finance and patient care. We will never compromise patient care.

Initial analysis, supported by KPMG, of the 62 organisations with the largest financial problems suggests that 18 require urgent intervention. Where this is not already being provided it is being commissioned centrally. Although turnaround will not be achieved overnight, in most cases it will be delivered by getting the basic systems and controls in place and implementing known good practice, not through any single action. The Department also needs to provide the right focus on sustainable financial health across the NHS through the way it manages the system and the incentives offered in 2006–07.

National Health Research Strategy

The Minister of State, Department of Health (Jane Kennedy): Over the course of the last six months, the Government have consulted formally and have had other extensive discussions with those directly concerned in industry, universities, the research councils, research charities and the national health service (NHS) about the NHS contribution to health research in England. Widespread agreement has been reached with these stakeholders on the means by which the NHS can best contribute to our aim to improve the nation's health and increase the nation's wealth as proposed in the Government's 10-year science and investment framework.

The new national health research strategy "Best Research for Best Health", published today, sets out how, working with our research partners, this aim will be achieved. The strategy is designed to place people at the centre of a system founded on quality, transparency and value for money; it recognises and responds to changes in society and the environment; and it responds to the challenges inherent in the current arrangements.

Over the last 15 years there have been significant developments in the contribution the NHS makes to applied research and to the evidence base on which advances in health care depend. The changes proposed in "Best Research for Best Health" build on that experience, and will ensure that we establish the NHS as an internationally recognised centre of research excellence. Further, they will ensure that we attract, develop and retain the best research professionals to conduct people-based research, that we commission research focused on improving health and care, that we strengthen and streamline systems for research management and governance, and that we act as sound custodians of public money for public good.

Separate implementation plans covering each of the main components of the strategy will be published today on the Department's website at: www.dh.gov.uk/researchstrategy. The plans will be reviewed and updated regularly during the course of the implementation process.

Copies of the strategy document have been placed in the Library.

HOME DEPARTMENT

Counter Terrorism Funding

The Secretary of State for the Home Department (Mr. Charles Clarke): The tragic events of July last year have demonstrated that the threat from international terrorism remains real and serious. The police service and our security and intelligence agencies are at the frontline of our efforts to counter these threats and to bring the perpetrators to justice.

Last December my right hon. Friend the Chancellor, in his pre-Budget report, was able to announce an additional £85 million to advance the ongoing expansion of the security and intelligence agencies. The Government remain absolutely committed to ensuring that the police service has the necessary resources to meet its CT commitments. Alongside the additional money for the security and intelligence agencies we are now able to announce additional counter-terrorism funding for the police service.

The total police specific counter terrorism funding is shown in the tables:

Resource, £ million	*2006-07*	*2007-08*
Existing MPS Specific CT Grant	61	61
Existing Local and Regional Policing outside of London	35	35
New MPS Specific Grant	30	45
New Local and Regional Policing outside of London	33	65
Total Specific CT Grant	159	206

Capital, £ million	*2006-07*	*2007-08*
Existing Police CT Capital Grant	8	8
New Police CT Capital Grant	30	35
Total Police CT Capital Grant	38	43

This additional funding will strengthen the police service's intelligence and investigative capability both in the capital and across the rest of the service and will complement the additional funding provided for the intelligence and security agencies already announced. In total, over the two years, the police service will receive £446 million specifically for countering the international terrorist threat and domestic extremism.

We have also made available £213 million for the provision of dedicated security posts for the police service and which is in addition to the funding announced above.

INTERNATIONAL DEVELOPMENT

Horn of Africa (Drought)

The Secretary of State for International Development (Hilary Benn): Last week I visited the Horn of Africa. In Kenya I saw at first hand the devastating effects that drought is having on people's lives in the arid north of the country. In Ethiopia I saw the benefits being gained from work we are supporting through a "productive safety nets programme" to protect poor people from drought and food shortages.

Precise data on the severity of the current crisis in the region are difficult to obtain, but our analysis suggests that this could be the worst drought in the Horn of Africa for at least a decade. The UN estimates that as many as 5.4 million people are severely affected. Of these, 1.7 million are in southern Ethiopia, 1.4 million in southern Somalia, and 2.3 million in northern Kenya. Malnutrition rates are exceptionally high in these areas, affecting between one in three and one in five children. As many as half a million children are in need of emergency help.

A swift response from Governments and international community is required to get this situation under control. So far, in the current financial year, we have committed more than £12 million to tackle this crisis, and stand ready to do more. Of this, in Kenya, DFID has already committed £5.3 million (making a total of £9.7 million since mid-2004) to humanitarian relief and I pledged a further £3 million during my visit.

This will help provide much needed food, health and nutrition support, and will also enable urgent action to be taken to provide water supplies to the worst affected places.

One of DFID's humanitarian advisers has just returned from an assessment visit to southern Somalia. I will now be looking at options for significantly increasing our current contribution of £1.5 million to ensure that a disaster is avoided. The UN issued an appeal for Somalia last month, and we were one of the first to respond.

In Ethiopia we are major investors in the productive safety nets programme and have made additional contributions to provide help in drought affected areas. The Government of Ethiopia have just issued their annual humanitarian appeal and we will be considering further funding. Ethiopia has sufficient food stocks to meet anticipated needs for the next few months. The most important thing now is to ensure that relief is taken swiftly to the worst affected areas in the south. We will continue to monitor the situation and will be providing further funding.

As well as dealing with the current crisis, it is clear that much more can be done over the long term to reduce the vulnerability of people living in these areas so that when there are droughts and other types of shocks, they are better able to cope. It is also critically important that we press ahead quickly with the reforms of the international humanitarian system to ensure a swift and effective response when crises like this occur.

NORTHERN IRELAND

Criminal Justice System

The Minister of State, Northern Ireland Office (Mr. David Hanson): The Government have received a thematic review report from the chief inspector of criminal justice in Northern Ireland, Mr. Kit Chivers. The report, "Target Setting and Performance Management in the Criminal Justice System in Northern Ireland", has today been published.

The Government warmly welcome this report, and thank the chief inspector and his team for the evident care and reflection that has gone into producing this work. The Criminal Justice Board are actively considering the review and have already taken some actions in line with the recommendations.

Copies of the chief inspector's report have been placed in the Library.

Written Ministerial Statements

Thursday 26 January 2006

CABINET OFFICE

Civil Service Code

The Parliamentary Under-Secretary of State for the Cabinet Office (Mr. Jim Murphy): The Cabinet Secretary and the First Civil Service Commissioner will tomorrow launch consultation on a new Civil Service Code. The Civil Service Code, which was introduced in 1996, sets out the duties and responsibilities of civil servants. Copies are available in the Library of the House.

The new Code is the result of work between the Government and the Civil Service Commissioners to ensure that the Code is relevant and accessible to all civil servants. The Code sets out the core values of the Civil Service and the standards of behaviour expected of all civil servants in their dealings with Ministers, the public, other organisations the Civil Service works with and its many customers.

In publishing the new Code for consultation, the Government wish to place on record its appreciation to the former First Civil Service Commissioner, Baroness Usha Prashar, for her contribution in taking forward work on the new Code.

Comments are invited on the new Code. The consultation period will run until Friday 21 April 2006.

Copies of the new Code will be placed in the Libraries of the House.

CONSTITUTIONAL AFFAIRS

Judicial Appointments and Conduct Ombudsman

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My noble Friend the Secretary of State has made the following written ministerial statement in the other place today:

> "I am pleased to announce that Her Majesty The Queen has appointed Sir John Brigstocke KCB as the inaugural Judicial Appointments and Conduct Ombudsman. The appointment is for a period of five years in the first instance, and will expire in January 2011.
>
> Sir John Brigstocke has a distinguished record of achievement in the Royal Navy, and I am sure his appointment will be widely welcomed."

CULTURE, MEDIA AND SPORT

Government Indemnity Scheme

The Parliamentary Under-Secretary of State for Culture, Media and Sport (Mr. David Lammy): The provision for the Government Indemnity Scheme is made by the National Heritage Act 1980. The scheme facilitates public access to loans of works of art and other objects for public display made to museums, galleries and other such institutions by private owners and non-national institutions. It does this by indemnifying lenders against loss or damage to objects they loan. Loans covered by the scheme must be for public benefit. The scheme also covers loans of such objects for study purposes within borrowing institutions where this would contribute materially to the public's understanding or appreciation of the object loaned. Examples of this are enhancing interpretation or explanation to the public of objects, or bringing into the public domain the conclusions of any study.

In the six month period ended 30 September 2005, a total of 854 undertakings were given to indemnify objects on loan to national and non-national institutions under section 16 by the relevant Departments. The Museums, Libraries and Archives Council (MLA), which manages the scheme on behalf of the Department for Culture, Media and Sport, issued a total of 666 undertakings to national museums and 73 undertakings to non-national museums in England, the Scottish Executive Education Department issued two undertakings and the National Assembly for Wales issued one.

Finally, the Government Art Collection issued 112 in the same period.

The value of contingent liabilities in respect of undertakings given at any time under section 16 and which remained outstanding as at 30 September 2005 for national museums are £2,038,824,046 and are £1,286,220,079 for non-nationals in England. The value of section 16 contingent liabilities as at 30 September 2005 for the Scottish Executive Education Department are £22,035,000; £34,009,500 for the National Assembly for Wales, and £4,750,000 for the Government Art Collection.

The value of non-statutory undertakings given to Her Majesty in respect of loans from the Royal Collection and which remained outstanding as at 30 September 2005 are £198,160,725; £259,000 for non-national museums issued by the MLA, and £25,000 issued by the Government Art Collections.

The total value of loans out by national institutions as remained outstanding at 30 September 2005 is £378,260,895.

The limit on the contingent liabilities which may be incurred in relation to the Government Indemnity Scheme for non-national museums and galleries in England approved by the Treasury in May 2004 was £1,200,000,000. As a result of an increase in the number of temporary exhibitions put on by the non-national museums and galleries, and in the value of the objects included in such exhibitions it has proved necessary for this limit to be temporarily increased to £1,287,000,000 effective until May 2006. The Government Indemnity Scheme will be reviewed in 2006 to see if a permanent increase of the limits on the contingent liabilities which may be incurred under the scheme is justified.

DEPUTY PRIME MINISTER

Local Government Finance Settlement 2006–07

The Minister for Local Government (Mr. Phil Woolas): On 5 December 2005, I informed the House that I had issued for consultation a provisional local government finance settlement for 2006–07 giving indicative grant increases for that year and for 2007–08. The consultation period closed on 11 January. I intend to lay before the House shortly the Local Government Finance Report (England) 2006–07 which will establish the amounts of revenue support grant and non-domestic rates to be paid to local authorities in 2006–07 and the basis of their distribution.

"A Sure Start to Later Life"

The Minister for Local Government (Mr. Phil Woolas): Today the Social Exclusion Unit in the Office of the Deputy Prime Minister is publishing a major report entitled "A Sure Start to Later Life: Ending Inequalities for Older People".

The report highlights:

that significant progress has been made in tackling social exclusion among older people. Pensioner poverty is down from 28 per cent. in 1996 to 20 per cent. in 2004. The numbers experiencing multiple disadvantage has dropped from 23 per cent. to 17 per cent. since 1997. But, there is a need to make further improvements for the most excluded;

there is a need for a concerted effort to the tackle social exclusion, disadvantage and deprivation facing some older people. As the population is ageing it is important to tackle exclusion now to avoid greater problems in the future; and

that we need to change the way we view older people. Poverty, decline and exclusion are not an inevitable part of ageing. We need to get services right so that all older people have the opportunities to participate in their local communities.

That tackling the exclusion facing older people requires:

A move from crisis management to prevention

Joining up services around users

Individual and community empowerment

The report sets out proposals for a more responsive model of services for older people that addresses these issues, and which builds on the approach of Sure Start in galvanising communities and reshaping children's services. The Sure Start to later life approach will use the same methods as the children's model to bring together services around older people, and to provide a single, accessible gateway to a wide range of services in the community. A pilot programme called "Link-Age Plus" will test out the Sure Start approach for older people.

The report contains 30 action points to be taken forward by Government Departments, which as a whole represent a comprehensive plan to tackle social exclusion among older people. The Implementation Team in the Social Exclusion Unit will monitor the progress made by the Departments on individual action points and will work to ensure that the overarching goals contained within the report are pursued across Government.

Copies of the report have been placed in the Libraries of both Houses. Further copies can be downloaded from http://www.socialexclusion.gov.uk/page.asp?id = 573

EDUCATION AND SKILLS

Dental Training

The Minister for Higher Education and Lifelong Learning (Bill Rammell): In July 2004 we announced that we were to fund an additional 170 training places for dentists. A Joint Implementation Group (JIG) comprising representatives of the Higher Education Funding Council for England (HEFCE), the Department of Health and the National Health Service was established to manage the expansion programme. Of the 170 places, the JIG allocated 89 on a permanent basis to the nine universities with existing undergraduate dental schools enabling each of them to increase their annual intake to 75 new students. There are currently two dental schools in London, with the remaining schools located in Bristol, Birmingham, Sheffield, Manchester, Liverpool, Leeds and Newcastle upon Tyne.

The JIG then allocated the remaining 91 places to the existing schools on a temporary basis in order to hold a competition for the permanent allocation of these places. In response to an invitation to all higher education institutions the JIG received bids from eight of the nine universities with existing dental schools for further expansion and seven bids (subsequently short-listed to six) from universities wishing to establish new dental schools. After short-listing, there were bids for 578 places under consideration. In acknowledgment of the quality of these bids and the importance of the needs they addressed, additional funding was found to increase the number of places on offer to 100.

The JIG applied the following criteria to the assessment of these bids: geography, innovation, quality, potential to widen participation in higher education, value for money and the viability of the proposals for recruiting academic staff. The majority of the bids were of very high quality offering a wide range of innovations in recruiting students and staff and teaching methods. Strategic/geographical considerations were therefore of particular significance.

For example, the JIG noted that there are five dental schools/dental teaching hospitals in the North, but none south of a line from Bristol to London. On the other hand, levels of dental disease are generally higher in the North, except in areas where drinking water is fluoridated. Areas distant from the main conurbations (and therefore from the existing dental schools) often have fewer dentists in relation to population than other areas.

The JIG submitted its recommendations to the HEFCE Board in December 2005 and, at its meeting on 26 January 2006, the Board decided to approve:

the bid from the Universities of Exeter and Plymouth for a new Peninsula Dental school with places for 62 students to be admitted annually from 2007

the bid from the University of Liverpool in conjunction with the University of Central Lancashire for the development of 32 outreach training places for dental

students in Lancashire and Cumbria, subject to further discussion of points of detail; and

the University of Leeds to be allocated six new places to develop outreach training for dental students in Hull.

HOME DEPARTMENT

Police Grant Report (England and Wales) and Amending Reports

The Minister for Policing, Security and Community Safety (Hazel Blears): On 5 December 2005, I informed the House that I had issued for consultation a provisional police finance settlement for 2006–07 giving indicative grant increases for that year and for 2007–08. The consultation period closed on 11 January. I intend to lay before the House shortly the Police Grant Report (England and Wales) 2006–07 which will establish the amounts of Police Grant to be paid to police authorities in 2006–07 and the basis of their distribution.

NORTHERN IRELAND

Electoral Reform

The Minister of State, Northern Ireland Office (Mr. David Hanson): I have published the Government's response to the public consultations carried out on its proposals for the future of electoral registration and the regulation of political donations in Northern Ireland.

The consultation response outlines how the Government intend to move forward with regard to reforming the arrangements for electoral registration and political donations in Northern Ireland.

Copies of the response have been placed in the Libraries of both Houses.

PRIME MINISTER

Intelligence and Security Committee

The Prime Minister (Mr. Tony Blair): Following appropriate consultation and in accordance with Section 10 of the Intelligence and Security Act 1994, I have appointed the right hon. Michael Ancram QC DL MP as a member of the Intelligence and Security Committee in place of the right hon. James Arbuthnot MP.

TRADE AND INDUSTRY

Common Commencement Dates

The Parliamentary Under-Secretary of State for Trade and Industry (Barry Gardiner): The DTI has today published its Annual Statement of Common Commencement Dates (CCDs) and other forthcoming proposals. This shows the extension of CCDs to all domestic regulatory areas of DTI. The Statement lists those regulations that will come into force on 6 April and 1 October 2006. Other sections of the report show the in-force date of European and other domestic legislation, which are not aligned with CCDs.

The document has today been placed in the Libraries of the House and on the DTI and Small Business Service websites at:

http://www.dti.gov.uk/ewt/common__comence5.htm/.

http://www.businesslink.gov.uk/bdotg/action/detail?r.s=sl&type=ONEOFFPAGE&itemId=1075320304.

TRANSPORT

Dartford—Thurrock Crossing Road User Charging Scheme: Accounts for 2004–05

The Minister of State, Department for Transport (Dr. Stephen Ladyman): The Dartford—Thurrock Crossing Road User Charging Scheme accounts for 2004–05 are published today under section 3(1)(b) of the Trunk Road Charging Schemes (Bridges and Tunnels) (Keeping of Accounts) (England) Regulations 2003. A copy of the accounts will be placed in the House Library. Copies are available from the Vote Office.

Transport Innovation Fund

The Secretary of State for Transport (Mr. Alistair Darling): Further to my statement to the House on 5 July 2005, I am today publishing guidance on the operation of the Transport Innovation Fund (TIF). Copies are today being placed in the Library of the House, published on the Department for Transport website and sent to all local highway authorities and Regional Development Agencies in England.

Through the fund we will be able to direct resources towards the achievement of two key objectives—tackling congestion and improving national productivity. The guidance I am publishing today explains how we will (a) support schemes aimed at tackling local congestion through demand management and better public transport, and (b) support schemes which meet national productivity objectives.

Schemes to tackle congestion

The guidance explains how local authorities can apply for funding from TIF to support the costs of smarter, innovative local packages which couple demand management, including road pricing, with improved public transport. It follows the award, on 28 November 2005, *Official Report*, column 3WS, of £7 million of pump-priming funding for seven areas in England to assess the feasibility of such schemes. The new guidance explains the process for bidding for TIF funds for such schemes and offers local authorities the opportunity to enter into a partnership with the Department to develop their proposals.

There will be a second opportunity to bid for TIF pump-priming funds in July this year. TIF funding is open to bidding by all authorities in England, regardless of whether they are awarded pump-priming funds or TIF partnership.

For schemes to tackle local congestion, some local authorities may wish to bid for TIF funding to, amongst other things, support bus schemes. Such authorities will want to be reassured that there are suitable mechanisms for involving private operators. The Transport Act 2000 provided two mechanisms for this—Quality Contracts (about which guidance was published in February 2005)

and Statutory Quality Partnerships. Guidance on SQPs, including how they relate to TIF supported schemes, will be issued shortly. In this context my Department is considering ways in which SQPs, and existing or future partnership arrangements, could deliver major improvements in bus services as part of a package to improve traffic flows in cities outside London. My officials are discussing with the Office of Fair Trading how to ensure that these partnerships are consistent with competition law.

Schemes with benefits for national productivity

The Transport Innovation Fund will also be available for packages and schemes which are expected to make a major contribution to national productivity, but for which existing sources of funding are insufficient. The Department will suggest, for further evaluation, schemes which have been identified earlier, and which appear likely to meet the criteria set out in the guidance, and to assist in this process it will be seeking the views of the Regional Development Agencies on potential candidates and priorities. Accordingly, there will not be any form of bidding process for productivity schemes.

Decisions on the final allocation of TIF funds between these schemes will be taken following appraisal of their business cases against the criteria set out in the guidance document, alongside the bids for congestion schemes.

Implementation of the Network Modification Provisions in the Railways Act 2005

The Secretary of State for Transport (Mr. Alistair Darling): Today we have published a consultation document on the implementation of the provisions in the Railways Act 2005 relating to network changes. The consultation covers the guidance which the Secretary of State is required to issue on circumstances in which rail closures should be allowed. It also covers when more minor modifications should be allowed, and will replace existing guidance that becomes obsolete when the Strategic Rail Authority is formally wound-up later this year.

The Government want more passengers to use the railways. Indeed, Britain now has the fastest growing railway in Europe. The Government are also committed to increasing investment in the railways. But from time to time, as in any industry, changes to service provision will be necessary to reflect passenger and freight demand. That is why there needs to be an open and transparent process to allow these changes to be made. The Railways Act 2005 allows that to happen—hence this consultation.

This guidance will ensure that safeguards and standard practices are applied to any proposals for changes on the rail network. For the first time, statutory guidance will be put in place on rail closures, making procedures clearer and more transparent. It will also ensure certain procedures are taken into account before any rail closure can be considered. The draft guidance requires that:

All alternatives are considered.

A full consultation takes place and that this includes passenger groups.

The current and future impact on passengers are considered as well as the safety, economic and environmental costs or benefits.

In contrast with current procedures, where the Secretary of State determines closure proposals, the independent Office of Rail Regulation must be satisfied that a robust economic analysis has been performed.

The document published today seeks views on the proposed implementation of this legislation.

Copies of the consultation have been laid in the House Library and the deadline for responses is the 21 April 2006. The existing procedure for closures will remain in place until the responses to the consultation have been considered and a final version of the new guidance has been laid before Parliament. It will continue to be administered by the Strategic Rail Authority during this period. This will be the Authority's sole responsibility after 31 March 2006, and will only require a minimal number of staff.

WORK AND PENSIONS

Benefit Fraud Inspectorate

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the Benefit Fraud Inspectorate (BFI) has today announced its Phase 14 programme of work.

BFI inspections in this programme will include councils whose published performance figures indicate that they take longer than most to process claims for housing benefit. There can be a number of reasons for comparatively slow processing of claims. BFI inspection will determine the reasons for delays and seek to provide remedies. The councils include: Gateshead metropolitan borough council, Portsmouth city council, Shepway district council, Stevenage borough council and Walsall metropolitan borough council. Where this has been achieved, the councils will have the opportunity to demonstrate improvement in recent performance.

It is important to deter fraudsters by applying sanctions, including prosecutions; therefore BFI will inspect two authorities that in comparison to their caseload have applied few sanctions, including successful prosecutions. The authorities are Elmbridge borough council and Exeter city council.

BFI will also inspect four other authorities to provide assurance on a range of reported performance. These authorities are Dudley metropolitan borough council, Milton Keynes council, Reading borough council and Rushcliffe borough council.

I am pleased to announce that planned inspections of Castle Point borough council and South Ayrshire council will not go ahead because both councils have shown significant improvements in their performance.

BFI is an independent unit within the Department for Work and Pensions that inspects and reports directly to the Secretary of State for Work and Pensions on the standard of benefits administration and counter-fraud activity in local authorities and the Department itself. During its inspections, BFI undertakes a thorough analysis of service standards and is careful to understand the reasons for under performance. Where a council has recently improved and has effective recovery plans in place, BFI will take this into account in the final inspection report.

Written Answers to Questions

Monday 9 January 2006

HOUSE OF COMMONS COMMISSION

Line of Route

Lynne Featherstone: To ask the hon. Member for North Devon, representing the House of Commons Commission what percentage of the line of route is inaccessible to wheelchair users; and if he will make a statement. [39062]

Nick Harvey: Of the 17 distinct stops on the visitor route, only St. Stephen's Hall is entirely inaccessible to wheelchair users. Wheelchair users can view the Lords Chamber from alongside the throne and from the Bar of the House, but cannot transit the Chamber due to the narrow space between the benches and the Table of the House.

Public Gallery

Lynne Featherstone: To ask the hon. Member for North Devon, representing the House of Commons Commission what assessment the Commission has made of the impact on visitor numbers to the Public Gallery in the Chamber since the erection of the security screen. [39063]

Nick Harvey: There is no reason to suggest that the erection of the Chamber screen has had any impact on numbers of visitors to the Public Gallery. In the year April 2003 to March 2004 before the temporary security screen was in place there were 107,136 visitors from the public queue and 10,355 from Members' allocated tickets (total 117,491). From April 2004 to March 2005 with the screen in place the corresponding figures were 111,846 from the public queue and 10,329 from Members' allocations (total 122,175). I refer the hon. Member to my answer to the hon. Member for Hazel Grove (Andrew Stunell) on 19 December 2005, *Official Report*, column 2231W, on the effect of the erection of the permanent screen on the view of the southern portion of the Chamber, and the steps to be taken to alleviate this.

SOLICITOR-GENERAL

Crime Clear-up Rates

Mr. Andrew Turner: To ask the Solicitor-General in which areas primary responsibility for decisions to charge for offences has been passed from the police to the Crown Prosecution Service; and what the clear-up rates for crime in *(a)* the year before and *(b)* the year after implementation of the policy were in each case. [39569]

The Solicitor-General: To date, 30 areas are operating under statutory charging. The remaining 12 areas have been operating shadow charging schemes since 2003, whereby charging is operating on a non-mandatory basis, which mirrors as closely as possible statutory charging arrangements between 9 am and 5 pm Monday to Friday. These remaining areas are scheduled to move onto statutory charging by April 2006.

The expected benefits of the charging scheme are a reduction in the rate of discontinuance, an increase in the guilty plea rate, and a reduction in the rate of attrition.

The following table shows, for each area, the date of implementation of statutory charging, and the proportion of recorded crime which was detected by the police.

23 per cent. of recorded crime in England and Wales was detected by the police in 2003–04. The latest data show that the detection rate rose by three percentage points, to 26 per cent., in 2004–05.

Implementation of statutory charging, and detection rate as percentage of recorded crime

Area	*Statutory charging introduced*	*Scheduled introduction of statutory scheme*	*Detections as percentage of recorded crime*	
			2003–04	*2004–05*
Avon and Somerset	July 2004	n/a	15	17
Bedfordshire	n/a	January 2006	23	28
Cambridgeshire	n/a	March 2006	23	23
Cheshire	n/a	February 2006	27	26
Cleveland	June 2004	n/a	21	24
Cumbria	December 2005	n/a	32	30
Derbyshire	n/a	January 2006	25	28
Devon and Cornwall	n/a	March 2006	29	30
Dorset	n/a	March 2006	26	28

Iraqi Prisoners

Mr. Hoyle: To ask the Solicitor-General for what reasons the Crown Prosecution Service did not proceed with charges against the individuals who faked photographs of British troops abusing Iraqi prisoners. [40458]

The Solicitor-General: The Crown Prosecution Service has already confirmed that no charges were preferred as there was no realistic prospect of a conviction. In accordance with usual practice, they do not publish detailed reasons for the decision.

Special Counsel

Mr. Dodds: To ask the Solicitor-General (1) in how many criminal cases a special counsel has been appointed in each year since 1997; [38705]

(2) in how many criminal cases in Northern Ireland a special counsel has been appointed in each year since 1997. [38716]

The Solicitor-General: As appears from the decision of the House of Lords in R *v.* H & C [2004] the Attorney-General may be asked by the court to appoint a special counsel to represent the interests of a defendant when issues of disclosure are being considered by the court in the absence of the defendant and his legal team. Such cases are rare. I am informed that the number of special counsel newly appointed in England and Wales in criminal cases in the year 2004–05 is 10 (in 12 cases) and in 2005–06 (to date) is one. In Northern Ireland the figure for 2004–05 is one and no further special counsel has been appointed so far in 2005–06.

Spy Ring (Stormont)

Mr. Dodds: To ask the Solicitor-General who was consulted on the decision to discontinue the case against those charged with running a spy ring at Stormont in 2002. [38708]

The Solicitor-General *[holding answer 19 December 2005]:* The decision to offer no evidence in this case in December 2005 was taken by the Director of Public Prosecutions for Northern Ireland following information received in November 2005 from the police. That decision was based on his assessment of the public interest. The Director kept the Attorney-General informed throughout this case and consulted the Attorney-General in respect of his decision.

In January 2005 an issue arose in the trial process, the Attorney-General carried out a Shawcross exercise by which he consulted ministerial colleagues as to whether they had information that might bear on the consideration of the public interest by the Director. In the event, having regard to ongoing developments in the trial process, no decision was required to be taken at that time and the information obtained formed no part of the Director's decision to discontinue the prosecution in December 2005. That decision was informed by facts and information provided by the chief constable in November 2005 following upon a further development in the trial process. No further ministerial consultation took place.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

0870 Numbers

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 17 November 2005, *Official Report*,

column 1364W, on 0870 numbers, what contractual arrangements her Department has for the provision of 0870 lines. [37642]

Jim Knight: The core Department's 0870 number is used by callers to the Pet Travel Scheme helpline and is provided by BT which has a minimum contractual period of 12 months. This helpline number was provided by BT in late 1999 so it is no longer bound by a contractual period.

British Uplands (Tourism)

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate her Department has made of how much money the British uplands generate for the tourist industry in each of the last five years. [39232]

Jim Knight [*holding answer 20 December 2005*]: The Department has not made a specific assessment of the contribution of the British uplands to the tourist industry.

In England responsibility for the strategic development of the tourist industry has been devolved to the Regional Development Agencies. Working closely with partners in the region they gather the necessary evidence to fulfil this role. This may include the contribution of geographic areas or sectors within the region.

Correspondence

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* letters from hon. Members, *(b)* letters from members of the public and *(c)* parliamentary questions from (i) hon. Members and (ii) Members of the House of Lords were dealt with by her Department in each year since 1995; what percentage took (A) more than one month and (B) more than three months to provide a substantive answer; and if she will make a statement. [34753]

Jim Knight: The information required is as follows:

(a) The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members'/Peers' correspondence. The Report for 2004 was published on 6 April 2005, *Official Report*, column 137–40WS. Reports for earlier years are available in the Library of the House.

(b) The data are not held in the format requested. Therefore data provided in table A are given using Defra's 15-day working target.

Table A: General correspondence 2000–01 to 2005–06

Period[1]	General correspondence received	General correspondence responded to within 15-days target	Percentage responded to within 15-days target
April to March			
2000–01	106,007	96,899	91
2001–02	99,545	85,573	86
2002–03	114,229	98,546	86
2003–04	119,446	116,626	98
2004–05	106,451	96,679	91
April to September (half financial year)			
2005–06	55,673	54,624	98

[1] Data before 2001, when Defra was created, are less reliable and has not been provided.

(c) The data are not held in the format requested. Data provided in table B are based on the number of PQs answered more than 11 days late. Figures are collated on the basis of parliamentary sessions rather than calendar years.

Table B: Parliamentary questions 1996 to 2005

Period[1]	Number of PQs	Reply after 11+ days	Percentage 11+ days	Department
1995–96	2,210	—	—	MAFF
1996–97	1,297	—	—	MAFF
1997–98	4,081	—	—	MAFF
1998–99	2,704	—	—	MAFF
1999–2000	2,721	—	—	MAFF
2000–01	1,909	—	—	MAFF
2001–02	8,619	—	—	DEFRA
2002–03	5,444	—	—	DEFRA
2003–04	5,311	848	16	DEFRA
2004–05	1,871	265	14.2	DEFRA

[1] Data before 2001, when Defra was created, are less reliable and has not been provided.

In November 2003 a new database was introduced, which is not compatible with the earlier system. The new database produces stats on whether PQs have been answered on time, 1 day late, 2–5 days late, 6–10 days late and 11+ days late.

Departmental Staff

Stewart Hosie: To ask the Secretary of State for Environment, Food and Rural Affairs what the value is of *(a)* pay supplements, *(b)* bonuses and *(c)* other incentive packages that are payable in her Department on the basis of geographic location; how many people are in receipt of each payment; and what the total cost to her Department of each payment was in 2004–05. [35919]

Jim Knight: The only pay/pay related payments that are operated in the core-Department, on the basis of geographical location are the National/London pay ranges and some Local Pay Additions (LPAs) retained on a reserved rights basis by some staff. The details are given as follows and are based on the 2004–05 pay outturn data:

National/London Pay Range Differentials

There are some 2,890 staff on London pay ranges, the additional cost (i.e. the differential between national and London pay rates) of which, over the pay rates paid to staff on national pay ranges equates to £8,705,581. As a percentage of the core-Department's paybill this equates to 5 per cent.

London/Local Pay Additions (LPAs)

There are 155 staff in receipt of LPAs on a reserved rights basis, the total cost of which equates to £68,261. This represents 0.035 per cent. as a percentage of the core-Department's paybill.

The payments are split geographically as follows:

Location	Number of staff	Total cost by location (£)
London	105	44,905
Cambridge	15	6,000
Chelmsford	1	700
Guildford	16	7,700
Kings Lynn	1	400
Reading	12	7,000
York	5	1,556

Mr. Pelling: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are taken by the Department to support staff with mental ill health. [36275]

Jim Knight: Defra have taken a number of initiatives and offer various levels of support and a variety of resources to support staff with mental ill health.

The primary resource for line managers is the booklet published by 'Mindout', which offers practical advice on managing and supporting people who are experiencing stress, distress and mental health problems. Every manager has been passed a copy of this booklet and alongside this there are other resources including the Department's 'Stress-Web' intranet site which is a comprehensive central source of information on awareness, prevention and management of stress in the workplace and at home.

'Stress-Web's' primary objectives to raise awareness of stress policy, suggest ways to prevent stress in the workplace and at home, help staff identify symptoms of stress in themselves and others, assist with the management of stress and identifies others who can help such as the Departmental Health and Safety Advisers and Employee Support Services. It also provides other internal and external resources such as videos, literature and information about events and websites of interest.

As part of its new occupational health service provision and restructuring of its health and safety and welfare functions, Defra has refocused its resources to better tackle stress at work by targeting the 'root causes' at an organisational level, with its Health and Safety and Employee Support Advisers working more closely with business managers proactively to seek to ensure that better controls are in place to manage the risks from stress correctly.

Devolved Legislatures (Documents)

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on *(a)* Ministers and *(b)* officials in her Department giving evidence to (i) Scottish Parliament, (ii) Welsh Assembly and (iii) Northern Ireland Assembly Committees; and to what categories of document she gives (A) full access, (B) restricted access and (C) no access to (1) Scottish Parliament, (2) Welsh Assembly, (3) Northern Ireland Assembly and (4) House of Commons Select Committees. [34751]

Jim Knight: Requests for the attendance of Ministers or officials to give evidence to the devolved legislatures, and for the provision of information to the assemblies, will be considered on a case-by-case basis. This consideration will reflect: the principles set out in the Cabinet Office guidance 'Departmental Evidence and Response to Select Committees' (July 2005); the policy outlined in the Department for Constitutional Affairs' Devolution Guidance Note #12 'Attendance of UK Ministers and Officials at Committees of the devolved legislatures'; and the requirements of the Freedom of Information Act. The principles underlying the provision of information to House of Commons Select Committees are set out in 'Departmental Evidence and Response to Select Committees', particularly sections 4B and 4C.

Disability

Danny Alexander: To ask the Secretary of State for Environment, Food and Rural Affairs whether a Minister in her Department is planned to be nominated to take responsibility for liaison with the Office for Disability Issues; and if she will make a statement. [37079]

Jim Knight: Prior to the general election Defra's Minister responsible for diversity issues was Alun Michael. Since the election, the Department has been reviewing its diversity strategy and wanted to complete this work before appointing a new Minister with this responsibility. My right hon. Friend, the Secretary of State, intends to nominate one of her Ministers in the new year.

The new appointee will take responsibility for championing all diversity groups which will include liaison with the Office for Disability Issues.

Danny Alexander: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the initial activity undertaken by her Department in response to those recommendations in the Prime Minister's Strategy Unit Report, Improving the Life Chances of Disabled People, where lead responsibility was assigned to all Government Departments. [37080]

Jim Knight: This Department has undertaken the following activity in response to the recommendations of the Prime Minister's Strategy Unit Report.

Defra is currently undertaking work on a Disability Equality Scheme which is required by the Disability Discrimination Act 2005. This will address how the Department delivers and promotes its services to disabled employees and customers. As part of the scheme we will be developing specific indicators of progress which the report outlines as important in measuring success. This Disability Equality Scheme will be published by 1 December 2006.

Although some of the recommendations made in the Strategy Unit Report are not directly within Defra's remit, the Department is doing a lot of work in relation to the recommendation

> "improved support and incentives for getting and staying in employment."

In particular disabled candidates are supported through the Two Ticks Scheme which ensures that all disabled applicants are interviewed for jobs, if they meet the minimum criteria for the post. In addition, the Department uses the Access to Work Scheme which

independently assesses each disabled employee so reasonable adjustments can be made, where applicable, to enable them to develop and work to their full potential.

Energy Review

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received regarding the Energy Review; and when she expects the Energy Review to report to her. [39050]

Mr. Morley: The review of UK energy policy is being taken forward by a team led by my hon. Friend, the Minister for Energy. The review will report to the Prime Minister and the Secretary of State for Trade and Industry in early summer.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Committee for the adaptation to technical progress of the directive on procedures for the surveillance and monitoring of environments concerned by waste from the titanium dioxide industry, *(b)* Advisory Committee on the transportation of radioactive waste (surveillance and control) and *(c)* Committee overseeing the conditions governing imports of agricultural products originating in third countries following the accident at the Chernobyl nuclear power station have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved Governments; and if she will make a statement. [39011]

Mr. Morley: No meetings of these committees took place during the UK presidency.

Farm Payments

Mr. Gibb: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department will pay interest on delayed payments under the *(a)* Entry Level Scheme and *(b)* single farm payments. [37902]

Jim Knight: For payments under the Entry Level Scheme there is no regulatory deadline by which payments must be made. Applicants can enter into agreements which can commence at intervals throughout the year with full payment being made in due course. A number of steps have been introduced this year to mitigate against the impact of later than planned delivery. Therefore interest on delayed payments is not appropriate. The Single Payment Scheme has a regulatory payment window which runs from 1 December to 30 June each year. Consideration would not be given to paying interest until this period has expired.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost to the agricultural industry of a month's delay in payment by the Rural Payments Agency of the single farm payment. [23803]

Jim Knight: The EU regulatory window for payments under the 2005 Single Payment Scheme is 1 December 2005 to 30 June 2006. The Rural Payments Agency (RPA) remains committed and on target to commence payments well within that window in February 2006. The cost to the agriculture industry of payments being made in one month rather than another would depend on individual farmers' circumstances.

Buncefield Oil Depot

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of carbon she estimates were emitted as a consequence of the fire at Hemel Hempstead; and what percentage of the UK's annual carbon emission this constitutes. [38837]

Mr. Morley: Whilst it is too early to say exactly how much fuel was burnt during the fire at the Buncefield oil depot earlier this month, a worst case scenario would suggest that approximately 42.9 kilo tonnes of carbon were released which would equate to about 0.03 per cent. of the UK's carbon emissions for 2005.

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs what role the Government Decontamination Service has played in responding to the Hemel Hempstead oil depot fire. [39248]

Mr. Morley: On being informed of the incident, Government Decontamination Service staff established contact with those involved in the response and recovery to establish whether GDS assistance was required.

That contact was maintained until it was clear that there was no formal requirement on the part of the local authorities and emergency services for GDS advice, guidance and facilitation.

Hunting Trophies

Mr. Lancaster: To ask the Secretary of State for Environment, Food and Rural Affairs what powers the Government have to restrict the *(a)* importation and *(b)* retention of hunting trophies; and under what circumstances these powers would be used. [38322]

Jim Knight: Many of the species that are hunted for trophies are subject to EU legislation implementing the convention on international trade in endangered species (CITES), which includes powers to enable member states to refuse imports where such trade is detrimental to the conservation of the species concerned. If we decide, on the basis of our scientific advice, that such trade is unsustainable we will press the European Commission to use its powers to suspend the trade.

Powers are also available to prohibit the keeping of certain CITES specimens and we recently went out to public consultation on our proposals for using these powers. This included proposals to prohibit the keeping of trophies made from tigers, Tibetan antelopes and rhinos, which have prompted some respondents to call for the proposed prohibition to be extended to include all hunting trophies. We are currently considering all comments received during the consultation process and I shall announce our conclusions in the new year.

Pesticides

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish on the internet *(a)* the detailed record of discussions of the Advisory Committee on Pesticides (ACP), *(b)* the agendas and minutes of the ACP's Medical and Toxicology Panel and *(c)* a declaration of interests of the ACP's Medical and Toxicology Panel. [35800]

Mr. Morley: A summary report of all ACP discussions is published. The Department has previously considered the feasibility of publishing the detailed record of the ACP's meetings but this was not taken forward due to the fact that certain commercially confidential information is included.

As the Medical and Toxicology Panel of the ACP does not provide advice direct to Government it does not currently publish minutes. Most of the Panel's work is preparatory and reported direct to the ACP and hence reported in the ACP minutes. The ACP annual report lists the issues the panel has considered over the year.

I have asked my officials to look again at these issues in consultation with the ACP and its panel members to see whether more information could be made available.

Membership of the Medical and Toxicology Panel, and the affiliations of the non-ACP members, is published in the ACP annual report. Members are also required to declare any conflicts of interest at the start of each meeting, and the Chair decides the appropriate action in each case.

Road Traffic (Emissions)

Mr. Garnier: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on the carbon dioxide emissions caused by road traffic congestion in *(a)* Harborough constituency and *(b)* the East Midlands Government office area. [38843]

Dr. Ladyman: I have been asked to reply.

The Department has not received any representations in respect of carbon dioxide emissions caused by traffic congestion in Harborough or the East Midlands.

Sustainability Symposia (Harlow)

Mr. Prisk: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the representatives from her Department and public bodies for which her Department is responsible who attended the Harlow North Sustainability Symposia on 6 June. [37447]

Mr. Morley: So far as I am aware, one official from Defra attended this event along with two officials from the Environment Agency, one from the Waste Resources Action Programme and two from the Sustainable Development Commission.

I believe this was a private event organised by Beyond Green under Chatham House rules.

Upland Farmers

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the optimum number of farmers in the English uplands to maintain sufficient land management capacity. [38157]

Jim Knight *[holding answer 19 December 2005]:* We are currently reviewing the future of upland reward in the context of the number of public benefits we wish to see delivered.

While we understand the difficulties faced by upland farm businesses in England, and acknowledge the provision of public goods they deliver any future reward structure will be based on the delivery of public benefits for the receipt of public resource.

TRANSPORT

Act of Austria

Angus Robertson: To ask the Secretary of State for Transport how many meetings of the *(a)* Committee on implementation of Protocol 9 to the Act of Austria concerning transport by road and rail and combined transport (Ecopoints), *(b)* Committee for the adaptation to technical progress of roadworthiness tests of vehicles, *(c)* Committee for a transparent system of harmonised rules for restrictions on heavy goods vehicles involved in international transport on designated roads and *(d)* Advisory Committee for the harmonisation and comparability of the accounting and annual accounts of railway undertakings have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved Governments; and if he will make a statement. [38035]

Dr. Ladyman: The information requested is as follows.

(a) and *(b)* There were no meetings of these Committees during the UK presidency.

(c) As legislation on harmonised driving restrictions has yet to be adopted this Committee has not yet met.

(d) There were no meetings of this Committee during the UK presidency.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Carbon Emissions

Gregory Barker: To ask the Secretary of State for Transport which unit in his Department is responsible for reducing carbon emissions. [39901]

Ms Buck: The Department's policy is to integrate environmental thinking into policy. Responsibility for reducing carbon emissions is therefore shared among all the relevant units in the Department and all schemes are appraised for their environmental impacts, including CO_2 emissions.

Concessionary Transport

Andrew Rosindell: To ask the Secretary of State for Transport (1) if he will make a statement on the provision of travel concessions for pensioners on public transport; [40606]

(2) what recent discussions he has held on the provision of free off-peak bus travel for old age pensioners in England. [40608]

Ms Buck: The statutory entitlement to free off-peak local bus travel in England for people 60 and over and disabled people will come into effect on 1 April 2006. The Secretary of State has had no recent discussions on concessionary fares. The Department for Transport has issued guidance to local authorities on implementation but it is for individual concessionary travel authorities to design and operate their local concessionary fares scheme.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Transport how much was spent on external consultants and advisers by *(a)* his Department and previous Departments with his Department's responsibilities, *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department in each year since May 1997. [39112]

Ms Buck: The Department was formed in May 2002. Details of spend on external consultants and advisers by the central Department and its Executive agencies is shown in the following table. Details in respect of non-departmental public bodies and other sponsored bodies is not held centrally and could be provided only at disproportionate cost.

£ million

	2002-03	*2003-04*	*2004-05*
Central Department	57.2	58.5	65.2
Highways Agency	157.5	169.7	115.0
Driver and Vehicle Licensing Agency	4.0	3.4	4.8
Driving Standards Agency	4.2	4.0	3.6
Vehicle and Operator Services Agency	3.3	3.0	3.4
Maritime and Coastguard Agency	1.2	0.8	1.2
Vehicle Certification Agency	0.1	0.1	0.1
Total	227.5	239.5	193.3

EU Transport Committees

Angus Robertson: To ask the Secretary of State for Transport how many meetings of the *(a)* Committee on the driving licence, *(b)* Advisory Committee on access for Community air carriers to intra-Community air routes, *(c)* Advisory Committee on the definition and use of compatible technical and operating standards and specifications for the procurement of air-traffic-management equipment and systems and *(d)* Committee on the harmonisation of technical requirements and administrative procedures in the field of civil aviation have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved Governments; and if he will make a statement. [38034]

Dr. Ladyman: The information requested is as follows.

(a) and *(b)* There were no meetings of these committees during the UK presidency.

(c) There were no meetings of this Committee during the UK presidency. The Committee will not meet again as the related directives 93/65/EEC and 97/15/EC and regulations (EC) numbers 2082/2000 and 980/2002 were repealed on 20 October 2005 by the Single European Sky interoperability regulation.

(d) There have been three meetings of this Committee during the UK presidency. All of the meetings were chaired by the European Commission. DfT represented the UK. The Civil Aviation Authority also attended one of the meetings.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Angus Robertson: To ask the Secretary of State for Transport how many meetings of the *(a)* Committee for the establishment of conditions for the interoperability of the trans-European high speed rail system, *(b)* Committee on the adaption to scientific and technical progress of legislation concerning the transport of dangerous goods, *(c)* Committee for the adaption of technical progress of recording equipment in road transport (tachographs) and *(d)* Community—Switzerland Transport Committee (rail and road) have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38036]

Dr. Ladyman: The information is as follows.

(a) There have been three meetings of this committee during the UK presidency. DfT and the Health and Safety Executive were represented. These were chaired by the European Commission.

(b) There has been one meeting of this Committee during the UK presidency. It was chaired by the European Commission. DfT officials represented the UK.

(c) There were no meetings of this committee during the UK presidency.

(d) There has been one meeting of this committee during the UK presidency. DfT did not attend.

The UK Government take into account the views and interests of the devolved Administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved Administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved Administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf.

Angus Robertson: To ask the Secretary of State for Transport how many meetings of the *(a)* Committee on the system of charging for the use of transport infrastructure, *(b)* Committee on the development of the trans-European transport networks and *(c)* Committee for granting Community financial aid in the field of trans-European energy networks have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38037]

Dr. Ladyman: The information is as follows.

(a) There have been no meetings of this committee during the UK presidency.

(b) There has been one meeting of this Committee during the UK presidency. The Committee was chaired by the Commission and the UK was represented by DfT.

(c) The policy area with which this Committee deals is not the responsibility of the Department for Transport.

The UK Government take into account the views and interests of the devolved Administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved Administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved Administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf.

Angus Robertson: To ask the Secretary of State for Transport how many meetings of the *(a)* Committee for granting Community financial aid in the field of trans-European transport networks, *(b)* Committee for granting Community financial aid in the field of trans-European telecommunications networks, *(c)* Advisory Committee on the management of the research programme for management and storage of radioactive waste and management of the Community plan of action in the field of radioactive waste and *(d)* Committee on application of the legislation on application of tonnage measurement of ballast spaces in segregated ballast of oil tankers have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38038]

Dr. Ladyman: The information is as follows.

(a) There has been one meeting of this committee during the UK presidency. The committee was chaired by the European Commission. The purpose of the meeting was to vote on the 2005 annual bidding round.

(b) and *(c)* The policy areas with which these committees deal are not the responsibility of the Department for Transport.

(d) The committee referred to no longer deals with this subject area. In 2002 its responsibility was assumed by a new committee called the Committee on Safe Seas and the Prevention of Pollution from Ships (known as COSS). COSS was created by Regulation (EC) No. 2099/2002 to centralise the tasks of earlier committees that had been set up under Community maritime legislation to assist the European Commission.

During the UK presidency there has been one meeting of the full COSS and one meeting of a COSS Working Group of Experts. Neither discussed the subject area of the committee referred to at *(d)* in the hon. Member's question. The COSS meetings were presided over by the European Commission. The UK was represented by officials from the Maritime and Coastguard Agency, an Executive agency of the Department for Transport.

The UK Government take into account the views and interests of the devolved Administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved Administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved Administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf.

Angus Robertson: To ask the Secretary of State for Transport how many meetings of the *(a)* Implementation Committee on minimum requirements for vessels bound for or leaving Community ports carrying dangerous or polluting goods, *(b)* Committee on transfer of ships from one register to another within the Community, *(c)* Advisory Committee on aids to transport by rail, road and inland waterway, *(d)* Advisory Committee for the application of legislation on the development of the community railways and *(e)* Advisory Committee for the application of uniform principles on costing for railway undertakings have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved Governments; and if he will make a statement. [38039]

Dr. Ladyman: The information is as follows.

(a) and *(b)* The committees referred to no longer deal with these subject areas. In 2002 their responsibilities were assumed by a new committee called the Committee on Safe Seas and the Prevention of Pollution from Ships (known as COSS). COSS was created by Regulation (EC) No 2099/2002 to centralise the tasks of earlier committees that had been set up under Community maritime legislation to assist the European Commission.

During the UK presidency there has been one meeting of the full COSS and one meeting of a COSS Working Group of Experts.

Neither discussed the subject areas of the committees referred to at *(a)* and *(b)* in the hon. Member's question. The COSS meetings were presided over by the European Commission. The UK was represented by officials from the Maritime and Coastguard Agency, an executive agency of the Department for Transport.

(c) There were no meetings of this Committee during the UK presidency.

(d) There has been one meeting of this committee during the UK Presidency. It was chaired by the European Commission. The UK was represented by officials from DfT and the Office of Rail Regulation.

(e) There were no meetings of this Committee during the UK presidency.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12 to 15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Angus Robertson: To ask the Secretary of State for Transport how many meetings the *(a)* Advisory Committee on transport, *(b)* EC-Bulgaria Joint Transport Committee, *(c)* EC-Romania Joint Transport Committee, *(d)* Consultative Committee European Energy and Transport Forum and *(e)* EC-Former Yugoslav Republic of Macedonia Joint Transport Committee have taken place during the UK Presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38040]

Dr. Ladyman: The information requested is as follows.

(a) , *(b)* and *(c)* There were no meetings of these Committees during the UK presidency.

(d) There was one meeting of this Forum during the UK presidency. It is a stakeholders' body, chaired by the Commission. DfT does not attend.

(e) There was no meeting of this Committee during the UK presidency.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12 to 15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Angus Robertson: To ask the Secretary of State for Transport how many meetings of the *(a)* Advisory Committee on measures to be taken in the event of a crisis in the market in the carriage of goods by road and for laying down the conditions under which non-resident carriers may operate national road haulage services, *(b)* Advisory Committee for the application of legislation on the conditions under which non-resident carriers may operate national road passenger transport services within a member state and *(c)* Committee on the reciprocal recognition of national boatmasters' certificates of the carriage of goods and passengers by inland waterways have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38041]

Dr. Ladyman: None of these committees met during the UK presidency.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in

paragraphs 4.12 to 15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

First Aid (Driving Tests)

Susan Kramer: To ask the Secretary of State for Transport if he will introduce basic first aid education as part of the driving test requirements. [40274]

Dr. Ladyman: I refer the hon. Member to my answer of 27 October 2005, *Official Report*, column 504W.

Ministerial Meetings

Mr. George Howarth: To ask the Secretary of State for Transport if he will list meetings held between Ministers and *(a)* airport authorities and *(b)* interested groups since June; and if he will place the minutes of the meetings in the Library. [26407]

Ms Buck: Ministers and officials have met with a wide range of aviation stakeholders, including airlines, airports and local and environmental interest groups. The matters discussed at many of them are confidential for commercial or other reasons, therefore it would not be appropriate to summarise the details of these meetings or to place the minutes in the House Library.

Mobile Phones

Ben Chapman: To ask the Secretary of State for Transport what steps he is taking to inform motorists of the dangers of using a mobile phone while driving. [40667]

Dr. Ladyman: Messages on the dangers of using a mobile phone while driving are promoted as part of the Department's THINK! road safety campaign, which has a budget of £18 million in this fiscal year.

Mobile phone messages have been included in the THINK! campaign since 2002. Activity this fiscal year includes cinema and radio advertising and leaflets and posters which encourage drivers to switch off their mobile phones before they drive off, using captions such as "switch off before you drive off" and "missing a call won't kill you".

Provisions in the Road Safety Bill, presently before the House, will make the penalty for the offences of using a hand-held mobile phone while driving, and for not having proper control of a vehicle (used to deal with those who drive poorly while using a hands-free phone), endorseable with three points and a £60 fine. Subject to parliamentary consideration of the Bill, the Department will promote awareness of the increased penalties.

Ben Chapman: To ask the Secretary of State for Transport what discussions he has held with the Home Office regarding the enforcement of the offence of driving while using a mobile phone. [40668]

Dr. Ladyman: The Department is in regular discussion with the Home Office and the Association of Chief Police Officers on all aspects of roads policing. In this context, Ministers from the two Departments and the Head of the ACPO Road Policing Business Area issued a joint Roads Policing Strategy Statement on 11 January 2005—available online at www.dft.gov.uk/stellent/groups/dft_rdsafety/documents/page/dft_rdsafety_033749.pdf

The day to day enforcement of road traffic law is an operational matter for individual chief officers of police. They are best placed to recognise local concerns and to identify and assess the nature and cause of specific local problems. They will then determine how best to deploy their resources to address them in the light of their overall priorities.

Motorbikes

Mr. Paterson: To ask the Secretary of State for Transport what his estimate is of the value of new motorbikes purchased in each year since 1997. [38656]

Dr. Ladyman: This information is not available.

Mr. Paterson: To ask the Secretary of State for Transport how many new motorbikes were purchased in each year since 1997. [38658]

Dr. Ladyman: The number of motorcycles newly registered in Great Britain are as follows:

	Thousand
1997	106.4
1998	117.2
1999	123.0
2000	118.8
2001	112.4
2002	110.0
2003	108.8
2004	98.4

Source:
Driver and Vehicle Licensing Agency

These figures exclude scooters and mopeds.

Mr. Paterson: To ask the Secretary of State for Transport what his estimate is of the value of second-hand motorbikes purchased in each year since 1997. [38659]

Dr. Ladyman: This information is not available

Port of Sharpness

Mr. Drew: To ask the Secretary of State for Transport what progress is being made towards re-opening a rail link to the Port of Sharpness. [39275]

Derek Twigg: The Department has not received any proposals to re-establish rail links to the Port of Sharpness.

Railways

Mr. Hollobone: To ask the Secretary of State for Transport in what month he expects to publish the specification for the new merged Central Trains/Midland Mainline railway franchise. [39787]

Derek Twigg: Our current expectation is that consultation on the new East Midlands franchise draft specification will commence in summer 2006.

Greg Mulholland: To ask the Secretary of State for Transport what the average age is of passenger trains on *(a)* the London and South East heavy rail network, *(b)* the local regional rail network and *(c)* the Northern Trains franchise. [38722]

Derek Twigg: The average age of passenger trains, as at 1 October 2005 is approximately as follows: London and South East Network 12 years; the regional network 16 years and Northern Trains franchise 17 years.

Road Accidents

Mr. Amess: To ask the Secretary of State for Transport how many *(a)* males and *(b)* females were (i) killed, (ii) seriously injured and (iii) slightly injured as a result of a motor vehicle being driven on the wrong side of the road in each of the last 10 years for which figures are available. [39708]

Dr. Ladyman: The information requested is not available.

Road Deaths

John Mann: To ask the Secretary of State for Transport how many road deaths there have been in the Nottinghamshire county council area in the last three years. [40690]

Dr. Ladyman: The number of fatalities in personal injury road accidents, in the Nottinghamshire county council area (excluding the City of Nottingham) in the last three years is given in table.

Fatalities in personal injury road accidents[1] in Nottinghamshire CC (excl. Nottingham City)

	Number
2002	69
2003	64
2004	54

[1] Deaths within 30 days of the accident. Excludes confirmed suicides, death from natural causes and injuries to pedestrians with no vehicle involvement (e.g. a fall on the pavement).

Roads

Mr. Paterson: To ask the Secretary of State for Transport what the cost has been to his Department of *(a)* repairing existing and *(b)* building new roads in each year since 1997, broken down by category of road. [38451]

Dr. Ladyman: The motorways and trunks roads of the strategic road network are managed by the Highways Agency, an executive agency of the Department for Transport. The reporting of the cost of these roads is not broken down by category of road. The figures for repairing existing and building new roads on this network since 1998–99 are:

£ billion

	1998–99	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Repairing[1]	0.64	0.72	0.74	0.71	0.76	0.78	0.73
Building new roads[2]	0.32	0.36	0.31	0.40	0.51	0.35	0.35

[1] Resource and capital expenditure.
[2] The apparent decrease in spending between 2002–03 and 2003–04 is due to a change in accounting treatment of lands provisions.
Note:
Information is not readily available for 1997–98.

This information includes expenditure on roads in London until the creation of Transport for London in 2000. The later numbers do not include this expenditure, which is now a matter for the Mayor of London and the Greater London Assembly.

Mr. Hollobone: To ask the Secretary of State for Transport how many Article 14 Directives have been served by the Highways Agency on developments in North Northamptonshire. [39784]

Dr. Ladyman: The Highways Agency has served eight Article 14 Directions in North Northamptonshire since 1 January 2005. An additional direction issued in December 2004 is still in force. The Highways Agency offered no objection to a further 44 Planning Applications. Details of the directions are shown in the following table:

Table 1

Mr. Hollobone: To ask the Secretary of State for Transport what recent discussions his Department has had with Northamptonshire county council about the construction of new distributor road capacity around Kettering. [39785]

Dr. Ladyman: None.

Seat Belts

Mr. Amess: To ask the Secretary of State for Transport what the *(a)* front and *(b)* rear seat belt wearing rates are among (i) males and (ii) females in each of the last five years for which information is available; and what the equivalent rates were in (A) 1980, (B) 1982, (C) 1983, (D) 1984, (E) 1987, (F) 1990, (G) 1992, (H) 1994, (I) 1996 and (J) 1998. [39777]

Dr. Ladyman: Survey data on observed seat belt wearing rates from 1982 to 1989 only cover front seat occupants of cars and do not distinguish by gender. Surveys were not made prior to 1982. The available data are in the table:

Wearing rates for car front seat occupants

Percentage

Month	Driver	Passenger
May 1982	37	39
April 1983	95	94
April 1984	95	96
April 1987	94	95

Source:
TRRL report RR289: "Restraint use by car occupants 1982 to 1989"

From October 1988, surveys provided the following observed wearing rates for drivers and front and rear occupants:

Wearing rates for car drivers and front and rear seat occupants

As at April 1990	Percentage
Driver	93
Front passenger	93
Rear passenger	45

Source:
TRRL leaflet LF2051 "Restraint use by car occupants 1990–91"

From April 1991 the surveys provided observed wearing rates by age group for drivers and by age group and gender for front and rear occupants, shown in the following table. Later surveys provided wearing rates by gender for drivers. A gender split for children is only available from April 2003. Prior to April 2003, the data for children in rear seats are split into 0–4 and 5–13 age groups and wearing rates are not aggregated.

Wearing rates for car drivers, front and rear seat occupants distinguished by age group and gender

Percentage

	Driver			Front seat passenger				Rear seat passenger

The most recent survey results, "Restraint use by car occupants 2003 to 2005" (Reference Lf2096) are available free from TRL at www.trl.co.uk/store/report_list.asp?pid=211&pno=6&searchtext= (listed under Reports 51–54). Earlier reports are available on application to TRL (www.trl.co.uk).

Speed Cameras

Chris Ruane: To ask the Secretary of State for Transport if he will permit revenue raised from speed camera fines to be used to fund 20 mph zones outside schools. [39289]

Dr. Ladyman: The current funding arrangement of the National Safety Camera Programme allows for revenue raised from safety cameras to be used only to fund the deployment of safety cameras.

This is because the Safety Camera Programme has a specific purpose, provided for in the Vehicles (Crime) Act 2001, section 38 'Unified power for the Secretary of State to fund speed cameras etc' whereby police forces and highway authorities are provided with extra resources to support the deployment and operation of safety cameras, from the fines for speeding and red light offences detected, over and above their main road safety funding. The resources provided through the programme cannot therefore be used for any other purposes, not provided for in the Act.

Under this current arrangement any surplus fine revenue is paid to the Consolidated Fund at HM Treasury.

The Secretary of State announced on 15 December 2005 that this funding arrangement for safety cameras will end on 31 March 2007. From 1 April 2007 all future income from safety cameras in England and Wales will go to the Consolidated Fund in the same way as other fines.

In England the Department for Transport will be enhancing the level of funding for road safety within the local transport planning process by £440 million over the period 2007–08 to 2010–11. This new arrangement for funding road safety will give local road safety partnerships (local authorities, the police and other agencies who work with them) greater flexibility to implement the mix of road safety measures, including 20 mph zones around schools, that will make the greatest contribution to reducing road casualties in their area.

On 1 April 2007, responsibility for safety cameras in Wales will transfer to the National Assembly for Wales. I understand that the Welsh Assembly Government are considering future funding arrangements.

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to his answer of 29 November 2005, *Official Report*, column 328W, on speed cameras, what previous studies of regression to the mean effect on the statistics relating to the number of accidents on roads with speed cameras have been conducted; and what the results were. [36964]

Dr. Ladyman: The Department for Transport has not conducted any previous studies of the regression to the mean effect on the number of accidents on roads with speed cameras.

John Mann: To ask the Secretary of State for Transport how many speed cameras there are in the county of Nottinghamshire excluding cameras on the A1. [40689]

Dr. Ladyman: The table shows the number of speed camera sites, broken down by type, which are operated by the Nottinghamshire Safety Camera Partnership, excluding those on the A1.

	Nottinghamshire	*Nottingham city*	*Total*
Combined speed/red light	2	0	2
Time/distance	7	4	11
Fixed	6	3	9
Mobile	24	12	36
Total	39	19	58

There may be several camera housings contained within one site. The police have the discretion to enforce speed limits outside the national safety camera programme, and this could be done anywhere on the road network.

Mr. Paterson: To ask the Secretary of State for Transport what information his Department collects centrally on speeding fines. [39683]

Dr. Ladyman: Information on speeding fines is collected by the Home Office. The only information held by the Department is the total income from fixed penalty fines from safety cameras that are operated as part of the safety camera programme. This information is available for each area that participates in the national safety camera programme. The latest information available is shown in the Audit Certificates published on the Department's website at www.dft.gov.uk/safetycameras.

Transport (Gravesham)

Mr. Holloway: To ask the Secretary of State for Transport how many *(a)* fatal and *(b)* serious road traffic accidents occurred in the Gravesham constituency in each year since 1997. [40624]

Dr. Ladyman: The number of fatal and serious personal injury road traffic accidents in the Gravesham constituency since 1997 are shown in the table.

	Fatal accidents	*Serious accidents*
1997	5	36
1998	7	36
1999	5	48
2000	4	44
2001	3	47
2002	6	30
2003	3	39
2004	3	36

The accidents in the table are those which occurred within the 2004 boundary of Gravesham constituency.

Trust Ports

Mr. Gibb: To ask the Secretary of State for Transport what grants have been made to each trust port in the last 12 months *(a)* in total and *(b)* broken down by type of grant. [39414]

Dr. Ladyman: Trust ports receive no grants from this Department to support their functions as Statutory Harbour Authorities. I understand that grants were given by the Department for Environment, Food and Rural Affairs for fishing port facilities in 2005 to the following trust ports:

£

Trust port	*Amount*
Mevagissey	56,705
Newlyn	1,043,366
North Sunderland (Seahouses)	9,038
Port Isaac	40,000
Sennen Cove	2,473
Warkworth (Amble)	111,007

Vehicle Excise Duty

Mr. Paterson: To ask the Secretary of State for Transport how many *(a)* private cars, *(b)* commercial vans, *(c)* lorries and *(d)* motorbikes did not have their vehicle excise duty renewed in each year since 1997. [39681]

Dr. Ladyman: The estimated number of vehicles that did not have their excise duty renewed for each year in Great Britain is as follows:

Thousand

	(a) Cars	*(b) Commercial vans*	*(c) Lorries*	*(d) Motorbikes*
1997	1,564	162	34	112
1998	1,812	184	46	88
1999	1,578	172	25	97
2000	1,908	212	28	122
2001	1,865	202	32	126
2002	2,032	218	22	108
2003	2,197	227	22	99
2004	1,817	194	11	82

Source:
Driver and Vehicle Licensing Agency

The figures are produced by comparing the number of vehicles newly registered each year against the overall increase in stock. Vehicles that were renewed in a later year than the expiry date are included in the year in which they were renewed.

The Motorbike data includes scooters and mopeds as well as motorbikes.

Vehicle Registration

Mr. Paterson: To ask the Secretary of State for Transport what his estimate is of the number of foreign registered *(a)* cars, *(b)* commercial vans and *(c)* lorries on UK roads in each year since 1997. [38829]

Dr. Ladyman: Estimates of the number of foreign registered vehicles on UK roads are not available. However, the estimated number of foreign registered vehicles leaving the UK is as follows.

Estimated number of foreign registered vehicles[1] leaving the UK: 1997 to 2004

Thousand

	Cars[2]	*Goods vehicles[3]*
1997	1,019	671
1998	880	826
1999	[4]1,015	967
2000	801	1,153
2001	722	1,319
2002	862	1,435
2003	770	1,453
2004	799	1,595

[1] Vehicles leaving on ferries or through the Channel Tunnel. Figures are for vehicle trips (i.e. a vehicle is counted once each time it leaves the UK).

[2] Cars includes minibuses (small passenger vehicles with 9 to 15 passenger seats) and similar vehicles, and light goods vehicles up to 4.5 metres long.

[3] Goods vehicles over 3.5 tonnes gross vehicle weight.

[4] From 1999, traffic between the UK and the Irish Republic, either by sea or across the land border (about 130,000 cars) is included. This was excluded in earlier years.

Cars, International Passenger Survey (Office for National Statistics); Goods vehicles, Roll on/Roll off Goods Vehicle Survey (Department for Transport)

CULTURE, MEDIA AND SPORT

Art Loans

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what steps she has taken to reassure the Russian Government that works of art on loan to British museums and galleries will not be seized as a result of international debts owed to third parties. [40273]

Mr. Lammy: No discussions have as yet taken place with the Russian Government on these issues. I am meeting museum and gallery directors most affected by these issues shortly to discuss possible solutions and to consider how we can reassure Russian museums and galleries as to the safety of continuing to lend items to UK institutions.

Churches (Inspired Campaign)

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the implications for churches in the Vale of York of English Heritage's Inspired campaign. [39609]

Mr. Lammy: No specific assessment has been made of the potential implications of the campaign on churches in the Vale of York. When the Inspired campaign is launched in May 2006, it will bring together existing and new research to provide an accurate picture of the repair needs of listed places of worship, and the support required by congregations. Information on the most vulnerable places of worship will be available at a county level.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Culture, Media and Sport when she will reply to the letter dated 25 October from the right hon. Member for Manchester, Gorton with regard to Mr. Mike Amesbury. [37158]

James Purnell: I am sorry for not replying sooner to my right hon. Friend the Member for Manchester, Gorton's question tabled on 8 December. I replied to my right hon. Friend's letter on 20 December.

Departmental Expenditure

Martin Horwood: To ask the Secretary of State for Culture, Media and Sport how much the Department and its agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project. [33214]

Mr. Lammy: The information is as follows:

(a) The Department has had a zero spend on design and production of new logos since 2000.

(b) (i) The Department spent £100,000 on public relations in 2004–05. The Department anticipates a spend of £250,000 on public relations in 2005–06 (both public relations spends relate to the Digital Campaign).

(ii) The information on graphic design agencies broken down by projects could be given only at disproportionate cost. However the total spend on publicity, including all graphic design work, since 2000 are as follows:

	£
1999–2000	497,404
2000–01	497,243
2001–02	318,140
2002–03	386,233
2003–04	533,549
2004–05	711,242

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what has been the annual expenditure on training and development for *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which she is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39995]

Mr. Lammy: For the last three financial years the total cost to *(a)* the Department of all training and development provision was as follows:

	£
	Cost
2002–03	482,573
2003–04	453,709
2004–05	621,349

The information for *(b)* (i) Non-Departmental Public Bodies and (iii) other public bodies for which the Secretary of State is responsible is not collected centrally on a regional basis and so could be provided only at disproportionate cost.

(ii) The figures for The Royal Parks Agency, the Department's only executive agency, are as follows:

£

	Amount
2002–03	33,000
2003–04	24,000
2004–05	62,000

In reference to points (A), (B), (C) and (D), neither DCMS nor the Royal Parks Agency has offices outside London.

The planned expenditure on training and development for the Department for 2005–06 is £621,000.

The planned expenditure on training and development for the Royal Parks Agency for 2005–06 is £100,000.

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport how much her Department spent on bottled water in 2004–05. [40340]

Mr. Lammy: The Department for Culture, Media and Sport spent £19,059.00 on bottled water in 2004–05.

The Royal Parks Agency spent £865.27 on bottled water in 2004–05.

Departmental Jobs (Regional Distribution)

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport how many and what percentage of jobs in *(a)* her Department and *(b)* each (i) executive agency, (ii) non-departmental public body and (iii) other public body for which his Department is responsible are located in (A) Scotland, (B) each of the English regions, (C) Wales, (D) Northern Ireland and (E) overseas; and what proportion in each area has responsibilities which apply to (1) England only, (2) England and Wales and (3) the UK as a whole. [39938]

Mr. Lammy: Permanent staff numbers on a (FTE basis) are published in Table D Civil Service Statistics. This information is available on the Cabinet Office Statistics website: <http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp>

All jobs in DCMS and Royal Parks are based in the London region.

The other information is not held centrally i.e. that relating to:

Non Departmental Public Bodies and other public bodies for which the Department is responsible broken down by geographical regions, and

what proportion in each area has responsibilities which apply to the areas requested.

This information could be supplied only at disproportionate cost.

Departmental Staff

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport how many civil servants in her Department worked from home for at least one day a week in the last year for which figures are available. [40295]

Mr. Lammy: The Department for Culture, Media and Sport does not centrally monitor staff working patterns. However, of those we know, there are 25 people who regularly work from home for at least one day a week.

The Department continues in its commitment to Work Life Balance and has policies in place to encourage staff to take advantage of a wide range of alternative working patterns on offer, including working from home.

Elite Athletes (Funding)

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what submissions her Department has received concerning funding for elite athletes at the *(a)* 2008 and *(b)* 2012 Olympics: from whom those submissions came; what increase in funding they recommended; over what time period; and if she will make those submissions public. [38358]

Mr. Caborn *[holding answer 19 December 2005]:* DCMS has received advice in the form of a submission from UK Sport, the Government's lead agency on elite sport. The Government are looking carefully at the case for additional funding for elite athletes in advance of the London Olympic and Paralympic Games in 2012. The Government are looking at a range of funding options, but are not in a position at this stage to make public the levels of funding under discussion.

We have not received any further submissions on this matter.

Free Television Licences

Mrs. James: To ask the Secretary of State for Culture, Media and Sport how many households are in receipt of free television licences in Swansea East. [38850]

Mr. Caborn: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in Swansea East in 2004–05 was 4,245, according to Department for Work and Pensions records.

Gambling Act 2005

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what the timetable is for the implementation of the Gambling Act 2005, including *(a)* the publication of regulations, *(b)* the anticipated parliamentary timetable for the ratification of secondary legislation and *(c)* the timetable for licensing authorities to consult on their licensing policies and receive applications for premises licences for casinos. [40116]

Mr. Caborn: We plan to bring the Gambling Act 2005 fully into force with effect from September 2007.

The first two commencement orders were made at the end of August 2005. These brought into force on 1 October 2005 the provisions of the Act formally creating the Gambling Commission.

My Department has been considering the remaining subordinate legislation needed to complete the process of implementation and the timetable for that legislation. We propose to publish details early in the new year.

We plan to lay regulations setting out the form that the licensing authorities' three-year licensing policy statements should take, on 10 March 2006. These regulations shall come into effect on 31 March 2006.

Licensing authorities must publish their policy statements at least one month before they come into effect, which will be on 31 January 2007.

We have established an independent Casino Advisory Panel to advise the Secretary of State on the exercise of her powers to specify which local authorities may issue the new casino premises licences created by the Act. The panel is due to make its recommendations by the end of 2006, and the Secretary of State will announce her decisions in spring 2007. Those licensing authorities which are selected are required to be specified in an order under section 175(4). That order will be subject to parliamentary approval by the affirmative resolution procedure.

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what guidance *(a)* her Department and *(b)* the Gambling Commission has issued on when licensing authorities may (i) consult on and (ii) adopt, a policy resolution not to issue casino licences under the Gambling Act 2005; and if she will make a statement. [40117]

Mr. Caborn: Licensing authorities may have regard to any principle or matter in passing a resolution, made under section 166 of the Gambling Act 2005, not to issue a casino premises licence. They may consult local people at any time and in any manner on their views on casinos, and we envisage that many will want to do so when considering making a resolution under section 166.

Licensing authorities will not be able to pass a resolution until the relevant provisions in section 166 have been formally commenced. This will be done in good time for any resolution to be included in licensing authorities' three year licensing policy statements.

Draft guidance to licensing authorities about the exercise of their functions under the Gambling Act 2005 was published by the Gambling Commission on 16 December 2005.

Gaming Regulation

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport what representations she has received on the regulation of *(a)* fixed odds betting terminals and *(b)* adult gaming centres. [39496]

Mr. Caborn: During the passage of the Gambling Act through Parliament the Department received representations from the Association of British Bookmakers, other gambling industry bodies, and the British Greyhound Racing Board regarding the regulation of fixed odds betting terminals.

The Department has also received representations from British Amusement Catering Trades Association, faith groups and correspondence from members of the public regarding the regulation of both fixed odds betting terminals and adult gaming centres.

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport which casino premises are *(a)* licensed and *(b)* licensed and operational under the 1968 Gambling Act. [39497]

Mr. Caborn: The information requested is set out in the table.

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport how many applications the Gambling Commission has received for new casinos under the 1968 Gambling Act in each of the last 24 months. [39498]

Mr. Caborn: The Gambling Commission (previously the Gaming Board for Great Britain) considers applications for certificates of consent for casinos. Once a certificate of consent is issued, operators can then apply to the Licensing Justices for a Gaming Licence.

The following table sets out the number of applications for certificates of consent in respect of new casinos that the Gaming Board has received during the period requested.

Gyms (Accessibility)

Tim Farron: To ask the Secretary of State for Culture, Media and Sport what discussions her Department has had with operators of national gymnasium chains on accessibility by disabled users; what assessment she has made of the current levels of access to gymnasia for disabled people; and if she will discuss steps to require gyms to be fully accessible to disabled users with the Secretary of State for Work and Pensions. [40740]

Mr. Caborn: All Government Departments are committed to the broader vision of improving the life chances of disabled people through the delivery of services and the development of their policies. The Department for Work and Pension's Inter-Departmental Group on Disability is a forum for DCMS to take part in policy discussions on disability issues.

DCMS has had no discussions with national gymnasium chains about accessibility but in August 2005 I wrote to all local authorities reminding them of their responsibilities under the Disability Discrimination Act in the context of leisure and tourism facilities.

Since 2001, Sport England (SE), working in partnership with the English Federation of Disability Sport (EFDS), has invested £6 million in the Inclusive Fitness Initiative (IFI). The investment has supported the development of 180 fully accessible local authority gyms which have a required minimum level of accessible gym equipment; suitably trained staff; marketing which is targeted at members of the disabled community; and strong links with other sporting opportunities for disabled people.

SE and the EFDS are also working with fitness gym providers such as Cannons and Fitness First to improve provision for disabled people in private sector facilities.

Licensed Premises

Mr. Lansley: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of *(a)* the proportion of licensed premises to which children have access and *(b)* the proportion of these premises which (i) serve and (ii) do not serve food. [39359]

Mr. Caborn: Under the old regime, it was legal for unsupervised children of any age to enter and remain in licensed premises so long as they did not enter the 'bar area'. Under the new regime, there are restrictions that prevent unaccompanied children under 16 being present in certain categories of premises that sell alcohol for consumption on the premises, including pubs and night clubs. In addition, where necessary and appropriate, conditions may be attached to premises licences or club premises certificates which prohibit or restrict the entry of children.

We estimate that there are around 190,000 premises licensed under the 2003 Act but information is not held centrally on how many have conditions attached to their licence which restrict entry to children. As 'licensed' premises include pubs, nightclubs, hotels, cinemas, theatres, restaurants and late night takeaways, it is likely that the vast majority serve food, including bar snacks.

Licensing Act

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport how many establishments she estimates are trading without a licence under the Licensing Act 2003 in each London borough; and if she will make a statement. [39055]

Mr. Caborn: This information is not held centrally. My Department has received no reports from the police or licensing authorities about establishments in London carrying on a business without an appropriate licence.

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport if she will list the local authorities that have *(a)* made representations to her Department for additional resources and *(b)* been allocated additional resources to take on the functions under the Licensing Act 2003; and if she will make a statement. [39056]

Mr. Caborn: Costs incurred by local authorities in meeting their requirements under the Licensing Act 2003 will, provided that they have been incurred legitimately and efficiently, be fully met by fees within the national fee regime. No additional resources should therefore be necessary.

In the context of Sir Les Elton's independent panel, which is currently reviewing fee levels to ensure that the fees have been set at the right level, representations by local authorities are co-ordinated through the Local Government Association (LGA) and the Local

Authorities Co-ordinators of Regulatory Services (LACORS), and are not generally attributable to particular local authorities.

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport if she will list local authorities that have outstanding licence applications under the Licensing Act 2003; and if she will make a statement. [39057]

Mr. Caborn: Data on these are not held centrally. There are always likely to be some licence applications outstanding, because the licensing process under the 2003 Act is a continuous one, as people create new businesses and services, or seek changes in the use of premises, and so on.

London Olympics

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport who will own the *(a)* land and *(b)* properties on the land acquired by the London Development Agency following the London 2012 Olympics; and if she will make a statement. [39058]

Mr. Caborn: The owner of the land will depend on the decision taken by the Secretary of State about whether to confirm the London Development Agency's (LDA) Lower Lea, Olympic and Legacy Compulsory Purchase Order (expected in 2006).

If it is confirmed, the LDA as the acquiring authority would have legal title vested in the land required within the Olympic Park—both prior to and after the Games in 2012. It is proposed that it will then enter into agreements to make available land/properties to identified development partners or managing organisations to deliver the regeneration and sporting legacy identified for this area and proposed in the compulsory purchase order.

Media Monitoring

Philip Davies: To ask the Secretary of State for Culture, Media and Sport how much her Department has spent on media monitoring activities in each of the last eight financial years. [35633]

Mr. Lammy: The Department for Culture, Media and Sport can provide accurate records for the last four financial years, including this year to the present date.

Financial year	£
2002–03	121,673.22
2003–04	124,284.18
2004–05	120,668.96
2005-todate	107,322.67

National Lottery Grants

Greg Clark: To ask the Secretary of State for Culture, Media and Sport what the cost is of administering national lottery grants to good causes per pound of grant disbursed. [40261]

Mr. Caborn: On the basis of information provided by distributors, during financial year 2004–05 the amount paid in administration was just over 10 pence per pound of Lottery grant paid to successful applicants.

Primary School Children (Activities)

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what activities are sponsored by her Department for primary school children during their summer holidays. [40229]

Mr. Lammy: My Department supports a number of activities funded across government, our public bodies and by the Big Lottery Fund which deliver a range of sporting and cultural opportunities for children and young people throughout the year.

The DCMS website, Breakout, provides information and ideas to families on a range of sports, arts and cultural activities, and can be found at:

http://www.culture.gov.uk/breakout/fl/index.htm

Public Service Agreement

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how her Department plans to assess progress towards its public service agreement performance target 2 prior to the next spending review; and if she will make a statement. [40254]

Mr. Caborn: The public service agreement (PSA) to halt the year-on-year rise in obesity among children under 11, in the context of a broader strategy to tackle obesity in the population as a whole, is the joint responsibility of the Secretary of State for Culture, Media and Sport, the Secretary of State for Education and Skills, and the Secretary of State for Health.

Joint cross-departmental programme management arrangements have been established to drive action to meet this target. Progress against the target will be measured through the Health Survey for England. The baseline will be established for the years 2002–04. The 2005 Health Survey data will be available late 2006/early 2007. We shall assess progress at that point.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the effect of the change to the definition of attendance in her Department's 2005 to 2008 public service agreement: technical note on her Department's public service agreement performance target to increase the number of people *(a)* from black and minority ethnic groups, *(b)* with a physical or mental disability and *(c)* in socio-economic groups C2, D and E who attended arts events at least twice a year by 3 per cent.; and if she will make a statement. [40255]

Mr. Lammy: Measurement of the arts public service agreement target for 2005–08 will look to establish whether individuals from the three priority groups have attended two different types of arts event in the previous 12 months. The previous measurement counted individuals who had attended two or more events, which could be of the same type, resulting in generally higher percentages.

The Department has commissioned, together with Arts Council England and other sponsored bodies, a national Taking Part Survey which will measure attendance and participation at quarterly intervals, with baseline figures being produced in summer 2006.

The Government remain committed to widening access by under-represented groups to the arts.

School Sport Partnership Scheme

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what percentage of school children in England have spent a minimum of two hours each week on high quality physical education and school sport within and beyond the curriculum in schools outside the School Sport Partnership scheme in each year since 2002; and if she will make a statement. [40252]

Mr. Caborn: The information requested is not held.

The annual PE, School Sport and Club Links survey only collects data from schools that are within a School Sport Partnership. However all maintained schools will be within a partnership from 2006 and the national survey, already the largest survey of PE and school sport in Europe, will include all schools from that point on.

The 2004–05 survey, in which over 54 per cent. of schools in England who were at that time within a School Sport Partnership participated, showed that 69 per cent. of pupils were taking part in two hours or more of high quality PE and school sport each week.

Sports Activity

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the baseline is by which her Department's measures to increase the number of people from priority groups *(a)* who participate in active sports at least 12 times a year by 3 per cent., *(b)* who engage in at least 30 minutes moderate intensity level sport at least three times a week by 3 per cent., *(c)* who participate in an arts activity at least twice a year by 2 per cent., *(d)* who attend arts events at least twice a year by 3 per cent., *(e)* accessing museums and galleries collections by 2 per cent. and *(f)* visiting designated historic environment sites by 3 per cent. will be measured; and if she will make a statement. [40256]

Mr. Lammy: Final baselines for public service agreement target 3 (PSA3) will be available in late 2006.

Provisional baseline estimates for PSA3 were published on 15 December 2005. Copies of the report can be found at www.culture.gov.uk/global/research/taking_part_survey/survey_outputs.

Swimming Pools

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many calls have been made to the hotline set up to deal with parents' questions about swimming pool admissions policy. [39642]

Mr. Caborn: The primary purpose of the hotline is to provide a point of contact for parents who wish to make a complaint about being denied access to a specific pool as a result of a child admissions policy. Since it went "live" on 8 September 2005, the hotline has received nine telephone calls, all of which have been to request general information about local swimming facilities. The hotline has also received 14 e-mails which have ranged from specific complaints about an admissions policy at an individual pool to more general concerns about admissions policies per se.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many pools have altered their admission policy on parental supervision of children since her meeting on the subject earlier in 2005. [39643]

Mr. Caborn: Data have not been collated on the numbers of pools where an admissions policy has altered since my meeting on this subject in 2005. Information on admissions policies at individual pools in England is available through Sport England's "Active Places" website (www.ActivePlaces.com). The Amateur Swimming Association has also compiled a comprehensive list of swimming pools through which similar information can be found. Both databases are maintained regularly.

It is for individual pool operators to determine appropriate measures to mitigate risks at their pools identified through a risk assessment. The Health and Safety Executive advocates that, as part of this process, pool operators should consider the number of children which can safely be accompanied by a single adult. Risk mitigation measures should be kept under review to ensure that they remain appropriate. It is also sensible for pool operators to take account of the guidance available in this area.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what recent assessment she has made of the situation regarding parental supervision of children in swimming pools; and if she will make a statement. [39644]

Mr. Caborn: On 8 September 2005 my Department, after consultation with the Health and Safety Executive and other relevant bodies, implemented an action plan to address the issue of apparent blanket applications of admissions policies at swimming pools. I am confident that the plan will encourage proper flexibility in the implementation of pool safety and risk management measures.

Television/Radio

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport what is the estimated number of *(a)* televisions and *(b)* radios in use in (i) Scotland, (ii) Wales, (iii) each of the English regions and (iv) Northern Ireland is. [39204]

Mr. Caborn: The number of televisions in use by ITV region (the only format in which we possess this information) is:

	Number of television sets
London	11 million
Midlands	9.1 million
North West	6 million
Yorkshire	5.5 million
Central Scotland	3.2 million
North Scotland	1.2 million
South and South East and Channel Islands	5.4 million
North East	2.8 million
East	4.3 million

	Number of television sets
South West	1.8 million
Ulster	1.1 million
Border	636,000
West	2.4 million
Wales	2.4 million

Note:
Border ITV covers communities on both sides of the England/Scotland border.

Source:
BARB Establishment survey June 2004.

The approximate number of radio sets (including analogue and digital) in the nations of the UK are:

Million

	Number of radio sets
Scotland	13
England	120
Wales	7.6
Ulster	4.3

WORK AND PENSIONS

Norcross (Job Losses)

14. **Mr. Wallace:** To ask the Secretary of State for Work and Pensions what measures he has in place to deal with potential job losses at the Department's site in Norcross. [40171]

Mrs. McGuire: The significant investment made to modernise the Department's IT systems and transform the way it delivers services more efficiently means that fewer staff will be required to deliver high quality services in the future. These efficiencies are being made across the country and in all of the Department's businesses.

We are managing the reduction in staffing through normal staff turnover, controlling recruitment and promotions, and re-deploying staff to fill vacancies. In addition we are running a limited number of voluntary early release/early retirement schemes. There has not been a single compulsory redundancy at the Norcross site and we will continue to do everything possible to avoid the need for redundancies in the future.

Child Support Agency

15. **Ben Chapman:** To ask the Secretary of State for Work and Pensions if he will make a statement on the process used by the Child Support Agency for the assessment of cases. [40172]

Mr. Plaskitt: Under the new scheme, non-resident parent's net weekly income is used to determine how much child maintenance they have to pay. Normally maintenance is then calculated with 15 per cent. for one child; 20 per cent. for two children; and 25 per cent. for three children or more. But there are special provisions, for example, parents on benefits or low income.

19. **James Brokenshire:** To ask the Secretary of State for Work and Pensions if he will make a statement on progress with the reform of the Child Support Agency. [40176]

Mr. Plaskitt: There's good progress. The chief executive Stephen Geraghty has been undertaking a review of all aspects of the agency's operation. Ministers are considering his report and my right hon. Friend the Secretary of State will make an announcement to the House shortly.

24. **Mr. Evennett:** To ask the Secretary of State for Work and Pensions when all Child Support Agency cases will be calculated under the new scheme. [40181]

Mr. Plaskitt: The Secretary of State will make an announcement on Child Support shortly.

Mrs. May: To ask the Secretary of State for Work and Pensions how many complaints have been received by the Child Support Agency in each year since 1997; how many went forward for adjudication; and how many have been *(a)* fully and *(b)* partially upheld. [11799]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 9 January 2006:

In reply to your Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many complaints have been received by the Child Support Agency in each year since 1997; how many went forward for adjudication; and how many have been *(a)* full and *(b)* partially upheld.

I have provided tables below to show the number of complaints received by the Agency by clients, and by other bodies, for which information is available. It should be noted that it is difficult to use this information to make meaningful comparisons over time due to changes in the way that information has been recorded. In particular, whilst the volume of Stage 1 complaints undoubtedly rose between 2002/3 and 2003/4, this is likely to have been due in part to more rigorous recording of complaints received at the time, and the introduction by the Agency of a three tier complaints process during 2003/04.

The three tier complaints process comprises of; Stage 1 complaints from clients which are dealt with by the Complaints Resolution Team located within each of the Agency's six business units. Stage 2 complaints which are an escalation to the relevant Area Director when the client is not satisfied with the outcome of stage 1, and stage 3 which is an escalation to the Chief Executive if the client remains dissatisfied.

Complaints are also received into the Agency from MPs, or via MPs from a member of the public.

The outcome of whether a complaint to the Agency is upheld is not recorded. However, as described above, clients are signposted to the next level of the process should they remain dissatisfied. The table below shows the volume of cases escalated to stages two and three, for which information is available. Once these internal avenues have been exhausted, the client may wish to contact the Independent Case Examiner (ICE), their MP or, via their MP, to the Parliamentary Commissioner for Administration.

Agency complaints—number of cases received in the agency 1997 to 2005

	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05
Stage 1 complaints received (written)	27,875	28,073	21,015	19,634	15,493	15,182	24,809	29,213
Stage 1 Complaints received (telephone)	[1]—	[1]—	[1]—	[1]—	[1]—	[2]—	7,458	10,570
Chief Executive Complaints	[3]—	[3]—	[3]—	4,096	4,555	7,804	[4]—	[5]—
Treat Official Complaints	[3,6]—	[3,6]—	[3,6]—	2,609	2,869	1,344	1,521	1,108
MP Complaints to Business Units	[3]—	[3]—	[3]—	4,175	4,818	4,537	5,317	8,871

Stage 1: Complaints escalated to stages 2 and 3. Between June 2004 and March 2005

	Number
Stage 1 complaints	32,898
Complaints escalated to stage 2	4,352
Complaints escalated to stage 3	2,549

[1] While the agency did receive stage 1 telephone complaints prior to 2002–03, their volumes were not recorded, thus preventing meaningful comparison with later years.

[2] Although 671 stage 1 telephone complaints were recorded between December 2002 and March 2003, their volumes were not recorded throughout the whole year, thus preventing meaningful comparison with later years.

[3] While the agency did receive complaints directly to the chief executive, treat official complaints, and MP complaints to business units prior to 2000–01, their volumes were not recorded, thus preventing meaningful comparison with later years.

[4] During 2003–04 complaints sent directly to the chief executive were not recorded separately from those complaints, which were escalated to him as part of the 3 stage process. Therefore, although 7,183 complaints in total were received during 2003–04, it is not possible to separate out those complaints received by the chief executive directly (as opposed to those escalated via the complaints process), thus preventing meaningful comparison with data for earlier years.

[5] In April and May of 2004, the chief executive received a total of 1,435 complaints but is not possible to separate out those complaints received by the chief executive directly, as opposed to those escalated to stage 3 of the complaints process). From June 2004-March 2005, after which time such complaints were recorded separately, the chief executive received 4,352 direct complaints and 2,549 complaints escalated upwards from stage 2. Again, these recording issues prevent meaningful comparison of this category with earlier years.

[6] Treat official letters are those received by a Minister from a member of the public, and referred for initial consideration to an official of the agency.

I hope you find this answer useful.

Mr. Andrew Smith: To ask the Secretary of State for Work and Pensions what monitoring he is undertaking of progress in eliminating the faults in the Child Support Agency computer system. [17583]

Mr. Timms: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the right hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

In reply to your Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what monitoring he is undertaking of progress in eliminating the faults in the Child Support Agency computer system.

The new Child Support computer system (CS2) is now more stable technically and performance has improved to the point where service levels are generally being met. A number of defects do remain but EDS has agreed to resolve these as a part of an agreed forward programme of enhancement.

EDS is required to report progress against its plans and maintain, jointly with the Department, records of IT items and fixes delivered. In addition, the Department has in place governance arrangements, including assessment against acceptance criteria, designed to achieve satisfactory delivery of all system improvements.

Finally, the Department's staff continue to monitor performance of the live CS2 service against agreed service levels.

I hope this information is helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) what proportion of parents with care on income support and income-based jobseeker's allowance have received Child Support Agency maintenance in each reporting period since 1999–2000; [21435]

(2) what proportion of parents with care on income support and income based jobseeker's allowance have received maintenance for their children in each year since 1995–96; and if he will make a statement. [21957]

Mr. Timms: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2005:

In reply to your recent parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Works and Pensions what proportion of parents with care on income support and income-based jobseeker's allowance have received Child support Agency maintenance in each reporting period since 1999–2000.

In addition, you asked the Secretary of State what proportion of parents with care on income support and income based jobseeker's allowance have received maintenance for their children in each year since 1995–96; and if he will make a statement.

The available information is detailed in the attached table.

I hope you find this helpful.

Proportion of parents with care on income support and income based jobseeker's allowance receiving maintenance between November 1997 and May 2005

	Percentage
November 1997	28
February 1998	27
May 1998	27
August 1998	26
November 1998	26
February 1999	26
May 1999	26
August 1999	26
November 1999	26
February 2000	25
May 2000	25
August 2000	25
November 2000	25
February 2001	24
May 2001	25
August 2001	25
November 2001	24

Proportion of parents with care on income support and income based jobseeker's allowance receiving maintenance between November 1997 and May 2005

	Percentage
February 2002	24
May 2002	24
August 2002	24
November 2002	24
February 2003	25
May 2003	—
August 2003	—
November 2003	—
February 2004	23
May 2004	23
August 2004	23
November 2004	24
February 2005	24
May 2005	25

Notes:

1. Percentages rounded to the nearest whole number.

2. The percentages are calculated by combing information from the CSA administrative system with that from the benefits system to get current benefit status. Information from the latter system does not exist prior to 1997.

3. We cannot provide information for 2003–04. This is due to limitations with the new system (CS2), which mean we do not currently hold information for new scheme cases and old scheme cases on CS2 for that period. This is an issue we are working to address and are hopeful that we will be able to provide this information in the near future.

4. The methodology used to produce these statistics is consistent with that used in the measurement of the Department's Public Service Agreement target in this area. Namely, all those cases with a child maintenance calculation or assessment where the parent with care is on income support or income based job seekers allowance (including those with a nil liability) who are in receipt of maintenance.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions if he will place in the Library the latest list of change requests made to EDS by the Child Support Agency. [30015]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will place in the Library the latest list of change requests made to EDS by the Child Support Agency.

A list of change requests was placed in the House Library on the 17 of November 2004. A list of subsequent requests is at Annex A and will also be placed in the House Library.

I hope you find this information useful.

Annex A: List of further changes agreed by the Child Support Agency and EDS

Description	Benefits
To enable the number of concurrent users of the Training System to remain at 700.	Maintain current capacity to train caseworkers on how to process cases on CS2.
The automatic deletion of superseded debt management work items.	Improved workload management for caseworkers. Removal of unnecessary work.
Debt management work items are generated in caseworkers' work queues to prompt the investigation of late or unexpected payments. However, a subsequent event on the case can remove the need for such an investigation. This new functionality will remove any debt management work items that are no longer relevant for investigation.	
The provision of several standard reports directly from CS2 audit trail data.	Compliance with Departmental Audit and Security Standards.
These reports will list, for checking and monitoring purposes, caseworkers that have completed activity on CS2 that has been pre-defined as a potential data security risk.	
To capture and record an audit trail of caseworkers' access to, and changes of, key data on CS2 client records.	Compliance with Departmental Audit and Security Standards.
The provision of a facility to allow specified users to make enquires of the recorded audit trail data, to support the completion of management and security checks on caseworker access to, and processing of, client records.	Compliance with Departmental Audit and Security Standards.
To provide an automated facility within CS2 to allow staff to record additional information provided by clients in note form, that will prove useful during subsequent contacts with the client.	Removes the need for recording and holding information clerically and supports improved service to clients as caseworkers will have a greater understanding of previous case activity.
The automatic retrieval of Benefit Office details and Post Office details using office identity codes.	Reduced resources required to correct transaction failures across the automated interface between the Child Support Agency and Jobcentre Plus, reduced delay in the start of deductions from benefit and improved levels of compliance.
Staff have to record Benefit Office details on cases where clients are in receipt of Jobseekers Allowance/Income Support to enable the correct electronic exchange of information. Post Office details are recorded to support the processing of payments.	
The provision of functionality to support the bulk conversion of cases from old scheme to new scheme from more than one maintenance assessment effective date.	Greater flexibility in the automatic processing available to support the bulk conversion of cases. (Note: bulk conversion is not yet scheduled).
The provision of automatic selection functionality within the bulk conversion process to identify cases based on their initial effective date.	More efficient selection of cases for conversion from old scheme rules to new scheme rules. (Note: Bulk conversion is not yet scheduled).

Annex A: List of further changes agreed by the Child Support Agency and EDS

Description	*Benefits*
To provide the ability to correct the effective date from which a case is converted from old scheme to new scheme.	Improved accuracy in the bulk conversion of cases from old scheme rules to new scheme rules. (Note: Bulk conversion is not yet scheduled).
Notifications issued to clients to advise them that their assessment is to convert to new rules, to be amended to include an explanation of why their case has been selected for bulk conversion.	Improved client service and a reduction in the volume of contact received from clients during bulk conversion from old scheme to new scheme. (Note: Bulk conversion is not yet scheduled).
To provide, as a prototype, additional functionality for staff to enquire on the progress of a case and view summary financial records. Staff have to perform these enquiries to answer frequent client queries on the progress of their case or payment.	The ability to test new functionality in a pilot study within one Business Unit to determine whether business benefits could be realised by the provision of this additional enquiry functionality.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions how many and what proportion of parents who are waiting for their Child Support Agency cases to be transferred from the old to the new scheme will pay *(a)* increased and *(b)* decreased payments under the new scheme. [30043]

Mr. Plaskitt: For those cases with a Full Maintenance Assessment on the Child Support Computer System (CSCS) in May 2005, we estimate that around *(a)* 60 per cent. would have an increased liability and *(b)* 40 per cent. would have a decreased liability if the new scheme rules were applied to their current reported circumstances.

We estimate that the majority of changes in maintenance liabilities will be for less than 10 per week. To give non-resident parents and parents with care time to adjust to their new amount, most changes are phased in by fixed annual steps.

Source:
Child Support Computer System 5 per cent. extract, May 2005.

Mr. Laws: To ask the Secretary of State for Work and Pensions in respect of how many children are payments being made through the Child Support Agency's *(a)* new scheme and *(b)* old scheme. [31021]

Mr. Plaskitt *[holding answer 24 November 2005]:* The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, in respect of how many children are payments being made through the Child Support Agency's *(a)* new scheme and *(b)* old scheme.

In September 2005, payment of maintenance was received from the non-resident parent via the Agency's collection service, or a maintenance direct arrangement was in place, in respect of 529,000 children, (of which 365,000 were on the old scheme, and 164,000 on the new scheme).

These figures (which are rounded to the nearest thousand) can be further broken down as follows:

Payment of maintenance had been received from the non-resident parent via the Agency's collection service in respect of 391,000 children, of which 127,000 were on the new scheme and 264,000 on the old scheme.

Maintenance-direct arrangements were in place in respect of 138,000 children (101,000 on the old and 37,000 on the new scheme). However, it is not possible to say whether or not payment was forthcoming in these cases as, once the arrangement has been set up, the parent with care and non-resident parent deal with each other direct.

I hope you find this helpful.

Danny Alexander: To ask the Secretary of State for Work and Pensions what proportion of assessed Child Support Agency claims in Scotland had maintenance collected via deduction of earnings orders in each quarter since 1994. [31144]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what proportion of assessed Child Support Agency claims in Scotland had maintenance collected via deduction of earnings orders in each quarter since 1994.

Such information as is available is presented in the attached table. I am sorry that I cannot provide disaggregated information for Scotland for the period prior to May 1997, or post February 2003.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions in respect of how many *(a)* new scheme, new computer, *(b)* old scheme, new computer, *(c)* old scheme, old computer and *(d)* backlogged child support cases the Child Support Agency has no record of the address of the non-resident parent. [34143]

Mr. Plaskitt *[holding answer 2 December 2005]:* The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

You asked the Secretary of State for Work and Pensions, how many *(a)* new scheme new computer *(b)* old scheme new computer *(c)* old scheme old computer and *(d)* backlogged child support cases does the Child Support Agency have no record of the address of the non-resident parent.

We are not able to give statistics for the number of non resident parents for which the Agency does not hold address information due to limitations with currently available management information.

What I can tell you is that, at the end of September 2005, there were 35,000 cases on the old scheme old computer system that were suspended because the NRP could not be traced. In addition,

there were 14,000 old scheme cases that required trace action by CSA staff. Equivalent statistics are not currently available for new and old scheme cases on the new computer system.

I hope you find this information useful.

Mr. Laws: To ask the Secretary of State for Work and Pensions whether he has received a report from the chief executive of the Child Support Agency (CSA) with recommendations for the reform of the CSA; and what plans he has to make an oral statement to the House on this matter. [35689]

Mr. Plaskitt: Stephen Geraghty is undertaking a root and branch review of the Child Support Agency (CSA). Since his arrival at the Department for Work and Pensions, my right hon. Friend the Secretary of State has been considering the emerging findings and recommendations. He will make an announcement to the House in due course.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions for how long the Child Support Agency plans to continue collecting maintenance from the constituent of the right hon. Member for Birkenhead, case number 327000131454. [39531]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive, as Stephen Geraghty is on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions for how long the Child Support Agency plans to continue collecting maintenance from the constituent of the hon. Member for Birkenhead case number 327000131454.

As details about individual cases are confidential I have written to you separately about this case.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the average time was between the Child Support Agency notifying the Job Centreplus to deduct the five pound flat rate in maintenance from a non-resident parent's benefit and the maintenance deduction being made in the last period for which figures are available. [39537]

Mr. Plaskitt: I will let the hon. Member have such information as is available as soon as possible.

National Pension Savings Scheme

16. **John Penrose:** To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of employer contributions to the national pension savings scheme, as proposed by the Turner Commission, on his Department's target of achieving an employment rate of 80 per cent. of the working-age population. [40173]

Mr. Timms: We are in the process of examining the recommendations made by the commission in detail. At this stage, nothing is ruled in and nothing is ruled out. One of the commission's recommendations, to which we will be giving careful consideration, is the introduction of mandatory employer contributions. In looking at this option we will of course take account of possible impacts on business and on the labour market.

Women's Pensions

17. **Mr. Hollobone:** To ask the Secretary of State for Work and Pensions what proposals are being considered to improve the pension provision available for married women who choose to stay at home to bring up their children. [40174]

Mr. Timms: Women's pension provision is steadily improving through increased labour market participation, home responsibilities protection and the state second pension. The Government are considering how to extend pension coverage further and enable women with caring responsibilities to build up better pension entitlement. Our proposals for reform which we intend to publish in the spring, will be guided by the principle that the pension system should deliver fair outcomes for women and carers. A campaign to encourage carers to apply for home responsibility protection is being launched today.

Housing Benefit

18. **Vera Baird:** To ask the Secretary of State for Work and Pensions what steps he is taking to improve the administration of housing benefit. [40175]

Mr. Plaskitt: In 2002, we put in place a comprehensive strategy for reform of housing benefit, with the first priority being to improve administration across the board.

We have already made significant progress. The average time taken by local authorities to process new claims has shortened by two weeks. We have introduced a number of simplification measures to reduce complexity in the housing benefit rules. We have provided investment, to help authorities make improvements in the administration of housing benefit. We have reduced the losses due to fraud and error. We are piloting the new Local Housing Allowance in 18 local authorities, with a view to national implementation.

22. Alison Seabeck: To ask the Secretary of State for Work and Pensions what recent discussions his Department has had with the Office of the Deputy Prime Minister about the ending of the single room rent restriction for housing benefit. [40179]

Mr. Plaskitt: We have had no recent discussions with the Office of the Deputy Prime Minister specifically regarding the ending of the Single Room Rent restriction.

We are currently planning the way forward for HB reforms in the private sector and we will look at the Single Room Rent as a part of this process. Indeed we are piloting a more generous scheme in those areas running the new Local Housing Allowance.

However, the core rationale for the Single Room Rent, that of encouraging work, remains. Removing all Single Room Rent restrictions would in fact have the perverse effect of creating a situation where greater benefit dependency would be fostered at an early age.

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to his answer of 9 November 2005, *Official Report*, column 372W, on housing benefit, what estimate he has made of *(a)* the cost of limiting a 10 per cent. reduction in the housing benefit taper to earned income and *(b)* the cost of limiting a five per cent. reduction in the council tax benefit taper to earned income. [29779]

Mr. Plaskitt *[holding answer 21 November 2005]*: There would be no cost to local authorities for paying additional benefit as this would be met by the Department. The only impact to local authorities would be associated with the processing and maintenance of additional new claims; the numbers of which are in the table. The Department does not collect management information relating to the cost to authorities of processing and maintaining claims.

The available information is in the table.

Cost associated with reducing housing benefit (HB) and council tax benefit (CTB) tapers

	Number of new beneficiaries floating on	*Number of existing beneficiaries gaining*	*Cost in annually managed expenditure (£ million per year)*
Reducing the HB taper from 65% to 55% for earned income	105,000	305,000	150
Reducing the CTB taper from 20% to 15% for earned income	255,000	290,000	75

Notes:

1. All figures are for Great Britain.
2. Beneficiaries are rounded to the nearest 5,000 and costs are rounded to the nearest £5 million.
3. Each beneficiary represents a benefit unit, which can be a single claimant or a couple.
4. Earned income consists of income from earnings only, and excludes occupational pensions. For a couple, their earned income is their combined earnings.
5. The impact is estimated using the Department's Policy Simulation Model for 2005–06, using data from the 2003–04 Family Resources Survey up-rated to 2005–06 prices, benefit rates and earnings levels, and is calibrated to latest published forecasts and policies.
6. Results are subject to sampling and reporting errors and estimation assumptions, and are therefore indicative only. No behavioural changes are assumed.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions when he expects to publish details of his plans to pilot the local housing allowance in the social rented sector; and if he will make a statement. [29995]

Mr. Plaskitt: In order for housing benefit to keep pace with our wider welfare reforms we are considering options for reforming housing benefit for tenants in the social rented sector. However, we appreciate that conditions for social tenants are very different from those in the private sector, for example, social sector tenants don't always have the same degree of choice as those in the private sector. Such differences will need to be taken very seriously in developing proposals for reform, which we will do in discussion with experts on social housing.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of ending the direct payment of housing benefit to registered social landlords on their financial viability. [30011]

Mr. Plaskitt: While we want to create a situation where people become responsible for paying their own rent where they are able to do so, we recognise that this is a significant issue for social landlords and lenders. Departmental officials regularly meet with representatives of social landlords and will ensure that their concerns are taken very seriously when developing proposals for reforming housing benefit.

Lynne Jones: To ask the Secretary of State for Work and Pensions how many tenants in *(a)* England, *(b)* the West Midlands and *(c)* Birmingham received housing benefit in each of the past eight years; what percentage in each year rented from (i) a local authority, (ii) a registered social landlord, (iii) a private landlord and (iv) an employer; and what the average housing benefit payment was in each category. [33299]

Mr. Plaskitt: Information is not available for tenancies where the landlord is the tenant's employer. The available information is in the following tables.

Housing benefit caseload by tenure as percentage of total caseload: England

		Percentage of total		
May	*Total (000)*	*Local authority*	*Registered social landlord*	*Private (excluding RSL)*

Notes:
1. Caseloads are rounded to the nearest hundred and shown in thousands.
2. Totals may not sum due to rounding.
3. Figures for any non-responding authorities have been estimated.
4. Housing benefit figures exclude any extended payment cases.
5. Average amounts are rounded to the nearest penny.

Source:
Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken between May 1997 and May 2005.

Mr. Iain Wright: To ask the Secretary of State for Work and Pensions whether he plans to restrict the direct payment of housing benefit to landlords whose tenants commit antisocial behaviour. [35180]

Mr. Plaskitt: As with the wider community, landlords have a responsibility to ensure that, in carrying out their business, they minimise the scope for antisocial behaviour by their tenants.Most landlords take this responsibility seriously and the Government have in the past considered what action can be taken against those few landlords who do not.

We have looked at the option of removing entitlement to direct payments from recalcitrant landlords, but have concluded that this would not be an effective measure.

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the answer of 16 November 2005, *Official Report*, column 1256W, on housing benefit, when he expects to make a decision on the recommendation in his Department's research report No. 243 that all disabled claimants and all care leavers should be made exempt from the single room rent restriction. [38105]

Mr. Plaskitt: We will continue to review the single room rent and local housing allowance shared room rate as we move forward with wider welfare reform, to ensure that young people can access appropriate accommodation. However, the core rationale for the single room rent, that of encouraging work, remains.

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the oral statement of 7 December 2005, *Official Report*, column 271WH, on housing benefit pathfinders, what the source was for the figure he gave of 60 per cent. of those who rent in the private sector who are not in receipt of housing benefit rent sharing accommodation. [38106]

Mr. Plaskitt: The source of this figure is the Department's analysis of the 2002–03 Family Resources Survey.

Mrs. Moon: To ask the Secretary of State for Work and Pensions (1) if he will assess the merits of removing the 16-hour housing benefit rule to enable young adults in housing need to study full-time for qualifications at level 3 or below without loss of housing benefit; [38285]

(2) what research he has carried out on the impact of the 16-hour housing benefit rule on those in housing need who are unable to claim housing benefit if they are studying for more than 16 hours per week. [38286]

Mr. Plaskitt: I refer the hon. Member to the written answer I gave on 12 December 2005, *Official Report*, columns 1762–63W to the hon. Member for Yeovil (Mr. Laws).

Mr. McGovern: To ask the Secretary of State for Work and Pensions whether the Government are planning to remove the single room rent upper limit on housing benefit provisions for those under 25 years. [40170]

Mr. Plaskitt: We have no such plans, although we will continue to look at the single room rent as part of the process of wider housing benefit reform.

Pensions Commission

20. **Mr. Graham Stuart:** To ask the Secretary of State for Work and Pensions what assessment he has made of the second report of the Pensions Commission. [40177]

Mr. Timms: The Government have welcomed the Pensions Commission's second report, and welcomed its proposals and options as the right basis for building the consensus that we need.

The Government will now reflect on the report and are committed to consulting with the public and stakeholders on these key issues as part of the National Pensions Debate. At this stage of the debate no decisions have been taken on the specific recommendations of the report, and we are ruling nothing in and nothing out. The Government will work towards the publication of a White Paper in the spring which will set out their response.

Departmental Retirements

21. **Dr. Pugh:** To ask the Secretary of State for Work and Pensions what the average age of retirement for employees of his Department was in the last period for which figures are available. [40178]

Mrs. McGuire: The average retirement age in the year to October 2005 is 62.

Where people have left the Department in an early retirement exercise the average age is 55.

Where people have been retired on grounds of ill health the average age is 47.

Basic State Pension

Mr. Leigh: To ask the Secretary of State for Work and Pensions what the change in the basic state pension will be between 2005–06 and 2006–07. [40180]

Mr. Timms: From April 2006 the rate of the basic state pension will increase by 2.7 per cent. in line with the growth in the Retail Prices Index. This means the weekly rate for a full basic state pension will rise from £82.05 a week to £84.25 a week.

Adam Afriyie: To ask the Secretary of State for Work and Pensions how much more the basic state pension will be worth in 2006–07 than in 2005–06. [38522]

Mr. Timms: The basic state pension will be increased next April by 2.7 per cent. in line with the Retail Prices Index.

Administrative Savings

Mr. Maude: To ask the Secretary of State for Work and Pensions what administrative savings have been made by his Department in each of the last eight years. [34951]

Mr. Plaskitt: The Department for Work and Pensions was formed in June 2001 from the Department of Social Security and parts of the former Department for Education and Employment including the Employment Service.

Information is published on gross and net controlled administration cost under spends in the Public Expenditure Outturn White Papers. These are available in the Library of the House.

As part of the 2004 Spending Review the Department is required to achieve efficiency gains of at least £960 million by 2007–08 as set out in the Efficiency Technical Note which is available on the Department's website.

Benefit Claimants (Forest of Dean)

Mr. Harper: To ask the Secretary of State for Work and Pensions how many people in the Forest of Dean constituency are receiving *(a)* jobseeker's allowance and *(b)* incapacity benefit. [36245]

Mr. Plaskitt: As at October 2005, there were 706 people claiming jobseeker's allowance in the Forest of Dean parliamentary constituency.

As at May 2005, there were 3,300 people claiming incapacity benefit or severe disability allowance in the Forest of Dean parliamentary constituency.

Both figures are the most recent available.

Benefit Payments

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) whether it is the policy of his Department to transfer to direct payment the benefits of claimants paid by cheque if they fail to express their desire to continue receiving payment by cheque in response to correspondence from his Department; [39187]

(2) what length of time his Department allows for people to respond who have been written to by his Department advising them that benefits paid to them by cheque will be transferred to direct payment unless they state a preference to continue being paid by cheque; [39188]

(3) whether letters being sent to claimants who have one or more benefits paid by cheque and another paid into a bank account about their wish to continue receiving payment by cheque are being made available in formats accessible to those who cannot read standard print. [39189]

Mr. Plaskitt: Cheque payments were designed for those people who cannot open or operate any sort of bank or building society account.

Around 100,000 customers had one benefit paid by cheque and another into an account. We have been writing to these customers to tell them that we plan to start paying all their benefits into their account unless they let us know that they want to carry on being paid by cheque. Customers are normally asked to contact us within 14 days of the letter being sent if they want to continue to be paid by cheque.

Customers receiving disability living allowance or attendance allowance by cheque were advised that the way we pay benefits is changing and that we would now pay into the account into which their other benefit(s) were already being paid. A specified period to contact us was not included.

We are not able to automatically identify all those customers who may have trouble reading standard print at the time we send out the initial letters. If they contact us we can then send them a letter in larger print or in Braille.

Danny Alexander: To ask the Secretary of State for Work and Pensions what the average number of days was from first contact by a new jobseeker's allowance claimant to first payment for claims administered by *(a)* the Benefits Agency and *(b)* Jobcentre Plus in each of the last five years. [34271]

Margaret Hodge *[holding answer 6 December 2005]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 9 January 2006:

The Secretary of State has asked me to reply to your question about what the average number of days was from first contact by a new Jobseeker's Allowance claimant to the first payment for claims administered by *(a)* the Benefits Agency and *(b)* Jobcentre Plus in each of the last five years. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus came into existence in 2002. Prior to that, claims were processed by the Benefits Agency. The processing of claims to Jobseeker's Allowance has undergone considerable change since 2000, with much more emphasis being given to providing a package of support aimed at helping the customer to find work. For example, the introduction of Work Focused Interviews, although adding an extra stage to the claim process, has facilitated a pro-active rather than a passive approach to the search for work.

The information is in the table.

Calendar year	*Actual average clearance time (days)*
2000	9.1
2001	9.6
2002	10.2
2003	10.8
2004	12.0
2005 (up to October)	13.4

The Actual Average Clearance Time for Jobseeker's Allowance is measured from the date the customer first contacts Jobcentre Plus to the date the customer is sent a notice of entitlement.

I hope this is helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions what total spending was on *(a)* all pensioner benefits, *(b)* the basic state pension, *(c)* minimum income guarantee and pension credit, *(d)* winter fuel payment, *(e)* disability benefits for pensioners, *(f)* housing benefit for pensioners, *(g)* council tax benefit for pensioners and *(h)* other benefits for pensioners (i) in cash terms, (ii) in real terms and (iii) as a percentage of gross domestic product in each year since 1997; and what estimate he has made of the equivalent figures in (A) 2010, (B) 2020, (C) 2030, (D) 2040 and (E) 2050. [35363]

Mr. Timms: The available information is in the following tables.

(a) All pensioner benefit expenditure, Great Britain

	£ million		
	(i) Cash terms	*(ii) Real terms, 2005–06 prices*	*(iii) Percentage of gross domestic product*

2020–21	3,648	2,429	0.1
2030–31	6,004	3,034	0.1
2040–41	10,595	4,061	0.2
2050–51	20,870	6,069	0.2

(h) Other benefits for pensioners expenditure, Great Britain

	£ million		
	(i) Cash terms	*(ii) Real terms, 2005–06 prices*	*(iii) Percentage of gross domestic product*
1997–98	2,270	2,730	0.3
1998–99	2,510	2,942	0.3
1999–2000	2,923	3,360	0.3
2000–01	3,340	3,789	0.3
2001–02	3,935	4,358	0.4
2002–03	4,541	4,874	0.4
2003–04	5,480	5,730	0.5
2004–05	8,386	8,535	0.7
2010–11	13,941	12,236	0.9
2020–21	26,375	17,563	1.0
2030–31	51,062	25,797	1.2
2040–41	96,449	36,970	1.4
2050–51	197,022	57,297	1.8

Notes:

1. Expenditure figures are for Great Britain.
2. Expenditure has been rounded to the nearest million pounds.
3. Gross domestic product percentages have been rounded to one decimal place. A percentage less than 0.1 per cent. is indicated by the symbol *.
4. Expenditure for the basic state pension, minimum income guarantee and other benefits for pensioners include a small amount of expenditure on child dependency increases which are paid with some of these entitlements.
5. Disability benefits for pensioners include disability living allowance, attendance allowance and severe disablement allowance.
6. For figures up to 2004–05, other benefits for pensioners include additional state pension/SERPS, non-contributory retirement pension, contribution based Christmas bonus, pensions compensation board, over65's payment, over70's payment, the over 75 TV licence, widow's benefit, bereavement benefits and incapacity benefit.

Incapacity benefit is only included until 2000–01 as incapacity benefit was no longer paid to people over pension age after that year, following the 1995 Reforms.

7. For figures from 2010–11, other benefits for pensioners include additional state pension/SERPS, non-contributory retirement pension, contribution based Christmas bonus, non-contributory Christmas bonus and the over 75 TV licence.
8. As per the above notes (6 and 7), the breakdown of expenditure is not on a consistent basis.

Source:

Expenditure and percentage of gross domestic product figures have been taken from data which underlies the 2005 pre-Budget report.

Benefits Administration Errors

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of losses due to error in the administration of benefits for each of the last eight years, broken down by the type of benefit. [28773]

Mr. Plaskitt: The Department produces estimates for the amount overpaid through fraud and error across the benefits system. Previously published results are included in the table.

Global estimate of error (official error and customer error combined)

	Monetary value (£ billion)
From April 1997-March 1998 through to April 2002-March 2003	1
April 2003-March 2004	1.5

Notes:

All figures rounded to the nearest £500 million.

The methodology used for estimating this was changed in 2004–05 to improve the quality of the estimate. We have also estimated fraud and error in 2003–04 using this new methodology for the purposes of making comparisons. The estimates for official error for 2003–04 and 2004–05 are in the table.

Global estimates of official error 2003–04 and 2004–05

	Official error 2003–04		*Official error 2004–05*	
	£ million	*Percentage*	*£ million*	*Percentage*
Regularly reviewed				
Income Support	190	1.8	210	2.1
Jobseeker's Allowance	100	3.8	80	3.5
Pension Credit	100	2.1	130	2.2
Housing Benefit[1]	150	1.3	140	1.1
Periodically reviewed				
Disability Living Allowance[2]	60	0.7	60	0.7
Retirement Pension[3]	20	0.1	30	0.1
Carer's Allowance	10	0.6	10	0.6
Incapacity Benefit[3]	50	0.8	50	0.8
Instrument of Payment fraud	—	—	—	
Interdependences[4]	10	—	10	—
Unreviewed				
Un reviewed (excluding Council Tax Benefit)[5]	100	0.9	100	0.9
Council Tax Benefit[6]	40	1.3	40	1.1
Total[2,7]	£0.8 billion	0.8	£0.9 billion	0.8

[1] Individual estimates have been uprated in line with 2004–05 expenditure and may differ from published values.
[2] Figures expressed as percentages (percentage) give the overpayments as a percentage of the benefit paid out in the year.
[3] The housing benefit estimates in this table include approximations for the purposes of producing an overall fraud and error figure. The estimates in the table will therefore be different from those published previously as National Statistics.
[4] The 2004–05 DLA National Benefit Review identified cases where the change in customer's needs have been so gradual that it would be unreasonable to expect them to know at which point their entitlement to DLA might have changed. These cases do not result in a recoverable overpayment as we cannot quantify or define when the customer's change occurred. Because legislation requires the Secretary of State to prove that entitlement to DLA is incorrect, rather than requiring the customer to inform us that their needs have changed, cases in this subcategory are legally correct. The difference between what claimants in these cases are receiving in DLA and related premiums in other benefits and what they would receive if their benefit was reassessed is estimated to be around £0.7 billion (+/- £0.2 billion). This figure is not included in the total above, but a similar figure was included in the global fraud and error figure of £3 billion reported in the resource account for 2003–04.
[5] Official error rates have been updated with estimates from the 2003–04 measurement exercise.
[6] Overpayments due to knock-on effects between loss of DLA component entitlement and premiums on income-related benefits.
[7] The estimated rate of fraud and error on unreviewed benefits, for which we have no reliable review information, has been set at 2.7 per cent. and divided equally among fraud, customer error and official error.
Notes:
1. Fraud and error on CTB has not been measured before and is assumed here to be equal to fraud and error rates on HB.
2. Although quoted to the nearest £0.1 billion, there are considerable uncertainties around the total estimates (95 per cent. confidence intervals of between ± £0.2 billion and ± £0.3 billion).
3. Individual figures may not add across to total fraud and error figures due to rounding.

The Department publishes National Statistics reports including estimates of overpayments through official error. Estimates for income support (IS), jobseeker's allowance (JSA), pension credit and housing benefit (HB) are published every year so these are the benefits where we have most information on changes over time. These figures are presented in the tables.

IS/JSA/pension credit official error over payments from National Statistics reports

	IS (not including pensioners)	*JSA*	*IS for pensioners/ pension credit*
October 1997–September 1998			
Percentage of benefit overpaid	1.6	4.2	1.6
Overpaid (£ million)	130	150	60
April 1998–March 1999			
Percentage of benefit overpaid	1.6	5.6	1.3
Overpaid (£ million)	130	200	50
April 1999–March 2000			
Percentage of benefit overpaid	1.5	4.0	1.5
Overpaid (£ million)	130	130	60

IS/JSA/pension credit official error over payments from National Statistics reports

	IS (not including pensioners)	*JSA*	*IS for pensioners/ pension credit*
April 2000–March 2001			
Percentage of benefit overpaid	1.3	2.8	1.2
Overpaid (£ million)	120	80	50
April 2001–March 2002			
Percentage of benefit overpaid	1.3	3.5	0.8
Overpaid (£ million)	130	90	40
April 2002–March 2003			
Percentage of benefit overpaid	1.4	4.2	1.0
Overpaid (£ million)	140	110	50
April 2003–March 2004			
Percentage of benefit overpaid	1.8	3.8	2.1
Overpaid (£ million)	190	100	100
October 2003–September 2004			
Latest published estimates			
percentage of benefit overpaid	2.1	3.5	2.2
Overpaid (£ million)	220	80	120

Note:
The figures for April 2003-March 2004 and October 2003-September 2004 in the above table have been adjusted for data quality problems found. Previous figures have not been adjusted in this way as there is not enough information available to do so. The tables therefore are not all suitable for making reliable comparisons over time but give a reference of our best estimate of these overpayment figures in each year. Confidence intervals are not provided in these tables although are typically around ± 20–30 per cent. of the central estimates.

Housing benefit (HB) official error overpayments from National Statistics reports

	Percentage of benefit overpaid	*Overpaid (£ million)*
April 2002-March 2003	0.9	100
April 2003-March2004	1.0	100
October 2003-September 2004[1]	0.9	90
April 2002-March 2003	0.9	—

[1] Latest published estimates

Notes:
1. These figures will not include all overpayments in HB through official error. They were published in the latest National Statistics report for HB fraud and error, and only cover the 83 per cent. of HB expenditure that is within the scope of the HBR sample. In these reports, there was an extra category of error labelled "non-residence" error, an unknown amount of which will be due to mistakes made by officials—these overpayments are not included in the figures in this table.
2. The Second National Housing Benefit Accuracy Review, in 1997–98 gave an estimate of £60 million for official error, but was based on a different methodology, so the results are not considered comparable with more recent estimates.

The Department also publishes one-off snapshot reviews. The most recent report covered disability living allowance (DLA) and the official error figures from these are in the table.

2004–05 DLA official error overpayments from National Statistics report

	Amount of money overpaid (£ million)	*Percentage benefit overpaid*
Official error	60	0.8

Annual estimates of official error only are made for short-term benefit overpayments (incapacity benefit and severe disablement allowance). The recent results are shown in the following table. Previous results were carried out using a different methodology and are not comparable.

Short-term benefits (incapacity benefit and severe disablement allowance) official error overpayments

	Monetary value (£ million)
April 2001 to March 2002	43
April 2002 to March 2003	43

Short-term benefits (incapacity benefit and severe disablement allowance) official error overpayments

	Monetary value (£ million)
April 2003 to March 2004	53
April 2004 to March 2005	[1]104

1. These estimates are subject to wide margins of error. Our best estimate of STB overpayments for 2004–05 includes a further amount of around £20 million due to incorrectness types not captured under methodology in earlier years.

Annual estimates of official error only are made for long-term benefit overpayments (retirement pension, widow's benefit and bereavement benefit). The recent results are shown in the following table:

Long-term benefits official error overpayments

	Monetary value (£ million)
April 2001 to March 2002	43
April 2002 to March 2003	14
April 2003 to March 2004	26
April 2004 to March 2005	27

Notes:
1. The sample for long-term benefits is a small one and excludes some types of cases. It provides reassurance that official error on these benefits is a very low proportion of expenditure, but the estimate is only a broad indicator.
2. As a result of the wide margins of error, the changes over time are not statistically significant.

Benefits Office Closures

Chris Ruane: To ask the Secretary of State for Work and Pensions what the average time taken to process *(a)* crisis loans, *(b)* budgeting loans and *(c)* community care loans in (i) Vale of Clwyd constituency and (ii) Denbighshire was in (A) each of the six months prior to closure of the Rhyl Benefits Office and (B) each month since. [34621]

Mr. Plaskitt *[holding answer 5 December 2005]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 9 January 2006:

The Secretary of State has asked me to reply direct to your question concerning the average time taken to process *(a)* crisis loans *(b)* budgeting loans and *(c)* community care loans in (i) Vale of Clwyd constituency and (ii) Denbighshire was in *(a)* each of the six months prior to closure of the Rhyl Benefits Office and *(b)* each month since. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus does not keep statistical information about social fund applications broken down to the Vale of Clwyd constituency or the county of Denbighshire. However, I have detailed social fund performance for our Wrexham and North Wales coast district, which covers both these areas and others.

	Crisis loans		*Budgeting loans*		*Community care grants*	
	Applications received	*Average clearance times (days)*	*Applications received*	*Average clearance times (days)*	*Applications received*	*Average clearance times (days)*
February 2005	783	1	1,138	2.04	452	3.55
March 2005	803	1	1,180	1.89	435	3.13
April 2005	879	1.02	1,372	1.89	484	3.03
May 2005	749	1	1,239	1.89	466	3.22
June 2005	832	1	1,284	1.99	506	3.47
July 2005	757	1.03	1,122	2.53	424	3.41
August 2005	687	1.08	1,157	2.48	468	8.99
September 2005	820	1.16	1,152	2.21	417	7.55
October 2005	794	1.23	1,218	1.95	449	8.96

The District Manager is aware of the increase in clearance times for community care grants and is now putting measures in place to improve performance. This involves using additional help from the social fund processing team in Llanelli.

I hope this is helpful.

Buncefield Oil Depot

John McDonnell: To ask the Secretary of State for Work and Pensions whether the Total Oil Depot site at Buncefield, near Hemel Hempstead, was classed as a *(a)* tier one and *(b)* tier two site for the purposes of the Control of Major Accident Hazard Regulations 1999. [39371]

Mrs. McGuire: Hertfordshire Oil Storage Ltd. at Buncefield is joint operated by Total UK Ltd. and Texaco Ltd. The Hertfordshire Oil Storage Ltd. operation is classed as a top tier site under the Control of Major Accident Hazards Regulations 1999.

Burslem Job Centre

Joan Walley: To ask the Secretary of State for Work and Pensions if he will make a statement on reorganisation of *(a)* (i) Jobcentre Plus and (ii) social fund application services in North Staffordshire and *(b)* current services provided at Burslem jobcentre. [37719]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Leslie Strathie, dated 9 January 2006:

The Secretary of State has asked me to reply to your question about the reorganisation of *(a)* (i) Jobcentre Plus and (ii) Social Fund application services in North Staffordshire and *(b)* current services provided at Burslem Job Centre. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Under our reorganisation in North Staffordshire there will be four local service outlets providing the full range of face-to-face Jobcentre Plus services. In Hanley, a new building designed specifically for Jobcentre Plus delivery is scheduled for completion by May 2007. Kidsgrove Jobcentre Plus has been fully refurbished to the new Jobcentre Plus design, and work is underway to complete the refurbishment of Longton Jobcentre Plus. The final Jobcentre Plus office will be in Newcastle-under-Lyme scheduled for completion by July 2006.

In addition there will be a centre for benefit delivery in the former Hanley Social Security Office.

Burslem Jobcentre is scheduled to close as part of the reorganisation, but will not do so until the new Hanley building is complete. Leek Jobcentre is also being considered for closure and we are currently consulting with all local MPs, stakeholders and Trade Union with our proposed plans. We will make a formal decision early in the New Year.

The processing work for Social Fund claims is being transferred from Newcastle-under-Lyme to Birmingham Perry Barr, as part of a wider centralisation of this work for the West Midlands Region. Crisis Loan applications will continue to be made by telephone with the option of face-to-face contact if required. All other Social Fund applications will continue to be made by post either through Jobcentre Plus or via agencies such as Citizen's Advice Bureau. Payments will continue to be issued at the customer's local office.

Burslem Jobcentre currently takes new claims to Jobseeker's Allowance, and undertakes all mandatory Jobseeker's Allowance interviews.

Carers

Mr. Sanders: To ask the Secretary of State for Work and Pensions what measures he is taking to remove the barriers to work for people with caring responsibilities. [27007]

Mrs. McGuire: In the National Strategy for Carers, 'Caring About Carers', published in February 1999, the Government set out its commitment to encourage and enable carers of working age to remain in work and to help those carers who are unable, or do not want, to combine paid work with caring to return to work when their caring responsibilities cease or diminish. Many people providing informal care already do paid work as well.

From April 2004, Work Focussed Interviews (WFIs) have been introduced for partners of benefit customers in Jobcentre Plus areas. Although partners who are full-time carers with entitlement to carer's allowance are exempt from WFIs, they are however entitled to help and support, including through new deal for partners, on a voluntary basis.

Carers who are in receipt of carer's allowance can work and earn up to £82 per week. This amount is calculated net of expenses such as income tax, some national insurance contributions, and half of any contribution towards an occupational or personal pension. Help can also be given with the cost of care of the disabled person when the carer is at work, provided that the substitute carer is not a close relative of either the carer or the disabled person. The amount allowable is 50 per cent. of the net earnings after deduction of the other allowable expenses. Therefore, it is possible for a carer to earn well in excess of £82 and still remain eligible for carer's allowance.

Child Support

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many child support cases were referred to the special payments department for financial loss in each year since 1997; and how much was paid out by the Child Support Agency in special payments in each year. [34696]

Mr. Plaskitt *[holding answer 5 December 2005]:* The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

You asked the Secretary of State for Work and Pensions how many child support cases were referred to the special payments department for financial loss in each year since 1997 and how much was paid out by the Child Support Agency in special payments in each year.

We are unable to provide precisely the information you have requested. This is because a referral could consist of more than one component of maladministration (for example, delay, consolatory, and financial loss) and robust information is only available from 1 December 2001.

We can provide the number of financial loss components considered and paid for the period 1 December 2001 to 31 October 2005 and also the total amount of special payments paid in each year during the same period.

The table below contains the number of financial loss components considered, the number paid and the amounts paid for the period 1 December 2001 to 31 October 2005 (this is different from either the total number of Special Payments made or indeed the number of people paid Special Payments).

Period	Number of financial loss components considered	Number of financial loss components paid	Total amount paid during the period (£)
1 December 2001 to 31 March 2002	2,291	1,884	662,174
1 April 2002 to 31 March 2003	7,219	5,863	2,478,000
1 April 2003 to 31 March 2004	6,268	4,897	2,331,000
1 April 2004 to 31 March 2005	8,742	7,122	3,043,000
1 April 2005 to 31 October 2005	4,470	3,496	2,089,138
Total	28,990	23,262	10,603,312

I hope this information is helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many and what proportion of Child Support Agency old scheme cases have not had a reassessment for more than *(a)* six months, *(b)* one year, *(c)* two years, *(d)* three years, *(e)* four years, *(f)* five years and *(g)* 10 years. [37930]

Mr. Timms: The information requested is not available.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions what the latest compliance rate is for Child Support Agency cases; what the target is; and if he will make a statement. [21436]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

You asked the Secretary of State for Work and Pensions what the latest compliance rate is for Child Support Agency cases; what the target is; and if he will make a statement.

The compliance targets and performance rates to September 2005 are presented in the table below.

Agency compliance targets and performance at September 2005

Percentage

	Target	Performance at September
New scheme case compliance	78	66
Old scheme case compliance	75	72
Overall case compliance	—	70
New scheme cash compliance	75	61
Old scheme cash compliance	68	71
Overall cash compliance	—	68

Notes:

1. Case compliance is defined as the percentage of cases open at the end of any quarter for which any maintenance due via the collection service was received.
2. Cash compliance is defined as the percentage of maintenance due in any quarter which has been collected via the collection service.

I hope you find this helpful.

Data Protection

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what the average time taken by his Department has been to respond to requests for information under the Data Protection Act 1998 since it came into force. [20354]

Mrs. McGuire: This information is not recorded centrally and could be obtained only at disproportionate cost. This is because requests for information are dealt with as part of normal business consistent with the obligations of the Data Protection Act.

Mr. Crabb: To ask the Secretary of State for Work and Pensions what steps he is taking to improve security of personal data held by his Department on its employees. [39316]

Mrs. McGuire: DWP has policies and systems in place to protect the security of payroll and other personal data relating to its staff. These are subject to managerial checks and regular internal and external auditing.

The Department is, however, urgently reviewing its current procedures in the light of the unauthorised disclosure of employee details in relation to apparently irregular tax credit claims.

Mr. Crabb: To ask the Secretary of State for Work and Pensions how many of his Department's staff have had their personal details stolen for fraudulent tax credit applications. [39317]

Mrs. McGuire: The combined DWP and HMRC investigation is making good progress and I will be in a position to provide more details early next week.

Mr. Crabb: To ask the Secretary of State for Work and Pensions if he will make a statement on the recent theft of data relating to staff in his Department for use in fraudulent tax credit applications. [39318]

Mrs. McGuire: The combined DWP and HMRC investigation is making good progress and I will be in a position to provide more details early next week.

Debt Manager System

Ian Stewart: To ask the Secretary of State for Work and Pensions what the cost is of the introduction of the new Debt Manager system in his Department. [33030]

Mr. Plaskitt: The introduction of the new IT system is part of the programme to modernise the recovery of overpaid benefits; in particular to bring about improvements in accounting controls to ensure that accounting irregularities, which have contributed to the qualification of DWP accounts by the C&AG in previous years, are removed from the system.

The total cost of introducing the new DWP Debt Manager system is £21.509 million; this includes all supplier costs (including hardware and software), the costs of Project staff and the Debt Management operational staff costs relating exclusively to the implementation of the new system.

Departmental Call Centres

Mr. Davey: To ask the Secretary of State for Work and Pensions how many of his Department's call centres

have contracted for voice training for their staff; how many staff in each of these call centres have undertaken voice training courses; what assessment he has made of the effects on *(a)* staff and *(b)* customers of voice training; and if he will make a statement. [16310]

Mrs. McGuire: DWP has 85 call centres of which 77 have arranged voice training for 4,691 staff during either their initial induction programme or subsequent telephony training. We are unable to breakdown the 4,691 staff that received voice training by site level as this information is not collated centrally by our Learning and Development teams and could be obtained only at disproportionate cost.

Some centres evaluate the impact on staff 12 weeks after the training is received to check to what extent the learning has been understood and that staff are using the skills gained from the sessions.

Other areas within DWP where voice training has been undertaken have not evaluated the impact of the learning, but have assessed the quality of the sessions, which have been positively received.

The Pension Service will be piloting a national course for their 25 centres called 'Smart Talk' and will include modules on how to look after your voice.

No evaluation has been undertaken of the impact on customers of voice training.

Departmental Contracts

Mr. MacNeil: To ask the Secretary of State for Work and Pensions what the total value is of *(a)* catering and *(b)* entertainment contracts let by his Department; and what value of such contracts has been let in each nation and region of the UK, including London. [37479]

Margaret Hodge: The Department for Work and Pensions has not let any *(a)* catering or *(b)* entertainment contracts.

Departmental Estate

Mr. Maples: To ask the Secretary of State for Work and Pensions who is responsible for running his Department's Estate; what relevant specialist qualifications he or she holds; and what the details are of his or her career to date. [26327]

Mrs. McGuire: The DWP Estate is run through a 20 year PFI partnership deal competitively awarded by the then Department of Social Security to Trillium (now called Land Securities Trillium) on 1 April 1998. Following the creation of DWP in June 2001, the former Employment Service estate was transferred to Land Securities Trillium from 15 December 2003 under an expansion of the contract.

Officials' responsibility within the Department therefore is to manage this contractual agreement. The officers responsible are :

The Commercial Director has specialised in procurement and commercial matters in the Public Sector for nearly 20 years and is a member of the Chartered Institute of Purchasing and Supply. Before moving to DWP, he was Head of Procurement for the Inland Revenue and has previously held commercial posts in the Home Office and HM Treasury (Central Unit on Procurement).

The Director of Estates has been in this role since 2000 and has specialised in estates and commercial matters in the Public Sector for the previous 10 years previously occupied Estate Management roles since 1991. He is a member of the Chartered Institute of Purchasing and Supply and the British Institute of Facilities Management.

Their details are also provided in the Civil Service Yearbook—the official online directory for all Government Departments.

Joan Walley: To ask the Secretary of State for Work and Pensions what *(a)* new build and *(b)* refurbishment of the Department's estate is underway in North Staffordshire; and what the (i) costs are and (ii) timetable is in each case. [37722]

Margaret Hodge: *(a)* The department has received planning permission for a new build in Hanley to replace the existing Jobcentre. We are in the process of seeking tenders and hope to start work on site in March 2006 with an anticipated opening of the office in May 2007. We will not be able to provide information on costs until the tenders have been assessed.

(b) With regards to refurbishment the department will be refurbishing three offices in North Staffs:

Kidsgrove—refurbishment complete at a cost of £872,322 (including £20,990 for IT)

Longton—refurbishment under way—scheduled cost of £1,362,000 (including £71,355 for IT)

Newcastle—refurbishment due to start 24 February—detailed costs not yet known.

Departmental NDPBs

Mr. Amess: To ask the Secretary of State for Work and Pensions (1) if he will list those of his Department's advisory non-departmental public bodies which the Government are required *(a)* to consult prior to legislative proposals and *(b)* to publish their response to advice received from such schools; [20139]

(2) which of the advisory non-departmental public bodies sponsored by his Department have a statutory base which *(a)* publish their advice to Government, *(b)* publish an annual report and *(c)* lay an annual report before Parliament; and whether it is under a statutory requirement in each case; [20140]

(3) which of the advisory non-departmental public bodies sponsored by his Department *(a)* hold public meetings, *(b)* conduct public consultation exercises, *(c)* conduct consultation exercises with outside commercial interests, *(d)* publish a register of members' interests, *(e)* publish agendas for meetings and *(f)* publish the minutes of meetings; and whether it is under a statutory requirement in each case. [20141]

Mrs. McGuire: The Industrial Injuries Advisory Council (IIAC) requires the Government to consult the Council prior to legislation on the list of prescribed diseases and on any other matter relating to the industrial injuries disablement benefit scheme or its administration. The Social Security Advisory Committee (SSAC) requires the Government to consult the Committee about proposals for most social security regulations. Only in the case of SSAC is there a statutory requirement to publish the Committee's advice together with the Government's response.

The Disability Living Allowance Advisory Board (DLAAB) and IIAC have a statutory base, but neither body has a statutory requirement to publish their advice to Government. Only DLAAB has a statutory requirement to present an annual report, although it is not required to lay this before Parliament. In addition, although there is no requirement to do so, MAC, SSAC and the Disability Employment Advisory Committee (DEAC) also produce an annual report which is published on the body's website. Printed copies are also available from the secretariats.

IIAC holds public meetings and conducts public consultation exercises, as does SSAC. Where relevant, SSAC also conduct consultation exercises with outside commercial interests. IIAC is the only advisory body, which publishes its register of members' interests. The register is included within the annual report. MAC publish agendas for their public meetings, but do not publish the minutes of the meetings, although they are available on request. There is no statutory requirement for any of this activity.

Departmental Posts

Mr. Laws: To ask the Secretary of State for Work and Pensions what the change in the number of jobs in *(a)* his Department and *(b)* its agencies was in (i) 2003–04 and (ii) 2004–05, broken down by business area; what change is planned for (A) 2005–06 and (B) 2006–07; and if he will make a statement. [23393]

Mrs. McGuire: The change in the number of staff in the Department and its agencies between 2003–04 and 2004–05 is shown in Table 1. The baseline for the Department's agreed efficiency challenge is 1 March 2004 at which time overall staffing was 130,632.

The change in planned staff numbers in the Department and its agencies for 2005–06 and 2006–07 is shown in Table 2.

Table 1: Change in staff numbers 31 March 2004 to 31 March 2005

	31 March 2004	*31 March 2005*	*Reduction in numbers*
Jobcentre Plus	79,122	73,406	5,716
The Pension Service	18,567	16,189	2,378
Child Support Agency	10,779	9,784	995
Disability and Carers Service	7,103	6,506	597
Appeals Service	816	752	64
The Rent Service		718	n/a
Other Departmental Units	12,068	11,874	194
Total	128,455	119,229	9,226

n/a = Not available.

Notes:

1. Figures are full time equivalents and exclude staff on paid maternity leave.
2. The Rent Service joined the Department from 1 April 2004 from the Office of the Deputy Prime Minister.
3. Disability and Carers Service was granted Agency status from 1 November 2004.
4. Figures exclude the Health and Safety Executive.

Table 2: DWP planned staffing numbers

	31 March 2006	*31 March 2007*
Jobcentre Plus	70,200	67,550
The Pension Service	14,200	13,350
Child Support Agency	9,400	9,400
Disability and Carers Service	6,400	5,950
Appeals Service	750	750
The Rent Service	750	650
Corporate HR	1,250	1,200
Group Finance	5,500	5,000
Programme and Systems Delivery	500	450
Other Corporate Services	1,150	1,150
Work, Welfare and Equality Group	1,050	950
Pensions Client Directorate	350	350
DWP Contingency	1,000	1,250
Total DWP	112,500	108,000

Notes:

1. Figures are full-time equivalents rounded to the nearest 50 and exclude staff on paid maternity leave.
2. Planned staffing numbers are subject to ongoing review.

Departmental Rebranding

Dr. Cable: To ask the Secretary of State for Work and Pensions how much money has been spent on rebranding in his Department and related agencies in each of the last five years. [18130]

Mrs. McGuire: The costs for rebranding incurred by the Department for Work and Pensions during this period are £15,756 for the Child Support Agency brand in 2001–02.

Departmental Staff

Jim Cousins: To ask the Secretary of State for Work and Pensions (1) how many staff in the Department accepted voluntary severance schemes in the last three financial years; [19267]

(2) whether voluntary severance has been suspended in sections of the Department or its agencies. [19266]

Mrs. McGuire: Information on the number of staff in the Department who have accepted voluntary severance and voluntary retirement through exit schemes in the last three financial years is in the following table.

There has been no suspension of voluntary severance or retirement in any section of the Department or its agencies.

Financial year	*Number of staff*
2002–03	73
2003–04	63
2004–05	467

Note:

Figures are full time equivalent (rounded).

Andrew Rosindell: To ask the Secretary of State for Work and Pensions what the rates of employee absence in his Department have been in each year since 1997. [21039]

Mrs. McGuire: Not all of the information requested is available.

Information about worker absences other than sickness absences is not held centrally and could be obtained only at disproportionate cost.

There is no information available about sick absence rates from 1997 to 1998.

The information for the period from 1999 to 2003–04 has been published in NAO Report HC 18 on 8 December 04 (Page 17 Figure 6).

The remaining information requested is as follows:

Department for Work and Pensions

	Sickness rate	
	Average working days lost	*Percentage working time lost*
2004-05	12.4	5.0

Notes:
1. The average working days lost figure is calculated by dividing the working days lost in the Department for the year in question by the working days available for the same period, then multiplying by 250 (the working year: 365 days less weekends and public/privilege days).
2. The percentage working time lost figure is calculated as in note 1, but the multiplier is 100 instead of 250.

Source:
Extracts from DWP payroll systems as processed by the DWP Information Directorate.

Jim Cousins: To ask the Secretary of State for Work and Pensions what voluntary severance schemes are in place in *(a)* his Department and *(b)* its agencies. [21765]

Mrs. McGuire *[holding answer 25 October 2005]:* The voluntary release schemes currently being run within the Department and its agencies are shown in the following tables. Table 1 illustrates the number of schemes operating in each Government Office Region. Table 2 illustrates the agencies and departmental directorates participating in schemes in each Government Office Region.

Table 1

Region/country	*Number of schemes*
Wales	3
South East	3
Yorkshire and The Humber	4
North East	3
London	4
East Midlands	1
East of England	1
West Midlands	1
South West	1
Scotland	1
North West	1

Table 2

Region/country	*Agency/departmental directorate included*
Wales	Jobcentre Plus; The Pension Service
South East	Jobcentre Plus; The Pension Service
Yorkshire and The Humber	Jobcentre Plus; The Pension Service; Departmental Directorates
North East	Jobcentre Plus; The Pension Service; Departmental Directorates
London	Jobcentre Plus; The Pension Service; Disability and Carers Service; Appeals Service; Departmental Directorates
East Midlands	Jobcentre Plus
East of England	Jobcentre Plus; The Pension Service; Departmental Directorates
West Midlands	Jobcentre Plus; The Pension Service; Departmental Directorates
South West	Jobcentre Plus; The Pension Service; Departmental Directorates
Scotland	Jobcentre Plus; The Pension Service; Departmental Directorates
North West	Jobcentre Plus

Notes:
1. Voluntary release schemes are managed on a regional basis. Each scheme may cover all or some staff in an agency/ departmental directorate at all or a limited number of sites within the region.
2. Voluntary release schemes include voluntary severance and voluntary early retirement.
3. All schemes are governed by the rules of the Civil Service Compensation Scheme in which there are a number of different types of scheme. More that one type of scheme can be run concurrently within a region.

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on reductions in departmental staffing to date in accordance with the Gershon efficiency targets, with particular reference to changes in the balance between *(a)* full-time and part-time staffing transfers from back-office to frontline functions and *(b)* natural wastage and redundancy. [26819]

Mrs. McGuire: The agreed baseline for the Department's Efficiency Challenge is 1 March 2004 at which time overall staffing was 130,631 (Full Time Equivalent). Staffing at the end of September 2005 was 116,417 (Full Time Equivalent); a reduction of 14,215 (Full Time Equivalent) since the baseline date.

The percentage of full-time and part-time staff at the baseline date and at 30 September 2005 is shown in the following table.

	Full-time		*Part-time*	
Date	*Number of staff*	*Percentage*	*Number of staff*	*Percentage*
1 March 2004	103,423	79	27,209	21
30 September 2005	88,086	76	28,331	24

As part of the Department's plans to meet the efficiency challenge, we are increasing the number of posts that have regular, direct contact with customers by 10,000 by March 2008. The increase in posts will occur principally within Jobcentre Plus and they will be resourced through a combination of existing staff within the Department and new recruits. As at the end of September 2005, the Department had created and resourced around 4,000 new customer-facing posts.

Excluding temporary staff, the number of staff leaving the Department over this period through managed exits and natural wastage was 16,117. Of these, 91 per cent. were as a result of natural wastage, and 9 per cent. as a result of managed exits. There have been no compulsory redundancies.

Electronic Tagging

John Mann: To ask the Secretary of State for Work and Pensions what assessment he has made of the implications for health and safety of electronically tagging workers in commercial warehouses. [35882]

Mrs. McGuire: The Health and Safety Executive (HSE) has made no assessment of the implications for health and safety of electronically tagging workers in commercial warehouses.

Such warehouses are allocated to local authorities for the purposes of health and safety enforcement. Operators of such warehouses have to assess all risks to which their employees may be exposed.

HSE guidance on health and safety in warehouses is in the process of being revised and this topic will be considered for inclusion if evidence is available that any risk exists.

Equality and Diversity

David T.C. Davies: To ask the Secretary of State for Work and Pensions how much the Department has spent promoting equality and diversity in each of the last five years for which figures are available. [14605]

Mrs. McGuire: The Department has a vital role in promoting equality and diversity. Key policy areas include promoting disability rights, taking initiatives to increase employment among ethnic minorities and other groups, and supporting more women to save for retirement. The annual departmental report and the annual report and accounts of the agencies provide fuller information about the Department's policy areas and expenditure. These are laid in the House.

As an employer the DWP incorporates diversity and equality principles in all its practices. The document 'Realising Equality in the Department for Work and Pensions', published in August 2005, provides an overview of the Department's current diversity and equality activity and its plans for the coming three years. It also reports specifically on race equality for the preceding 12 months. It has been placed in the Library.

The Department has, since 2002, employed diversity managers in each business area. Promoting equality and diversity is an intrinsic part of their work. The cost of the diversity manager teams for 2004–05 was £985,530. Information for earlier years is not held centrally and could be obtained only at disproportionate cost.

Complete information on the cost of promoting equality and diversity is not held centrally and could be obtained only at disproportionate cost.

Firework Storage Sites

John Robertson: To ask the Secretary of State for Work and Pensions what checks are made on consignments of fireworks leaving Health and Safety Executive-licensed firework storage sites to ascertain that legal distribution is taking place. [36388]

Mrs. McGuire: The Health and Safety Executive (HSE) is responsible for regulating the health and safety of the manufacture, storage and transport of fireworks. It has no remit to regulate consignments of fireworks leaving HSE-licensed storage sites other than checking compliance with the transport of dangerous goods legislation.

Local authorities are responsible for enforcing the legal provisions on the supply of fireworks. HSE works in partnership with local authorities in the regulation of fireworks; where it became aware of information suggesting the illegal supply of fireworks it would immediately pass this information on to the relevant local authority.

Local authorities are notified about firework imports. It is at the discretion of the local authority to decide what checks it undertakes. This is likely to depend on the circumstances.

The most likely circumstances are where a local authority had found evidence of illegal storage or supply in breach of a supply licence issued under the Fireworks Regulations 2004. It could then investigate the firm that had supplied those fireworks with a view to taking enforcement action against it.

Fraudulent Claims

Dr. Strang: To ask the Secretary of State for Work and Pensions what estimate he has made of the value of fraudulent claims made in each of the last five years in the names of people who have died. [37791]

Mr. Plaskitt: The information is not available.

Dr. Strang: To ask the Secretary of State for Work and Pensions by what means his Department traces those in receipt of benefit for whom they have an incorrect address. [37792]

Mr. Plaskitt: The Department for Work and Pensions has a wide range of processes in place for tracing individuals in receipt of benefit for whom they have an incorrect address.

At the outset of a claim for benefit steps are taken to confirm that the address provided exists and is correct, this is done through matching the details provided with historical data held within my Department. Decision notices issued when entitlement is established and annual award notices issued when benefit rates change include written reminders of the need for customers to notify changes of address. In addition to this when it is known that an address is out of date various steps are taken depending upon the benefit in payment, for example in jobseekers allowance the customer is seen on a regular basis where correct address details are confirmed. Disability & Carers Service would contact such people as carers, health care professionals involved in the case etc to confirm address details. In other areas checks would be made with local authorities where housing benefit and council tax benefit are in payment.

If an address could not be traced banks would be contacted to suspend payments and data matching takes place with organisations such as Royal Mail redirect. Details of changes in addresses notified to one part of my Department are shared with other Agencies within the Department through cross-benefit computer systems. These systems also receive address data from Her Majesty's Revenue and Customs where many customers who are in receipt of child benefit, child tax credits and new tax credits are also customers of my Department.

My Department is also looking at data matching with Credit Reference Agencies to ensure address data is kept up to date.

Government Legislation

Mr. Amess: To ask the Secretary of State for Work and Pensions what activities have been made unlawful by legislation introduced by his Department since 1 May 2001; and if he will make a statement. [35983]

Mr. Plaskitt: The following criminal offences have been created in primary legislation sponsored by the Department for Work and Pensions since 1 May 2001.

(a) Social Security Fraud Act 2001

(i) section 2(3)*(a)* inserts a new paragraph (ab) into subsection (1) of section 111 of the Social Security Administration Act 1992 to make it an offence for a person to refuse or neglect to comply with any requirements under section 109BA or 110A (power of the Secretary of State or local authority to require electronic access to information) or with any requirement of any arrangement entered under that section to allow authorised officers access;

(ii) section 16 amends section 111A of the Social Security Administration Act 1992 (dishonest representations for obtaining benefit etc) to extend the circumstances in which a person is to be guilty of an offence if there has been a change of circumstances which he knows will affect entitlement to benefit (either his or another person's), the change is not one which is excluded by regulations from the changes which are required to be notified, and he dishonestly fails, or dishonestly causes or allows another person to fail, to give a prompt notification of the change;

(iii) section 16 also amends section 112 of that Act (false representations for obtaining benefit etc) to extend the circumstances in which a person is to be guilty of an offence if he fails or causes another to fail to give a prompt notification of any change which he knows affect entitlement to any benefit;

(b) Pensions Act 2004

(i) section 77(1) makes it an offence for a person, without reasonable excuse, to refuse to provide information or produce a document when required to do so under section 72 by the Regulator;

(ii) section 77(2) makes it an offence for a person to intentionally delay or obstruct an inspector exercising powers under sections 73 to 75 or to refuse to produce or secure the production of any document or to answer a question or provide information when required;

(iii) section 77(5) makes it an offence for a person intentionally or without reasonable excuse to alter, suppress or destroy any document which he is required to produce under section 72 or 75;

(iv) section 80 makes it an offence for a person to knowingly or recklessly provide the Regulator with information which is false or misleading in a material particular in certain specified circumstances;

(v) section 82 makes it an offence for a person to disclose restricted information in contravention of that section;

(vi) section 193 makes it an offence for a person to fail to provide information to the Board of the Pension Protection Fund or to obstruct a person appointed by the Board or to refuse to produce a document in circumstances similar to those described under (i) to (iii);

(vii) section 195 and 197 respectively make similar provision as in (iv) and (v) for providing information which is false or misleading to the Board or disclosing restricted information;

(viii) section 256 makes it an offence for a trustee or manager to be reimbursed out of the assets of a pension schemes for fines or penalties in contravention of that section;

(ix) Schedule 4, paragraph 11 makes it an offence for a person, without reasonable excuse, to refuse or fail to attend or to give evidence to the Pensions Regulator Tribunal or to alter, suppress or destroy any document which he is liable to produce to the Tribunal or to refuse to produce a document;

(c) Disability Discrimination Act 2005

(i) section 10(3) insets a new subsection (2B) into section 16B of the Disability Discrimination Act 1995 which makes it an offence for a person to knowingly or recklessly make a statement to the effect that publication of a particular advert would not be unlawful by reason of the operation of subsection (2);

(ii) section 7(2)*(b)* prospectively adds to the definition of relevant document in section 49(1) of the 1995 Act a rail vehicle accessibility compliance certificate so as to make it an offence for such a document to be forged, altered etc or for a false statement to be made for the purpose of obtaining such a certificate;

(iii) section 8(2) prospectively inserts a new subsection (5) into section 49 of the 1995 Act to make it an offence to falsely pretend to be a person authorised to inspect rail vehicles;

(iv) section 9 inserts a new section 21A into the Chronically Sick and Disabled Persons Act 1970 in relation to badges issued outside Great Britain, subsections (4) and (8) of which respectively make it an offence to display a badge purporting to be a recognised badge unless it is a recognised badge and is displayed in accordance with regulations and to fail, without reasonable excuse, to produce a badge when required to do so by a constable or enforcement officer.

Housing Benefit Bill

Mr. Laws: To ask the Secretary of State for Work and Pensions when he plans to introduce the Housing Benefit Bill; why it has been delayed; whether it is his policy to include a pilot scheme for the social rented sector and housing benefit sanctions for anti-social neighbours; and if he will make a statement. [31196]

Mr. Plaskitt: In the Queen's speech we made a commitment to legislate on reform of support for housing costs during this Parliamentary session and that remains the position.

We would want to discuss any proposals to reform housing benefit in the social rented sector in more detail with interested organisations as we determine our priorities for wider welfare reform.

We are continuing to keep all measures for tacking antisocial behaviour under review. Sanctions could be one of a number of measures that would help to address the misery caused by antisocial behaviour.

Human Resources

Mr. Maples: To ask the Secretary of State for Work and Pensions who the Director of Human resources is in his Department; what relevant specialist qualifications he or she holds; and what are the details of his or her career to date. [26331]

Mrs. McGuire: The Group Human Resources Director General for the Department for Work and Pensions is Kevin White. He is a Fellow of the Chartered Institute of Personnel and Development and has been working in Human Resources for 12 years. His contact details, responsibilities and key staff are published in the Civil Service Yearbook—the official online directory for all Government Departments. His biography, including information about his present job, career history and education are reproduced in The Whitehall Companion.

Incapacity Benefit

Jon Trickett: To ask the Secretary of State for Work and Pensions how many people living in *(a)* Wakefield

and *(b)* Hemsworth constituency (i) left and (ii) joined the register of persons in receipt of incapacity benefit in the last 10 years. [34668]

Mrs. McGuire: The information is in the tables.

Incapacity benefit (IB) and severe disablement allowance (SDA) commencements in the Wakefield metropolitan district council area and the Hemsworth parliamentary constituency in each year since 1996

Year ending 31 May	Great Britain	Wakefield	Hemsworth
1996	1,019,900	8,300	2,400
1997	998,700	8,700	2,400
1998	905,000	8,600	2,900
1999	837,300	6,800	2,500
2000	801,100	7,200	2,300
2001	788,700	6,400	1,800
2002	731,100	6,400	2,400
2003	722,400	6,200	1,800
2004	695,300	5,700	1,800
2005	624,400	5,800	2,000

Incapacity benefit (IB) and severe disablement allowance (SDA) terminations in the Wakefield metropolitan district council area and the Hemsworth parliamentary constituency in each year since 1996

Year ending 31 May	Great Britain	Wakefield	Hemsworth
1996	1,060,500	8,900	2,900
1997	987,000	9,000	3,200
1998	955,600	8,800	2,800
1999	866,200	7,200	2,700
2000	837,900	8,000	2,600
2001	725,800	5,800	1,800
2002	720,200	6,400	2,200
2003	698,200	6,000	1,900
2004	717,400	6,400	1,900
2005	665,100	6,400	2,300

Notes:

1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.

2. These figures have been updated to include late notified commencements/terminations.

3. All figures back to 1995 have been revised, and may be subject to further change:

a. Figures prior to 2005 are subject to minor changes.

b. Figures for 2004 include fewer late notifications than previous quarters and will be subject to greater change in future.

c. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters.

Source:

DWP Information Directorate, 5 per cent. Samples.

Ed Balls: To ask the Secretary of State for Work and Pensions (1) how many people living in the Normanton constituency claimed incapacity benefit in each year since 1997, [37851]

(2) what proportion of the working age population in the Normanton constituency claimed incapacity benefit in each year since 1997. [37852]

Mrs. McGuire: The information necessary to determine the proportion of the working age population claiming incapacity benefit or severe disability allowance is not available, because population estimates are not available for parliamentary constituencies.

The available information is in the table.

Incapacity benefit and severe disability allowance claimants in the Normanton parliamentary constituency: May 1997 to 2005

	Number of claimants
May 1997	3,900
May 1998	3,700
May 1999	3,800
May 2000	3,900
May 2001	4,000
May 2002	4,000
May 2003	3,900
May 2004	4,000
May 2005	3,800

Notes:

1. Figures are rounded to the nearest hundred.

2. 'Claimant' figures include all IB/SDA claimants (including IB credits only cases).

3. May 1997, 1998 and 1999 have been adjusted by applying detail from 5 per cent. data to 100 per cent. totals.

Source:

DWP Information Directorate, Work and Pensions Longitudinal Study 100 per cent. data. Information Directorate, 5 per cent. sample May 1997, 1998, 1999.

Jon Trickett: To ask the Secretary of State for Work and Pensions what percentage of people of working age are in receipt of incapacity benefit within each *(a)* local authority area and *(b)* parliamentary constituency. [38131]

Mrs. McGuire: The information is not available in the format requested, because population estimates are not available by parliamentary constituency. The available information has been placed in the Library.

Danny Alexander: To ask the Secretary of State for Work and Pensions what assessment he has made of the types of mental health problems experienced by incapacity benefit claimants who have been claiming for *(a)* less than a year and *(b)* more than a year. [38250]

Mrs. McGuire: The information requested is in the table.

Types of mental or behavioural disorders experienced by incapacity benefit claimants who were claiming at 30 June 2005

Mental or behavioural disorder type	Claiming for greater than one year	Claiming for a year or less	Total
Depressive episode	377,250	88,540	465,790
Other anxiety disorders	91,580	19,930	111,510
Other neurotic disorders	71,510	7,300	78,810
Reaction to severe stress	35,380	16,760	52,140
Drug abuse	33,220	13,200	46,420
Alcoholism	37,200	8,550	45,750
Schizophrenia	36,180	2,450	38,640
Mental disorder not otherwise specified	19,420	3,960	23,370
Unspecified nonorganic psychosis	12,420	1,590	14,010

Types of mental or behavioural disorders experienced by incapacity benefit claimants who were claiming at 30 June 2005

Mental or behavioural disorder type	*Claiming for greater than one year*	*Claiming for a year or less*	*Total*
Specific development disorders of scholastic skills	10,070	1,980	12,050
Phobic anxiety disorders	7,540	790	8,340
Unspecified mental retardation	6,410	140	6,550
Unspecified mood disorder	4,150	740	4,890
M&B disorders associated with puerperium, not elsewhere classified	3,030	910	3,940
Specific personality disorders	2,330	370	2,700
Persistent delusional disorder	1,810	410	2,220
Persistent mood disorder	2,040	50	2,090
Eating disorder	1,180	280	1,470
Manic episode	910	80	990
Pervasive development disorders	600	270	870
Recurrent depressive disorder	740	90	820
Unspecified dementia	480	100	580
Dissociative disorders	100	20	130
Somatoform disorders	10	0	10
Total	755,570	168,510	924,070

Notes:
1. Data are to the end of August 2005.
2. Figures are rounded to the nearest 10.
3. The statistics quoted in this response are taken from the Department's 100 per cent. Benefits Database.

Adam Afriyie: To ask the Secretary of State for Work and Pensions whether the proposed reforms of the incapacity benefit system will be in place by the end of 2008; what recent meetings he has had to discuss such reforms; when he will publish a Green Paper on these reforms; and if he will make a statement. [38539]

Margaret Hodge: We intend to publish our proposals for welfare reform, including reforming incapacity benefits, in a Green Paper in January. I have continued the process of engagement with stakeholder groups and others which has been an on-going feature of our consultation on welfare reform. As we have said before, we plan to have the main elements of the reforms in place by 2008.

Jobseeker's Allowance

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) how many people aged over 50 years claimed jobseeker's allowance (JSA) in *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05, broken down by region; what percentage in each region (i) remained on JSA, (ii) found work, (iii) moved onto income support and (iv) moved onto incapacity benefit in each year; and if he will make a statement; [34741]

(2) how many people aged over 50 years who claimed jobseeker's allowance (JSA) were eligible for the new deal 50-plus in *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05, broken down by region; what percentage in each region (i) remained on JSA, (ii) found work, (iii) moved onto income support and (iv) moved onto incapacity benefit in each year; and if he will make a statement. [34742]

Mr. Plaskitt: The information has been placed in the Library.

Jenny Willott: To ask the Secretary of State for Work and Pensions how many people aged over 50 years participated in new deal 50 plus in *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05, broken down by region; what percentage in each year (i) remained on jobseeker's allowance, (ii) found work, (iii) moved onto income support and (iv) moved onto incapacity benefit in each year; and if he will make a statement. [34743]

Margaret Hodge: Information is only available on starts to new deal 50 plus from January 2004. Prior to January 2004, new deal 50 plus information is available for those going into work and claiming the new deal 50 plus employment credit.

The available information is in the table.

New deal 50 plus

Jobcentre Plus region or country	*Individual starts between January 2004 and March 2005 claiming JSA at start date*	*of which, percentage who subsequently (to June 2005) moved*						
		Into work	*Into work and moved onto IS and/ or IB*	*Onto IS*	*Onto IB*	*Onto IS and IB*	*Neither into work or onto IB or IS*	*Claiming JSA at end of June 2005*
Scotland	4,200	27	3	1	5	5	58	38
North East	2,010	23	2	1	6	6	61	38
North West	3,010	26	2	1	5	7	59	37
Yorkshire and the Humber	2,420	25	2	1	5	6	62	40
Wales	1,920	25	2	1	6	6	60	36
West Midlands	4,450	23	2	1	6	5	63	36
East Midlands	1,920	23	2	2	5	6	64	40
East of England	3,750	22	1	1	4	5	67	39
South East	3,750	22	1	1	4	6	67	35
London	5,570	21	1	1	3	6	68	49
South West	2,750	27	2	1	4	7	59	32
Total	35,750	24	2	1	5	6	63	39

Notes:
1. Information on starts to new deal 50 plus is not available prior to January 2004 and has been amalgamated for the 15 month period January 2004 to March 2005.
2. Information for percentages of people from this group still claiming jobseeker's allowance (JSA) is given to June 2005 as this is the latest benefit information available and gives a more accurate reflection of people still claiming JSA.
3. Information is only for those who were claiming JSA when they started new deal 50 plus. It is possible to join new deal 50 plus and not be claiming JSA.
4. Percentage moving into work consists of people recorded as gaining a job through new deal 50 plus and may include people claiming a benefit other than income support or incapacity benefit.
5. Percentage moving into work and onto income support and /or incapacity benefit consists of people who are recorded as gaining a job through new deal 50 plus who are also recorded as having a new claim for income support or incapacity benefit after starting the programme. The income support/incapacity benefit claim may have occurred before, during, or after their job.
6. People recorded as not going into work or claiming income support or incapacity benefit could still be participating on new deal 50 plus.
7. The percentage claiming JSA at the end of June 2005 may include people who also went into work or claimed income support or incapacity benefit between joining the programme and June 2005.
8. Jobs figures are rounded to the nearest 10.
9. Individual percentages may not sum exactly to 100 per cent. due to rounding.
10. JSA (jobseeker's allowance); IS (income support); IB (incapacity benefit).

Work and Pensions Longitudinal Study and New Deal Evaluation Database

Mr. Boswell: To ask the Secretary of State for Work and Pensions what the current average time taken is for jobseeker's allowance claimants *(a)* to be called in for interview and *(b)* thereafter to receive their first benefit. [35068]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 9 January 2006:

The Secretary of State has asked me to reply to your question concerning what the current average time taken is for jobseeker's allowance claimants to be called for interview and thereafter receive their first benefit. This is something which falls within the responsibilities delegated to me as chief executive of Jobcentre Plus.

To make a claim to jobseeker's allowance, the customer calls a contact centre where they answer a series of questions to assess their potential eligibility. Contact centre staff then arrange to call the customer back to complete a claim form, which is sent to the customer to check and sign. They also arrange a work focused interview at the customer's local Jobcentre Plus office.

Currently Jobcentre Plus measures the average time it takes to complete the whole process and collates statistics on the time it takes for the contact centre to call the customer back after initial contact.

Information about the average number of days a customer waits for a call-back across the entire contact centre network can be found in the table below. This data is only available from August and is recorded as actual days.

2005	*Average number of days call-back wait time*
Week commencing:	
15 August	4.2
22 August	4.2
29 August	4.2
5 September	5.0
12 September	5.2
19 September	4.8
26 September	4.8
3 October	4.8
10 October	4.4
17 October	3.3
24 October	3.1
31 October	2.3
7 November	2.4
14 November	1.6

In answer to the second part of your question, the following table contains the actual average clearance times for jobseeker's allowance from May to October this year.

2005	*Actual average clearance times JSA*
May	12.9
June	13.1
July	13.5
August	14.1
September	14.7
October	15.4
Year to date	13.7

We have put in place a robust set of improvement actions to improve this situation.

I hope this is helpful.

Mr. Boswell: To ask the Secretary of State for Work and Pensions what proportion of those on jobseeker's allowance returned to full-time work within *(a)* one month, *(b)* three months and *(c)* six months, in each month in the past five years; and if he will make a statement. [37168]

Mr. Plaskitt: The information is not available in the format requested. Information is available for those that have been recorded as having found work. However, not all leavers who find work tell Jobcentre Plus and so are not recorded as such. The available information has been placed in the Library.

The Department for Work and Pensions Research Report No 244, Destination of benefit leavers 2004, showed that, nationally, 62 per cent. of claimants leaving income support, incapacity benefit or jobseeker's allowance entered employment of 16 hours or more a week. This compares to 61 per cent. in 2003. Copies of the reports are available in the Library.

Mr. Holloway: To ask the Secretary of State for Work and Pensions how many people in the Gravesham constituency are in receipt of jobseeker's allowance. [37534]

Mr. Plaskitt: As at October 2005, the most recent available figure, there were 1,462 people in receipt of jobseeker's allowance in the Gravesham parliamentary constituency.

Lone Parents

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of the cost of income support for single parents who are now required to work due to the age of their children; and if he will make a statement. [36164]

Mr. Plaskitt: Lone parents are only entitled to receive income support if they are not required to be available for work. Where a lone parent is required to be available for work, they would have to claim jobseeker's allowance while they were seeking work.

New Deal

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what measure of sustainability his Department uses for people gaining jobs through *(a)* new deal for young people, *(b)* new deal for 25 plus, *(c)* new deal for partners, *(d)* new deal for 50 plus, *(e)* new deal for disabled people, *(f)* new deal for lone parents and *(g)* all other welfare to work programmes since 1997; and whether this measure has changed in relation to each scheme. [31088]

Margaret Hodge *[holding answer 22 November 2005]:* Sustainability for jobs gained through the new deal programme is measured in slightly different ways across the new deals. In the case of new deal for young people and new deal 25 plus, employment is regarded as sustained if a person gaining a job through these new deals does not claim jobseeker's allowance for at least 13 weeks after gaining employment. This measure has not changed since the programmes were introduced in 1998.

Since 27 October 2005, employment sustainability for those participating on new deal for lone parents has been measured through the Work and Pensions longitudinal study. If a job gained through the programme lasts at least 13 weeks, it is regarded as sustained. A measure of job sustainability was not available prior to October 2005.

When a person gains a job through a new deal for disabled people (NDDP) job broker and remains in work for 13 weeks out of a 39 weeks period, that employment is regarded as sustained. This measure has not changed since the programme started in 2001.

A measure of job sustainability for new deal 50 plus and new deal for partners is not available.

Employment gained through employment zones, which help people living in areas of persistently high unemployment into work, is defined as sustained if a person gaining a job through the programme does not return to claim jobseeker's allowance for at least 13 weeks. This measure has not changed since the programme was introduced in 2000.

In the case of action teams, which help people in economically deprived areas into work, employment is regarded as sustained if the job lasts continuously for at least 11 weeks during the 13 week period after the person starts work, or if the person has two or more jobs which together add up to a total of at least 11 weeks during the 13 week period after they start work. This measure of sustainability has not changed since the programme was introduced in 2000.

In April 2004, we introduced working neighbourhoods pilots to help people in deprived areas into work. Employment gained through the programme is regarded as sustained if a person moves off benefit and remains in work for a minimum of 13 weeks. This measure has not changed since the programme was introduced in 2004.

Our ambition programme, which provides unemployed people with the skills and experience to work in specific employment sectors, defines employment as sustained if a person gaining a job through the ambition programmes is still working in that sector 26 weeks after gaining a job. This measure has not changed since ambition started in 2002.

Finally, our progress2work and progress2work linkup programmes, which assist drug and alcohol misusers into work, as well as offenders and homeless people, define employment as sustained if a person, gaining employment through the programmes, does not return to claim jobseeker's allowance within 13 weeks. This measure has not changed since the programmes were introduced in 2002.

Mr. Davey: To ask the Secretary of State for Work and Pensions how much has been allocated to the full-time education and training option under the New Deal for 18 to 24-year-olds in England in *(a)* 2003–04, *(b)* 2004–05, *(c)* 2005–06, *(d)* 2006–07 and *(e)* 2007–08. [33358]

Margaret Hodge: The available information is in the table.

Expenditure in England on the New Deal for Young People Full-Time Education and Training Option

£ million

	Outturn
2003–04	25
2004–05	32
2005–06[1]	31

[1] Forecast.

Notes:

1. Allocations for the 2006–07 and 2007–08 financial years are not yet available.
2. Figures exclude administrative expenditure and allowances payments to participants.
3. Figures are rounded to nearest million.

Source:

Jobcentre Plus Financial Strategy Division

Lynne Jones: To ask the Secretary of State for Work and Pensions what recent changes there have been in the contracting process for New Deal services; and if he will make a statement. [36979]

Margaret Hodge: Contracts for New Deal for Young People and New Deal 25 Plus are currently being re-tendered. All contracts are procured through open and fair competition in accordance with EU regulations, using the Jobcentre Plus website.

Jobcentre Plus wish to consolidate their contracts to provide larger, more viable and administratively less cumbersome contracts.

The competitive tendering process is now in two stages. The first stage is a Pre-Qualification Questionnaire (PQQ), whereby providers set out at high level how they propose to meet the requirements.

Evaluation of the PQQ will then result in a shortlist of providers who will be invited to submit a full tender at the second stage.

Jobcentre Plus will ensure that local, small and specialist providers continue to contribute to their employment programmes. It is therefore encouraging smaller providers to develop relationships with other providers with a view to offering their services either as a consortium or on a sub-contract basis. The contracts will also be agreed in such a way as to protect good small providers or those who specialise in a particular area.

Jobcentre Plus will require all bidders to set out who they will be using to deliver the services. They will also require a signed declaration from sub-contractors confirming that they are content with the prices offered by the main contractor.

Mr. Holloway: To ask the Secretary of State for Work and Pensions how many people in the Gravesham constituency who attained sustained employment through a new deal programme have since re-started on a new deal programme. [33633]

Margaret Hodge: Up to the end of May 2005, 1,500 people had gained a sustained job through the new deal programme in Gravesham. Of these, 390 people had returned to a new deal programme to the end of August 2005.

Notes:

1. Information is not available at constituency level for new deal for disabled people.
2. A measure of job sustainability is not available for new deal 50 plus and new deal for partners.
3. Figures provided are for new deal for young people, new deal 25 plus and new deal for lone parents. Jobs information for these programmes is available to May 2005; starts information is available up to August 2005.
4. For the purposes of new deal for young people and new deal 25 plus, employment is defined as sustained if the person has not returned to claim jobseeker's allowance within 13 weeks of leaving new deal.
5. For the purposes of new deal for lone parents (NDLP), employment is defined as sustained if an NDLP participant has remained in employment for 13 weeks, as measured by the Work and Pensions longitudinal study.
6. Figures are rounded to the nearest 10.

Source:
DWP Information Directorate

Adam Afriyie: To ask the Secretary of State for Work and Pensions what plans he has to increase the use of the voluntary sector in delivering new deal programmes. [38523]

Margaret Hodge: Contracts for new deal for young people and new deal 25 plus are currently being re-tendered. All contracts are procured through open and fair competition in accordance with EU regulations, using the Jobcentre Plus website.

We actively encourage voluntary sector providers to develop relationships with other providers with a view to offering their services, either as a consortium or on a sub-contract basis. We will be working with providers to ensure they understand the need for diversity in delivery, including the use of smaller providers and voluntary sector organisations. We will require all bidders to identify who they will be using to deliver their services, and will also require a signed declaration from all sub-contractors confirming they are content with the prices offered by the main contractor.

Jobcentre Plus district managers are also encouraged to work in close partnership with local organisations, making best use of non-contracted provision, often provided through the voluntary sector. For example, with new deal for lone parents, districts have agreements with intermediary organisations within both the voluntary and private sector to refer lone parents for training and other support. We have also procured European Social Fund contracts to provide training and job search support for new deal customers and these have been delivered by voluntary organisations.

We are currently looking at ways in which new deal participants would be able to access non contracted training provision, possibly with the voluntary sector and charitable organisations. This would give participants access to things like childcare and travel costs as well as a training premium of £15 per week for approved training activities.

New Registrations (Slough)

Adam Afriyie: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the number of residents in Slough issued with new national insurance numbers in each of the last five years for which data are available; [38509]

(2) how many people from new EU member states countries have registered in Slough for new national insurance numbers in each of the last five years. [38513]

Mr. Plaskitt: Information as to how many residents of Slough were issued with new national insurance numbers is not available. Information regarding the number of applications for national insurance numbers administered in Slough is in the table.

Applications for national insurance numbers administered in Slough

	Number
September 2002 to March 2003	2,651
April 2003 to March 2004	5,127
April 2004 to March 2005	5,388
April 2005 to November 2005	5,203

The available information regarding the number of national insurance numbers issued in Slough to people from the new EU Accession states is in the table.

National insurance numbers issued in Slough to people from EU Accession states

	Number
October 2004 to March 2005	362
April 2005 to November 2005	1,986

Notes:

1. The new EU Accession states entered the EU from May 2004.
2. Figures on the number of national insurance numbers issued to people from EU Accession states are only available from October 2004.

Obesity

Tim Loughton: To ask the Secretary of State for Work and Pensions what proportion of the total expenditure on disability pensions was accounted for by people suffering from obesity in each of the last five years for which figures are available; and how much was spent on disability pensions for people suffering from obesity in each of the last five years for which figures are available. [28255]

Mrs. McGuire: Information is only available on those claiming incapacity benefits whose primary diagnosis is obesity. The available information is in the tables.

Incapacity benefit (IB), severe disablement allowance (SDA) and income support with a disability premium (ISDP); working-age expenditure on people suffering from obesity

£ million real terms

	Obesity—IB/ SDA/ISDP expenditure	*Total—IB/SDA and ISDP expenditure*	*Obesity as a percentage of IB/SDA/IS DP expenditure*
2000–01	8	13,184	0.06
2001–02	8	13,289	0.06
2002–03	8	12,789	0.06
2003–04	8	12,421	0.07
2004–05	8	12,554	0.07

Incapacity benefit (IB), severe disablement allowance (SDA) and income support with a disability premium (ISDP); working-age expenditure on people suffering from obesity

£ million nominal terms

	Obesity—IB/ SDA/ISDP expenditure	*Total—IB/SDA and ISDP expenditure*	*Obesity as a percentage of IB/SDA/IS DP expenditure*
2000–01	7	11,566	0.06
2001–02	7	11,955	0.06
2002–03	8	11,899	0.06
2003–04	8	11,883	0.07
2004–05	8	12,247	0.07

Notes:

1. Figures are consistent with the historical out-turn expenditure figures published in the DWP's benefit expenditure which can be found on the Department for Work and Pensions website at: http://www.dwp.gov.uk/asd/asd4/expenditure.asp
2. Expenditure has been apportioned using data on conditions of IB and SDA recipients from the IB 100 per cent. Work and Pensions Longitudinal Study.
3. Expenditure refers to the total expenditure from IB, SDA and ISDP for those in receipt of IB or SDA.
4. Diagnoses are coded in accordance with the International Classification of Disease 10th edition, published by the World Health Organisation.
5. Figures are rounded to the nearest million pounds.
6. Figures are of working-age claimants only.
7. Real term figures are in 2005–06 prices.
8. Figures for 2004–05 are estimated out-turn.

DWP Cross Cutting Strategy and Analysis Directorate, DWP information Directorate.

Parliamentary Questions

Mr. Boswell: To ask the Secretary of State for Work and Pensions when he expects to answer the question tabled by the hon. Member for Daventry on 9 November, reference 28183. [36799]

Mrs. McGuire: I refer the hon. Member to the answer given on 14 December 2005, *Official Report*, column 1990W.

Pathways to Work

Danny Alexander: To ask the Secretary of State for Work and Pensions how many full-time equivalent mental health workers are employed by each Pathways to Work pilot area, broken down by type of mental health worker; and what the ratio of mental health workers to participants is in each area. [38248]

Margaret Hodge: The information requested is not available.

In 2005–06, we expect around 3,000 customers in Pathways to Work pilot areas to receive support from the condition management programme.

Pension Credit

Kerry McCarthy: To ask the Secretary of State for Work and Pensions what steps the Government are taking to ensure that it meets its target of 3 million people claiming pension credit by Easter 2006. [35311]

Mr. Timms: The Pension Service is contacting again those individuals who are likely to be entitled to either small amounts of the guarantee element of pension credit, or the savings element only, to encourage them to apply. New marketing campaigns have been developed and data-matching techniques are being used to increase the accuracy with which letters are targeted. Further contact is also being made with those households we believe to be eligible for pension credit, but who have not so far responded.

Between April 2005 and March 2006, The Pension Service plans to have visited around 800,000 households to provide a full benefit check to ensure everyone is assisted in claiming their full entitlement to all benefits. The Pension Service's local service will also continue to work closely with its local partners such as Help the Aged and Age Concern to help ensure pensioners take up their entitlements.

National statistics showing the number of pensioners entitled to pension credit in the first six months after its introduction and the subsequent take-up rate are expected to be released early in 2006.

Mr. Laws: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of UK pensioners *(a)* entitled to pension credit and *(b)* receiving pension credit in each region; and if he will make a statement. [38147]

Mr. Timms: Latest estimates of the number of pensioners in Great Britain entitled to pension credit are due to be published in early 2006 in "Income Related Benefits Estimates of Take-Up in 2003/2004". Copies of the report will be available from the Library.

The number of pension credit recipients as at September 2005 is in the following tables.

Number of households receiving pension credit by pension credit type and GOR as at September 2005

	Total claimants	Guarantee credit (GC) only	Savings credit (SC) only	GC & SC
All GB	2,711,000	775,900	611,400	1,323,800
North East	158,200	36,800	40,000	81,300
North West	358,400	99,900	76,100	182,500
Yorkshire and The Humber	261,400	66,700	65,000	129,700
East Midlands	195,500	49,900	49,100	96,400
West Midlands	279,500	76,100	62,300	141,200
East of England	223,100	54,600	55,400	113,100
London	289,100	146,400	43,400	99,300
South East	280,200	76,100	69,200	134,900
South West	223,600	54,800	53,500	115,400
Wales	160,400	41,200	33,900	85,300
Scotland	281,600	73,400	63,500	144,700

Number of individuals receiving pension credit by GOR as at September 2005

	Total individual beneficiaries	Couple with female claimant	Single females	Couple with male claimant	Single males
All GB	3,299,100	125,500	1,589,000	462,500	533,900
North East	194,200	7,900	91,100	28,200	31,000
North West	433,500	16,600	209,400	58,500	74,000
Yorkshire and The Humber	321,100	12,800	152,400	46,900	49,300
East Midlands	241,100	10,000	114,300	35,700	35,500
West Midlands	345,500	13,400	159,100	52,600	54,400
East of England	274,000	10,700	132,700	40,200	39,600
London	344,100	8,800	165,900	46,200	68,100
South East	336,200	12,200	172,500	43,800	51,800
South West	273,500	10,800	132,400	39,100	41,400
Wales	197,900	8,300	92,500	29,300	30,300
	337,900	14,100	166,900	42,200	58,400

Notes:
1. The preferred data source for figures supplied by the Department for Work and Pensions is the Work and Pension Longitudinal Study, for which the latest published data is May 2005. The figures provided are those published in the Pension Credit Quarterly Progress Report, which provides an early estimate of caseload, these figures are our latest estimates.
2. Caseloads are rounded to the nearest 100 and expressed in thousands. Totals may not sum due to rounding.
3. Pension Credit (PC) replaced Minimum Income Guarantee (MIG) on 6 October 2003. Existing MIG recipients were automatically converted onto Pension Credit on that date (assuming they still met the eligibility criteria).
4. Data from the Generalised Matching Service (GMS) 100 percent scan taken on 16 September 2005. The figures have been rated up to give month-end estimates.
5. These figures are early estimates. Operational processing times mean that a number of claim commencements and terminations are not reflected in the figures. The final figures incorporated within the Work and Pensions Longitudinal Study (WPLS) will take account of such cases.
6. Couples may contain a number of partners who are less than the age of 60.
Source:
Information Directorate, 100 per cent. data.

Pension Protection Fund

Mrs. Villiers: To ask the Secretary of State for Work and Pensions what meetings he has had with the Board of the Pension Protection Fund. [21721]

Mr. Timms: My right hon. Friend the Secretary of State met with the chair on 22 November 2005.

I met with members of the Board of the Pensions Protection Fund on 25 May 2005 and 12 December 2005, with the chief executive on 2 June 2005 and the chair on 15 November 2005

Adam Afriyie: To ask the Secretary of State for Work and Pensions if he will make a statement on the operation of the Pension Protection Fund. [38529]

Mr. Timms: The Pension Protection Fund became operational on 6 April 2005. It will pay compensation to members of eligible non money purchase pension schemes where an employer becomes insolvent and the scheme is unable to afford to pay benefits at the level of PPF compensation.

The board will produce an annual report and set of accounts for its activities in respect of each financial year, which the Secretary of State will present to Parliament. It published proposals for calculation of the levy which will fund its activities on 16 December.

To date, there are 28 schemes in an assessment period for the fund, accounting for over 18,000 scheme members.

Pension Schemes

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions what discussions he has had with *(a)* the Financial Services Authority and *(b)* life assurance companies about what constitutes best advice with regards to private funded pensions following the pensions regulator's assessment of the deficit of final salary schemes; and if he will make a statement. [24930]

Mr. Timms: The responsibility for keeping members of final salary schemes informed and up to date about their scheme and its funding rests with the trustees of the

scheme. Trustees can seek advice from their professional advisers; in addition, the pensions regulator produces a number of documents designed to help trustees in their work, including codes of practice. A code of practice on scheme funding is due to be published this month. The new funding provisions to replace the minimum funding requirement, due to come into force this month, promote greater transparency in scheme funding. Trustees of final salary schemes will be required to send regular statements of their scheme's funding position to all scheme members.

Pensioners

Mr. Peter Robinson: To ask the Secretary of State for Work and Pensions what estimate he has made of the number and percentage of pensioners in each county of the UK who had no private income in the last year for which figures are available. [22988]

Mr. Timms: The following tables show the percentage and number of pensioners with no private income in each of Northern Ireland, Scotland, Wales and England. The data are from the 2003–04 Family Resources Survey. Because the data are from a sample survey the results are subject to a degree of uncertainty.

(a) Percentage of pensioners with no private income

	Pensioner couples	*Single pensioners*	*All pensioner units*
Northern Ireland	20	42	33
Wales	11	24	19
Scotland	12	22	18
England	6	18	13
United Kingdom	7	19	15

Notes:
1. Private income is defined as income from occupational and personal pensions, investment income, earnings, and 'other' income. The definition is consistent with that used in table 7 of the Pensioners' Income Series.
2. Pensioner couples are couples where the man is over State Pension Age—the table shows the percentage and number of pensioner couples without some form of private income. Pensioner units are either single pensioners or pensioner couples.

(b) Number of pensioner couples and single pensioners with no private income

	Pensioner couples	*Single pensioners*	*All pensioner units*
Northern Ireland	10,000	40,000	60,000
Wales	20,000	60,000	70,000
Scotland	30,000	90,000	120,000
England	150,000	660,000	810,000
United Kingdom	210,000	850,000	1,050,000

Notes:
1. Numbers are rounded to the nearest 10,000. The number of single pensioners and pensioner couples may not equal the total number of pensioner units due to rounding.
2. Pensioner couples are couples where the man is over State Pension Age—the table shows the percentage and number of pensioner couples without some form of private income. Pensioner units are either single pensioners or pensioner couples.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many and what proportion of *(a)* single women, *(b)* single men and *(c)* couples aged (i) 60 to 64, (ii) 65 to 69, (iii) 70 to 74 and (iv) 75 years or over receive less than a full basic state pension by up to (A) 50p, (B) £1, (C) £5, (D) £10, (E) £20 and (F) £30 per week. [35372]

Mr. Timms: The information is not available in the format requested. Such information as is available is in the following table.

	Rate of basic pension									
	Less than £50		*£50.00 to £59.99*		*£60.00 to £60.99*		*£70 to £70.99*		*Full basic pension*	
	Number	*%*	*Number*	*%*	*Number*	*%*	*Number*	*%*	*Number*	*%*
Men										
Aged 65–69	25,700	2.1	28,500	2.3	45,200	3.7	94,100	7.7	1,030,300	84.2
Aged 70–74	22,100	2.1	20,000	1.9	32,000	3.1	56,100	5.4	914,300	87.5
Aged 75+	17,200	1.0	16,200	1.0	21,900	1.3	39,800	2.4	1,553,900	94.2
Women										
Aged 60–64	543,600	40.9	161,000	12.1	139,200	10.5	126,900	9.5	358,100	26.9
Aged 65–69	680,500	52.2	95,900	7.4	62,900	4.8	65,900	5.1	397,200	30.5
Aged 70–74	577,400	48.9	42,000	3.6	30,900	2.6	36,400	3.1	494,400	41.9
Aged 75+	668,900	24.9	35,200	1.3	32,100	1.2	47,500	1.8	1,903,800	70.8

Notes:
1. Data are taken from 5 per cent. extract of PSCS as at 31 March 2005, therefore figures are subject to a degree of sampling. The cases are also adjusted to be consistent with the overall caseload from the WPLS.
2. Caseload figures are rounded to the nearest 100 and are for Great Britain only.
3. A full basic Category A state pension was £79.60 per week for 2004–05.
4. The figures are for men and women getting either a Category A pension or a Category B pension based on their own or their spouse's or late or former spouse's National Insurance contribution record—it is not possible to identify recipients by marital status.

Source:
DWP Information Directorate five per cent. Sample—GB figures.

Chris Ruane: To ask the Secretary of State for Work and Pensions how many and what percentage of pensioners were living in absolute poverty in *(a)* each constituency in Wales and *(b)* each ward of the Vale of Clwyd constituency in each year since 1994. [39301]

Mr. Timms: No robust geographical breakdown is available of the number of pensioners in absolute poverty in Wales.

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what his Department's estimate is of the amount paid in rent rebate to pensioners in 2004–05. [37818]

Mr. Plaskitt: An estimated £2,242 million was paid in housing benefit rent rebate to pensioners in 2004–05.

Note:
This figure is rounded to the nearest million and is consistent with the pre-Budget report 2005. The estimate is based on local authority subsidy returns, combined with local authority-supplied statistical data in order to estimate how much is paid to pensioners. Estimates include both rent rebate reimbursed to local authorities by DWP, and that which is met from local authorities' own funds.

Source:
DWP Expenditure Tables.

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what his Department's estimate is of the amount paid in council tax benefit to pensioners in 2004–05. [37819]

Mr. Plaskitt: An estimated £1,818 million was paid in council tax benefit to pensioners in 2004–05.

Note:
This figure is rounded to the nearest million and is consistent with the pre- Budget report 2005. The estimate is based on local authority subsidy returns, combined with local authority-supplied statistical data in order to estimate how much is paid to pensioners. Estimates include both council tax benefit reimbursed to local authorities by DWP, and that which is met from local authorities' own funds.

Source:
DWP Expenditure Tables.

Pension Reform

Adam Afriyie: To ask the Secretary of State for Work and Pensions (1) what assessment he has made of the Pensions Commission second report; [38524]

(2) if he will make a statement on progress on plans to reform the UK pensions system; [38526]

(3) what recent representations he has received on the findings and recommendations of the Pensions Commission report. [38527]

Mr. Timms: The Government welcomes the broad framework of the Pensions Commission's proposals and options which were published on 30 November 2005, and believe they are the right basis for the debate to come.

The Government will now need to reflect on the report and are committed to consulting with the public and stakeholders on these key issues as part of the National Pensions Debate. There is much to be discussed and decided on the detail of that framework and our response must meet the five tests we have set out—that our overall package of reforms must promote personal responsibility; must be fair, affordable, simple and sustainable.

As far as the specific recommendations are concerned, the Government are ruling nothing in and nothing out.

We will launch the next stage of the National Pensions Debate in the new year and will continue to talk with people of all ages, in all parts of the country and across all political parties. We want to continue to listen to everyone's views so that we create ownership of the challenges and the possible solutions.

We will also continue to listen and engage with stakeholders and we are already meeting with key stakeholders as we work towards building a consensus on the way forward.

The Government will work towards the publication of a White Paper in the spring.

Adam Afriyie: To ask the Secretary of State for Work and Pensions what recent discussions he has had with the Chancellor of the Exchequer on the Pensions Commission final report. [38525]

Mr. Timms: The Chancellor of the Exchequer and my right hon. Friend the Secretary of State speak regularly about a wide range of policy issues.

Adam Afriyie: To ask the Secretary of State for Work and Pensions what role his Department has played in negotiations on the reform of public sector pensions. [38536]

Mr. Timms: I refer the hon. Gentleman to the answer to the hon. Member for East Antrim (Sammy Wilson) on 31 October 2005, *Official Report*, column 741W.

Performance Development System

John McDonnell: To ask the Secretary of State for Work and Pensions what the total cost incurred by the Department in defending and settling Performance and Development System related cases was in *(a)* 2003 and *(b)* 2004 appraisal years. [38743]

Mrs. McGuire *[holding answer 19 December 2005]:* The Department successfully defended a High Court action brought by the Public and Commercial Services union and recouped its costs.

Approximately £59,000 was spent in defending and settling six individual Employment Tribunal cases. This figure includes counsel fees.

This is the total figure, spanning the 2003 and 2004 appraisal years. The information for each separate year is not available as the cases run across the reporting year and the Department's solicitors branch is unable to break the data down.

Post Office Bank Account

Lorely Burt: To ask the Secretary of State for Work and Pensions why the basic Post Office bank account is not able to receive payments through housing benefit and income support benefit cheques. [36209]

Mr. Plaskitt: The Post Office card account is a simple account with very limited functions. It was specifically designed to receive payments of benefits and pensions administered by central government.

The Post Office card account does not have a facility for the account holder to make payments to a third party (i.e. their landlord) by standing order, so is not a suitable account to receive payments of housing benefit

or the local housing allowance which is currently being piloted. Most housing benefit customers already have a suitable bank account that can be used to receive their payments from which they can make payments directly to their landlord.

The Post Office card account was introduced as a stepping stone for those who did not feel that they were yet ready to make use of even a basic bank account. Should someone feel that they now need an account with more facilities then they should consider moving to an account which better suits their needs. Customers who have opened and operated a card account have demonstrated that they are now capable of using a basic bank account. There are a large number of current and basic bank accounts which can be accessed at Post Offices, if this is important to housing benefit recipients.

DWP cheques are designed for those people who we cannot pay into an account. There is no need for a facility to pay DWP cheques into Post Office card accounts. If customers, including those receiving income support, want to put their money into a card account then we can do this directly for them without needing to issue a cheque.

Public Relations

Mr. Weir: To ask the Secretary of State for Work and Pensions what the value was of *(a)* public opinion research and *(b)* public relations contracts awarded by his Department in 2004–05 in (i) each (A) nation and (B) region of the UK and (ii) London. [35948]

Margaret Hodge: The information requested is as follows.

(a) The DWP conducts regular research to monitor customers and the public views of our services.

During the last 12 months the cost for these pieces of work has been £86,000.00.

(b) The DWP has awarded two public relations contracts during the last 12 months.

For the Age Positive campaign the cost has been £420,000.00. (England £252,00.00, Scotland £84,000.00 and Wales £84,000.00). The cost for the Disability Discrimination Act campaign was £140,000.00.

Race Equality Impact Assessments

Keith Vaz: To ask the Secretary of State for Work and Pensions how many Race Equality Impact Assessments his Department completed between *(a)* April 2004 and March 2005 and *(b)* April 2005 and November 2005; and how many assessments in each period resulted in a change of policy. [32824]

Mrs. McGuire: During the period from April 2004 to March 2005, 19 race equality impact assessments were completed. From April this year up to the end of September we have completed 24. The figures for October and November will be included in the return we undertake for the quarter ending December 2005.

There have been no major changes in policy as a result of conducting impact assessments; however, as a result we have made more explicit references to diversity principles, particularly in our Human Resource Policies and we have strengthened our monitoring and evaluation processes.

One area where we are undertaking more work is in relation to the Government's efficiency challenge where we have identified the need, particularly in the London area, to ensure that our proposals meet the needs of ethnic minority customers, particularly those with English as a second language.

Rent Service

Mr. Sanders: To ask the Secretary of State for Work and Pensions what the national targets are for The Rent Service; and what the performance of offices in South Devon is in relation to those targets. [36574]

Mr. Plaskitt: The administration of The Rent Service is a matter for the chief executive, Charlotte Copeland. She will write to the hon. Member with the information requested.

Letter from Charlotte Copeland, dated 12 December 2005:

In reply to your recent parliamentary question about The Rent Service's (TRS) national targets and the performance of offices in South Devon against those targets, the Secretary of State promised a substantive reply from the Chief Executive of The Rent Service.

The information is given in the following table.

Type of determination	*National target*	*Exeter office*[1, 2]
Housing benefit		
With an inspection	93% within 15 working days	98.9% within 15 working days
Without an inspection	93% within 3 working days	99.7% within 3 working days
Pre-tenancy	93% within 4 working days	99.7% within 4 working days
Redeterminations	93% within 15 working days	98.2% within 15 working days
Fair rents	93% within 40 working days	99.3% within 40 working days

[1] Exeter is the only TRS office in South Devon.
[2] 1 April to 30 November 2005.

If I can be of any further assistance, please let me know.

Single Women Pensioners

Lynne Featherstone: To ask the Secretary of State for Work and Pensions how many single women pensioners are receiving assistance to bring them up to the minimum pension level, broken down by constituency; and if he will make a statement. [36466]

Mr. Timms: I have placed the requested information in the Library.

Tax Credits

Mr. Boswell: To ask the Secretary of State for Work and Pensions what criteria were used to select pilot areas for the pilot work search premium scheme for working tax credit partners; what the take-up to date has been; what the duration of the scheme is expected to be; what the cost of the scheme is; and if he will make a statement. [35067]

Margaret Hodge: The work search premium for working tax credit partners (WSP/WTCP) was introduced on the 31 October 2005. It will be piloted for two years in 31 wards in eight Jobcentre Plus districts: Birmingham, Blackburn, Bradford, Leicester, London City and East, London North East, London South and Luton.

The purpose of the pilot is to test whether paying a £20 weekly payment for up to 26 weeks will increase job entries for partners of people claiming WTC who would otherwise have remained unemployed.

The pilot areas were chosen carefully with the aim of finding a high proportion of people of working age who are not in employment and not claiming benefits.

The exact criteria were that pilot locations should have an unemployment rate of one and a half times the International Labour Organisation rate of unemployment, and one and a half times the national average of people not claiming benefit or working. In addition, in each ward, the number of people not in employment and not claiming benefit should be greater than 2,500 people.

The total estimated costs for this pilot are in the table:

£ million

	Estimated cost for pilot
2005–06	0.86
2006–07	1.65
2007–08	1.03
Total	3.54

It is anticipated that around 6,000 people will benefit from the WSP/WTCP over the two years that the pilot is in operation. However, as it was only introduced at the end of October, statistical data will not be available until the end of December.

Winter Fuel Payments

Chris Ruane: To ask the Secretary of State for Work and Pensions how many people received winter fuel payments in each ward in the Vale of Clwyd in 2004–05. [39330]

Mr. Timms: The information is in the following table.

Ward	*Winter fuel payment recipients*
Bodelwyddan	375
Denbigh Central	345
Denbigh Lower	965
Denbigh Upper/ Henllan	590
Dyserth	520
Llandyrnog	480
Prestatyn Central	940
Prestatyn East	985
Prestatyn Meliden	490
Prestatyn North	1,820
Prestatyn South West	1,025
Rhuddlan	1,125
Rhyl East	1,555
Rhyl South	1,160
Rhyl South East	1,455
Rhyl South West	855
Rhyl West	665
St. Asaph East	460
St. Asaph West	385
Trefnant	550
Tremeirchion	350

Notes:

1. All wards based on census wards—those current as at April 2003.
2. All wards nest within Vale of Clwyd parliamentary constituency except Llandyrnog ward which is also partly within Clwyd West parliamentary constituency.
3. All benefit counts at ward level are rounded to a multiple of five.

Source:

Information Directorate

Young People (Support)

Anne Snelgrove: To ask the Secretary of State for Work and Pensions what financial support is available for young people living independently and participating in further education *(a)* for the first six months and *(b)* after six months. [36439]

Mr. Plaskitt: It is a matter of record that the policy of both this and previous Governments has been to exclude most, but not all, full-time students from entitlement to housing benefit; since 1990 financial support for those students opting to study full-time has been seen as the responsibility of the education system, rather than the benefit system.

Those in full-time education are not supported through the benefits system once they reach the age of 19; the age at which child benefit ceases to be payable. Students in vulnerable groups, mainly those with a disability and those with dependent children retain eligibility for income related benefits.

People in full-time education are not entitled to receive jobseeker's allowance. Successive Governments have taken the view that full-time education is incompatible with the 'work first' nature of the jobseeker's allowance regime. It would be very difficult for someone in full-time education to fully meet the conditions for receipt of jobseeker's allowance.

Young people who are eligible to claim jobseekers allowance receive, like everyone else, help and support to find work. As unemployment lengthens and getting into work becomes more difficult the help provided becomes more intensive. As part of this, young people become eligible for the new deal after six months unemployment. The new deal provides intensive support through a personal adviser and includes, for those people who do not find work quickly, a number of options, including full-time education and training, to help improve their prospects of finding work. Young

people participating in full time education and training as part of the new deal receive an allowance, which is equivalent to their jobseeker's allowance plus a top up of £15.38 per week to cover additional costs incurred through participation. Individuals receiving housing benefit can currently study for qualifications below degree level, as long as it is for less than 16 guided learning hours a week. This is not always a significant barrier as many full time Learning and Skills Council courses are just over 12 guided learning hours a week.

Anne Snelgrove: To ask the Secretary of State for Work and Pensions what training and guidance is available for Jobcentre Plus advisers for their work with young people living independently. [36440]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 9 January 2006:

The Secretary of State for Work and Pensions has asked me to reply to your question concerning what training is provided to Jobcentre Plus advisers to assist them in working with young people living independently. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus has in place a comprehensive programme to support a client's job search activity, and successful movement into employment or further education.

Advisers receive training on assisting young people via the New Deal for Young People learning package. The focus of this learning is to help staff to support young people's ability to identify realistic job goals, and, if appropriate, a move into further education, as a means of gaining sustainable employment.

The Jobcentre Plus Adviser training helps them to work closely with Connexions in supporting the claimant with any training needs they may have to enter work.

I hope this is helpful.

HEALTH

"Your Health, Your Care, Your Say"

Mr. Caton: To ask the Secretary of State for Health when she will respond to the consultation "Your Health, Your Care, Your Say". [35055]

Mr. Byrne: Early in 2006.

Accident and Emergency Departments

Mr. Dunne: To ask the Secretary of State for Health what guidelines she has issued on the minimum acceptable distance patients should be expected to travel to reach a hospital with an accident and emergency department. [38640]

Mr. Byrne *[holding answer 20 December 2005]:* There is no recommended minimum or maximum patient travelling time to acute hospitals with accident and emergency departments in England.

Abortion

Mr. Amess: To ask the Secretary of State for Health how many abortions for overseas residents took place after 18 weeks' gestation in 2004–05; and whether her Department requires an anaesthetic or pain killer to be administered to the unborn child before a late abortion takes place. [34687]

Caroline Flint: In 2004, 417 terminations were carried out at over 18 weeks' gestation on non-residents of England and Wales.

The Royal College of Obstetricians and Gynaecologists (RCOG) issue guidance on clinical matters relating to abortion. For all terminations at gestational age of more than 21 weeks and six days, the RCOG recommends the method chosen should ensure that the foetus is born dead and that consideration is given to use of foetal analgesia and sedation.

Mr. Binley: To ask the Secretary of State for Health how many abortions were performed in *(a)* Great Britain and *(b)* the Leicestershire, Northamptonshire and Rutland Strategic Health Authority under the Abortion Act, as amended by section 37 of the Human Fertilisation and Embryology Act 1990 in each of the last five years; and what percentage were performed to save the life of the mother. [36415]

Caroline Flint: The available information is shown in the table.

Statistics for abortions performed in Scotland are a matter for the Scottish Executive.

Number of abortions and percentage performed to save the life of the pregnant woman[1] for residents of England and Wales and residents of Leicestershire, Northamptonshire and Rutland Strategic Health Authority, 2000–04[2]

	England and Wales		Leicestershire, Northamptonshire and Rutland SHA	
	Total	Sections 1(1)(c) and 1(4) of the Abortion Act[1] (percentage)	Total	Sections 1(1)(c) and 1(4) of the Abortion Act[1] (percentage)
2004	185,415	0.1	4,831	[3]—
2003	181,582	0.1	4,641	[3]—
2002	175,932	0.1	4,474	[3]—
2001	176,364	0.0	[2]n/a	[2]n/a
2000	175,542	0.1	[2]n/a	[2]n/a

[1] Section 1(1)(c) that the continuance of the pregnancy would involve risk to the life of the pregnant woman, greater than if the pregnancy were terminated. Section 1(4) that the termination is immediately necessary to save the life or to prevent grave permanent injury to the physical or mental health of the pregnant woman.

[2] Prior to 2002 information was published by health authority and not directly comparable with SHAs

[3] Suppressed values. Percentages are based on fewer than 10 cases (between 0–9) and for confidentiality reasons are not available for release

Mr. Amess: To ask the Secretary of State for Health what plans she has to review compliance with section 4 of the Abortion Act 1967. [34785]

Caroline Flint: We have no plans to review compliance with Section 4 of the Abortion Act and I refer the hon. Member to the reply I gave him on 28 October 2005, *Official Report*, column 564W.

Acute General Hospitals

Mr. Gordon Prentice: To ask the Secretary of State for Health what steps she is taking to ensure that acute general hospitals retain the full range of medical and surgical specialisms; and if she will make a statement. [29778]

Mr. Byrne: The National Health Service Act 1977 places a duty on the Secretary of State to provide a range of facilities and services to such extent as she considers necessary to meet reasonable requirements. The Secretary of State discharges her duties through delegation to local primary care trusts who can contract with national health service trusts, NHS foundation trusts and other healthcare providers for those services. Should an NHS organisation wish to make a significant change or variation to a service then they are required to consult with local stakeholders including the overview and scrutiny committee before reaching a final decision. In addition, the core services of NHS foundation trusts are protected when they achieve foundation status and these services can only be changed if the regulator is satisfied that any changes are in the interests of the NHS. As medical knowledge advances and new ways of working are developed it is inevitable over time that there will be changes in the location of particular services in the interests of patients.

Acute Myocardial Infarction

Mr. Gibb: To ask the Secretary of State for Health what assessment she has made of the use of the Goldman algorithm in the assessment of suspected acute myocardial infarction. [37757]

Caroline Flint: The Department has not made an assessment of the use of the Goldman algorithm. However, the Goldman algorithm was first published in 1988 and has been superseded by other algorithms and protocols in the assessment of suspected acute myocardial infarction.

Agency Staff

Mr. Devine: To ask the Secretary of State for Health how much foundation hospitals paid for agency nursing in 2004. [38431]

Mr. Byrne: The information requested is not held centrally.

Information relating to the operational management of national health service foundation trusts can be obtained via the Chairman of each organisation.

Mr. Sanders: To ask the Secretary of State for Health what the cost of agency *(a)* nurses and *(b)* doctors in Torbay primary care trust has been since 1997. [38483]

Caroline Flint: The Department collects primary care trust expenditure information on non-national health service staff. The table shows the total expenditure of agency nurses and doctors by Torbay primary care trust (PCT) for the period 2000–01 to 2004–05. This is the earliest data available as Torbay PCT only came into existence in 2000.

£

	Cost of non-NHS nurses	*Cost of non-NHS doctors*
2000–01	0	0
2001–02	0	0
2002–03	43,601	0
2003–04	70,887	0
2004–05	89,000	14,000

Source:
Annual financial returns of Torbay primary care trust

David Taylor: To ask the Secretary of State for Health whether *(a)* temporary and *(b)* agency staff are employed in her Department to perform roles previously carried out by permanent staff who have been made redundant. [37217]

Jane Kennedy: No.

Alimta

Mr. Kemp: To ask the Secretary of State for Health what the average cost to the NHS of a course of treatment with the drug Alimta was in the last period for which figures are available. [36882]

Jane Kennedy: According to the British National Formulary (BNF), one 500 milligram vial of Alimta costs £800. There is no information in the BNF on the average duration of a course of treatment, this will vary for individuals.

Ambulance Service

Mr. Sanders: To ask the Secretary of State for Health what the target is for ambulance response times in Torbay; and what percentage of call-outs have met these targets since 1997. [38415]

Caroline Flint: Ambulance response times are set nationally. They are:

Category A which presents conditions which may be immediately life threatening and which should be responded to within eight minutes irrespective of location in 75 per cent. of cases. A fully equipped ambulance should attend incidents classified as category A within 14 to 19 minutes of the initial call, 95 per cent. of the time, unless the control room decides that an ambulance is not required.

Category B which presents conditions which though serious are not immediately life threatening and should be responded to within 14 minutes (urban) and 19 minutes (rural) in 95 per cent. of cases.

Ambulance services are required to take patients to hospital where the need is identified by a doctor as urgent and these patients should arrive at hospital within 15 minutes of the arrival time specified by the doctor in 95 per cent. of cases.

For category C calls, this presents conditions which are not immediately life threatening or serious—local national health service organisations have had responsibility for managing and monitoring the ways in which local services respond to these calls, since 1 October 2004.

The ambulance review, "Taking Healthcare to the Patient: Transforming NHS Ambulance Services" was published in June 2005. The review sets out recommendations which include supporting performance improvement and changes to performance requirements. The report is available in the Library and on the Department's website at: www.dh.gov.uk/assetRoot/04/ll/42/70/04114270.pdf.

The percentage of call outs which have met these targets in Torbay is not collected centrally. The data which the Department does collect on ambulance response times is published in the statistical bulletin, "Ambulance services, England: 2004–05". This is available in the Library and on the Department's website at: www.dh.gov.uk/assetRoot/04/ll/36/79/04113679.pdf.

Charlotte Atkins: To ask the Secretary of State for Health when the NHS consultation document on the reorganisation of ambulance trusts will be issued; when the consultation will *(a)* start and *(b)* finish; and whether ambulance trusts will have an input into the drafting of the consultation document. [36447]

Mr. Byrne *[holding answer 12 December 2005]:* In accordance with the written ministerial statement of 14 December 2005, *Official Report*, column 152–53WS, consultation on the proposed reconfiguration of ambulance trusts began on 14 December 2005 and will finish on 22 March 2006. Strategic health authorities were asked to comment on a draft of the consultation document, and key stakeholders, including ambulance trusts, were involved in the preparation of "Taking Healthcare to the Patient: Transforming NHS Ambulance Services", which made the original recommendation for fewer larger trusts.

Assisted Dying for the Terminally Ill Bill

Mr. Amess: To ask the Secretary of State for Health when she expects to issue a reply to the Select Committee on the Assisted Dying for the Terminally Ill Bill [Lords]; and if she will make a statement. [30411]

Ms Rosie Winterton: The issues raised in the select committee's report were discussed extensively in a debate in the other place on 10 October, during which my noble Friend Lord Warner gave the Government's contribution.

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Health what discussions the Government has had with other countries regarding the devising of measures to prevent the spread of avian influenza among humans. [23276]

Ms Rosie Winterton: The Department is working closely with other countries and international organisations such as the World Health Organization (WHO) and the European Commission (EC), and with other international partners to support international preparedness. We are sharing information on a regional level through events such as the pandemic influenza workshop, jointly hosted by WHO and the EC in Copenhagen in October. As part of its European Union (EU) Presidency responsibilities, the United Kingdom hosted an informal meeting of EU health Ministers in October, at which Ministers stressed the importance of national plans and of EU co-ordination of pandemic preparedness. We are also working on the wider international level through the international partnership on avian and pandemic influenza through such meetings that were co-hosted by WHO, Food and Agriculture Organisation, and the World Organisation for Animal Health in November.

Mr. Waterson: To ask the Secretary of State for Health what plans are in place in East Sussex to combat an avian influenza pandemic; and if she will make a statement. [29304]

Ms Rosie Winterton: It is important to be clear about the differences between seasonal flu, avian flu and pandemic flu. Avian influenza is a disease which mainly affects birds. Seasonal flu refers to the virus that circulates in the human population and causes widespread illness each winter. Pandemic flu will only occur after an avian virus has mutated into a novel strain which can spread easily between humans and to which they do not have immunity.

Surrey and Sussex strategic health authority has advised that national health service organisations throughout Surrey and Sussex have robust plans in place to respond to any outbreak of infectious disease. These plans include a contingency response to any infectious pandemic, including avian flu should it ever transfer to human-to-human transmission.

Birth Costs

Mr. Hoban: To ask the Secretary of State for Health what the average cost was of *(a)* a home birth, *(b)* an out of hospital birth and *(c)* a hospital birth in each NHS trust providing maternity care in 2004–05; and what assessment she has made of the reference cost for each category of birth. [37422]

Mr. Byrne *[holding answer 13 December 2005]:* The information requested is not collected centrally.

Reference cost data are collected against three specific health care resource groups: normal delivery with or without complications or co-morbidities, assisted delivery with or without complications or co-morbidities and caesarean section with or without complications or co-morbidities.

Reference cost data are assessed annually and it is anticipated that 2004–05 data will be available in the new year.

Cambridgeshire and Peterborough Mental Health Partnership Trust

David Howarth: To ask the Secretary of State for Health what assessment she has made of the policy of the Cambridgeshire and Peterborough Mental Health Partnership Trust in relation to direct contact between members of its staff and the media on matters of public concern; and if she will make a statement. [37969]

Ms Rosie Winterton *[holding answer 15 December 2005]:* The responsibility for the management of local services lies with the local national health service. It is for the Cambridgeshire and Peterborough Mental Health Partnership NHS Trust to plan and develop its own internal and external policies and services to meet the needs of the local population.

Cancelled Operations

Steve Webb: To ask the Secretary of State for Health how many patients had their operation cancelled *(a)* twice, *(b)* three times, *(c)* four times and *(d)* more than four times in each year since 1997; and if she will make a statement. [35198]

Mr. Byrne: The information requested is not collected centrally. However, data on the number of cancelled operations are available on the Department's website at: www.performance.doh.gov.uk/hospitalactivity/data_requests/cancelled_operations.htm

Children's Diet

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 2 December 2005, *Official Report*, column 544W, on children's diet, whether the Food Standards Agency's rolling programme of surveys will collect data on daily calorie intake. [38101]

Caroline Flint: Yes. Information on daily energy (calorie) intake by all age groups, including children, will be collected in the rolling programme.

Children's Hospices

Bob Spink: To ask the Secretary of State for Health what her policy is for the future support of the respite and terminal care of children with life-limiting illnesses. [30392]

Mr. Byrne: Primary care trusts (PCTs), working with their local authority partners and stakeholders, remain best placed to decide the level and range of palliative care needed by the children and young people in their locality and are able to respond directly to their needs. We have made a manifesto pledge to increase funding for end of

life care and this includes care for children and young people. We will make further announcements on this funding in the near future.

In our guide "Commissioning Children's and Young People's Palliative Care Services", launched on 29 November, we give commissioners important advice about the key aspects of children's palliative care which will improve the quality of commissioning and provision of services. This practical guide will stimulate improvements in commissioning and promote quality care for children young people and their families in a range of settings, for example, palliative care at home, in hospital or in a hospice.

On 19 October 2005, we announced the setting up of a review of National Health Service Specialised Services. The review, headed by Scotland's former Chief Medical Officer, Professor Sir David Carter, will investigate how the NHS currently commissions specialised services and consider ways of tightening these commissioning arrangements so that there is greater consistency across the NHS.

The review will also look at ways of ensuring PCTs work together to commission specialised services so that the financial risk is shared. It will consider whether the balance is right between PCT commissioning collaboration and a more national or regional commissioning approach. The review team will report in spring 2006.

Cholesterol

Mr. Amess: To ask the Secretary of State for Health what percentage of adults in England suffers from high cholesterol according to the Joint Society Guidelines. [36611]

Caroline Flint: The new Joint British Societies guidelines on prevention of cardiovascular disease in clinical practice were published on 21 December. They recommend that lipid-lowering therapy should be offered to people with:

clinical evidence of atherosclerotic cardio vascular disease (CVD);

diabetes mellitus (type one or two);

a total CVD risk, greater than 20 per cent. over 10 years;

elevated blood pressure, greater than 160 millimetres of mercury (mm Hg) or greater than 100 mm Hg diastolic, or lesser degrees of blood pressure elevation with target organ damage.

They recommend that the audit standard for this group should be 5.0mmol/litre or less, and that wherever possible the aim should be to reduce cholesterol to 4.0 mm/litre or less.

We do not hold the information in the format requested. However, information from hospital episodes statistics (HES) data for people who suffer from high cholesterol is shown in the table. HES does not hold a standard definition of high cholesterol, which will be clinically determined.

All diagnosis count of finished consultant episodes and patients for high cholesterol.
National health service hospitals, England 2004–05

Finished consultant episodes	*Patient counts*
289,052	195,871

Source:
Hospital Episode Statistics (HES), Health and Social Care Information Centre

We estimate, from prescribing data, that approximately 2.5 million people in England are on statin therapy for the control of cholesterol levels. Statin prescriptions have been rising at 30 per cent. per year.

Mr. Moss: To ask the Secretary of State for Health (1) whether her Department plans to run a campaign to raise the awareness of the dangers of high cholesterol levels; [38688]

(2) whether she plans to promote the awareness of the risks of unhealthy levels of cholesterol during the implementation of the Choosing Health White Paper. [38689]

Caroline Flint: Currently, the Department has no plans to run a campaign or promote the awareness of the risks of unhealthy levels of cholesterol among the general population. However, as set out in the Choosing Health White Paper, the Department will launch in 2006 a social marketing campaign to increase consumer awareness of the health risks of obesity and promote practical steps that can be taken through diet and physical activity to improve the health of the general population, with an early focus on children.

Mr. Moss: To ask the Secretary of State for Health what her Department's policy is on those adults with cholesterol levels between 4 mmol/l and 7 mmol/l and not eligible for prescribed statins but who are now deemed to have unhealthy cholesterol levels according to the new Joint British Societies Guidelines. [38690]

Caroline Flint: The national service framework for coronary heart disease (NSFCHD) recommends that preventative treatment and lifestyle advice should be offered to patients with established CHD, then to those at a 30 per cent. 10-year risk of developing CHD, with a view to moving on to treating patients at a lower risk once these high-risk groups are treated. One of the key risk factors is high cholesterol and the NSF states that for both groups the target is to use statins and dietary advice to lower serum cholesterol concentrations either to less than 5 millimoles per litre (mmol/litre) or by 30 per cent., whichever is the greater.

The new general medical service contract includes quality indicators for measuring and managing cholesterol in high-risk groups, such as those with CHD. The target is to reduce cholesterol levels to five mmol/litre or less.

The National Institute for Health and Clinical Excellence is currently consulting on the final recommendation for its health technology appraisal (HTA) of statins. The HTA will identify the level of risk at which statins should be prescribed by the national health service. Publication is due early in 2006.

Contraception

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to facilitate access to condoms free-of-charge *(a)* in NHS institutions and *(b)* through community-based distribution schemes. [26011]

Caroline Flint: Primary care trusts (PCTs) are responsible for local sexual health and HIV health promotion including the provision of free condoms. The NHS Logistics Authority purchases condoms centrally for distribution by the national health service, although PCTs also purchase them direct from condom suppliers.

To support PCTs the Department has produced best practice guidance on sexual health promotion which highlights the need to make condoms accessible to those who need them. The need to ensure people have access to free provision of all methods of contraception, including condoms, is also highlighted in "Recommended Standards for Sexual Health Services", produced by the Department with the Medical Foundation for AIDS and Sexual Health.

Correspondence

Clare Short: To ask the Secretary of State for Health when she will reply to the letter of 28 October 2005 from the right hon. member for Birmingham, Ladywood on behalf of Dr. Felix Burden. [38120]

Jane Kennedy: A reply was sent on Thursday 15 December.

Critical Care Beds

Mr. Lansley: To ask the Secretary of State for Health if she will make it her policy that plans by NHS trusts to close critical care beds should be subject to public consultation. [32810]

Mr. Byrne: It is for national health service trusts to assess and manage the number of critical care beds depending on local needs. NHS trusts have various statutory duties of consultation where changes to service provision are being considered and it is a matter for them to determine when these duties arise.

Dentistry

Rosie Cooper: To ask the Secretary of State for Health how many NHS dentists per head of population were practising in *(a)* West Lancashire and *(b)* England in each year since 1997. [27861]

Ms Rosie Winterton: The information requested is shown in the table.

General dental services (GDS) and personal dental services (PDS), number of dentists and dentists per population in England and the specified areas as at 30 September each year

	England	*West Lancashire PCT*
Number of dentists		
1997	16,670	41
1998	17,199	46
1999	17,755	44
2000	18,167	45
2001	18,722	49
2002	18,946	47
2003	19,260	52
2004	19,722	55
2005	20,890	58

General dental services (GDS) and personal dental services (PDS), number of dentists and dentists per population in England and the specified areas as at 30 September each year

	England	*West Lancashire PCT*
Dentists per head of population		
1997	2,919	2,646
1998	2,839	2,358
1999	2,762	2,465
2000	2,710	2,411
2001	2,641	2,214
2002	2,620	2,313
2003	2,589	2,096
2004	2,540	1,982
2005	2,398	1,879

Notes:

1. The dentists include principals, assistants and trainees. Prison contracts are excluded from the data.
2. The postcode of the Dental Practice was used to allocate dentists to specific geographic areas. Primary care trust areas have been defined using the Office of National Statistics All Fields Postcode Directory.
3. England 2005 data per population has been calculated using 2004 population data, as this is the most up-to-date available.
4. PCT data per population for 1997 to 2000 has been calculated using 2001 population figures as this is the earliest date at which population data at this area is available.
5. PCT data per population for 2004 and 2005 have been calculated using 2003 population data, as this is the most up-to-date available at this area.
6. Data includes all notifications, received by the Dental Practice Board, up to 2 November 2005 for England and 19 October 2005 for the PCT. Figures for the numbers of dentists at specified dates may vary depending upon the notification period, e.g. data with a later notification period will include more recent notifications of dentists joining or leaving the GDS or PDS.

Source:

Dental Practice Board.

Mr. Hancock: To ask the Secretary of State for Health what measures are used to assess the need for dental services in primary care trust areas. [28353]

Ms Rosie Winterton: Each primary care trust (PCT) has access to the services of a consultant in dental public health, who provides advice on local oral health and the geographical areas that should be a priority for action. The British Association for the Study of Community Dentistry surveys provide information on the numbers of decayed missing and filled teeth by PCT area.

A PCT's ability to respond to local oral health needs will be substantially strengthened by the introduction of local commissioning of primary care dental services from April 2006. PCTs will hold a local budget for dental services. When a dentist leaves the area or reduces his or her national health service commitment, the resources return to the PCT. It is at their discretion to redeploy these resources locally and to agree where new practices are established. This gives the PCT the ability to reflect the oral health needs of their local population in the distribution of NHS primary care dental services.

Mr. Lansley: To ask the Secretary of State for Health how many dentists have left the NHS in each year since 1997–98 *(a)* in terms of headcount and *(b)* as a percentage of the total number of dentists in the NHS (i) in total and (ii) broken down by Strategic Health Authority area. [28690]

Ms Rosie Winterton: Details of dentists leaving the national health service, expressed as both a headcount and percentage figure for England (total) and broken down by strategic health authority is shown in the table. A dentist is assumed to have left the NHS if they had an open general dental services (GDS) or personal dental services (PDS) contract in September of the previous year but no GDS or PDS contract in September of the specified year.

The reasons for dentists leaving the NHS are not recorded by Dental Practice Board. The figures presented will include dentists who have retired from practice and those who have moved to private practice.

General Dental Services (GDS) and Personal Dental Services (PDS)

Numbers of complete leavers, and as a percentage of total dentists, in England by strategic health authority area as at 30 September each year

West Midlands South	36	6	30	5	26	4	31	4
West Yorkshire	52	7	41	5	47	6	31	4

Notes:
1. Complete leaver means the dentist had an open GDS or PDS contract in September of the previous year but no GDS or PDS contract in September of the specified year.
2. Percentages are calculated on the number of dentists with an open GDS or PDS contract as at 30 September in the specified year.
3. The dentist numbers include principals, assistants and trainees. Prison contracts are excluded.
4. A dentist may have a contract in more than one Strategic Health Authority area. Therefore, data at Strategic Health Authority area may include duplications of dentists leaving.
England data excludes duplication.
5. The postcode of the Dental Practice was used to allocate dentists to specific geographic areas. Strategic health authority areas have been defined using the Office of National Statistics All Fields Postcode Directory.
6. The numbers of leavers include all notifications, received by the Dental Practice Board, up to 8 November 2005.
Source:
Dental Practice Board

Sir Paul Beresford: To ask the Secretary of State for Health pursuant to the written ministerial statement of 9 November 2005, *Official Report*, column 17WS, on national health service dentistry, how much Methods Consulting will receive for recruiting 216 dentists from Poland; whether the amount paid has been reduced as a result of the failure to achieve the target of 230; and how many have been offered places in *(a)* general dental service practices, *(b)* the salaried primary care dental service and *(c)* the hospital dental service. [31964]

Ms Rosie Winterton *[holding answer 28 November 2005]:* Methods Consulting has exceeded their target for the recruitment of dentists. In total they have recruited 237 dentists from Poland. Of these, 216 started employment before 1 November; 15 dentists started work during November 2005; and a further six dentists will be taking up posts shortly. Therefore, there are no grounds to reduce the value of the £3.8 million contract agreed with Methods Consulting for recruitment of dentists from Poland.

We do not collect routine information about the type of national health service dental services in which international recruits are working. However, the vast majority of these are working, either in personal dental service (PDS) or general dental service practices. A small number are salaried PDS dentists.

Mr. Evans: To ask the Secretary of State for Health (1) what action she is taking to improve dental services in Ribble Valley; [33041]

(2) how many NHS dentists are operating in Ribble Valley and Fulwood. [33042]

Ms Rosie Winterton *[holding answer 29 November 2005]:* As at 30 September 2005, there were 65 dentists with a general dental services (GDS) or personal dental services (PDS) contract with Hyndburn and Ribble Valley primary care trust, compared with 54 in 2004, an increase of 11. The number of dental practices is 2003 was 23, of which 12 have opened PDS contracts.

£205.5 million funding was allocated to Hyndburn and Ribble Valley primary care trust (PCT). As additional £130,000 was allocated to the PCT to improve access to national health service dentistry.

Mr. Hoyle: To ask the Secretary of State for Health what the length is of the waiting list for an NHS dentist in *(a)* Lancashire and *(b)* Chorley; and if she will make a statement. [37799]

Ms Rosie Winterton: The information requested is not collected centrally.

Mr. Hollobone: To ask the Secretary of State for Health how many full-time equivalent dentists were practising in England in the NHS *(a)* in each year since 1997 and *(b)* the most recent period for which figures are available. [38908]

Ms Rosie Winterton *[holding answer 20 December 2005]:* Information about full-time equivalent dentists is not available because a dentist with a general dental services (GDS) or personal dental services (PDS) contract may provide as little or as much national health service treatment as he or she chooses.

The numbers of dentists in England with a GDS or PDS contract as at 30 September 2005 are shown in the table.

	Total GDS and PDS dentists
1997	16,670
1998	17,199
1999	17,755
2000	18,167
2001	18,722
2002	18,946
2003	19,260
2004	19,722
2005	20,890

Note:
Data include all notifications of dentists joining or leaving the GDS or PDS, received by the Dental Practice Board, up to 2 November 2005.
Source:
Dental Practice Board

Mr. Hollobone: To ask the Secretary of State for Health what assessment she has made of the age profile of dentists working under NHS contracts; and what assessment she has made of the implications of that age profile for the supply of NHS dental services. [38910]

Ms Rosie Winterton *[holding answer 20 December 2005]:* The percentage of general dental services (GDS) dentists by age band and personal dental services (PDS) contracts by age band of dentist, in England, as at 30 June 2005 is shown in the table.

Age band	*Percentage of GDS dentists in age band*	*Percentage of PDS contracts in dentist age band*
All ages	100	100
under 30	14	20
30–34	14	17
35–39	15	15
40–44	16	14
45–49	15	13
50–54	11	10
55–59	9	7
60 and over	6	4

Source:
Dental Practice Board

The age profile and patterns of retirement were one of the factors that contributed to the analysis of future patterns of supply of dentists in the primary care dental workforce review.

Mr. Keetch: To ask the Secretary of State for Health how many people are registered on the central waiting list held by the Herefordshire primary care trust for assigning NHS dentists in Hereford; and how long each has been waiting since submitting their registration. [38914]

Ms Rosie Winterton: This information is not held centrally.

Mr. Graham Stuart: To ask the Secretary of State for Health how many dentists in Beverley and Holderness are involved in private practice. [37437]

Ms Rosie Winterton: The information requested is not collected centrally.

Departmental Estate

Angus Robertson: To ask the Secretary of State for Health how much was paid by her Department in rates to each local authority in 2004–05; and how much was paid in *(a)* each region and *(b)* London in that year. [35987]

Jane Kennedy: The Department and its executive agencies during 2004–05 paid £5,571,969.

Rates of £5,571,969 was paid in England. No properties are occupied in any other nation of the United Kingdom.

This comprises regional totals of:

	£
North West	123,000
North East	11,240
West Midlands	0
East Midlands	4,881
Eastern	9,000
South West	38,055
South East	102,608
Yorkshire and Humberside	1,079,192

Rates of £4,203,993 were paid for the Department's London properties.

Disability

Danny Alexander: To ask the Secretary of State for Health whether a Minister in her Department is planned to be nominated to take responsibility for liaison with the Office for Disability Issues; and if she will make a statement. [37077]

Mr. Byrne: Anne McGuire, the Minister with responsibility for disabled people, has overall responsibility for the Office for Disability Issues (ODI). The Minister for disabled people chairs a cross-government steering group which includes ministerial representatives from the Department of Health, Department for Education and Skills, Office of the Deputy Prime Minister, Department for Transport, and Department of Trade and Industry. I am the Minister in this Department nominated to take responsibility for liaison with the ODI.

Launched on 1 December 2005, the Office for Disability Issues is a cross-government unit which supports and reports to the Minister for disabled people who has lead responsibility, in collaboration with colleagues across government, for driving forward the Government's 20-year strategy to improve outcomes for disabled people.

Drug Treatment

Mr. Burrowes: To ask the Secretary of State for Health what support is given to drug rehabilitation projects which pursue an abstinence approach to drug treatment; and if she will list the projects which have received public funding in 2005–06. [32017]

Caroline Flint: The pooled treatment budget is the Government funding made available for drug treatment and totalled £299.4 million in 2005–06. These allocations are distributed to primary care trusts, who work with local drug action teams to commission treatment services to best meet the needs of the local community. This should provide an appropriate mix of harm minimisation treatment as well as treatment which favours abstinence. We do not hold lists of treatment services centrally.

East Lancashire NHS Trust

Kitty Ussher: To ask the Secretary of State for Health if she will make a statement on the financial situation of the East Lancashire Hospital Trust; and what steps her Department has taken to alleviate that situation. [30455]

Mr. Byrne *[holding answer 29 November 2005]*: The latest financial year for which audited financial information for all national health service organisations is available is 2004–05. The audited 2004–05 year-end financial position for the East Lancashire Hospitals NHS Trust shows a deficit of £4 million. As at month six the 2005–06 financial year, the trust is forecasting to break even as at 31 March 2005.

It is the responsibility of strategic health authorities to deliver both financial balance for their local health communities and to ensure that each and every organisation achieves financial balance. There is, however, a degree of flexibility with regard to the way this is managed at a local level.

Eggs

Mr. Salmond: To ask the Secretary of State for Health what steps she has taken in the last six months to ensure that eggs imported into the UK meet the same food safety standards as eggs produced in the UK; and if she will make a statement. [38550]

Caroline Flint *[holding answer 20 December 2005]:* Eggs sold within the European Union (EU) must meet standards laid down in community legislation. From 1 January 2006, these standards will be incorporated into the consolidated Food Hygiene Regulations.

The Food Standards Agency has also advised me that they have commissioned two surveys, the first of which started in April 2005, looking into the *Salmonella* prevalence in eggs produced outside the United Kingdom. The surveys are looking both at eggs sold at retail and at those used by the catering industry. Further information on the surveys can be found on their website:

www.food.gov.uk/science/surveillance/foodsurvprog

All member states are now required to establish plans for controlling *Salmonella* in laying flocks. Under provisions of the EU zoonoses directive, surveys of laying flocks are currently being undertaken throughout the EU. These will form the basis for targets for reducing the incidence of *Salmonella* in laying flocks.

Emergency Dental Treatments

Steve Webb: To ask the Secretary of State for Health pursuant to her answer of 24 October 2005, *Official Report*, column 174W, on emergency dental treatment, how many finished admission episodes there were for emergency dental procedures in *(a)* 1997–98 and *(b)* 1998–99. [35275]

Ms. Rosie Winterton: The information requested is shown in the table.

Count of finished admission episodes, all operations dental procedures in national health service hospitals, England 1997–98 to 1998–99

	Finished admission episodes
1997–98	4,043
1998–99	4,319

Notes:
A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Foundation Trusts

Mr. Lansley: To ask the Secretary of State for Health whether she plans to permit primary care trusts to take powers along the lines of those vested in NHS foundation trusts. [36426]

Mr. Byrne: No.

Gershon Review

Mr. Francois: To ask the Secretary of State for Health who in the Department has been made responsible for achieving the efficiency objectives set for the Department by the Gershon review. [21308]

Mr. Byrne: The Secretary of State is responsible for the overall delivery of the health efficiency programme.

General Practitioners' Pay

Mr. Wills: To ask the Secretary of State for Health what the cost of general practitioners' pay was in *(a)* 1997, *(b)* 1998, *(c)* 1999, *(d)* 2000, *(e)* 2001, *(f)* 2002, *(g)* 2003 and *(h)* 2004. [24481]

Mr. Byrne: The information requested is shown in the table.

General practitioners total pay 1997 to 2004

£ million

	1997–98	*1998–99*	*1999–00*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
GMS Non-Discretionary	2,198	2,243	2,451	2,510	2,288	2,068	1,903
GMS Discretionary	835	878	897	940	857	840	781
PMS	n/a	37	84	174	569	1,152	1,939
Total GMS Including PMS spend)	3,033	3,158	3,432	3,624	3,714	4,060	4,623
Percentage change total year on year	n/a	4.12	8.68	5.59	2.48	9.32	13.87

Sources:
1. Up to 2001–02 data are from the 95 England Health Authorities. For 2001–02, PCTs were introduced but were only reporting on GMS discretionary expenditure.
2. 2002–03 spend is based on combined 28 SHA Qtr 1–2 and Qtr 3–4 303 PCT spend. Owing to PCTs not having non-discretionary banking rights until September 2003. 2003–04 spend is based on 304 audited PCT returns.
3. PMS Pilots funding covers wave 1–5B funding
4. PMS spend includes both local transfers from the Unified budget discretionary amounts and GMS non-discretionary transfers.
5. Discretionary and non-discretionary GMS figures reflect the growth over the period in GP and practice staff numbers, and the rise in pay and expenses.
6. Note that all figures up to 2001–02 are based on cash only spend. Due to changes in accounting regulations figures for 2002–03 and 2003–04 are resource based.

Mr. Wills: To ask the Secretary of State for Health what estimate she has made of the projected cost of general practitioners' pay in *(a)* 2005, *(b)* 2006, *(c)* 2007, *(d)* 2008, *(e)* 2009 and *(f)* 2010. [24482]

Mr. Byrne: Estimates of general practitioners' pay for the period 2005 and beyond cannot yet be made and will depend on expenditure incurred by primary care trusts during those financial years.

Health and Social Care Act

Kelvin Hopkins: To ask the Secretary of State for Health what advice her Department has issued to *(a)* primary care trusts, *(b)* strategic health authorities and *(c)* other NHS organisations on their obligations under Section 11 of the Health and Social Care Act 2001

in relation to (i) primary care trust mergers and (ii) strategic health authority reconfigurations; and if she will make a statement. [24396]

Mr. Byrne: There is no duty to consult under section 11 of the Health and Social Care Act 2001 (the 2001 Act) because the strategic health authority (SHA), primary care trust (PCT) and ambulance trust reconfiguration proposals amount to managerial and administrative changes only. However, if there are any proposals to make changes to service provision put forward in the future by the newly reconfigured organisations, there will be a duty on those organisations to involve and consult patients and the public on those proposals under section 11 of the 2001 Act.

The following regulations apply to the present consultation:

National Health Service Trusts (Consultation on Establishment and Dissolution) Regulations 1996 (Statutory Instrument (SI) 1996/657) (the 1996 Regulations)

Primary Care Trusts (Consultation on Establishment, Dissolution and Transfer of Staff) Regulations 1999 (SI 1999/2337) (the 1999 Regulations)

Strategic Health Authorities (Consultation on Changes) Regulations 2003 (SI 2003/1617) (the 2003 Regulations).

Consultation guidance has been issued to all SHAs. Further to this, we are making it clear to SHAs that when preparing their summaries of the consultation responses, all views generated as a result of the consultation must be taken into account, even where these views vary from the options set out in their consultation document.

Health Care Vacancies

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* three month vacancy rate percentage, *(b)* three month vacancy number and *(c)* number of staff in post full-time equivalent was for (i) occupational therapy staff, (ii) speech and language staff, (iii) physiotherapists, (iv) district nurses and (v) health visitors in each strategic health authority in England in (A) 1997, (B) 2001, (C) 2004 and (D) 2005. [30742]

Mr. Byrne: The information requested for 2001, 2004 and 2005 has been placed in the Library.

The first national health service vacancy survey was undertaken in 1999 therefore information for 1997 is not available centrally.

Health Protection Agency (Review Panel)

Mr. Drew: To ask the Secretary of State for Health what role the Rapid Review Panel of the Health Protection Agency undertakes; and if she will make a statement. [36702]

Jane Kennedy: The rapid review panel (RRP) has been convened by the Health Protection Agency (HPA) at the request of the Department. The RRP provides a prompt assessment of new and novel equipment, materials, and other products or protocols that may be of value to the national health service in improving hospital infection control and reducing hospital acquired infections. The RRP meets every three months and their recommendations are published on the HPA's website at www.hpa.org.uk/infections/topics_az/rapid_review/default.htm.

Health Services

Mr. Hollobone: To ask the Secretary of State for Health how much was spent by the Kettering General Hospital NHS Trust on treating NHS medical patients in the private health sector in each year since 1997. [38095]

Ms Rosie Winterton: The information requested is not held centrally by the Department.

Rosie Cooper: To ask the Secretary of State for Health how many children from the West Lancashire constituency have *(a)* attended accident and emergency, *(b)* had an emergency operation, *(c)* had an elective operation and *(d)* attended outpatients at Alder Hey NHS trust in each year between 2000 and 2004. [37320]

Mr. Byrne: The Health and Social Care Information Centre provides data on hospital episode statistics on its website at www.hesonline.org.uk.

Rosie Cooper: To ask the Secretary of State for Health what *(a)* land and *(b)* properties belonging to the NHS in West Lancashire has (i) been sold in each year since 2000 and (ii) planned to be sold in (A) 2005–06 and (B) 2006–07. [37322]

Mr. Byrne: Information on land and property sold or planned to be sold by the national health service is not held centrally.

Health Spending

Mr. Ancram: To ask the Secretary of State for Health (1) what projected per capita Government spending on health in Wiltshire for 2005–06 is; [36879]

(2) what projected per capita Government spending on health in County Durham for 2005–06 is. [36880]

Mr. Byrne: The total spend by national health service organisations in Wiltshire and County Durham for 2005–06 will be reported in the 2005–06 final accounts, which will be published in autumn 2006.

The forecasts for 2005–06 recently published on the Department's publications website are based on unaudited data. The forecasts are available at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en

The latest year for which audited financial data are available is 2004–05. The table shows the spend per head for primary care trusts (PCTs) in Wiltshire and County Durham for 2004–05.

£

PCT	*2004–05 spend per head*
Kennet and North Wiltshire	917
South Wiltshire	1,045
West Wiltshire	940
Derwentside	1,263
Durham and Chester-le-Street	1,142
Durham Dales	1,251

£

PCT	2004-05 spend per head
Easington	1,320
Sedgefield	1,236

Sources:
2003 based 2004 Office for National Statistics projections
2004-05 audited summarisation schedules for PCTs

Health Staffing Costs

Mr. Lansley: To ask the Secretary of State for Health what the *(a)* average cost and *(b)* total cost was of employing (i) consultants, (ii) registrars, (iii) other doctors in training, (iv) general medical practitioners excluding registrars, (v) general medical practitioner registrars, (vi) general practitioner retainers, (vii) qualified nurses, (viii) qualified allied health professionals, (ix) qualified scientific, therapeutic and technical staff, (x) qualified ambulance staff and (xi) all other professionally qualified clinical staff in England in (A) 2000 and (B) 2004; and how many full-time equivalent posts there were in each category in each year. [31005]

Mr. Byrne: The information available has been placed in the Library.

Information on average cost and total cost of employing general medical practitioners excluding registrars, general medical practitioner registrars and general practitioner retainers is not held centrally. This is a matter for individual trusts.

Hepatitis C

Mr. Amess: To ask the Secretary of State for Health when the more robust estimates for the prevalence of hepatitis C in England mentioned in the recent Health Protection Agency report will be available. [38491]

Caroline Flint: The Health Protection Agency is currently developing an epidemiological model to provide more robust estimates of the prevalence of hepatitis C in England. It is anticipated that the work will be completed in mid-2006. The results will be written up and submitted for publication to a peer-reviewed journal.

Mr. Amess: To ask the Secretary of State for Health how many staff hours per month the Health Protection Agency spent on the surveillance of *(a)* hepatitis C and *(b)* HIV/AIDS in 2004-05. [38492]

Caroline Flint: The Health Protection Agency (HPA) records its staffing data as whole-time equivalents (wte) rather than man hours per month.

The HPA have 5.5 wte working on the surveillance of hepatitis C. The Department is also providing short-term funding for 3 wte to support hepatitis C surveillance.

The HPA have 18.7 wte working on the surveillance of HIV/AIDS.

Herceptin

Sandra Gidley: To ask the Secretary of State for Health what plans she has for the funding of *(a)* the provision of HER2 testing and *(b)* the prescribing of Herceptin to women diagnosed with early stage breast cancer in the 2006-07 financial year. [29294]

Ms Rosie Winterton: The cost of HER2 testing and of prescribing Herceptin will need to be met from the existing settlement agreed with the national health service.

Roche, the manufacturer of Herceptin, has undertaken to assist the NHS in ensuring that high quality HER2 testing arrangements are put in place, for example through the provision of training for laboratory staff.

Mr. Lansley: To ask the Secretary of State for Health whether the profits for the manufacturer derived from the prescribing of Herceptin for the treatment of early stage breast cancer will be subject to the pharmaceutical price regulation scheme. [39361]

Jane Kennedy: Herceptin is a branded prescription medicine and is, therefore, subject to the 2005 pharmaceutical price regulation scheme.

HIV/AIDS

Mr. Hunt: To ask the Secretary of State for Health what measures her Department is taking to provide anti-retroviral drugs to young children suffering from HIV/AIDS in England; and if she will make a statement. [38284]

Caroline Flint: Anti-retroviral drugs for the treatment of children with HIV/AIDS in England are provided through the national health service trust delivering the treatment, under the clinical supervision of the specialist paediatrician. Such treatment and care is provided within an inter-disciplinary clinical network.

Hospital Bed Occupancy

Mr. Sanders: To ask the Secretary of State for Health what targets have been set for hospital bed occupancy; how many beds have been available in general and acute wards in hospitals in Torbay primary care trust in each year since 1997; and what percentage of these were occupied on average in each year. [38479]

Caroline Flint: Evidence suggests that the optimal bed occupancy rate is around 82 to 85 per cent. These figures however, are merely a guideline and it is up to the national health service locally to decide how best to manage their services.

The number of beds that have been made available in general and acute wards in Torbay primary care trust (PCT), and the percentage of these that were occupied on average since 2000 is shown in the table. This is the earliest data available as the PCT only came into existence in 2000. The data are collected on a provider rather than a commissioner basis.

Average daily number of general and acute beds available and occupancy rate, Torbay PCT, 2000-01 to 2004-05

	Available	Occupancy (percentage)
2000-01	0	0.0
2001-02	0	0.0
2002-03	50	92.5

Average daily number of general and acute beds available and occupancy rate, Torbay PCT, 2000–01 to 2004–05

	Available	*Occupancy (percentage)*
2003–04	54	87.8
2004–05	54	80.8

Source:
Department of Health form KH03

Hospital Closures

Mr. Dunne: To ask the Secretary of State for Health in the event of closure of *(a)* Bridgnorth community hospital and *(b)* Ludlow community ospital, which entity would receive what proportion of the proceeds of divestment of the site on which the hospital operates. [38636]

Ms Rosie Winterton *[holding answer 20 December 2005]:* If Bridgnorth hospital or Ludlow hospital were closed and sold, the proceeds would go to the Shropshire county primary care trust (PCT), providing that the open market value of each site at the time was below the PCT's delegated limit of £8 million.

Mr. Dunne: To ask the Secretary of State for Health (1) how many *(a)* full-time and *(b)* part-time jobs would be lost if (i) Ludlow community hospital and (ii) Bridgnorth community hospital were closed; [38638]

(2) what assessment she has made of the impact of the closure of *(a)* Ludlow community hospital and *(b)* Bridgnorth community hospital on community care services in Shropshire; and what assessment she has made of the financial impact on the relevant local authorities. [38639]

Ms Rosie Winterton *[holding answer 20 December 2005]:* This is a matter for the health community in Shropshire. Any proposals for significant changes to the provision of health services in Shropshire and Telford and Wrekin will be subject to formal public consultation.

Hospital Discharge (Terminally Ill Patients)

Angela Browning: To ask the Secretary of State for Health whether the financial penalty paid by social services departments for late discharge of hospital patients applies to patients who are diagnosed as terminally ill. [37971]

Mr. Byrne *[holding answer 15 December 2005]:* Patients receiving specialist palliative care are excluded from the system of charging for delays in discharge. In addition, many patients who have rapidly deteriorating conditions or who do not have long to live will continue to be the national health service's responsibility and as such will not trigger any payment from social services. The NHS is responsible for ensuring the patient is safe to discharge, however, some patients will have a strong preference to return home to die. If they, or their carer, need a care package, including services from social services which is not in place by their discharge date, social services will be potentially liable for a charge.

Hospital Mergers

Helen Jones: To ask the Secretary of State for Health how many hospital mergers have taken place over the last five years; what the projected effects on costs of each merger were; and what actual savings have been achieved in each case in the last relevant financial year. [30577]

Mr. Byrne: 164 national health service trust and primary care trust mergers have taken place in the last five years. A list has been placed in the Library.

Information is not held centrally on the projected effects or actual savings from each merger.

Identity Cards

Lynne Jones: To ask the Secretary of State for Health what estimate she has made of the *(a)* total and *(b)* net cost of (i) integrating the proposed identity card scheme into her Department's IT systems and (ii) the on-going operation of the scheme within her Department. [31110]

Mr. Byrne: The Department has, in consultation with the identity (ID) cards programme, developed its current best estimate of the cost of using the ID cards scheme to support the services which it oversees and these costs have been incorporated into the business case. The Department is represented on the Ministerial Committee on Identity Cards which oversees the work on benefits planning and realisation.

In deriving these estimates account has to be taken of the types of use required to support the particular services which the Department oversees. Not all services will require a high degree of integration between the ID cards scheme and other information technology (IT) systems. There are no plans to use ID cards to access the NHS Care Record Service.

We cannot release the detailed estimated costs for integrating IT systems and the on-going operation of the ID cards scheme within the Department and the services which it oversees at this stage as these elements may be acquired from the market. The estimates are therefore commercially sensitive and to release them may prejudice the procurement process and the Department's ability to obtain value for money from potential suppliers.

Independent Treatment Centres

Mr. Lansley: To ask the Secretary of State for Health what the estimated price per procedure paid was to wave 1 independent sector treatment centres in *(a)* 2003–04 and *(b)* 2004–05; and what the NHS tariff was for each procedure offered by such centres in each year. [29780]

Mr. Byrne: The price per procedure paid to wave 1 independent sector treatment centres is commercially confidential.

National health service tariff data for 2003–04 and 2004–05 is available on the Department's website at:

www.dh.gov.uk/PolicyAndGuidance/OrganisationPolicy/FinanceAndPlanning/NHSFinancialReforms/NHSFinancialReformsArticle/fs/en?CONTENT_ID=4065325&chk=qI6yXO

and at

www.dh.gov.uk/assetRoot/04/09/15/31/040491531.pdf.

However, the data are not comparable with independent sector contracts as they have to cover a range of costs, which are not applicable to the NHS. NHS equivalent cost, which does take into account the

range of additional costs incurred by independent sector providers, is used to provide a direct comparison between the services procured from the independent sector and the NHS. Details of equivalent cost by procedure cannot be disclosed as it would undermine future commercial negotiations. However, the overall cost for wave 1 schemes in 2003–04 and 2004–05 was less than the NHS equivalent.

Helen Jones: To ask the Secretary of State for Health how many operations have been contracted for at each independent treatment centre; of what type; and how many operations each centre has carried out. [21494]

Mr. Byrne: The information requested is shown in the table.

Scheme	*Casemix*	*Interim/full service commencement date*	*Contract end date*	*Total FFCEs*[1]	*Activity to October 2005*	
					Procedures	*Diagnostics*
Ophthalmic Chain	Ophthalmology	1 February 2004	25 January 2009	44,737	18,389	—

[1] FFCEs—A first finished consultant episode is a first period of in-patient care under one consultant within one health care provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Infant Readmissions (Norfolk)

Mr. Bacon: To ask the Secretary of State for Health how many babies from the Southern Norfolk primary care trust area were re-admitted to the Norfolk and Norwich University hospital with feeding problems in each month since January 2001. [38274]

Ms Rosie Winterton: The information requested is not held centrally by the Department.

Influenza

Mr. Ian Austin: To ask the Secretary of State for Health what assessment she has made of the use of common blood-pressure drugs in tackling outbreaks of influenza. [15379]

Caroline Flint: The treatment of raised blood pressure is not related to the treatment for influenza. There is no logical basis for investigating the effect of blood pressure treatments on influenza.

Michael Fabricant: To ask the Secretary of State for Health what percentage of the population of *(a)* Staffordshire and *(b)* the West Midlands can be inoculated against influenza and other viral infections with retro-virus from existing stocks should there be a health emergency; and if she will make a statement. [20879]

Caroline Flint: There is currently sufficient annual influenza vaccine to protect all at risk groups throughout the United Kingdom. In the event of the emergence of a novel influenza or other viral strain representing a significant health risk to humans, any decisions on immunisation would depend on subsequent vaccine development and availability.

Steve Webb: To ask the Secretary of State for Health whether her Department's modelling for the number of extra patients in each primary care trust during an influenza pandemic includes an estimate of the number of people presenting in primary care who fear they may have the virus but do not. [22117]

Ms. Rosie Winterton: Modelling undertaken by the Department and published in the UK influenza pandemic contingency plan looked at the demand for healthcare contacts assuming similar numbers to those with clinical symptoms will require some contact with the health care system. However, the plan also acknowledges the uncertainty surrounding these figures, as we cannot know for definite how many people will fall ill with influenza in a pandemic, as it will depend on the nature of the virus.

We have published operational guidance and a framework for antiviral distribution to help national health service organisations develop plans appropriate for their area. We are working to ensure that the patients who become ill with pandemic flu are given the treatment they need. We are developing plans to deliver this treatment with minimum disruption to normal primary care. We know that primary care will be under pressure from patients who are concerned that they or their families may become infected with pandemic influenza.

The Department's communications plan has been published as annex 1 of the UK influenza pandemic contingency plan, which is available on the Department's website at www.dh.gov.uk/pandemicflu. The primary aim of the communications plan is to convey accurate, timely and consistent advice to the public and health professionals, and to aid understanding of the pandemic amongst the general population.

If pandemic flu reaches the United Kingdom, there will be an announcement in the newspapers and on the radio and television. Advice will be given on the best course of action to take in order to minimise unnecessary healthcare contacts.

Steve Webb: To ask the Secretary of State for Health what assessment she has made of the risk of excess deaths from seasonal influenza if, in the event of an influenza pandemic, manufacturers switch from seasonal influenza vaccine production to the production of a pandemic vaccine. [22120]

Caroline Flint: Any switch from the production of seasonal flu vaccine to the production of pandemic flu vaccine will be carefully assessed to ensure that this will provide the public with the best protection from flu. It is not possible to make an assessment of any impact this may have on excess deaths resulting from seasonal flu as we do not know at what time of the year pandemic flu will start to circulate and whether seasonal flu will be circulating at the same time.

Mr. Holloway: To ask the Secretary of State for Health what steps she is taking to ensure that the supply of influenza vaccinations in England will be adequate to meet demand during the winter. [33708]

Caroline Flint: The Department wrote to general practitioners (GPs) on 23 November to find out what their needs were, to check that enough stocks were left to meet the needs of any remaining flu clinics, and to identify whether any surgeries are holding surplus stocks of vaccine. Primary care trust flu immunisation co-ordinators have already been requested to work with surgeries to redistribute any surplus stocks, where possible. The Department has also ordered an additional 800,000 doses of vaccine for distribution to any GPs that run out. These additional stocks will arrive in January 2006.

Mr. Lansley: To ask the Secretary of State for Health for what reasons manufacture of the winter influenza vaccine has been delayed. [18373]

Caroline Flint: Some suppliers delayed delivery of their flu vaccine due to problems with part of the manufacturing process.

Dr. Cable: To ask the Secretary of State for Health how much has been spent on advertising the winter influenza vaccine in each of the last five years for which figures are available. [29809]

Caroline Flint: The information requested is shown in the table.

Spend on publishing and advertising the winter flu programme, 2000–01 to 2004–05

	£ million
2000–01	4.31
2001–02	1.45
2002–03	2.4
2003–04	1.95
2004–05	1.91

Dr. Cable: To ask the Secretary of State for Health whether she has been informed that any primary care trust has a shortage of influenza vaccines. [29810]

Caroline Flint: We wrote to all primary care trust flu co-ordinators on 3 November with details of how to order vaccine from centrally held Department of Health contingency stock should they need to.

Mr. Burstow: To ask the Secretary of State for Health (1) what assessment she has made of the merits of including people with mental health problems within the priority groups for influenza vaccination; [33232]

(2) for what reasons mental health patients are not included in the at-risk categories of those eligible to receive vaccinations for influenza. [32905]

Caroline Flint: The groups recommended to receive influenza vaccination are based on clinical risk. Individuals with mental health problems can have both physical or mental disabilities. Not all people with mental health problems will therefore be at an increased risk from influenza infection and those that are will likely fall within one of the existing clinical groups.

Mr. Lansley: To ask the Secretary of State for Health in what month her Department recommends that general practitioner practices place their order for winter influenza vaccine for seasonal influenza; and when her Department informed general practitioners that the seasonal influenza vaccination programme would be extended to cover *(a)* people with chronic liver disease and *(b)* people who are the main carer for an elderly or disabled person whose welfare would be at risk if the carer falls ill. [33265]

Caroline Flint: The Department does not recommend a specific date for general practitioners (GPs) to place their orders for seasonal flu vaccine. GPs contract individually with manufacturers to supply vaccine and they decide when to order their supplies.

The chief medical officer wrote to GPs on 25 July 2005 to inform them that the seasonal flu vaccination programme would be extended to cover people with chronic liver disease and people who are the main carer for an elderly or disabled person whose welfare would be at risk if the carer falls ill.

Steve Webb: To ask the Secretary of State for Health in what circumstances she would seek to impose restrictions on movement of people in order to reduce the risk of spread of pandemic influenza from human to human. [37988]

Ms Rosie Winterton: Travel restrictions are one of the options that may be considered to try to reduce the spread of pandemic influenza, particularly during the initial stages. Any decision will be based on evidence of the possible impact and will be informed by emerging information about the nature of the virus and the at-risk groups.

Rosie Cooper: To ask the Secretary of State for Health what estimate she has made of the number of people in *(a)* West Lancashire constituency, *(b)* Lancashire and *(c)* England who have requested an influenza vaccination this winter but have not yet received one. [38543]

Caroline Flint: The information requested is not collected centrally.

Rosie Cooper: To ask the Secretary of State for Health what proportion of the at-risk population of *(a)* the West Lancashire primary care trust area, *(b)* Lancashire and *(c)* England is expected to be inoculated against existing strains of influenza by 31 December. [38672]

Caroline Flint: Information on seasonal flu uptake by primary care trust will not be available until February 2006.

Based on provisional data from England, it is likely that seasonal flu uptake will increase in those aged 65 years and over, and in other risk groups when compared. The Department will have further information on this in the next year.

Lynne Featherstone: To ask the Secretary of State for Health what estimate she has made of the number of people in at-risk groups who have been unable to obtain a seasonal influenza vaccination in each London borough; and if she will make a statement. [39195]

Caroline Flint: The information requested is not collected centrally.

Information Technology

Gregory Barker: To ask the Secretary of State for Health how much money has been spent on information technology systems in the NHS in each year since 1997; and if she will make a statement. [27219]

Mr. Byrne *[holding answer 10 November 2005]*: I refer the hon. Member to the reply I gave on Monday 5 December 2005, *Official Report*, column 1063–64W.

Isabel Healthcare

Mr. Hunt: To ask the Secretary of State for Health whether her Department plans to meet representatives of Isabel Healthcare; and if she will make a statement. [31292]

Mr. Byrne: Departmental officials have met with representatives of Isabel Healthcare in the past, but there are no current plans for a further meeting.

Latex Allergy

Mr. Boswell: To ask the Secretary of State for Health what arrangements she has made to monitor response by NHS trusts to the National Patient Safety Organisation's recent information notice on latex allergy. [37254]

Jane Kennedy: The National Patient Safety Agency's (NPSA) patient safety information on protecting patients with an allergy associated with latex was issued to national health service trusts on 26 May 2005. As it built on existing guidance, this served as a reminder to NHS organisations to put in place policies regarding latex. The deadline for the completion of the recommended action is 27 January 2006.

The information was issued via the Department's safety alert broadcast system (SABS) which is a means of electronically issuing nationally endorsed safety guidance to the NHS.

There are a number of measures to monitor responses by NHS trusts to the National Patient Safety Organisation's recent information notice on latex allergy. These include the following:

SABS will receive feedback from relevant trusts on their compliance with the action required.

The NPSA intend will be undertaking an e-mail sample survey in May 2006.

The Healthcare Commission will be reviewing and assessing NHS organisations against core standard C1 which requires them to ensure that patient safety notices, alerts and other communications concerning patient safety which require action are acted upon within required timescales. Trusts are required to submit self-declarations on performance against this standard (and other core standards) in April 2006.

Leicestershire Acute Hospital Trust

Miss Kirkbride: To ask the Secretary of State for Health (1) what the average length of stay is for patients in *(a)* acute trusts and *(b)* Leicestershire Acute Hospital Trust; and what the upper quartile length of stay is for all trusts; [31711]

(2) if she will list the acute hospital trusts which achieved upper quartile performance on patient stays across *(a)* all specialties, *(b)* all sites and *(c)* all specialties and all sites in 2004–05. [31890]

Mr. Byrne: The average length of stay for all acute trusts and University Hospitals of Leicester national health service trust is shown in the table.

Trust	*Average (mean) length of stay*
All acute trusts (England)	5.6 days
University Hospitals of Leicester NHS Trust	5 days

Source:
Hospital Episode Statistics, Health and Social Care Information Centre 2003–04: Figures have not been adjusted for shortfalls in data; that is, the data is ungrossed.

Data are only available by trust, not hospital site. There are 64 main specialty groupings and no trust is in the upper quartile of all trusts for length of stay in all specialties. About 96 per cent. of trusts have at least one speciality in the upper quartile for that speciality.

Management and Administration Savings

Mr. Lansley: To ask the Secretary of State for Health how much each strategic health authority will be required to save in order to achieve her target of £250 million savings in management and administration; over what time these savings will need to be achieved to meet her target; and if she will make a statement. [31014]

Mr. Byrne: The target £250 million savings in national health service management and administration costs represents a real recurrent reduction in the cost of management and administration, the savings from which are to be re-invested in patient services recurrently from 2008–09.

The target £250 million savings will be distributed on a fair share basis across strategic health authorities (SHAs). It is for each SHA to determine a methodology for distributing their target saving between the SHA and the primary care trusts in its area. A fair share approach for distribution to SHAs has the advantages of simplicity and it ensures that re-distribution of savings to clinical services will be spread evenly across the country. The distribution of savings required is shown in the table.

Strategic health authority	*Percentage share*	*£ millions*
Avon, Gloucester and Wiltshire	4.0	10
Bedfordshire and Hertfordshire	2.9	7
Birmingham and the Black Country	4.9	12
Cheshire and Merseyside	5.2	13
County Durham and Tees Valley	2.5	6
Cumbria and Lancashire	4.0	10
Dorset and Somerset	2.3	6
Essex	3.0	7
Greater Manchester	5.6	14
Hampshire and the Isle of Wight	3.3	8
Kent and Medway	3.0	8
Leicester, Northampton and Rutland	2.7	7
Norfolk, Suffolk and Cambridge	4.0	10
North Central London	2.9	7
North East London	3.6	9
North Yorkshire and Lincolnshire	3.1	8
North West London	4.2	10
Northumberland, Tyne and Wear	3.1	8
Shropshire and Staffordshire	2.8	7
South East London	3.5	9
South West London	2.7	7
South West Peninsula	3.1	8
South Yorkshire	2.8	7
Surrey and Sussex	5.0	13
Thames Valley	3.7	9
Trent	5.1	13
West Midlands South	2.8	7
West Yorkshire	4.3	11
Total	100.0	250

Marijuana

Julia Goldsworthy: To ask the Secretary of State for Health what her policy is on the medical use of marijuana in the NHS. [22098]

Caroline Flint: The Government have made it clear it would be willing to legalise the scientifically established medicinal use of a medical preparation of cannabis, and would seek Parliament's agreement to make any necessary changes to the law to enable the prescription of cannabis-based medicine for the purposes of relieving pain. However, this could not take place before the granting of product approval from the Medicines and Healthcare products Regulatory Agency (MHRA).

The cannabis-based medicine Sativex has recently been granted a marketing authorisation in Canada where it has been licensed for the relief of neuropathic pain in multiple sclerosis under the terms of a conditional licence. Home Office Ministers have recently made clear that imports from Canada of Sativex will be allowed under licence issued by the Home Office.

Media Monitoring

Steve Webb: To ask the Secretary of State for Health if she will make a statement on her Department's policy on the use of broadcast and print media analysis. [36976]

Jane Kennedy: The Department commissions analysis of print media coverage to enables us to measure the impact of our communication activities and plan effective future activity. This is a standard part of best practice in communications in both the public and private sectors as it enables us to measure the impact of our communication activities and so helps us manage future activity more effectively.

In August 2005, the Department published summaries of its national and regional media evaluation and has promised to repeat this every six months as part of its wider commitment to freedom of information. The Department uses its analysis as above, including highlighting inaccuracies in health reporting that can be harmful to public health and sharing analysis with local national health service communication teams, who use it to benchmark the effectiveness of their own activities.

The Department does not, as yet, analyse broadcast media coverage in depth, although judgments are made based on past coverage about the best way to serve broadcast journalists covering health stories.

Medical Careers

Daniel Kawczynski: To ask the Secretary of State for Health what assessment she has made of the impact of the medical careers reforms on the ability of senior house officers to secure employment in the NHS. [22673]

Mr. Byrne: There is no intention to reduce the number of training posts for junior doctors as a result of the proposed modernising medical careers changes (MMC) to the structure of training programmes. MMC aims to improve patient care by delivering a modernised and focused career structure for doctors and a successful start was made with the introduction of foundation programmes in August 2005.

Medical Graduates

Lynne Jones: To ask the Secretary of State for Health if she will make a statement on the mechanisms for matching medical graduates to training slots in the NHS. [34854]

Mr. Byrne: The process for appointment to foundation programmes, the first posts undertaken by medical graduates, is available on the modernising medical careers website at www.mmc.nhs.uk.

Mental Health

Mr. David Jones: To ask the Secretary of State for Health what provision her Department has made for a 24-hour telephone support service for the mentally ill and their families. [31063]

Ms Rosie Winterton: In the statutory sector, NHS Direct provides a 24-hour, seven day a week telephone helpline service and its fully-trained staff respond to about 325,000 calls per year from people with mental health issues. NHS Direct works in close partnership with the member organisations of the Mental Health Helplines Partnership (MHHP).

The Department has committed funding of £5 million during the period 2004–05 to 2006–07 on developing an infrastructure to facilitate voluntary and community sector mental health helpline providers in England working in partnership in order to achieve increased quality, efficiency, capacity, governance, choice and access in relation to the provision of mental health helpline services. The MHHP includes the majority of the major national and local voluntary and community sector mental health telephone helpline providers (around 50 plus) excluding membership organisations. MHHP member organisations jointly handle over 5 million telephone calls or contacts per year. MHHP member organisations jointly respond to 99 per cent. of all calls made to mental health helplines.

The MHHP is currently in the procurement stage of purchasing a telecommunications solutions package that will enable MHHP members to work more efficiently in terms of call-switching between MHHP members and to work towards overall 24-hour provision of MHHP helpline services and, therefore, improve the overall level of service provision to people with mental health issues.

Tim Loughton: To ask the Secretary of State for Health (1) how many people, other than the organisers, attended each of the consultation events that formed part of the race equality impact assessment of the Mental Health Bill; and how many of these were black and minority ethnic service users; [36969]

(2) what assessment she has made of the extent to which the race equality impact assessment consultation on the Mental Health Bill satisfied Commission for Racial Equality guidance on the conduct of such assessments; [36970]

(3) whether she has extended the duration of the race equality impact assessment consultation on the draft Mental Health Bill. [36971]

Ms Rosie Winterton: We have consulted widely as part of the race equality impact assessment (REIA) on the Mental Health Bill in the past few months. Consultation events were held in Leeds, Birmingham and London in early November. Approximately 180 people attended these events, excluding organisers and speakers, and around a third of these were service users, mostly of a black and minority ethnic background (BME) background. Other attendees included BME carers, mental health professionals and voluntary organisations representing BME service users and carers.

Other consultations included:

establishing an advisory group of stakeholders and experts in the field, which has provided its own recommendations, based on existing consultation material on the Bill, and on the basis of a workshop with stakeholders that was held in July;

interviews and focus groups with detained patients, of which around 80 per cent, were BME patients, conducted on behalf of the Department by the Mental Health Act Commission;

written submissions from the Mental Health Act Commission's service user panel, which included BME and non-BME patients;

a written consultation with professional groups who will be operating the Bill; and

a web-based opportunity for people to submit their own comments and views on the issues that have arisen out of earlier consultation.

We have also taken account of the views expressed in previous consultation on the Bill, including evidence submitted to the pre-legislative scrutiny committee.

We have, however, listened to stakeholders' views and agreed that there should be further consultation as part of the REIA on the Bill. We will be discussing with stakeholders what further consultation should be undertaken.

The process we have followed in undertaking the REIA has had close regard to the Commission for Racial Equality's (CRE's) guidance. Officials and CRE staff met early in the process to discuss the guidance. We have also seconded, part-time, a former CRE employee who is familiar with the REIA guidance to work on the REIA, and we have also involved the Home Office race equality unit, which has the lead across Whitehall for REIA work. We will continue to take the CRE guidance into account in any further work on the REIA and we are confident that the REIA which we publish alongside the Bill, when this is introduced, will satisfy the guidance.

Mr. Sheerman: To ask the Secretary of State for Health how many children and young adults suffered from depression in each of the last five years. [37105]

Mr. Byrne: The information is not available in the form requested.

In 2004, it was estimated that 2.4 per cent. of five to 10-year-olds and five per cent. of 11 to 16-year-olds had an emotional disorder. Emotional disorders in this context include depression, generalised anxiety, social and other phobias, and separation anxiety.

Source:
Mental health of children and young people in Great Britain 2004, Office of National Statistics, 2005, www.statistics.gov.uk.

Mr. Sheerman: To ask the Secretary of State for Health what steps the Department has taken to identify depression in children and young adults. [37106]

Mr. Byrne: The Department submitted a proposal to the National Institute for Health and Clinical Excellence (NICE) to develop guidelines on the identification and treatment of depression in children and young people. These guidelines were published by NICE in September 2005 and include advice on detection and recognition of depression. The document, Depression in children and young people is available on NICE'S website at www.nice.org.uk.

Mr. Sheerman: To ask the Secretary of State for Health what services are available to families with children who suffer from depression. [37107]

Mr. Byrne: Child and adolescent mental health services are available in all areas nationally and will routinely treat children with depression and provide support to their families.

Tim Loughton: To ask the Secretary of State for Health when she expects to be in a position to present the Mental Health Bill to Parliament. [28048]

Ms Rosie Winterton: I refer the hon. Member to the reply I gave to my hon. Friend the Member for North-West Leicestershire (David Taylor) on 21 October 2005, *Official Report*, columns 1286–87W.

Mr. Hancock: To ask the Secretary of State for Health what the timetable is for publication of the findings of the Mental Health Bill Race Equality Consultation; and if she will make a statement. [30911]

Ms Rosie Winterton: The race equality impact assessment (REIA) on the Mental Health Bill will incorporate the issues that arise out of consultation, and set out the plans to mitigate any concerns about the potential for adverse impact. We will publish the REIA alongside the Bill when it is introduced.

Mr. Hoyle: To ask the Secretary of State for Health what funding was allocated in *(a)* Chorley and *(b)* Lancashire for mental health services in each of the last three years. [37797]

Mr. Byrne: The information requested is not held centrally. Allocations are made direct to primary care trusts who are responsible for commissioning services to meet the needs of their local populations.

Methadone

Mr. Oaten: To ask the Secretary of State for Health what guidelines she has issued on the prescription of methadone in prisons; and if she will make a statement. [37324]

Ms Rosie Winterton: Prison Service Order 3550, "Clinical Services for Substance Misusers" includes the provision that prisons will have evidence-based guidelines on maintenance prescribing, including methadone prescribing, in line with departmental guidelines.

Minimally-invasive Technologies

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to encourage the use of

minimally-invasive technologies in the NHS, with particular reference to *(a)* the training of staff in the use of such technologies and *(b)* building incentives into the system of payment by results. [27545]

Mr. Byrne: The Department recognises that the use of minimally-invasive technologies can be effective in improving outcomes for patients, including through reduced length of time in hospital and reduced pain and scarring after surgery.

Setting curricula for health professional training is the responsibility of the statutory and professional bodies. The Department shares their commitment to ensure that all health professionals are trained to have the skills and knowledge they need to deliver high-quality health care to the population. This would include training in the use of minimally-invasive technologies.

Post-registration training needs for national health service staff are determined against local NHS priorities, through appraisal processes and training needs analyses informed by local delivery plans and the needs of the service. Local authorities and health service providers decide how best to provide services to meet the needs of individuals.

The Royal College of Surgeons has started a programme of work to train clinicians in minimally-invasive surgical techniques and are currently in discussions with the Department to examine the options.

The current payment by results programme takes account of the impact of the National Institute for Health and Clinical Excellence (NICE) technology appraisals when calculating an uplift on average reference costs for the national tariff. For example, the 2004–05 tariff included an uplift for the costs of implementing a NICE appraisal of drug eluting stents, which was published in October 2003. The combination of incentives under payment by results and patient choice will reward providers that attract people by responding to their needs and preferences.

Minor Illness Injury Units

Mr. Laurence Robertson: To ask the Secretary of State for Health whether patient group directions cover practices in minor illness injury units; and if she will make a statement. [38504]

Jane Kennedy *[holding answer 19 December 2005]:* Patient group directions can be used in any national health service service, including minor injury units.

Patient group directions may be used to supply and administer medicines to patients by certain registered health care professionals, for example, nurses, pharmacists or ambulance paramedics. They may be used in the NHS including those services which are funded by the NHS but provided by the private, voluntary or charitable sectors. They may also be used by independent hospitals, agencies and clinics registered under the Care Standards Act, prison health services, police services and the defence medical services.

Necrotising Fasciitis

Mr. Amess: To ask the Secretary of State for Health how many people in *(a)* Southend, *(b)* Essex, *(c)* Hertfordshire, *(d)* Greater London and *(e)* England have (i) contracted and (ii) died of necrotising fasciitis in each of the last 10 years. [34293]

Ms Rosie Winterton: I refer the hon. Member to the answer the Under-Secretary with responsibility for community care, my hon. Friend the Member for Birmingham, Hodge Hill (Mr. Byrne) gave the hon. Member for Ribble Valley (Mr. Evans) on 6 December 2005, *Official Report*, columns 1230–31W.

NHS Bursaries

Daniel Kawczynski: To ask the Secretary of State for Health what steps she is taking to reduce the amount of time student nurses wait for their NHS bursaries. [35430]

Mr. Byrne: I refer the hon. Member to the reply I gave on 6 December 2005, *Official Report*, column 1233W to the hon. Member for Billericay (Mr. Baron).

Tim Farron: To ask the Secretary of State for Health for what reasons eligible students who apply for NHS bursaries in advance do not receive their bursaries before their courses start. [38473]

Mr. Byrne *[holding answer 19 December 2005]:* The NHS Student Grants Unit does not release any funds to students until universities have confirmed that students have turned up on the first day of their course, in order to avoid fraudulent claims.

NHS Commissioning

Mr. Andrew Smith: To ask the Secretary of State for Health what the basis of payment to the provider of management services to a primary care trust will be under the reforms proposed by Commissioning a Patient-led NHS where that provider is *(a)* an NHS team, *(b)* a voluntary sector body and *(c)* a private sector body. [18721]

Mr. Byrne *[holding answer 17 October 2005]:* As part of the proposals for primary care trust (PCT) reconfiguration, one strategic health authority (SHA) proposed to procure an external management team to run one of their newly proposed PCTs. However, this proposal will not be considered during the forthcoming local consultation as it is for the new PCTs, not the current SHAs, to decide how best to manage their responsibilities after reconfiguration.

In the event of a PCT in future wishing to outsource some aspect of their management services they would need to use recognised contracting processes and ensure proper value for money irrespective of the source of those services. They would not be able to outsource or delegate the public accountability for the financial responsibility placed on them as a statutory body.

Mr. Gordon Prentice: To ask the Secretary of State for Health what discussions she has had with Mr. Roy Lilley on opportunities for the independent and voluntary sector arising from the proposals set out in Sir Nigel Crisp's paper on commissioning a patient-led NHS. [19150]

Mr. Byrne: My right hon. Friend the Secretary of State has had no discussions with Mr. Roy Lilley on this issue.

NHS Direct

Clive Efford: To ask the Secretary of State for Health what discussions she has had with representatives of NHS Direct staff on regrading of staff due to restructuring of the service. [31650]

Mr. Byrne: The Department has had no such discussions with representatives of NHS Direct staff. NHS Direct special health authority is responsible for staffing matters and will be able to provide information on their consultative process with staff.

Mr. Andrew Smith: To ask the Secretary of State for Health how many people have used NHS Direct in each year since its introduction, broken down by region. [36868]

Mr. Byrne: Information is not collected centrally on the number of people who have used NHS Direct in each region.

Information from 1998–99 onwards on the number of calls received nationally and the number of visits to NHS Direct Online are available in the statistical supplement to the chief executive's report to the national health service, which is available at www.dh.gov.uk.

NHS Finance

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of whether there is a correlation between NHS organisations' deficits and the number of agency staff they employ. [36348]

Mr. Byrne: We do analyse agency spend and deficits, but deficits are usually due to poor performance across a range of areas leading to inefficiency rather than one single factor.

Mr. Lansley: To ask the Secretary of State for Health how the NHS net financial deficit in 2004–05 was financed, broken down by area of her Department's activity from which funds were diverted to meet that deficit. [36427]

Mr. Byrne: The NHS Litigation Authority declared reductions to provisions for clinical negligence during 2004–05. These central savings were used to offset the national health service deficit.

Mr. Lansley: To ask the Secretary of State for Health what the level of NHS income from charges was in 2004–05; and how much was accounted for by income from *(a)* fees and charges from health authorities, *(b)* fees and charges from district health authorities, *(c)* road traffic accident income, *(d)* fees and charges from NHS trusts, *(e)* NHS Supplies Authority fees, *(f)* dental charges, *(g)* prescription charges, *(h)* nursing home inspection fees, *(i)* subsidised dried milk, *(j)* Medicines Control Agency licences and inspections, *(k)* youth treatment service income, *(l)* NHS Pension Agency fees, *(m)* Medical Devices Agency fees, *(n)* Human Fertilisation and Embryology Authority licence fees, *(o)* English National Board for Nursing registration fees and *(p)* other charges. [36431]

Mr. Byrne: National health service income figures from fees and charges are shown in the table. The table includes fees and charges to bodies outside the NHS, charges to private and overseas patients and charges to NHS patients.

The only charges to NHS patients are those for dental and prescription charges.

Breakdown of NHS income from charges by charge type 2004–05

Charges	*£ million*
(a) Strategic health authority—fees and charges	33.7
(b) District health authorities	[1]—
(c) Road traffic accident income	110.3
(d) NHS trusts—fees and charges	669.4
(e) NHS Logistics fees	1.0
(f) Dental charges	451.8
(g) Prescription charges	424.6
(h) Nursing home inspection fees	—
(i) Subsidised dried milk	—
(j) Medicines Control Agency—licences and inspections	[1]—
(k) Youth treatment service income	[1]—
(l) NHS Pensions Agency fees	0.6
(m) Medical Devices Agency fees	[1]—
(n) Human Fertilisation and Embryology Authority—licence fees	4.1
(o) English National Board for Nursing—registration fees	[1]—
(p) Other	316.1
Total	2,011.6

[1] Organisations no longer exist.

(a) Health authorities became strategic health authorities in 2002–03. Figures include fees and charges for primary care trusts.

(e) Previously the NHS Supplies Authority.

(h) From April 2002, the National Care Standards Commission regulated nursing homes. Health authorities no longer collect the fee income.

(i) Not collected after 2002–03 (following a review with the NAO to eliminate non-material items).

(p) Information relating to charges for private patients and overseas visitors has been provided for NHS trusts and primary care trusts.

Source:

Information on fees and charges has been provided from the audited accounts of the relevant NHS bodies.

NHS Reconfiguration

Mr. Lansley: To ask the Secretary of State for Health what estimate she has made of the total cost of structural reorganisations to primary care trusts and strategic health authorities as set out in her Department's letter of 28 July on commissioning a patient-led NHS. [36344]

Mr. Byrne: Ministers have given the go-ahead for all 28 strategic health authorities (SHAs) to begin local consultations on boundary changes to SHAs and primary care trusts. Consultations started on 14 December for a period of 14 weeks (until 22 March). No decisions on boundary changes will be taken until these local consultations have been completed and their outcomes considered by Secretary of State. Once boundary changes are agreed and new organisational structures determined, the cost of the structural reorganisation can be calculated.

NHS Settlement

Mike Penning: To ask the Secretary of State for Health how much of the £6.1 billion increase in

Total NHS Settlement for 2004–05 was spent on *(a)* additional or increased salaries, *(b)* employers national insurance contributions and *(c)* additional pension contributions and costs; and if she will make a statement. [24726]

Mr. Byrne: The information requested is shown in the table. We cannot determine what proportion of the £6.1 billion was spent on additional pension scheme contributions and costs. From 2003–04 to 2004–05, employer pension scheme contributions rose from £3.588 billion to £3.890 billion, subject to audit.

Staff costs expenditure, by English strategic health authorities, primary care trusts and NHS trusts

£000

	2003–04	2004–05	Increase
Salaries and wages	25,432,668	25,501,898	69,230
Social security costs	1,794,765	1,868,389	73,624
Pension costs	1,359,634	2,721,225	1,361,591
Total staff costs	28,587,067	30,091,512	1,504,445

Notes:

1. Figures for NHS foundation trusts are not included in 2004–05 as the Department does not collect data from foundation trusts.

2. Salaries and wages: this is the total gross pay of all full and part-time employees. Social security costs: this is the total employer's national insurance contributions net of statutory maternity pay deductions. Pension costs: this is the employer's pension scheme contributions.

Audited summarisation schedules of the primary care trusts 2003–04 and 2004–05

Audited summarisation forms of the strategic health authorities 2003–04 and 2004–05

Mike Penning: To ask the Secretary of State for Health (1) if she will break down the NHS Settlement for 2005–06 allocated to centrally funded initiatives by main budget heading; and if she will make a statement; [24727]

(2) if she will break down the NHS Settlement for 2005–06 allocated to other programmes (including DH Admin) by main budget heading; and if she will make a statement. [24729]

Mr. Byrne: The information requested is shown in the table.

Disposition of programme funds 2005–06	£ millions
Revenue	
Centrally funded initiatives services and special allocations	12,518
Personal social services—centrally financed services	259
Personal social services—grants	1,892
Central health and miscellaneous services	1,135
Family health services non discretionary	1,660
Department of Health administration	249
Total	17,713
Capital	
National Health Service programme capital	1,989
Centrally funded capital allocations and spending 2005–06	2,314
Central health and miscellaneous services	11
Personal social services—centrally financed services	3
Personal social services—grants	51
Total	4,368

NHS Staff

Mike Penning: To ask the Secretary of State for Health how many *(a)* nurses, *(b)* general practitioners, *(c)* surgeons, *(d)* ward support staff and *(e)* administrative staff were employed in the NHS in each year since 19[illegible]: what the total share of the budget attributed to each was in each year; and what the projected figures are for 2006. [32190]

Mr. Byrne: The information requested on staff numbers is shown in the tables.

National health service staff in England by each specified staff group as at 30 September each specified year

headcount

	1997	1998	1999	2000	2001	2002	2003	2004
All medical staff within the surgical group of specialties	13,394	13,786	14,189	14,594	15,267	16,035	16,892	18,290
of which:								
Consultants	4,094	4,186	4,431	4,640	4,893	5,088	5,389	5,754
All general medical practitioners (excluding retainers)[1,2]	29,389	29,697	29,987	30,252	30,685	31,182	32,593	34,085
Total qualified nursing staff	318,856	323,457	329,637	335,952	350,381	367,520	386,359	397,515
Qualified nursing, midwifery and health visiting staff	300,467	304,563	310,142	316,752	330,535	346,537	364,692	375,371
General practitioner practice nurses[2,3]	18,389	18,894	19,495	19,200	19,846	20,983	21,667	22,144
Support to clinical staff	283,871	289,363	296,619	307,225	325,890	344,524	360,666	368,285
Healthcare assistants and support staff	181,049	184,480	189,085	194,000	204,925	210,462	221,904	223,526
Other support to clinical staff	23,772	23,466	23,709	24,847	26,691	33,151	29,755	30,086
Administrative support to clinical staff[4]	79,050	81,417	83,825	88,378	94,274	100,911	109,007	114,673
Administrative staff	92,820	93,772	98,283	102,884	108,863	118,000	127,578	137,557
Central functions	70,647	71,079	73,996	77,628	81,439	85,706	92,257	99,831
Manager and senior manager	22,173	22,593	24,287	25,256	27,424	32,294	35,321	37,726

[1] General medical practitioners, excluding retainers, includes contracted GPs, general medical service (GMS) others, personal medical service (PMS) others and GP registrars. Prior to September 2004 this group included GMS unrestricted principals, PMS contracted GPs, PMS salaried GPs, restricted principals, assistants, GP registrars, salaried doctors (Para 52 SFA), PMS other, flexible career Scheme GPs and GP returners.

[2] Data as at 1 October 1997–99 and 30 September 2000–04.

[3] Headcount practice nurse figures are estimated for 1998 and 1999 based on the 1997 full-time equivalent to headcount ratio.

[4] Administrative support to clinical staff are administrative staff who work closely with clinical staff. They are staff such as medical secretaries, patient services staff and ambulance control staff.

Information on expenditure cannot be provided in the format requested. The percentage of total NHS expenditure in England between 1997–98 and 2004–05 for the categories of staff available is shown in the table. Figures for 2004–05 remain provisional and expenditure by NHS foundation trusts cannot be included; hence the decreases shown.

Total (England) expenditure by staff categories, shown as a percentage of total NHS expenditure[1,2]

Percentage	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05
Nursing midwifery and health visiting staff	19.1	19.1	19.1	19.0	19.1	18.9	17.3	16.1
Medical staff	8.5	8.8	8.9	9.2	9.4	9.8	10.1	9.5
Healthcare assistants and other support staff	2.8	2.7	2.6	2.5	2.4	2.3	2.1	1.9
Administration and estates staff	8.6	8.5	8.4	8.4	8.5	8.7	8.3	8.3
General practitioners	7.8	7.6	8.4	8.3	7.8	7.5	7.3	8.5

[1] Data used is in each case the combined expenditure of NHS trusts, health authorities/strategic health authorities, and primary care trusts, where applicable.
[2] All staff expenditure data, other than for general practitioners, relates to both NHS and non-NHS staff.

Annual financial returns of the strategic health authorities 2002–03 to 2004–05.
Annual financial returns of the primary care trusts 2000–01 to 2004–05.
Annual financial returns of the NHS trusts 1997–98 to 2004–05.

Future projections depend on the recommendations of pay review bodies which have yet to be made.

Mike Penning: To ask the Secretary of State for Health what the average income from the NHS of *(a)* a general practitioner, *(b)* a junior doctor and *(c)* a nurse was in each year since 1997. [33739]

Mr. Hayes: To ask the Secretary of State for Health what the average income from the NHS was for a *(a)* general practitioner, *(b)* dentist, *(c)* junior doctor and *(d)* nurse in each year since 1997. [34360]

Mr. Byrne: Figures based on information for general practitioners (GPs) in Great Britain are shown in table 1.

Table 1: Average income of GPs 1996–97 to 2003–04

Financial year	Intended average net remuneration (IANR) (£)
1996–97	44,483
1997–98	46,031
1998–99	48,037
1999–2000	52,606
2000–01	54,219
2001–02	56,510
2002–03	61,618
2003–04[1]	67,040

[1] The IANR equivalent figure for 2003–04 is a forecast agreed by the technical steering committee (TSC), which is a United Kingdom wide committee incorporating representatives from all UK health departments, the NHS Confederation and the British Medical Association.

The estimated average annual net incomes, between 1997–98 and 2004–05, of general dental service (GDS) dentists with a reasonable commitment to the GDS are shown in table 2.

Table 2: Estimated average GDS net income for dentists with a reasonable GDS commitment[1], *1997–98 to 2004–05, England and Wales*

Financial year	Estimated average net income (£)
1997–98	51,200
1998–99	54,300
1999–2000	55,700
2000–01[2]	[3]59,200
2001–02	60,500
2002–03	63,300
2003–04	66,700
2004–05	70,000

[1] Dentists with a reasonable commitment to the GDS are defined as dentists with GDS earnings equivalent to at least £40,000 in 1993–94 in fees for treatments and patient capitation. This equivalent is calculated each year by adjusting figures to take into account the effect of fee increases. The equivalent figure for 2004–05 is £59,100.
[2] Commitment payments started in 2001.
[3] Figures since 2000–01 use a different methodology to calculate the contribution from other non-fee/capitation payments.
Source:
Department of Health and Health and Social Care Information Centre analysis of Dental Practice Board payments and HMRC tax data.

Figures for junior doctors and nurses are available from 1998 to 2004 as these are the years when the NHS Staff Earnings survey was undertaken.

Average estimated total earnings for doctors in training and their equivalents and qualified nurses and midwives—England

£

	Estimated annualised average total earnings	
	Doctors in training and their equivalents	Qualified nurses and midwives
1998	31,200	19,600
1999	33,600	21,400
2000	35,000	22,600
2002	44,100	24,500
2004	47,900	26,400

Notes:
1. The NHS Earnings Survey is based on a sample of payroll data from approximately 50 per cent. of NHS trusts.
2. Averages are calculated by dividing total payments by total full time equivalents.

3. Figures are rounded to the nearest £100.
4. Doctors in training and their equivalents. This staff group includes house officers, senior house officers and the registrar group. This staff group contains a number of staff who while working at this level do not hold educationally approved training posts.

Department of Health's August NHS Staff Earnings Survey (1998 to 2002) and NHS Health and Social Care Information Centre August 2004 NHS Staff Earnings survey.

NHS Trusts

Rosie Cooper: To ask the Secretary of State for Health (1) how many NHS trusts she expects not to be able to become foundation trusts by 2008; [37312]

(2) what future she envisages for trusts who are not foundation hospitals by 2008. [37313]

Mr. Byrne: We have made a commitment that all national health service trusts should be in a position to apply for national health service foundation trust (NHSFT) status by 2008. To assist in that process we are rolling out a national programme to assess the readiness of all acute trusts for NHSFT status, in the context of their wider health communities. This whole health community diagnostic project will see trusts developing action plans with their strategic health authorities which set out any challenges or performance issues they need to overcome to become authorised as an NHSFT, as well as an indication of when trusts might be ready to apply for foundation status. The project will be completed by summer 2006.

Julia Goldsworthy: To ask the Secretary of State for Health if she will list the NHS trusts where in 2005 her Department has had to intervene in the financial management. [29970]

Mr. Byrne *[holding answer 21 November 2005]:* Following the recommendation of the Healthcare Commission, the Secretary of State placed two organisations on special measures (Mid Yorkshire Hospitals National Health Service Trust and North West London Hospitals NHS Trust). The Department works with these trusts, the strategic health authorities (SHAs) and the primary care trusts to improve performance. The recommendations of the Healthcare Commission include both service quality improvements and delivering financial balance.

It is the responsibility of SHAs to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance. The Department works with SHAs to support them in this task. As part of this support, I have recently announced the formation of finance turnaround teams. These teams will be initially working with 63 NHS organisations. The teams will work with the chief executives of the organisations in delivering the key targets and financial stability. The chief executives will remain responsible for delivery in their organisations.

Mr. Jim Cunningham: To ask the Secretary of State for Health how her Department ensures that quality of service is not affected when NHS trusts face monetary shortfalls. [38162]

Mr. Byrne *[holding answer 20 December 2005]:* All national health service organisations have minimum standards of quality they must deliver, including meeting the targets for maximum waiting times. These are dramatically better than the standards of the NHS in the past and there can be no trade-off between these quality standards and removing deficits. All areas of the country have seen dramatic improvements in services, and all areas of the country will continue to see improvements as additional investment is made. Progress in a particular hospital or service has to be achieved within what is affordable, otherwise the local NHS would be spending other people's money to deliver an improved service which would be unfair to the other parts of the country.

NHS-funded Operations

Mr. Truswell: To ask the Secretary of State for Health how many NHS-funded operations have taken place in *(a)* NHS and *(b)* private health sector establishments in each of the last five years for which figures are available. [18914]

Mr. Byrne: Data on national health service funded operative procedures in different settings are published in the "Chief Executive's Report to the NHS, Statistical Supplement—December 2005".

Data on the number of first finished consultant episodes (FFCEs) which have taken place in centrally procured independent sector treatment centre (ISTC) schemes for the years 2003–04 and 2004–05 are shown in the table.

	ISTC FFCEs
2003–04	3,663
2004–05	67,928

Source:
Department of Health

Nurses

David T.C. Davies: To ask the Secretary of State for Health how many nurses currently on extended sick leave are within *(a)* six months, *(b)* one year, *(c)* 18 months and *(d)* two years of the official retirement age. [36904]

Mr. Byrne: The information requested is not collected centrally.

Osteoporosis

Charlotte Atkins: To ask the Secretary of State for Health what steps her Department is taking to reduce the numbers of fractures due to osteoporosis in *(a)* women who have had previous fractures and *(b)* women with no previous fractures. [19397]

Mr. Byrne *[holding answer 31 October 2005]:* Osteoporosis can often be prevented by a healthy lifestyle including exercise and a balanced diet and, in people at particular risk, by drug therapy. Cases of established osteoporosis can be treated both to prevent further fractures and to improve an individual's quality of life. All treatment of osteoporosis can be regarded as secondary prevention. Much of this can be managed in primary care, even in cases of advanced disease.

The national service framework (NSF) for older people published in March 2001 required integrated falls services to be in place locally by April 2005. The NSF also provided a detailed description of what an integrated falls service should look like; the different elements and people required for integrated service planning and provision. In addition to this, to increase capacity in osteoporosis services in Dexa scanning for bone density as a guide to treatment, the Department has made £20 million available for investment in Dexa scanning services and equipment to build capacity. In 2005–06, £3 million has been allocated from a centrally held revenue budget for purchasing of additional scans, mainly from independent sector providers, in strategic health authorities where there are the most pressing shortfalls. Capital provision of £17 million has been made available in 2006–07 and 2007–08 to improve national health service capacity through investment in new Dexa scanning equipment.

Out-of-hours Services

Mr. Beith: To ask the Secretary of State for Health what discussions she has had with strategic health authorities about the funding of out-of-hours general practitioner services in rural areas. [36641]

Mr. Byrne *[holding answer 20 December 2005]:* In recognition of the fact that the cost of out-of-hours services vary, in 2003–04, £14 million additional funding was available to support primary care trusts facing the biggest challenge in developing out-of-hours services, half to very rural and half to very urban areas. In this financial year, £11.5 million additional funding has been made available.

Palliative Care (Children)

Mr. Maude: To ask the Secretary of State for Health what plans she has to passport the medical costs of providing palliative care to children's hospices. [36732]

Mr. Byrne: In line with our guidance "National Standards, Local Action" in the three years to March 2008 80 per cent. of national health service funding will go direct to primary care trusts (PCTs) to give them control in shaping services to meet local needs. PCTs, along with their local partners and stakeholders, are in the best position to judge how the available funding can be used effectively in providing a range of palliative care services for children and young people.

On 29 November, we launched a guide for the commissioners of palliative care for children and young people "Commissioning Children's and Young People's Palliative Care Services". This practical guide will stimulate improvements in commissioning and promote quality care for children, young people and their families, in a range of settings, for example, palliative care at home, in hospital or in a hospice.

Mr. Maude: To ask the Secretary of State for Health how much funding has been allocated to children's hospices serving West Sussex in each of the last eight years. [36733]

Caroline Flint: The Department does not collect information on the funding of children's hospices and palliative care services for children.

Children's hospice services are funded from a number of sources, including services commissioned by primary care trusts (PCTs) based on their assessment of children's needs and their priorities. They are best placed to make decisions on the local need for palliative care and are able to take into account the needs of individual families and their preferences.

In our recently published guide, "Commissioning Children's and Young People's Palliative Care Services", launched on 29 November, PCTs are advised to engage with local children's hospices over the contribution hospices can make to the overall pattern of palliative care commissioned for children and young people in their localities.

Mr. Maude: To ask the Secretary of State for Health what assessments she has made of the medical costs of providing palliative care in children's hospices. [36736]

Mr. Byrne: Information is not available centrally on the medical costs of palliative care in children's hospices.

Her Majesty's Treasury's 2002 cross cutting review on the role of the voluntary and community sector in service delivery recommended that funders should recognise that it is legitimate for voluntary and community sector providers to include the relevant element of overheads in their cost estimates for providing a given service under a contract or service agreement. This recommendation was drawn to the attention of primary care trust commissioners through the Chief Executive Bulletin published on 14 April 2005.

Parliamentary Questions

Sandra Gidley: To ask the Secretary of State for Health when she expects to answer the question on private management of new primary care trusts (19208) tabled by the hon. Member for Romsey on 13 October. [30999]

Mr. Byrne: I refer the hon. Member to the reply I gave on 24 November 2005, *Official Report*, column 2293W.

Sandra Gidley: To ask the Secretary of State for Health when she expects to answer the Questions *(a)* 21145, *(b)* 21220, *(c)* 21219 and *(d)* 21776 tabled by the hon. Member for Romsey on 19 and 20 October. [31000]

Ms Rosie Winterton: I refer the hon. Member to the replies I gave on 21 November 2005, *Official Report*, column 1715W for question 21219; on 24 November 2005, *Official Report*, column 2282W for questions 21145 and 21220; and on 14 December 2005, *Official Report*, columns 2125–26W for question 21776.

Mr. Clappison: To ask the Secretary of State for Health when she will reply to question reference 28481 from the hon. Member for Hertsmere, tabled on 10 November. [33445]

Mr. Byrne: I refer the hon. Member to the answers I gave him on 12 December 2005, *Official Report*, columns 1802W and 1817W.

Patient Travelling Times

Mr. Maude: To ask the Secretary of State for Health what the maximum recommended patient travelling time is to acute hospitals in England. [35162]

Mr. Byrne: There is no recommended maximum patient travelling time to acute hospitals in England.

Physical Agents Directive

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the impact on the use of magnetic resonance imaging scans in the NHS when the EU physical agents directive comes into force. [18374]

Mr. Byrne: An initial impact assessment carried out by the Health Protection Agency suggests that the European physical agents directive may affect about 3.5 per cent. of all magnetic resonance imaging scans in England. The Department are considering how to handle the impact of this on the national health service.

Plagiocephaly

John McDonnell: To ask the Secretary of State for Health (1) when she expects guidelines to be issued to assist the early detection of positional plagiocephaly by health professionals; [37211]

(2) what plans her Department has for publicising the methods available to avoid positional plagiocephaly; [37212]

(3) how much was spent by her Department on publicising advice to *(a)* parents and *(b)* health professionals on how to avoid positional plagiocephaly in each year since 2001. [37214]

Mr. Byrne: The child health development programme, which provides for health and development checks for young children, is informed by professional guidelines, "principally Health for all children" edited by Professor David Hall and Dr. David Elliman. This includes guidance on detecting abnormalities in skull development.

Positional plagiocephaly is caused by allowing consistent pressure to be applied to one part of a baby's skull over a period of time. This is commonly remedied by enabling babies to experience a range of positions rather than remaining in one position. The Department's guidance to parents on the first five years of their child's life "Birth to five", and on reducing the risk of cot death, advocates this procedure.

Funding associated with avoiding positional plagiocephaly is not separable from the overall funding of child health in the community.

Plastic Water Bottles

Lynne Jones: To ask the Secretary of State for Health (1) what research her Department has evaluated on the transfer of chemicals through plastic water bottles; and if she will make a statement; [38425]

(2) what discussions she has had with the bottled water industry about *(a)* labelling and *(b)* information to consumers on storage of plastic water bottles; [38426]

(3) what regulatory body is responsible for dealing with complaints from the public about possible contamination of bottled water *(a)* during (i) retail and (ii) wholesale storage and *(b)* after purchase; [38427]

(4) what regulatory body is responsible for requirements on *(a)* the labelling of bottled water and *(b)* information to consumers about the storage of water in plastic bottles. [38428]

Caroline Flint: I have had no direct discussions with bottled water producers, but I am advised that the Food Standards Agency (FSA) has been in contact with producers regarding the recent press reports of taints of bottled waters stored near household chemicals. There have been some studies on the transfer of chemicals through food packaging, because of the possibility of taint. The thinner and more porous the packaging material, the greater the possibility of taint. The FSA advises that food is not stored near cleaning products or other strongly smelling chemicals.

The FSA is responsible for food labelling, including the requirements that apply to bottled waters. Local authorities are responsible for enforcing food legislation and for investigating any complaints from the public about possible contamination of bottled water both before and after purchase.

Primary Care Trusts

Mr. Gordon Prentice: To ask the Secretary of State for Health what discussions she has had with representatives of professions allied to medicine on her proposals to divest primary care trusts of their provider status; and if she will make a statement. [21610]

Mr. Byrne: I refer my hon. Friend to the reply I gave to the hon. Member for Warrington, North (Helen Jones) on 14 December 2005, *Official Report*, column 2162W.

Mr. Austin Mitchell: To ask the Secretary of State for Health what consultations were held with *(a)* hon. Members, *(b)* primary care trusts (PCTs) and *(c)* strategic health authorities before the publication of 'Commissioning a Patient-led NHS'; who will make the final decisions on merger of PCTs; and what research was commissioned on the optimum size for PCTs. [22451]

Mr. Byrne: The document issued by Sir Nigel Crisp on 28 July entitled 'Commissioning a Patient-Led NHS' was the beginning of a process whereby strategic health authorities (SHAs) were asked to engage their stakeholders to develop proposals for reconfiguration which would then be subject to consultation. The draft proposals from the SHAs were submitted to the Department by 15 October so that they could be assessed before being sent out for full local consultation.

SHAs submitted their proposals for the reconfiguration of primary care trusts (PCTs) and these proposals were assessed by an independent external panel drawn from and representing a wide range of interests, to determine whether the SHA proposals met the criteria stipulated in 'Commissioning a Patient-Led NHS'. Following consideration by the external panel and Ministers, all proposals for reconfiguration of SHAs have gone forward for local consultation and a wider range of proposals for PCT reconfigurations has

also gone forward for local consultation. These local consultations will last for 14 weeks and began on 14 December.

The Department commissioned a piece of research earlier in the year which concluded that there is no blueprint for the optimum size of PCTs but the criteria for reconfiguring PCTs were clearly set out in the document published on 28 July.

Mr. Gordon Prentice: To ask the Secretary of State for Health if she will set up discussion groups of NHS staff affected by her proposals for primary care trusts, moderated by Opinion Leader Research; and if she will pay participants for attendance. [24814]

Mr. Byrne: A 14 week local consultation on the proposed reconfiguration of primary care trusts began on 14 December. Strategic health authorities have received guidance on the consultation process, which stresses the importance of involving a range of stakeholders in consultation, including staff. The most effective way of involving those staff is a matter for local determination.

Mr. Burstow: To ask the Secretary of State for Health pursuant to her written statement of 18 October 2005, *Official Report*, column 49WS, on primary care trusts/strategic health authorities and to the oral answers of 25 October 2005, *Official Report*, columns 151–52, on primary care trusts, whether the statements made in the chronology placed in the Library in relation to new primary care trusts divesting themselves of the majority of service provision have been superseded. [25421]

Mr. Byrne: My right hon. Friend's written ministerial statement of 18 October and oral answers on 25 October supersede the statements made in the chronology placed in the Library in relation to new primary care trusts (PCTs) divesting themselves of the majority of service provision.

Since the document issued on 28 July we have listened to stakeholders and the policy moving forward, in relation to service-provision, is that this will be a matter for PCTs to determine locally. Any move away from direct provision of services by PCTs will be a decision for the local national health service within the framework set out in the forthcoming White Paper and after local consultation, including professions allied to medicine.

We will support PCTs which want to do that, but we will not instruct PCTs to do it, nor will we impose any timetable. What matters is getting the best services for each community—and that is what the White Paper will focus on.

Mike Penning: To ask the Secretary of State for Health when she expects to make a decision on the reorganisation of Hertfordshire primary care trusts; and if she will undertake a public consultation on the matter. [25814]

Mr. Byrne: On 15 October, strategic health authorities (SHAs) submitted their proposals for the reconfiguration of primary care trusts (PCTs), which set out how they intend to strengthen their commissioning function. These proposals were assessed by an independent external panel drawn from and representing a wide range of stakeholder interests, to determine whether the SHA proposals meet the criteria stipulated in the document, "Commissioning a Patient Led NHS" (July 2005).

Following consideration by the external panel and Ministers, proposals for PCT reconfiguration were notified to all SHAs and hon. and right hon. Members. Consultations began on December 14, running for 14 weeks. No decisions on the reorganisation of PCTS, including those in Hertfordshire, will be taken until this process has been completed.

Mrs. Dean: To ask the Secretary of State for Health what assessment she has made of the likely effect of allowing varying sizes and configuration of primary care trusts on the level of consistency and equality of access to services across England. [29007]

Mr. Byrne: The criteria for assessing proposals for the reconfiguration of primary care trusts (PCTs) was set out in the document, "Commissioning a Patient Led NHS". These included improving health and reducing inequalities, improving commissioning and effective use of resources and improving co-ordination with social services. I expect overall the new PCTs to improve consistency of performance and equality of access as a result.

Prisons (Contraceptives)

Nick Harvey: To ask the Secretary of State for Health if she will make condoms generally available to all people in prisons. [28559]

Ms Rosie Winterton: I refer the hon. Member to the reply I gave on 18 July 2005, *Official Report*, columns 1505–06W.

Private Finance Initiative Projects

Mr. Burstow: To ask the Secretary of State for Health what proportion of the assets and liabilities of each private finance project approved by her Department is recorded on the Government balance sheet. [34665]

Mr. Byrne: A small number of national health service private finance initiative schemes are regarded under accounting standards as on balance sheet. These are shown in the table where 100 per cent. of the capital value of these schemes and the corresponding liabilities are on the national health service's balance sheet.

£000

NHS trust	*Capital value on balance sheet*
Buckinghamshire Hospitals NHS Trust	44,562
Bromley Hospitals NHS Trust	114,909
Queen Mary's Hospital Sidcup NHS Trust	4,500
Oxleas NHS Trust	17,612
Barnet and Chase Farm Hospitals NHS Trust	35,306

The great majority of national health service private finance initiative schemes are regarded under accounting standards as being off balance sheet which means that the facilities built by the private sector are off the national health service's balance sheet. There may be deferred assets and liabilities in the accounts of the individual bodies arising from these transactions, but these are not separately identifiable from the accounts.

Chris Ruane: To ask the Secretary of State for Health what the *(a)* location, *(b)* cost and *(c)* completion date is of each private finance initiative project within her responsibility in each health authority area. [36893]

Mr. Byrne: A list has been placed in the Library of all private finance initiative projects in England where the capital value is £10 million or greater, the scheme is operational or financial close has been reached and work has started on site. The list shows location, cost and operational dates.

Mr. Maude: To ask the Secretary of State for Health what the *(a)* location and *(b)* capacity is of each completed private finance initiative hospital project; what the cost was of each; and what the (i) location, (ii) planned capacity and (iii) expected cost is of each planned private finance initiative hospital project. [25256]

Mr. Byrne: I refer the hon. Member to the reply I gave today to the hon. Member for Vale of Clwyd (Chris Ruane). The information shown in the tables gives details requested of schemes that have not yet reached financial close with an estimated capital value of £25 million and above. The Department does not hold centrally full information for schemes below £25 million.

Private finance initiative schemes in negotiation but not yet reached financial close

Private Sector NHS

Chris Huhne: To ask the Secretary of State for Health how many private patients were treated in NHS hospitals in each of the last 10 years. [36035]

Mr. Byrne: I refer the hon. Member to the reply I gave on 8 December 2005, *Official Report*, column 1577W.

Lynne Jones: To ask the Secretary of State for Health pursuant to her Oral Statement of 19 October 2005, *Official Report*, column 283W, in the Westminster Hall debate on private sector NHS, whether she has responded to the dossier of patient complaints about independent sector treatment centres. [23665]

Mr. Byrne: The dossier provided by the British Orthopaedic Association (BOA) in November of 2004, included 18 letters from their members, of which only two related to clinical governance or quality assurance issues for national health service patients treated within independent sector treatment centre (ISTC) programme.

The two letters from the BOA that referred to clinical governance issues related to results obtained by overseas surgeons operating on NHS patients at the Nuffield Hospitals in Derby and Cambridge, respectively. In both circumstances, local clinical governance arrangements had rapidly ensured that the surgeons discontinued working, and formal service investigations were performed at both sites. Learning points from these investigations were used to inform on-going governance arrangements in this sector, and were outlined to the BOA in May of this year.

The remaining 16 letters from November 2004 comprised a diverse group of issues not directly relating to clinical governance issues in this sector, referring instead to issues of local capacity planning, waiting list issues and discontent over broader policy matters.

In September of this year, 11 further letters were sent to the Department by the BOA. Five of these letters relate to the ISTC programme, and all clinical incidents were already known to the Department, and have been or are being reported on. A response is being issued to the BOA and further information will be shared as it becomes available.

Processed Foods

Mr. Ancram: To ask the Secretary of State for Health what estimate she has made of the proportion of processed foods on sale in England which do not contain added *(a)* sugar and *(b)* salt. [38261]

Caroline Flint: No estimate has been made of the proportion of processed foods that do not contain added sugar or salt. The Department and the Food Standards Agency have held discussions with the food industry in line with public commitments to reduce levels of salt, sugars and fat in foods.

Public Relations

Mr. Weir: To ask the Secretary of State for Health what the value was of *(a)* public opinion research and *(b)* public relations contracts awarded by her Department in (i) each (A) nation and (B) region of the UK and (ii) London in 2004–05. [35939]

Jane Kennedy: During 2004–05, the Department spent £364,425.74 on public opinion research. This total includes media evaluation, large-scale surveys and qualitative research, for example, focus groups. The work was undertaken on a national basis. Of this £21,831 was spent on regional media evaluation, that is, analysing messages in the regional media.

During the same period, the Department spent a total of £2,908,812.97 on public relations agencies delivering campaigns in England. The Department does not break the figures down regionally. The agencies concerned ran campaigns covering tobacco and drugs control, sexual health, flu immunisation, hepatitis C awareness, breastfeeding awareness, healthy eating, social care or social work and national health service recruitment campaigns. This figure includes both agency fees and costs such as literature, posters and other materials produced for the campaigns.

The figures quoted above do not include value added tax.

Quality and Outcomes Framework

David Taylor: To ask the Secretary of State for Health (1) when the outcome of the review of the quality and outcomes framework of the General Medical Services contract will be announced; and if she will make a statement; [29390]

(2) what consideration has been given to including indicators for osteoporosis within the new quality and outcomes framework. [29391]

Mr. Byrne *[holding answer 17 November 2005]:* NHS Employers, working on behalf of United Kingdom health Ministers, and the British Medical Association's general practitioners committee have finalised an agreement on the general medical services contract for 2006–07 which includes the review of the quality and outcomes framework and an announcement will be made shortly. It would be inappropriate to pre-empt the announcement.

Mr. Burstow: To ask the Secretary of State for Health how many and what proportion of general practitoner practices in *(a)* England, *(b)* each primary care trust and *(c)* each strategic health authority achieved Med 5 and Med 9 of the Quality and Outcomes Framework on medicines management in 2004–05. [37007]

Mr. Byrne: The information requested has been placed in the Library.

Radiology

Mr. Lansley: To ask the Secretary of State for Health (1) how many interventional radiologists have been employed by the NHS in each year since 1997; and what plans she has to expand this number; [31897]

(2) what assessment she has made of the optimum number of interventional radiologists needed by the NHS, with specific reference to the numbers needed to fully utilise minimally invasive technologies of proven clinical and cost-effectiveness. [31898]

Mr. Byrne: Information is not collected centrally on the number of interventional radiologists employed in the national health service. The table shows the number of hospital medical staff in the radiology group of specialties in each year since 1997.

Hospital, Public Health Medicine and Community Health Services: all medical staff and consultants within the radiology group of specialties by specialty

Number (headcount)

	All staff			*Consultant*		
		of which:			*of which:*	
	Radiology Group	*Clinical radiology*	*Nuclear medicine*	*Radiology Group*	*Clinical radiology*	*Nuclear medicine*
1997	2,064	2,014	50	1,473	1,442	31
1998	2,127	2,075	52	1,514	1,481	33
1999	2,214	2,164	50	1,540	1,507	33
2000	2,347	2,303	44	1,616	1,585	31
2001	2,508	2,454	54	1,683	1,645	38
2002	2,595	2,538	57	1,745	1,702	43
2003	2,760	2,693	67	1,860	1,810	50
2004	2,911	2,836	75	1,928	1,876	52
June 2005	n/a	n/a	n/a	2,017	1,967	50

n/a—not available.

Note:

1997 to 2004 data as at 30 September each year, data for 2005 as at 30 June.

Data for June 2005 was taken from the Medical and Dental mini census which collected consultants only.

Source :

NHS Health and Social Care Information Centre Medical and Dental Workforce Census

Between September 1997 and June 2005, the number of consultants in the radiology group of specialties increased by 544 or 37 per cent. Between 2002–03 and 2004–05, 166 new centrally funded specialist registrar posts were allocated. An additional 60 new posts were allocated in 2005–06, including posts for the new clinical radiology academies.

It is the responsibility of NHS organisations to analyse their local situation and develop plans to deliver high quality NHS services and recruit the appropriate staff required to deliver these services.

Restraint Procedures

Sandra Gidley: To ask the Secretary of State for Health how many people have *(a)* died and *(b)* been injured under restraint in mental health institutions in each of the last eight years. [37572]

Ms Rosie Winterton: Information is not held centrally by the Department. The confidential inquiry into suicide and homicide, which is funded by the National Patient Safety Agency, has been extended to cover all sudden, unexplained deaths in psychiatric units. It will report on the use of control and restraint in due course.

From 1 January 2004, the Mental Health Act Commission, as part of its programme of monitoring vulnerable patient groups, has asked providers of acute mental health services to notify every occasion when a detained patient sustains an injury which requires medical intervention as a consequence of an incident of restraint. Findings from the notifications received and visits undertaken will be included in their next report.

The National Patient Safety Agency has developed a national reporting and learning system to promote comprehensive national learning about patient safety incidents. This includes reporting of patient safety incidents involving control and restraint. This information will facilitate feedback on identified issues.

The new annual census of mental health inpatients records incidents of restraint as well as recent injuries. The first report, which was published by the Healthcare Commission and the Mental Health Act Commission on 7 December 2005, provides information about the use of restraint in mental health settings.

Sandra Gidley: To ask the Secretary of State for Health what research she has undertaken on the effects of restraint measures in the NHS. [37573]

Ms Rosie Winterton: No such assessment has been made by the Department. The National Institute for Health and Clinical Excellence reviewed the available evidence on physical interventions in producing its clinical guidelines on the short-term management of disturbed/violent behaviour in in-patient psychiatric settings and emergency departments.

Individual authorities are required to have clear policies on the use of restraint which include provision of a review of each incident of restraint; and its application audited and reported to hospital managers. This is set out in the Code of Practice of the Mental Health Act 1983.

The Health and Safety Executive commissioned research from Nottingham university on the effectiveness of training in the prevention and management of violence which is due to be published in 2006.

One of the key objectives of the National Institute for Mental Health in England and National Patient Safety Agency project on the prevention and management of violence is to identify gaps in research in the area of recognising, preventing and managing aggression and violence. A full report will be produced in 2006.

Sandra Gidley: To ask the Secretary of State for Health how many different restraint procedures are approved for use in psychiatric hospitals. [37574]

Ms. Rosie Winterton: Best practice around the use of physical interventions for adults presenting disturbed/violent behaviour in in-patient psychiatric settings is set out in the clinical guidelines published by the National Institute for Health and Clinical Excellence in 2004. When determining which interventions to employ clinical need, safety of service users and others, and, where possible, advance directives should be taken into account. The intervention selected must be a reasonable and proportionate response to the risk posed by the service user.

The National Institute for Mental Health in England and National Patient Safety Agency project on the prevention and management of violence will publish guidance and a checklist early in 2006 to ensure that all restraint procedures meet rigorous standards. The project team is also developing proposals for the accreditation and regulation of physical intervention trainers.

Sandra Gidley: To ask the Secretary of State for Health what methods of restraint are approved for use on children in *(a)* hospitals and *(b)* secure hospitals. [37575]

Mr. Byrne: Guidance on the use of restraint is set out in the Mental Health Act Code of Practice, paragraphs 19.6 to 19.15. This states that restraint by physical means should take place only as a last resort and never as a matter of course. In addition the guidance states that any restraint used should be reasonable in the circumstance; apply the minimum force necessary to prevent harm to the patient or others; be used for only as long as is necessary; and be sensitive to gender and race issues. The advice applies in all healthcare settings and to all age ranges. Trusts should regularly audit their physical restraint procedures consistent with the framework of clinical governance and safeguarding children arrangements.

SANELINE

Mr. David Jones: To ask the Secretary of State for Health to what services have the funds formerly provided to SANELINE been diverted. [30955]

Ms Rosie Winterton: The funding provided for SANELINE under the Department's contract with SANE, was a specific allocation made for a time-limited period only.

Sexual Health

Andrew Rosindell: To ask the Secretary of State for Health what steps are being taken by the Government to increase awareness of the risks of sexually transmitted diseases. [26236]

Caroline Flint: Measures to reduce the spread of sexually transmitted infections (STIs) were set out in the "National Strategy for Sexual Health and HIV" (2001) and the public health White Paper "Choosing Health", published last November, available in the Library and on the Department's website at www.dh.gov.uk.

The White Paper also announced a new high profile national campaign, to promote safer sex messages, aimed at reducing the prevalence and spread of all STIs. The campaign will focus on younger men and women. It will be a high profile media campaign, focusing on the risks of unprotected sex and the benefits of using condoms to avoid the risk of sexually transmitted infections, including HIV, and unintended pregnancies.

Measures also include targeted HIV prevention and health promotion work with those most at risk of HIV infections, such as gay men and African communities, provided through community organisations such as the Terrence Higgins Trust and the African HIV policy network.

In addition to these national measures, primary care trusts are responsible for providing sexual health promotion and services which meet the needs of their local populations. To support them in this role, the Department, working with professional bodies, has published recommended standards for sexual health services; a toolkit of best practice for sexual health promotion, and guidance on commissioning.

Mr. Amess: To ask the Secretary of State for Health what research projects on *(a)* abortion, *(b)* contraception, *(c)* reproductive health and *(d)* the effects of abortion on women have been commissioned by her Department in each of the last five years for which information is available; and what the publication arrangements were in each case. [35969]

Caroline Flint: The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service. Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by NHS organisations. The remainder funds health and social care research through the Department's central research programmes. Details of relevant individual projects are listed as follows:

Health technology assessment (HTA) projects

A randomised preference trial of medical versus surgical termination of pregnancies less than 14 weeks' gestation (TOPS).

The clinical effectiveness and cost-effectiveness of routine anti-D prophylaxis for rhesus negative women in pregnancy.

Amniocentesis results: investigation of anxiety (ARIA)

Methods of prediction and prevention of pre-eclampsia

Systematic reviews of accuracy and effectiveness literature with economic modelling

Accuracy and cost effectiveness of rapid diagnosis of Group-B streptococcus during labour

Prenatal screening and treatment strategies to prevent group B streptococcal and other bacterial infections in early infancy: cost effectiveness and expected value of information analyses.

Systematic review of early pregnancy screening tests for Down Syndrome

Screening to prevent pre-term birth—systematic reviews of accuracy and effectiveness literature with economic modelling

The effectiveness and cost-effectiveness of microwave and thermal balloon endometrial ablation for heavy menstrual bleeding: a systematic review and economic modelling

Liquid-based cytology in cervical screening: an updated rapid and systematic review and economic analysis

A systematic review of diagnostic tests and algorithms used in the investigation of haematuria

A systematic review of the clinical effectiveness and cost effectiveness of topotecan, pegylated liposomal doxorubicin hydrocholoride and paclitaxel for second-line or subsequent treatment of advanced ovarian cancer (up-date)

A randomised trial of human papilloma virus testing in primary cervical screening (ARTISTIC)

Methods of prediction and prevention of pre-eclampsia—Systematic reviews of accuracy and effectiveness literature with economic modelling

Effectiveness and cost-effectiveness of Levonorgestrel containing intrauterine system in primary care against standard treatment—The ECLIPSE Trial

Antidepressant drug therapy versus a community-based psychosocial intervention for the treatment of moderate postnatal depression: a pragmatic randomised controlled trial

A comparison of automated technology and manual cervical screening (MAVARIC)

Treatment for fibroids: uterine artery embolisation (UAE) or hysterectomy (HOPEFUL)

Systematic review of early pregnancy screening tests for Down Syndrome

Screening to prevent pre-term birth—systematic reviews of accuracy and effectiveness literature with economic modelling

The HTA programme aims to publish the results of every project in the monograph series Health Technol Assess (ISSN 1366 5278). As well as printed versions, full electronic versions of all titles in the monograph series are made available free of charge on the HTA programme website and on a free compact disc which is updated three to four times per year.

Policy Research Programme Projects

The following projects are funded through the allocation of departmental policy research programme budget to the Medical Research Council (MRC). The research is commissioned by the MRC on behalf of the Department.

The second national survey of sexual attitudes and lifestyles (2000). Initial results from this large-scale survey of sexual attitudes and lifestyles were published as reference tables and summary report by the National Centre for Social Research in 2002. This publication has been followed by a high volume of peer-reviewed journal articles and a number of papers are forthcoming.

Teenage Pregnancy Strategy Evaluation Team. Final Report Synthesis. London School of Hygiene and Tropical Medicine. June 2005.

French, R et al. Exploring the attitudes and behaviours of Bangladeshi, Indian and Jamaican young people in relation to reproductive and sexual health. University College London. November 2005.

Berrington, A et al. Consequences of Teenage Parenthood: Pathways which minimise the long term negative impacts of teenage childbearing. University of Southampton. November 2005.

Viner, R et al. Protective and risk factors for early sexual activity and contraception use among Black and Minority Ethnic adolescents in East London. University College London, City University and Queen Mary, University of London. October 2005.

Higginbottom, G et al. An Exploration of the Teenage Parenting Experiences of Young People of Black and Minority Ethnic Origin in England. University of Sheffield. October 2005.

Dawson, N et al. The Education of Pregnant Young Women and Young Mothers in England. University of Bristol and University of Newcastle. September 2005.

(forthcoming in December 2005 DfES research release)

Wiggins, M et al. Teenage Parenthood and Social Exclusion: a multi-method study. Summary report of findings. Social Science Research Unit.

Long-term consequences of teenage births for parents and their children (2004) Ermisch, J. University of Essex (publication: TPU website, Institute for Social and Economic Research (ISER), University of Essex website and academic journals)

Analysis of data from the national surveys of sexual attitudes and lifestyles (NATSAL I and II) relevant to an exploration of outcomes of teenage motherhood. Wellings, K. London School of Hygiene and Tropical Medicine (unpublished).

Living on the edge: sexual behaviour and young parenthood in rural and seaside areas (2004). Craig, G. University of Hull (publication: TPU website, University of Hull report)

'Young People's Perceptions of Contraception and Seeking Contraceptive Advice' A Report on the Key Findings from a Qualitative Research Study (2001). Counterpoint Research (publication: TPU website)

These publications are available from the Teenage Pregnancy Unit's pages of the Department for Education and Skills website, at www.dfes.gov.uk unless otherwise stated.

The following policy research programme projects have been commissioned and are currently ongoing:

Developing and piloting a sexual health communication tool.

Translating effective behavioural interventions—replicating a proven intervention to meet the sexual health and reproductive health needs of young black Caribbean women in sexual health services.

Exploring strategies to increase chlamydia screening volume in general practice.

Diversity of Chlamydia trachomatis in young people.

Measuring the impact of the Chlamydia trachomatis epidemic: new serological assays to assess disease burden.

These will be published through peer-reviewed journal articles and dissemination to targeted audiences.

Senior House Officers

Miss McIntosh: To ask the Secretary of State for Health how many senior house officer jobs have been available in each of the last eight years; and if she will make a statement. [30311]

Mr. Byrne: The Information requested is not available centrally.

Information is however available on the number of medically qualified senior house officers (SHO) and equivalents in post in each of the last eight years and this is shown in the table.

Medically qualified[1] senior house officers and equivalents 1997 to 2004, England

	Number (headcount)
1997	14,580
1998	14,774
1999	14,812
2000	15,081
2001	15,409
2002	16,685
2003	18,212
2004	20,094

[1] Excludes all staff with a dental specialty.

Source:
NHS Health & Social Care Information Centre Medical and Dental workforce census.

Between 1997 and 2004, the number of medically qualified SHOs and equivalents has increased by 5,514 or 38 per cent.

Sleep Apnoea

Mrs. Riordan: To ask the Secretary of State for Health (1) by what date she expects sufferers of obstructive sleep apnoea to be diagnosed within one month of referral by their general practitioner in accordance with the national service framework for long-term conditions quality requirement 2; [32526]

(2) how many obstructive sleep apnoea patients have access to continuous positive airway pressure treatment within one month of diagnosis in accordance with the national service framework for long-term conditions quality requirement 7 for people with long-term conditions; [32527]

(3) what proportion of suspected obstructive sleep apnoea sufferers wait for longer than one month to see a specialist after referral by their general practitioner; and how many of these have to travel for more than two hours to reach a specialist sleep centre for diagnosis and treatment; [32528]

(4) what percentage of NHS trusts commission specialist services for diagnosing and treating sleep disorders including obstructive sleep apnoea; [32529]

(5) what estimate she has made of the average waiting time for treatment for diagnosed sufferers of obstructive sleep apnoea in the last year for which figures are available; [32530]

(6) what statistics her Department collects on the *(a)* diagnosis and *(b)* treatment of obstructive sleep apnoea; [32531]

(7) what estimate she has made of the number of adults with *(a)* diagnosed and *(b)* undiagnosed (i) obstructive sleep apnoea and (ii) other sleep disorder sufferers; [32532]

(8) what research her Department has undertaken into the medical status of individuals involved in sleep-related accidents. [32574]

Mr. Byrne: Data on the number of people with sleep apnoea is not available centrally but the British Snoring and Sleep Apnoea Association estimates that 4 per cent. of men and 2 per cent. of women are affected by the condition.

Hospital episode statistics (HES) contains details of patients admitted to and treated in national health service hospitals in England. In 2003–04, there were 12,162 finished consultant episodes in NHS hospitals in England for people with a primary diagnosis of sleep apnoea. HES data does not reflect the number of patients with a particular condition as a person may have more than one finished consultant episode (FCE) in the year. A FCE is defined as the first period of in-patient care under one consultant within one healthcare provider.

The national service framework (NSF) for long-term conditions is a 10-year programme intended to stimulate long term and sustained improvement in services principally for people with neurological conditions. It is for the NHS locally to set their own pace of change. Through the regular review and inspection processes the NHS and local authorities will need to demonstrate that they are making progress in planning and developing the level of service quality described in the NSF.

Information on waiting times for inpatient and outpatient treatment in England is collected by consultant speciality rather than for specific conditions. Depending on the clinical needs of the patient, a range of consultants can undertake the treatment of sleep disorders, including neurological and respiratory specialists. As specialty level data for relevant specialties would include data for a number of conditions it is not possible to determine what proportion of suspected obstructive sleep apnoea patients wait for longer than one month to see a specialist.

By the end of 2005, the maximum waiting time for first outpatient appointment with a consultant will fall to 13 weeks and the maximum waiting time for inpatient treatment will fall to six months. By 2008, patients will be admitted for treatment within a maximum of 18 weeks from referral by their general practitioner, and those with urgent conditions will be treated much faster.

Information on the percentage of NHS trusts commissioning specialist services for diagnosing and treating sleep disorders is not available centrally. It is for health professionals in primary care organisations, in consultation with other stakeholders, to determine which services their populations need and to ensure the appropriate level of provision. In terms of sleep disorders, this would include, where appropriate, the provision of continuous positive airway pressure equipment as well as other treatments and interventions such as advice to promote weight loss. It is for health professionals to decide what treatment to offer patients, in consultation with the patient and informed by the patient's medical history. The Department does not collect information on the number of sleep apnoea patients with access to continuous airway pressure treatment.

The Department has not undertaken any research into the medical status of individuals involved in sleep-related accidents. In 2002, the Department for Transport held an expert workshop into the medical causes of daytime sleepiness in respect of driving and, as a result, strengthened the advice it provides to doctors.

Smoking

Andrew Mackinlay: To ask the Secretary of State for Health how many and what proportion of those *(a)* individuals and *(b)* organisations that took part in the consultation on the Health Bill favoured (i) the exemptions on the smoking ban as on the face of the Health Bill and (ii) a ban which excluded (A) private clubs and (B) pubs where food was not sold. [32174]

Caroline Flint: The consultation report was published on 24 November 2005. A copy of the publication is available in the Library.

Of those who responded, some 57,000 plus, around 90 per cent. supported legislation on smoke free premises. Of those 90 per cent., exact figures are not available. However, of the 41,833 responses on the specific proposals, the report notes that "over 90 per cent. were against any exemptions for pubs not serving food".

Of the 41,641 responses on the membership clubs proposal the report notes that "the vast majority believe that, since membership clubs are a workplace then there should be no exemptions".

Mr. Hollobone: To ask the Secretary of State for Health what steps her Department is taking to encourage implementation of World Health Organisation guidelines on smoking in pregnancy. [34431]

Caroline Flint: Departmental officials have contacted the World Health Organisation regarding guidelines on smoking during pregnancy; we have been told that there are none.

Mr. Amess: To ask the Secretary of State for Health which *(a)* organisations and *(b)* individuals were consulted by her Department before publication of her Department's White Paper on smoking; and if she will make a statement. [35968]

Caroline Flint: The Department has recently held two recent major public consultations where the subject of smoking was included.

The "Choosing Health" consultation was held between March 2004 and June 2004. A consultation on the smoke free proposals set out in the public health White Paper "Choosing Health" was held between June 2005 and September 2005.

The "Choosing Health" consultation analysis final report was published on 9 March 2005. Chapter three of the report gives information on the responses received by organisation type, not named organisations nor individuals. A copy is available in the Library.

A list of organisations and individuals in England, who were sent the consultation on the smoke free elements of the Health Bill, will be placed in the Library. The results of the consultation, including a summary of the types of organisations responding, was published recently and a copy is available in the Library.

Strategic Health Authorities

Mr. Lansley: To ask the Secretary of State for Health if she will publish the month six forecast 2005–06 year-end financial position of each strategic health authority area. [31905]

Mr. Byrne: The 2005–06 forecast financial position at month six for all national health service organisations was announced on 1 December and has been placed in the Library. This information is also available on the Department's website at: www.dh.gov.uk/assetRoot/04/12/40/49/04124049.pdf.

Helen Jones: To ask the Secretary of State for Health (1) what powers she proposes to give to strategic health authorities to allow them to intervene in the running of primary care trusts; whether she intends to give powers to strategic health authorities to insist that primary care trusts outsource and market-test services; and if she will make a statement; [33846]

(2) what discussions she has had on giving strategic health authorities the powers to remove the chief executives and board members of trusts; and if she will make a statement. [33847]

Mr. Byrne *[holding answer 2 December 2005]:* There are no proposals or plans to give strategic health authorities (SHAs) additional powers to intervene in the running or plans of primary care trusts (PCTs) as a result of the reconfiguration exercise or to insist that PCTs outsource or market test services.

SHAs do not have the power to remove the chief executives and board members of PCTs and there are no plans to change this situation. Under Section 13 of the Health and Social Care Act 2001 the Secretary of State can make an intervention order if she is not satisfied that an national health service body is performing one or more of its functions adequately.

Mr. Maude: To ask the Secretary of State for Health what the temporary staff costs were for *(a)* doctors, *(b)* nurses, *(c)* other healthcare professionals, *(d)* managers and *(e)* administrative staff in each strategic health authority in England in each of the last 10 years. [35159]

Mr. Byrne: The Department collects expenditure information on non national health service staff for local NHS organisations including strategic health authorities (SHAs). Non-NHS staff expenditure figures include all agency staff and any other staff not directly employed by these bodies. Information relating to spend for the relevant staff groups in each SHA in England from 2002–03, when these were established is shown in the tables. Information relating to the costs of temporary managers is not collected centrally.

The rise in agency staff spend over the years covered in the tables has tracked the rise in established posts over the period. Data for 2004–05 has not yet been verified but it suggests that expenditure in agency staff in the NHS has dropped significantly.

Reducing agency spend is part of the Department's contribution to the £6.5 billion Gershon efficiency target and the 10 human resource high impact changes as highlighted in, "A workforce response to local delivery plans: a challenge for NHS Boards".

Annual Financial Returns of Strategic Health Authorities

Student Nurses

Mary Creagh: To ask the Secretary of State for Health how many student nurses are waiting to receive a 2005–06 NHS student bursary; and what the average waiting time for receipt of bursaries is. [27398]

Mr. Byrne *[holding answer 11 November 2005]:* 11,941 student nurses have applied for bursaries for nursing courses which started in September 2005, all of which have now been processed.

The average waiting time for receipt of bursaries in 2005–06 for those student nurses who have been paid was 11 days from course start date. This figure does not reflect any delays in receiving information from the university. Payment cannot be made until the student grants unit receives confirmation of enrolment of individual students from the university and this process can take several days.

Suicide Chat Rooms

Mr. Oaten: To ask the Secretary of State for Health what discussions she has had with internet service providers about suicide chat rooms. [36590]

Ms Rosie Winterton *[holding answer 12 December 2005]:* I will be having discussions with internet service providers, through the Internet Service Providers Association, in the new year to discuss the issue of websites and chat rooms that make information available about suicide.

Taxis

Mr. MacNeil: To ask the Secretary of State for Health how much has been spent by her Department on taxi travel in the 2005–06 financial year; and what proportion of such travel was undertaken in each nation and region of the UK, including London. [37486]

Jane Kennedy: The Department has spent £335,709.59 on its central contract for taxis up to the end of November 2005.

Other taxi fares may be claimed through staff expenses but the information cannot be made available without disproportionate cost.

The proportion of taxi travel undertaken in each nation and region of the United Kingdom cannot be made available without disproportionate cost.

Tuberculosis

Grant Shapps: To ask the Secretary of State for Health how many new tuberculosis cases have been recorded in the UK in each year since 1990. [36048]

Caroline Flint: The information requested is shown in the table.

Number of tuberculosis case notifications for England, Wales, Scotland and Northern Ireland from 1990 to 2004.

	Number of notifications
1990	5,898
1991	6,078
1992	6,442
1993	6,565
1994	6,230
1995	6,176
1996	6,238

	Number of notifications
1997	6,367
1998	6,605
1999	6,701
2000	7,033
2001	7,113
2002	7,214
2003	6,922
2004	7,180

Communicable Disease Surveillance Centre Northern Ireland.

Turnaround Teams

Steve Webb: To ask the Secretary of State for Health which NHS trusts will be subject to visits from turnaround teams. [38579]

Mr. Byrne *[holding answer 19 December 2005]:* The Secretary of State announced on 1 December 2005 that teams of financial and management experts are to be sent to support the strategic health authorities (SHAs), national health service trusts and primary care trusts that have the biggest delivery problems.

An initial assessment is under way to ensure that the organisations that are forecasting the most significant deficits, expected to number 63, have financial control and there are an agreed set of actions to restore financial balance.

Following the initial assessment, the SHA, the Department and the organisation will agree on a tailored package of turnaround support. The chief executives of the most challenged organisations will then be supported in delivering turnaround by turnaround teams.

The turnaround teams will support the NHS in identifying opportunities to deliver services with greater cost-effectiveness and to make financial savings. They will help the local NHS ensure that the NHS delivers both its key targets and financial balance.

Underactive Thyroid

Daniel Kawczynski: To ask the Secretary of State for Health if she will make funding available for regular blood tests for those with an underactive thyroid. [39240]

Mr. Byrne: Funding is already available for regular blood tests for those diagnosed with an under-active thyroid.

Waiting Lists/Times

Mr. Crabb: To ask the Secretary of State for Health whether outpatient waiting lists in England include referrals other than general practitioner letter referrals. [39266]

Mr. Byrne *[holding answer 20 December 2005]:* The current outpatient waiting time target only applies to patients waiting for their first outpatient appointment with a consultant following a general practitioner or dental practitioner referral. It does not include follow-up appointments, consultant to consultant referrals or appointments with non-consultants.

Dr. Kumar: To ask the Secretary of State for Health what the average waiting time for an appointment to see a general practitioner was in *(a)* England, *(b)* the Tees Valley and *(c)* Middlesbrough South and East Cleveland in the last period for which figures are available. [31603]

Mr. Byrne: The requested data are not collected or held centrally. Since 2001, data has been collected each month from primary care trusts and general practitioners (GPs) on the availability of access to a general practitioner. This data shows whether access is or is not available in line with "The NHS Plan" target that patients should be able to be seen within 48 hours but do not provide information on actual waiting times. Overwhelmingly patients are able to see a GP within 48 hours if they wish.

Mr. Marsden: To ask the Secretary of State for Health what the average waiting times were from general practitioner referral to receipt of counselling services in *(a)* Blackpool, *(b)* Lancashire and *(c)* England in each of the last five years for which figures are available. [37657]

Ms Rosie Winterton: Information on waiting times for counselling services is not routinely captured by the Department. The Department collects such information for consultant-led services only.

Andrew Rosindell: To ask the Secretary of State for Health pursuant to the answer of 24 November 2005, *Official Report*, column 2300W, on waiting times, if she will break the figures down into *(a)* those admitted, *(b)* those transferred and *(c)* those discharged within four hours of arrival in an accident and emergency department since 2002–03. [37950]

Mr. Byrne: Information is not collected on waiting times in accident and emergency (A&E) departments broken down by the reason for leaving A&E. We only collect total time spent in A&E from arrival to departure.

Winter Excess Deaths

Mr. Burstow: To ask the Secretary of State for Health how many winter excess deaths there have been in each of the last 25 years *(a)* in total and *(b)* as a percentage of the elderly population, broken down by region; and what recent measures the Government have taken to reduce the number of winter excess deaths. [18657]

Mr. Byrne: Excess winter deaths are available by the Government Office Regions since 1991–92, and are shown in the table. They represent the excess deaths which occurred in the four months December to March, compared with the number expected if the average rate of the four months either side of the winter months applied.

A wide range of measures has been taken, including:

Flu and pneumococcal immunisation programmes. The United Kingdom has the highest uptake of flu immunisation among eligible groups of any in Europe.

The Keep Warm Keep Well Campaign, launched this year with the flu immunisation campaign, comprising leaflet and helpline based advice on what simple measures older people can take to preserve their health in winter time.

Direct encouragement to the national health service to increase further the many fuel poverty reduction partnerships between the NHS, local authorities (LAs) and, for example, EAGA. These lead to primary care staff being trained and supported, simplified referral routes and rapid response from Warm Front and others. A large proportion of referrals to Warm Front originate from the NHS.

Funding the evaluation of an important collaboration between the NHS and the Met Office, testing the value of health forecasting in the management and self-management of those with chronic chest disease, many of whom are older people.

Helping to set up the health, housing and fuel poverty forum in March 2005 to raise the profile of cold, damp homes, and to mainstream the many innovative activities the NHS is engaged in to address this issue.

Establishing the £60 million partnerships for older people projects fund, against which LAs and their partners have been bidding this year. The focus of these projects is on improving outcomes for older people through preventive interventions. Fuel poverty reduction forms a part of several of the short listed bids.

Close collaboration between the Department and the Energy Retail Association in developing a national home heat advice line, about to be launched.

Assisting with the production of the popular fuel poverty and health toolkit, produced in 2003 by the National Heart Forum, EAGA, the Faculty of Public Health, Help the Aged, and the Met Office.

Women's Health Services

Jessica Morden: To ask the Secretary of State for Health what steps her Department is taking to improve women's health and fertility services in the NHS. [31502]

Caroline Flint: The Department is committed to improving the health and well being of the general population, including the promotion of healthy lifestyles. The Department is currently taking forward a number of initiatives, including gender specific screening programmes.

Some initiatives address particular aspects of women's health. Examples include work related to the maternity standard of national service framework for children, young people and maternity services. The standard contains a number of recommendations including ones to address improving maternal health and the needs of pregnant women experiencing domestic violence.

The guideline on the assessment and treatment for people with fertility problems, published by the National Institute for Health and Clinical Excellence in 2004, provides advice to people concerned about delays in conception, including advice on alcohol and drug use, smoking and body weight. It also recommends screening for chlamydia before treatment begins.

Working Time Directive

Mr. Crabb: To ask the Secretary of State for Health (1) what representations she has received regarding the application of the European working time directive to junior doctors; [33312]

(2) if she will make a statement on the application of the EU working time directive to junior doctors. [33314]

Mr. Byrne: The working time directive (WTD) was implemented for the vast majority of national health service staff groups in 1998 in accordance with regulations. The Government negotiated an extension to the WTD for doctors in training to enable local implementation from August 2004.

This Government are committed to the overall aims of the WTD and to ensuring fair working hours for all NHS staff.

Representations have been received regarding the application of the WTD from the medical Royal Colleges.

FOREIGN AND COMMONWEALTH AFFAIRS

Airspace (Extraordinary Rendition)

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 12 December 2005, *Official Report*, column 1653W, to the right hon. and learned Member for North East Fife (Sir Menzies Campbell), on terrorist suspects (renditions), what *(a)* records and *(b)* agencies were consulted by officials researching whether the United States had requested permission for a rendition through UK territory or airspace; whether he has asked the US Administration (i) how many US flights carrying detainees have passed through UK territory or airspace to other countries for questioning and (ii) whether the US Administration maintains records of requests for permission for renditions since 1997; and what plans he has to reform the system of record keeping in this area in the future. [38961]

Dr. Howells: Officials have consulted relevant records, and individual recollections, in the Home Office, Foreign and Commonwealth Office, Ministry of Defence and intelligence agencies. They continue to check further. Any future United States (US) request for permission to rendite an individual through UK territory or airspace will be carefully recorded by British officials. Maintenance of records by US officials is a matter for the US Administration.

We have discussed rendition with the US Administration. The US Secretary of State made clear in her statement of 5 December available at www.state.gov/secretary/rm/2005/57602.htm that:

> The United States has respected—and will continue to respect—the sovereignty of other countries.
>
> The United States does not transport, and has not transported, detainees from one country to another for the purpose of interrogation using torture.
>
> The United States does not use the airspace or the airports of any country for the purpose of transporting a detainee to a country where he or she will be tortured.
>
> The United States has not transported anyone, and will not transport anyone, to a country when we believe he will be tortured. Where appropriate, the United States seeks assurances that transferred persons will not be tortured.

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government has asked the United States Administration whether the Gulfstream V aircraft that transited at Prestwick on 15 January 2002 was a rendition flight. [38963]

Dr. Howells: As my right hon. Friend the Prime Minister made clear in his response to the right hon. Member for Ross, Skye and Lochaber (Mr. Kennedy) at Prime Minister's Question Time on 14 December 2005, it would be absurd for the Government to investigate every flight transiting the UK which may have a connection to the United States Government.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs when the annual agreement between the US and the UK about flights into the UK originating in the US was last agreed; what changes if any were made; and if he will make a statement. [37218]

Ian Pearson: There is no annual agreement of the kind mentioned by the right hon. and learned Member. Administrative arrangements have been in place since 1949 under which on a reciprocal basis US and UK military and State aircraft have clearance to land at military airfields in each other's territory.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 5 December 2005, *Official Report*, column 1043W, on airspace (extraordinary rendition), what the *(a)* terms and *(b)* procedures are of the bilateral Air Services Agreement between the US and UK relating to (i) flights originating in the US into the UK and (ii) flights originating in third countries into the UK on their way to the US; when this agreement was last renewed; what changes have been agreed to it, on what dates, in each of the last five years; and if he will make a statement. [37276]

Dr. Howells: The Air Services Agreement (ASA) between the Governments of the United States (US) and United Kingdom was signed on 23 July 1977 and has been subject to a number of amendments, some of which have been the subject of formal exchanges of notes and some of which are applied administratively between the two Governments. Copies of the agreement and of the formal exchanges of notes amending it are available in the Library of the House (Command Papers 7016, 7332, 8222, 9720, 792 and 793). The most recent amendment to this agreement was made in April 2000.

The ASA sets out the framework for commercial air services between the two countries. It deals with matters such as designation and authorisation of airlines, security, competition, tariffs and other matters. It sets out the routes (city pairs) that can be operated and imposes certain restrictions on services operated from Heathrow and Gatwick. Negotiations between the EU and US about the possible replacement of the national bilateral agreements with a single agreement between the European Community, the member states and the US are at an advanced stage.

Mr. Keetch: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to the right hon. Member for North East Fife of 9 December 2005, *Official Report*, columns 1652–53W, on terrorist suspects (rendition), whether the US Administration has ever *(a)* sought permission for and *(b)* conducted extraordinary rendition of terrorist suspects via the UK's (i) dependent territories and (ii) sovereign bases. [39407]

Dr. Howells: As far as we are aware, the US Administration has neither sought permission to conduct, nor actually conducted, extraordinary rendition of terrorist suspects via the UK's Overseas Territories, including the Sovereign Base Areas.

Arms Trade

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions his Department has had with his counterparts in *(a)* the US and *(b)* the EU regarding the arms trade, with particular reference to (i) arms reduction and (ii) a total global arms ban. [40397]

Dr. Howells: We have regular bilateral and multilateral contacts both with our EU partners and with the United States to discuss the global trade in conventional arms, including our shared concerns over the irresponsible proliferation of these weapons.

While we have had no discussions about a total global arms ban, which we do not support, the Government are championing the elaboration of an international treaty on the arms trade and is working to secure the broad international consensus required to make this a reality. The G8 Summit at Gleaneagles in July agreed that

> "the development of international standards in arms transfers . . . would be an important step toward tackling the undesirable proliferation of conventional arms".

On 3 October, EU Foreign Ministers added the European Union's voice to the growing support for international treaty, and called for a formal process of negotiation to begin at the United Nations at the earliest opportunity. Commonwealth Heads of Government echoed the call for the start of a UN process toward a treaty when they met for the Commonwealth Heads of Government Meeting (CHOGM) in Malta in November.

Bangladesh

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest assessment is of human rights in Bangladesh; and if he will make a statement. [39612]

Dr. Howells: The human rights situation in Bangladesh is not good and appears to be deteriorating. We have serious concerns about reports of extra-judicial killings and torture by the Rapid Action Battalion and the civilian police. The persecution of religious and ethnic minorities, including the Ahmadiyyas, Hindus and Christians and indigenous groups is also a serious issue. We also have ongoing concerns about use of the death penalty and legal and penal systems that do not have the appropriate probity or capacity and about the safeguarding of women's and children's rights along with those of the disabled and other vulnerable groups.

During my visit to Bangladesh in November 2005, I underlined the UK's commitment to support human rights in Bangladesh during discussions with senior government representatives, human rights campaigners and representatives of religious and ethnic minorities. I also drew attention to this in a widely reported speech.

We accord human rights related work a very high priority in Bangladesh. The British high commission in Dhaka is actively engaged in promoting human rights in Bangladesh and raises human rights issues with the Government of Bangladesh on a regular basis. They have frequent contacts with human rights non-governmental organisations (NGOs) and provide funding to NGOs for human rights based programmes.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Bangladesh concerning the security of high commission staff following the attempt on the life of the British high commissioner. [39617]

Dr. Howells: The security of staff is a top priority and the Foreign and Commonwealth Office (FCO) makes every effort to manage the risk and fulfil its duty of care to all its staff world-wide. Since the grenade attack in Sylhet in May 2004 in which the British high commissioner was injured, we have taken every available opportunity to stress to the Government of Bangladesh the importance of bringing the perpetrators to justice, not least for the relatives of those who tragically died. It is obviously vital for the Government of Bangladesh to conclude credible investigations into this, and other attacks, as soon as possible.

Most recently, during my visit to Bangladesh in November 2005, I spoke to senior members of the Government of Bangladesh about our concern at the failure so far to bring the perpetrators to justice. Before that on 4 October 2005, Sir Michael Jay, permanent under secretary at the FCO raised this with his direct counterpart Mr. Hemayetuddin. The high commissioner in Dhaka and other officials continue to raise the case on a regular basis at senior level with the Government's representatives.

Brazil

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Brazil on *(a)* reform of the police service, *(b)* extra-judicial killings and *(c)* respect for human rights. [40589]

Mr. Douglas Alexander: The Government regularly raises with the Brazilian Government, bilaterally and with our European partners, the importance we attach to human rights, including police reform and tackling extra-judicial killings. The then Under-Secretary of State responsible for relations with Latin America, my hon. Friend the Member for Harlow (Bill Rammell) raised human rights issues with the Brazilian Government at the UK-Brazil High Level Political talks in February 2005 and our ambassador in Brasilia discussed these issues with senior members of the Brazilian judiciary and Ministry of Justice at a seminar in Brasilia funded by the British Government in December 2005.

Although serious abuses of human rights continue to take place in Brazil, we believe that the Brazilian authorities recognise the scale of the problem. Combating extra-judicial killings by law enforcement officials is a priority for Brazil's Sub-Secretariat for Human Rights. In addition, the Government support various projects with Brazilian partners to combat torture and improve the police and penal system. Our work enjoys the full support of the authorities both at local and federal level. We will continue to work with the Brazilian authorities and with Brazilian civil society to help address the various root causes of these problems.

China

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last discussed the lifting of the EU embargo on arms exports to China with the US Secretary of State. [37279]

Ian Pearson: My right hon. Friend the Foreign Secretary last discussed this issue, with the US Secretary of State, in May 2005. We have since established an EU-US Strategic Dialogue for discussion of security issues in East Asia.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of China about its persecution of practitioners of Falun Gong. [39670]

Ian Pearson: We continue to raise human rights abuses against Falun Gong practitioners with the Chinese Government, for example at the UK-China Human Rights Dialogue in June 2005, and among individual cases of concern on which we have sought responses from the Chinese authorities. Cases of Falun Gong practitioners were also raised at the EU-China Human Rights Dialogue in October 2005.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of China on the use of torture. [40430]

Ian Pearson: The Government urge China to end the use of torture. My right hon. Friend the Prime Minister raised the visit to China of the UN Special Rapporteur on Torture, Manfred Nowak, with Premier Wen Jiabao at the EU-China summit in September 2005. The EU, under the UK Presidency, raised the use of torture at the EU-China Human Rights Dialogue in October 2005. The issue was also discussed at the EU-China seminar on the ratification of the International Covenant on Civil and Political Rights in December 2005, and at the UK-China Human Rights Dialogue in June 2005. We have raised individual cases of alleged torture with the Chinese Government, most recently in Beijing in December 2005. We will continue to raise this issue with the Chinese authorities.

Coca Cultivation

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the statement by Bolivian Presidential candidate, Evo Morales, that he will lift the ban on coca cultivation in the Chapere region. [40429]

Mr. Douglas Alexander: It is for the new Bolivian Government to establish the overall direction of policy on coca cultivation but the UK hopes Bolivia will continue to respect international agreements already committed to. Where possible, we hope to continue to assist the Bolivian Government in its efforts to tackle drug trafficking.

Congo

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the government of the Democratic Republic of Congo on its proposed constitutional referendum. [39626]

Ian Pearson: The referendum on the new Congolese constitution took place on the 18 and 19 December 2005. Prior to the referendum, the UK, together with EU partners, pressed the Congolese authorities to work towards a peaceful and successful outcome. My right hon. Friend the Secretary of State for International Development emphasised this point during his November visit to the region.

We have congratulated the Congolese authorities on the referendum's successful completion. We continue to urge the Congolese Government and National Assembly to complete parliamentary consideration and ratification of the draft Electoral Law. This will maintain the momentum of the political process and ensure that the envisaged timetable for elections before 30 June 2006 can be met.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the demobilisation process in the Democratic Republic of the Congo. [40367]

Ian Pearson: The UK continues to support the United Nations Peacekeeping Mission in the Democratic Republic of the Congo (DRC) (MONUC), which is working with the DRC armed forces to demobilise militias. MONUC has already demobilised 17,500 former combatants and repatriated over 13,000 foreign combatants. The process has slowed in recent months and we continue to press the DRC Government to accelerate its efforts to disarm militias and integrate all combatants into the national army or civilian life.

The UK has committed £25 million to the Multi-Donor Regional Programme for Disarmament, Demobilisation, Repatriation, Rehabilitation and Reintegration. We have also contributed two of the eight officers in the EU's Security Sector Reform Mission, which offers advice and assistance to the Government in integrating rebel factions into a unified army prior to elections.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what monitoring of the recent referendum in the Democratic Republic of the Congo was undertaken by UK representatives; and if he will make a statement. [40368]

Ian Pearson: The EU sent an official Electoral Observation mission to the Democratic Republic of the Congo. UK representatives from the British embassy in Kinshasa also observed the constitutional referendum across the country on 18 and 19 December 2005. Despite the logistical challenges of organising a referendum in such a vast country, it took place in a largely peaceful and positive atmosphere, and the turnout was high.

We welcome the outcome of the referendum: the strong endorsement of the draft constitution underlines the desire of the Congolese people for completion of the transition to full democratic government as soon as possible.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of respect for human rights in the Democratic Republic of Congo. [40558]

Ian Pearson: The human rights situation in the Democratic Republic of the Congo (DRC) remains poor. Years of conflict, exacerbated by corruption, illegal exploitation of resources, the collapse of the state

and chronic poverty, have led to human rights violations and abuses of humanitarian standards by all sides.

The UK continues to remind the DRC authorities of the need to protect the rights of all vulnerable groups and to bring to justice all perpetrators of abuse. An EU-led Security Council Resolution on the DRC, adopted at last year's UN General Assembly, makes clear that the DRC Government must take action to improve human rights conditions, through better command and control of the armed forces, improved freedom of expression and better protection for human rights defenders.

The DRC is undergoing a process of political transition, which is expected to culminate in the election of a fully democratic government by mid-2006. This should provide the framework for sustained improvements in the human rights situation.

Correspondence

Mr. Tom Clarke: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter from the right hon. Member for Coatbridge, Chryston and Bellshill of 13 December 2005 concerning the case of the late James McInally, who died in Turkey. [39467]

Mr. Douglas Alexander: My right. hon. Friend's letter was received by consular directorate on 21 December 2005 and a reply issued on 4 January 2006.

Departmental Consultants

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many secondees there have been to his Department from consultancy firms, including the Big Four accountancy firms, in each of the last three years; and what areas of the Department they have worked in. [37358]

Mr. Straw: There has been one secondment in the past three years. The secondee came from PricewaterhouseCoopers and worked in the Inward Investment Group, United Kingdom Trade and Investment from 27 March 2002 until 31 March 2005.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent on external consultants and advisers by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39065]

Mr. Straw: The information requested is not held centrally and could be obtained only at disproportionate cost.

Stewart Hosie: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total administrative costs of his core Department were in the last year for which figures are available; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39836]

Mr. Straw: The total administration out turn for 2004–05 as shown in the Foreign and Commonwealth Office Resource Accounts was £752,907,000. For the purposes of public expenditure statistical analyses, these costs are non-identifiable, being in the general national interest and not identifiable against particular individuals or regions.

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs what the administrative costs were of each agency for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39851]

Mr. Douglas Alexander: The Foreign and Commonwealth Office has responsibility for Wilton Park, which is run as an Executive Agency. Wilton Park's Resource Accounts are published for financial year 2004–05 as part of the Wilton Park Executive Agency Annual Report and Accounts, a copy of which has been placed in the Library of the House (publication reference HC 234).

Within the Financial Statements section of the Annual Report, the Operating Cost Statement shows Total Administration Costs of £3,332,000-comprising Staff Costs of £1,932,000 and Other Administration Costs of £1,400,000. Details of what is included under this category are provided in Note 5 to the Accounts.

These costs are regarded as identifiable for the purposes of public expenditure statistical analysis.

Mr. Spellar: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on bottled water in 2004–05. [40335]

Mr. Douglas Alexander: The information requested is not held centrally and could be obtained only at disproportionate cost.

Departmental Guidance (Evidence/Documentary Access)

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is with regard to *(a)* Ministers and *(b)* officials in his Department giving evidence to the (i) Scottish Parliament, (ii) National Assembly for Wales and (iii) Northern Ireland Assembly committees; and to what categories of document he gives (A) full access, (B) restricted access and (C) no access to the (1) Scottish Parliament, (2) National Assembly for Wales, (3) Northern Ireland Assembly and (4) House of Commons select committees. [37415]

Mr. Douglas Alexander: There is no obligation for Ministers or officials to give evidence to Parliamentary Committees of the Devolved Assemblies. However, Ministers for Europe have appeared before the European and External Relations Committee of the Scottish Parliament. Most recently, the former Europe Minister, my right hon. Friend for Rotherham (Dr. MacShane) appeared before the Committee on 7 January 2004. Foreign and Commonwealth Office

(FCO) officials attended the European and External Affairs Committee of the Welsh Assembly also in September 2005. We would consider requests to appear before all Devolved Assembly Committees on a case by case basis.

Official documents are released to the Devolved Assemblies on an "as necessary basis", based upon the 2001 Memorandum of Understanding which agrees that each administration will aim to provide any information that may be reasonably requested by another administration to enable it to carry out its responsibilities effectively, provided that *(a)* this is practicable, *(b)* it would not involve disproportionate cost and *(c)* the information is available in reasonably accessible form (Part 1 para 10).

The FCO always seeks to respond positively to all requests to provide documents to select committees of the House in accordance with Ministers' general duties to account to Parliament for the policies, decisions and actions of their Departments. Special arrangements are made for classified documents.

Departmental Staff

Mr. Spellar: To ask the Secretary of State for Foreign and Commonwealth Affairs how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40290]

Mr. Douglas Alexander: The Foreign and Commonwealth Office (FCO) does not hold this information centrally and disproportionate time and resources would be needed to answer this question fully. However, the FCO does have a flexible working scheme which enables all staff to request to work flexibly. Examples of flexible working which our staff currently do include job-sharing, working from home and other remote locations, reduced hours, and condensed hours. As part of the FCO's work to improve the diversity of its workforce, we are constantly looking at ways to encourage more flexible working opportunities for staff.

Diplomatic Staff (Complaints)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* complaints and *(b)* grievances made by diplomatic staff to the management and individuals in the Senior Management structure of his Office *(a)* remain to be determined and *(b)* are unresolved; and what the duration of each outstanding complaint or grievance was from the date it was first lodged. [40490]

Mr. Straw: There are no grievances made by diplomatic staff that remain to be determined or that are unresolved under the Department's internal Grievance Procedure, a copy of which is in the Library of the House.

The Foreign and Commonwealth Office's Grievance Procedure encourages informal resolution of complaints in accordance with best practice guidelines. No record is kept centrally of such complaints unless attempts at informal resolution are unsuccessful and the formal procedure is invoked.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions in the past five years complaints or grievances made by diplomatic staff against the management and individuals in senior management of the Foreign and Commonwealth Office have been withdrawn following the payment of money in full and final settlements; and if he will make a statement. [40505]

Mr. Straw: No grievances invoked under the Department's internal procedure, a copy of which is in the Library of the House, have been withdrawn following the payment of money in the past five years.

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the *(a)* Joint Committee (EEC-Andora), *(b)* EC-Armenia Co-operation Committee and *(c)* Joint Committee (EEC-Estonia) have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39036]

Mr. Douglas Alexander: The first ever EC-Andorra Joint Committee meeting was held on 25 November this year, chaired by the European Commission. No UK representatives were present.

There have been no meetings of the Co-operation Committee with Armenia during the UK presidency and the EEC-Estonia Joint Committee no longer exists.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the *(a)* Joint Committee (EC-Romania) and *(b)* Joint Committee (EEC-Bulgaria) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39037]

Mr. Douglas Alexander: There are no Joint Committees as such, but there are EU-Association Committees for both Bulgaria and Romania. One meeting of the EU-Romania Association Committee has taken place under the UK presidency, on 15 July in Bucharest. This was chaired by the European Commission. A representative of the UK presidency was present as an observer. The EU-Bulgaria Association Committee has not met under our presidency. No provision was made for representation of the devolved governments at these meetings.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the *(a)* EC-Kazakhstan Co-operation Committee, *(b)* EC-Azerbaijan Co-operation Committee and *(c)* EC-Kyrgyzstan Co-operation Committee have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39042]

Mr. Douglas Alexander: During the UK presidency, there were no meetings of the Co-operation Committees with Kazakhstan and Azerbaijan.

A Co-operation Committee with Kyrgyzstan took place on 27 September in Brussels. Mr. Kurt Juul, European Commission, led the EU delegation. Mr. Kadyrbek Sarbaev, Deputy Minister of Foreign Affairs, led the Kyrgyzstan delegation. For the Presidency, Mr. Simon Smith, Director Russia, South Caucasus and Central Asia at the Foreign and Commonwealth Office, attended. No provision was made for representation of the devolved administrations at this meeting.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the *(a)* EC-Uzbekistan Co-operation Committee, *(b)* Joint Committee (EEC-Turkey) and *(c)* Joint Committee (EC-Albania) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39043]

Mr. Douglas Alexander: There were no meetings of the Co-operation Committee with Uzbekistan during the UK Presidency.

One meeting of the EC-Turkey Customs Union Joint Committee was held in Ankara on 13 December. The delegations were led by a Director-General from the European Commission and a Director-General from the Turkish Under-secretariat for Foreign Trade. British embassy officials in Ankara attended the meeting as observers.

There were no Joint Committee (EC-Albania) meetings held during the UK Presidency.

No provision was made for representation of the devolved administrations at these meetings.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the *(a)* Committee on financial and technical assistance and economic cooperation with developing countries in Asia and Latin America, *(b)* Committee on the development and consolidation of democracy and the rule of law and on the respect of human rights and fundamental freedoms and *(c)* Joint Committee (EEC-Mongolia) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39048]

Mr. Douglas Alexander: The Asia/Latin America Committee met four times during the UK Presidency, in July, September, October and November. The EU Committee on Human Rights and Democracy met once, in October. All these meetings were chaired by senior officials from the European Commission, with attendance by officials from the Foreign and Commonwealth Office and Department for International Development. No provision was made for representation of the devolved administrations at these meetings.

There have been no meetings of the EC/Mongolia Joint Committee during the UK Presidency.

Foreign Decorations

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer to the hon. Member for New Forest, East (Dr. Lewis) of 8 December 2005, *Official Report*, column 1558W, on foreign decorations, what the outcome of the Committee's considerations was. [39263]

Mr. Straw: The Committee on the Grant of Honours, Decorations and Medals' recommendations will be presented to the Queen shortly. An announcement about the Pingat Jasa Malaysia will be made as quickly as possible.

Immigration

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications to the UK visas section in Islamabad by persons seeking *(a)* work permits and *(b)* visas to come to the UK to take up employment in the restaurant trade have been (i) granted and (ii) refused in each of the last five years; and how many of those refused were granted an appeal. [38363]

Dr. Howells: It is not currently possible to break down UKvisas statistics on work permit applications by the type of work permit the applicant holds. There are various types of work permit and schemes, of which the Sectors Based Scheme (SBS) is one. The SBS was introduced in May 2003. However, the total number of work permit holder applications received, issued and refused by the visa section in Islamabad in each of the last five years is given as follows. The figures refer to applications for all types of work permit.

	Received	*Issued*	*Refused*
2000	512	474	38
2001–02	863	768	95
2002–03	1,197	1,079	118
2003–04	3,997	2,969	1,028
2004–05	4,496	2,442	2,054

Source:
UKvisas published statistics (www.ukvisas.gov.uk). Please note that prior to financial year 2001–02, statistics were published by calendar year.

All applicants for entry clearance as a work permit holder are granted the right of appeal, providing the work permit is valid and the applicant meets any age requirements.

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment is made of the knowledge of the restaurant trade of persons seeking *(a)* work permits and *(b)* visas from the UK visa section in Islamabad to travel to the UK to take up employment in that trade; [38364]

(2) what assessment is made by the UK visas section in Islamabad of the requirement of sponsoring persons in the UK restaurant trade to employ people with knowledge of Asian cuisine when considering applications by those seeking *(a)* work permits and *(b)* visas. [38365]

Dr. Howells: People who wanted to come to the UK to work in the restaurant trade had to acquire an immigration employment document (a form of work permit) under the Sectors Based Scheme (SBS). The SBS allowed workers from outside the European Economic Area (EEA) to take up low skill jobs within certain industry sectors for up to 12 months in the UK. On 31 July 2005, the Home Office announced the closure of the hospitality sector of the scheme, which encompasses the restaurant trade.

All work permit schemes are administered by Work Permits UK (WP (UK)), a division of the Home Office, and they decide all work permit applications by assessing the application against certain criteria of the labour market. For example, WP (UK) will check that the job exists, has been adequately advertised locally and within the EEA and that the proposed job complies with UK labour law and the national minimum wage. As the SBS is for low skill jobs, there is no requirement to employ people with extensive knowledge of a trade. An employer needs only to be aware that a potential employee has a basic understanding of the job they have been offered.

Once an immigration employment document has been issued under the SBS, the holder should apply for entry clearance. An Entry Clearance Officer (ECO) at one of our visa sections must assess this application against the requirements of paragraph 135 (I) of the Immigration Rules, which are available at www.indhomeoffice.gov.uk.

ECOs are not asked to assess an applicant's job skills, although they should defer an application and consult WP (UK) if there are obvious doubts about the applicant's physical and/or professional ability to undertake the employment specified and the applicant is unable to give a satisfactory explanation.

Interrogation

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what inquiries his Department has made of the use of sensory deprivation as an interrogation technique in foreign countries; whether his Department's travel advice for such countries takes account of such practices where there is sound evidence that they are carried out; and if he will make a statement. [38820]

Dr. Howells: The Foreign and Commonwealth Office (FCO) takes a keen interest in the security and human rights situations in foreign countries. The FCO's travel advice is produced on the basis of all available information relating to risks to British nationals in the country concerned. These will include risks from crime, terrorism and traffic accidents, as well as any other key relevant concerns.

Iran

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the E3 have had with Iran since 20 December 2005; and if he will make a statement. [40420]

Dr. Howells: E3/EU officials met an Iranian delegation in Vienna on 21 December 2005. The aim was to explore the scope for re-establishing an acceptable framework under which negotiations on long-term arrangements for Iran's nuclear programme might resume. The E3/EU pressed Iran to take steps that would build international confidence that its nuclear programme is for solely peaceful purposes and to address in full the requests of the International Atomic Energy Agency Board of Governors. The two sides agreed to hold a further exploratory meeting in January.

Israeli Activities (West Bank)

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what factors underlay the decision at the recent EU Foreign Ministers' meeting in Brussels not to publish the report by the British Consulate in Jerusalem on Israel's expansionist activities in East Jerusalem and the West Bank; and if he will make a statement. [39875]

Dr. Howells: As my right. hon. Friend the Foreign Secretary said after the 12 December 2005 General Affairs and External Relations Council,

> "we discussed the EU analysis on East Jerusalem submitted to Ministers by heads of mission in the region as well as by various committees here in Brussels. We decided given the changed circumstances in Israel and the Occupied Territories that this would not be endorsed or published and instead that we would continue to make strong representations to the Government of Israel about the matter."

Jamaica

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Jamaica on the legality of homosexuality. [40553]

Mr. Douglas Alexander: There has been no recent discussion of the issue but our position is well-known. Homosexuality is not illegal in Jamaica, although the country's sodomy laws criminalise certain sexual acts. The Jamaican Deputy Education Minister recently proposed a parliamentary debate on the possible repeal of the relevant legislation. The Government continue to monitor the situation and would welcome such a debate.

Kenya

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Kenya on *(a)* tackling corruption and *(b)* promoting good governance. [40534]

Ian Pearson: The British High Commissioner in Nairobi met with President Kibaki on 7 November. On Friday 25 November they met again, along with the High Commissioner's US, Canadian and Swedish colleagues.

Governance issues were discussed as well as the outcome of the referendum vote on the draft constitution on 21 November. The referendum was professionally and fairly administered and the outcome promptly accepted by the President, an important step for democratic accountability in Kenya. At the meeting on 25 November we highlighted the opportunity before the President to constitute a government that was committed to reforms, implementing services and acting against corruption.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact of the defeat of the proposed new constitution in Kenya in November. [40551]

Ian Pearson: In a referendum on a new constitution held on 21 November, 57 per cent. of the Kenyan electorate rejected the draft. As noted in a statement issued on 24 November by a number of diplomatic missions in Nairobi, the Electoral Commission of Kenya conducted a professional referendum process, the outcome of which was accepted by the Kenyan people and the President.

On 23 November President Kibaki dissolved his cabinet. On 7 December he announced a new team having declared the need for a more cohesive, balanced cabinet, better placed to deliver services and broad based development. Although this process is still on-going, we believe President Kibaki has a renewed opportunity to commit his government to on-going reform and the drive against corruption.

Northern Cyprus

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the purchase and development by British citizens of misappropriated land in Northern Cyprus; and if he will make a statement. [39408]

Mr. Douglas Alexander: The Government warn British citizens of the risks of purchasing property in northern Cyprus that arise from the international community's non-recognition of the self-declared "Turkish Republic of Northern Cyprus", the property implications of any future settlement and the claims to ownership of Cypriots displaced in 1974.

We further warn British citizens that they may face legal proceedings in the Cypriot courts and elsewhere in the EU, including the UK. The Government strongly advises British citizens to seek independent legal advice. This information is publicly available through our Travel Advice on the Foreign and Commonwealth Office website (www.fco.gov.uk) and given in response to all inquiries.

Norway (Whaling)

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Norwegian Government regarding cleaning up of Norwegian former whaling stations in South Georgia. [40758]

Mr. Douglas Alexander: In April 2003 the Commissioner for South Georgia and the South Sandwich Islands visited Norway to discuss this matter with the Norwegian Ministry of the Environment and the Directorate for Cultural Heritage. There have been a number of discussions since. Norway has not been involved in environmental clean-up work on South Georgia, but the Ministry of the Environment signalled last year its intention to contribute to projects for preserving the cultural heritage of its whaling activities on the Island. As a contribution to this work, last June the Norwegian County of Vestfold pledged £50,000.

Office of the Special Adviser on Gender Issues

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has put forward names of British women to the Office of the Special Adviser on Gender Issues to the Secretary General to be placed on the central roster of candidates in accordance with Article 3 of the Security Council Resolution 1325. [39307]

Ian Pearson: The UK Mission to the United Nations in New York has forwarded the CVs of 11 British women, received from the Women's National Commission, to the Office of the Special Adviser on Gender Issues (OSAGI). OSAGI has contacted successful applicants direct.

Orhan Pamuk

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent discussions he has had with the Government of Turkey on the prosecution of Orhan Pamuk; [40428]

(2) what assessment he has made of the implications of the prosecution of Orhan Pamuk for Turkish membership of the EU. [40494]

Mr. Douglas Alexander: I refer the hon. Member to the answer given in another place by the Foreign and Commonwealth Office Parliamentary Under-Secretary of State, Lord Triesman of Tottenham, on 20 December to the noble Lord Judd (HL2879).

Public Relations Companies

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the public relations companies that have had contracts with *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department and other such organisations since May 1997. [39066]

Mr. Straw: The Foreign and Commonwealth Office, its Diplomatic Missions overseas and its non-departmental public bodies occasionally employ public relations companies but details are not recorded centrally. To provide a breakdown listing individual PR contracts signed by the Department and the bodies for which it is responsible could be obtained only at disproportionate cost.

Russia (Missiles Sales)

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Russia on the sale of missiles to Iran. [40588]

Mr. Douglas Alexander: We are in close touch with the Russians about Iran, both bilaterally and through the EU, and as part of the E3/EU. We have made clear our concerns about Russian arms sales to Iran in a number of recent exchanges at official level, including on 6, 9 and 13 December. The established policy of the EU is not to sell arms to Iran.

Uganda

Mr. Hunt: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what steps the Government are taking as chair of the UN Security Council towards a resolution of the conflict in Northern Uganda; and if he will make a statement; [38232]

(2) what discussions his Department has had with the Government of Uganda on the access of UK non-governmental organisations to the north of Uganda; [38233]

(3) how many *(a)* letters, *(b)* faxes and *(c)* emails his Department has received from members of the public about the conflict in Northern Uganda since 1 December; and if he will make a statement; [38234]

(4) what support the UK Government are giving the Government of Uganda to facilitate a peaceful solution to the conflict with the Lord's Resistance Army; and if he will make a statement. [38235]

Ian Pearson: Assisting in the resolution of the conflict in Northern Uganda, and addressing its humanitarian impact, are priorities for the Government. During the UK's presidency of the United Nations (UN) Security Council in December 2005, we invited Jan Egeland, the UN Under Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator, to provide a briefing on humanitarian issues in Africa. This took place on 19 December and included the situation in Northern Uganda. A group of non-governmental organisations (NGOs) have written to my right hon. Friend the Foreign Secretary advocating a UN Security Council Resolution. This has since been supplemented to date by correspondence from about 1,000 members of the public. We are currently considering their ideas and how we can most effectively continue to address the situation in Northern Uganda.

In our discussions with the Ugandan Government, we emphasise the need to bring peace to Northern Uganda, provide adequate protection for the people of the North and those NGOs and aid agencies working there, and encourage those Lord's Resistance Army members not indicted by the International Criminal Court to seek amnesty and reintegration into their communities.

The UK has also provided support for specific peace initiatives, including the recent mediation effort led by Betty Bigombe, a former Ugandan Minister. We provide practical help to the Ugandan Amnesty Commission, which is helping to reintegrate former combatants, and have also helped establish a local radio station, MEGA FM, which, through its programming, helps promote peace.

UK Embassies/Consulates

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British *(a)* embassies and *(b)* consulates there are. [39863]

Mr. Douglas Alexander: The United Kingdom has 102 embassies, 40 high commissions, and 76 consulates.

United States (Treatment of Prisoners)

David Howarth: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made to the United States Administration about the amendment to the US 2006 Defence Appropriations Bill which would forbid the use of cruel, inhuman, or degrading treatment or punishment against any person in the custody of or controlled by the United States in any part of the world. [39315]

Dr. Howells: We welcome the recent agreement in the US to incorporate language into the Defence Appropriations Bill explicitly prohibiting the use of cruel, inhuman and degrading treatment by US personnel anywhere in the world. This sends a positive message that the US is committed to fighting terrorism while reaffirming its adherence to the rule of law and its respect for human rights. All forms of torture are of course strictly prohibited under US law and, as Secretary Rice and President Bush both recently clarified, this applies to all US personnel around the world.

We continue to engage fully and frankly with the US on these issues.

World Trade Organisation

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the EU's proposal for World Trade Organisation negotiations. [35753]

Ian Pearson: The European Commission is bound by a negotiating mandate granted by the Council of Ministers but has the freedom to determine strategy and tactics within the parameters of that mandate. The assessment of Her Majesty's Government is that the "offers" tabled by the European Commission on 10 and 28 October are within the remit of the negotiating mandate.

Her Majesty's Government continues to give its full backing to Trade Commissioner, Peter Mandelson, in his conduct of the negotiations and is committed to achieving an ambitious, pro-development conclusion to the DDA by the end of 2006.

I refer the hon. Member to the Statement to the House made by my right hon. Friend the Secretary of State for Trade and Industry on 20 December 2005.

Zimbabwe/Congo

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent developments in Zimbabwe. [40617]

Ian Pearson: Zimbabweans continue to suffer from the failure of their government's policies: the economy is shrinking, inflation is over 500 per cent. and millions require international food aid. Six months after mass housing demolitions, many Zimbabweans remain homeless. Meanwhile, the November 2005 Senate elections have done nothing to restore democratic governance.

The Government have responded by: providing further humanitarian aid to Zimbabweans, £40 million in 2005; maintaining a firm EU approach; focusing United Nations Security Council attention on the

matter; and pressing Zimbabwe's neighbours to address the continuing economic, humanitarian and political crisis created by the Government of Zimbabwe.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the safety and security of civilians in *(a)* Zimbabwe and *(b)* the Democratic Republic of Congo. [40556]

Ian Pearson: Zimbabweans continue to face politically motivated violence and intimidation perpetrated by the state. For instance, the Zimbabwe Human Rights Non-Governmental Organisations Forum estimates that there were 43 cases of assault in October 2005, most by the army or police. On 5 December, the African Commission on Human and Peoples' Rights adopted a resolution expressing concern about the human rights situation in Zimbabwe. This is available at http://www.zlhr.org.zw/media/releases/jan_02_06.htm

Years of conflict in the Democratic Republic of the Congo (DRC), exacerbated by corruption, illegal exploitation of resources and the collapse of the state, have led to human rights abuses and a high level of crime. Security Sector Reform is one of the primary aims of the EU's support to the DRC transitional government. We hope that the political transition in the DRC will culminate in the election of a democratic government by mid-2006, which should provide the framework for sustained improvements in the security and human rights situation.

The Foreign and Commonwealth Office website (www.fco.gov.uk) provides travel advice for Zimbabwe and the DRC, warning of the risks to travellers, and providing background information on the human rights situation.

CABINET OFFICE

Central Information Office

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster how many civil service persons are employed in the Central Information Office; and how many were employed in 1997. [39656]

Mr. Jim Murphy: At the end of November 2005 there were 646.7 full-time equivalent staff, including fixed term contract staff employed in the Central Office of Information.

The corresponding figure for 1997 (1996–97 outturn) was 500.8.

Civil Service

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster when he expects to be in a position to bring forward a Civil Service Bill. [39654]

Mr. Jim Murphy: I refer the hon. Member to the answer I provided on 8 November 2005, *Official Report*, column 159 to the my hon. Friend the Member for Cannock Chase (Dr. Wright).

Departmental Expenditure

Mr. Spellar: To ask the Chancellor of the Duchy of Lancaster how much his Department spent on bottled water in 2004–05. [40342]

Mr. Jim Murphy: The provision of water dispensers/coolers in the Cabinet Office, which are located in reception and common areas, are provided as part of the total facilities management contract. The cost in 2004–05 was £23,000. The figure excludes the National School for Government in Sunningdale and the Emergency Planning College in York as such costs are included within an overall service charge paid as part of a public private partnership/private finance initiative and multi-activity facilities management contract, respectively.

Costs identified for the provision of bottled water for hospitality purposes would not fully reflect the Cabinet Office as a whole as other such costs are either included within an overall service charge and therefore cannot be separately identified or obtained without incurring disproportionate costs.

Departmental Staff

Mr. Spellar: To ask the Chancellor of the Duchy of Lancaster how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40297]

Mr. Jim Murphy: Cabinet Office does not hold figures on the number of employees who have worked from home for at least one day a week in the last year.

Cabinet Office recognises occasional working from home as an option available to employees within our flexible working policy. The policy also includes flexi-time, condensed hours and part-time/term time working. Employees agree their work patterns with line managers, and these are managed at local unit levels. Employees can participate in a formal departmental staff network for those working part-time and alternative working patterns.

Departmental Websites

Mr. Duncan: To ask the Chancellor of the Duchy of Lancaster which companies provided sponsorship towards the cost of his Department's getsafeonline website; how much each provided; and if he will make a statement. [39426]

Mr. Jim Murphy: Get Safe Online is a joint public and private sector initiative to raise awareness of internet security among the general public and micro-businesses. Its main emphasis is a new website, www.getsafeonline.org, which provides reliable, trustworthy and up-to-date information about online safety to give home users and small businesses the advice they need to use the internet safely.

There are 10 founding sponsors of Get Safe Online including the Cabinet Office. Each of the following organisations has contributed £150,000 including advertising/public relations contributions to the promotion of the campaign: BT, Cabinet Office, Dell, eBay, HSBC, Lloyds TSB, Message Labs, Microsoft, Secure Trading and Yell.com.

Both industry and Government have an interest in making the internet a safe place for people to go about their business. Just as the retail and financial sectors need to ensure that their customers feel secure in shopping and banking online so do we in Government want to make sure that people have the necessary trust and confidence in using Government services online.

We are very pleased to be involved in Get Safe Online. It has been a very good example of Government, private sector and law enforcement coming together to address an issue that affects us all. We are continuing our involvement and will work with the other sponsors to ensure the ongoing success of the campaign.

Mr. Duncan: To ask the Chancellor of the Duchy of Lancaster how many IT companies have provided sponsorship for his Department's getsafeonline website; and which of these companies are UK-based. [39734]

Mr. Jim Murphy: Get Safe Online is a joint public and private sector initiative to raise awareness of internet security among the general public and micro-businesses. Its main emphasis is a new website, www.getsafeonline.org, which provides reliable, trustworthy and up-to-date information about online safety to give home users and small businesses the advice they need to use the internet safely.

The campaign is driven by sponsorship in from Government as well as the retail, financial and technology sectors. There are three sponsor organisations which could be broadly termed as information technology companies. These are: Dell, Message Labs and Microsoft. Of these, Message Labs is the only UK based company. The sponsorship provided by these companies and the other sponsors is not only for the website but for the marketing and public relations activity to promote awareness of internet security as well as the website.

Government Information Service

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster what the running costs of the Government Information Service were in each year since 1997. [39657]

Mr. Jim Murphy: The Government Communication Group (GCG) in the Cabinet Office is the central unit now responsible for standards in Government communication, the professional network for Government communicators and cross-departmental co-ordination of communications. Its expenditure and that of its predecessor the Government Information and Communication Service are shown in the table; no figures are available for years before 1998–99. GCG's budget allocation for 2005–06 is £2,388,000.

Expenditure of Government Information and Communication Service

£000

	Expenditure
1998–99	543
1999–2000	513
2000–01	570
2001–02	805
2002–03	4,510
2003–04	2,374
2004–05	1,295

Costs have varied significantly over this period as various functions have been transferred into and out of GCG/GICS and it has taken on new projects. The most significant changes have been:

responsibility for emergency communications co-ordination from 2001–02 to 2003–04;

organising HM Queen's Jubilee media facilities in 2002–03;

the 2005–06 Budget reflects the impact of implementing the Phillis review, an independent review of Government communications, which the Government accepted in 2004 and which established a new Government communication network and a Government communication group, including responsibility for co-ordinating cross-departmental communication issues.

Ministerial Committee on London

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster how many times the Ministerial Committee on London has met in the last 12 months. [39484]

Mr. Jim Murphy: It has been the practice of successive Governments not to disclose information relating to the proceedings of Cabinet Committees, including the number of times they have met.

INTERNATIONAL DEVELOPMENT

African Parliaments

Hugh Bayley: To ask the Secretary of State for International Development what action the Government have taken to establish partnerships to strengthen *(a)* parliaments in Africa and *(b)* the pan-African Parliament since the publication of the Commission for Africa report; and if he will make a statement. [39415]

Hilary Benn: In support of partnerships to strengthen African Parliaments, DFID has recently provided £282,000 to the Parliamentary Network on the World Bank (PNoWB) to support the establishment of three new African 'Chapters' (or regional networks). The PNoWB will help build the capacity of parliamentarians in Africa to be more effective advocates for national policies and plans focused on tackling poverty. This will be achieved through enhancing their role as legislators, and strengthening their capacity to hold their Governments to account and scrutinise the role of donors. Our support will also help build links with developed country Parliaments and development partners, the Pan-African Parliament (PAP), the African Union (AU) and the African Union-New Partnership for Africa's Development (AU/NEPAD), and other parliamentary organisations in Africa.

The PAP receives its core funding from the AU's regular budget. It held its first inaugural session in March 2004, and as a young organisation is still primarily focused on adopting its rules and procedures. DFID has not, as yet received any request for funds for support to the PAP, but would be happy to consider such a request in due course.

Coca Production

John Bercow: To ask the Secretary of State for International Development what assistance his Department has given to facilitate sustainable alternatives to coca production in the Andes region. [40591]

Hilary Benn: The most recent bilateral project supported by DFID on coca production in the Andes region was in the Lower Huallaga Valley of Peru, which aimed to promote economic and institutional development and increase rural incomes in order to reduce the illegal cultivation of coca. This six year project with a commitment of £3.2 million ended in December 2004. Assistance in the Andes region is now part of DFID's Regional Assistance Plan for Latin America, working closely with International Finance Institutions (particularly the World Bank and Inter American Development Bank) to improve the poverty impact of their programmes in the region.

Programmes to develop sustainable alternatives to coca production are an important element of the European Union's assistance to the region, which DFID supports through its 18 per cent. contribution. The EU has Country Assistance Strategies with each Andean region country that are consistent with EU policies and those of country governments. The fight against drugs takes a special place in the EU's relationship with the Andean region, with a unique EU-Andean region High Level Specialised Dialogue on Drugs. The EU has welcomed the recent Comprehensive Andean Strategy on Alternative Development.

Congo

Jeremy Corbyn: To ask the Secretary of State for International Development what the total staffing level is of his Department's office in Congo; and what the expected level is for 2006–07. [39925]

Hilary Benn: The DFID office in the Democratic Republic of the Congo (DRC) currently has a complement of 33 permanent members of staff. Staff numbers are due to increase to 35 during 2006.

Jeremy Corbyn: To ask the Secretary of State for International Development what support has been given to the rehabilitation of child soldiers in Congo; and if he will make a statement. [39928]

Hilary Benn: In April 2002 DFID, the Foreign and Commonwealth Office (FCO) and the Ministry of Defence (MOD) agreed to use the Africa Conflict Prevention Pooled Fund to channel US$25 million over 5 years, to the World Bank-led regional Multi-country Demobilisation and Reintegration Programme (MDRP). This multi-country initiative finances the Disarmament, Demobilisation and Re-integration (DDR) programme in the Democratic Republic of the Congo (DRC) among others in the region. The MDRP funds four special sub-projects in the DRC that focus specifically on the demobilisation and reintegration of child soldiers, both boys and girls, into their home communities.

The most recent review of the MDRP in the DRC, states that as of September 2005, 14,478 child soldiers had been released from armed forces and entrusted to child protection agencies; some 7,794 had been reunified with their families, 5,895 had been reintegrated in the education system, and 4,001 were receiving vocational training.

Consultants

Martin Horwood: To ask the Secretary of State for International Development if he will list departmental projects conducted by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29065]

Hilary Benn: I refer the hon. Member for Cheltenham to the answer given on 21 October 2004, *Official Report*, column 850W, which lists DFID consultancy contracts for the Development Programme to 31 March 2004. I have arranged for the document entitled 'Consultancy Contracts issued from 1 April 2004 to 31 March 2005' to be placed in the Libraries of the House. This does not include lower-value contracts issued by DFID's overseas offices, of which there is no consolidated central record. It would incur a disproportionate cost to produce a list of those contracts.

The total cost of consultants in each year is shown in the following table.

	Total cost of consultants (£ million)
2000–01	194
2001–02	210
2002–03	222
2003–04	215
2004–05	219

Source:
Statistics on International Development—Date: 3 November 2005.

Darfur

John Bercow: To ask the Secretary of State for International Development (1) whether the World Health Organisation intends to conduct a mortality survey in Darfur; [39703]

(2) what representations have been made within *(a)* the EU and *(b)* the UN in support of a mortality survey in Darfur; [39702]

(3) what steps have been taken by his Department to conduct a comprehensive mortality survey in Darfur. [39701]

Hilary Benn: The UN released the report of its second mortality survey in Darfur in October 2005. The overall findings, which cover the period from November 2004 to May 2005, are that mortality rates are below crisis levels, but still elevated. The only exception is in South Darfur, where under-five mortality was above crisis levels. When compared to the previous survey in August 2004, it can be concluded that the international humanitarian response has had a significant impact in saving lives. However the situation remains precarious.

Estimates of deaths in Darfur vary from 70,000 to 400,000. Accurate figures are not available. The two mortality surveys, which the World Health Organisation (WHO) co-ordinated, only provide a snapshot of the situation and we are unlikely ever to get a full picture of deaths from this conflict. The undertaking of mortality surveys has proved difficult in Darfur due to the security situation. While not comprehensive, these WHO surveys do provide a useful understanding of the situation and how it is changing.

DFID contributed to the funding of this last survey as these offer a means to gauge the effectiveness of the relief operation and, specifically, to improve the healthcare response. The UN has indicated it would be

desirable to do further surveys in Darfur in the future. DFID will continue to support the UN to undertake these.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for International Development how much was spent on advertising by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39088]

Hilary Benn: DFID does not hold a separate advertising budget. Spend on advertising, including VAT, for the five calendar years 2000–04 is as follows:

	£
2000	751,972
2001	1,208,192
2002	914,571
2003	849,196
2004	700,077

Expenditure figures prior to 2000 are not available and figures for 2005 have still to be finalised. DFID does not directly fund advertising by non-departmental public bodies, Executive agencies or independent statutory bodies.

Mr. Spellar: To ask the Secretary of State for International Development how much his Department spent on bottled water in 2004–05. [40331]

Hilary Benn: DFID spent £2,432 on bottled water in the UK during 2004–05. This sum relates to, and includes the rental cost of, the provision of water coolers. Information on bottled water supplied at meetings, or similar expenditure in overseas offices, is not held centrally and cannot be obtained without incurring a disproportionate cost.

Departmental Staff

Mr. Weir: To ask the Secretary of State for International Development how many and what percentage of the jobs in *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which his Department is responsible are located in (A) Scotland, (B) England, excluding Greater London, (C) Greater London, (D) Wales, (E) Northern Ireland and (F) overseas. [39871]

Hilary Benn: The figures regarding job locations are published in Civil Service Statistics and this information is available at the following address on the Cabinet Office Statistics website: http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp.

Within these figures some 453 staff, around a quarter of DFID's home based civil service work force, are currently serving in our offices overseas.

In addition to the above numbers, DFID also employs 917 staff appointed in country overseas.

There are no other non-departmental public bodies, executive agencies or other public bodies for which DFID is responsible.

Mr. Spellar: To ask the Secretary of State for International Development how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40287]

Hilary Benn: The Department for International Development (DFID) does not hold centrally comprehensive data on all staff who work from home for at least one day a week and this information could be obtained only at a disproportionate cost.

DFID is committed to providing a working environment which values our work force. One of the ways in which we do this is to make it possible for all staff to balance the demands of work and their commitments outside the office. Flexible working in various forms, including access to home working on a regular or occasional basis, has existed in DFID for some years.

Developing Countries

Andrew George: To ask the Secretary of State for International Development what proportion of the aid and debt relief for developing countries in the Communiqué following the G8 summit at Gleneagles is targeted at people living in extreme poverty. [39762]

Hilary Benn: Agreement was reached on increasing the volume of official development assistance (ODA) provided by the G8 and other donors by US$50 billion a year by 2010. ODA is defined as aid flows to the poorest countries, as set out in the Organisation for Economic Co-operation and Development (OECD) Development Assistance Committee (DAC) list of ODA recipients. Under the Multilateral Debt Relief Initiative, relief will be delivered to heavily indebted poor countries (HIPCs) that have demonstrated their commitment to poverty reduction. The additional aid and debt relief will be used to accelerate progress towards the Millennium Development Goals that aim to halve the proportion of people living in extreme poverty by 2010.

Andrew George: To ask the Secretary of State for International Development how many people he estimates will be living in extreme poverty in developing countries by 2015 by *(a)* country and *(b)* continent. [39764]

Hilary Benn: DFID does not produce any estimates of the number of people living in extreme poverty. The World Bank produces annual estimates at regional and global level of the numbers of people living in extreme poverty. These estimates are based on the number of people living on less than $1 per day. They do not publish country level estimates, except for China. The latest estimates were published in Global Economic Prospects 2006, table 1.3, as follows.

Millions of people living on less than $1 per day

	1990	2002	2015
East Asia and the Pacific	472	214	14
China	375	180	11
Rest of East Asia and the Pacific	97	34	2
Europe and Central Asia	2	10	4
Latin America and the Caribbean	49	42	29
Middle East and North Africa	6	5	3
South Asia	462	437	232
Sub-Saharan Africa	227	303	336
Total	1,218	1,011	617

Andrew George: To ask the Secretary of State for International Development what assessment he has made of the number of people lifted out of extreme poverty as a result of pro-poor funding by his Department in developing countries in each of the past 10 years for which records are available, broken down by *(a)* country and *(b)* continent. [39765]

Hilary Benn: DFID has not produced such an assessment. Globally over 200 million people have been lifted out of poverty between 1990 and 2002[1]. DFID funding has directly contributed to this through funding to developing country governments, civil society, the private sector as well as to multilateral institutions, including the World Bank, United Nations agencies, and the European Commission.

[1] Table 1.3, Global Economic Prospects 2006, World Bank.

Andrew George: To ask the Secretary of State for International Development what funds his Department has provided for pro-poor programmes in developing countries in each of the past 10 years for which records are available, broken down by *(a)* country and *(b)* continent. [39766]

Hilary Benn: I have arranged to place copies of a document entitled "Expenditure by the Department for International Development on Development Assistance to Developing Countries from 1995/96 to 2004/05", setting out the bilateral expenditure by DFID on Development Assistance to developing countries over the past 10 years in the Libraries of the House. DFID also provides funding to-multilateral institutions which will benefit these developing countries.

EU Committees

Angus Robertson: To ask the Secretary of State for International Development how many meetings of the EU *(a)* Committee on implementation of humanitarian aid operations and *(b)* Joint Committee (EEC-Côte d'Ivoire) have taken place during the UK Presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [38776]

Hilary Benn: The Humanitarian Aid Committee (MAC) operates independently of the Presidency. It is convened and chaired by the Commission and is constituted for member states to assist the Commission with implementation of Council Regulation No 1257/96 of 20 June 1996 concerning humanitarian aid. The EC's humanitarian aid programme provides assistance, relief and protection to victims of natural disasters and man-made crises in third countries, as well as preparedness for risks of natural disasters. It approves annual allocations ("global plans") to countries suffering chronic humanitarian crises, as well as emergency response to disasters. The HAG meets on average, once a month, excluding August. In addition to this, each Presidency usually holds an informal MAC to discuss issues of substance in more detail.

The Humanitarian Aid Committee has met four times during the UK Presidency, in September, October, November and December. The UK was represented by officials from DFID's Conflict and Humanitarian Affairs Department. These meetings were chaired by the Commission, either the Director General or Deputy Director of DG the EC Humanitarian Office (ECHO). In October it also met in informal session in London and was then chaired jointly by the ECHO Director General and by DFID's Director of UN Conflict and Humanitarian Division.

The UK Government take into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12- 15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister, of which copies are available on the internet and can be found at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

We are not aware of any meetings of a joint EEC - Cote d'Ivoire committee.

Angus Robertson: To ask the Secretary of State for International Development how many meetings of the *(a)* European Development Fund Committee, *(b)* Advisory Committee on the special system of assistance to traditional ACP suppliers of bananas, *(c)* Committee on co-financing operations with European non-governmental organisations in fields of interest to developing countries and *(d)* Committee on food security and food aid have taken place during the UK presidency of the EU; who presided over each meeting; why other UK representatives were present; what provisions were made for representation of the devolved Governments; and if he will make a statement. [38043]

Hilary Benn: The European Development Fund Committee met four times during the UK presidency, in July, September, October and November 2005. The Advisory Committee on the special system of assistance to traditional African, Caribbean and Pacific countries (ACP) suppliers of bananas met once, in November 2005. All these meetings were chaired by senior officials from the European Commission, with attendance by officials from the Department for International Development and the United Kingdom Permanent Representation to the European Union.

There have been no meetings of the Food Security and Food Aid Management Committee or the Non-Government Organisation (NGO) Co-financing Management Committee during the UK presidency.

As a matter of law, all foreign policy issues and relations with the European Union are non-devolved and are the responsibility of the Parliament and Government of the United Kingdom as a member state. It is the responsibility of the lead Whitehall Department formally to notify the devolved administrations at official level of any new EU obligation which concerns devolved matters. The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters.

GM Crops

John Bercow: To ask the Secretary of State for International Development what proportion of *(a)* departmental expenditure and *(b)* departmental funding for research was allocated to the development of GM crops in each of the last three years. [40592]

Hilary Benn: The proportion of *(a)* DFID departmental expenditure and *(b)* departmental funding for research allocated to the development of GM crops in each of the last three years is as follows:

(a) No departmental expenditure with the exception of research figures below.

(b) Research commissioned by DFID as a proportion of DFID's research budget: 2003–04 0.37 per cent; 2004–05 0.35 per cent.; and for 2005–06 0.23 per cent. (predicted).

John Bercow: To ask the Secretary of State for International Development what assessment he has made of the impact of GM crops on *(a)* least developed countries and *(b)* middle income countries. [40594]

Hilary Benn: Our approach to GM crops and their potential impact on developing countries very seriously. Our approach is based on the principle that the health of people and of the environment is of primary concern. We recognise that GM technology in itself will not solve the problem of world hunger. Our assessment of the impact of GM crops is that they can however be used safely and effectively to promote development and reduce poverty, if managed responsibly and applied to those crops on which the poor rely.

DFID does not actively promote or not promote the use of GM technologies in developing countries.

Recognising that there are both potential benefits and risks associated with GM crops, developing countries should be able to make their own informed choices about whether to adopt GM technologies. To this end, DFID has helped fund research into Genetically Modified crops and their potential use in developing countries. The proportion of DFID's research spent on GM crops research has been 0.37 per cent. in 2003–04 and 0.35 per cent. in 2004–05 and is predicted to be 0.23 per cent. for 2005–06. This research has not involved assessing either *(a)* least developed countries or *(b)* middle income countries as a whole; projects have looked at more specific issues.

DFID also worked with the Department for the Environment, Food and Agriculture (DEFRA) and other Government Departments to support international negotiations to establish the Cartagena Protocol on Biosafety, under the Convention on Biological Diversity. The Protocol will work to ensure that countries are provided with the information necessary to make informed decisions before agreeing to the import of genetically modified organisms. It will also facilitate the exchange of information on living modified organisms even if there is a lack of scientific certainty on the extent of such potential adverse effects.

HIV/AIDS

Mr. Hunt: To ask the Secretary of State for International Development pursuant to the oral answer of the Chancellor of the Exchequer of 8 December 2005, *Official Report*, column 984 on HIV/AIDS, what policy measures his Department are implementing to ensure that the target of universal access to antiretroviral drugs is met by 2010. [38336]

Hilary Benn *[holding answer 19 December 2005]:* Gleneagles secured an important agreement

"to develop and implement a package for HIV prevention, treatment and care, with the aim of as close as possible to universal access to treatment for all those who need it by 2010".

Progress has been made since Gleneagles. The universal access commitment was also agreed by members states at the Millennium Summit in September. Building on these commitments, the Joint United Nations Programme for HIV/AIDS (UNAIDS) have set up a Global Steering Committee (GSC), co-chaired by the UK and UNAIDS. The focus of the GSC will be to clarify and prioritise the major obstacles that impede scale-up of prevention, treatment, care and support services in individual countries and communities and to identify appropriate solutions and actions. The GSC will meet for the first time in Washington DC on 9–10 January 2006 and is expected to provide a progress report to the High Level UN General Assembly Special Session in mid 2006.

The initial GSC discussions will focus on:

Adequate financing for scaled up AIDS responses (including addressing the macroeconomic constraints).

Human resource capacity and health, social and education system constraints.

Affordable commodities and low-cost technologies.

Human rights, stigma, discrimination and gender equity.

The role of targets and milestones in driving national efforts to scale up AIDS responses.

Internationally, there is a strong, shared commitment to joint action on universal access and that efforts must:

be country-owned and country-led;

develop a package which balances treatment, prevention and care—a comprehensive response is essential to achieve the ambitious 2010 goal;

situate actions to achieve Universal Access in wider efforts to eradicate poverty, strengthening broader services, including health services;

involve all key players: civil society, private sector, donors and affected countries.

Humanitarian Programmes

John Bercow: To ask the Secretary of State for International Development what steps have been taken by his Department in support of the UN's appeal for $4.7 billion to fund humanitarian programmes in 2006. [40597]

Hilary Benn: The United Nations Humanitarian Appeal 2006, covers 26 countries and seeks to support some 231 million people worldwide. We are considering the various Consolidated Appeals and Country Plans in consultation with other donors and will decide on an appropriate United Kingdom contribution to the respective Appeals and Plans shortly.

In conjunction with some other donors, DFID is piloting a more flexible way of funding the appeals in the Democratic Republic of the Congo and Sudan. We intend to provide significant contributions to both, as unearmarked funding for the United Nations Humanitarian Co-ordinator to deploy on the highest priority unmet needs in the appeal. We have also pledged £40 million to the reformed Central Emergency Response Fund that was launched at the United Nations Millennium Review summit, as a way of promoting faster response and greater equity in humanitarian funding. This will be available for the United Nations Emergency Relief Coordinator to deploy on underfunded appeals, as well as on new crises that arise.

Millennium Development Goals

Andrew George: To ask the Secretary of State for International Development what steps his Department is taking to ensure that Millennium Development Goal 1 is met in sub-Saharan Africa by 2015. [39763]

Hilary Benn: DFID assistance to Africa will be over £1 billion in 2005–06 rising to at least £1.25 billion in 2007–08, targeted on the Millennium Development Goals. The G8 agreed at the Gleneagles summit to double aid to Africa by 2010.

In addition, boosting economic growth is fundamental to making progress with eradicating extreme poverty and hunger (Millennium Development Goal 1). This requires more private sector investment, better roads to link producers to markets, and increasing the benefit Africa receives from regional and global trade. These are all areas in which DFID is actively engaged. For example, DFID will provide £21 million to the African Union—New Partnership for Africa's Development (AU-NEPAD) Investment Climate Facility which will help improve the environment for the private sector. DFID also acts to help ensure growth benefits the poorest—such as helping to increase the productivity of agriculture and creating jobs in non-agricultural labour markets.

DFID is also working to halve the number of people facing hunger in Africa by 2015. This often means providing humanitarian support for the effects of drought. During 2005 for example, DFID provided £64 million humanitarian relief to southern Africa alone.

While continuing to respond promptly to crises, we are working to tackle chronic hunger more effectively. Poverty is an important factor. When large numbers of people live below the poverty line, even the smallest of shocks can lead to destitution and hunger. DFID is aiming to help countries that suffer from chronic hunger to establish safety nets to protect the most vulnerable from hunger (such as the elderly or orphans) and stop others falling into destitution as a result of shocks like drought or illness.

For example, in Ethiopia we are giving £70 million over three years to support a programme which aims to provide people with predictable and regular transfers of cash and food. This helps meet food gaps while also allowing households to invest in health, education or increase their farm production. In this way, safety nets can also serve as a springboard for poor households which can otherwise struggle to participate in economic growth. We aim to scale up this approach in Zambia, Kenya, Malawi and Lesotho over 2006.

Parliamentary Questions

Mr. Amess: To ask the Secretary of State for International Development how many parliamentary questions to his Department in the period November 2004 to April 2005, were answered with the response that the information requested *(a)* is not held centrally and *(b)* could be obtained only at a disproportionate cost; how many were referred on to an agency chief executive; and what percentage of the total number of questions asked this constituted in each case. [16637]

Hilary Benn: For the period between November 2004 to April 2005, there were 834 parliamentary questions tabled to DFID; of which none were referred to an agency chief executive for answering and eight were answered with the response that the information is not held centrally or that the response could be obtained only by incurring a disproportionate cost.

Public Relations Companies

Mr. Weir: To ask the Secretary of State for International Development if he will list the public relations companies that have had contracts with *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department and other such organisations since May 1997. [39087]

Hilary Benn: The Department for International Development (DFID) use consultants to cover a range of activities The following public relations companies have been used since 1997:

Brunswick Group
Weber Shandwick
LLM Communications
Financial Dynamics
Cubitt Consulting
Bell Pottinger Public Affairs

Public Service Agreements

Andrew George: To ask the Secretary of State for International Development what systems are in place

to measure his Department's progress against its public service agreement targets; and what baselines are used. [39767]

Hilary Benn: Progress against the Department for International Development's public service agreement (PSA) targets is assessed twice-yearly in DFID's autumn performance reports and departmental reports. The most recent analysis of progress against the Department for International Development's public service agreement (PSA) targets for the period 2003 to 2006 was published in the autumn performance report 2005, which was laid before Parliament on 9 December 2005. It is available both in hard copy in the Libraries of the House and electronically on DFID's website (http://www.dfid.gov.uk/pubs/files/autumnperfreport05.pdf).

The technical note to DFID's 2005–08 public service agreement provides full details of the indicators and methodologies which are used to monitor performance against the targets. The technical note is available on DFID's website www.dfid.gov.uk/pubs/files/PSA/technicalnotes.pdf

Both the twice-yearly reports and the technical note contain information on the baselines used for DFID's PSA targets.

Andrew George: To ask the Secretary of State for International Development what assessment his Department has made of its progress towards reaching its 2003 to 2006 public service agreement targets. [39768]

Hilary Benn: Progress against the Department for International Development's public service agreement (PSA) targets is assessed twice-yearly in DFID's autumn performance reports and departmental reports. The most recent analysis of progress against the Department for International Development's public service agreement (PSA) targets for the period 2003 to 2006 was published in the autumn performance report 2005, which was laid before Parliament on 9 December 2005. It is available both in hard copy in the Libraries of the House and electronically on DFID's website (http://www.dfid.gov.uk/pubs/files/autumnperfreport05.pdf). Updated assessments of performance against all PSA targets and sub-targets will be provided in DFID's departmental report 2006, which we expect to be published in late April.

Rwanda

Jeremy Corbyn: To ask the Secretary of State for International Development what assessment he has made of the cost to Rwanda of refugees from the war in eastern Congo; and if he will make a statement. [39611]

Hilary Benn: The Government of Rwanda have established a National Council for Refugees, linked to the Ministry for Local Government and Community Affairs. The Council has responsibility for verifying the status of refugees, for refugee welfare and safety including resettlement, and where appropriate for repatriation. The Council estimates that there are up to 40,000 Congolese refugees currently in Rwanda.

The Council does not have a large budget but relies mostly on funding from the United Nations High Commissioner for Refugees (UNHCR). The UNHCR's office in Rwanda estimates costs related to the care and maintenance of Congolese refugees in Rwanda to be about US $26,826,000 over the past five years. Annual programme expenditure figures (in US$) are as follows:

	US$
2000	3,619,591
2001	4,143,936
2002	3,634,261
2003	3,736,246
2004	3,894,721
2005	4,178,046

These figures do not include Government of Rwanda or UNHCR staff costs.

Western Sudan

John Bercow: To ask the Secretary of State for International Development what assessment he has made of the impact of the withdrawal of UN staff from western Sudan on *(a)* the humanitarian situation and *(b)* the internally displaced persons camps. [39704]

Hilary Benn: The UN has gradually reduced its staff in West Darfur in the last quarter of 2005 due to the deteriorating security situation. On 5 January, the UN also raised their security levels to Phase IV in some parts of West Darfur. An estimated 450,000 people are thought to be affected in this area.

This change instigates the move for the UN to emergency operations and life-saving humanitarian relief activities only. The change requires humanitarian agencies to reduce the number of staff in the area, and limit movement areas into designated as insecure. Non-essential staff will be redeployed within the Darfur region to continue operations in key locations. Many UN agencies have already substantially reduced non-essential staff, so further reductions due to the rise in the security level are likely to be limited.

The UN is continuing to make every effort to provide life-saving assistance, including emergency food and health services, as well as the provision of water and shelter to people in camps and other affected populations throughout Darfur. The current insecurity will, however, inevitably have an impact on their capacity to do so.

The UN are currently assessing their operational needs, and are finalising contingency plans in the event of any further deterioration of the situation in West Darfur and Eastern Chad.

DFID remains particularly concerned about this situation and are ready to provide assistance if required.

World Trade Organisation Summit

John Bercow: To ask the Secretary of State for International Development how many people he estimates will be lifted out of poverty as a result of the agreements made at the World Trade Organisation summit in Hong Kong. [39700]

Hilary Benn: Despite the modest progress made at the World Trade Organisation (WTO) talks in Hong Kong, it is not possible at this stage to give any meaningful estimate of the numbers of people that could be lifted out of poverty as a result for two broad reasons. First,

the nature of the agreement reached in Hong Kong, and second because the ministerial conference was just a staging post along the way to conclusion of the Doha Round of talks as a whole. For example, although Ministers agreed that developed countries would give duty and quota free access to their markets for the least developed countries (LDC), there is some flexibility to exclude 3 per cent. of tariff lines during a transition period of indeterminate length. The risk is that developed countries will apply them to precisely those products where the poorest countries have the best chance to export.

On cotton, although agreement was reached on granting duty and quota free access to LDC cotton producers, the bigger problem of tackling US domestic support has not yet been resolved. Although there was agreement on ending agricultural export subsidies and other equivalent measures, this will not be complete until 2013, it is not clear precisely how the phasing out will be achieved, and the more critical issue of agricultural market access for developing countries has also not been resolved, yet despite these uncertainties, the WTO director general, Pascal Lamy, has judged that we are now more than half way to the final deal, and it has set out a potential route-agreement of the final architecture of a deal in agriculture and industrial goods by the end of April 2006; and the substantive conclusion of the round by the end of 2006.

Mr. Jim Cunningham: To ask the Secretary of State for International Development if he will make a statement on the outcome of the recent World Trade Organisation talks. [39736]

Hilary Benn: I refer my hon. Friend for Coventry South to the statement made to the House on 20 December 2005, *Official Report*, columns 1710-12, by my right hon. Friend the Secretary of State for Trade and Industry.

DEFENCE

Administrative Costs

Stewart Hosie: To ask the Secretary of State for Defence what the total administration costs for his core Department are; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39834]

Mr. Ingram: The Ministry of Defence budget does not include a formal administrative costs control. Defence administrative costs are regarded as 'non-identifiable' for the purposes of public expenditure statistical analyses and are contained within this heading in the PESA.

Armed Forces Helpline

Mrs. Humble: To ask the Secretary of State for Defence what timetable has been agreed for each stage of development of armed forces helpline standards; on what date he intends to issue a Ministry of Defence policy letter on the issue; and if he will place a copy of the letter in the Library. [38682]

Mr. Touhig: A number of options have been identified for the development of Service helplines. These options are now subject to further discussion with the Equal Opportunities Commission and I will write to my hon. Friend when a course of action has been decided upon.

Armour Land Rovers

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what provision is made to armour land rovers in the Gulf. [37235]

Mr. Ingram: Both armoured and non-armoured vehicles are available for use in Iraq. The choice of vehicle for a particular task on an operation will depend on the Commander's assessment of the current threat level and nature of the task.

Bicester Storage Site

Mr. Spellar: To ask the Secretary of State for Defence how many civilian staff are employed at the storage and distribution site at Bicester; and how many of these are employed by *(a)* contractors and *(b)* agencies. [38017]

Mr. Ingram: As at 1 November 2005, the number of civilian staff employed in the Defence Distribution and Storage Agency, in the South East Government Office Region was 1,130 Full Time Equivalent (FTE). The number of civilian staff employed in the South East Government Office Region was 16,900 Full time Equivalent (FTE).

Robust data on contractors and agency staff are not held centrally by the Department.

However, local information indicates that as at 1 November 2005, the number of civilian staff employed in the Defence Storage and Distribution Agency, on the Bicester site was approximately 800 people with approximately 40 agency staff. No local records are kept of the number of contractors employed.

Congo (Peacekeeping Forces)

Jeremy Corbyn: To ask the Secretary of State for Defence what contribution has been made by the UK to the UN peacekeeping forces in the Congo for each of the last two years; and if he will make a statement. [39927]

Mr. Ingram: The UK provided five officers to the UN Organisation Mission in the Democratic Republic of the Congo (MONUC) in 2004. Our contribution increased to six in early 2005 on the reorganisation of the force structure and remains at that level. The British officers fill key influential posts, notably that of Chief of Staff in the eastern division headquarters in Kisangani and military adviser to the force commander. On short term attachments, we provided two officers to assist in training the eastern division headquarters staffs in late January 2005 and one officer to an UN intelligence assessment mission to MONUC in mid-April 2005.

Defence Systems and Equipment Exhibition

Mr. Moore: To ask the Secretary of State for Defence which companies at the Defence Systems and Equipment International 2005 exhibition exhibited *(a)* stun guns, *(b)* leg irons and *(c)* stun batons; and if he will make a statement. [32638]

Malcolm Wicks: I have been asked to reply.

The DTI is not responsible for authorising displays at this exhibition, and the question should be referred to the organisers.

The DTI's role is limited to the issue of export licences where these are required, e.g. for the re-export of goods on display after the exhibition, or the promotion of trade in controlled or restricted goods between third countries. On that basis, we are not aware of the display of any of the goods specified.

Defence Training Review

David Wright: To ask the Secretary of State for Defence whether an employment impact assessment has been made in relation to the Defence Training Review as it relates to Cosford and St. Athan. [39133]

Mr. Touhig: The Defence Training Review Programme is currently evaluating the bidding consortia's proposals. This includes reviewing the possible implications for employment in any of the regions in the United Kingdom affected by the DTR Programme. Such an assessment, however, cannot be concluded until the evaluation process is complete and this is not expected before spring 2006.

David Wright: To ask the Secretary of State for Defence what opportunities the Defence Training Review will provide for employees affected by the closure of ABRO in Telford. [39134]

Mr. Touhig: The Defence Training Review is currently evaluating the bidding consortia's proposals. Until this phase is complete and a decision has been taken to select a preferred training partner, I am not in a position to make any detailed comment on the wider impact of the DTR solution.

Departmental Research

Bob Spink: To ask the Secretary of State for Defence what research projects commissioned by his Department are being undertaken; and what the publication arrangements are in each case. [33003]

Mr. Ingram: Details of the Ministry of Defence's research programme are contained in the Department's Annual Report and Accounts. A copy of this document is available in the Library of the House.

The Ministry of Defence placed research work worth around £524 million in 2003–04, the last year for which figures are available. Most research projects generate classified data and are not published in the open literature but form the basis of decisions on policy, planning and future equipment procurement. Areas of general academic interest, where appropriate, are published in relevant journals.

Departmental Staff

Stewart Hosie: To ask the Secretary of State for Defence how many and what proportion of each Civil Service grade in his Department is located in each *(a)* region and *(b)* nation of the UK; what the average salary is for each grade; and if he will make a statement. [35888]

Mr. Touhig: My hon. Friend, the Parliamentary Under-Secretary at the Cabinet Office will write to the hon. Member with details for the civil service of the percentage of staff in post by region and grade responsibility and the median salary of staff in post by region and grade responsibility as at 1 April 2004. Copies of his letter will be placed in the Library.

Mr. Pelling: To ask the Secretary of State for Defence what steps are taken by his Department to support staff with mental ill health. [36269]

Mr. Touhig: The Ministry of Defence is supportive of all staff with mental ill health. The support provided varies dependent upon whether the individual is a member of the armed forces or a civil servant.

The Department has over the last three years operated a stress policy laid down in Joint Service Publication 375. This publication can be found on the internet, (www.mod.uk/dsc/ohs/jsp375.htm). This policy is supplemented by procedures that were designed to assist with mental ill health and stress reduction when identified in an individual. The Department also has policies to support individuals with alcohol and drug dependencies.

The MOD has particular responsibility for the mental health of members of the armed forces (including reservists on deployment) and specific measures are in place to prevent and treat stress-related disorders among service personnel, as well as civilians deployed in support of operations. These include pre and post-deployment briefings and access to trained mental health staff both during and after deployments.

Service personnel, both regular and reservist, returning from operational deployment are offered a 2–3 day period of 'normalisation' during which they receive a post-deployment briefing pack. This includes two leaflets and a presentation, covering post-traumatic stress reactions and the problems that may be encountered on returning home to families. Returning personnel also receive guidance on whom to consult if they experience post deployment problems, including their commanders, padres, social workers and health care staff.

Out-patient mental health treatment for the armed forces takes place at 13 MOD Departments of community mental health located throughout the UK and three satellite centres in Cyprus, Germany and Gibraltar. In-patient treatment, when required, has been provided by The Priory Group since April 2004.

For civilian staff, medical advice on the specific condition must be a personal responsibility available through the individual's GP and the NHS. The Department provides occupational health (OH) advice and support through its OH advisers, Capita Health Solutions. In addition the Department provides:

Confidential advice from a member of the Occupational Welfare Service

Time off for medical appointments and treatment

Reasonable adjustments to hours of work and the nature of their duties

Gradual rehabilitation including reduced hours and duties

A comprehensive suite of Work/Life policies

Veterans can seek assistance through the Veterans Agency's helpline on 0800 169 2277, and the War Pensioners Welfare Service provides advice and guidance to those veterans who are applying for or who have been awarded a war pension or gratuity. We also paid around £2 million to the Ex-Services Mental Welfare Society (Combat Stress) in the last financial year in order to fund remedial treatment for war pensioners.

Freedom of Information

Peter Law: To ask the Secretary of State for Defence if he will list Freedom of Information (FOI) requests to his Department which have been passed to the FOI clearing house for evaluation, broken down by *(a)* subject and *(b)* date of request. [28944]

Mr. Touhig: Information about the handling of Freedom of Information requests is published in "Freedom of Information Statistics on Implementation in Central Government". The most recently published report was 30 September 2005, copies were placed in the Libraries of both Houses. Additional information about the role of the Clearing House can be found on the DCA website at http://www.foi.gov.uk/guidance/index.htm#2. Departments do not release information about the internal handling of requests, such as details of which requests were referred to the Clearing House for guidance.

Harassment Investigations

Mrs. Humble: To ask the Secretary of State for Defence (1) what timetable has been drawn up for each stage of the review of recordkeeping on sexual harassment in the armed forces in order to ensure completion by the end of the year; if he will make a statement when he publishes the Defence Information Notice and policy letter to the armed forces; and if he will place a copy of these documents in the Library; [38596]

(2) what conclusion he has reached on the scope for setting a revised target for the completion of all formal harassment investigations within a period of less than 69 days; on what date he issued a Ministry of Defence policy letter on this issue; and if he will place a copy of the letter in the Library; [38597]

(3) what date he issued a Ministry of Defence policy letter on arrangements for confidential follow-up checks with individuals making complaints of sexual harassment in the armed forces; and if he will place a copy of the letter in the Library. [38683]

Mr. Touhig: The review of record keeping was completed ahead of schedule and a Defence Information Notice (2005DIN02–244: Armed Forces Unit Equality and Diversity Log) was published on 1 December 2005. This document details a tri-service standard for: the recording of incidents and complaints of bullying and harassment; the turnaround time for commanding officers to investigate and consider complaints at unit level (30 days); and arrangements for follow-up checks to be completed four weeks after the conclusion of a complaint. I will place a copy of the Defence Information Notice in the Library of the House.

Mrs. Humble: To ask the Secretary of State for Defence what the terms of reference are for the review of formal complaints and other data on sexual harassment in the armed forces; and how many organisations and individuals have been invited to tender for contracts to conduct the review. [38675]

Mr. Touhig: Defence internal audit conducted the review, consequently the work was not tendered. I will place a copy of the terms of reference for the review in the Library of the House.

Mrs. Humble: To ask the Secretary of State for Defence (1) what the terms of reference are for the sexual harassment survey of women and men serving in the armed forces; and how many organisations and individuals have been invited to tender for contracts to conduct the survey; [38676]

(2) what the terms of reference are for the focus groups of women and men serving in the armed forces to consider issues relating to sexual harassment; and how many organisations and individuals have been invited to tender for contracts to undertake this work. [38677]

Mr. Touhig: I will place a copy of the terms of reference for the sexual harassment survey and focus groups in the Library of the House. Three organisations were invited to tender for the contract to conduct the survey and focus groups.

Mrs. Humble: To ask the Secretary of State for Defence what the result was of the review of options for increasing awareness of sexual harassment issues conducted by the Armed Forces Diversity and Equality Steering Group; and how many meetings of the steering group have been held since June 2005. [38679]

Mr. Touhig: Options from the review are still under consideration and I will write to my hon. Friend further about this in due course. The Armed Forces Diversity and Equality Steering Group have held two meetings since June 2005.

Mrs. Humble: To ask the Secretary of State for Defence what timetable has been agreed for *(a)* publication of advertisements for, *(b)* interviewing candidates for and *(c)* appointing an external reviewer to conduct quarterly assessments of the Department's handling of sexual harassment complaints. [38680]

Mr. Touhig: It is intended that an independent reviewer will be appointed to conduct regular non-statutory reviews of the complaints process focusing on the effectiveness, timeliness, and fairness of the system, and providing recommendations for improvements where necessary. A sample of cases will be analysed.

The appointment of the external reviewer is part of a package of improvements to the complaints process, including the introduction of an independent element, linked to the Armed Forces Bill. The timetable for the appointment of the external reviewer will therefore be dictated by the progress of the Bill.

Mrs. Humble: To ask the Secretary of State for Defence how many meetings of principal personnel officers have been held since June 2005; and on how many occasions the officers have discussed the operation of sexual harassment helplines. [38681]

Mr. Touhig: The Principal Personnel Officers have met under the auspices of the Service Personnel Board on three occasions since June 2005. They have not discussed the operation of sexual harassment helplines

Mrs. Humble: To ask the Secretary of State for Defence what progress has been made in establishing dedicated investigation teams on sexual harassment in each of the armed services; and how many individuals of each rank comprise these units. [38684]

Mr. Touhig: All three Services have established dedicated Equal Opportunities Investigation Teams that may be tasked with investigating complex and serious complaints of harassment and bullying. The Royal Navy team consists of one Warrant Officer 1st Class, and one Master at Arms. The Army team is commanded by a C2 Grade Military Support Function (MSF) member of the civil service. He is supported by two Warrant Officers and three Senior Non-Commissioned Officers also employed as investigators. The team has two civil service support staff: one EI typist and one E2 Administrative Officer. The Royal Air Force team consists of one Flight Lieutenant, one Warrant Officer, one Sergeant and one Civilian E2 admin support assistant.

Iraq

Sir Menzies Campbell: To ask the Secretary of State for Defence how many Iraqis detained by UK forces have been *(a)* handed over to the custody of (i) Iraqi and (ii) US forces and *(b)* subject to prosecution in the Iraqi courts. [28402]

John Reid: Iraqis detained by the United Kingdom forces are either criminal detainees or security internees. Criminal detainees are transferred as soon as practically possible into Iraqi custody on their detention by UK forces, usually within eight hours. Security internees are detained and then held at the Divisional Temporary Detention Facility at Shaiba.

Records held in MND(SE) show that 105 security internees have been transferred into the Iraqi criminal justice system since 1 January 2004.

We do not keep figures on the number of criminal detainees placed immediately into Iraqi custody. This is routine business for UK forces and transfers occur very frequently.

Following the end of hostilities in Iraq and the completion of the UK's prisoner release programme, a total of 358 prisoners taken into custody by the UK were transferred to US custody at Camp Bucca. With the opening of the UK's Divisional Temporary Detention Facility in December 2003, they, along with further individuals transferred into US custody in the meantime, were either released, or transferred back to UK custody.

A further 18 security internees have been transferred to US custody at various times. All but four have been released.

Once individuals have been transferred into the Iraqi legal system they become a matter for the Iraqis. We do not hold information on how many are subject to prosecution in the Iraqi courts. I met with the Iraqi Minister of the Interior on 4 December and made clear to him the international community's view that Iraq must have suitable systems of detention, trial and incarceration in line with its international obligations.

Adam Price: To ask the Secretary of State for Defence pursuant to the answer of 21 November, (PQ 17735/17745) by what means the reports referred to were received; what the original sources of the information were; and what action has been taken as a consequence of these reports. [32255]

Mr. Ingram *[holding answer 28 November 2005]:* I refer the hon. Member to my previous answer. For reasons of operational security, we do not comment on intelligence matters.

Adam Price: To ask the Secretary of State for Defence whether *(a)* his Department and *(b)* the Army has conducted public opinion surveys in Iraq. [32915]

Mr. Ingram *[holding answer 29 November 2005]:* Yes. Multi-National Division (South-East) used to conduct regular polls, for example the Seven Cities Poll, and the Iraq Opinion Trend Analysis. This latter continued until April 2005, since which time, regular opinion polling has been carried out only nationwide, at Corps level. At present, MND(SE) conducts only ad hoc polling.

Martin Horwood: To ask the Secretary of State for Defence what measures are in place to protect employees of his Department in Iraq. [33692]

Mr. Ingram: The United Kingdom Armed Forces personnel deploying to Iraq receive comprehensive, theatre-specific pre-deployment training, which includes weapons training and force protection skills. In theatre, all personnel are subject to the Reception, Staging and Onward Integration process, which includes further range work, and ground familiarisation. Commanders employ force protection measures as appropriate. These are kept under continual review and adjusted, as necessary, consistent with the assessed threat level in the operating environment.

Ministry of Defence civilian workers who have volunteered for operational duties in Iraq also undertake theatre-specific pre-deployment training, which includes medicals, CBRN training, weapons awareness, battlefield first aid, stress management, and hostage briefing. Military Commanders also ensure that appropriate force protection is provided for them. If Commanders conclude that, in their judgment, civilians are at unacceptable risk, they will remove them to a safer environment as soon as operationally feasible.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what equipment British forces in the Gulf have for dealing with riots in Basra. [37234]

Mr. Ingram: British forces deploy to Iraq with a range of vehicles and specialist equipment with which to deal with a range of potential incidents, including protective suits, shields, riot guns and batons for use in the event of civil unrest. For reasons of operational security, however, we do not comment further on specific equipment capabilities or numbers. Infantry, Royal Armoured Corps and Artillery units and sub-units undertake theatre-specific public order training as part of their operational training package, although the ultimate choice of vehicle or equipment used in any given situation will be dependent on the commander's

assessment of the task in hand and the nature of the current threat. As the Iraqi security forces increasingly assume responsibility for public order, however, British forces are involved far less frequently than before in such operations.

Lynne Featherstone: To ask the Secretary of State for Defence pursuant to his answer to the hon. Member for Eastleigh (Chris Huhne) of 12 December 2005, *Official Report*, column 1787W, on Iraq, how much was spent in each month; and if he will make a statement. [39192]

John Reid: The costs of operations are calculated on a net additional basis and audited figures are published each year in the Ministry of Defence's annual report and accounts. Expenditure varies depending on troop numbers and activities and cannot therefore sensibly be broken down on a monthly basis. Further to the answer of 12 December 2005, *Official Report*, column 1787W, I can however offer some further breakdown in the audited costs as follows:

	£ million
2002–03	
Operations in Iraq	629
Expenditure on capital equipment	218
Total	847
2003–04	
Operations in Iraq	1,051
Expenditure on capital equipment	260
Total	1,311
2004–05	
Operations in Iraq	747
Expenditure on capital equipment	163
Total	910
Grand total	3,068

Landing Ships Dock (Auxiliary) Project

Mr. Gerald Howarth: To ask the Secretary of State for Defence what financial responsibilities his Department has for design changes to the Landing Ships Dock (Auxiliary) Project. [34029]

Mr. Ingram: As the Design Authority for the Landing Ship Dock (Auxiliary) programme, Swan Hunter has contractual responsibility to meet the cost of the majority of design changes. However, those changes instigated by the Ministry of Defence are paid for by the Department.

Military Exports/Aid (Maldives)

Mr. MacShane: To ask the Secretary of State for Defence if he will list the *(a)* number and *(b)* value of UK (i) military exports and (ii) aid to the Maldives in each year since 2000. [38351]

Mr. Ingram: I refer my right hon. Friend to the Government's Annual Reports on Strategic Export Controls, which contain information, by destination, on export licensing decisions, and on the value of exports of military equipment from the United Kingdom. The Annual Reports are available from the Library of the House.

As for military aid or assistance, following the Tsunami of 26 December last year, 13 Royal Navy engineers deployed to the Maldives in January to assist the Maldivian National Disaster Management Centre and the State Electricity Company in surveying the national power and distribution systems and help repair generators. Following the subsequent gifting of two ex-MOD landing craft to the Maldivian Government, two Royal Marine instructors deployed to Male to familiarise the Maldivian National Security Services with landing craft operating and servicing. Otherwise, military assistance to the Maldives since 2000 has been limited to a few Maldivian military personnel attending non-combatant UK training courses.

Nuclear Weapons

Lynne Jones: To ask the Secretary of State for Defence whether the UK nuclear arsenal operates on a hair-trigger alert; and how long the UK would have to decide whether to retaliate in the case of a possible launch of a nuclear attack. [38279]

John Reid: The operational posture of the UK's nuclear forces is set out in the 1998 Strategic Defence Review at paragraphs 66–68. They do not operate on a so-called-'hair-trigger alert', but are normally at several days 'notice to fire'. We do not comment on hypothetical scenarios involving the possible use of nuclear weapons; our course of action in any particular situation would depend on all the relevant circumstances.

Lynne Jones: To ask the Secretary of State for Defence pursuant to his evidence to the Defence Select Committee on 1 November, whether the destructive power of the UK's nuclear force has been reduced in line with the 70 per cent. reduction in fire power referred to. [38058]

John Reid: Yes. I refer my hon. Friend to the Strategic Defence Review, paragraph 64, and the associated chart.

Opportunity Now

Mrs. Humble: To ask the Secretary of State for Defence on what date his Department became a corporate member of Opportunity Now; what he expects to gain from membership; and what procedures have been agreed for the Department to exercise its membership responsibilities. [38670]

Mr. Touhig: The Ministry of Defence became a corporate member of Opportunity Now on 30 June 2005. Membership of Opportunity Now will enable the Ministry of Defence and the armed forces to benchmark their policies and practices against those of other employers. Since joining Opportunity Now, representatives of the MOD and armed forces have taken part in a number of members' events and activities.

Private Military Companies

Martin Horwood: To ask the Secretary of State for Defence whether his Department employs private military companies. [33721]

Mr. Ingram: No.

Protective Armour

Jim Cousins: To ask the Secretary of State for Defence (1) how many appliqué protective armour kits are available to protect troop carriers, logistic vehicles and patrol cars in Iraq; [37682]

(2) how many appliqué armour kits for cab floors are available for fitting on logistics vehicles. [38295]

Mr. Ingram *[holding answer 15 December 2005]:* To date, for operations in Iraq, there are 168 ballistic protection kits, which include ballistic floor covering, available for logistics vehicles. The Warrior armoured personnel carrier has bespoke fitted armour. However, a requirement for 99 sets of additional armoured protection has been met and a further 14 sets are on order. Appliqué protective armour kits are not being provided for the Snatch Land Rovers used for patrol duties as they have integral ballistic protection.

RAF Aircraft

Mr. Bone: To ask the Secretary of State for Defence if he will make a statement on aircraft availability across the RAF's fleet. [40508]

Mr. Ingram: Royal Air Force aircraft are available to meet all current operational commitments and training in support of them.

Regimental Headquarters

Mr. Weir: To ask the Secretary of State for Defence how many regular regiments of the *(a)* Army Air Corps, *(b)* Royal Engineers, *(c)* Royal Armoured Corps, *(d)* Royal Electrical and Mechanical Engineers and *(e)* Royal Regiment of Artillery are (i) based and (ii) have their headquarters in Scotland. [39808]

Mr. Ingram: None of these regiments is based in or has its headquarters in Scotland.

Senior-level Meetings (Instructions)

Mr. Gerald Howarth: To ask the Secretary of State for Defence what instructions he has issued to senior members of the armed forces on discussions and meetings they may have with hon. and right hon. Members; and whether guidance has been altered in the past two years. [14196]

Mr. Ingram: No such instructions have been issued to senior members of the armed forces. However, central guidance exists for all members of the armed forces on dealing with inquiries from Members of Parliament and on visits by Members of Parliament to Defence establishments.

Service Personnel

Mr. Ancram: To ask the Secretary of State for Defence whether orders for the necessary equipment have been placed in relation to the forthcoming deployment of United Kingdom personnel into southern Afghanistan; and whether preparations for the deployment are on schedule. [39270]

Mr. Ingram *[holding answer 20 December 2005]:* I refer the right hon. Member to the written statement I made on 14 November 2005, *Official Report*, column 41WS.

As I said then, certain necessary preparations for a potential deployment of UK forces to southern Afghanistan, as part of the stage 3 expansion of the NATO-led International Security Assistance Force (ISAF), are currently underway.

Once discussions within NATO on the overall stage 3 force structure have been concluded, we will make a statement to the House on the UK contribution and the timetable for deployment.

Mrs. Humble: To ask the Secretary of State for Defence what recommendations were submitted to the Service Personnel Executive Group following completion of the departmental feasibility study on increasing the number of women employed in armed forces' recruitment and initial training of recruits; and on what date these recommendations were discussed by the Group. [38678]

Mr. Touhig: Options from the review are still under consideration and I will write to my hon. Friend further about this in due course.

Mrs. Humble: To ask the Secretary of State for Defence what timetable has been agreed for each stage of the process agreed for developing a range of options for using trained mediators to assist in the resolution of disputes; and on what date this report will be discussed by the Services Personnel Executive Group. [38685]

Mr. Touhig: A paper identifying options for using trained mediators to assist in the resolution of disputes was circulated to the Service Personnel Executive Group on 16 December 2005 and will be discussed at its meeting on 19 January 2006.

Shropshire Light Infantry

Daniel Kawczynski: To ask the Secretary of State for Defence pursuant to the answer of 8 December 2005, *Official Report*, column 1498W, on the Shropshire Light Infantry, in what capacity the members of the Shropshire Light Infantry serve. [39589]

Mr. Ingram: The Shropshire Light Infantry are currently serving as an element of the Force Protection Company for Headquarters of Multinational Division (South East) in Iraq. Their duties include the provision of security of the HQ's location by means of static sentries, control of entry and exit points, physical searches and patrols in the vicinity of the base. They are also providing escorts for patrols in the area of responsibility.

Smart Procurement Policy

Mr. Kevan Jones: To ask the Secretary of State for Defence if he will make a statement on the implications for the Smart Procurement Policy of the Prime Minister's recent statement at his monthly press conference that the recent performance of Swan Hunters should not preclude them from bidding for future work from the aircraft carrier programme. [28750]

Mr. Ingram: It remains the Department's policy that our relationship with industry is rooted firmly in project performance. The extent of any particular shipyard's involvement in the future carrier programme will be determined on a value for money decision, in addition to

considering the capability, capacity, and resources of UK industry to meet the full range of planned naval programmes.

As my right hon. Friend the Secretary of State for Defence announced on 14 December, subject to satisfactory contract and demonstration of value for money, the structure of the carriers above the hangar deck, some 40 per cent. of the shipbuild, will be open to competition and will allow an opportunity for the many shipyards and suppliers with the ability to undertake this work to compete and win work.

Taxis

Mr. MacNeil: To ask the Secretary of State for Defence how much has been spent by his Department on taxi travel in the 2005–06 financial year; and what proportion of such travel was undertaken in each nation and region of the UK, including London. [37490]

Mr. Touhig: I refer the hon. Member to the answers I gave on 19 July 2005, *Official Report*, column 1541W and 23 June 2005, *Official Report*, column 1146W, to the hon. Member for Monmouth (Mr. Davies). Additionally, the Department does not record in which nation or region of the UK, including London, the expenditure is incurred.

Unexploded Ordnance

Mr. Moore: To ask the Secretary of State for Defence (1) what estimate he has made of the failure rate of each type of unexploded ordnance which remains in British areas of responsibility in Iraq; [31536]

(2) what estimate he has made of the *(a)* quantity and *(b)* types of unexploded ordnance which remain in British areas of responsibility in Iraq; [31535]

(3) what assessment he has made of the impact of unexploded ordnance on civilians in British areas of responsibility in Iraq; and if he will make a statement; [31534]

(4) how much unexploded ordnance has been cleared in British areas of responsibility in Iraq since March 2003, broken down by type. [31533]

Mr. Ingram *[holding answer 24 November 2005]:* By far the greatest amount of unexploded ordnance in Iraq are munitions left from the Iran-Iraq war, mines laid by Iraqi forces, stores of ammunition and other ordnance abandoned by Iraqi military and paramilitary forces. There is a far smaller amount of unexploded ordnance employed by coalition forces during the Gulf War and the invasion of Iraq; this includes artillery shells and air-launched munitions, of which some will be cluster bomblets.

We can give no estimate of the failure rate of munitions used by the armed services of other nations and we do not have information on the specific types of unexploded ordnance of UK origin which remain in our area of responsibility. There is no reliable means of assessing the impact of unexploded ordnance on Iraqi civilians in the British area of responsibility since the end of the conflict.

Over 1,500,000 individual items of unexploded ordnance have been cleared in UK areas of responsibility since March 2003. We do not keep a record of the individual types that have been cleared.

CONSTITUTIONAL AFFAIRS

Administrative Savings

Mr. Maude: To ask the Minister of State, Department for Constitutional Affairs what administrative savings have been made by her Department in each of the last eight years. [34942]

Bridget Prentice: I refer the right hon. Member to the information published on gross and net controlled administration costs underspends for Whitehall departments which is published in the Public Expenditure Outturn White Papers for the relevant years. These are available in the Library of the House.

Efficiency gains are being made as part of the Spending Review 2004 efficiency programme by the Department as set out in the Efficiency Technical Notes which are available on the Departmental website.

Antisocial Behaviour

Jon Trickett: To ask the Minister of State, Department for Constitutional Affairs how many antisocial behaviour orders have been issued by courts in *(a)* Wakefield and *(b)* Pontefract in each month since the penalty was introduced; how many have been breached; and how many breaches resulted in custodial sentences in (i) adult and (ii) juvenile courts. [38136]

Hazel Blears: I have been asked to reply.

Data on antisocial behaviour orders (ASBOs) are not available below local authority area level. The readily available information is by quarter and is given in the table for Wakefield metropolitan district council area.

The Home Office Court Proceedings Database holds breach proceedings only where there has been a conviction. These data are available at Criminal Justice System area level only.

Number of antisocial behaviour orders issued, as reported to the Home Office where restrictions are imposed within Wakefield Metropolitan District Council area, by period, 1 June 2000[1] to 30 June 2005 (latest available)

England and Wales	*Issued*
July to September 2000	—
October to December 2000	—
January to March 2001	—
April to June 2001	—
July to September 2001	—
October to December 2001	—
January to March 2002	—
April to June 2002	—
July to September 2002	—
October to December 2002	—
January to March 2003	—
April to June 2003	—
July to September 2003	—
October to December 2003	3
January to March 2004	4
April to June 2004	4
July to September 2004	9

Number of antisocial behaviour orders issued, as reported to the Home Office where restrictions are imposed within Wakefield Metropolitan District Council area, by period, 1 June 2000[1] to 30 June 2005 (latest available)

England and Wales	*Issued*
October to December 2004	9
January to March 2005	11
April to June 2005	9
Total	49

[1] Between 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area (pfa). During this period 4 ASBOs were issued, as reported, within West Midlands pfa.

Note:
As from 1 June 2000 data collected centrally by magistrates courts committee (MCC) area by quarter. For the month of June 2000 no (0) ASBOs were reported as being issued.

Channel Islands

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs how many Acts of Parliament have extended to each of the Channel Islands in the last twenty years. [40506]

Bridget Prentice: The Department for Constitutional Affairs does not keep a record of the UK Acts of Parliament which have been extended to each of the Channel Islands. UK Acts of Parliament do not normally extend to the Channel Islands. If they do, they may do so either by virtue of the Act itself or by Order in Council under an enabling provision contained in the Act. For an Act to extend otherwise than by an Order in Council is now very unusual.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what average time it has taken *(a)* for laws passed in the Channel Islands to be ratified by the Privy Council and *(b)* for the relevant Order in Council to be made over the past five years; and what steps she is taking to reduce this period. [40509]

Bridget Prentice: The Department for Constitutional Affairs does not monitor the time taken to complete each stage of the Channel Islands' legislative process. This Department and the Governments of both Guernsey and Jersey work closely to ensure that each piece of legislation is prioritised as appropriate.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs if she will take steps to make provision for a seat in the United Kingdom Parliament to represent the Channel Islands. [40518]

Bridget Prentice: The Channel Islands are not part of the United Kingdom. Guernsey and Jersey are Crown dependencies with their own legislative assemblies and legislate for themselves on all domestic matters.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the *(a)* legal and *(b)* constitutional position of the Channel Islands in relation to UK law. [40520]

Bridget Prentice: The Channel Islands are not part of the United Kingdom. Each has its own legislative assembly, administrative, fiscal and legal system and its own courts of law. The Judicial Committee of the Privy Council is the ultimate court of appeal.

UK Acts of Parliament do not normally extend to the Channel Islands. If they do, they may do so either by virtue of the Act itself or by Order in Council made under an enabling provision contained in the Act. For an Act to extend otherwise than by an Order in Council is now very unusual.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what assistance her Department provides for people from the Channel Islands, who are in the United Kingdom to vote in home elections. [40525]

Bridget Prentice: Guernsey and Jersey are not part of the UK. They are internally self-governing parliamentary democracies and as such make their own arrangements to ensure that those eligible can take part in their domestic elections.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs if she will list the *(a)* petitions and *(b)* registered complaints from islanders she has received relating to the feudal system on Sark in the last five years. [40507]

Bridget Prentice: I am aware of two petitions to the Privy Council in the last five years which have been about the constitution of Sark. Since the transfer of responsibility for the Crown dependencies from the Home Office in 2001, Ministers and officials at the Department for Constitutional Affairs have received a number of letters about the constitution of Sark. All correspondence and both petitions have been from or on behalf of two residents of Sark.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the constitutional status of Alderney. [40510]

Bridget Prentice: Alderney is an internally self-governing dependency of the Crown. It is part of the Bailiwick of Guernsey, but not part of the United Kingdom.

Child Pornography

Judy Mallaber: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer by the Under-Secretary of State for the Home Office, my hon. Friend the Member for Wythenshawe and Sale, East (Paul Goggins) on 30 November 2005, *Official Report*, column 591W, on child pornography, when she expects to introduce changes to Schedule 3 to the Data Protection Act 1998 to enable payment card companies legitimately to hold and process sensitive data concerning an individual and their convictions, with particular reference to purchasing child pornography on the internet. [38728]

Ms Harman: My department continues to work with colleagues across Government and with the Association for Payment Clearing Services to take forward the amendment of Schedule 3 of the Data Protection. Once this work is complete the amendment will be placed before Parliament when legislative time allows.

Compensation Bill

Mr. McGovern: To ask the Minister of State, Department for Constitutional Affairs when her Department plans to publish its proposals for a possible exemption for trades unions from the claims management proposals contained in the Compensation Bill [Lords]. [38326]

Bridget Prentice: The Compensation Bill will provide the legislative framework to introduce the statutory regulation of claims management activities. The Under-Secretary of State, Baroness Ashton of Upholland, announced at Second Reading of the Compensation Bill (HL) the Government's intention to exempt trade unions and that such an exemption may be subject to conditions, including a requirement to have regard to the code of practice issued by the new regulator. Exemptions will be a matter for secondary legislation and the Government will take account of Peers' and Members' views on appropriate conditions during the passage of the Bill.

Mr. McGovern: To ask the Minister of State, Department for Constitutional Affairs whether her Department plans to introduce an exemption for trades unions from the claims management proposals in the Compensation Bill [Lords], *(a)* through an amendment to the Bill and *(b)* by secondary legislation; and if she will make a statement. [38327]

Bridget Prentice: We plan to introduce an exemption for trades unions from the claims management proposals in the Compensation Bill, by secondary legislation. Clause 4 of the Compensation Bill (HL) provides an order making power to exempt persons from the requirement to be authorised to carry out claims management services.

Council Tax Valuations

Mrs. Spelman: To ask the Minister of State, Department for Constitutional Affairs whether the Valuation Office Agency will have access to the proposed new electoral register database. [39500]

Ms Harman: The Government's current consultation paper on the proposed co-ordinated online record of electors (CORE) seeks views on who should have access to information held by CORE and for what purposes that access should be granted.

Policy will be settled in the light of responses to that consultation. However, the Government's current feeling is that access to data in CORE should match existing regulations governing entitlement to copies of the full version of electoral registers held locally. As an Executive agency of a Government Department, the VOA would accordingly be entitled to access, but only for prescribed purposes.

Data Protection

Mr. George Howarth: To ask the Minister of State, Department for Constitutional Affairs what guidance her Department has issued on the publication under the Data Protection Act 1998 by local government officers of private e-mails relating to council business of a sensitive nature between elected councillors and other local government officers. [36720]

Bridget Prentice: The Data Protection Act 1998 covers personal data on living individuals. The Freedom of Information Act 2000, which covers all recorded information, allows individuals to request such information from public authorities covered by the Act subject to a variety of exemptions. The Department for Constitutional Affairs has not issued guidance on the publication of such e-mails under either Act.

Departmental Costs

Mr. Salmond: To ask the Minister of State, Department for Constitutional Affairs what the *(a)* salary bill was and *(b)* administrative costs were for her Department in (i) each (A) nation and (B) region of the UK and (ii) London in 2004–05. [35870]

Bridget Prentice: *(a)* The aggregate payroll costs for the Department, which includes costs for Ministers, special advisors and agency staff, in 2004–05 was £339 million.

(b) The total (net) administration costs for the Department in 2004–05 was £925 million.

The administration budgets regime overseen by the Treasury relates to Whitehall departments only. The Department does not monitor national, regional or London administration costs separately and it is a matter for the Devolved Administrations how they control their own administration costs.

Departmental Expenditure

Mr. MacNeil: To ask the Minister of State, Department for Constitutional Affairs what the total value is of *(a)* catering and *(b)* entertainment contracts let by her Department; and what value of such contracts has been let in each nation and region of the UK, including London. [37477]

Ms Harman: My Department holds a number of catering contracts mainly to provide services to jurors, others using the courts and staff. Those contracts also provide for refreshments at official meetings and working lunches. The Department does not hold any separate entertainment contracts.

The total paid to contractors to date for the period January to December 2005 is £1,795,509. Of that total £1,409,176 was to subsidise mainstream catering services and £386,333 was expended on refreshments for officially hosted events, meetings and working lunches. This is broken down by regions in the following table:

£

Region	*Subsidy*	*Official events*	*Total*
North and North Wales	268,471	—	268,471
Midlands and South Wales	199,843	3,274	203,117
London	461,816	378,559	840,375
South East and Western	479,046	4,500	483,546
Total	1,409,176	386,333	1,795,509

The figure for expenditure on official events in the North and North Wales is not recorded separately and could be provided only at disproportionate cost.

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs if she will list the public relations companies that have had contracts with *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by her Department and other such organisations since May 1997. [39084]

Ms Harman: My Department does not hold this information centrally and it is therefore disproportionate cost to extrapolate this information now.

The only body within DCA to use a PR agency in the period requested was the Commission for Judicial Appointments, who have engaged Luther Pendragon since 2002.

In October 2005 HMCS contracted Blue Rubicon to provide communications for their estates strategy.

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs how much was spent on advertising by *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) Executive agency for which her Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by her Department in each year since May 1997. [39085]

Ms Harman: Since its inception in June 2003 my Department, the Department for Constitutional Affairs, has conducted seven media advertising campaigns: a regional poster campaign on buses to promote recruitment to the lay magistracy, radio and press adverts to target court fine defaulters (under the title Operation Payback), press adverts to promote postal voting fraud prevention, and a press, radio and poster campaign to promote recruitment to the lay magistracy.

Figures for our agencies, non-departmental public bodies, and bodies financially sponsored by my Department are not held centrally. To get the information would incur disproportionate cost.

£

Project	*Expenditure on advertising*
2003	
Operation Payback (Phase 1)	230,000
Magistrate recruitment	342,000
2004	
Operation Payback (Phase 2)	292,000
Magistrate recruitment	102,000
2005	
Postal voting	185,270
Magistrate recruitment	741,000
Operation Payback (Phase 3)	263,082

Norman Lamb: To ask the Minister of State, Department for Constitutional Affairs how many widescreen televisions have been purchased by her Department for use in London headquarters in each of the last five years; and what the cost was in each year. [39148]

Ms Harman: My Department has identified six wide screen televisions that have been purchased for use in London headquarters in the last five years.

The purchases were made as follows:

	Number
2000–01	0
2001–02	0
2002–03	0
2003–04	0
2004–05	6

The cost, all incurred in 2004–05, was £17,500.00.

This answer relates solely to the Department for Constitutional Affairs, HQ Estate and not to Her Majesty's Court Service, related agencies or NDPBs as to gather this information would incur a disproportionate cost.

Public Relations

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs what the value was of *(a)* public opinion research and *(b)* public relations contracts awarded by her Department in 2004–05 in (i) each (A) nation and (B) region of the UK and (ii) London. [35951]

Ms Harman: The value (to the nearest £000, excluding VAT) of public opinion research contracts covering the United Kingdom as a whole was £280,000; covering England and Wales £998,000; covering areas of England £40,000; and covering South West England £26,000; no contracts were awarded for public relations.

Disability

Danny Alexander: To ask the Minister of State, Department for Constitutional Affairs whether she will make a statement on the initial activity undertaken by the Department in response to those recommendations in the Prime Minister's Strategy Unit Report Improving the Life Chances of Disabled People where lead responsibility was assigned to all Government departments. [37082]

Ms Harman: This Department has responded positively to the recommendations of the Prime Minister's Strategy Unit Report; for example, work has commenced on the Disability Equality Scheme, which will be completed by the end of December 2006. There was initial input from disabled members of the judiciary, members of staff and users of the Department's services. There will be further reviews of the Scheme by people with disabilities before the final publication. The document will detail the Department's promotion of disability issues internally, accessibility to buildings, communication, procurement, recruitment, and the support to members of the judiciary with disabilities.

An annual report will be issued, reporting on the progress of the action plans contained within the Scheme.

The Office for Disability Issues (ODI) will also report annually to the Prime Minister on cross-government progress in implementing the Strategy Unit report,

"Improving the Life Chances of Disabled People". The first report is due to be published by summer 2006. It will contain an assessment of the initial activity undertaken by the ODI to fulfil its specific responsibilities, which require the active involvement of other Government Departments. It will also include an assessment of the initial activity undertaken by the Department for Constitutional Affairs and other Government Departments to fulfil the responsibilities they have outside of the ODI remit.

Early Retirement

Mr. Hollobone: To ask the Minister of State, Department for Constitutional Affairs how many of her Department's employees have taken early retirement in each year since 1997. [34040]

Bridget Prentice: The numbers of employees, who have taken early retirement in each year since 1997, are shown in the following table.

	Number of employees
1997	92
1998	94
1999	27
2000	40
2001	27
2002	19
2003	22
2004	28
2005	13
Total	362

The above figures include those who have retired voluntarily with an actuarially reduced pension, those who have retired with benefits under the Civil Service Compensation Scheme and those who have retired on ill-health grounds.

El Hadji Diouf

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on progress of the investigation into the provision of legal aid for the footballer El Hadji Diouf. [39538]

Bridget Prentice: There is no current investigation, nor is any planned, into the decision to award El Hadji Diouf legal aid. Under the existing arrangements and rules, criminal legal aid representation depends on the applicant satisfying the Interests of Justice test. In the case of El Hadji Diouf, there is no reason to believe that there was any misapplication of this test.

While an applicant for criminal legal aid representation does not currently have to pass a financial eligibility test, the Criminal Defence Service Bill, presently before Parliament, will provide for the re-introduction of means testing for defendants appearing before the criminal courts.

Electoral Administration

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what action her Department is taking to encourage people under the age of 30 years to vote in *(a)* general, *(b)* local and *(c)* European elections. [39462]

Ms Harman: The Department for Constitutional Affairs is, looking at ways to raise awareness of the registration process and encourage people and particularly young people to register to vote. Young people have low levels of electoral registration. We have been making new links with young people's groups to consider how to take this work forward.

The Electoral Administration Bill includes changes to the electoral and voting process to make voting more convenient and more secure.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what steps her Department proposes to take regarding the failure of *(a)* local authorities and *(b)* Pickfords to provide marked registers; and if she will make a statement. [39579]

Ms Harman: Officials from my department have previously been made aware that the marked registers of a number of constituencies were incomplete. As of 2 November 2005, the missing sections of 42 per cent. of these incomplete marked registers had been located. Pickfords are continuing to carry out searches to locate as many of the remaining missing marked registers as possible.

The Electoral Administration Bill will provide that at future UK Parliamentary elections, the marked registers for England and Wales will be stored locally, and the duty to provide copies will fall to the local electoral registration officer.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what *(a)* controls and *(b)* restrictions exist to prevent election candidates using freepost mailings for solely commercial purposes. [39580]

Ms Harman: Section 91 of the Representation of the People Act 1983 states that an election candidate's freepost mailing must contain matter relating to the election only. It is illegal to use the freepost mailing system for commercial purposes.

The Royal Mail administer a vetting system to ensure that candidates' freepost literature does not include commercial material.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the effect of the proposal in the Electoral Administration Bill to lower the threshold of votes for retaining deposits on freepost mailings being used for commercial purposes. [39581]

Ms Harman: The proposal in the Electoral Administration Bill to lower the threshold for retention of deposits in parliamentary elections will have no effect on freepost mailings being used for commercial purposes. Section 91 of the Representation of the People Act 1983 states that an election candidate's freepost mailing must contain matter relating to the election only. It is illegal to use the freepost mailing system for commercial purposes. The Royal Mail administer a vetting system to ensure that candidates' freepost literature does not include commercial material.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the provisions available for enabling the severely disabled to vote in general elections; and what changes to current provisions are envisaged. [39595]

Ms Harman: At present, a tactile voting device is available in polling stations for blind and visually impaired voters, and voters with disabilities can vote with the assistance of a companion or the Presiding Officer. Also, electors with disabilities may apply to have a postal or proxy vote if they are unable to access their local polling station.

The Electoral Administration Bill will extend the current provisions for voters with disabilities. It includes a duty on local authorities to undertake a review of polling places at least every four years; and, allows electoral administrators to provide information in other formats, such as Braille or through graphical representation.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what steps she is taking to use *(a)* technology and *(b)* other means to make it easier for the elderly to vote in elections. [40522]

Ms Harman: The Government are committed to increasing everyone's participation in the electoral process and are continuing to look at a number of ways of modernising the electoral process through its Electoral Modernisation programme. This includes the piloting of innovations at local elections and introducing changes to the electoral process through the Electoral Administration Bill, with the aim of making voting straightforward, efficient, secure and readily accessible to all electors, including the elderly.

Electoral Reform

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what recent representations her Department has received on reform of the first-past-the-post electoral system. [39534]

Ms Harman: Over the three-month period 1 October 2005 to 31 December 2005 the DCA received 16 letters from members of the public and also two parliamentary questions on voting systems reform and review.

Electoral Registration

Mark Lazarowicz: To ask the Minister of State, Department for Constitutional Affairs what recent estimate she has made of electoral registration levels among ethnic minorities. [36719]

Ms Harman: The Electoral Commission's 2005 report "Understanding Electoral Registration" contained an analysis of the electoral registers at 1 December 2000. This included the estimate that 17 per cent. of people from minority ethnic groups in England and Wales were not registered to vote in 2000. The equivalent figure for the white population was 6 per cent.

However, these estimates do not explicitly take account of electoral non-eligibility on grounds of nationality. In order to register to vote in the UK, resident adults are required to hold UK, Irish, Commonwealth or EU nationality.

EU Committees

Angus Robertson: To ask the Minister of State, Department for Constitutional Affairs how many meetings of the EU Committee on the jurisdiction and the recognition and enforcement of judgments in matrimonial matters and in matters of paternal responsibility for children of both spouses and on the jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (Brussels I and II) have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement. [38808]

Ms Harman: No meetings have taken place during the UK presidency of the Council of the EU on the topics referred to by the hon. Member.

Family Law Act

Dr. Kumar: To ask the Minister of State, Department for Constitutional Affairs when section 42A of the Family Law Act 1996 will come into force; and if she will make a statement. [37762]

Bridget Prentice: The Domestic Violence, Crime and Victims Act 2004 makes amendments to Part IV of the Family Law Act 1996, the Police and Criminal Evidence Act 1984 and the Protection from Harassment Act 1997.

It is the biggest overhaul of domestic violence legislation for 30 years and is a crucial part of the Government's wider strategy for preventing domestic violence by protecting and supporting victims, and bringing perpetrators to justice. The new section 42A of the Family Law Act 1996 refers to the breach of non-molestation orders which will become a criminal offence.

Implementation of the Act is commitment 12 of the National Report and Delivery Plan, which was published on the 31 March 2005. The provisions of the Act will be implemented on a rolling basis as and when funding is identified and relevant training completed.

Dr. Kumar: To ask the Minister of State, Department for Constitutional Affairs what the average time taken for contempt proceedings to be dealt with under the Family Law Act 1996 was prior to the amendments of the Domestic Violence Crime and Victims Act 2004. [37763]

Bridget Prentice: This information is not collated centrally. Part of our plans for the implementation of the Domestic Violence, Crime and Victims Act 2004 is the better collection of statistical information. We are planning to research the impact of breaches and the implementation of the provisions of the Act.

Dr. Kumar: To ask the Minister of State, Department for Constitutional Affairs whether she plans to introduce measures to ensure exchange of information between family and criminal courts for the breach of non-molestation orders under the new provision 42A of the Family Law Act 1996. [37772]

Bridget Prentice: The Family Proceedings (Amendment No 4) Rules 2005 [SI: 2005 No. 1976 (L.18)] which were implemented on 31 October 2005 clarify who and how information in family proceedings may be shared. My Department is also developing a protocol on information sharing for the Integrated Domestic Violence Court Pilot at Croydon.

This is underpinned by the Family-Criminal Interface Steering Committee which my Department established with the support of the Deputy Chief Justice on 9 February 2004.

The Steering Committee, co-chaired by the Solicitor General and the President of the Family Division, has an 'overview' role in co-ordinating all work currently being undertaken in England and Wales to improve the interface between the family and criminal jurisdictions.

Gravesend and Dartford County Courts

Mr. Holloway: To ask the Minister of State, Department for Constitutional Affairs what the current waiting time is from allocation to hearing for small claims at the Gravesend and Dartford county courts. [39524]

Ms Harman: The current performance data (October 2005) is showing the average waiting time for small claims at Gravesend county court to be five weeks from application to hearing. The performance indicator for cases heard in small claims courts is currently 78 per cent. of cases to be heard within 15 weeks. Gravesend county court is currently operating 100 per cent. effective.

Mr. Holloway: To ask the Minister of State, Department for Constitutional Affairs how many possession cases were issued at the Gravesend county court between *(a)* 1 October 2004 and 31 March 2005 and *(b)* 1 April 2005 and 30 September 2005. [39523]

Ms Harman: Between 1 October 2004 and 31 March 2005, 296 possession claims were issued.

Between 1 April 2005 and 30 September 2005, 338 possession claims were issued.

Her Majesty's Courts Service

Mr. Pelling: To ask the Minister of State, Department for Constitutional Affairs what progress has been made on pay negotiations with former magistrates courts staff transferred to Her Majesty's Courts Service. [39551]

Bridget Prentice: The Department has been engaged in discussions throughout 2005 with the unions representing staff subject to former magistrates courts service (MCS) terms and conditions of service. Formal negotiations began on 5 April 2005 once former MCS staff transferred into DCA.

The Department has made an offer to the unions which officials believe is fair given the current economic circumstances, public sector pay awards generally and what the Department can afford. It is therefore regrettable that PCS and Prospect are taking industrial action. Officials remain prepared to discuss any constructive proposals that the unions wish to put forward to resolve the dispute, recognising the constraints within which the department has to operate.

High Sheriffs

Chris Ruane: To ask the Minister of State, Department for Constitutional Affairs what the name is of each person who has been appointed to a post of high sheriff in each of the last 30 years; and in respect of which area each was appointed. [39288]

Ms Harman: The information requested could be provided only at disproportionate cost.

House of Lords Reform

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on progress on reform of the House of Lords. [39466]

Ms Harman: The Government are continuing to seek the co-operation of other parties in setting up a Joint Committee of both Houses to consider and codify the powers of the House of Lords. The Government hope to be able to proceed with the establishment of the Joint Committee as soon as possible.

The Government will also proceed on its other free-standing manifesto commitments on Lords reform—to limit to 60 days the time the House of Lords deal with a Bill, to abolish the remaining hereditary peers and to allow a free vote on the composition of the House of Lords.

Incentive Packages

Stewart Hosie: To ask the Minister of State, Department for Constitutional Affairs what the value is of *(a)* pay supplements, *(b)* bonuses and *(c)* other incentive packages that are payable in her Department on the basis of geographic location; how many people are in receipt of each payment; and what the total cost to her Department of each payment was in 2004–05. [35916]

Ms Harman: Details of pay supplements, bonuses and other incentive packages paid to DCA staff broken down by DCA administrative area for the year ending 31 March 2005 follow. The information is not readily available broken down by Government office regions.

The information requested is not readily available for staff previously employed by magistrates courts committees and could be provided only at disproportionate cost.

Count and value of allowances by DCA region

Grand total	1,744	449,054	490,816

Information Commissioner

Ben Chapman: To ask the Minister of State, Department for Constitutional Affairs what is the average time taken to process cases at the Information Commissioner's Office; and if she will make a statement. [37724]

Ms Harman: The average time to close a Data Protection case between 1 April and 30 November 2005 was 50 days. The average time to close a Freedom of Information case in the same period was 96 days. The Information Commissioner has analysed his current workload and concluded that the high volume of FOI appeals that he is processing at present are a result of the initial influx of requests that public authorities experienced in the first few months of FOI implementation.

Joint Ministerial Sub-Committees

Mr. MacNeil: To ask the Minister of State Department for Constitutional Affairs (1) if she will make a statement on the operation and staffing of the joint ministerial sub-committees between the Scottish Executive and UK departments; [40021]

(2) if she will list the joint ministerial sub-committees between the Scottish Executive and UK Departments; and how many staff are assigned to service each. [40022]

Bridget Prentice: The Memorandum of Understanding and Supplementary Agreements (Cm 5240) allows for the Joint Ministerial Committee (JMC) to meet in various "functional" formats to discuss specific policy areas. At present, the JMC exists in four such formats: Health, Poverty, Knowledge Economy and Europe. Of these four, the JMC on Europe meets most regularly. As described in the Memorandum of Understanding the Secretariat to these Committees is provided by the UK Cabinet Office and the devolved administrations, although in practice the Secretariat to the JMCs on Health, Poverty and Knowledge Economy is provided by my department. There is no specific group of civil servants assigned to the Secretariat; instead staff from appropriate areas service the Committees as necessary.

Judicial Pension Schemes

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs on what date the judicial pension schemes will be deregistered for the purposes of the Finance Act 2004. [40474]

Ms Harman: The Lord Chancellor, as scheme administrator, will notify HM Revenue and Customs that the judicial pension schemes will not become registered schemes for the purposes of the Finance Act, with effect from 6 April 2006, under paragraph 2 of schedule 36 to the Act .

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs what the average pension paid to retired members from the judicial pension schemes is. [40476]

Ms Harman: Figures in the scheme accounts for 2004–05 indicate an average annual pension in payment of about £41,800 for retired scheme members and about £15,500 for surviving dependants.

Magistrates

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what discussions she has had on the implementation of payments for magistrates for their work. [39594]

Ms Harman: None.

Parliamentary Constituencies

Mr. Bone: To ask the Minister of State, Department for Constitutional Affairs when she expects the new parliamentary constituency boundaries will come into effect. [40548]

Ms Harman: The Boundary Commission for England is required to submit its report by April 2007. Under the Parliamentary Constituencies Act 1986, the report will then be brought before Parliament "as soon as may be". If agreed by Parliament, the report's recommendations will come into force at the next General Election.

Rates

Angus Robertson: To ask the Minister of State, Department for Constitutional Affairs how much was paid by her Department in rates to each local authority in the UK in 2004–05; and how much was paid in *(a)* each (i) nation and (ii) region of the UK and *(b)* London. [36014]

Bridget Prentice: My Department has, in 2004–05, paid rates in:

	£
(a) (i) Nation	
England	5.51[illegible] million
Wales	0
Scotland	0
Northern Ireland	0
(ii) Region of the UK	
North East	16,147.00
North West	3,492.00
South West	8,436.00
All other regions except London	0
(b) London[1]	5.490 million

[1] This answer relates solely to the Department for Constitutional Affairs, HQ Estate and not to Her Majesty's Court Service, related agencies or NDPB's as to gather this information would incur a disproportionate cost.

Departmental Staff

Stewart Hosie: To ask the Minister of State, Department for Constitutional Affairs how many staff are employed by her Department in each *(a)* region and *(b)* nation of the UK; and if she will make a statement. [35914]

Ms Harman: The figures requested are published in Civil Service Statistics. They are outlined in Table D which covers staff numbers (FTE basis) in each Department and agency. Civil Service Statistics are available in the Library and at the following address on the Cabinet Office Statistics website:

http://www.civilservice.gov.uk/management of the civil service/statistics/civil service statistics/index.asp

The regional breakdown can be obtained only at a disproportionate cost.

Sub-Committee on Electoral Policy

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will list the members of the Constitutional Affairs sub-committee on Electoral Policy. [39578]

Mr. Jim Murphy: I have been asked to reply.

A full list of all Cabinet committees, including their membership and terms of reference, can be found in the Library. My right hon. Friend, the Prime Minister, placed an updated list in the Library on Thursday 15 December 2005.

Taxis

Mr. MacNeil: To ask the Minister of State, Department for Constitutional Affairs how much has been spent by her Department on taxi travel in the 2005–06 financial year; and what proportion of such travel was undertaken in each nation and region of the UK, including London. [37478]

Bridget Prentice: It is not possible for the Department to provide full detailed information requested on how much was spent on taxis during the (current) 2005–06 financial year without incurring disproportionate cost.

The Department has published rules for official travel in its staff handbook and all travel complied with the requirements of the Civil Service Management Code.

MINISTER FOR WOMEN

Goods and Services (Transgender People)

Sandra Gidley: To ask the Minister for Women and Equality what steps she is taking to meet the Government's obligations under council directive 2004/113/EC to enact goods and services protection for transgender people by the deadline of 21 December 2007. [37580]

Meg Munn *[holding answer 14 December 2005]:* We are developing proposals to meet our obligations as part of the wider Discrimination Law Review.

DEPUTY PRIME MINISTER

Administration Costs

Mr. Weir: To ask the Deputy Prime Minister which functions of his core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administrative costs were associated with these functions for each area in the last year. [39940]

Mr. Woolas: The Office of the Deputy Prime Minister carries out no functions in relation to Northern Ireland. In relation to Wales, while the vast majority of functions for which ODPM has responsibility have been devolved to the Welsh Assembly Government since devolution, ODPM does retain some residual functions in relation to Wales, specifically in relation to building regulations and local authority pension arrangements. Since these functions are already exercised in relation to England, the additional costs associated with administering these functions for Wales are minimal and therefore have not been measured. In addition, ODPM acts for the whole of the UK in international forums where it has the lead policy responsibility internationally (e.g. on the EC's environmental impact assessment directive), however, implementation is a matter for the devolved Administrations (where the implementation mechanism is devolved).

Age Discrimination (Housing)

Mr. Philip Hammond: To ask the Deputy Prime Minister what measures the Government are taking to combat age discrimination in relation to housing. [28617]

Yvette Cooper: I understand the hon. Member's question relates to age discrimination in relation to park homes. Many parks do not have age limitations. It is up to individual parks and their residents to decide on what, if any, conditions to attach to residency, subject to any relevant legislation. The Office of the Deputy Prime Minister does not have any evidence to suggest that age limitations are causing significant problems for the sector and has no current plans to consider possible measures.

ASBOs

Mr. Drew: To ask the Deputy Prime Minister what advice he provides to local authorities on whether they can outsource the delivery of antisocial behaviour order functions to external organisations. [37891]

Hazel Blears: I have been asked to reply.

Provision for contracting out local authority functions relating to antisocial behaviour is contained in section 1F of the Crime and Disorder Act 1998 as amended by section 128 of The Serious Organised Crime and Police Act 2005 but has not yet been implemented. Subsection (9) provides that the Secretary of State may issue guidance on the provisions, to which local authorities and the persons to whom they contract out must have regard.

Officials within the Office of the Deputy Prime Minister are currently consulting on a proposal to enable local authorities to ask those bodies managing their housing under section 27 of the Housing Act 1985 to also carry out all or some of their functions relating to antisocial behaviour orders.

Buncefield Oil Depot

John McDonnell: To ask the Deputy Prime Minister whether the Total Oil Depot site at Buncefield, near Hemel Hempstead, is subject to the Fire Precautions (Workplace) Regulations 1997. [39372]

Jim Fitzpatrick: The Buncefield Oil Depot site has been subject to the Fire Precautions (Workplace) Regulations 1997 since 1 December 1999. The enforcing authority for the regulations at that site is the Health and Safety Executive, who also enforce the fire certificate issued under the Fire Certificates (Special Premises) Regulations 1976.

Christmas Decorations

Mrs. Spelman: To ask the Deputy Prime Minister what guidance the Government have issued to local authorities on *(a)* celebrating Christmas and *(b)* Christmas lights in relation to (i) highway safety and (ii) diversity. [39480]

Mr. Woolas: The Office of the Deputy Prime Minister has not issued guidance to local authorities on *(a)* celebrating Christmas or *(b)* Christmas lights in relation to (i) highway safety and (ii) diversity.

Guidance on highway safety is not within the remit of the Office of the Deputy Prime Minister's policy. As local authorities work at the local level and have knowledge of their local populations, they are best placed to decide how to celebrate Christmas and other religious festivals.

Commercial Property

Miss Kirkbride: To ask the Deputy Prime Minister how many voids on commercial property there were in each year since 2000. [40400]

Yvette Cooper: The Office of the Deputy Prime Minister does not compile or collate statistics of voids in the commercial property sector.

Miss Kirkbride: To ask the Deputy Prime Minister how many new commercial leases have been offered on a contracted-out basis since their introduction. [40401]

Yvette Cooper: Landlords and tenants have been able to agree to contract out of security of tenure since 1970. Since 1 June 2004, they have been able to do so without prior court approval, but subject to new safeguards for tenants involving the issue of "health warning" notices.

There are no records of how many new commercial leases have been offered on a contracted-out basis since the new procedures were introduced. We do not expect the new procedures by themselves to change the pattern of contracting out.

The new contracting out procedures were part of a package of reforms to Part 2 of the Landlord and Tenant Act 1954 introduced by a Regulatory Reform Order made in 2003. We are currently reviewing the impact of the reforms, with a view to reporting back shortly to the Regulatory Reform Committee.

Council Expenditure

Mr. Holloway: To ask the Deputy Prime Minister what proportion of spending by *(a)* Kent county council and *(b)* Gravesham borough council will be financed from council tax in (i) 2006–07 and (ii) 2007–08. [37523]

Mr. Woolas: The information requested is not yet available. Authorities will not be setting council taxes for 2006–07 until early in 2006, with council taxes for 2007–08 not set until early 2007.

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister whether the Government plan to cap council tax bills for pensioners; and if he will make a statement. [39487]

Mr. Woolas: The Government have made it clear that they expect to see an average increase in council tax in England of less than 5 per cent. in each of the next two years and are prepared to use their capping powers against excessive increases.

The Office of the Deputy Prime Minister look forward to receiving the final report of Sir Michael Lyons' independent inquiry into local government funding, in the context of its wider functions and future role before the end of 2006. We will consider how council tax may best be reformed in the light of Sir Michael's recommendations.

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 8 December 2005, *Official Report*, column 1500W, on council tax revaluation, whether the collection of value significant codes and dwelling house codes will continue following the postponement of the council tax revaluation in England. [39641]

Mr. Woolas: I refer the hon. Member to the reply given on 28 November 2005, *Official Report*, column 197W.

Mrs. Spelman: To ask the Deputy Prime Minister if he will place in the Library a copy of the Valuation Office Agency's staff computer manual or guidance document for using the automated valuation model for council tax valuation purposes. [33165]

Mr. Woolas: The guidance contains reference to OASIS and Tenet which are commercial products which may be subject to copyright.

Councillors (Allowances)

Mr. Wills: To ask the Deputy Prime Minister what allowances are paid to councillors by each local authority in England. [40456]

Mr. Woolas: The Office of the Deputy Prime Minister does not hold the information requested.

Departmental Contracts

Mr. MacNeil: To ask the Deputy Prime Minister what the total value is of *(a)* catering and *(b)* entertainment contracts let by his Department; and what value of such contracts has been let in each nation and region of the United Kingdom, including London. [37467]

Jim Fitzpatrick: The information is not available in the form requested and could be provided only at disproportionate cost.

However, the following table shows how much the Office of the Deputy Prime Minister central spent on catering, hospitality and official entertainment for the period 1 April 2005 to date. These figures do not include any from the Government Offices which perform functions on behalf of 10 Government Departments.

£

1 April 2005 to date	*Amount spent*
Catering	186,357
Entertainment	129
Hospitality	35,332
Total	221,818

Departmental Projects

Mr. Amess: To ask the Deputy Prime Minister what *(a)* building and *(b)* refurbishment projects are planned by his Office in (i) 2005–06 and (ii) 2006–07; and what the expected costs are of each project. [37389]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has the following building and refurbishment projects being undertaken in 2005–06 and planned for in 2006–07.

£000

	2005–06		*2006–07*	
	Expected building cost	*Expected refurbishment cost*	*Expected building cost*	*Expected refurbishment cost*
Allington Towers—London				
Fit-out costs	—	330	—	—
Eland House—London				
Refurbishment of passenger lifts (DDA requirement)	—	250	—	—
Rebrigading ODPM occupation	—	1,621	—	4,705

£000

	2005–06		2006–07	
	Expected building cost	Expected refurbishment cost	Expected building cost	Expected refurbishment cost
Ashdown House—London				
Refurbishment of passenger lifts (DDA requirement)	—	170	—	—
Burlington House—London				
External repairs to grade2 listed building.	—	2,424	—	714
QEII Conference Centre				
Refurbishment of passenger lift (DDA requirement)	—	—	—	100
Fire Service College—Moreton-in-Marsh				
Refurbishment of student restaurant.	—	216	—	—
Refurbishment of student coffee bar and lounge.	—	—	—	59
Refurbishment of muster bay	—	—	—	107
New Dimension project				
Provision of storage	300	—	—	—

The figures provided, which exclude VAT, are gross expenditure and do not reflect receipts from other building occupants.

The Office of the Deputy Prime Minister has defined refurbishment projects to be upgrading and efficiency projects exceeding £100,000.

This answer does not include buildings occupied by Government Offices, who carry out functions on behalf of 10 Government Departments.

Departmental Property

Angus Robertson: To ask the Deputy Prime Minister how much was paid by his Department in rates to each local authority in the UK in 2004–05; and how much was paid in *(a)* each (i) nation and (ii) region of the UK and *(b)* London in that year. [35993]

Mr. Woolas: The Office of the Deputy Prime Minister paid a total of £7,589,600 in rates for its properties in 2004–05. All the properties are in England and the amount of rates paid to each local authority was as follows:

Rates paid to local authorities in 2004–05

Local authority	Amount (£)
City of Westminster	5,839,992
Dacorum borough council	78,660
St Albans City and district council	6,014
High Peak borough council	3,329
Cotswold district council	411,150
East Staffordshire borough council	477,432
Bristol City council	761,633
Trafford Metropolitan borough council	11,390
Total	7,589,600

The amount of rates paid in respect of regions of the UK was as follows:

Rates paid to local authorities in 2004–05

Region	Amount (£)
London	5,839,992
Eastern	84,674
North West	14,719
West Midlands	477,432
South West	1,172,783
Total	7,589,600

Of the total amount of £7,589,600 paid by the Office of the Deputy Prime Minister (ODPM) to local authorities, £1,614,185 was recovered from other Government occupiers. ODPM also paid £224,565 in respect of rates to other Government Departments whose property they occupied.

This answer does not include buildings occupied by Government Offices, which carry out functions on behalf of 10 Government Departments.

Departmental Secondees

Mr. Austin Mitchell: To ask the Deputy Prime Minister how many secondees there have been to his Office from consultancy firms, including the Big Four accountancy firms, in each of the last three years; and what areas of the Department they have worked in. [37355]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has had one secondee from a consultancy firm in each of the last three years: Details are as follows:

	Number	Area
2003	1	Local Government
2004	1	Local Government
2005	1	Corporate Strategy

Departmental Staff

Stewart Hosie: To ask the Deputy Prime Minister how many and what proportion of each civil service grade in his Department is located in each *(a)* region and *(b)* nation of the UK; what the average salary is for each grade; and if he will make a statement. [35921]

Jim Fitzpatrick: My hon. Friend, the Parliamentary Secretary at the Cabinet Office will write to the hon. Member with details for the civil service of the percentage of staff in post by region and grade responsibility and the median salary of staff in post by region and grade responsibility as at 1 April 2004. Copies of his letter will be placed in the Library of the House.

Mr. Spellar: To ask the Deputy Prime Minister how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40293]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) does not collect such data. Staff in ODPM may work at home subject to the agreement of their line manager and the business needs of ODPM. In making such arrangements full account is given to the rights of staff with children under the age of six under the Employment Act 2002 to request a flexible working pattern. ODPM supports such arrangements which assist staff maintain a satisfactory work/life balance, subject to there being a business justification for the arrangement.

Design for Manufacture

Mrs. Spelman: To ask the Deputy Prime Minister what his estimate is of the final sale price of the £60,000 homes being constructed as part of the Design for Manufacture competition. [33495]

Yvette Cooper: The Design for Manufacture competition is being run by English Partnerships on behalf of the Office of the Deputy Prime Minister. It is anticipated that there will be mixed tenure on each site, with some homes being available for affordable rent, some under shared equity and some for private sale.

The aim of the competition is to demonstrate how to build cost-effectively across a range of housing types without sacrificing quality. The sites are in public sector ownership. This also allows some of the competition homes to become part of our developing low cost home ownership initiatives. We anticipate that the shared equity homes will be made available at a price equivalent to the cost of construction, plus a contribution to the overall development charge for the installation and connection of services and infrastructure. Final details will be known later this year once the homes are built on site and details finalised.

Designated Growth Areas

Anne Main: To ask the Deputy Prime Minister pursuant to the answer of 8 December 2005, *Official Report*, columns 1501–02W, on designated growth areas, if he will list the providers of private funding; how much funding has been committed by each; what opportunities for private sector funding were identified by his Department in each of the growth areas; and what his Department's estimate is of the private funding that will be made available within each designated growth area by 2016. [37947]

Yvette Cooper: The answer given on 8 December 2005, *Official Report*, columns 1501–02W, referred to the opportunities that the designated growth areas will present to private sector investors. This includes investment by the privately owned utility companies in water, waste water and electricity supply infrastructure and investment by housing developers who will be expected to contribute to infrastructure requirements through Section 106 contributions.

A specific example of private sector investment in one particular growth location was also given. In Milton Keynes, delivery partners have focused on identifying, prioritising and sourcing investment for growth related infrastructure—based on their individual circumstances and infrastructure priorities—using a mix of public and private sector funding. The local delivery vehicle has been negotiating a standard charge of over £18,000 per house from private developers in the east and west expansion flanks. This will generate approximately £300 million of funding to complement circa £900 million of funding from public sources in support of infrastructure to facilitate construction of 15,000 houses to 2016. The Office of the Deputy Prime Minister is encouraging other growth locations to follow similar principles in securing local agreement on priorities and funding their growth location business plans.

There will of course also be direct private sector investment in new opportunities created by the growth strategies. For example in Corby, an important growth location within the Milton Keynes/South Midlands growth area, investment from private sector partners includes: major town centre retail development by Land Securities at Willow Place (Phase 1 of which is worth around £35 million); mixed use town centre and light industrial development by Quadrant Developments at Cockerell Road (which is worth around £35 million) and office, industrial and commercial development by Wilson Bowden at Phoenix Parkway (which is worth around £30 million). This is in addition to the major public sector investment (around £25 million) that has been earmarked for Corby's Parkland Gateway scheme—of which £9 million is Growth Areas Funding.

A full list of *(a)* all of the providers of private funding and the amount of funding committed by each and *(b)* the opportunities for private sector funding in each of the growth areas (covering more than 15 separate locations) is not held centrally and could be provided only at disproportionate cost.

Domestic Microgeneration Devices

Greg Clark: To ask the Deputy Prime Minister what estimate he has made of the average cost to *(a)* the applicant and *(b)* the planning authority of applying for planning permission to install domestic microgeneration devices. [40259]

Yvette Cooper: The Office of the Deputy Prime Minister has not carried out any estimates in this context. As I informed the House on 11 November, we envisage consulting in 2006 on possible amendments to the General Permitted Development Order, including provisions that would make it easier for householders to install microgeneration equipment.

Engagements

Norman Baker: To ask the Deputy Prime Minister if he will list his engagements for *(a)* 13 May 2003 and *(b)* 16 December 2005. [39625]

Jim Fitzpatrick: My right hon. Friend the Deputy Prime Minister had a number of routine departmental meetings in his London office on 13 May 2003. Due to an administrative error, a previous parliamentary response to the hon. Member of 15 December 2003, *Official Report*, column 744W, indicated that he was on a regional visit in Hove on this date. This in fact took place one year earlier, on 13 May 2002.

On 16 December 2005, he was on a regional visit to Portsmouth, Worthing and Brighton.

Fire Service Restructuring

Miss McIntosh: To ask the Deputy Prime Minister what assessment he has made of the level of service people living in North Yorkshire will receive after the restructuring of the Fire Service. [39729]

Jim Fitzpatrick: Fire and rescue authorities are required by the Fire and Rescue Service National Framework to have in place and maintain an Integrated Risk Management Plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. It is, therefore, for North Yorkshire Fire and Rescue Authority to determine appropriate fire cover and the level of service in its area.

Miss McIntosh: To ask the Deputy Prime Minister when he expects work undertaken to gather information from local fire brigades about essential activities out of scope of the new regional fire control centres will be concluded. [39730]

Jim Fitzpatrick: The Office of the Deputy Prime Minister is currently reviewing the information supplied by fire and rescue services on out of scope activities and we expect to be able to provide feedback directly to individual fire and rescue services in February 2006.

Miss McIntosh: To ask the Deputy Prime Minister what assessment he has made of the implications for rural areas with a large number of retained firefighters with limited capabilities of *(a)* floods and *(b)* terrorism. [39731]

Jim Fitzpatrick: Fire and rescue authorities are required by the Fire and Rescue Service National Framework to have in place and maintain an Integrated Risk Management Plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities, including those of floods and terrorism if appropriate. It is, therefore, for each fire and rescue authority to determine appropriate fire cover in its area, be that rural or metropolitan.

The Government place great value on the contribution of firefighters on the retained duty system who provide the backbone of many fire and rescue authorities across the country.

Miss McIntosh: To ask the Deputy Prime Minister what the cost implications will be of residual control functions out of scope of regional fire control centres. [39812]

Jim Fitzpatrick: We are reviewing information provided by Fire and Rescue Services about the activities which are currently performed by control staff in existing control rooms and which are expected to lie outside the scope of the new control arrangements. Initial analysis confirms our view that there will be considerable savings from making new arrangements for performing these activities. In particular, highly trained, well-paid control room staff will no longer perform routine administrative tasks, such as managing the first aid box or holding the keys for pool cars. This will allow them to focus their efforts on achieving the best possible management of emergency incidents.

Fire Services College

Mr. Weir: To ask the Deputy Prime Minister whether the Fire Services College provides services to brigades in Scotland. [39934]

Jim Fitzpatrick: Yes. The Fire Service College provides a range of training courses for Scottish fire and rescue services. They also have access to the College's library and online information and development resources.

Homebuy Schemes

Mrs. Spelman: To ask the Deputy Prime Minister which public sector body will be providing the funds for the *(a)* Open Market Homebuy, *(b)* Social Homebuy and *(c)* New Build Homebuy scheme. [39489]

Yvette Cooper: Public subsidy for the Open Market and New Build HomeBuy schemes will be provided from 1 April 2006 by the Housing Corporation.

Social HomeBuy, which enables social tenants to buy a share in their rented home, will be funded by housing associations and local authorities. In the housing association sector, the Housing Corporation will provide funding to cover the cost of the discount offered to the tenants to facilitate participation in the scheme.

Funding for the Open Market HomeBuy option will be supplemented by the provision of private finance equity loans following a major agreement with three lenders which was announced on 5 December. This has the potential to enable a further 20,000 households to be helped into home ownership by 2010, bringing the total helped through the HomeBuy schemes to over 100,000.

Mrs. Spelman: To ask the Deputy Prime Minister whether private sector workers will be eligible for the *(a)* Open Market Homebuy scheme, *(b)* Social Homebuy scheme, *(c)* New Build Homebuy scheme and *(d)* Key Workers Initiative. [39490]

Yvette Cooper: Private sector workers who are also social tenants, on the housing register, or first time buyers in a priority group recommended by regional housing boards will be eligible for open market homebuy and new build homebuy schemes where they are operating.

Private sector workers who are also social tenants will be eligible for social homebuy where social landlords are operating the scheme.

Private sector workers are not included within the eligible groups for key worker housing as the prime objective is to support improvements in public services. It is the responsibility of the private sector to deal with their own recruitment and retention issues.

Homelessness

Anne Milton: To ask the Deputy Prime Minister (1) how many homeless households in *(a)* Guildford, *(b)* Waverley and *(c)* Surrey were living in (i) temporary accommodation and (ii) sleeping rough in each of the past five years; [39570]

(2) how many beds were available for homeless households in *(a)* Guildford, *(b)* Waverley and *(c)* Surrey in each of the past five years. [39571]

Yvette Cooper: Information about the number of households in temporary accommodation arranged by local authorities under homelessness legislation as at 31 March, and the number of persons sleeping rough, in each of the past five years is tabled as follows for Guildford, Waverley and Surrey.

Each local authority in England has a duty to provide accommodation to households who have been accepted as homeless and are owed a main housing duty under homelessness legislation. If the authority cannot provide a settled solution straight away the household will be placed in temporary accommodation. For this reason, authorities will not have a set number of beds for homeless households.

Households in temporary accommodation[1] arranged by local authorities under homelessness provisions of Housing Acts, and numbers of persons sleeping rough[2]

	Households in temporary accommodation as at 31 March	*Rough sleepers*
2001		
Guildford	164	1
Waverley	132	0
All LAs in Surrey	1,010	2
2002		
Guildford	181	1
Waverley	[3]—	0
All LAs in Surrey	1,060	2
2003		
Guildford	180	0
Waverley	116	0
All LAs in Surrey	1,020	0
2004		
Guildford	160	0
Waverley	107	0
All LAs in Surrey	930	0
2005		
Guildford	111	0
Waverley	80	0
All LAs in Surrey	1,030	0

[1] Households in accommodation either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance. Excludes those households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative housing as those in accommodation arranged by the authority.

[2] Number of persons sleeping rough, based on local authority mid-year counts or estimates.

[3] Denotes data not reported. Figures for Surrey, which include estimates for partial and non-response, have been rounded to the nearest 10.

Source:
ODPM P1E homelessness returns (quarterly) and HSSA returns (annual)

Anne Milton: To ask the Deputy Prime Minister (1) when he last met representatives of Crisis to discuss homelessness among those people housing authorities are not legally obliged to accept as homeless; [39572]

(2) when the Government last carried out research on the extent of homelessness; [39573]

(3) what plans the Government have to carry out research to establish how many people are living *(a)* in bed and breakfast accommodation, *(b)* in hostels, *(c)* temporarily with families and friends, *(d)* in other temporary accommodation and *(e)* sleeping rough; and if he will make a statement. [39574]

Yvette Cooper: Officials within the ODPM meet regularly with Crisis and I would be happy to meet with them should the situation arise.

In relation to undertaking detailed research on the extent of homelessness, ODPM measures homelessness primarily through local authority statistics on the numbers of households seeking homelessness assistance and through counts and estimates of rough sleeping. These are the most robust and consistent measures of the problem and of changes over time. We are constantly improving them and we conduct other regular surveys to measure other indicators of housing need, such as overcrowding through the annual Survey of English Housing. This data is published and available free of charge from the ODPM website at www.odpm.gov.uk. Link: http://www.odpm.gov.uk/index.asp?id=1154759.

In addition, the Homelessness Act 2002 requires every local housing authority in England in have in place a strategy for preventing and tackling homelessness among all households at risk of homelessness, including for those to whom they do not owe a statutory duty to house. Every authority published its first strategies in 2003.

The latest National Statistics on statutory homelessness, published on 12 December, showed 100,970 households in some form of temporary accommodation arranged by local authorities under homelessness legislation as at 30 September 2005. Of this total, 6,290 were in bed and breakfast style units, and 9,870 were in hostels or women's refuges; all the remaining 84,810 households were in some form of self-contained accommodation, the majority of which was leased from the private sector or owned by social landlords.

In addition to the 100,970 households in temporary accommodation on 30 September, there were a further 16,020 households who were "homeless at home", that is awaiting a settled housing solution, having previously been accepted as owed a main homelessness duty but able to remain in their current accommodation for the immediate future.

Latest estimates and street counts, as at June 2005, indicate there were 459 people sleeping rough in England on any single night. This is the lowest recorded level since the count began in 1998.

Greg Mulholland: To ask the Deputy Prime Minister what steps he is taking to tackle hidden homelessness. [39632]

Yvette Cooper: The Office of the Deputy Prime Minister is committed to tackling all forms of homelessness. That is why we introduced legislation in 2002 requiring all housing authorities to have a strategy in place for preventing homelessness and ensuring that accommodation and support are available for people who are homeless or at risk of homelessness. In support of these strategies we have already invested over £200 million and will invest a further £200 million by 2008.

We are also determined to help others who are facing difficulties in finding a home of their own, for example those staying with family and friends, or living in hostels. To help us achieve this, we are increasing the supply of new social rented homes by 50 per cent. by 2008 and investing £90 million in hostels over three years to 2007–08 to improve the quality and effectiveness of hostels and the services they provide to help people move on to independent living.

Greg Mulholland: To ask the Deputy Prime Minister what provisions he has made to set up emergency shelters for people sleeping rough in the event of a particularly cold winter. [39796]

Yvette Cooper: Local authorities are required to have strategies in place for ensuring that accommodation and support are available for people who become homeless or at risk of homelessness. The Office of the Deputy Prime Minister has already invested over £200 million to support these prevention strategies and will invest £200 million more by 2008. This funding will also support additional provision for rough sleepers in periods of severe weather.

Whilst welcoming the fact that rough sleeper numbers in England are at an all-time low, we recognise the importance of ensuring that every effort is made to bring rough sleepers off the streets should there be a period of severe weather this winter. To that end, and further to the funding outlined above, the Office of the Deputy Prime Minster has written to every local authority to ensure that they have plans in place to deal with anyone on the streets in extreme cold weather, and offer whatever advice and support is necessary to authorities who have not yet got appropriate plans in place.

Richard Burden: To ask the Deputy Prime Minister how he defines the term temporary accommodation for the purpose of setting targets for local authorities to reduce the number of homeless families in temporary accommodation. [40224]

Yvette Cooper: For the purpose of the 2010 target, "temporary accommodation" means any accommodation secured by an English local housing authority to discharge a power or duty to secure accommodation under Part 7 of the Housing Act 1996 (the "homelessness legislation"). This can be distinguished from the provision of settled accommodation (whether in the social or private rented sectors) that brings a homelessness duty to an end.

House Building

Dr. Kumar: To ask the Deputy Prime Minister what percentage of the additional homes planned to be built in England are expected to be *(a)* council, *(b)* housing association and *(c)* private homes. [37784]

Yvette Cooper: The Government responded to Kate Barker's review of Housing Supply on 5 December, outlining its ambition to increase total (private and social) housing delivery in England over the next decade to 200,000 net additions per year, from current delivery of around 150,000 net additions per year. The Government's aim is to increase home ownership to 75 per cent. and also to increase affordable housing for ownership and rent.

This policy will inform regional and local plans for housing, however the numbers set out in the response represent Government's ambition nationally. Detailed figures at a local level are determined through statutory planning processes.

For 2005–08, the Government is funding 75,000 new social homes of which at least 60,000 are expected to be provided through Registered Social Landlords. The Government have announced that social housing will be a priority in the next spending review and that we will also be piloting new ways for local authorities to support the delivery of more council housing.

Housing

Mr. Burstow: To ask the Deputy Prime Minister how many and what proportion of households accepted as unintentionally homeless and in priority need *(a)* contained (i) one, (ii) two and (iii) three or more children and *(b)* consisted of an applicant who was 16 or 17 years old in each quarter since 2002; and how many households in temporary accommodation contained (A) dependent children and (B) an expectant mother in (1) London and (2) each London borough in each quarter. [34664]

Yvette Cooper: Information collected about the number of households in temporary accommodation, as arranged by local authorities under homelessness legislation, at the end of each quarter identifies those containing dependent children or an expectant mother, but does not distinguish between them.

A table presenting the information as reported by each London borough on the number of households accepted as eligible for assistance, unintentionally homeless and in priority need, during each quarter since July 2002, and the number of households with dependent children or an expectant mother in temporary accommodation at the end of each quarter, has been made available in the Library of the House. This distinguishes the number of households accepted each quarter, by the number of dependent children, and those where the applicant was aged 16 or 17, as well as presenting the information as a percentage of the total number of households accepted during each quarter, and the number of households in temporary accommodation at the end of each quarter.

The total number of households in London accepted as homeless and owed a main homelessness duty, which contained children, or an expectant mother or a 16 to 17-year-old, fell from 5,650 to 4,130 (a 27 per cent. decrease) between the third quarters of 2002 and 2005 respectively.

Anne Main: To ask the Deputy Prime Minister pursuant to the answer of 1 December 2005, *Official Report*, column 682W, on housing, how many houses

were identified in each local authority as being empty for six months in 2001–02; and in how many of those cases the local authority intervened. [38875]

Jim Fitzpatrick: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Keetch: To ask the Deputy Prime Minister what steps his Department has taken to assist low-income rural families to access adequate housing. [38921]

Yvette Cooper: This Government believes everyone should have access to decent housing at a price they can afford, including those in rural communities. To assist those on low incomes and key workers in such communities last year (2004–05) we invested over £200 million in new affordable homes.

On 5 December we published new draft planning policy statement 3: "Housing" (PPS3) for consultation. This exhorts local planning authorities (LPAs) to make sufficient land available for affordable and market housing to sustain rural communities. It encourages LPAs in rural areas to adopt policies that deliver sufficient affordable housing and mixed and sustainable rural communities, for example through setting a lower site-size threshold than the indicative threshold of 15 dwellings. Draft PPS3 enables LPAs to provide for affordable housing of a specific size and type, so that housing provision addresses the identified affordable housing need in particular areas.

We are conscious though that this is only part of the picture. The issues driving affordability in rural areas are complex and include a range of stakeholders outside Government. This is why in the summer we set up the Affordable Rural Housing Commission. We have asked the Commission to consider the evidence and reach consensus on the relevant issues around affordable housing needs in rural areas, in the context of sustainable communities, and to provide recommendations for practical solutions across private, Government, and voluntary sectors, taking account of good practice. The Commission is currently gathering evidence and will report in spring 2006.

Mrs. Spelman: To ask the Deputy Prime Minister what estimate he has made of the number of *(a)* housing, *(b)* regeneration and *(c)* social exclusion scheme funding streams that will be in operation in 2006–07. [33163]

Yvette Cooper: The following list shows funding streams for a wide range of policy objectives across housing regeneration and social exclusion that will be in operation in 2006–07:

Housing

Arms Length Management Organisations

Best Value Intervention in Housing

Disabled Facilities Grants

Homelessness

Housing Action Trusts

Home Buying and Selling

Landlord Licensing and Safety Ratings

Tenants Deposit Scheme

Housing Defects Grants/Loan Charges

Housing Management Grants

Housing Mobility Service

Housing Revenue Account Subsidy

Large Scale Voluntary Transfers—gap funding and repayment of overhanging debt

Leasehold Enfranchisement Advisory Service

Choice-based Letting Schemes

Local Authority Social Housing Grant—Transitional Compensation

Private Housing Renewal

Private Landlords in Low Demand Areas

Programme efficiencies in social housing

Residential Property Tribunal Service

Safer Communities Supported Housing Fund

Single Housing Capital Pot (includes Housing Corporation National Affordable Housing Programme, Local Authority Supported Capital Expenditure for Housing, Private Sector Renewal Grant and Gypsy and Traveller Grant)

Supporting People

The National Approved Letting Scheme

Regeneration

Coalfields funding (Enterprise Fund and Regeneration Trust)

Commission for Architecture and the Built Environment

Design Awards

English Partnerships (including Commission for the New Towns)

European Regional Development Fund

Groundwork and National Urban Forestry Unit

Housing Market Renewal Fund

Interreg (European funding stream)

Lea Valley Regional Park

Liveability Fund

Living Spaces

Mersey Basin

New Deal for Communities

New Ventures Fund

Neighbourhood Renewal Fund

Other Growth Areas

Regional Development Agencies (including London Development Agency)

Special Grants Programme

Thames Gateway

Green Flags

Liveability Performance

Academy for Sustainable Communities (formerly Urban Design Skills)

Local Enterprise Growth Initiative

The Government also funds the work of the social exclusion unit. The unit does not administer funding streams directly but does work with Government Departments and other stakeholders to ensure that a wide range of Government funding programmes contribute to the reduction of social exclusion.

The Office of the Deputy Prime Minister also funds research on housing, regeneration and social exclusion.

John Bercow: To ask the Deputy Prime Minister if he will make a statement on initiatives to improve housing quality for older people with particular reference to affordable *(a)* heating and *(b)* security and safety. [39424]

Yvette Cooper: The Government has set a target to bring all social housing into decent condition and to increase the proportion of private housing in decent condition occupied by vulnerable groups. Under the thermal comfort criterion element of the Decent Home standard, homes should have effective insulation and efficient heating. Older householders are among those who will benefit from these measures.

The Government's Warm Front Scheme in England provides a range of heating and insulation measures to householders and tenants in the private sector, including pensioner households, who are in receipt of certain benefits. Where a new central heating system is installed, customers are provided with guidance on the efficient use of the system. There are similar schemes in place in each of the Devolved Administrations.

In the pre-Budget report, the Chancellor of the Exchequer announced that an additional £300 million would be made available to tackle fuel poverty across the UK. In England, an additional £250 million will be made available to boost the Warm Front Scheme and extend its ability to provide central heating to pensioner households, and also to provide £300 off the cost of a central heating system for all other pensioners.

With the implementation of Part 1 of the Housing Act 2004 in April 2006, the Housing Health and Safety Rating System (HHSRS) will replace the fitness standard as the basis for intervention against unacceptable housing conditions and will also become an element of the Decent Home standard. To be decent, a dwelling will need to be free of serious ("category 1") health and safety hazards, including serious hazards from entry by intruders, as assessed under HHSRS. This means that landlords, including local authorities and other social landlords, will need to take reasonable steps to ensure that their properties are secure against unauthorised entry.

Local authorities can offer assistance in the form of grants, loans or advice towards any kind of repair, adaptation or improvement work. The Disabled Facilities Grant (DFG) helps fund adaptations to enable disabled people to live as comfortably and independently as possible in their homes. 70 per cent. of DFG applications come from older people.

Support and assistance for older people in accessing funding and arranging works can also be obtained from Home Improvement Agencies (HIAs), for whom Government provides support through sponsorship of a National Co-ordinating Body—Foundations—and funding from a range of sources including the Supporting People programme.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the total cost of gap funding allocated to large scale voluntary transfers was in each year since 2001. [22411]

Yvette Cooper: £182 million has been allocated for the period 2004–05 to 2007–08. The gap funding scheme did not operate prior to this period. This funding leavers in considerable private finances.

Jeremy Corbyn: To ask the Deputy Prime Minister what estimate he has made of the cost of administration of the Arm's Length Management Organisation in Islington since it was established. [40353]

Jim Fitzpatrick: No estimate has been made by the Office of the Deputy Prime Minister. The funding provided under the ALMO programme is towards the cost of capital works to make homes decent only.

Mr. Austin Mitchell: To ask the Deputy Prime Minister if he will introduce rules for the conduct of tenants' ballots in housing matters to cover *(a)* starting dates, *(b)* access for opposing campaigners, *(c)* availability of information on addresses and *(d)* adjudication of disputes. [40370]

Mr. Woolas: The Office of the Deputy Prime Minister has no plans to introduce such rules. Guidance to local authorities on the conduct of tenants' ballots is in the 'Housing Transfer Manual 2005'. Authorities should also ensure that they follow the 'Code of Recommended Practice on Local Authority Publicity' (Circulars 20/1988 and 06/2001).

Mr. Austin Mitchell: To ask the Deputy Prime Minister what assumptions are used in estimating building cost inflation when calculating allowances for local authority housing revenue accounts; and how such estimates are calculated. [40849]

Yvette Cooper: Major repairs allowances are increased in line with the GDP deflator, as set out in my response to the hon. Member's question number 40851.

The national total of maintenance allowances is increased each year in line with the policies set in the Spending Review.

The distribution of major repairs and maintenance allowances between authorities makes reference to relative construction costs as measured at county level by the average of the latest four quarters of the BCIS All-in Tender Price Index. The procedure and data are set out in full in the Commentary on the Housing Revenue Account Subsidy Determination 2006–2007.

Mr. Austin Mitchell: To ask the Deputy Prime Minister whether building cost inflation is taken into account when calculating local authority major repairs allowances. [40851]

Yvette Cooper: The major repairs allowances for each building archetype are increased each year in line with the forecast GDP deflator measure of inflation provided by HM Treasury at the time of issue of the HRA Subsidy Determination. For 2006–07 this was 2.46 per cent.

Mr. Austin Mitchell: To ask the Deputy Prime Minister if he will list local authorities from which housing revenue account funds were transferred in each of the last three years, broken down by amount. [22254]

Yvette Cooper: A table showing the list of local authorities covered by the housing revenue account subsidy system, together with their subsidy entitlements, both negative and positive, in the years 2003–04 to 2005–06 inclusive has been placed in the Library of the House. The figures are subject to audit.

Transfers from an authority are indicated by negative amounts. Where an authority has been in receipt of subsidy, those amounts are shown as positive amounts to distinguish them from authorities that have closed their housing revenue accounts, which are marked "n/a" in the appropriate years.

In each of the three years, some authorities have contributed to the system, while others have received resources. In none of the years have surpluses met the full cost of deficits. We expect that payments to deficit authorities will continue to exceed resources redistributed from surplus authorities throughout this period. This means that there will be a continuing net subsidy to council housing.

Peter Law: To ask the Deputy Prime Minister how much money has been raised to date from the sale of council houses; and what proportion of the revenue has been reinvested in the repair and upgrading of council housing stock. [35806]

Yvette Cooper: From 1 April 1990 to 31 March 2005 there has been £21.23 billion (current prices net of discounts) raised from sales of local authority dwellings sold for owner occupation. This includes right-to-buy, voluntary sales into owner-occupation and leasehold but excludes receipts from block transfers. Information on use of receipts is not held centrally, and could be provided only at disproportionate cost.

James Duddridge: To ask the Deputy Prime Minister (1) what the percentage change in council housing waiting lists *(a)* in Southend-on-Sea and *(b)* for each local authority in England has been since 1997; [33773]

(2) what estimate he has made of the number of people who will be on waiting lists for council housing placements in 12 months time; [33775]

(3) how many people are on waiting lists for council housing placements. [33776]

Yvette Cooper *[holding answer 1 December 2005]:* A table containing the percentage change showing increases and falls in the number of households on housing waiting lists by each district, including Southend-on-Sea, from 1997 to 2005, has been made available in the Library of the House.

The Office of the Deputy Prime Minister does not make predictions as to the future status of the housing waiting list. For information on past trends, I refer the hon. Member to the answer given on 17 October 2005, *Official Report*, columns 811–12W to the hon. Member for Yeovil (Mr. Laws), in which the annual housing waiting list data for the years 1996 through to 2005 were made available in the Library of the House.

The most recent figure for the number of households on the housing waiting list, as at 1 April 2005, is that there are 1,546,900.

Local authorities in England report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Local authorities sometimes maintain a common waiting list with the Housing Association/s in their district. However, information is not held centrally where a Housing Association maintains a separate waiting list to the local authority.

Land Disposal (Hackney)

Mr. Hands: To ask the Deputy Prime Minister what applications have been made for disposal of land for less than best consideration by the London borough of Hackney since 2000. [38571]

Yvette Cooper: The information requested is tabled as follows:

Less than best price applications by the London borough of Hackney 2000–05

Year/number	*Site*
2000	
1.	2–28 Belfast Road, London N16
2.	Stonebridge Lock, Tottenham Marshes, London E8
3.	Essex Filter Beds, Lea Bridge Road, London E8
4.	Lee Valley Sports Centre, Eastway, Leyton
5.	Shoreditch Town Hall, Annexe and car park, Old Street, EC1
6.	Northgate/Hearn Street, London EC2
2001	
7.	2–10 Hertford Road, Hackney, London N1
8.	Shoreditch Town Hall, Annexe and car park, Old Street, EC1
2002	
9.	Betty Laywood School, Clissold Road, London N16
10.	Park Lodges, Hackney
2003	
11.	9 Amhurst Park, Hackney N16
12.	Land at Church Walk, 4–6 Clissold Road, N16

Local Authority Expenditure

Mrs. Spelman: To ask the Deputy Prime Minister what estimate the Government has made of the gross expenditure of local authorities on *(a)* allowances and *(b)* pensions in 2004–05. [39482]

Mr. Woolas: The estimated gross expenditure of English local authorities on pensions in 2004–05 was £5,815 million.

This figure has been estimated from the 2004–05 Subjective Analysis Return (SAR), part of the Revenue Outturn (RO) suite of forms collected by the Office of the Deputy Prime Minister (ODPM) from local authorities. The SAR is a sample survey and collects information from 121 authorities in England. The data have been grossed up to provide estimates for England as a whole and are presented on a Financial Reporting Standard 17 (FRS17) basis.

Expenditure on staff allowances is not collected centrally and could be provided only at disproportionate cost.

Local Government Finance

Mr. Kemp: To ask the Deputy Prime Minister what estimate he has made of the cost of implementing the single status national pay and conditions agreement for each *(a)* local authority and *(b)* region by 2007. [31553]

Mr. Woolas: No such detailed estimates have been made. The Government are committed to ensuring that local authorities can continue to deliver effective services without imposing excessive increases in council tax. We have established a work programme with the Local Government Association to analyze pay pressures including the Single Status Agreement.

Mr. Fraser: To ask the Deputy Prime Minister if he will rank shire counties in England by the *(a)* percentage increase and *(b)* cash increase in formula grant awarded

in the Local Government Finance Settlement for (i) 2006–07 and (ii) 2007–08. [38855]

Mr. Woolas: The information requested is in the following table.

PQ 2761: Change in formula grant for 2006–07 and 2007–08

Local authority	*Change in 2006–07*				*Net change in 2006–07*			
	Change		*Percentage change*		*Change*		*Percentage change*	
Shire counties	*£ million*	*Rank*	*%*	*Rank*	*£ million*	*Rank*	*%*	*Rank*

Surrey	2.786	21/34	2.7	23/34
Warwickshire	2.005	29/34	2.7	30/34
West Sussex	2.160	26/34	2.7	27/34
Wiltshire	1.619	33/34	2.7	33/34
Worcestershire	1.877	30/34	2.7	31/34

Note:

Counties have been ranked in decreasing order, i.e. those with the lowest rank are the authorities with the highest increase.

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 14 December 2005, *Official Report*, column 1962W, on local government finance, if he will break down by main budget heading *(a)* the £45 million of costs that will be of potential use in the future and *(b)* the £15 million of costs that cannot be recouped or redeployed. [39552]

Mr. Woolas: The £45 million will be of use in supporting the 1993 valuation lists and also for other

valuation work on domestic property which the VOA undertakes within its statutory remit. This sum includes:

around £30 million for putting the VOA's existing hard copy records on some 22 million domestic properties onto computer and checking they are up-to-date;

around £10 million for the AVM (Automated Valuation Model), which can automatically generate bulk valuations;

around £5 million for designing new systems for enquiries and appeals.

The balance of £15 million relates to such matters as recruitment and training of staff, programme management and work on the design and specification of new systems and work processes.

Peter Luff: To ask the Deputy Prime Minister what the average percentage change was in formula grant for each shire county *(a)* with and *(b)* without responsibility for the fire and rescue service in each of the 10 years to 2007–08. [40268]

Mr. Woolas: The following table shows the average percentage increase in formula grant on a like-for-like basis over the period 1997–98 to 2007–08 for shire counties with fire responsibilities in 2006–07 and for shire counties without fire responsibilities in 2006–07. Please note that for the period 1997–98 to 2003–04, the combined shire fire authorities were levying bodies. For this period therefore the formula grant for authorities without fire responsibilities in 2006–07 included an amount for fire.

	Shire counties with fire responsibilities	*Shire counties without fire responsibilities*
1998–99	0.5	1.1
1999–2000	5.0	5.0
2000–01	4.6	4.6
2001–02	4.9	4.6
2002–03	6.4	6.0
2003–04	5.8	5.6
2004–05	6.7	6.4
2005–06	5.9	5.9
2006–07	3.1	2.9
2007–08	4.2	3.7

Peter Luff: To ask the Deputy Prime Minister what the average percentage change was in formula grant for *(a)* each West Midland metropolitan district council and *(b)* the city councils of (i) Birmingham, (ii) Coventry and (iii) Wolverhampton in each of the 10 years to 2007–08. [40269]

Mr. Woolas: The following table shows the average percentage increase in formula grant on a like-for-like basis over the period 1997–98 to 2007–08 for all West Midland metropolitan district councils and the cities of Birmingham, Coventry and Wolverhampton.

Percentage

	West Midlands district councils	*Birmingham*	*Coventry*	*Wolverhampton*
1998–99	4.1	4.3	4.5	4.8
1999–2000	4.7	3.6	4.6	5.4
2000–01	3.3	3.5	2.9	3.3
2001–02	3.7	3.5	3.2	4.1
2002–03	5.1	5.3	4.4	5.1
2003–04	8.1	8.1	8.4	8.2
2004–05	7.0	7.3	6.6	6.7
2005–06	6.6	6.7	6.3	6.3
2006–07	2.6	2.8	2.6	2.1
2007–08	4.2	4.7	3.8	2.7

Peter Luff: To ask the Deputy Prime Minister what account he took of the annual percentage change in the Retail Price Index over the 10 years to 2007–08 when setting formula grant levels. [40270]

Mr. Woolas: In 1998–99, Central Support Protection Grant was introduced for the first time. This grant protected authorities from cash decreases in their formula grant for the first time. In 2001–02, Floor Damping was introduced for authorities with education and social service responsibility. The following year, i.e. 2002–03, this was introduced for all authorities.

Under the floor damping regime, the floor is self-financing within each of the authority groups covered by the scheme. This means that it is not possible to set the floor above the level of the average grant increase for that group on a like-for-like basis. When setting the level of the floor Ministers take into account a number of factors including the level of inflation expected for the period covered by the grant, the average grant increase for the group, and the scaling factor imposed on authorities above the floor. The measure of inflation used in deciding at what level the floor should be set is the GDP deflator, as this measure is forecast by Treasury, and hence is available for the period covered by the grant.

Planning Controls

Mr. Yeo: To ask the Deputy Prime Minister what assessment he has made of the likely impact of the guidance given in his Office's Planning Policy Statement 7 on development ancillary to the enjoyment of a domestic dwelling, with particular reference to development in the setting of a listed building where development might have been permitted under the Town and Country Planning Act Permitted Development Order, save for the listed status of the building. [40550]

Yvette Cooper: The Government's planning policy in Planning Policy Statement 7 (PPS7), 'Sustainable Development in Rural Areas', is that all new building development in the open countryside should be strictly controlled. The Government have not carried out an assessment of the impact of this policy on any specific types of development.

Development proposals that require planning permission are matters for the local planning authority in the first instance. Planning applications should be determined in accordance with relevant policies in an adopted development plan for the area, subject to other material considerations.

Population Growth

John Bercow: To ask the Deputy Prime Minister what assessment he has made of the policy implications for his Department of the growth in population in Aylesbury Vale. [39671]

Yvette Cooper: Aylesbury Vale forms a part of the Milton Keynes South Midlands Growth Area, one of the four growth areas established by the Communities Plan. The Growth Areas are an important component of the Government's policies for tackling housing shortages associated with household formation and population growth and complement the initiatives to be undertaken as part of the Government's December 2005 response to Kate Barker's Review of Housing Supply.

The Government's funding allocations to local government for 2006–07 and 2007–08 are currently being consulted upon by the Office of the Deputy Prime Minister (ODPM). Whereas previous settlements have used the latest available mid-year population estimates as the basis of funding calculations, as from 2006–07 the level of funding will be based on forward-looking population projections. The population projections are prepared by the Office for National Statistics using a trend-based methodology which projects forward the population (using 2003 mid-year population estimates as the starting point) into the future. The new approach should be more favourable to areas experiencing population growth such as the Growth Areas.

More generally, in its response to Kate Barker's Review of Housing Supply, the Government announced that as part of the 2007 Comprehensive Spending Review it would undertake a cross-cutting review to:

"determine the social, transport and environmental infrastructure implications of housing growth in different spatial forms and locations;

establish a framework for sustainable and cost-effective patterns of growth, including by examining the use of targeted investment through the Community Infrastructure Fund and Growth Areas funding to support the fastest-growing areas; and

ensure that Departmental resources across Government are targeted appropriately for providing the national, regional and local infrastructure necessary to support future housing and population growth."

The cross-cutting review will inform the spending decisions of ODPM and other Departments for 2008–09 and beyond.

Regional Fire Control Centres

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 14 December 2005, *Official Report*, column 1965W, on regional fire control centres, what estimate *(a)* the Government and *(b)* the London Fire and Emergency Planning Authority has made of the cost of the new London control centre; and whether it will be funded from the Greater London Authority precept on council tax. [39481]

Jim Fitzpatrick: Work on a replacement regional fire control centre for London is at a very early stage and no detailed assessment of costs has been made. It is expected that any new centre would be funded in a similar way to the eight regional control centres that are being procured for the regions outside London. For those centres the capital construction costs are being met by the developers and ongoing lease and associated accommodation costs will be met by Fire and Rescue Authorities.

Regional Spatial Strategies

Mrs. Spelman: To ask the Deputy Prime Minister when the regional spatial strategies will be finalised for each region. [39483]

Yvette Cooper: The provisional timetable for publication of the final regional spatial strategy for each region is as follows.

Region	
North East	Early 2007
East of England	Spring 2007
North West	October 2007
Yorkshire and Humberside	Autumn 2007
South East	End 2007/Early 2008
South West	End 2007/Early 2008
East Midlands	Early 2008
West Midlands partial review part 1	End 2007/ Early 2008
West Midlands partial review part 2	End 20087 Early 2009

Revenue Support Grant

Mr. Chaytor: To ask the Deputy Prime Minister what the annual per capita allocation of revenue support grant was in *(a)* Bury metropolitan council and *(b)* other local authorities in the same family group in each of the last eight years; what the annual percentage increase was; and what the average per capita allocation was for all (i) metropolitan districts and (ii) English local authorities in each year. [40601]

Mr. Woolas: The following table shows formula grant per head for Bury metropolitan council, all metropolitan districts, and all English local authorities for 1998–99 to 2005–06. Formula grant comprises revenue support grant, redistributed business rates and principal formula police grant.

It should be noted that Bury metropolitan council and the other metropolitan districts only provide some services within their area, both police and fire services are provided by other authorities. The 'all English local authorities' column covers both the services provided by Bury plus police and fire services.

Formula grant per head

£ per head

	Bury	*All metropolitan districts*	*All English local authorities*
1998–99	537.918	667.653	721.889
1999–2000	563.630	705.724	752.996
2000–01	586.541	731.117	778.194
2001–02	600.930	751.824	804.465
2002–03	621.218	759.790	806.510
2003–04	707.464	862.610	892.485
2004–05	755.452	905.388	930.640
2005–06	798.322	959.301	983.154

In their response to consultation on the local government settlement, Bury compared themselves with other authorities classed as CIPFA nearest neighbours.

The CIPFA nearest neighbour toolkit would give different comparators depending on what indicators were selected. It is therefore not possible to supply revenue support grant per head for a 'family' group.

The following table shows the percentage increase in formula grant per head year-on-year on a like-for-like basis for Bury metropolitan council, all metropolitan districts, and all English local authorities for 1998–99 to 2005–06.

Please note that the figures provided in the first table can not be compared directly as there have been a number of changes in the funding and functions covered by formula grant over this period.

Year-on-year increase in formula grant per head

Percentage

	Bury	*All metropolitan districts*	*All English local authorities*
1998–99	4.4	3.3	1.4
1999–2000	4.8	5.7	4.3
2000–01	4.1	3.6	3.3
2001–02	3.0	3.6	3.8
2002–03	4.3	4.8	4.5
2003–04	9.5	10.4	7.7
2004–05	7.1	5.1	4.7
2005–06	4.7	5.2	4.9

Please note that all of these figures are based on the respective year's settlement. In some years these figures have subsequently been subject to an Amending Report.

School Funding

Mrs. Spelman: To ask the Deputy Prime Minister what assessment the Government have made of the impact on *(a)* council tax and *(b)* local government finance gearing, of changes to the funding of schools. [39491]

Mr. Woolas: The introduction of dedicated schools grant will have no effect overall on council tax or gearing. Any effect on formula grant distribution to individual authorities will be limited by floors damping.

Student Accommodation

Grant Shapps: To ask the Deputy Prime Minister if he will estimate the number of students living in private rented accommodation in 2005–06 as defined by the form returned by local authorities on 21 October 2005. [39606]

Yvette Cooper: The information is not available from the form mentioned.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister if he will place in the Library a copy of the Valuation Office Agency's *(a)* document dwelling house coding-an illustrated guide and *(b)* standard letters V07746, V07747 and V07748. [30834]

Mr. Woolas: The standard letters can de accessed online via the Valuation Office Agency's website, www.voa.gov.uk

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the *(a)* dwelling house codes and *(b)* value significant codes in use by the Valuation Office Agency for council tax valuation purposes. [30836]

Mr. Woolas: I refer the hon. Member to the answer given on 26 October 2005, *Official Report*, column 477W. The instructions and advice documents, placed in the Library of the House, following this answer, list the dwelling house codes and value significant codes used by the Valuation Office Agency.

Mrs. Spelman: To ask the Deputy Prime Minister whether the Valuation Office Agency *(a)* has, *(b)* does and *(c)* will make use of (i) aerial and (ii) satellite photography for the purposes of (A) business rates and (B) council tax valuations. [39485]

Mr. Woolas: The Valuation Office Agency has no contractual arrangements to use aerial or satellite photography for valuation purposes. Any decision to enter into contractual arrangements for the use of aerial photographs in the future would only be taken if this represented a sensible and cost-effective way of confirming property characteristics and the photographs were already in the public domain.

Mrs. Spelman: To ask the Deputy Prime Minister if he will place in the Library a copy of the Valuation Office Agency's Council Tax Charter. [39486]

Mr. Woolas: The Valuation Office Agency's Council Tax Charter can be accessed on-line via the Valuation Office Agency's website, www.voa.gov.uk.

Mrs. Spelman: To ask the Deputy Prime Minister (1) pursuant to the answer of 8 December 2005, *Official Report*, column 1523W, on the Valuation Office Agency, whether the Agency's *(a)* value significant codes and *(b)* dwelling house codes include indicators for (i) patios, (ii) greenhouses and (iii) scenic codes; [39640]

(2) pursuant to the answer of 13 December 2005, *Official Report*, column 1944W, on the Valuation Office Agency, what the names are of the *(a)* 17 dwelling house codes and *(b)* value significant codes. [40024]

Mr. Woolas: I refer the hon. Member to the reply given on 26 October 2005, *Official Report*, column 477W. The instructions and advice documents, placed in the Library of the House, following this answer, is the dwelling house codes and value significant codes used by the Valuation Office Agency.

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 13 December 2005, *Official Report*, column 1944W, on the Valuation Office Agency, when electronic value significant codes were introduced. [40023]

Mr. Woolas: I refer the hon. Member to the reply given on 13 December 2005, *Official Report*, column 1994W.

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 14 December 2005, *Official Report*, column 1972W, on the Valuation Office Agency, whether the agency has published guidance for its staff on race relations legislation. [40025]

Mr. Woolas: The Valuation Office Agency's Race Equality Scheme and Action Plan can be accessed on-line via the Valuation Office Agency's website, www.voa.gov.uk.

Widescreen Televisions

Norman Lamb: To ask the Deputy Prime Minister how many widescreen televisions have been purchased by his Department for use in London Headquarters in each of the last five years; and what the cost was in each year. [39142]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has only purchased one widescreen television for use in its HQ buildings in the last five years. This is installed in the reception area in Eland House and displays a 24 hour news channel with subtitles. This was purchased as part of a refurbishment programme in 2003-04 and the cost of the equipment could be provided only at disproportionate cost.

TRADE AND INDUSTRY

Batteries

Gregory Barker: To ask the Secretary of State for Trade and Industry what representations he has received regarding European Union directives on batteries; and if he will make a statement. [39723]

Malcolm Wicks: The Government have received representations from a wide range of stakeholders, including battery and appliance manufacturers, local authorities, consumer groups, trade associations and environmental groups, both as part of the Department's 2004 public consultation on the European Commission proposal for a Directive on Batteries and Accumulators, and subsequently, as negotiations on the Directive have proceeded.

The European Parliament completed its Second Reading of the proposed Directive on 13 December, and the measure is expected to move to the conciliation process during the first half of 2006.

Burma

Andrew George: To ask the Secretary of State for Trade and Industry what the value of exports from the UK to Burma was in each year since 1997 for which records are available. [39760]

Ian Pearson: According to figures published by HM Revenue and Customs, the UK's exports of goods to Burma were as follows:

UK exports of goods to Burma 1997–2004

£ million

	Current prices
1997	15.4
1998	12.6
1999	7.4
2000	8.6
2001	9.5
2002	7.3
2003	5.0
2004	2.2

Source:
HM Revenue and Customs, Overseas Trade Statistics (OTS A)

Carbon Emissions

Gregory Barker: To ask the Secretary of State for Trade and Industry which unit in his Department is responsible for reducing carbon emissions. [39904]

Malcolm Wicks: The Department of Trade and Industry has a joint public sector agreement target with the Department for Environment, Food and Rural Affairs and the Department for Transport, to reduce greenhouse gas emissions by 12.5 per cent. from 1990 levels by 2008–2012 in line with our Kyoto commitment and to move towards a 20 per cent. reduction in carbon dioxide emissions below 1990 levels by 2010.

The Energy Strategy Unit within DTI is responsible for co-ordinating DTI's interest in climate change in consultation with other parts of the Department. DTI's interests primarily relate to the policies and measures designed to reduce emissions from the energy supply and business sectors while maintaining the competitiveness of UK industry and taking account of other energy policy objectives. This includes the DTI's responsibility for renewable energy and lower carbon technologies.

Christmas Lights

Mr. Ancram: To ask the Secretary of State for Trade and Industry what estimate his Department has made of the change in energy consumption in the UK over the Christmas period as a result of the electricity requirements of Christmas lights in each of the last three years. [39436]

Malcolm Wicks: National Grid have estimated that peak electricity demand increases by about 200–300 MW as a result of Christmas lights. Assuming a demand of 250 MW and that lights are operational for 12 hours a day for a period of 25 days, this equates to 75GWh, or 0.02 per cent. of total annual UK electricity consumption.

Citygate Public Affairs Ltd

David T.C. Davies: To ask the Secretary of State for Trade and Industry what meetings the Department has held with Citygate Public Affairs Ltd. since July. [36751]

Alan Johnson: The Department does not maintain a central list of such contacts. Ministers and civil servants, including special advisers meet many people as part of the process of policy development and business delivery. All such contacts are conducted in accordance with the requirements of the ministerial code, civil service code, code of conduct for special advisers and guidance for civil servants on contacts with lobbyists and people outside Government.

Democratic Republic of the Congo

Jeremy Corbyn: To ask the Secretary of State for Trade and Industry what controls are placed on minerals imported from the Democratic Republic of the Congo to verify their source and method of extraction; and if he will make a statement. [39926]

Ian Pearson: The Democratic Republic of the Congo is a signatory of the Kimberley Process under the terms of which exports of rough diamonds must be accompanied by a government issued certificate stating that they have not been sold to fund armed conflict.

Departmental Assets

Mike Penning: To ask the Secretary of State for Trade and Industry if he will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by his Department. [27388]

Alan Johnson: The Department of Trade and Industry has the following most valuable assets under headings *(a)* movable and *(b)* immovable recorded on their fixed asset register as at 31 March 2005.

£

Assets	*Value*
(a) Moveable assets	
Furniture fixtures and fittings	
Pool—purchases 2002–03	3,390,872.04
Pool—purchases 2003–04	2,259,345.24
Pool—purchases 2001–02	1,387,884.41
Pool—purchases 2004–05	352,077.04
Abbey Orchard Street	267,900.00
Plant and Machinery	
Variable speed drives	147,028.62
Lift safety equipment	116,000.00
IT Equipment	
Telecommunications cabling	63,726.65
Realtis telecommunications equipment	53,910.99
Plant and Machinery—air conditioning	36,288.77
(b) Immovable assets	
Building—National Physics Laboratory, Teddington	94,081,689.48
Land—National Physics Laboratory, Teddington	7,112,228.31
Building—Cobalt 60 Building, Teddington	4,449,633.24
Building—National Weights and Measure Laboratory, Teddington	4,004,669.91
Building—Chadwick Building, Teddington	3,705,654.56
Building—Bushy House, Teddington	1,737,974.39
Land—National Weights and Measure Laboratory, Teddington	1,334,889.97
Building—The Core Store building, Edinburgh	1,330,000.00
Building—Thompson Building, Teddington	1,209,253.27
Building—Advance Pressure Vessel, Teddington	259,753.88
Land—British Maritime Technology, Teddington	104,697.25
Building—British Maritime Technology, Teddington	94,227.53

Departmental Branded Materials

Anne Main: To ask the Secretary of State for Trade and Industry if he will list the suppliers of branded *(a)* LP bags, *(b)* plastic carrier bags and *(c)* pens used by his Department in each year since 1997. [38262]

Alan Johnson: A response cannot be provided to this question as the Department's records do not capture this level of detail. Finding this information would exceed the disproportionate cost threshold.

Departmental Costs

Mr. Salmond: To ask the Secretary of State for Trade and Industry what the *(a)* salary bill was and *(b)* administrative costs were for his Department in (i) each (A) nation and (B) region of the UK and (ii) London in 2004–05. [35876]

Alan Johnson: The Department's total paybill for 2004–05 was as follows, from the Department's Resource Accounts for 2004–05.

	£000
Wages and salaries	246,848
Social security costs	22,115
Other pension Costs	34,876
Sub total	303,839
Less: Recoveries in respect of outward secondments	(1,600)
Total net costs	302,239

An analysis of these costs by national and regional spend is not readily available and could be obtained only at disproportionate costs.

Departmental Expenditure

Anne Main: To ask the Secretary of State for Trade and Industry pursuant to his answer of 12 December 2005, *Official Report*, column 1661W, on departmental expenditure, if he will estimate the cost of branded *(a)* LP bags, *(b)* plastic carrier bags and *(c)* pens in each year since 1997. [38263]

Alan Johnson: A response cannot be provided to this question as the Department's records do not capture this level of detail. Finding this information would exceed the disproportionate cost threshold.

Departmental Property

Mr. Weir: To ask the Secretary of State for Trade and Industry how much was paid by his Department in 2004–05 in rent for properties in *(a)* total, *(b)* each (i) region and (ii) nation of the UK and *(c)* London. [35959]

Alan Johnson: In 2004–05 my Department paid £29.6 million rent ex VAT for properties on its HQ estate. This comprised £28.296 million (London), £0.155 million (Yorkshire and Humberside) and £0.061 million (North East) in England and £1.094 million in Scotland.

Angus Robertson: To ask the Secretary of State for Trade and Industry how much was paid by his Department in rates to each local authority in the UK in 2004–05; and how much was paid in *(a)* each (i) nation and (ii) region of the UK and *(b)* London. [35994]

Alan Johnson: The Department paid £9.708 million in rates for buildings on its HQ estate in 2004–05. In England this comprised £9.318 million (Westminster), £0.078 million (Wandsworth) and £0.139 million (Lambeth) in London, £0.060 million (Sheffield) in Yorkshire and Humberside and £0.019 million (Stockton) in North East region. In Scotland this comprised £0.055 million (Edinburgh) and £0.245 million (Aberdeen).

Departmental Salaries

Mike Penning: To ask the Secretary of State for Trade and Industry if he will list the 10 highest-paid employees in his Department; what the *(a)* job title and *(b)* salary including bonuses is of each; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27572]

Alan Johnson: Details of the highest paid employees in DTI are as follows:

Position	*Pay Band*	*Bonus*
(a) Permanent Secretary, Department of Trade and Industry (b) Chief Scientific Adviser to HM Government and Head of the Office of Science and Technology	Within the permanent secretary pay range of £130,350 to £264,250	(a) Potential to earn a bonus of up to £16,000 in the 2005 pay round depending on performance (b) Potential to earn a bonus of up to 20 per cent. per annum depending on performance.
Director General, Business Group Director General, Energy Director General, Special Projects The Solicitor and Director General, Legal Group	Within the senior civil service pay band 3 range of £93,139 to £198,197	Potential to earn bonuses of up to £8,000 in the 2005 pay round depending on performance
Chief Economic Advisor and Director General, Economics Chief Executive, Small Business Service Director, Information and Workplace Services Director General of Research Councils Director General, Innovation Group	Fixed term appointments—salaries within the senior civil service pay band 3 range of £93,139 to £198,197 or the senior civil service pay band 2 range of £75,606 to £159,659	Potential to earn bonuses of up to 15 or 20 per cent. per annum depending on performance

The DTI uses contractors from time to time but they are not members of the staff of the Department.

Departmental Staff

Mr. Hollobone: To ask the Secretary of State for Trade and Industry how many of his Department's employees have taken early retirement in each year since 1997. [34039]

Alan Johnson: The number of employees who have taken early retirement in each year since 1997 are shown in the following table.

	Number of employees
1997	54
1998	26
1999	25
2000	27
2001	22
2002	30
2003	24
2004	140

The above figures include those who have retired voluntarily with an actuarially reduced pension, those who have retired with benefits under the Civil Service Compensation Scheme (CSCS) and those who have retired on ill-health grounds. Most of the departures in 2004 were as a result of a flexible early retirement scheme under the CSCS.

Stewart Hosie: To ask the Secretary of State for Trade and Industry how many staff are employed by his Department in each *(a)* region and *(b)* nation of the UK; and if he will make a statement. [35923]

Alan Johnson: The figures requested are published in Civil Service Statistics. Table D of these statistics covers permanent staff numbers (FTE basis) in each Department and agency. Civil Service Statistics are available in the Libraries of the House and at the following address on the Cabinet Office Statistics website: http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp

Data on staffing levels in the civil service are now collected quarterly from Departments and agencies via a quarterly ONS survey, as part of the remit to measure the size of the public sector as a whole. Details of the new methodology can be found on the ONS website at: http://www.statistics.gov.uk/articles/nojournal/PSE_final.pdf

Civil service staffing trends by Department are published by the Cabinet Office on a quarterly basis via its statistics website. http://www.civilservice.gov.uk/management_information/statistical_information/statistics/index.asp

The most recent figures, as at 30 June 2005, were published on 6 October 2005.

Mr. Weir: To ask the Secretary of State for Trade and Industry how many staff were employed by non-departmental public bodies and agencies for which he has responsibility in 2004–05 in *(a)* total and *(b)* each (i) nation and (ii) region of the UK and *(c)* London. [35964]

Alan Johnson: Total Executive NDPB staff numbers as at 31 March 2005, for which my Department is responsible, are recorded in Public Bodies 2005, a copy of which is in the Libraries of the House and which is available online at: http://www/civilservice.gov.uk/the_thefuture_of_the_civil_service/agencies_and_public_bodies/publications/pdf/public_bodies/publicbodies2005.pdf.

However, the NDPB data do not detail the regional breakdowns. This information could be obtained only at disproportionate cost.

The agency chief executives will individually send to the hon. Member details relating to their own organisations.

Letter from Ron Marchant, dated 9 January 2006:

I am responding to this parliamentary question, tabled on 6 December 2005, regarding how many staff were employed by non-departmental public bodies and agencies for which he has responsibility in 2004–5 in *(a)* total and *(b)* each (i) nation and (ii) region of the UK and *(c)* London.

Patent Office staffing figures as at 1 March 2005 were:

	Number
Total	1,023
Each nation	
England	[1]19
Wales	1,004
Scotland	0
Northern Ireland	0
Each region	0
In London	19

[1] London

Letter from Martin Wyn Griffith, dated 9 January 2006:

I am responding to this parliamentary question, tabled on 6 December 2005, regarding how many staff were employed by non-departmental public bodies and agencies for which he has responsibility in 2004–5 in *(a)* total and *(b)* each (i) nation and (ii) region of the UK and *(c)* London.

Small Business Service staffing figures as at 31 March 2005 were:

	Number
Total	355
Each nation	
England	355
Wales	0
Scotland	0
Northern Ireland	0
Each region	
NE	5
NW	9
YH	118
EM	7
WM	5
E	4
SE	5
SW	5
In London	197

On 31 March we closed our regional teams and passed responsibility for those activities to the regional development agencies. We retain headquarters offices in Yorkshire and London.

Letter from Jeff Llewellyn, dated 9 January 2006:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question regarding how many staff were employed by non-departmental public bodies and agencies for which he has responsibility in 2004–05 in *(a)* total and *(b)* each (i) nation and (ii) region of the UK and *(c)* London.

The National Weights and Measures Laboratory had 47.3 fte staff at 31st March 2005. All were employed at Teddington, Middlesex.

Letter from Clare Clancy, dated 9 January 2006:

I am responding to your recently tabled Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

The number of staff employed in our offices in 2004/5 as a total, and individually is as follows:

	Total employees (including part-time)	*Full-time equivalent posts*
Cardiff, Wales	1,244	1,127
Edinburgh, Scotland	38	36
London, England	9	9
Total	1,291	1,172

Letter from Graham Horne, dated 9 January 2006:

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (2318/2005) asking how many staff were employed by non-departmental public bodes and agencies in 2004–05 in *(a)* total and *(b)* each (i) nation and (ii) region of the UK and *(c)* London.

As at 31 March 2005 a total of 1,806 staff were employed by The Insolvency Service.

By nation of the UK these staff were distributed as follows:

	Number
Wales	48
Scotland	33
England	1,725

The split for Insolvency Service Regions is shown below. These are not the same as government regions but are based on county court jurisdictions.

	Number
North East	179
North West	208
Midlands	403
South West	169
South East	166
Anglia	158
Croydon/Watford	81
London	409

Departmental Tendering Policy

Martin Horwood: To ask the Secretary of State for Trade and Industry what his policy is on including *(a)* ethical and *(b)* environmental factors in tenders for services. [33341]

Alan Johnson: Guidance on the inclusion of environmental issues in procurement is contained in the Department's Procurement Manual. We also follow OGC guidance on Fair and Ethical Trading.

All new contracts for services to support the DTI operational estate include appropriate clauses covering ethical and environmental clauses as part of the DTI's ISO 14001 certification. Such requirements are routinely included as part of any tender evaluation proposals. Firms tendering for such services are also referred to the Framework for Sustainable Development in Government (SDIG) website and must explain as part of their tender submission how they meet SDIG requirements.

Export Credits Guarantee Department

Norman Baker: To ask the Secretary of State for Trade and Industry what financial support has been made available through the Export Credits Guarantee Department for *(a)* fossil fuel power plants, *(b)* nuclear plants, *(c)* renewable energy generation schemes and *(d)* carbon capture and storage sequestration technology schemes in each year since 1997. [38852]

Ian Pearson *[holding answer 20 December 2005]:* The following table details the financial support made available by the Export Credits Guarantee Department (ECGD) for power plants in the fossil fuel, nuclear, renewable energy and carbon capture and sequestration technology sectors, since 1997:

ECGD has provided no financial support for power plants in these sectors since 2002.

£ million

Equality and Human Rights Commission

Jeremy Corbyn: To ask the Secretary of State for Trade and Industry what the location of the new Commission for Equality and Human Rights will be. [38814]

Meg Munn: A decision has been taken to locate main sites of the Commission for Equality and Human Rights in Manchester and London with the majority of staff in Manchester and a significant presence in London. There will also be offices in Glasgow and Cardiff. We want the Commission to be a powerful and authoritative champion of equality and human rights across Great Britain.

This decision followed a comprehensive independent study to assess a number of options. An equality impact assessment and a race equality impact assessment were also carried out on the location options identified in the study. Further work will now be undertaken to determine the operational functions to be located at the sites.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many meetings of the *(a)* Committee for the implementation of the multinannual Community action plan on promoting the safe use of the internet, *(b)* Standing Committee for the harmonisation of national legislation relating to recreational craft and *(c)* Standing Committee for the approximation of the laws of member states relating to lifts have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [39000]

Alun Michael: The information requested is as follows:

(a) The Committee for the implementation of the multi-annual Community action plan on promoting the safe use of the internet did not meet during the UK presidency.

(b) It is my understanding that the hon. Member is referring to the Standing Committee set up under Article 6 of Directive 94/25/EC (as amended) on the approximation of the laws, regulations and administrative provisions of member states relating to recreational craft. The Standing Committee met in Brussels on 20 December 2005. The meeting was chaired by the European Commission and two officials from the Department of Trade and Industry represented the United Kingdom. No provisions were made for representation of the devolved governments, as this is not a devolved issue.

(c) The mandate of the lifts Standing Committee is contained in Article 6.3 of the Lifts Directive 95/16/EC. The committee did not meet during the UK presidency.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many meetings of the *(a)* Committee on general authorisations and individual licences in the field of telecommunications services, *(b)* EC-India RTD Cooperation Steering Committee and *(c)* Coordinating Committee on Fusion Energy EC-USA have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [39006]

Ian Pearson: None of the aforementioned committees met during the UK presidency of the EU.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many meetings of the *(a)* Textile Committee (conventional regime), *(b)* Advisory Committee on medical devices and *(c)* Advisory Committee for the transparency of measures governing the pricing of medicinal products for human use have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39040]

Ian Pearson: The information requested is as follows:

(a) This committee is not known by the name given. This committee is known as the Textiles Management Committee and met four times during the UK presidency. This is a Commission-chaired committee and an official from the Department of Trade and Industry represented the UK. No provisions were made for representations from devolved governments.

(b) and *(c)* are a matter for the Department for Health.

EU Trade

Mr. Holloway: To ask the Secretary of State for Trade and Industry what steps the Government have taken in its capacity as holder of the EU presidency to negotiate EU trade policy at the World Trade Organisation. [35605]

Ian Pearson: I refer the hon. Member to the statement to the House made by my right hon. Friend the Secretary of State for Trade and Industry on 20 December 2005.

Heating Sources

Peter Law: To ask the Secretary of State for Trade and Industry if he will assess the merits of using heat generated from the hot road sub-surface of new roads to provide heating in houses and commercial and industrial buildings. [35840]

Dr. Ladyman: I have been asked to reply.

The Highways Agency commenced a two-year trial in September 2005 to investigate the feasibility of using the solar energy absorbed by a road surface both as a renewable energy source to heat buildings nearby and as an alternative winter maintenance option to using salt for de-icing.

Export Licences

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many *(a)* open individual export licences were issued and *(b)* open individual export licences issued with a validity period of (i) two years, (ii) three years, (iii) five years and (iv) more than five years by the Government was in the periods (A) January to March 2004, (B) April to June 2004, (C) June to September 2004, (D) October to December 2004, (E) January to March 2005, (F) April to June 2005 and (G) July to September 2005. [38948]

Malcolm Wicks *[holding answer 20 December 2005]:* The information requested is shown in the table.

OIELs issued for the period 1 January 2004 to 30 September 2005

Number

Period	*Total number of OIELs issued*	*1 year*	*2 years*	*3 years*	*4 years*	*5 years*	*More than 5 years*
2004							
January to March	109	0	77	30	0	2	0
April to June	126	0	95	29	0	2	0
June to September	140	0	97	41	0	1	0
October to December	143	3	84	16	0	40	0
2005							
January to March	109	3	33	6	1	66	0
April to June	146	5	36	5	0	99	1
July to September	126	1	26	6	0	93	0

Fair Trade

Mr. Holloway: To ask the Secretary of State for Trade and Industry what steps the Government proposes to take at the World Trade Organisation talks in Hong Kong to ensure a fair deal for the world's poorest farmers; and if he will make a statement. [35436]

Ian Pearson: I refer the hon. Member to the statement to the House made by my right hon. Friend the Secretary of State for Trade and Industry on 20 December 2005.

Fuel Poverty

John Bercow: To ask the Secretary of State for Trade and Industry what estimate he has made of the level of fuel poverty in *(a)* Aylesbury Vale and *(b)* England and Wales. [39677]

Malcolm Wicks: The most recent data on the level of fuel poverty in England corresponds to 2003 and was published in July 2005 in the UK Fuel Poverty Strategy Third Annual Progress Report. This data, sourced from the English House Condition Survey, showed that the number of fuel poor households in England in 2003 was around 1.2 million.

The most recent data on the level of fuel poverty in Wales corresponds to 2004. This data, which has recently become available from the Living in Wales Survey, showed that the number of fuel poor households in Wales in 2004 was around 130,000 households.

As fuel poverty is a devolved issue, figures have been collected on a country-by-country basis, with varying definitions and time frames covered.

We are unable to provide a breakdown of the number of households in fuel poverty by individual towns, however detailed regional data is available from the 2003 English House Condition Survey as follows:

Number

Government office region	*Households in fuel poverty*
North East	95,000
Yorkshire and the Humber	180,000
North West	178,000
East Midlands	112,000
West Midlands	146,000
South West	139,000
Eastern	115,000
South East	149,000
London	108,000

Gas

John Hemming: To ask the Secretary of State for Trade and Industry what assessment he has made of the recent reduction in gas production from mixed oil and gas fields. [39444]

Malcolm Wicks: Production of "associated gas" from the mixed oil and gas fields located principally in the northern and central North Sea has varied over time for a number of reasons. The rate of production is affected by contractual nominations, by planned and unplanned maintenance, by the effect of investment in new production or injection wells or well workovers in existing fields, by the effect of past production reducing reservoir pressure in existing fields and by the effect of new fields coming into production. Total associated gas production from the UK continental shelf peaked in 2002 and has since declined. Production from new fields coming on-stream has not matched the decline in production from existing fields, though there have been significant changes from month to month. Production in August 2005 was particularly low, with reduced deliveries at all four of the main coastal landing terminals (CATS, FLAGS, SAGE and SEAL), but by October production was back close to the level of a year earlier.

John Hemming: To ask the Secretary of State for Trade and Industry what incentives there are for oil and gas producers to maintain gas production from mixed fields. [39445]

Malcolm Wicks: Producers of oil and gas have commercial incentives to produce gas, whether that is "dry gas" from the gas fields found principally in the southern basin of the north sea and in the Irish sea or "associated gas" from the mixed oil and gas fields located principally in the northern and central north sea. The rate of production can be affected by contractual nominations, by planned and unplanned maintenance and by the effect of investment in new production, in injection wells or in well workovers.

Mr. Iain Wright: To ask the Secretary of State for Trade and Industry if he will take steps to compensate industrial users of natural gas in the event of a need to reduce offtake during high demand periods in the winter. [40409]

Malcolm Wicks: Where the industrial customer has an interruptible contract (either for their gas transportation and/or shipping/supplies) they are compensated for potentially being interrupted a number of days a year by paying a lower bill. Some customers may decide to reduce their gas demand to enable their shippers to sell the gas they would otherwise have consumed back to the market. This is known as demand side response. It is for the customer and the shipper to strike a contract in a way that ensures the appropriate transfer of money from the shipper to the customer. However, where a customer has opted not to buy gas, because they assess it is commercially unviable to do so in respect of their particular industrial process, there is no provision for direct compensation for that reduction in gas usage.

Other than for commercial reasons as described above, interruption of gas supplies to industrial consumers is only otherwise undertaken by the relevant network operators as part of a gas emergency, as a safety measure in order to protect the general public. In this situation there are no provisions for compensation.

Mr. Iain Wright: To ask the Secretary of State for Trade and Industry what steps he is taking to enable UK industrial users of gas to source supplies directly from Europe. [38880]

Malcolm Wicks: UK industrial users are of course free to contract with gas shippers to source supplies directly from Europe within the physical constraints of current gas import infrastructure. I recently met

capacity holders at the Isle of Grain LNG terminal and on the interconnector to ensure that this capacity is well utilised.

Flows of gas through the Interconnector have not been close to its expanded capacity. We are asking the European Commission to establish why there has not been more gas available to import through the Interconnector, given the large price differential. In addition, we continue to pressure the European Commission. My right hon. Friend the Chancellor of the Exchequer, and my right hon. Friend the Secretary of State for Trade and Industry have written to the Commission about this, and I used our UK Presidency to push this in the Energy Council. Ofgem also sent a delegation to Madrid earlier this month to investigate Spanish provisions for the importation of LNG.

Mr. Iain Wright: To ask the Secretary of State for Trade and Industry what steps he is taking to ensure that the liquid natural gas import facility at the Isle of Grain is fully used. [39230]

Malcolm Wicks: Both of the companies that own rights to the import capacity at the Isle of Grain LNG facility have reassured me that they have booked cargoes that will fill, or nearly fill, all the available slots throughout the winter. They are working on filling the remaining slots. Ofgem is taking forward work to make sure the "Use It Or Lose It" regime at the facility is working effectively, so that any slots not used by the primary capacity holders will be made available to others who might use it. National Grid's website shows that gas has been flowing from the Isle of Grain facility onto the gas networks at or close to capacity over most of the past two weeks.

Jubilee Sailing Trust

Greg Clark: To ask the Secretary of State for Trade and Industry what representations he has received about the financial position of the Jubilee Sailing Trust. [40385]

Alun Michael: I am not aware of any representations about the financial position of the Jubilee Sailing Trust. The company of that name filed its accounts to 31 March 2005 on 12 December 2005. These are available for public inspection. The Jubilee Sailing Trust is also a registered charity so information about it may be available from the Charities Commission.

Miners' Compensation Claims

Mr. Todd: To ask the Secretary of State for Trade and Industry how much has been paid to solicitors acting on behalf of the Department for advising on mineworkers' compensation claims in each year since 1998. [39331]

Malcolm Wicks: The Department has paid solicitors the following sums for advice relating to mineworkers' compensation schemes:

	Amount paid (£ million)
2002	3.9
2003	6.6
2004	6.6
2005	4.8

Note:
Figures before 2002 are not readily available.

Non-Fossil Fuel and Renewables Obligations

Mr. Meacher: To ask the Secretary of State for Trade and Industry what sums of money have been transferred in the last 12 months by Ofgem to the Consolidated Fund from the non-fossil fuel obligation fund in respect of section 7 of the Sustainable Energy Act 2003; what the date was of each transfer; who made the decision to make each transfer; on what date; what legal advice was taken by the Government before transferring the money to ascertain that this transfer was legal; and if he will place a copy of the legal advice received in the Library. [38570]

Malcolm Wicks *[holding answer 19 December 2005]:* Ofgem have not transferred any money in the last 12 months to the Consolidated Fund, from the non-fossil fuel obligation fund, in respect of Section 7 of the Sustainable Energy Act 2003. However, Ofgem transferred £60 million to the Consolidated Fund, from the non-fossil fuel obligation fund, in respect of Section 7 of the Sustainable Energy Act 2003 on 14 July 2004.

The power and the legal basis to transfer £60 million to the Consolidated Fund, from the non-fossil fuel obligation fund, are set out in Section 7 of the Sustainable Energy Act 2003. A copy of the Sustainable Energy Act 2003 is available from the Libraries of the House.

Andrew Stunell: To ask the Secretary of State for Trade and Industry how much has been transferred from the surplus funds of the *(a)* Non-Fossil Fuel Obligation and *(b)* Renewables Obligation to the Consolidated Fund since 1997; what estimate he has made of transfers in each case over the next three years; and if he will make a statement. [39463]

Malcolm Wicks: The Office of Gas and Electricity Markets (Ofgem) is responsible for the administration of funds for the Non-Fossil Fuel Obligation (NFFO) and the Renewables Obligation (RO). However, we understand that since 2 May 1997 Ofgem have made two payments from the surplus revenue arising from the NFFO, to the Consolidated fund, totalling £210 million. £60 million of which was used for the support of renewable energy projects. The RO does not have surplus revenue, as the money is recycled to electricity suppliers on presentation of Renewable Obligation Certificates.

Any additional payments from the NFFO, to the Consolidated Fund, over the next 3 years will depend on the surplus revenue collected by the Non Fossil Fuel Purchasing Agency.

Nuclear Power

Mr. Bone: To ask the Secretary of State for Trade and Industry what recent assessment he has made of the impact of nuclear power on climate change. [40545]

Malcolm Wicks: The Department has made no recent assessment of the impact that nuclear power would have on climate change.

The 2003 Energy White Paper published the results of extensive modelling of the costs of different options for reducing carbon dioxide emissions over the period to 2050. The analysis is available at http://www.dti.gov.uk/energy/whitepaper/phase2.pdf

In November 2005 my right hon. Friend the Prime Minister announced that there would be a review of energy policy which would report in summer 2006. This will involve further analysis of the costs of different options for meeting the Government's long-term targets for reducing carbon dioxide emissions.

Pay Gap

Keith Vaz: To ask the Secretary of State for Trade and Industry what assessment he has made of the pay gap between men and women; and what the pay gap was in 1975. [39186]

Meg Munn: The median full-time gender pay gap has reduced from 14.5 per cent. in 2004 to 13.0 per cent. in 2005.

The full-time pay gap in 1975 was 30 per cent. using the mean[1] (as no figures are available using the median). This compares with the mean full-time gender pay gap of 17.0 per cent. in 2005[2].

Although progress has been made, there still remains a gap between men and women's pay and the Women and Work Commission was set up specifically to look at this issue. I look forward to their final report early in the new year, and to taking action on their findings and recommendations to reduce the gender pay gap further.

[1] Based on the New Earnings Survey
[2] Based on the Annual Survey of Hourly Earnings

Power Stations

Mrs. James: To ask the Secretary of State for Trade and Industry if he will make a statement on his Department's policy on integrated gasification combined cycle power stations. [34798]

Malcolm Wicks: Decisions as to the choice of technology for new electricity generating capacity are for private sector investors.

Public Appointments

Julia Goldsworthy: To ask the Secretary of State for Trade and Industry if he will list the former hon. Members who left Parliament in 2005 who have since been appointed to public bodies by his Department, broken down by party; and who was responsible for making each appointment. [36689]

Alan Johnson: Information about the political activity of appointees is recorded and publicised in accordance with the independent Commissioner for Public Appointments' Code of Practice. This shows that no former hon. Members who left Parliament in 2005 have since been appointed to public bodies sponsored by the Department.

Public Service Agreements

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what progress his Department has made towards fulfilment of each aspect of Public Service Agreement Target 4 in the last six months; whether his Department is on track to meet each aspect of the target; and if he will make a statement. [31577]

Malcolm Wicks *[holding answer 24 November 2005]:* The UK remains on course to achieve its Kyoto target to reduce greenhouse gas emissions by 12.5 per cent. below base year levels by 2008–12. Latest provisional estimates show that UK greenhouse gas emissions in 2004 are estimated to have fallen to about 12.6 per cent. below 1990 levels.

In order to meet the very challenging domestic goal of a 20 per cent. reduction in CO_2 emissions by 2010 it is recognised that more needs to be done, as existing policies in the current climate change programme will not on their own achieve the target reduction. Current analysis shows that carbon dioxide emissions increased by around 1.5 per cent. between 2003 and 2004, mainly due to estimated increases in industrial and transport sector emissions. The current review of the Climate Change Programme gives the opportunity to examine a wide range of policies that we might put in place for the future, to put us back on track towards the 2010, and our longer-term carbon dioxide goal. Key contributions to the revised programme will be initial plans for Phase 2 of the EU Emissions Trading Scheme (EU ETS); the results of the Energy Efficiency Innovation Review; and the recently announced Renewable Transport Fuels Obligation. Responsibility for the delivery of this goal is held jointly with the Department for the Environment Food and Rural Affairs, and Department for Transport.

Overall position on energy supplies was covered in the first Annual Report to Parliament (Section 172 Security of Supply report was published July 2005). This covers in detail the short and medium term outlook for the UK supply-demand balance, drawing on National Grid's preliminary outlook for this winter published by OFGEM. The Government's market-based approach has delivered benefits over a number of years in terms of low prices and reliable supplies. However, this winter the gas market is likely to be tighter than in recent winters. Under normal weather conditions there are sufficient gas supplies and electricity to meet demand. If the forthcoming winter is much colder than average there will be a need for a response from the demand side of the gas market. DTI and Ofgem have been working with major users to try to encourage this response if necessary. National Grid have made it clear in their winter outlook statement that there will be no problem for domestic gas customers, small businesses and organisations, no matter how severe the winter, barring freak technical disruptions. Looking to the medium term the Government and OFGEM continually monitor developments in the gas and electricity market through the Joint Energy Security of Supply Group (JESS).

The latest independent report published in November 2005, based on provisional data for 2004 and using established benchmarking methodology, indicates that the UK continues to exhibit the most competitive

electricity and gas markets within the EU and G7. This has been due to early liberalisation of gas and electricity markets in the UK. However, the dynamic effect of the liberalisation programme across continental Europe may change that position in the future.

Progress against the Government's fuel poverty targets is published in an annual report (the UK Fuel Poverty Strategy 3rd Annual Progress report, published July 2005). The number of households in fuel poverty in the UK as a whole has fallen by around 4.5 million since 1996, to a level of around 2 million in 2003. However between 2003 and 2006 the number of households in fuel poverty will have increased as a result of higher prices. This will make reaching the 2010 fuel poverty target more challenging. Departments are working with suppliers and voluntary organisations to look at ways that vulnerable consumers can best take advantage of the current assistance available. The Fuel Poverty Advisory Group in England published its third annual report this year, highlighting the need for consideration to be given to the resources needed to tackle fuel poverty, and the importance of all Government Departments continuing to work together on the issue. DTI and the Department for the Environment Food and Rural Affairs share wording on this goal within their respective PSA targets.

Mr. Philip Hammond: To ask the Secretary of State for Trade and Industry what assessment he has made of the feasibility of consolidating the data from different Departments on different time scales which are needed to assess 2004 PSA Target 9. [30060]

Alan Johnson: When this PSA target was set, details of the various sub-targets that underpin it were brought together in the Technical Note for this target. This is available on the DTI website at http://www.dti.gov.uk/pdfs/psa_9.pdf.

Progress against all the sub-targets will be reported in the Department's twice yearly public reports on PSA delivery. The next of these reports—and the first assessment of progress towards the PSA targets set out in the 2004 Spending Review—will be in the forthcoming autumn performance report 2005, which will be laid before Parliament in mid-December.

As data from different Departments is produced to different timescales, assessments of progress are made on the basis of latest available data. A final assessment will be made when final data are available for all sub-targets.

Mr. Philip Hammond: To ask the Secretary of State for Trade and Industry what time scales his Department has set for achieving 2004 Public Service Agreement Target *(a)* 4 and *(b)* 6. [30061]

Alan Johnson: The information is as follows.

(a) PSA 4 Energy

The Energy White Paper published in 2003 set out a long-term framework for policy development with four key objectives; to put ourselves on the path to cutting UK carbon dioxide emissions, to maintain the reliability of security of supplies, to promote competitive energy markets in the UK and beyond and to ensure every home is adequately and affordably heated. These form the basis of the 2004 PSA Target 4.

The first goal within the PSA target is to reduce greenhouse gas emissions by 12.5 per cent. below 1990 levels, and move towards a 20 per cent. reduction in carbon dioxide emissions below 1990 levels, by 2010. These are initial stages towards meeting our goal to put the UK on a path to cut carbon dioxide emissions by some 60 per cent. by about 2050. Responsibility for the delivery of this goal is held jointly with the Department for the Environment Food and Rural Affairs, and Department for Transport.

The goal for energy reliability, within the PSA target, is that the market provides sufficient capacity to meet maximum gas and electricity demand in each year to 2008.

The goal for competitive energy markets, within the context of the PSA target, is that UK energy markets remain in the top three of the EU and G7 countries. This is measured annually by independent assessment, using indicators of competitiveness peer reviewed by energy market experts.

The final goal of the PSA target is to eliminate fuel poverty in vulnerable households, as far as reasonably practicable in England by 2010 in line with the Government's Fuel Poverty Strategy objective.

(b) PSA 6 Enterprise

This PSA has three sub-targets (i) an increase in the number of people considering going into business, (ii) an improvement in the overall productivity of small firms and (iii) more enterprise in disadvantaged communities. These targets are to be achieved by 2008.

Details of how these targets are measured are set out in the Technical Note for this target. This is available on the DTI website at http://www.dti.gov.uk/pdfs/psa_6.pdf.

Renewable Energy

Norman Baker: To ask the Secretary of State for Trade and Industry how much has been spent in each year since 1980 on the research and development of *(a)* tidal power, *(b)* wind power, *(c)* geothermal power, *(d)* hydro power, *(e)* solar power and *(f)* nuclear fusion; and what further sums are planned to be spent. [36596]

Malcolm Wicks *[holding answer 12 December 2005]:* It has not been possible to collate all public expenditure and other Government support since 1980 for energy technologies in the time available at proportionate cost. However, it is possible to detail the DTI and Research Council expenditure on new, renewable, and nuclear research and development. These are set out in the following tables.

Further spend on all of these technologies will be in line with the Government's objectives.

DTI New and Renewable Energy Programme—External spend for each technology area by financial year from 1990–91

Rounded to nearest thousand

Programme area	*1990–91*	*1991–92*	*1992–93*	*1993–94*	*1994–95*	*1995–96*	*1996–97*	*1997–98*

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what comparative analysis has been undertaken on *(a)* the impact on carbon footprints and *(b)* the cost effectiveness of (i) new renewable energy schemes and (ii) carbon sequestation technology. [38897]

Malcolm Wicks: The 2003 Energy White Paper published the results of extensive modelling of the costs of different options for reducing carbon dioxide emissions over the period to 2050. The analysis is available at: http://www.dti.gov.uk/energy/whitepaper/phase2.pdf.

In November 2005 my right hon. Friend the Prime Minister announced that there would be a review of energy policy which would report in summer 2006. This will involve further analysis of the costs of different options for meeting the Government's long-term targets for reducing carbon dioxide emissions.

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what research has been *(a)* commissioned and *(b)* evaluated by his Department into the long-term impact of burying sequestered carbon. [38898]

Malcolm Wicks: We published two reports on Carbon Sequestration and the results of these can be found in "The Review of Carbon Capture and Storage in the UK" and "The Carbon Abatement Technology (CAT) Strategy for Fossil Fuel Use", both of which can be found in the Libraries of the House. Both reports can also be found on the DTI website at http://www.dti.gov.uk/energy/coal/cfft/co2capture/review.pdf, and http://www.dti.gov.uk/energy/coal/cfft/cct/pub/catreportlinked.pdf.

The supporting analysis underpinning the Carbon Abatement Technology Strategy which can be found at http://www.dti.gov.uk/energy/coal/cfft/cct/pub/pdfs/r301.pdf provides the work to date on predicting the impact of deploying this technology. Further work on this area is planned as part of the CAT Strategy.

Mr. Hollobone: To ask the Secretary of State for Trade and Industry how much his Department has spent in direct subsidies to *(a)* renewable energy generation and *(b)* nuclear energy generation for each year since 1990. [38974]

Malcolm Wicks: I refer the hon. Member to my reply to the hon. Member for Leominister (Bill Wiggin) on 12 September 2005, *Official Report*, column 2262W.

Norman Lamb: To ask the Secretary of State for Trade and Industry whether a detailed feasibility study has been carried out to establish whether the recommendation in his Department's Buildings Renewable Strategy report to install renewable energy technologies in each of the

Department's buildings is achievable; and whether the other recommendations in the report have been implemented. [39228]

Alan Johnson: Work to investigate the feasibility of the renewable energy technology and low carbon options suggested within the Carbon Trust report is now in hand.

Norman Lamb: To ask the Secretary of State for Trade and Industry whether a budget has been set for the applications of renewable and low carbon technologies for his Department's buildings. [39229]

Alan Johnson: Any costs involved in such work are an integral part of the capital works programme on the DTI HQ estate and therefore no separate budgetary allowance has been made.

Bob Spink: To ask the Secretary of State for Trade and Industry what his Department's targets are for increased use of renewable fuels for energy generation; and if he will make a statement. [35377]

Malcolm Wicks: The Government have a target that 10 per cent. of the UK's electricity supply should come from Renewable Obligation (RO) eligible source of renewable energy by 2010, with an aspiration to double that by 2020.

In 2004, 3.1 per cent. of the UK's electricity supply came from RO eligible sources of renewable energy.

Rhyl Flats Wind Farm

Mr. David Jones: To ask the Secretary of State for Trade and Industry whether the proposed Rhyl Flats wind farm is to be located on the Constable Bank. [39960]

Malcolm Wicks: The position of the wind farm could be described as being on the north eastern edge of Constable Bank but it is difficult to define the boundaries of this or any other sea bed feature precisely as they change with time. It is, therefore, best to define the location of the wind farm by fixed co-ordinates rather than its position relative to, what could be, mobile sea bed features.

The impact of the Rhyl Flats project in relation to the Constable Bank and other marine features was fully considered by the Countryside Council for Wales (CCW) and the Centre for Environment, Fisheries and Aquaculture Science (CEFAS) and others in agreeing that the various consents for the project should be granted.

Small Business Service

Mr. Drew: To ask the Secretary of State for Trade and Industry if he will take steps to enable the regional development agencies to take over the responsibilities of the Small Business Service. [36708]

Alun Michael: The Regional Development Agencies (RDAs) took over local and regional management of Business Link from the Small Business Service on 1 April 2005. The Small Business Service has a much wider role of promoting enterprise and small business development, including working across government to ensure that the UK is the best place in the world to start and grow a business. It is also responsible for promoting social enterprise.

Student Finance

Charles Hendry: To ask the Secretary of State for Trade and Industry for what reasons it was decided to exclude the financial information regarding student loans from data sharing arrangements between financial institutions. [34120]

Bill Rammell *[holding answer 2 December 2005]:* I have been asked to reply.

No action has been taken to exclude data sharing between financial institutions themselves about student loans.

We do not currently plan to take forward proposals to share data with credit reference agencies but as with all policy issues we will keep this issue under review.

Taxis

Mr. MacNeil: To ask the Secretary of State for Trade and Industry how much has been spent by his Department on taxi travel in the 2005–06 financial year; and what proportion of such travel was undertaken in each nation and region of the United Kingdom, including London. [37466]

Alan Johnson: The Department of Trade and Industry has recorded expenditure of £146,677.82 on taxi travel to date this financial year.

Information on the national and regional distribution of this expenditure is not readily available and could be obtained only at disproportionate cost.

Trade-related Aspects of the Intellectual Property Rights Council

Andrew George: To ask the Secretary of State for Trade and Industry if he will make a statement on access to medicines through the Trade-Related Aspects of the Intellectual Property Rights Council. [37501]

Alan Johnson: An important success has been achieved by WTO Members resulting in a permanent WTO agreement on access to medicines, which was reached on 6 December 2005. The agreed amendment to the WTO Trade Related Aspects of Intellectual Property Rights (TRIPs) Agreement enables developing countries to import generic copies of patented medicines when they are unable to manufacture the medicines themselves. This timely agreement demonstrates the willingness of WTO Members to ensure that the TRIPs Agreement is supportive of public health needs in the developed world.

In addition, during the UK presidency of the EU, we have recently agreed an EU regulation which enables European generic manufacturers to export under this agreement.

Uranium

Greg Clark: To ask the Secretary of State for Trade and Industry whether the Government have recently sought advice regarding the long-term availability of high grade uranium ore; and if he will make a statement. [40260]

Malcolm Wicks: This is an important issue that will be considered as part of the Energy Review's analysis of how different technologies could help us meet our Energy White Paper goals.

The Department has not recently sought advice on the long-term availability of high-grade uranium ore.

Waste Electrical and Electronic Equipment

Mr. Oaten: To ask the Secretary of State for Trade and Industry when he expects to implement the Waste Electrical and Electronic Equipment Directive. [39182]

Malcolm Wicks: The Department announced on 15 December 2005 that it would be reviewing progress on the implementation of the EU directive on waste electrical and electronic equipment and undertaking a public consultation on its proposals for this during the spring of 2006 before transposing the main provisions of the directive into UK law.

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what the status is of the Waste Electrical and Electronic Equipment Directive in the EU; and when the legislation is due to come into effect. [38177]

Malcolm Wicks: The EU Directive on Waste Electrical and Electronic Equipment was adopted by the European Council and Parliament on 13 February 2003. The Government announced on 15 December 2005 that it would be reviewing progress towards the UK implementation of this Directive and undertaking a public consultation on its proposals for this during the Spring of 2006 before transposing the main provisions of the Directive into UK law.

Wind Farms

Mr. David Jones: To ask the Secretary of State for Trade and Industry what assessment he has made of the potential impact on the North Wales tourist industry of the proposal for the development of the Gwynt y Mor wind farm. [36973]

Malcolm Wicks: The Government made clear in their Planning Policy Statement 1 Delivering Sustainable Development that they are committed to promoting a strong, stable and productive economy that aims to bring jobs and prosperity for all. This includes recognition of the economic benefits of tourism.

The Government will also consult statutory advisors such as the Countryside Council for Wales when assessing the proposal for the development of the Gwynt y Mor wind farm.

Wood Panel Industry

Bob Spink: To ask the Secretary of State for Trade and Industry what research he has commissioned into the effect of the recent increases in wholesale gas prices on the wood panel industry; and if he will meet representatives of the industry to discuss the matter. [37934]

Malcolm Wicks: The Department has commissioned research to update work on the demand side in the gas market, carried out earlier this year and published on the DTI website at http://www.dti.gov.uk/energy/publications/policy/index.shtml.

I, as well as DTI and Ofgem officials, have met numerous industry representatives on several occasions to discuss the impact of gas prices and ways of mitigating this. I have also exchanged correspondence with Mr. Alastair Kerr of the Wood Panel Industries Federation on the subject. I would be happy to meet him and/or his colleagues for further discussion if a mutually convenient time can be arranged.

World Trade Organisation

John Bercow: To ask the Secretary of State for Trade and Industry what assessment he has made of *(a)* the outcome of the World Trade Organisation summit in Hong Kong and *(b)* the impact it will have on developing countries. [39720]

Ian Pearson: I refer the hon. Member to my right hon. Friend, the Secretary of State's statement to Parliament on 20 December.

There was progress on a number of issues at Hong Kong, which have the potential to benefit developing countries: an end date of 2013 was agreed for export subsidies; other nations signing up to the principle of duty-free quota free access for least developed countries; a commitment to end cotton export subsidies by 2006; new commitments on aid for trade and solid progress on trade facilitation. There is also a road map for concluding the round and delivering a fairer, freer trading environment.

TREASURY

Administrative Costs

Stewart Hosie: To ask the Chancellor of the Exchequer what the total administration costs for his core Department are; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39845]

Angus Robertson: To ask the Chancellor of the Exchequer which functions of his core Department are carried out in *(a)* England and *(b)* London; and what administration costs were associated with these functions for each area in the last 12 months. [39817]

Mr. Weir: To ask the Chancellor of the Exchequer which functions of his core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administration costs were associated with these functions for each area in the last year. [39941]

Pete Wishart: To ask the Chancellor of the Exchequer what functions in his Department are carried out in Scotland; and what the administrative costs of these functions were in the last year for which figures are available. [40009]

John Healey: The net total administration costs for the core Treasury in 2004–05 were £81.4 million, and are regarded as non-identifiable for the purposes of public expenditure statistical analyses. All the functions of the core Treasury are carried out in London.

Mr. MacNeil: To ask the Chancellor of the Exchequer what the administrative costs were of each agency for which he has responsibility in the last year for which

figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39857]

John Healey: The information requested is available in the relevant departmental Reports and Accounts, copies of which are available in the Library of the House.

Civil Service Staff

Stewart Hosie: To ask the Chancellor of the Exchequer, how many and what proportion of each civil service grade in his Department is located in each *(a)* region and *(b)* nation of the UK; what the average salary is for each grade; and if he will make a statement. [35927]

John Healey: The Parliamentary Secretary at the Cabinet Office (Mr. Murphy) will write to the hon. Member with details for the civil service of the percentage of staff in post by region and grade responsibility and the median salary of staff in post by region and grade responsibility as at 1 April 2004. Copies of his letter will be placed in the Library.

Departmental Expenditure

Mr. Weir: To ask the Chancellor of the Exchequer what the real growth rate in UK departmental expenditure has been over the last five years; and if he will make a statement. [40029]

John Healey: Total departmental expenditure limits in real terms are provided in Public Expenditure Statistical Analyses 2005 (Cm 6521), Table 1.12.

Mr. Weir: To ask the Chancellor of the Exchequer (1) how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines (i) his Department, (ii) each (A) non-departmental public body, (B) Executive agency and (C) other public body for which his Department is responsible in each English region owned in (1) 2003–04 and (2) 2004–05; [40080]

(2) what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of (i) his Department and (ii) each (A) non-departmental public body (B) Executive agency and (C) other public body for which his Department is responsible in each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case; [40081]

(3) what the expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of (i) his Department and (ii) each (A) non-departmental public body, (B) Executive agency and (C) other public body for which his Department is responsible in each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40082]

Pete Wishart: To ask the Chancellor of the Exchequer (1) what has been the annual expenditure on vehicles for *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06; [39985]

(2) what has been the annual expenditure on training and development for *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06; [39986]

(3) if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by his Department and *(y)* returned to the Consolidated Fund. [40141]

John Healey: The information requested is not held centrally and could be provided only at a disproportionate cost.

Mr. Spellar: To ask the Chancellor of the Exchequer how much his Department spent on bottled water in 2004–05. [40323]

John Healey: Since July 2002 meeting refreshments for the Treasury have been supplied by the PFI contractor, Exchequer Partnerships. Meeting refreshments include teas and coffees, mineral water and biscuits, and it is not possible to identify separately the costs of bottled water.

Total costs for meeting refreshments in 2004–05 were £200,344.

Departmental Research

Bob Spink: To ask the Chancellor of the Exchequer what research projects commissioned by his Department are being undertaken; and what the publication arrangements are in each case. [32989]

John Healey: The information requested is not held centrally in the Treasury and could be assembled only at disproportionate cost.

EU Budget

Mr. Francois: To ask the Chancellor of the Exchequer if he will itemise the reductions of the UK rebate from the EU which will occur in each of the years of the new financial perspective 2007 to 2013; and if he will make a statement. [40257]

Mr. Ivan Lewis: I refer the hon. Member to Annex 2 of the proposal from the UK Presidency on the Financial Perspective 2007–13 agreed at the European Council on 17 December 2005.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Customs Code Committee—customs warehouses and free zones, *(b)* Customs Code Committee—customs procedures with economic impact, *(c)* Customs Code Committee—counterfeit and pirated goods and *(d)* Customs Code committee—single administrative document have taken place during the UK presidency of the EU; who presided

over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved government; and if he will make a statement. [39029]

John Healey: There have been two meetings of the Customs Code Committee—customs warehouses and free zones during the UK presidency. The Commission chairs these meetings. The UK was represented by an official from HM Revenue and Customs.

There have been two meetings of the Customs Code Committee—customs procedures with economic impact during the UK presidency. The Commission chairs these meetings. HMRC represented the UK.

There has been one meeting of the Customs Code Committee—counterfeit and pirated goods during the UK presidency, on 11 July 2005. John Pulford from TAXUD chaired this meeting. HMRC represented the UK.

There have been four meetings of the Customs Code committee—single administrative document during the UK presidency:

23 September

28 September

25 October

19–20 December

All attendees were from HMRC. The Commission chaired all of these meeting.

Customs matters are a reserved matter for HMG and are not within the competence of the devolved governments.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Customs Code Committee—duty-free arrangements, *(b)* Customs Code Committee—tariff and statistical nomenclature, *(c)* Customs Code Committee—tariff quotas and *(d)* Committee on recovery of claims have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representations of the devolved governments; and if he will make a statement. [39031]

John Healey: There have been no meetings of the Duty Free Arrangements Committee during the UK presidency.

There have been 10 meetings of the Customs Code Committee—tariff and statistical nomenclature division during the UK presidency. A member of the European Commission chaired each meeting and on each occasion the only UK representatives were from HM Revenue and Customs. Customs matters are a reserved matter for HMG and are not within the competence of the devolved Governments.

There has been one meeting of the Customs Code Committee—tariff quotas during the UK presidency, HMRC quota experts attended. It was presided over by Patric Wallez of TAXUD Directorate B.

There has been two meetings of the Committee on recovery of claims during the UK presidency on 13 July and 21 December. The UK was represented by an official from HM Revenue and Customs (HMCE). TAXUD chaired the meeting.

Customs matters are a reserved matter for HMG and are not within the competence of the devolved Governments.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Customs Code Committee—movement of air or sea passengers' baggage (technical problems), *(b)* Customs Code Committee—transit, *(c)* Customs Code Committee—favourable tariff treatment (nature of end-use of goods and *(d)* Customs Code Committee—origin have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representations of the devolved Governments; and if he will make a statement. [39032]

John Healey: There has been no meetings of the Customs Code Committee—movement of air or sea passengers' baggage (technical problems) during the UK presidency.

There have been two meetings of the Customs Code Committee—transit during the UK presidency on 27–28 September and 8–9 November. The UK was represented by HM Revenue and Customs (HMRC) and Manuela Cabral chaired the meetings.

There have been no meetings of the Customs Code Committee—favourable tariff treatment (nature of end-use of goods) during the UK's presidency.

There have been four meetings of the Customs Code Committee: Origin meetings during the UK presidency. The meetings were presided over by the Head of the Rules of Origin Unit in Directorate C of the European Commission's Directorate General on Taxation and Customs Union. An official from the Europe and World Trade Directorate of the Department of Trade and Industry was present at the first meeting in July The meetings are attended by the UK's Customs and DTI Origin experts who are at present located in offices in London and Southend.

Customs matters are a reserved matter for HMG and are not within the competence of the devolved Governments.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Committee on mutual assistance in customs and agricultural matters, including operation of the CIS, *(b)* Customs Code Committee-general customs rules, *(c)* Customs Code Committee-recovery of claims and *(d)* Customs Code Committee-customs valuation have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representations of the devolved Governments; and if he will make a statement. [39033]

John Healey: The has been one meeting of the Committee on mutual assistance in customs and agricultural matters, including operation of the C.S.

during the UK presidency on the 22 November 2005, attended by officials from HM Revenue and Customs (HMRC). OLAF chaired the meeting.

There were four meetings of the Customs Code Committee-general customs rules during the UK presidency:

13 July 2005

29–30 September 2005

26–27 October 2005

28–29 November 2005

The UK was represented by HM Revenue and Customs (HKRC) and the Commission chaired all of the meetings.

There has been two meetings of the Customs Code Committee-recovery of claims during the presidency on 13 July 2005 and 21 December 2005, the UK was represented by HMRC at both meetings and the meetings are chaired by TAXUD.

There was one meeting of the Customs Code Committee-customs valuation during the UK presidency on the 10 October 2005. The UK representative at this meeting was Ian Cremer and colleague. The meeting was chaired by TAXUD.

Customs matters are a reserved matter for HMG and are not within the competence of the devolved Governments.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Committee on the movement of air or sea passengers' baggages (principles), *(b)* Advisory Committee on value-added tax, *(c)* Committee on mutual assistance for the recovery of claims and *(d)* Committee on administrative cooperation in the field of indirect taxation, including Fiscalis programme have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representations of the devolved Governments; and if he will make a statement. [39034]

John Healey: There has been no meetings of the Customs Code Committee-movement of air or sea passengers' baggage (technical problems)-during the UK presidency.

During the period of the UK's presidency the Advisory Committee on Value Added Tax met once on 18 November 2005. A European Commission DG TAXUD official chaired the meeting and UK representation was provided by HMRC.

The have been no meetings of the Committee on mutual assistance for the recovery of claims during the UK's presidency.

During the period of the UK's presidency the Standing Committee on Administrative Co-operation (SCAC) met on 12 July 2005 and 9 December 2005, its IT sub-Committee (SCIT) met on 20 July 2005 and 25 November 2005, and the Excise Committee on 25 November 2005. There were no meetings of the Fiscalis Committee. The Commission chaired these meetings.

Customs matters are a reserved matter for HMG and are not within the competence of the devolved Governments.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Committee on economic outward-processing arrangements for textiles, *(b)* Committee on the export of cultural goods, *(c)* Customs 2002 Committee and *(d)* Committee for the application of the rules on the manufacture and placing on the market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representative were present; what provisions were made for representations of the devolved Governments; and if he will make a statement. [39035]

John Healey: There have been no meetings of the Committee on economic outward-processing arrangements for textiles during the UK presidency.

There have been no meetings of the Advisory Committee on Cultural Goods (ACCG) during the UK presidency.

Customs 2002 Committee no longer meets this has been overtaken by Customs 2007.

One meeting of the European Commission Drug Precursors Advisory Committee took place during the United Kingdom's presidency of the EU. An official from the Home Office led the United Kingdom representation, officials accompanied him from HM Revenue and Customs and the National Criminal Intelligence Service.

Customs matters are a reserved matter for HMG and are not within the competence of the devolved Governments.

Financial Inclusion Fund

Alison Seabeck: To ask the Chancellor of the Exchequer when he expects to receive state aids clearance from the European Commission to enable the establishment of a growth fund for third sector lenders from within the financial inclusion fund. [34957]

Mr. Plaskitt: I have been asked to reply.

Payments from the Growth Fund will provide a Service of General Economic Interest to people in areas of high financial exclusion. The fund will be paid in accordance with the appropriate rules for operation of a Block Exemption on prior notification to the EU Commission. Procurement arrangements for delivery of the service through third sector financial institutions are in hand. Delivery of the affordable loans service that the fund is to provide will commence during the first half of 2006.

Labour Force/Unemployment Rates

Mr. Weir: To ask the Chancellor of the Exchequer what the *(a)* labour force and *(b)* unemployment rate is in (i) Scotland, (ii) Wales, (iii) each of the English

regions and (iv) Northern Ireland, broken down by (A) agriculture, (B) fishing, (C) forestry, (D) fish processing, (E) manufacturing, (F) construction, (G) other industry, (H) commerce, (I) Government and public service employees, (J) transport, (K) communications, (L) utilities, (M) tourism, (N) finance and insurance, (O) business, (P) other services and (Q) other types of labour force. [39118]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 22 December 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about the labour force by country and industry. (39118)

The attached table provides information showing the number of economically active people by industry, for those unemployed their previous industry has used, covering regions and countries of the UK. The table covers the three months period ending in August 2005.

These estimates from the Labour Force Survey are, as with any sample survey, subject to a margin of uncertainty.

People economically active[1] and unemployment rates[2] by industry division, 3 months ending August 2005— United Kingdom

	Total	North East	North West	Merseyside	Yorkshire and Humberside	East Midlands	West Midlands
Economically active (thousand)							
Total[3]	29,848	1,178	2,668	628	2,455	2,165	2,595
of which:							
in employment	28,397	1,096	2,545	593	2,339	2,063	2,472
unemployed	1,451	81	124	34	116	102	124
A. Agriculture hunting and forestry	391	9	18	2	32	39	28
B. Fishing	12	[5]	[5]	[5]	[5]	[5]	[5]
C. Mining quarrying	109	4	2	[5]	5	9	3
D. Manufacturing	3,913	153	392	80	392	379	464
E. Electricity, gas and water supply	14	14	2	14	14	18	14
F. Construction	2,334	103	206	44	216	163	201
G. Wholesale retail and motor trade	4,534	189	446	89	375	372	397
H. Hotels and restaurants	1,294	43	124	24	102	86	96

Private Finance Initiative Projects

Mr. Hoban: To ask the Chancellor of the Exchequer if he will list private finance initiative projects signed since 1 January, broken down by Department; who the commissioning body is in each case; and what the *(a)* location, *(b)* capital value and *(c)* date of the financial close is in each case. [40382]

John Healey: A list of signed PFI projects is published on the HM Treasury website (www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm). The list is updated annually, and the next update is scheduled to take place during January 2006.

The PFI project list can be disaggregated according to Department, and it also sets out the procuring authority, location, capital value and date of financial close for each signed PFI project. The updated PFI project list will include all PFI projects that had reached financial close by September 2005—the date of the last HM Treasury PFI data collection.

Public Works Loan Board

Mr. Weir: To ask the Chancellor of the Exchequer how much money is on loan from the Public Works Loan Board (PWLB), broken down by country or region of the United Kingdom; and how much money is available for lending from the PWLB. [39624]

John Healey: The 130th Annual Report of the Public Works Loan Board, laid before Parliament on 20 July 2005, notes that at 31 March 2005 the following principal was outstanding:

Country	£ million
England	32,222.9
Scotland	6,750.4
Wales	3,096.6
Total	42,069.9

The Public Works Loan Board does not lend to Northern Ireland authorities.

The maximum amount of outstanding loans, at any one time, from the Public Works Loan Board should not currently exceed £55,000 million.

Research and Development Tax Credits

Dr. Cable: To ask the Chancellor of the Exchequer how many companies have been convicted of research and development tax credit fraud in each year for which information is available; and if he will make a statement. [38347]

John Healey: Since the introduction of the research and development tax credit in April 2000, no companies have been convicted of research and development tax credit fraud.

Sir Robert Smith: To ask the Chancellor of the Exchequer how many businesses in Scotland have successfully applied for the research and development tax credit in each year since it was introduced. [39120]

John Healey: The information requested for Scotland is not available.

Information on the total number of companies that have claimed research and development tax credit data under the small and medium sized enterprises (SMEs)

scheme is published on the HM Revenue and Customs website at www.hmrc.gov.uk/stats/corporate_tax/randdtcmenu.

Voter Registration

Mr. Iain Wright: To ask the Chancellor of the Exchequer what percentage of the population of 18 to 24 year-olds are registered to vote broken down by constituency. [39160]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 22 December 2005:

As National Statistician, I have been asked to reply to your question concerning the percentage of the population aged 18 to 24 who are registered to vote. (39160)

Only very limited age information is collected on electoral returns. Information is collected and collated on the number of attainers, i.e. those aged 16 and 17 who will be entitled to vote when they reach 18. Information is also collected on the elderly (because of exemption from jury duty), though these data are not collated centrally.

Mr. Iain Wright: To ask the Chancellor of the Exchequer what percentage of the population is registered to vote in each ward in the Tees Valley, broken down by constituency. [39171]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 22 December 2005:

As National Statistician, I have been asked to reply to your question concerning what percentage of the population is registered to vote in each Ward in Tees Valley. (39171)

I am placing a table giving the requested information in the House of Commons Library.

The estimated percentages vary considerable between wards. They are calculated by taking ward electorate counts for December 2002 parliamentary electors as a percentage of population estimates for Census Area Statistics (CAS) wards. There are a number of limitations with the data that means that some care should be taken with interpretation of the results. See also the footnotes.

The CAS wards are the closest available geography to electoral wards, for which population estimates are available. They were created for outputs from the 2001 Census and are based mainly on 2003 electoral wards. It is necessary to convert electorate counts to the CAS ward geography and therefore the electorate counts in the table are not necessarily consistent with data published elsewhere. The latest available population data available at ward level is for mid-2002, published in April 2005. The ward electorate counts are for December 2002 parliamentary electors, including attainers. No adjustment has been made to reflect the difference between these two timepoints.

There are a number of wards that are split by parliamentary constituency i.e. they fall within two or more parliamentary constituencies. These are shown by an asterisk * alongside their ward name, and appear under both constituencies (except where the split is not in Tees Valley). Electorate and population figures for the whole ward are shown. Some wards will therefore be double counted. It is not possible to split the data for these wards.

There is inevitably some double counting of the registered electorate as electoral registration officers vary in how quickly they remove people from the registers after they have moved away from an area or after they have died. In addition, people can register in more than one place.

There are a relatively small number of wards (2) where the electorate counts are more than 10 per cent. greater than the population estimate.

The majority of such cases are likely to be attributable to a limitation in the methodology used to convert electorate counts to a CAS ward geography, though the other limitations set out will also have an affect.

NORTHERN IRELAND

Administration Costs

Angus Robertson: To ask the Secretary of State for Northern Ireland which functions of his core Department are carried out in *(a)* England and *(b)* London; and what administration costs were associated with these functions for each area in the last year. [39823]

Mr. Woodward: The Northern Ireland Office Core Department has only one location in England that carries out functions for the Department. This is in London.

The functions and administrative costs for 2004–05 for functions carried out in London were as follows:

Function	*Total administrative cost 2004–05 (£)*
Private Offices (London)	
Total	626,893
Secretary of State, Minister of State and Support Staff (London)	626,893
Political Directorate (London Offices)	
Total	539,009
Political Director, Associate Political Director and Support Staff	539,009
Rights and International Relations Division (RIR)	
Total	1,156,583
Head of Division and Support Staff (RIR)	124,533
Elections Unit	223,934
Human Rights and Equality	327,485
Political Planning	128,587
International Relations	299,602
Security and Extradition	52,442
Devolution and Legislation Division (DLD)	
Total	808,491
Head of Division and Support Staff (DLD)	211,701
Political Development	202,418
Legislation	264,176
NI Administration (Relations with Devolved NI Government)	100,821
DLD Support	29,375
Office Services Division (London)	
Total	1,830,441

Ambulance Service

Mark Durkan: To ask the Secretary of State for Northern Ireland what plans there are to move the non-emergency Northern Ireland Ambulance Service control centre at Altnagelvin hospital to another site. [39268]

Mr. Woodward: There are no plans to move the non-emergency Northern Ireland Ambulance Service control centre at Altnagelvin hospital to another site.

Bovine TB

Mr. Drew: To ask the Secretary of State for Northern Ireland pursuant to the answer of 14 December 2005, *Official Report*, column 2091W, on bovine tuberculosis, what role culling of badgers has played in the control strategy; and how many badgers have been despatched in each year for which figures are available. [39669]

Angela E. Smith: The existing control programme in Northern Ireland in relation to bovine tuberculosis is based on measures to limit cattle-to-cattle transmission of the disease. The culling of badgers does not play a role in the existing control programme and no badgers have been despatched.

Bullying

David Simpson: To ask the Secretary of State for Northern Ireland how much has been spent on anti-bullying initiatives in *(a)* primary schools and *(b)* secondary and grammar schools in Northern Ireland in each of the last 10 years; and what assessment he has made of their effectiveness. [39646]

Angela E. Smith: Anti-bullying became a separate area of work for the Department of Education in 2000–01 with the commissioning of the research into the scale and nature of bullying in schools. The following table details specific expenditure by the Department of Education for the last five years and planned expenditure in 2005–06. The heading 'All schools/ pupils' covers expenditure which cannot be ascribed to a particular sector.

£

	Primary schools	*Post primary schools*	*All schools/ pupils*	*Total*
2000–01	15,000	15,000	60,000	90,000
2001–02	17,500	30,000	3,000	50,500
2002–03	18,000	23,000	1,000	42,000
2003–04	10,000	10,000	5,000	25,000
2004–05	—	—	8,000	8,000
2005–06[1]	—	—	80,000	80,000

[1] Planned

Expenditure covered research, the production of materials for schools, an information leaflet for parents and a pilot programme of peer mediation in 10 schools. All of this work was pursued in partnership with the education and library boards and voluntary sector organisations with a keen interest in tackling bullying. Feedback on the materials has been positive. The peer mediation pilot was evaluated by ETI and while found to be beneficial could not be sustained by schools without sustained external support.

The Department does not have information about the resources which schools devote to anti-bullying initiatives from their own budgets. Across the education and library boards at least £200,000 per annum is allocated to specific anti-bullying activity.

David Simpson: To ask the Secretary of State for Northern Ireland how many pupils in Northern Ireland have been absent from school through sickness as a result of bullying in each of the last 10 years. [39648]

Angela E. Smith: The Department of Education does not collect the requested information from schools. Basic statistical information about attendance is collected and from this the Department can determine levels of overall absence. Following recommendations contained in a Northern Ireland Audit Office (NIAO) report, 'Improving Pupil Attendance at School' published in November 2004, the Department is currently in the process of putting in place arrangements for gathering more detailed statistical information on pupil absences from 2006–07 school year. While information about the type of absence will be collected, including illness, it will not provide details on the type or reason for illness.

Child Protection

Lady Hermon: To ask the Secretary of State for Northern Ireland how much of the Northern Ireland draft budget will be allocated to child protection services in 2006–08; and what his funding priorities are in this area. [25303]

Mr. Woodward: Children and families remain a priority for Government. The budget for Health and Personal Social Services includes an additional £2 million in 2006–07 and 2007–08 set aside to support statutory requirements in respect of child protection. This money will be made available subject to agreement between the boards and the Department on the purposes for which it will be used and the specific outcomes to be achieved.

DHSSPS is committed to improving core children's services and this was reflected in the Budget 2006–08 settlement. As a result of the Budget we are able to invest:

an additional £2 million from 2006–07 in children's residential Care, opening new facilities and improving existing facilities,

an additional £4 million/£2 million in foster care;

an additional £0.5 million/£0.5 million for children leaving care.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what funding has been allocated for child protection arrangements in the Province over the next three years. [38616]

Mr. Woodward: Children and families remain a priority for Government. The budget for Health and Personal Social Services includes an additional £2 million in 2006–07 and 2007–08 set aside to support statutory requirements in respect of child protection. This money will be made available subject to agreement between the boards and the Department on the purposes for which it will be used and the specific outcomes to be achieved.

Expenditure planning figures for 2008–09 will be arrived at as a result of the national 2007 spending review.

Child Support Agency

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many full-time staff are employed by the Child Support Agency in Northern Ireland. [38956]

Mr. Hanson: As at 20 December 2005 there are 1,578 full-time staff employed by the Child Support Agency in Northern Ireland.

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 6 December 2005, *Official Report*, columns 1247–48W, on the Child Support Agency, what the problems are with the new system; what steps have been taken to solve them; and how effective these measures have been. [39273]

Mr. Hanson: The agency recognises that there are ongoing problems with the service it delivers to its customers via the new Child Support computer system. I am, however, continuing to work closely with our colleagues in Great Britain and the system provider, EDS, to resolve the remaining functionality defects with the new system. In addition to the functionality problems there were issues with technical stability, which have now been addressed.

A forward programme of enhancements has been agreed with the system provider. This will resolve all current defects and provide the specification that will enable the conversion of old scheme cases onto the new scheme. The terms of the recent commercial settlement with EDS means that the enhancements will be completed without further cost. A proportion of payments due to the provider are however being retained, conditional upon timely completion of the programme of work to the required standards.

Governance arrangements are also in place to assess the performance of EDS against acceptance criteria and ensure the satisfactory delivery of all system improvements.

Monitoring has identified that recent technical enhancements to the system have improved performance against agreed service standards. Monitoring will continue as the programme is implemented. When Ministers are satisfied that the new system and arrangements are working well, a decision to convert all old scheme cases to the new system will be taken.

Churches/Orange Halls (Attacks)

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many places of worship have come under attack in each of the last 10 years, broken down by denomination. [18240]

Mr. Woodward: The following table from PSNI records details the number of attacks on church property over the last 10 years correct to 30 June 2005.

	Number of attacks on church property
1995	52
1996	52
1997	41
1998	42
1999	15
2000	31
2001	30
2002	35
2003	59
2004	32
2005[1]	36

[1] To 30 June

Notes:
1. 2005 statistics are provisional and may be subject to minor amendment.
2. Includes incidents such as stones thrown, petrol bombs thrown, shots fired, malicious fires, etc.
3. PSNI does not record the denomination of the place of worship.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many Orange Halls have come under attack in each of the last 10 years. [18241]

Mr. Woodward: The following table from PSNI records details the number of attacks on Orange Halls / Apprentice Boys Halls over the last 10 years correct to 30 June 2005.

	Number of attacks on Orange Halls / Apprentice Boys Halls
1995	42
1996	38
1997	41
1998	29
1999	26
2000	26
2001	16
2002	4
2003	19
2004	6
2005[1]	8

[1] To 30 June.

Note:
1. 2005 statistics are provisional and may be subject to minor amendment.
2. Includes incidents such as stones thrown, petrol bombs thrown, shots fired, malicious fires, etc.

Classroom Assistants

Mark Durkan: To ask the Secretary of State for Northern Ireland (1) how many classroom assistants in *(a)* primary schools and *(b)* secondary schools in Northern Ireland are (i) male and (ii) female; [39121]

(2) how many classroom assistants in *(a)* primary schools and *(b)* secondary schools in Northern Ireland are employed on (i) permanent contracts and (ii) temporary contracts. [39122]

Angela E. Smith: The information requested is not readily available in my Department. Classroom Assistants working in the controlled and in the maintained sectors are employed by the Education and Library Boards (ELBs) and those working in the Voluntary Grammar School (VGS) and in the Grant Maintained Integrated (GMI) sectors are employed by the individual school Board of Governors. My Department has written to the respective employers seeking the information required and will write to the hon. Gentleman when the information is available.

Colin Worton

David Simpson: To ask the Secretary of State for Northern Ireland what recent representations he has received regarding the case of Colin Worton; what representations he has received on extending the right to compensation for wrongful imprisonment to include people held on remand; and if he will make a statement. [37714]

Mr. Hanson: I have received a number of representations about compensation arrangements and about the case of Colin Worton, including a recent letter from the hon. Gentleman. My right hon. Friend the Secretary of State for Northern Ireland has recently written to Mr. Worton, and to those who have made representations on his behalf, advising him of the decision in his case. Those who have spent time on remand in custody as a result of a wrongful charge or conviction may be entitled to compensation under section 133 of the Criminal Justice Act 1988 or under existing ex-gratia arrangements.

Common Fisheries Policy

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many and what penalties were imposed on fishermen from Northern Ireland for infringement of the rules of the Common Fisheries Policy in *(a)* 2002, *(b)* 2003 and *(c)* 2004; what infringements were involved according to the codes used by the European Commission; how many cases were discovered, broken down by type of infringement; what the average fine was, broken down by type of infringement; how many seizures there were, broken down by type of infringement and how much was paid by the fishery industry in Northern Ireland as a consequence of serious infringements. [39610]

Angela E. Smith: Infringements by the Northern Ireland fishing fleet within British Fishery Limits of the Irish Sea are detected by the Department of Agriculture and Rural Development, The Scottish Fishery Protection Agency, and the Royal Navy operating under contract to the Department of Environment Food and Rural Affairs.

Penalties are not administered by Departments, but are imposed by court after conviction. A number of cases from the period are unresolved at this stage; infringements by Northern Ireland vessels which have been prosecuted and have had penalties imposed are included below:

	2002	*2003*	*2004*
Number of penalties	7	nil	nil
Type of penalty	Court fines	—	—
Infringement codes	D1, E1, F1	—	—
How many by type	2 x D1, 1 x E1, 1 x F1	—	—
Average fine by type	D1 £1,500	—	—
	E1 £5,000	—	—
	F1 £1,000	—	—
Number of seizures	nil	—	—
Cost of infringements	£9,000	—	—

Commonwealth Games

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what support and preparation is being offered by the Government to athletes from Northern Ireland for the Commonwealth games. [38953]

Mr. Hanson: The Sports Council for Northern Ireland (SCNI) is responsible for the development of sport in Northern Ireland including the distribution of public funding to individual sports. SCNI is presently operating a Lottery-based Athlete Support Programme, through which it has already made available a total of £477,580 to assist athletes wishing to participate in the next Commonwealth games.

Community Restorative Justice (Sex Abuse)

Mark Durkan: To ask the Secretary of State for Northern Ireland how many allegations of sex abuse were received by the police from community restorative justice (CRJ) organisations in 2000; and how many involved members of CRJ organisations. [38977]

Mr. Woodward: The Chief Constable has advised me that the PSNI does not keep specific records on the category of person reporting a crime.

To obtain the information requested would require a manual trawl of all police records and could be done only at disproportionate cost.

Mark Durkan: To ask the Secretary of State for Northern Ireland how many allegations of sex abuse were passed by community restorative justice (CRJ) organisations to social services in 2000; how many involved members of CRJ organisations; and how many in each case were referred to the police. [38978]

Mr. Woodward: The information is not available in the form requested. Recordable data on abuse cases identifies individuals making allegations to social services, but not necessarily any organisation with which they may be associated.

Coolkeeragh Power Station

David Simpson: To ask the Secretary of State for Northern Ireland what the *(a)* total running hours against anticipated hours and *(b)* earnings in system value arrangements were over the last six months for Coolkeeragh power station. [36544]

Angela E. Smith: Coolkeeragh power station ran for approximately 3,900 hours against an anticipated 4,200 hours over the six month period June to November 2005.

The Department of Enterprise, Trade and Investment is precluded, by virtue of Article 63(1) of the Energy (Northern Ireland) Order 2003 (No. 419, N.I. 6), from disclosing information in relation to the system value agreement between Coolkeeragh ESB Ltd. (the owner of Coolkeeragh power station) and SONI Ltd. (the transmission system operator in Northern Ireland) without the consent of both parties. It has not been possible to secure this.

Craigavon Area Hospital

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what information is collected on the *(a)* number of patients waiting and *(b)* duration of waiting times in the Accident and Emergency Department at Craigavon Area Hospital. [38608]

Mr. Woodward: Information is collected locally by Craigavon Area Hospital on patients who present at the Accident and Emergency Department, using the Northern Ireland Regional Accident and Emergency System. The table given shows the total number of patients who were waiting in the Accident and

Emergency Department of Craigavon Area Hospital during the month of November 2005 by waiting time band (time waiting from arrival at A and E to departure).

Patients waiting in Craigavon area hospital Accident and Emergency Department by waiting time band—November 2005

Time waiting from arrival in A and E to departure	Number of patients in A and E waiting
Less than 1 hour	1,701
1 hour to less than 2 hours	2,061
2 hours to less than 3 hours	1,320
3 hours to less than 4 hours	745
4 hours to less than 5 hours	386
5 hours to less than 6 hours	153
6 hours or more	192
November 2005 total	6,558

Source:
Craigavon Area Hospital Group HSS Trust

Denis Donaldson

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland what relationship there was between Denis Donaldson and *(a)* the Security and Intelligence Services in Northern Ireland and *(b)* the RUC/Police Service Northern Ireland in each of the last 10 years. [39598]

Mr. Woodward: It is longstanding Government policy not to comment on intelligence matters.

Dentistry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what steps are being taken to tackle dental decay in children in Northern Ireland. [38747]

Mr. Woodward: The Oral Health Strategy published by the Department of Health, Social Services and Public Safety in September 2004 sets out a range of targets and recommendations for improving the levels of dental decay experienced by our child population. The strategy aims to:

improve the oral health of the Northern Ireland population;

reduce the inequalities in oral health in our society.

Within this strategy it is emphasised that much of the dental disease burden is related to lifestyle and socio-economic factors and shares common risk factors with other diseases such as obesity and diabetes.

More specifically, in the past year all community trusts have introduced an evidence-based caries reduction programme in pre-school children. This has been complemented by additional funding of £100,000 per year for evidence-based caries reduction programmes for under 6-year-old children in the 20 per cent. most deprived wards in Northern Ireland. In addition, a targeted preventive fissure sealant scheme was introduced into the General Dental Services in April 2005.

More generally, all boards and trusts have in place a range of healthy eating schemes which aim to reduce the amount of sugary foods and drinks consumed by children. Many of these schemes involve intersectoral working with the education sector with school-based diet programmes such as "Fresh Fruit in Schools", "Safe Snack Award" and "Boost Better Breaks".

Departmental Staff

Mike Penning: To ask the Secretary of State for Northern Ireland how many staff in his Department were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27448]

Mr. Woodward: *(a)* The following figures exclude secondments, career breaks, temporary staff and Electoral Office staff.

	Northern Ireland civil service	Home civil service	Northern Ireland prison service	Total
2005	1,340	170	410	1,920
2004	1,250	180	410	1,840
2003	1,140	190	420	1,750
2002	1,100	180	440	1,720
2001	1,070	190	430	1,690
2000	1,010	200	410	1,620
1999	1,000	230	400	1,630
1998	1,010	200	400	1,610
1997	990	200	390	1,580

(b) It is not possible to identify the number of contractors/consultants. This could be provided only at disproportionate costs.

(c) The information is as follows.

	Northern Ireland civil service (agency/temp staff)	Home civil service (agency/ temp staff)	Northern Ireland prison service (agency/temp staff)	Total
2005	60	0	10	70
2004	40	0	20	60
2003	60	0	20	80
2002	40	0	10	50
2001	20	0	10	30
2000	20	0	20	40
1999	30	0	20	50
1998	40	0	10	50
1997	30	0	10	40

Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Northern Ireland what assessment the Government have made of the average Effective Tax Rate to be charged on each property under the new discrete capital values system of domestic rates. [39499]

Angela E. Smith: It is not possible to determine the average Effective Tax Rate (ETR) for each domestic property at this stage until the outcome of the revaluation process, currently being carried out by the Valuation and Lands Agency, is complete. This is due to be finalised sometime in spring 2006. The Department, however, has carried out some analysis based on preliminary data which suggests a rate substantially lower than the 0.79 per cent. indicated by the University of Ulster study over two years ago, which was based on 1999 capital value estimates. The preliminary estimates are insufficiently reliable at this point in time given the current unavailability of valuation data but the Government does intend to provide an estimate of the ETR to coincide with the publication of the new values in 2006 to allow individual ratepayers to gauge their 2007–08 liability following the revaluation.

Drinking By-laws

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland on how many occasions the Police Service of Northern Ireland has brought cases regarding the breach of drinking by-laws to Castlereagh borough council in each year since November 2001. [37591]

Mr. Woodward: Records held by Castlereagh District Command Unit indicate the following:

	Number of referrals to Castlereagh borough council
2001	2
2002	3
2003	3
2004	3
2005	12

Drugs Seizures

David Simpson: To ask the Secretary of State for Northern Ireland how many drug seizures have been made in Northern Ireland in each of the last 10 years; and what their total estimated worth was. [36567]

Mr. Woodward: Data relating to the number of drug seizures by police together with the street value of drugs seized are only available from 1998–99 and are contained in table 1 as follows.

Similarly I am unable to supply data on the number and value of drug seizures that have been made by Her Majesty's Revenue and Customs, prior to 1999 as to do so would require a substantial manual exercise and would incur a disproportionate cost.

Data for the number of drug finds in prison establishments prior to January 2003 were not collated centrally and are not available. The value of drugs seized within Northern Ireland Prison establishments is not calculated.

Table 1: Number of seizures of class A, B and C drugs by Police Service of Northern Ireland—1998–99 to 2004–05 and value of drugs seized

	Number of drug seizures	*Total estimated street value (£)*
1998–99	1,588	7,043,168
1999–2000	2,058	11,425,982
2000–01	1,750	9,994,769
2001–02	1,533	6,559,700
2002–03	1,781	11,082,910
2003–04	2,347	15,108,410
2004–05	2,402	9,507,689
1 April-30 November 2005	1,803	5,835,120

Table 2: Number of seizures of class A, B and C drugs by Her Majesty's Revenue and Customs—1999–2000 to 2004–05 and value of drugs seized

	Number of drug seizures
2003	371
2004	355
1 January-31 October 2005	317

Education (Rural Areas)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to improve early years education and after-school activities in rural areas. [38615]

Angela E. Smith: Regarding early years education, in the current school year there are approximately 21,000 funded pre-school places, which provide for 93 per cent. of all children in their final pre-school year. It remains the Government's priority to provide age appropriate and high quality provision for all children in Northern Ireland including those in rural areas whose parents wish them to avail of a free pre-school education place.

The Children and Young People's funding package announced on 14 December 2005 includes an element for after-school activities. Final details have yet to be worked through but will take account of the needs of rural areas.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much funding has been allocated to ensuring those in rural areas can access *(a)* early years provision and *(b)* after-school activities in each of the next three months. [38619]

Angela E. Smith: A profile of funding for each of the next three months is not available in the format requested. Funding of £23,243,426 was allocated in respect of the 2005–06 financial year for statutory nursery schools funded under the common funding formula, and for funded places in the voluntary sector and these take account of the needs of those in rural areas.

DE does not fund after-school activities direct though some schools are providing activities beyond the school day and meeting the costs from within their delegated budget, from charges to pupils or parents, or through funding received from grant making organisations.

The Children's and Young People's Funding package, which was announced on 25 October 2005, includes an element for the promotion of extended schools, including after school activities and I would expect that rural areas will qualify for a proportion of the funds available.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to improve after-school activities for schoolchildren in Dungannon and South Tyrone. [38620]

Angela E. Smith: There are currently no plans specific to Dungannon and South Tyrone. However, the Children and Young People's Funding Package which I announced on 14 December includes an element for the promotion of extended schools, including after school activities. Final details will be announced in the new year and will take account of the needs of rural areas

Electoral Fraud

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many successful prosecutions were made against those involved in electoral fraud in Northern Ireland in each of the past 10 years. [21619]

Mr. Hanson: There have been no successful prosecutions with regard to electoral fraud in Northern Ireland since September 2000. The Electoral Office for Northern Ireland holds no record of any prosecutions in the period 1995–2000.

Equality Commission

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what discussions he has had with the Equality Commission in connection with the composition of the Commission's work force as contained in the Monitoring Report No. 15: A profile of the Northern Ireland work force. [37808]

Angela E. Smith: Ministers have had a number of discussions with the Equality Commission for Northern Ireland about a range of issues, including the composition of its work force and have noted that the Commission has an affirmative action programme in place to address existing imbalances.

External Consultants

Martin Horwood: To ask the Secretary of State for Northern Ireland how much the Department and its agencies have spent on *(a)* the design and production of new logos and *(b)* employing external (i) public relations and (ii) graphic design agencies in each year since 2000, broken down by project. [33222]

Mr. Hain: The information requested is as follows.

Project	*(£)*
Design and production of new logos	
2000–01	
Total expenditure: 2001–01	—
2001–02

Total expenditure: 2004–05	2,698,940.33

It is not possible for the NI prison service to separate these costs and to do so would incur disproportionate costs. They have been able to provide the accumulative totals as follows.

Northern Ireland prison service

Period	Total spend on design and production of new logos	Total spend on employing external public relations	£ Total spend on employing external graphic design agencies
2000–01	—	—	34,937.21
2001–02	—	—	3,420.00
2002–03	—	—	2,142.53
2003–04	—	—	180,225.93
2004–05	—	—	153,220.33

Fertility Treatments

Mark Durkan: To ask the Secretary of State for Northern Ireland what arrangements are in place in Northern Ireland for national health service inter-uterine insemination treatment; what funding has been allocated for such treatment in the 2005–06 financial year; and what recent changes there have been in the availability of such treatment. [39576]

Mr. Woodward: Inter-uterine insemination is an assisted reproduction treatment that does not require to be licensed by the Human Fertilisation and Embryology Authority (HFEA). Health and Social Services Boards have, therefore, greater choice in commissioning this treatment. At present the eastern and northern boards commission treatment for their patients from the Regional Fertility Centre (RFC) in Belfast while patients from the southern board area are treated at Craigavon Area Hospital. The western board commissions a limited number of treatments from the RFC while the remainder are provided at Altnagelvin Area Hospital.

The Department currently allocates annual funding of £1.4 million to the Regional Fertility Centre for the provision of fertility services across the four board areas, including the provision of inter-uterine insemination treatments provided by the RFC.

The Department is not aware of any recent changes regarding the availability of this treatment.

GP Funding

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much funding has been allocated over the next three years to *(a)* develop general practitioners with specialist interests and *(b)* provide for the accreditation of such doctors. [38609]

Mr. Woodward: No formal extra central funding has been allocated over the next three years to develop general practitioners with specialist interests but Health and Social Services Boards do fund a small number of general practitioners for providing certain specialised services although the overall amount is not readily available. Accreditation of GPs carrying out this specialist work would be the responsibility of the individual Board.

Health Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients within each health trust area in the Province have *(a)* received, *(b)* accepted and *(c)* declined second offers for treatment. [38610]

Mr. Woodward: In July I announced a major programme of reform to address Northern Ireland's unacceptable waiting times. By March 2006, I would expect no-one to be waiting more than 12 months for in-patient or day case treatment with shorter waiting times for cardiac surgery (six months), cataracts (six months), and major joint replacement (nine months). An alternative offer scheme has been set up to guarantee patients an offer of treatment within these time scales and I have established the Northern Ireland Patient Offer Centre to facilitate this scheme.

The number of patients who have been offered transfers under the auspices of the Northern Ireland Patient Offer Centre are set out in the following table.

Trust	Offers received	Offers accepted	Offers declined
Altnagelvin Group HSS Trust	24	23	1
Green Park Healthcare HSS Trust	43	30	13
Royal Group of Hospitals HSS Trust	32	21	11
Total	99	74	25

Departmental Information Return CH10.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland which female gonadotropin products are used by the Regional Fertility Clinic in Belfast; how much they cost; and by what process the decision is taken to use them. [38612]

Mr. Woodward: The Regional Fertility Centre has advised that they currently use several gonadotropin products. These include Puregon, Gonal F and Menogon injections. Puregon is prescribed as the product of choice for Assisted Conception but is also used for other procedures. Gonal F and Menogon are prescribed for procedures such as ovulation induction.

These drugs are prescribed for patients where clinical decision dictates this choice.

The total cost for these drugs during the period April to September 2005 was approximately £233,000.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many trolley waits were recorded at Craigavon Area in each week of the last three years. [38621]

Mr. Woodward: Over the period for which information was requested, the number of hospital trolley waits was reported to the Department by Trusts on a quarterly basis.

Hospital trolley waits recorded in each quarter at Craigavon area hospitals group HSS trust during the last three years

Quarter	*Total number of trolley waits*
30 June 2002	3,152
30 September 2002	3,360
31 December 2002	4,009

Source:
Departmental Information Return CH10.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps have been taken to provide *(a)* investment and *(b)* infrastructure aimed at sustaining key services at the Tyrone County and Erne Hospitals since 30th June 2004. [38623]

Mr. Woodward: Substantial investment has been made in maintaining services at Tyrone County and the Erne hospitals. The Department has provided Sperrin Lakeland Trust with additional capital funding of £1.9 million in 2004–05 and approximately £3.5 million in 2005–06, specifically targeted on sustaining key services in the Erne and Tyrone County hospitals. This additional funding has supported, among other things, the provision of a CT scanner and ultrasound and mammography accommodation at TCH and the refurbishment of A&E and paediatric facilities at the Erne.

In addition, the Trust has advised that they have recruited a total of 15 doctors as staff grade anaesthetists, staff grade surgeons, radiologists and A&E doctors, and that of the 51 nurses recruited over the past two years from outside the UK, 32 remain in post.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average waiting time was at Accident and Emergency in the Causeway hospital during *(a)* November 2004 and *(b)* November 2005. [38749]

Mr. Woodward: *(a)* The Clinical Information System which records waiting times at the Accident and Emergency Department in Causeway hospital did not 'go live' until mid November 2004. Therefore information on average waiting times during November 2004 is not available.

(b) For November 2005, the average waiting time from patient arrival in the Accident and Emergency department in Causeway hospital to be being seen by a Clinician was 1 hour 1 minute.

HMP Magilligan

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people are employed at HMP Magilligan on a *(a)* full and *(b)* part-time basis; and how much was earned in total by these personnel in the 2004–05 financial year. [37803]

Mr. Woodward: There were 438 full-time staff employed at Magilligan and 1 part-time member of staff as at 30 November 2005. Payments for basic salary, overtime and allowances for these staff in 2004–05 amounted to £13.3 million.

Inward Investment

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 30 November 2005, *Official Report*, column 632W, on inward investment, what assessment he has made of what steps should be taken to increase the level of foreign direct investment into Northern Ireland. [39645]

Angela E. Smith: Invest NI constantly assesses what steps should be taken to increase the level of foreign direct investment into Northern Ireland. In doing so Invest NI continually evaluates the sectoral focus of its marketing activities and location of overseas offices.

One example of this is the development of a Northern Ireland proposition offering a business solution for companies in the financial services sector. This led to the establishment of a Citigroup project in Northern Ireland and Invest NI's decision to open an office in New York in June 2005.

In period 1 April 2002 to 31 March 2005 Invest NI secured a total of 106 projects with investment in excess of £525 million, and these projects promoted 6,653 new jobs.

IRA Decommissioning

David Simpson: To ask the Secretary of State for Northern Ireland what the difference was in the original and final estimates for the size of the IRA arsenal in relation to *(a)* handguns, *(b)* rifles, *(c)* heavy machine guns, *(d)* ammunition, *(e)* missiles systems, *(f)* semtex, *(g)* explosives, *(h)* timing devices and *(i)* detonator switches. [20746]

Mr. Woodward: On 26 September 2005 the IICD "determined that the IRA had met its commitment to put all its arms beyond use in a manner called for by the legislation". The IMC report published on 19 October 2005 said that the initial signs are encouraging.

The Government expect a full report on armaments to be published when the IICD have fully concluded their work.

IT Projects

Mr. Laws: To ask the Secretary of State for Northern Ireland how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public Gateway reviews for these projects *(a)* in full and *(b)* in part. [23521]

Mr. Woodward: The following table refers to the Northern Ireland Office. It does not include figures for the 11 departments of the Northern Ireland Administration.

	Number
Projects developed since 2001	2
OGC Gateway Reviews made public	0
FOI requests for full or partial disclosure of Gateway Reviews	0

Jonesborough Market

David Simpson: To ask the Secretary of State for Northern Ireland what the total financial cost was of the police swoop on Jonesborough market in South Armagh on Sunday 4 December. [38580]

Mr. Woodward: The police operation on 4 December in Jonesborough involved officers from Organised Crime Branch, Newry and Mourne District Command and the Operational Unit as well as representatives from the film industry anti piracy body, Federation Against Copyright Theft. The total financial cost of the operation is not available.

The operation was concentrated on the surrounding area of Jonesborough not on the market itself and a substantial quantity of counterfeit goods were seized.

Ministerial Car Fleet

David Simpson: To ask the Secretary of State for Northern Ireland which agency or Department provided drivers for ministerial vehicles in Northern Ireland in each of the last 10 years. [39651]

Mr. Hain: While in Northern Ireland, Northern Ireland Office Ministers are driven and escorted by police officers.

Ministerial Visits

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many overnight stays he has made in Northern Ireland in each month since taking up office. [37587]

Mr. Hain: The number of days I have spent in Northern Ireland between taking up office and 31 December 2005 is as follows:

Month	*Overnights*	*Days*
May	3	6
June	6	10
July	9	14
August	0	1
September	5	10
October	7	10
November	5	11
December	13	18

In addition to the time spent in Northern Ireland, I undertake NIO business in Parliament and in the Northern Ireland Office at 11 Millbank, as a member of the Cabinet I have additional duties including attending Cabinet meetings on Thursday mornings.

Non-jury Trials

Jeremy Corbyn: To ask the Secretary of State for Northern Ireland what plans he has to review the necessity for non-jury trials in respect of scheduled offences in Northern Ireland. [39153]

Mr. Woodward: The Government are currently considering what arrangements may need to be put in place to ensure the continuing effectiveness of the criminal justice system when Part VII of the Terrorism Act 2000 ceases to have effect. During the Report stage in the House of Commons of the Terrorism (Northern

Ireland) Bill 1 indicated that we should have detailed proposals worked up next summer and that these will be subject to pre-legislative scrutiny.

Northern Ireland (Offences) Bill

Lady Hermon: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of people who will be affected by the terms of the Northern Ireland (Offences) Bill; and how many he expects to be *(a)* republicans, *(b)* loyalists, *(c)* police personnel, *(d)* army personnel and *(e)* other security service personnel. [30309]

Mr. Hain: I refer the hon. Lady to the answer I gave to the hon. Member for East Londonderry (Mr. Campbell) on 21 November 2005, *Official Report*, column 1644W.

Nurses

David Simpson: To ask the Secretary of State for Northern Ireland how many nursing vacancies there are in Northern Ireland. [39649]

Mr. Woodward: Information on the number of nursing vacancies is only held for posts within the NI HPSS. This information is provided in the table as follows.

Number of current and long-term qualified and unqualified nursing staff vacancies in the NI HPSS as at 31 March 2005

	Current vacancies		*Long-term vacancies*	
	Headcount	*WTE*	*Headcount*	*WTE*
Qualified nursing staff	642	593.86	283	274.56
Unqualified nursing staff	124	102.26	25	22.60
Total	766	696.12	308	297.16

Notes:

1. WTE = whole-time equivalent.
2. Qualified nursing staff include health visitors, district nurses and midwives.
3. Current vacancy is an unoccupied post, which at 31 March 2005 was vacant and which the organisation was actively trying to fill.
4. A long-term vacancy is an unoccupied post which at 31 March 2005 had been vacant for three months or more (was vacant prior to 31 December 2004) and which the organisation was actively trying to fill. Long-term vacancies are a sub-set of current vacancies.

NI Health Trusts and Organisations

Obesity

David Simpson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland aged *(a)* under 20, *(b)* 20 to 30, *(c)* 30 to 40, *(d)* 40 to 50 and *(e)* over 50 are estimated to be clinically obese. [39653]

Mr. Woodward: Figures for the percentage of people who are clinically obese in Northern Ireland for the requested age groups are as follows:

Age group	*Percentage of population who are obese*
16–19	9
20–29	12
30–39	14
40–49	22
50+	25
Total	19

Source:

1997 Health and well-being survey

The information requested is not available for persons under 16.

Parades

Jim Dobbin: To ask the Secretary of State for Northern Ireland how many participants in parades have been prosecuted for not completing form 11/1 in the last five years. [3829]

Mr. Woodward: I understand the high level of public interest in this issue at present. Acquiring the information from records held in 29 District Command Units within the set timeframe will take some time. I am, however, willing to write to the Chief Constable, PSNI, requesting this information and to ensure that a copy of the reply is forwarded to you once the research has been completed.

Jim Dobbin: To ask the Secretary of State for Northern Ireland how many parades proceeded *(a)* with and *(b)* without completion of form 11/1 in each of the last five years. [3830]

Mr. Woodward: The Parades Commission Secretariat has collated the information for part *(a)* of your request and I reproduce this in the following table:

	Notified parades
April 2000 to March 2001	3,440
April 2001 to March 2002	3,301
April 2002 to March 2003	3,280
April 2003 to March 2004	3,125
April 2004 to March 2005	3,470
March 2005 to end 2005	3,123
Total parades notified in the last five years	19,739

The Parades Commission do not have records on parades that proceeded without notification. To accurately answer part *(b)* of your question will require manually accessing the information from records held in 29 PSNI District Command Units and will not be possible within the set timeframe. However, as with your previous question, I am willing to write to the Chief Constable requesting this information and to ensure that a copy of the reply is forwarded to you once the research has been completed.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland if he will list each parade in Northern Ireland in *(a)* 2003, *(b)* 2004 and *(c)* 2005 to date by its named organisation. [14498]

Mr. Woodward: This information is already in the public domain and is available in the Parades Commission's reports which are laid annually before Parliament, or via the Parades Commission's website—http://www.paradescommission.org/.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many parades took place in each of the last 12 months in Northern Ireland. [14499]

Mr. Woodward: This information is already in the public domain and is available in the Parades Commission's reports which are laid before Parliament annually or via the Parades Commission's website—http: //www.paradescommission.org/.

Police Service

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many police officers in Northern Ireland were offered early retirement packages on health grounds in 2004. [37804]

Mr. Woodward: There were a total of 147 ill health retirements during the financial year 1 April 2004 to 31 March 2005.

Figures for police officers retirements on the grounds of ill health include both serving, and ex-serving officers who have applied retrospectively and are not held separately.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average length of service was of officers with the rank of police inspector and above in Northern Ireland in *(a)* 1995 and *(b)* 2005. [36608]

Mr. Woodward: The average length of service for officers of the rank of Inspector and above in December 1995 is 27.94 years and in December 2005 is 24.11 years. A breakdown of individual ranks is as follows:

Rank	*Average service (years)*	
	December 1995	*December 2005*
ACPO	33.30	25.48
Chief Superintendent	32.30	26.28
Superintendent	28.19	24.44
Chief Inspector	24.50	23.24
Inspector	21.40	21.09

Mr. Weir: To ask the Secretary of State for Northern Ireland what the strength is of the Police Service of Northern Ireland. [40036]

Mr. Woodward: The total strength of the Police Service of Northern Ireland as of 20 December 2005 is 9,413. This figure can be broken down as follows:

Service	*Number*
Regular	[1]7,507
Full-Time Reserve	1,062
Part-Time Reserve	844

[1] Including those working part-time hours

Pre-school Education

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on pre-school provision in Dungannon and South Tyrone; and what plans there are to change such provision. [38613]

Angela E. Smith: Part of the Dungannon district council area falls within the Fermanagh and South Tyrone parliamentary constituency. Looking at the two areas separately will count some pre-school provision twice.

The overall level of funded pre-school provision in the Dungannon district council area is 95 per cent. and the Fermanagh and South Tyrone parliamentary constituency is 99 per cent., which would indicate there is sufficient provision to meet the Pre-school Education Expansion Programme's aim of providing a year of good quality pre-school education for every child whose parents wish it. Research has shown that approximately 10 per cent. of parents do not wish their children to attend pre-school education.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to increase Sure Start provision in Dungannon and South Tyrone. [38614]

Mr. Woodward: Investment in the Sure Start project currently operating in Dungannon stands at £300,000 for 2005–06 and means that around 700 children under the age of 4 and their families have access to the range of services offered by the project. At this stage, no decisions have been taken on any possible expansion of Sure Start across Northern Ireland.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much funding is being allocated to improving pre-school provision in each of the next three years. [38617]

Angela E. Smith: On 14 December 2005 the Secretary of State confirmed an allocation in the next two years of £28 million and £33 million to the new priority funding package for children and young people originally announced in October.

Departments have been working to draw up detailed plans, and related funding, to meet the objectives of the package, which includes an element of pre-school provision.

Professional Disqualifications

David Simpson: To ask the Secretary of State for Northern Ireland how many doctors in Northern Ireland were disqualified in each of the last 10 years. [38585]

Mr. Woodward: It is only the General Medical Council (GMC), through the Fitness to Practice panels, who may erase a doctor from the medical register within the UK. They have identified three such cases occurring in Northern Ireland during the 10 year period, one in each of 2002, 2004, and 2005. However, the registered address that doctors must maintain with the GMC is not necessarily their place of practice so, although it is unlikely that there have been other cases, the possibility exists.

David Simpson: To ask the Secretary of State for Northern Ireland how many company directors in Northern Ireland have been disqualified in each of the last 10 years. [38586]

Angela E. Smith: The following table shows the number of directors disqualified in Northern Ireland in each of the last 10 financial years.

Number

Year ending 31 March	*Directors disqualified*
1996	24
1997	25
1998	32

Number

Year ending 31 March	*Directors disqualified*
1999	21
2000	26
2001	16
2002	20
2003	[1]17
2004	[1]10
2005	[1]26
Total	217

[1] Includes undertakings not to act as a director given under Article 4 of the Company Directors Disqualification (Northern Ireland) Order 2002.

Prosecutions

David Simpson: To ask the Secretary of State for Northern Ireland in how many cases of *(a)* indecent behaviour, *(b)* rape and *(c)* sexual assault files were sent to the Northern Ireland Public Prosecution Service and were subsequently returned recommending no prosecution in each of the last 10 years. [36256]

The Solicitor-General: I have been asked to reply.

In respect of *(a)* indecent behaviour and *(c)* sexual assault, the information requested is not available. Until the commencement of the PPS in June of this year, virtually all minor offences, which would include the majority of cases of indecent behaviour and some forms of sexual assault, were dealt with in the magistrates court and were prosecuted by the police. That continues to be the case in those areas of Northern Ireland which are not yet covered by the new service. The PPS does not record offences under the general heading of "sexual assault"—a category which could include a number of different offences some of which would have been prosecuted by the police.

In respect of *(b)* rape, over the five year period 2001 to 2005 (to 16 December), of the 133 persons charged by police with an offence of rape, 68 (51 per cent.) were directed for prosecution for rape and 21 (16 per cent.) for lesser offences (eg indecent assault. No prosecution was directed for the remaining 44 suspects. This can be broken down by year as follows:

	Prosecution direction for offence of rape		*Prosecution direction for lesser offence*		*No prosecution directed*		*Total*
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*
2001	12	50	4	17	8	33	24
2002	11	41	3	11	13	48	27
2003	16	50	6	19	10	31	32
2004	15	68	3	14	4	18	22
2005	14	50	5	18	9	32	28

The figures for 2005 are provisional.

It should be noted that the above figures apply only to charge cases (that is, cases commenced by police by way of charge). No reliable information is available in relation to cases where police did not charge a suspect but reported the matter to the Director of Public Prosecutions.

Data cannot be provided prior to 2001.

Runaway Children

Lady Hermon: To ask the Secretary of State for Northern Ireland how many runaway children were reported in each police district command unit in Northern Ireland in each of the past three years; and if he will make a statement. [38111]

Mr. Woodward: The Police Service of Northern Ireland does not hold a central record which would identify runaway children. To obtain this information would involve a manual trawl of records at disproportionate cost.

Public Officials (Security Threat)

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland whether public officials have had to move house in Northern Ireland due to the danger of becoming victims of terrorism, since the police raid on Sinn Fein offices in Stormont in 2002; and if he will make a statement. [39602]

Mr. Woodward: As a result of the paramilitary intelligence gathering which police acted to prevent, hundreds of stolen documents were recovered. More than a thousand people had to be warned about their safety—some of whom moved house—and approximately £35 million was spent on protective measures.

Spy Ring (Stormont)

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the cost was to the Police Service of Northern Ireland of the investigation into those charged with running a spy ring at Stormont in 2002. [38707]

Mr. Woodward: To obtain an accurate breakdown of what has been a complex, multi-faceted and lengthy investigation would require careful and involved analysis by the PSNI. Such an answer could be provided only at disproportionate cost.

Temporary Mobile Classrooms

David Simpson: To ask the Secretary of State for Northern Ireland how many temporary mobile classrooms are in use in *(a)* controlled schools and *(b)* maintained schools in Northern Ireland. [39647]

Angela E. Smith: At 31 March 2005 there were 1,126 temporary classrooms in controlled schools and 1,220 maintained schools in Northern Ireland.

Sinn Fein Offices (Stormont)

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland who authorised the police raid in 2002 on Sinn Fein offices in Stormont. [39603]

Mr. Woodward: The fact in this case is that a paramilitary organisation, namely the Provisional IRA, was actively involved in the systematic gathering of information and targeting of individuals.

Police investigated that activity and a police operation led to the recovery of thousands of sensitive documents that had been removed from government offices.

As part of the investigation, the Police Service of Northern Ireland required to search a number of offices at Stormont. These searches were conducted under the authority of a Schedule 5 Search Warrant that had been sought by a police officer and authorised by the relevant judicial authority.

Punishment Beatings

Mr. Andrew Turner: To ask the Secretary of State for Northern Ireland how many persons were the subject of paramilitary-style punishment attacks in each year of the current troubles; how many persons have been convicted in respect of such attacks; how many of those attacks remain unsolved; and how many of those attacks involved *(a)* firearms, *(b)* bladed instruments, *(c)* other weapons and *(d)* assault without weapons. [29547]

Mr. Woodward: The Police Service of Northern Ireland have advised that the only statistics held in relation to this matter can be found at the PSNI website, www.psni.police.uk and are set out as follows. You should note that statistics only date back to 1973 and that data are not held for convictions or weapons used. All statistics are provisional at this stage and may be subject to minor amendment.

Casualties as a result of paramilitary-style attacks 1973 to 2005 (updated on 14 December 2005)

	Shootings			*Assaults*[1]			
	Total	*By Loyalist groups*[2]	*By Republican groups*[2]	*Total*	*By Loyalist groups*[2]	*By Republican groups*[2]	*Total casualties (shootings and assaults)*

[4] To 30 November 2005
Note:
2005 statistics are provisional at this stage and may be subject to minor amendment in the future.

Road Traffic Accidents

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland if he will list the locations of each fatal road traffic collision in East Belfast District Command Unit from 2000 to 2004. [37590]

Mr. Woodward: The information requested is contained in the following table:

Fatal road traffic collisions in East Belfast DCU from 2000-04

Town	*Road name*
Belfast	Airport Road West, 160 metres north of Tennant's Road
Belfast	Upper Newtownards Road, 100 metres east of Prince of Wales Avenue
Belfast	Parkway, 200 metres south of Belmont Road
Belfast	Sydenham By Pass, 600 metres south of Tillysburn Interchange
Belfast	Old Holywood Road, at the junction with Finchley Park
Belfast	Upper Newtownards Road, at the junction with Finvoy Street

Fatal road traffic collisions in East Belfast DCU from 2000-04

Town	*Road name*
Belfast	Ballymiscaw Road, at the junction with Moss Road
Belfast	Ravenhill Road, 40 metres south of Ravenhill Avenue
Belfast	Newtownards Road, at the junction with East Bread Street
Belfast	Holywood Road, 15 metres east of Park Avenue
Belfast	Belmont Road, 30 metres west of Ranfurly Drive

Sports Council

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland pursuant to the response of 17 October 2005, *Official Report*, column 750W, on the Sports Council, if he will break down by sport the funding distributed by the Sports Council in each of the last five years. [36356]

Mr. Hanson: The Sports Council for Northern Ireland has allocated lottery and exchequer funding to individual sports in Northern Ireland for the amounts shown in the following tables in the last five years. This includes funding for bodies with a province wide remit, for example governing bodies of sport:

Lottery monies allocated by the Sports Council for Northern Ireland

Sport	*2000-01*	*2001-02*	*2002-03*	*2003-04*	£ *2004-05*

A breakdown of exchequer funding allocated by sport is not available for the period 2000–01 to 2001–02.

Expenditure planning figures for 2008–09 will be arrived at as a result of the national 2007 Comprehensive Spending Review.

Sure Start

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much funding is being allocated to Sure Start in the Province in each of the next three years. [38618]

Mr. Woodward: The budget for Health and Personal Social Services includes £9.335million in 2006–07 for Sure Start rising to £9.615 million in 2007–08.

Sure Start is one of the possible recipients of additional funding from the Children and Young People's Package. A final decision on the allocation of this funding, which amounts to £28 million in 2006–07 and £33 million in 2007–08, has yet to be reached.

Water Service

Mark Durkan: To ask the Secretary of State for Northern Ireland how many Water Service staff there were on 1 January *(a)* 2001 and *(b)* 2005, broken down by (i) grade and (ii) location; and how many are planned for 2007 in each case. [38484]

Mr. Woodward: The chief executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Gentleman in response to this question.

Letter from Katharine Bryan, dated 21 December 2005:

Your recently asked the Secretary of State for Northern Ireland a Parliamentary Question about the number of Water Service staff there were on 1 January 2001 and 2005, broken down by grade and

location, and how many are planned for 2007 in each case (38484). I have been asked to reply as this issue falls within my responsibility as Chief Executive of Water Service.

The staff-in-post figures for 2001 and 2005 by grade and location are set out in the tables below. The figures show an overall reduction of 181 staff (8%). The reduction is relative of the impact of the Water Reform process which requires Water Service to produce overall efficiencies in running costs.

Grade	*January 2001*	*January 2005*
Grade 3	1	1
Grade 5	6	6
Grade 6	10	9
Grade 7	39	40

Total	2,165	1,984

Detailed planning for the achievement of efficiencies in 2007 is proceeding. It is not possible, at this stage, to give definitive numbers, grades or locations but a further reduction in numbers is planned.

HOME DEPARTMENT

Air Weapons

Mr. Kemp: To ask the Secretary of State for the Home Department if he will arrange a general amnesty on all air weapons on a particular day when they could be handed in at police stations. [19734]

Hazel Blears: I refer my hon. Friend to the answer given on 28 October 2005, *Official Report*, column 532W.

Possession of an air weapon is not an offence and so a general amnesty as such would not be appropriate. Individual police forces can, and do, encourage people to hand in unwanted air weapons, particularly when there is a problem of misuse in their force area. We are planning a knives amnesty in the new year and will consider whether it can be extended to cover the hand-in of other weapons including possibly airguns.

Mr. Iain Wright: To ask the Secretary of State for the Home Department how many injuries were caused by air weapons in Hartlepool in the last year for which data is available. [38380]

Hazel Blears: Data collected centrally for recorded crime involving firearms in England and Wales is only available at police force level. Information for Hartlepool is therefore included in data for Cleveland police and is given in the table.

Injuries incurred during offences involving air weapons[1] recorded by Cleveland police, 2003–04

Type of injury	*Number of injuries*
Fatal	0
Serious[2]	4
Slight	38

[1] By the weapon being fired, used as a blunt instrument or in a threat.

[2] A serious injury is one which necessitated detention in hospital or involved fractures, concussion, severe or general shock, penetration by a bullet or multiple shot wounds.

Mr. Iain Wright: To ask the Secretary of State for the Home Department how many crimes involving the use of air weapons took place in Hartlepool in the last year for which information is available. [38381]

Hazel Blears: Data collected centrally for recorded crime involving firearms in England and Wales is only available at police force level. Information for Hartlepool is included in data from Cleveland police, who recorded 361 offences involving the use of air weapons in 2003–04.

Aircraft Arrests

Sir Menzies Campbell: To ask the Secretary of State for the Home Department whether UK police have authority to arrest individuals suspected of criminal

offences who are on board aircraft which transit through UK *(a)* civilian airports and *(b)* military airfields. [33939]

Hazel Blears: In England and Wales, a constable may arrest a person without a warrant under section 24 of the Police and Criminal Evidence Act (PACE) 1984. Section 17 provides a constable with the power to enter and search any premises for the purpose of arresting a person for an arrestable offence. An aircraft falls within the definition of premises.

Similar provisions exist in Northern Ireland under Article 26 and Article 18 of the Police and Criminal Evidence (Northern Ireland) Order 1989.

In Scotland, a constable may detain a person without a warrant under section 14 of the Criminal Procedure (Scotland) Act 1995 where he has reasonable grounds for suspecting that a person has committed or is committing an offence punishable by imprisonment. Section 14 does not contain any power to enter and search premises prior to detention without a warrant. If the police are satisfied that there is evidence that a person or persons have committed a crime, they can arrest them without warrant at common law where that is necessary in the interests of justice.

UK police do not have the authority to arrest if the aircraft in question is a military aircraft as this has special status in international law even when it is on the ground. The aircraft and anything inside remains the sovereign territory of the foreign military. This is a recognised principle of international law based on the doctrine of state immunity, where a state enjoys immunity in respect of itself and its property, from the jurisdiction of the courts of another state.

Airport Policing

Andrew Mackinlay: To ask the Secretary of State for the Home Department (1) which airports are designated for police purposes; what the costs charged to the airport operators for policing were in each case in each of the last five years; and if he will make a statement; [20379]

(2) what estimate he has made of the cost of policing in each of the five largest airports which are not designated for police purposes in each of the past five years; [20380]

(3) if he will review the status of major airports which are not designated for police purposes; and if he will make a statement. [20381]

Hazel Blears: Details of the policing costs at individual airports, whether designated or not, are not held centrally. There are nine airports that are currently designated under the Aviation Security Act 1982. These are Heathrow, Gatwick, Stansted, Manchester, Birmingham, Glasgow, Edinburgh, Prestwick and Aberdeen.

The Department for Transport is leading a review of the designation process, but work on this has been suspended pending the outcome of a request for determination by the Secretary of State under the terms of the above Act. The review will resume once a determination has been made in this case.

Animals (Scientific Procedures)

Norman Baker: To ask the Secretary of State for the Home Department what the nature and purpose was of the 47 procedures performed on endangered wild birds in 2004 under the Animals (Scientific procedures) Act 1986. [38844]

Andy Burnham: All 47 procedures reported in the Statistics of Scientific Procedures on Living Animals 2004 (Cm 6713) as having been performed on wild birds were for research for conservation purposes into techniques to reduce the mortality of threatened species due to infectious diseases. The procedures involved vaccination and taking of small blood samples. No special techniques were used and no anaesthesia was necessary.

Antisocial Behaviour

Mr. Amess: To ask the Secretary of State for the Home Department what steps he *(a)* is taking and *(b)* plans to take to tackle (i) antisocial behaviour and (ii) antisocial behaviour outside night clubs and public houses in Southend-on Sea; and if he will make a statement. [37536]

Hazel Blears: Southend on Sea is an Antisocial Behaviour Unit Action area.

The Home Office have allocated Southend on Sea £50,000 in 2005–06 to tackle anti social behaviour. £25,000 of this has been allocated to tackle the most antisocial families in the town. The remaining £25,000 is being used to fund a number of initiatives including:

extension of the Mediation Service across the borough;

witness support;

covert CCTV deployment;

ASB Initiatives Fund to enable small initiatives to be carried out throughout the Borough;

roadrunner scheme—a course aimed at good driving behaviour for 16 and 17-year-olds.

Southend on Sea are undertaking a number initiatives to combat alcohol related disorder outside pubs and clubs, on the sea front and in the town centre. These focus both on prevention and enforcement and include the following:

S.O.S Bus;

The Street Pastors;

No alcohol zones. Three designated areas in Southend where no alcohol can be consumed on the street;

Club Watch—a meeting of the licensee's and police;

Door staff vetting/training;

Drug safes supplied to nightclubs in relation to substances or other articles seized. These can only be opened by police.

Mr. Amess: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued to citizens living in Southend-on Sea in each month since their introduction. [37537]

Hazel Blears: The readily available information is by quarter and is given in the following table.

Number of antisocial behaviour orders issued, as reported to the Home Office where restrictions are imposed within Southend-on-Sea local government area, by period, 1 June 2000[1] to 31 March 2005 (latest available)

England and Wales	*Issued*
July to September 2000	—
October to December 2000	—
January to March 2001	—
April to June 2001	—
July to September 2001	—
October to December 2001	—
January to March 2002	—
April to June 2002	1
July to September 2002	—
October to December 2002	—
January to March 2003	—
April to June 2003	—
July to September 2003	—
October to December 2003	8
January to March 2004	4
April to June 2004	—
July to September 2004	—
October to December 2004	1
January to March 2005	4
Total	18

[1] Between 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area (pfa). During this period no ASBOs were issued, as reported, within Essex pfa.

Note:

As from 1 June 2000 data collected centrally by magistrates courts committee (MCC) area by quarter. For the month of June 2000 no (0) asbos were reported as being issued.

Mr. Jenkins: To ask the Secretary of State for the Home Department what steps he *(a)* is taking and *(b)* plans to take to tackle (i) anti-social behaviour and (ii) antisocial behaviour outside nightclubs and public houses in Tamworth; and if he will make a statement. [37833]

Hazel Blears: The Tamworth Crime and Disorder Reduction Partnership (CDRP) has adopted an incremental approach to tackling antisocial behaviour which involves letters, visits, acceptable behaviour contracts (ABCs) and ultimately legal enforcement through antisocial behaviour orders (ASBOs) or injunctions. Serious cases of antisocial behaviour are monitored by a multi agency action group which sits under the Community Safety Partnership.

Since April 2004 to March 2005 the Community Safety Partnership has issued:

350 first stage letter warnings to young people

seven multi agency visits to parents of juveniles causing antisocial behaviour

22 ABCs

Between April 1999 and June 2005 four ASBOs have been issued in Tamworth. Trent Basic Command Unit (BCD) has received an extra £10,000 Home Office funding as part of the third national Alcohol Misuse Enforcement Campaign. This campaign has been running since 15 November 2005 and enables the BCU to provide extra high visibility patrols aimed at deterring alcohol-related crime and disorder, including antisocial behaviour taking place in the vicinity of nightclubs and public houses.

On the 15 December 2005, the Tamworth CDRP, in conjunction with a multi agency partnership will launch their antisocial behaviour campaign with a specific focus on drink related violence.

Gregory Barker: To ask the Secretary of State for the Home Department what Government funding schemes are available for organisations which tackle antisocial behaviour and youth development; and how much money was available to each scheme in the last 12 months. [36591]

Hazel Blears: Tackling antisocial behaviour is a cross-Departmental issue and many Government Departments contribute to this agenda. A wide range of funding streams across Government have a positive impact on tackling antisocial behaviour. For example Neighbourhood Renewal programmes which focus on the most deprived areas and give practitioners and local communities a real opportunity to turn their neighbourhoods around; the Department for Education and Skills (DFES) through their work on schools and parenting contribute to preventing problems escalating and ensuring families get the support they need; the Department for Environment, Food and Rural Affairs (DEFRA) and their work in tackling litter and fly tipping which can often blight neighbourhoods where antisocial behaviour and crime can take hold; and the Department for Culture, Media and Sport (DCMS) who provide the opportunity to divert young people from the destructive and damaging involvement in antisocial behaviour. The Departmental for Constitutional Affairs (DCA) also contributes to ensure a swift and effective criminal justice system for dealing with the perpetrators of anti-social behaviour activity.

Please see the following table.

Financial year 2005-06	*£ million*
Funding scheme	
Building Safer Communities Fund	74
Safer Stronger Communities Fund	9.4
Youth Justice Board Prevention Budget	12
Positive Futures	5.8
Anti-Social Behaviour Trailblazer/Action areas	5.9
Total funding	107.1

Lynne Featherstone: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued by courts in each London borough in each month since the penalty was introduced; how many have been breached; how many breaches resulted in custodial sentences awarded in *(a)* adult and *(b)* juvenile courts; and if he will make a statement. [39193]

Hazel Blears: The readily available information is by quarter and is given in the table.

The Home Office Court Proceedings Database holds breach proceedings only where there has been a conviction. These data are available at Criminal Justice System area level only.

Number of ASBOs issued at all courts, as reported to the Home Office, where restrictions are imposed within Greater London local government authority areas, by period, 1 June 2000[1] to 30 June 2005 (latest available)

[1] Between 1 April 1999–31 May 2000 data were collected on aggregate numbers only by police force area (pfa). During this period nine ASBOs were issued, as reported, within Greater London pfa.

Note

This local authority area table differs from criminal justice system area (cjsa) tables in that an issuing court can be outside the area in which the restrictions have been imposed.

Asylum/Immigration

Annette Brooke: To ask the Secretary of State for the Home Department how many families have *(a)* returned and *(b)* taken steps to return to their country of origin as a result of the pilot implementation of section nine of the Asylum and Immigration (Treatment of Claimants) Act 2004; and how many families subject to this pilot have (i) failed to attend stage three interviews, (ii) lost all contact with the relevant authorities and (iii) had National Asylum Support Service withdrawn. [29462]

Mr. McNulty: As at 11 November 2005, of the 116 cases families in the pilot, one family has returned to their country of origin, and 11 others are taking steps to do so. 53 failed to attend their stage three interview and 37 have lost contact with the relevant authorities. 30 families have had National Asylum Support Service (NASS) support withdrawn for section nine reasons. A further 26 families have had, support withdrawn for reasons other than section nine. These figures are not mutually exclusive, as the same families could be included in more than one category.

Lady Hermon: To ask the Secretary of State for the Home Department how many asylum seekers were admitted to Northern Ireland in each of the last 12 months; how many were allowed to remain in the country; and if he will make a statement. [30249]

Mr. McNulty: Over the last 12 months, 12 individuals (excluding dependants) seeking asylum arrived in Northern Ireland.

The following table provides a breakdown on the numbers who arrived in Northern Ireland and claimed asylum on their arrival, for each month, from November 2004 to October 2005.

This information is based on internal management information and, as such, is not published within the official statistics.

Information on how many were allowed to remain in the country is not available and could be obtained only at disproportionate cost.

Number of people (excluding dependants) applying for asylum on arrival at port in Northern Ireland, broken down by month, November 2004 to October 2005

	Number
November	0
December	0
January	0
February	0
March	0
April	1
May	1
June	2
July	0

Number of people (excluding dependants) applying for asylum on arrival at port in Northern Ireland, broken down by month. November 2004 to October 2005

	Number
August	0
September	2
October	6
Total	12

Data are taken from CID.

Mr. Mullin: To ask the Secretary of State for the Home Department what assistance is available to failed asylum seekers' families being returned to *(a)* Angola, *(b)* the Congo, *(c)* Sudan and *(d)* other unstable countries. [32420]

Mr. McNulty: In all circumstances we prefer that failed asylum seekers including families leave the United Kingdom voluntarily rather than have their removal enforced by the Immigration Service, and we promote the benefits of voluntary return to failed asylum seekers.

Failed asylum seekers including families of all nationalities who leave the United Kingdom voluntarily can benefit from the package of reintegration assistance available as part of the Voluntary Assisted Returns and Reintegration Programme (VARRP). This is operated and delivered by International Organization for Migration (IOM) on behalf of the Home Office. Participants in this scheme receive help with re-documentation, flights, and a package of reintegration assistance tailored to meet the needs of the returnees. Depending on the facilities available in the country of origin, IOM typically provide access to vocational training courses, education or assistance in establishing a small business relevant to the locality.

Access to this package of assistance is not available to those who do not leave the United Kingdom voluntarily and subsequently have their return enforced. However in light of the special circumstances in Afghanistan and Iraq only, a package of assistance is available to those whose return is enforced to these two countries.

Mr. Graham Stuart: To ask the Secretary of State for the Home Department how many asylum seekers have been returned to Zimbabwe in the last six months. [33015]

Mr. McNulty: In the six months from April 2005 until September 2005 140 principal asylum applicants were returned to Zimbabwe. A further 20 dependants of asylum seekers were removed to Zimbabwe in the same time period. These figures include people departing voluntarily after enforcement action has been initiated against them and people leaving under Assisted Voluntary Returns programmes run by the International Organisation for Migration. Figures have been rounded to the nearest five and are provisional.

Information on removals of asylum seekers is published on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Andrew Rosindell: To ask the Secretary of State for the Home Department pursuant to the answer of 8 November 2005, *Official Report*, column 339W, on asylum immigration, whether he plans to increase expenditure on dispersal and initial accommodation for asylum seekers over the next two years. [33761]

Mr. McNulty: There are no plans to increase expenditure on dispersal and initial accommodation for asylum seekers over the next two years.

John Bercow: To ask the Secretary of State for the Home Department what *(a)* criteria are used and *(b)* process is followed in selecting failed asylum seekers to be returned to Iraq; and what level of access to legal advice to challenge the decision is provided for those being returned. [36309]

Mr. McNulty: Failed asylum seekers returning to Iraq mostly self select—over 1,000 people have returned over the last three years. During that period we have returned 15 people forcibly—all single males from one of the three northern governates, who had had their asylum claims rejected and who had exhausted the appeals process. As with all failed asylum seekers, all had access to legal advice during the asylum process from the point of making the claim up to their removal from the country.

Ms Abbott: To ask the Secretary of State for the Home Department how many asylum seekers absconded during their asylum application process before a decision on their case had been made in the last year for which figures are available. [37678]

Mr. McNulty: Information on the number of asylum applicants who have absconded is not available except at disproportionate cost by the examination of individual case-files.

Work is ongoing to develop methodology to identify absconders using existing data sources and collate reliable data.

Greg Mulholland: To ask the Secretary of State for the Home Department what guidance his Department issues to local authorities on housing unsuccessful applicants for leave to remain in the UK in the period between their decision hearing and their deportation. [38212]

Mr. McNulty: Schedule three of the Nationality Immigration and Asylum Act 2002 sets out the eligibility of various categories of migrant, including failed asylum seekers who have exhausted all avenues of appeal, for local authority support. The Home Office issued guidance on the implementation of schedule three to Local Authorities and Housing Authorities in December 2002.

Greg Mulholland: To ask the Secretary of State for the Home Department how many failed asylum seekers have been evicted from their homes in Leeds, North-West before being deported from the UK in the last 12 months. [38216]

Mr. McNulty: Between 1 October 2004 and 30 September 2005, 11 people supported by NASS with addresses within the area of Leeds North West had their support stopped following a final negative decision on their claim for asylum.

Responsibility for eviction rests with accommodation providers. NASS does not keep a central record showing the number of evictions which are confirmed. However, NASS pays providers for accommodation occupied by asylum seekers only. Consequently providers are not be paid for accommodation occupied without authority.

Information on the number of unsuccessful asylum seekers who are removed is provided in the quarterly asylum statistics which can be accessed via the following link:

http://www.homeoffice.gov.uk/rds/immigration1.html

The statistics do not show where a person was living prior to removal and this information could only be obtained at disproportionate cost.

Mr. Oaten: To ask the Secretary of State for the Home Department when each pilot of section 9 of the Asylum and Immigration (Treatment of Claimants, etc) Act 2004 was established; how many families have had support withdrawn to date; and how many children have been affected. [37754]

Mr. McNulty: The pilot was established on 1 December 2004 in three Immigration Service local enforcement areas-the North-East, North-West and London.

Under the section nine pilot, support is only withdrawn where a family whose asylum claim has failed has refused, without reasonable excuse, to take steps to return home. The National Asylum Support Service only withdraws a family's support when this can be done without breaching any person's human rights.

From the pilot involving 116 families, there have been 27 families, including 54 children in total, where support has been withdrawn for section nine reasons.

Mr. Oaten: To ask the Secretary of State for the Home Department how many enforcement home visits were carried out by immigration service staff in England and Wales between 1 April 2005 and 30 September 2005. [37897]

Mr. McNulty: Records show that between 1 April 2005 and 30 September 2005 Immigration Service staff conducted 3697 enforcement visits to residential addresses in England and Wales. This is management information only.

Andrew Rosindell: To ask the Secretary of State for the Home Department pursuant to the answer of 28 November 2005, *Official* Report, *column* 26W, on asylum immigration, if he will make a statement on the increase in deportations of failed asylum seekers to Zimbabwe. [37948]

Mr. McNulty: The increase in the number of removals of failed asylum seekers to Zimbabwe was a consequence of resuming enforced returns to Zimbabwe on 16 November 2004. I refer the hon. Gentleman to my statement of 14 December 2005, *Official Report*, columns 153–54WS for the latest position.

Police Training Centres

Helen Jones: To ask the Secretary of State for the Home Department whether his Department was consulted on the timing of the announcement by Centrex that they were to close the police training centres at Bruche, Ashford and Cwmbran; and whether any person in his Department expressed an opinion to Centrex on that timing *(a)* verbally and *(b)* in writing. [16894]

Hazel Blears: The timing of the announcement of the closure of Bruche, Ashford and Cwmbran relates only to the timing of the scheduled Centrex board meeting on 21 July.

As these are Centrex sites, the decision to sell them after they cease to provide foundation training at the end of May 2006 is a decision for the Centrex board. It would not have been possible to make an announcement before the board had made a decision and, given that the closure has implications for individuals' jobs from May 2006, it would not have been right to delay the announcement until after parliamentary recess.

The Home Office has a representative on the Centrex board and a Home Office official was therefore present at the board meeting on 21 July. The timing of the announcement, and the manner in which it would be conveyed to Centrex employees first, and then publicly, was agreed at the board meeting. The Home Office representative at the board meeting was party to this decision and Ministers were made aware of the decision immediately after the meeting and before the announcement was made.

Burglary Prosecutions

Miss McIntosh: To ask the Secretary of State for the Home Department how many successful prosecutions there have been for burglary in each of the last seven years. [30477]

Hazel Blears: The available information from the Home Office Court Proceedings Database showing the number of Convictions for Burglary at all courts, England and Wales, 1998 to 2004, is provided in the following table. Recorded crime figures show that the number of burglaries has fallen by 32 per cent. from 1998–99 to 2004–05.

Number of found guilty of burglary, England and Wales 1998–2004[1]

	Found guilty
1998	30,769
1999	29,261
2000	26,222
2001	24,802
2002	26,691
2003	25,726
2004	24,252

[1] These data are on the principal offence basis.

Source:
RDS—Office for Criminal Justice Reform

Car Number Plates

Mark Tami: To ask the Secretary of State for the Home Department how many *(a)* convictions and *(b)* prosecutions for theft of car number plates there were in England and Wales in each of the last five years. [37450]

Hazel Blears: Theft from a motor vehicle is an offence under Section one of the Theft Act 1968.

It is not possible from the data collected on the court proceedings database held by the Office for Criminal Justice Reform to identify those offences which relate solely to the theft of car number plates from other thefts from a vehicle, as the data is not collected at this level of detail.

Citizenship Tests

Mr. Oaten: To ask the Secretary of State for the Home Department how many centres carry out the British Citizenship Test; where they are located; what arrangements are made for the administration of the test; if he will list the contracts his Department has awarded to carry them out; and what system is used to monitor the quality of staff carrying out the test. [38126]

Mr. McNulty: 89 centres across the UK are currently offering the test, which is taken electronically, and 11 more will be added in January. Applicants can find their five nearest test centres by entering their postcode in the appropriate section of the Life in the UK Test website (www.lifeintheuktest.gov.uk) or by telephoning the test helpline on 0800 0154 245. The helpline is available from 8 am until 10 pm every day, including bank holidays.

The contractor for the development and administration of the test is Ufi Ltd., which itself has entered into contracts with test centres. Test centre supervisors have received full training in the use of the test system and tests are carried out in accordance with the British Standards Institution code of practice for the use of IT in the delivery of assessments. Test centre and test supervisor performance is monitored and annual quality inspection visits will be undertaken to ensure that the required standard is maintained.

Combating Crime

David T.C. Davies: To ask the Secretary of State for the Home Department what representations he has received from small police forces on their ability to cope with terrorism, drugs and organised crime. [35188]

Hazel Blears: Following the publication of the Her Majesty's Inspectorate of Constabulary report "Closing the Gap" the Home Secretary met with Chief Constables and Chairs of Police Authorities on 19 September and started a process for Forces and Authorities to identify how they would address the issues raised in the report including issues surrounding drugs, terrorism and organised crime. This proposal is on-going and only draft responses have been received to date. The Home Secretary will report to the house at an appropriate time.

David T.C. Davies: To ask the Secretary of State for the Home Department what inquiries have been undertaken by the Home Office to determine the effectiveness of *(a)* small and *(b)* large police forces in (i) England and (ii) Wales in combating (A) drug crime, (B) terrorism and (C) organised crime. [35189]

Hazel Blears: During the course of 2005, in response to a request by the Home Secretary, Her Majesty's Inspector of Constabulary Denis O'Connor undertook an assessment of every police force in England and Wales in relation to their capability and capacity to deliver seven 'protective services'. These protective services are:

Counter Terrorism and Extremism
Serious and Organised Crime
Major Crime
Civil Contingencies and Emergencies
Critical Incidents
Public Order
Strategic Roads Policing

The results of this assessment are contained within the Her Majesty's Inspector of Constabulary's report 'Closing the Gap'. Essentially the assessment identified that while leadership and organisational experience were also influencing factors, generally the larger forces were more prepared and able to provide a more proactive 'predict and prevent' approach to these types of crimes and incidents, whereas smaller forces tended to react to incidents as they occur. In particular, those forces with more than 4,000 police officers or 6,000 total staff had greater opportunity to adopt a more proactive stance.

Community Support Officers

Chris Ruane: To ask the Secretary of State for the Home Department how many community support officers there are in each *(a)* county and *(b)* constituency in Wales; and what the proposed change in each number is for each of the next three years. [39298]

Hazel Blears: The table sets out the number of community support officers (CSO) for each police force in Wales and the number of CSOs in each basic command unit for each force on 30 June 2005. Information on CSO numbers is not available at parliamentary constituency level. Also included in the table are the proposed CSO allocations for each of the Welsh forces in 2006–07 and 2007–08 under the Neighbourhood Policing Fund. The allocation of CSOs to individual basic command units is a matter for the chief officer of police.

Community support officers (CSO) in Wales as at 30 June 2005

Force	*Number of CSOs at 30 June 2005*	*Basic Command Units (BCU)*	*Number of CSOs in BCU at 30 June 2005*	*2006–07 proposed CSO allocation*	*2007–08 proposed CSO allocation*

Correspondence

Lynne Featherstone: To ask the Secretary of State for the Home Department when the Minister of State for Immigration, Citizenship and Nationality will respond to the letter from the hon. Member for Hornsey and Wood Green of 14 September on behalf of Miss Kamuna Ngavunu. [37008]

Mr. McNulty: The Immigration and Nationality Directorate replied to the hon. Member's inquiry of 14 September, to the Head of the Member of Parliament Correspondence Section, on 20 December.

Clare Short: To ask the Secretary of State for the Home Department when the Minister for Immigration will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 14 July on behalf of Hemin Mahmood Arif (Home Office reference A1088265, acknowledgement reference B16049/5) and *(b)* 18 July on behalf of Abbas Adele (Home Office reference A1165607). [38115]

Mr. McNulty: The information requested is as follows.

(a) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Arif on 19 December 2005.

(b) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Adele on 19 July 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister for Immigration will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 21 June regarding Abdara Haman Mursalin Khan and Family (Home Office reference K386956, acknowledgement reference B14179/5) and *(b)* 5 July regarding Louakel Ali (Home Office reference A575300, acknowledgement reference B15337/5) [38116]

Mr. McNulty: The information requested is as follows.

(a) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Khan on 19 December 2005.

(b) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Ali on 19 December 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister of State for Immigration will reply to the letters from the right hon. Member for Birmingham, Ladywood, of *(a)* 23 September regarding Amisi Siana (Home Office reference number A1106558, acknowledgement reference B22657/5) and *(b)* of 18 October regarding (i) Mohammed Ilyas Nonil (acknowledgement reference B25061/5) and (ii) Teele Hussain Ahmed (Home Office reference A1021562, acknowledgement reference B24804/5). [38117]

Mr. McNulty: The information is as follows:

(a) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Siana on 16 December 2005.

(b) (i) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Nonil on 16 December 2005.

(ii) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Ahmed on 20 December 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister for Immigration will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 10 October 2005 on behalf of Skender Bregu (Home Office reference B1062371, acknowledgement reference B23904/5), *(b)* 25 October 2005 on behalf of Karim Mohammed Fatah (Home Office reference F1047285) and *(c)* 31 October 2005 regarding the submission of a DNA report by Mr. Abdirizak (Home Office reference M1200006). [38198]

Mr. McNulty: *(a)* Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Bregu on 20 December 2005.

(b) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Fatah on 20 December 2005.

(c) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Abdirizak's on 16 December 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister for Immigration will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 25 October 2005 on behalf of (i) Mary Moukouna Home Office reference M1198475 (acknowledgement reference B25369/5) and (ii) Mohammed Njie (receipt number LR1918021716/1) and *(b)* 3 October 2005 on behalf of Rudolph Bailey (Home Office reference B1053783, acknowledgement reference B23489/5). [38199]

Mr. McNulty: *(a)* (i) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Ms Moukouna on 20 December 2005.

(ii) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Njie on 19 December 2005.

(b) Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Bailey on 16 December 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister for Immigration will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 23 September 2005 on behalf of Jeffrey Tichaendepi Zungunde (Home Office reference DBL06850, acknowledgement reference B22764/5), *(b)* 4 October 2005 on behalf of Skender Caraj (Home Office reference C1023261, acknowledgement reference B23417/5) and *(c)* 11 October 2005 regarding Lucie Bakato Mpunda (Home Office reference M1178507). [38200]

Mr. McNulty: The information is as follows:

(a) Immigration and nationality directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Zungunde on 16 December 2005.

(b) Immigration and nationality directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Cenaj on 19 December 2005.

(c) Immigration and nationality directorate wrote to the right hon. Member for Birmingham, Ladywood about Mr. Mpinda on 20 December 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister for Immigration will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 9 August 2005 regarding (i) Donovan Lawrence (Home Office reference LR1621000699, acknowledgement reference B187931/5) and (ii) Mohamed Kalid (Home Office reference K1126377, acknowledgement reference B18800/5) and *(b)* 6 September 2005 regarding Umme Kulsum (Home Office reference K1205750). [38201]

Mr. McNulty: The information is as follows:

(a) (i) The immigration and nationality directorate wrote to the right hon. Member for Birmingham, Ladywood, about Mr. Lawrence on 16 December 2005.

(ii) The immigration and nationality directorate wrote to the right hon. Member for Birmingham, Ladywood, about Mr. Kalid on 19 December 2005.

(b) The immigration and nationality directorate could not find any record of the letter from the right hon. Member for Birmingham, Ladywood, dated 6 September 2005 about Ms. Kulsum.

Lynne Featherstone: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter of the hon. Member for Hornsey and Wood Green of 7 October regarding a constituent, Mr. Hosam Elseknidy (ref LR141100924X/1). [39277]

Mr. McNulty: The director general of the Immigration and Nationality Directorate wrote to the hon. Member on 22 December.

Court Proceedings Statistics

Mr. Burstow: To ask the Secretary of State for the Home Department pursuant to the answer of 28 November 2005, *Official Report*, columns 32–33W, on court proceedings statistics, if he will publish the statistics due to be published in late November. [35417]

Hazel Blears: Data from the court proceedings database held by the Office for Criminal Justice Reform is given in the following tables. It shows the number of defendants proceeded against at the magistrates' court for abduction and offences of supplying alcohol to persons under 18 and those under the influence of alcohol together with those found guilty for supply of alcohol to under 18s.

Number of defendents proceeded against for certain offences relating to the sale of alcohol, by region1, England and Wales 2004

Offence description	*Statute*	*Region*	*0*
Permitting drunkenness or riotous conduct on the premises or selling liquor to a drunken person	Licensing Act 1964, Sec 172; Licensing Act (Occasional Permissions) Act 1983, Sec 3 (Sch para 6)	North East	1
		North West	3
		Yorkshire and Humberside	1
		East Midlands	—
		West Midlands	2
		Eastern	—
		London	2
		South East	4
		South West	—
		Wales	—
		England and Wales	13
Selling intoxicating liquor to persons under 18 for consumption on the premises[2]	Licensing Act 1964, Sees 169 A&B; Licensing (Occasional Permissions) Act 1983, Schedule (Sec 3) para 4(1)	North East	63
		North West	228
		Yorkshire and Humberside	59
		East Midlands	36
		West Midlands	81
		East of England	31
		London	162
		South East	66
		South West	33
		Wales	82
		England and Wales	841

[1] These data are on the principal offence basis.

[2] includes "Wholesaler selling intoxicating liquor to a person under 18"

Crime

Mr. Hurd: To ask the Secretary of State for the Home Department what recent estimate he has made of levels of *(a)* violent crime, *(b)* car crime, *(c)* robbery and *(d)* burglary in the Ruislip-Northwood constituency; and if he will make a statement. [39455]

Hazel Blears: The information requested is not available centrally for the Ruislip-Northwood constituency. This constituency comes within the Hillingdon basic command unit (BCU) and figures for that BCU are given in the table.

Offences recorded in the Hillingdon basic command unit—2004–05

Offence	*Number of offences*
Violent crime	6,782
Car crime	4,812
Robbery	593
Domestic burglary	2,056

Mrs. Moon: To ask the Secretary of State for the Home Department what research he has commissioned on the level of crime committed in South Wales by those based outside Wales in relation to the proposals for merger of police forces in Wales. [34486]

Hazel Blears: The Home Secretary has not commissioned any specific research for South Wales into people migrating to that force area in order to commit crime.

Larger Strategic forces will be better equipped to deal with level two criminality. The public and local communities will benefit from enhanced provision of protective services and neighbourhood policing.

Dangerous Driving (Wales)

Chris Ruane: To ask the Secretary of State for the Home Department how many offenders were found guilty of causing death by dangerous driving in Wales in each of the last 30 years. [39296]

Paul Goggins: Available data from the court proceedings database held by the Office for Criminal Justice Reform on the number of offenders found guilty of causing death by dangerous driving in Wales 1984–2004 are given in the following table. Data prior to 1984 are not available.

Number of offenders[1] found guilty of causing death by dangerous driving[2] offences in Wales, 1984–2004

	Convictions
1984	34
1985	33
1986	18
1987	25
1988	28
1989	29
1990	19
1991	15
1992	20
1993	21
1994	16
1995	16
1996	20
1997	18
1998	16
1999	21
2000	16
2001	6
2002	14
2003	15
2004	9

[1] These data are on principal offence basis.

[2] Offence under the Road Traffic Act 1988 S1 as amended by the Road traffic Act 1991 s3 and Criminal Justice Act 1993 s67.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for the Home Department how much was spent on advertising by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39108]

Mr. Charles Clarke: The Home Office holds data on central Home Office advertising spend. The following table shows the breakdown since 1997. We do not hold data for other bodies and agencies as this would be of disproportionate cost.

The amount spent by the Home Office on advertising and communications was:

	£ million
1997–98	
Campaigns included recruitment of special constables, fire safety, absent voting and electoral registration	1.4
1998–99	
Campaigns included smoke alarms, recruitment of special constables, crime partnerships and electoral registration	1.8
1999–2000	
Campaigns included chip pan safety, fire safety, recruitment of special constables, European Parliament elections and electoral registration	5.65
2000–01	
Campaigns included fire safety, vehicle crime and recruitment of police officers	28.36
2001–02

Campaigns included acquisitive crime, drugs, recruitment of police officers and domestic violence	10.203

Departmental Publications

Mr. Amess: To ask the Secretary of State for the Home Department what the cost was of producing each of the publications issued by his Department in each of the last five years. [33884]

Mr. Charles Clarke: The costs provided are those recorded by the Central Home Office Communication Directorate which has a centrally managed publications function.

The costs provided are printing costs only. Other costs involved in production e.g. design, artwork have not been recorded centrally.

	£ million
2000–01	3,128,079.64
2001–02	2,994,877.00
2002–03	2,492,883.96
2003–04	2,986,017.11
2004–05	2,619,652.50

It has not been possible to calculate the cost per publication per year. Collection of this data could only be achieved at disproportionate cost.

Departmental Websites

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Brent, East (Sarah Teather) of 3 November 2005, *Official Report*, column 1251W, on departmental websites, what the *(a)* set-up costs and *(b)* running costs between August 2004 and August 2005 were of

(i) www.ask-the-football-fans.gov.uk,

(ii) www.getgunsoffthestreets.co.uk,

(iii) www.good2besecure.co.uk,

(iv) www.secureyourmotor.gov.uk,

(v) www.takingastand.co.uk,

(vi) www.technicaladvisory.co.uk,

(vii) www.thinkuknow.co.uk and

(viii) www.together.gov.uk; and how many (A) unique visitors and (B) visits, as distinct from page views, each received between August 2004 and August 2005. [37924]

Mr. Charles Clarke: The sites in question predate August 2004 and therefore have incurred no set-up costs during the period in question. With regards to running costs the Home Office does not maintain its financial information in the basis you have requested and cannot provide such a breakdown without incurring disproportionate costs. The core websites for the Department have recently been redeveloped in order to begin the rationalisation of the sites held by the Department. It is anticipated that the majority of the websites cited in this question will be integrated into the main Home Office website by the middle of next calendar year. Unique visitor and user sessions for these websites from August 2004 to August 2005 are detailed in the following table.

Unique visitor and user sessions for websites from August 2004 to August 2005

	Unique visitors	*User sessions*
www.ask-the-football-fans.gov.uk	735	826
www.getgunsoffthestreets.co.uk	3,562	3,715
www.good2besecure.co.uk	13,645	15,093
www.secureyourmotor.gov.uk	56,491	59,934
www.takingastand.co.uk	7,551	8,922
www.technicaladvisory.co.uk	688	792
www.thinkuknow.co.uk	194,220	223,575
www.together.gov.uk	82,238	121,787

Disability

Danny Alexander: To ask the Secretary of State for the Home Department whether a Minister in his Department is planned to be nominated to take responsibility for liaison with the Office for Disability Issues; and if he will make a statement. [37089]

Paul Goggins: The Minister for Disabled People, has overall responsibility for the Office for Disability Issues (ODI). She chairs a cross-government steering group which includes ministerial representatives from the Department of Health, Department for Education and Skills, Office of the Deputy Prime Minister, Department for Transport, and Department of Trade and Industry. I am the nominated Minister for the Home Office.

Drug Addicts (Treatment)

Andrew Rosindell: To ask the Secretary of State for the Home Department what definition he uses of minimal force in the context of the pilot scheme in Leeds and West London for the treatment in the community of drug addicts who commit non-violent offences; and whether minimal force includes any threat of physical injury. [39593]

Ms Harman: I have been asked to reply.

The pilot scheme in West London and Leeds magistrates courts is not altering the approach of the courts to sentencing nor introducing any definition of minimal force in relation to the cases within the pilot.

The pilots of a dedicated drug court (DDC) at these sites provide increased continuity of district judge or magistrates from sentence through any reviews of any community order with a drug rehabilitation requirement that may have been imposed. This increased continuity, combined with improved interagency working, is expected to result in an improvement in adult offenders remaining in treatment and successfully completing their orders. The entry point for the DDC is conviction of an adult offender for a trigger offence i.e. an acquisitive crime. The implication of entering the DDC for sentence is that the offender is eligible for a drug treatment order. However, that does not mean that other sentencing options, such as a custodial sentence, are not available

Those sentencing the adult offenders going through the drug court will adhere to current guidelines issued by the Sentencing Guidelines Council on sentencing and on assessing the seriousness of the offence, on community sentences if appropriate, and will take into account any case law relating to minimal force laid down by the appellate courts.

Drunkenness

Chris Ruane: To ask the Secretary of State for the Home Department how many offenders were found guilty of *(a)* drunkenness and *(b)* drunkenness with aggravation in (i) Wales and (ii) each local authority in Wales in each of the last 20 years. [39295]

Paul Goggins: Data from the court proceedings database held by the Office for Criminal Justice Reform on the number of offenders found guilty for drunkenness and drunkenness with aggravation in Wales 1985 to 2004 is given in the table. It is not possible to identify those convicted in each local authority in Wales, as the data is not collected at this level of detail. Court statistics for 2005 will be available in autumn 2006.

Number of offenders found guilty for drunkenness and drunkenness with aggravation in Wales, 1985 to 2004[1]

	Drunkenness[2]	*Drunkenness with aggravation*[3]
1985[4]	n/a	n/a
1986	589	3,258
1987	362	3,398
1988	228	3,480
1989	225	3,228
1990	192	3,102
1991	125	2,387
1992	109	2,255
1993	67	2,126
1994	111	1,577
1995	118	2,527
1996	175	2,979
1997	209	2,779
1998	388	2,872
1999	377	2,405
2000	390	2,135
2001	317	2,037
2002	309	1,647
2003	300	1,505
2004	274	1,635

n/a—not available

[1] These data are on the principal offence basis.

[2] Includes offences under S.12 Licensing Act 1872, Sporting Events (Control of Alcohol etc.) Act 1985 SS.1(4), 1A(4), 2.(2) and S.12 Criminal Justice & Police Act 2001.

[3] Includes offences under S.91 Criminal Justice Act 1967, S.12 Licensing Act 1872, S.174 Licensing Act 1964, S.9(4) Late Night Refreshment Houses Act 1969, S.28 London Hackney Carriage Act 1843, SS.101(1)*(a)*/*(b)*, (4) and (5) Merchant Shipping Act 1995, S.2 Licensing Act 1902 and S.61 Town Police Clauses Act 1847.

[4] 1985 data no longer available due to corruption of the dataset.

EU Committees

Angus Robertson: To ask the Secretary of State for the Home Department how many meetings of the EU *(a)* Committee for the implementation of the Joint Action establishing a programme of exchanges, training and co-operation for persons responsible for action to combat organised crime, *(b)* Committee for the implementation of the incentive, exchange, training and co-operation programme for combating trade in human beings and the sexual exploitation of children and *(c)* Committee for the implementation of the programme of incentives and exchanges for legal practitioners have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved Governments; and if he will make a statement. [38647]

Andy Burnham: The STOP II, Oisin II, Falcone, Hippocrates and Grotius (general and criminal) funding programmes expired on 31 December 2002. Their Management Committees last met on 23 and 24 July 2002 to agree the successful projects for funding for that final year. They have since been replaced by a single funding programme known as AGIS.

The AGIS Management Committee normally meets twice a year; in the spring to discuss the evaluation of bids for that funding year, and in autumn to discuss the draft annual work programme and call for bids for the following year. Therefore the Management Committee met once during the UK presidency, on 21 September 2005, to discuss the basis for AGIS 2006.

Before the meeting the Home Office conducted preparatory consultations with past bidders, stakeholders, agencies and devolved Administrations to discuss the UK's position in the Committee.

The Committee meetings take place in Brussels and are called and chaired by the European Commission, with member states attending in an advisory role. The UK is generally represented at meetings of these Committees by a Home Office official and an official from the UK Permanent Representation to the EU in Brussels.

The composition of the UK delegation is always agreed beforehand and it is possible for Scottish Executive officials to attend meetings of the Committees as part of the UK delegation.

Angus Robertson: To ask the Secretary of State for the Home Department how many meetings of the EU *(a)* Committee on the service in the member states of judicial and extrajudicial documents and on cooperation between the courts of the member states in the taking of evidence in civil or commercial matters, *(b)* committees for the implementation of the programme of exchanges, training and cooperation between law enforcement authorities and *(c)* Committee for the implementation of the incentive, exchange, training and cooperative programme for the prevention of crime have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved Governments; and if he will make a statement. [38825]

Andy Burnham: The Committee relating to the Regulation 1348/2000 on the service in the member states of judicial and extrajudicial documents is separate from the Committee relating to the Regulation 1206/2001 on co-operation between the courts of the member states in the taking of evidence in civil and commercial matters. The European Commission has not called any meetings during the UK presidency of either advisory Committee established under these regulations. However the Council's Civil Law Committee did meet once during the UK presidency to discuss revision of Regulation 1348/2000. This was chaired by an official from the Department for Constitutional Affairs, and an official from the Scottish Executive attended.

The set of five Justice and Home Affairs programmes-STOP II, Oisin II, Falcone, Hippocrates and Grotius (general and criminal)—expired on 31 December 2002. Their Management Committees last met on 23 and 24 July 2002 to agree the successful projects for funding for that final year. They have since been replaced by a single funding programme known as AGIS.

The AGIS Management Committee normally meets twice a year; in the spring to discuss the evaluation of bids for that funding year, and in autumn to discuss the draft annual work programme and call for bids for the following year. Therefore the Management Committee met once during the UK presidency, on 21 September 2005, to discuss the basis for AGIS 2006.

Before the meeting the Home Office conducted preparatory consultations with past bidders, stakeholders, agencies and devolved administrations to discuss the UK's position in the Committee.

The Committee meetings take place in Brussels and are called and chaired by the European Commission, with member states attending in an advisory role. The UK is generally represented at meetings of these Committees by a Home Office official and an official from the UK permanent representation to the EU in Brussels.

The composition of the UK delegation is always agreed beforehand and it is possible for Scottish Executive officials to attend meetings of the Committees as part of the UK delegation.

Angus Robertson: To ask the Secretary of State for the Home Department how many meetings of the EU *(a)* Committee for the implementation of the programme of training exchanges and cooperation in the field of asylum, immigration and crossing of external borders and *(b)* Committee on the system for comparison of fingerprints for the effective application of the Dublin Convention have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [38826]

Mr. McNulty: The Joint Action 98/244JHA of 19 March 1998 introduced a programme of training exchanges in the fields of asylum, immigration and crossing of external borders—the Odysseus programme—which included a Committee for implementation. Odysseus came to an end and was replaced by the Argo programme in 2002, which expanded on the aims of its predecessor to include visas. The Council Decision 2002/463/EC establishing Argo included provision at Article 13 to create a Committee for the purpose of adopting decisions on which actions merit funding.

This Committee last met in November 2003. It has not met during the UK presidency of the EU.

The Committee established by Article 23 of the Eurodac Regulation 2725/2000 on the fingerprint system which now supports the effective application of Regulation EC No. 343/2003 (the "Dublin II" Regulation) has not met. There are no immediate plans for it to do so.

Immigration and asylum matters are reserved subjects and consequently officials from the Scottish Executive are not members of the Committees. A Home Office official and an official from the United Kingdom (UK) Permanent Representation in Brussels would represent the UK at any future meetings of the Committees.

A meeting of the Eurodac User Group took place in Brussels on 13 October 2005 to discuss operational and technical issues. This meeting was chaired by officials from the European Commission. Home Office officials represented the UK.

European Evidence Warrant

Mr. Gauke: To ask the Secretary of State for the Home Department if he will list types of evidence covered in the proposed European Evidence Warrant. [35642]

Andy Burnham: The draft Council Framework Decision on a European Evidence Warrant is still under negotiation. It is intended to cover objects, documents or data required for use in criminal proceedings. The taking of interviews, examinations of the body including obtaining DNA or fingerprints, information obtained in real-time for example through interception or surveillance, and the analysis of objects, documents or data are all currently excluded from the scope of the Framework Decision unless the evidence is already in the possession of the executing authority.

Experience Corps

Mr. Fallon: To ask the Secretary of State for the Home Department why no report has been available on the work of the Experience Corps since March 2004. [40241]

Paul Goggins: The Home Office has not funded the Experience Corps since March 2004 and has not therefore required any report since that date.

Faith Communities (Grants)

Lynne Jones: To ask the Secretary of State for the Home Department what grants his Department has made in each of the last three years to organisations linked to faith communities; for what purposes; and what conditions are attached to funds. [27080]

Paul Goggins: Detailed information on all grants made to organisations linked to faith communities is not held centrally within the Home Office; to gather all of this would incur disproportionate costs. Details of recent grants made by the Communities Group in the Home Office are available.

In 2004–05 the former Faith Communities Unit awarded the following grants to organisations for a range of capacity building projects:

An-Nisa Society (£50,000)

Muslim Council of Britain (£148,160)

The Inter Faith Network (£32,525 and £115,000 strategy grant)

United Religions Initiative (£7,450)

School Development Support Agency (£17,500)

Karimia Institute (£21,750)

British Sikh Consultative Forum (£23,500)

Network of Sikh Organisations (£6,300)

Muslim Youth Helpline (£28,578)

Hindu Council UK (£35,400)

The Festival of Muslim Cultures (£46,000)

In this current year the Cohesion and Faiths Unit have made grants to the following organisations:

Women's National Commission (£83,700)

British Muslim Research Centre (£50,000)

Christian Muslim Forum (£131,000)

The Multi Faith Centre—University of Derby (£48,400)

Tower Hamlets Council of Mosques (£5,000)

All grants awarded by the Home Office are subject to standard conditions (which are the same as those applied to other grants awarded by public bodies) and are conditional on the organisation completing the project within an agreed timescale. The Home Office have also this year launched the Faith Communities Capacity Building Fund. The assessment process is currently under way and we expect that successful organisations will be awarded grants in February 2006.

Fireworks

Chris Ruane: To ask the Secretary of State for the Home Department how many penalty notices have been issued in relation to the illegal use of fireworks by each police force area in Wales since the relevant legislation was introduced. [39294]

Hazel Blears: Offences under the Fireworks Regulations 2004 (made under section 11 of the Fireworks Act 2003) for breach of the national fireworks curfew, the illegal possession of category four fireworks and the possession by a person under 18 of an adult firework attract penalty notices for disorder, as does the offence of throwing fireworks. The offence of throwing fireworks has been included in the penalty notice for disorder scheme since it was introduced nationally during 2004. The offences under the Fireworks Regulations 2004 were brought into the scheme with effect from 11 October 2004. The numbers of penalty notices issued by police force areas in Wales are provided in the table.

Number of penalty notices for disorder issued for fireworks offences, Wales, 2004 and January-August 2005 provisional figures

	Throwing fireworks		*Breach of fireworks curfew*		*Possession of a Category 4 firework*		*Possession by under 18 of adult firework*	
Police force area	*2004*	*January-August 2005*	*2004*	*January-August 2005*	*2004*	*January-August 2005*	*2004*	*January-August 2005*

RDS—Office for Criminal Justice Reform

Imitation Firearms

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have received a prison sentence for carrying an imitation firearm in each of the last five years. [24277]

Hazel Blears: The offence of possessing an imitation firearm in a public place without reasonable excuse was created by an amendment to section 19 of the Firearms Act 1968 which was introduced by section 37(1)*(d)* of the Anti-social Behaviour Act 2003. The new offence came into force on 20 January 2004.

Since the amendment, the sentencing statistics include data on the new offence under a code that also covers airweapons. Therefore we are unable to provide data for imitation firearms alone. In 2004, 358 people were sentenced for carrying a loaded or unloaded imitation firearm or airweapon in a public place. Of these, 29 were given a custodial sentence.

Forensic Science Service

Mr. Sanders: To ask the Secretary of State for the Home Department what the national targets are for the Forensic Science Service; and what the performance of relevant offices in Devon and Cornwall has been against those targets. [38417]

Andy Burnham: The Forensic Science Service (FSS) has a number of national targets; these are set out in the table.

The FSS does not have a laboratory or offices in Devon and Cornwall.

	Measure	*2005-06 targets*
1	Risk adjusted return on capital (ROCE)	15 per cent. ROCE
2	Real reduction in charges versus average earnings index (AEI)	75 per cent. AEI
3	Investment in development work per cent. turnover	10 per cent.
4	External funding for Research and Development	£500,000
5	Percentage of cases with FSS case officer	100 per cent.
6	Deliver training to police and CPS	Customer satisfaction
7	Percentage fast track processing of DNA samples	20 per cent.
8	Average time to analyse and inform customers of DNA intelligence crime scene stain results on database (normal track cases)	[1]5 days
9	Per cent. of target eight delivered in less than 10 days	[1]95 per cent. of intelligence crime stains delivered 10 days
10	Average time to analyse and inform customers of DNA suspect sample results on database (normal track cases)	[1]5 days
11	Per cent. of target 10 delivered in less than eight days	[1]95 per cent. of CJs delivered < 8 days

	Measure	2005–06 targets
12	Per cent. of work delivered in less than 33 days	95 per cent. of work delivered in less than 33 days
13	Maintain ISO accreditation	Maintain accreditation
14	Investors in People	Establish processes and behaviours to retain IIP in 2006–07
15	Maintain diversity programme	Maintain

[1] These figures include one day for the Custodian.

Identity Cards

Lynne Jones: To ask the Secretary of State for the Home Department what estimate the Government has made of the percentage of check points of identity cards that will *(a)* check all the biometrics and *(b)* consist of human face-to-face checks; and whether this has been accounted for in the Government's cost-benefit analysis of the scheme. [20866]

Andy Burnham: Primarily, it will be a decision for the user organisation in question to decide if a biometric verification or simple visual verification is necessary, depending on the transaction and their previous relationship with the individual in question. The Home Office has conducted research with potential users of identity services with regard to preferred types of verification method. This was conducted independently by Taylor Nelson Sofres and the report "Identity Cards—An assessment of awareness and demand for the Identity Cards Scheme" is available in the Library and on the Identity Cards website—www.identitycards.gov.uk

Estimates of the volumes of the different methods the Identity Cards Scheme will offer of verifying identity have been made for the purposes of the business case. Human face-to-face checks, where only a visual verification of the card against the person presenting it is made, are not included in these figures as these do not constitute a check against the register and do not incur any costs.

Immigration Appeal

Mr. Lidington: To ask the Secretary of State for the Home Department what progress his Department has made in handling the immigration appeal submitted by Mrs. J.B. of Aylesbury, reference B1148496; and if he will make a statement. [39239]

Bridget Prentice: I have been asked to reply.

Officials at the Immigration and Nationality Directorate (IND) of the Home Office have confirmed that the appeal of a Mrs. J.B. was received at their Appeals Processing Centre on 12 January 2005.

Appeals arising from a claim refused by the Home Office prior to 4 April 2005 were lodged first, in accordance with the tribunal's procedure rules, with the decision maker before being transferred to the tribunal to be determined by an immigration judge.

The appeal papers are expected to be sent to the AIT within the next five working days. Under current listing arrangements, the appeal will be listed for hearing 28 days after receipt at the tribunal.

Immigration Detainees

Jenny Willott: To ask the Secretary of State for the Home Department how many inter-detention estate transfers of immigration detainees were made in *(a)* 1997–98, *(b)* 2001–02, *(c)* 2002–03, *(d)* 2003–04 and *(e)* 2004–05; how many have been made in 2005 to date; and if he will make a statement. [32900]

Mr. McNulty: The figures for the number of inter-detention estate transfers of immigration detainees in 1997–98 are not available.

In 2001–02, there were 30,334 such transfers, in 2002–03, 35,656; in 2003–04, 41,477 and in 2004–05, 54,670. During 2005 to date 31,730 inter-detention estate transfers have been made. These statistics cover all inter-detention movements of detainees including those from prisons, police cells and port holding rooms into Immigration Removal Centres.

IMPACT

Mr. Oaten: To ask the Secretary of State for the Home Department, pursuant to his answer of 12 September 2005, *Official Report*, columns 2567–68W, on IMPACT, if he will break down the £7.1 million *(a)* spent and *(b)* committed by main budget heading; and if he will make a statement. [38191]

Hazel Blears: The information requested is as follows:

Technical delivery projects: £2,254,000

Programme definition and development of business case: £3,754,000

Central Services and Programme Support: £1,118,000

The above figures relate to actual spend. It is not possible to differentiate retrospectively between spend and commitment at that time.

International Events (Policing Costs)

Pete Wishart: To ask the Secretary of State for the Home Department how much funding, in *(a)* cash, *(b)* real and *(c)* percentage terms, was made available by his Department to (i) the Metropolitan police and (ii) other police forces in England and Wales to fund the policing of international summits, conferences and state visits hosted by Her Majesty's Government since 1997, broken down by event. [38497]

Hazel Blears: The following table shows the extra funding for the policing of international summits, conferences and state visits for police forces in England and Wales since 1997. The Metropolitan Police Service have not received extra funding. They receive a special payment as part of annual police grant, in respect of London's unique national, international and capital city functions.

International Summit		*Force*	*Amount of Government special grant (£ million)* *Cash*	*Real Terms [2004-05 prices][1]*
1998-99	G8 Summit	West Midlands	1.175	1.345

Note:
Full details of the proportion of costs met by grant are unavailable, but have varied with the circumstances of each case.

Internet (Improper Use)

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 12 September 2005, *Official Report*, column 2845W, on improper use of the internet, when he expects all associated contractual activities to be completed for the business case; and what these contractual activities are. [32855]

Hazel Blears: The IMPACT programme (Information Management, Prioritisation, Analysis, Co-ordination and Tasking) is likely to involve tendering for a variety of contracts over the lifetime of the programme which, as reported in the second progress report on the Bichard inquiry recommendations (Home Office, 7 November 2005), may not be completed until 2010, depending on the strategic options chosen.

However, it is intended to publish the existing outline business case, or extracts relating to specific procurements, before then, as commercial sensitivity permits, but it is not presently possible to say exactly when this might be.

LD50 Test

Norman Baker: To ask the Secretary of State for the Home Department what estimate he has made of the number of acute lethal toxicity tests in 2004 involving the LD50 test carried out according to Organisation for Economic Cooperation and Development test guideline 401. [38839]

Andy Burnham: No acute lethal toxicity procedures recorded in the Statistics of Scientific Procedures on Living Animals 2004 (Cm 6713) involved LD50 tests carried out according to the former Organisation for Economic Cooperation and Development Test Guideline 401. Test Guideline 401 was deleted by the OECD on 20 December 2002. A copy of Cm 6713 is in the Library.

Media Monitoring

Philip Davies: To ask the Secretary of State for the Home Department how much his Department has spent on media monitoring activities in each of the last eight financial years. [35639]

Mr. Charles Clarke: Costs are outlined in the following table.

	Gross (£)
2005-06	[1]163,804
2004-05	244,369
2003-04	250,547
2002-03	251,232
2001-02	[2]207,859
2000-01	[3]167,800
1999-2000	123,939
1998-99	125,127

[1] Up to 30 November 2005.

[2] The Home Office press office and the Prison Service press office merged in May 2001.

[3] The Home Office press office was expanded in 2000, following an external consultant's review of its staffing and operation in 1999, to better meet the demands of the media.

Mr. Peter Bolton

Mr. David Jones: To ask the Secretary of State for the Home Department what assessment he has made of the cost to public funds of the prosecution of Mr. Peter Bolton, former deputy clerk to the North Wales Police Authority. [36734]

Hazel Blears: The Home Office is responsible for allocating funding to police authorities but it is for them to decide along with the chief constable how these funds are deployed. The activities of police authorities are subject to scrutiny by the Audit Commission.

National Criminal Intelligence Service

Mr. Dodds: To ask the Secretary of State for the Home Department how many complaints were received regarding the recruitment process for National Criminal Intelligence Service posts at the regional office in Belfast advertised in autumn 2003; and whether changes have been implemented as a result. [38442]

Hazel Blears: Four complaints were received regarding the recruitment process for National Criminal Intelligence Service (NCIS) posts at the regional office in Belfast advertised in autumn 2003.

Following a thorough review, NCIS procedures were revised to ensure all guaranteed interview scheme applicants who met the minimum published criteria would be interviewed.

Mr. Dodds: To ask the Secretary of State for the Home Department what disability recruitment guidelines were applied in the recruitment process for National Criminal Intelligence Service posts at the regional office in Belfast advertised in autumn 2003. [38443]

Hazel Blears: The National Criminal Intelligence Service followed guidance provided by the Equality Commission for Northern Ireland during the recruitment process in Belfast in autumn 2003.

Nationality, Immigration and Asylum Act

Mr. Mullin: To ask the Secretary of State for the Home Department on how many occasions use has been made of the powers available to him under section 58(3)*(b)* of the Nationality Immigration and Asylum Act 2002; and if he will make a statement. [36820]

Mr. McNulty: Since April 2002, 8583 volunteers have returned to their country of origin under the Immigration and Nationality Department's Assisted Voluntary Return schemes. All of these volunteers are received by International Organisation for Migration (IOM) officials in their country of origin. All of them are entitled to receive assistance with their onward domestic transportation. All of the volunteers have received assistance in regard to expenses incurred by or on behalf of a voluntary leaver, or a member of his family or household, on or shortly after arrival in his new place of residence.

Mr. Mullin: To ask the Secretary of State for the Home Department what use has been made of the powers available to him under sections 58 and 59 of the Nationality Immigration and Asylum Act 2002 in relation to persons returned to *(a)* Angola and *(b)* the Congo. [36821]

Mr. McNulty: Under the Voluntary Assisted Return and Reintegration Programme, 78 asylum seekers or failed asylum seekers have returned to Angola, six to Congo (Brazzaville) and 20 to the Democratic Republic of Congo (former Zaire).

Passports

John Mann: To ask the Secretary of State for the Home Department how many passports have been reported *(a)* stolen and *(b)* lost (i) in each of the last three years and (ii) to date in 2005. [32308]

Andy Burnham: The numbers of passports reported as *(a)* lost or *(b)* stolen for the last three years are as follows:

	Combined total	*Lost*	*Stolen*	*Other*
2002	166,358			
2003	184,301			
2004	275,040	212,745	50,737	11,558
2005 (current)	262,645	211,112	42,220	10,313

The figures for 2002 and 2003 are based on applications for replacement passports, and may not accurately reflect all passports that were lost or stolen in those years. The figures for 2004 and 2005 have been collated from new arrangements, introduced from 8 December 2003, that more accurately record the numbers of passports reported to the UK Passport Service (UKPS) as lost or stolen. The figure for 2004 supersedes a figure released in a response to the hon. Member for Brent, East (Sarah Teather) on 18 October. "Other" includes passports reported as damaged or destroyed.

John Hemming: To ask the Secretary of State for the Home Department pursuant to the answer of 24 November 2005, *Official Report*, column 2319W, on passports, how many of those whose passport photographs were rejected were under five-years-old; and whether he plans to change the categories of rejection for the passport photographs of the under-fives. [35957]

Andy Burnham: During the period 12 September to 27 November 2005, 15,441 child passport applications were rejected due to photographic standards for children five and under.

On 21 November 2005, the UK Passport Service (UKPS) simplified its photograph standards for children aged five and under. It remains important that the photograph shows a clear image that is a true likeness of the child, with all facial features clearly visible. However, photographs of children five years and under will be accepted if they show the child smiling or frowning, with their mouth open, their eyes looking away from the camera, and reflection or glare on their glasses. Babies under one year do not need to have their eyes open.

Work is in progress to communicate these simplified requirements to customers. On 22 November 2005 a notice was added to the UKPS website regarding passport photograph standards.

Police

Mr. Gauke: To ask the Secretary of State for the Home Department how the composition of newly established police authorities will be determined following the amalgamation of two or more police forces. [31513]

Hazel Blears: In order to effectively discharge their functions, we envisage strategic police authorities having no more than some 23 members (as in the case of the Metropolitan Police Authority (MPA)).

To maintain democratic legitimacy, I would expect the majority of police authority members to be local councillors, as now. Councillor members will be selected by the constituent county and unitary councils in the police force area. As envisaged in the Policing White Paper 'Building Communities, Beating Crime' we will seek to broaden the skills and experience of police authority members by removing the separate category of magistrate members.

We will work with the Association of Police Authorities (APA) to determine a more streamlined method of appointing independent members. We would expect all police authority members to bring appropriate skills and competencies to the role to enable them to effectively discharge their responsibilities.

We will also strengthen accountability at a local Basic Command Unit (BCU)/Crime and Disorder Reduction Partnership (CDRP) level so that local communities can effectively hold newly developed forces into account. One promising way of achieving this is through the development of local policing boards. The policing boards would be responsible for setting local policing priorities in consultation with communities and holding the BCU commander to account for the delivery of the policing plan for that area.

Mr. Llwyd: To ask the Secretary of State for the Home Department what the evidential basis is for his Department's view that there is a lack of co-operation between *(a)* Merseyside and Cheshire police forces and *(b)* the North Wales police force and the four police forces in Wales. [32907]

Hazel Blears: The consultation process is well under way and once the process has been completed we will carefully assess all options submitted to us and a decision will be made on the preferred option in the new year. As we are in the consultation phase and forces and authorities have not yet worked up business cases outlining their preferred options, we cannot comment on how police forces and authorities are co-operating. The Home Office in its guidance and subsequent correspondence on restructuring to forces/authorities has actively encouraged joint working, collaboration and data sharing on the restructuring programme.

Bob Spink: To ask the Secretary of State for the Home Department what research he has evaluated on the number of people who die as a consequence of police forces not attending an incident in time. [34496]

Hazel Blears: Although the Home Office has not evaluated any research specifically on the number of people who die as a consequence of police forces not attending an incident in time, it has used findings from the Metropolitan police's research: Multi-agency domestic violence murder reviews to inform the development of multi-agency reviews for domestic violence homicide which are to be established as part of the Domestic Violence, Crime and Victims Act 2004.

Mr. Gray: To ask the Secretary of State for the Home Department how many internal communication systems are used by the police forces in the South West; how he would unify them in the event of an amalgamation; and what the cost could be. [35686]

Hazel Blears: As part of developing the options for change police forces and authorities are expected to submit worked up business cases including cost benefit analysis of IT systems. It is up to police forces and authorities to develop how systems will be unified and to calculate the associated costs. The unification will be further worked up in the implementation phase after final submissions from police authorities have been assessed.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many police officers there are per head of population in each police force; and if he will make a statement. [36489]

Hazel Blears: The data requested is available from the 'Police Service Strength publication as at 31 March 2005'. This report was published on 25 July 2005 and is available in the Library of the House and on:

www.homeoffice.gov.uk/rds/pdfs05/hosb1205.pdf

Mr. Amess: To ask the Secretary of State for the Home Department how many resignations there were from each police force in England and Wales for *(a)* medical and *(b)* other reasons in (i) 2002–03 and (ii) 2003–04. [37564]

Hazel Blears: Figures collected by the Home Office on medical retirements and voluntary resignations by force are set out in the following table.

Police officers leaving due to medical retirement or voluntary resignation, by police force area[1].

	31 March 2003		*31 March 2004*	
Police force	*Medical retirements*	*Voluntary resignations*	*Medical retirements*	*Voluntary resignations*
Avon and Somerset	34	55	10	54

Total 43 forces	840	1,969	418	2,187

[1] This table contains headcount figures that have not been published.
[2] These figures are unavailable.

Philip Davies: To ask the Secretary of State for the Home Department what guidance his Department issues to police forces relating to recruitment and promotion of minorities. [37725]

Hazel Blears: The Home Office has not issued specific guidance on the promotion of minority groups. However, the "Breaking Through" Action Plan: Promoting Minority Ethnic Employment in the Police Service was launched by the Home Office in January 2004. In addition, we expect forces to monitor promotions in accordance with their equality employment monitoring duties.

Overall guidance in terms of recruitment procedures is issued as part of the National Recruitment Standards.

In terms of specific guidance to forces on the recruitment of ethnic minorities, we have published a 'Toolkit' for running positive action familiarisation events in July 2005. I will place a copy of this in the Library.

The Home Affairs Select Committee recently looked at whether the law should be changed to allow for positive discrimination. They concluded that the best way forward would be for the police service to work harder within the limits of current legislation through promotion and outreach activities and for the Home Office to explore whether, without changing the law, we could prioritise certain skills and knowledge relevant to policing needs which would have the effect of winning the confidence of communities and would also help to reduce crime and disorder.

We are looking into this with the intention of issuing guidance to forces in April 2006.

Mr. Oaten: To ask the Secretary of State for the Home Department what proportion of officers in the Metropolitan Police carry radios capable of accessing the Airwave network. [37751]

Hazel Blears: This information is not collected centrally.

Mr. Hurd: To ask the Secretary of State for the Home Department what the average response time to an emergency call to the police was in *(a)* Ruislip-Northwood constituency and *(b)* the London borough of Hillingdon in each year since 1997. [40245]

Hazel Blears: Her Majesty's inspectorate of constabulary (HMIC) collects target times for answering 999 calls and the percentage answered within that time at force level only. This data is published in HMICs annual report at http://inspectorates.homeoffice.gov.uk/hmic/about-us/annual-reports.html

Mr. Fraser: To ask the Secretary of State for the Home Department whether additional funding would be available from his Department to the Norfolk constabulary in the event of its merger with other forces. [38862]

Hazel Blears: We will be considering grant arrangements for police authorities in the light of changes to police authority boundaries and of the way the new larger authorities might operate.

I announced details of the provisional police funding settlement for 2006-07 and 2007-08 on 5 December. As part of overall support for policing, I am proposing to take account of prospective force amalgamations when allocating capital grant over the coming two years.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many applicants to the police force in each of the last five years had *(a)* an upper second or better degree, *(b)* a lower second or lower degree and *(c)* no A-level qualifications. [27120]

Hazel Blears: Of the 5,801 applicants who were successful at the national assessment centre between 1 November 2004 and 30 September 2005:

	Number	*Percentage*
Post Graduates	178	3
Graduates	1,791	31
Educated to A-level Standard	2,039	35
Educated to GCSE Standard	1,697	29
No formal qualification	93	1.6

Mr. Jenkins: To ask the Secretary of State for the Home Department what representations he has received from the Staffordshire police force concerning the proposed merger of police forces in the area. [32039]

Hazel Blears: The Home Office has not received any such representations from forces or authorities for force amalgamations. The review announced by the Home Secretary in September is still under way. Final proposals from forces and authorities will be submitted by 23 December 2005. The Home Secretary's written ministerial statement on the 11 November 2005 sets out some emerging options across England and Wales. However, ultimately it will be a matter for the police authorities to determine which options are included in their final submissions.

Mr. Llwyd: To ask the Secretary of State for the Home Department what the evidential basis is for his Department's view that police forces of fewer than 4,000 officers are *(a)* less qualified to deal with organised crime and *(b)* less efficient than large forces; and if he will make a statement. [32919]

Hazel Blears: The information is as follows:

(a) Forces with fewer than 4,000 officers generally do not have the capacity and capability to deal with level two crime including organised crime. Smaller forces can not usually create dedicated major incident teams to deal with organised crime. This is evidenced in work done by both Her Majesty's inspectorate of constabulary (HMIC) and independent experts.

(b) Creating strategic forces should ensure brigading of resources takes place, leading to savings and greater efficiency and effectiveness. Duplication of services such as fire arms team and dedicated murder investigation teams should be avoided. Larger forces should also be able to maintain their neighbourhood policing teams and avoid abstraction of officers to deal with major investigations or incidents elsewhere in the force area.

Mr. Llwyd: To ask the Secretary of State for the Home Department what the evidential basis is for his Department's view that police forces of fewer than 6,000 employees are less efficient than those with higher manning levels. [32920]

Hazel Blears: As part of Her Majesty's inspectorate of constabulary (HMIC) report work was done by independent experts who demonstrated that size is a major factor in determining whether a force can not only perform satisfactorily in protective services but also insulate against underperformance.

HMIC's analysis concluded there is clear and evident statistical data to demonstrate this. A minimum figure of between 4,000 and 5,000 could reasonably be expected to meet demand across the range of activities. The 4,000 figure was chosen as a starting point for restructuring. In light of the above forces with fewer than 6,000 staff simply do not have the critical mass to provide the necessary level of protective services.

Mr. Amess: To ask the Secretary of State for the Home Department what the cost of policing in Southend was in each of the last five years for which figures are available; and how much of the cost was met from *(a)* council tax and *(b)* central Government. [37553]

Hazel Blears: The chief constable of Essex police is responsible for the operational management of the force. I will ensure that he receives a copy of the question and replies to you directly.

Mr. Jenkins: To ask the Secretary of State for the Home Department what the average time was for a disclosure application to be processed by the Metropolitan Police in the last year for which figures are available; and how many disclosure applications are waiting to be processed by the Metropolitan Police. [31792]

Hazel Blears: The average time taken by the Metropolitan Police Service to process a Disclosure application for the year November 2004 to October 2005 was 33.57 days. By 28 November 2005 the number of applications waiting to be processed had dropped to 79,575 applications. The Metropolitan Police have made a number of changes to their IT systems recently which has led to significant and ongoing improvements in the time they are taking to deal with Disclosures referred to them by the Criminal Records Bureau.

Preventing Extremism Together

Mr. Clappison: To ask the Secretary of State for the Home Department what *(a)* role, *(b)* remit and *(c)* structure the Preventing Extremism Together working groups will have following the submission of their reports. [34583]

Paul Goggins: The Preventing Extremism Together working groups were disbanded after their final report was published in November.

Prison/Resorative Justice

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how the effectiveness of *(a)* prison and *(b)* restorative justice is measured; and if he will make a statement. [35445]

Fiona Mactaggart: The effectiveness of prison is subject to measurement by two public service agreement (PSA) targets. The first target is to maintain the level of escapes from prison and prison escorts to less than 0.17 percent. of the prison population and to ensure no escapes of category A prisoners.The most recent data show a rate of 0.025 percent. of the prison population. There has been no escape of a category A prisoner since 1995.

The second PSA target is to reduce the re-offending of offenders discharged from prison or starting community sentences by 5 percent., from a 2000 baseline. This is to be achieved by 2006. The most recent data are for adult offenders discharged from prison or starting a community sentence in 2001 and show a reduction of -1.8 percent. against the target. Owing to the administrative resources involved, these results are based on a sample of offenders from the first quarter of the calendar year.

The most common measure of the effectiveness of restorative justice (RJ) is re-offending rates (measured through reconviction rates, or sometimes re-arrest or re-sanctioning rates) and victim and offender satisfaction. Final results (including reconviction rates) from a large scale evaluation of three RJ schemes will be available in 2007.

Prisons

Mr. Hollobone: To ask the Secretary of State for the Home Department what proportion of the prison population are serving their first custodial sentence. [34423]

Fiona Mactaggart: Information on the proportion of the prison population serving their first custodial sentence is not routinely collated. The Social Exclusion Unit's 2002 report 'Reducing re-offending by ex-prisoners' reported some results from internal Home Office research. This indicated that, in 1999, one third of adult male prisoners were serving their first custodial sentence.

Probation Services

Mr. Allen: To ask the Secretary of State for the Home Department whether faith-based organisations will be able to secure contracts for the end-to-end management of offenders as part of his proposals for reform of the probation service. [37788]

Fiona Mactaggart: Changes to the way in which probation services are provided will result in regional offender managers (ROMs) commissioning services from probation boards from April 2006. As this process develops, and subject to legislation, it is expected that ROMs will commission correctional services from a range of public, private and voluntary and community sector providers.

As part of this process different organisations can seek to provide services, including offender management services. Decisions in every case will be made on merit—on who offers the best service for the money—through impartial and objective evaluation successful bids will need to comply with the terms of the contract.

Quad Bikes

Mr. Iain Wright: To ask the Secretary of State for the Home Department what plans he has to increase the number of quad bikes available to police forces to tackle criminal and antisocial behaviour. [38980]

Hazel Blears: Management of resources, including decisions on procurement of vehicles, are operational matters for the police authority and chief officer.

Racial Hatred

Philip Davies: To ask the Secretary of State for the Home Department what guidance he issues to police forces on dealing with incidents of incitement of racial hatred, with particular reference to cases involving the display of the St. George flag. [37896]

Hazel Blears: While it is not of itself unlawful to display any flag there are legislative powers to deal with those who cross the line from legitimate debate into inciting violence. A Code of Practice on the reporting and recording of racist incidents was issued in 2000. A racist crime and harassment toolkit was published in 2005.

Religious Hatred

Mr. Holloway: To ask the Secretary of State for the Home Department whether he plans to collect centrally statistics on cases of religious hatred. [39525]

Paul Goggins: Incitement to religious hatred is not currently a criminal offence. Should it become so, the number of prosecutions and convictions would be centrally collected.

Rural Crime

Miss McIntosh: To ask the Secretary of State for the Home Department what steps he is taking *(a)* to tackle rural crime and *(b)* to improve detection rates in rural areas. [38172]

Hazel Blears: Effective and responsive policing at neighbourhood level, as well as robust partnership working, are both essential parts of our strategy to tackle crime and to sustain the confidence and trust of the public in all parts of the country.

We introduced the rural policing fund in 2000–01 specifically to enhance the visibility and accessibility of policing in rural areas. 31 police authorities with the most widespread populations have benefited from this additional funding. The annual allocation is £30 million. As part of the provisional police funding settlement for 2006–07 and 2007–08, we have decided to consolidate four specific grants, including the rural policing fund, into a single provision for each police authority to give authorities more control over how this money may be used. We do not intend to abolish or reduce rural grant allocations. Each authority will receive its current level of funding from the four grants.

We have made a commitment that, by 2008, every area in England and Wales, rural as well as urban, will benefit from dedicated neighbourhood policing teams. These will be led by Police officers and involve special constables, community support officers, volunteers and neighbourhood wardens, amongst others.

The Government acknowledges the need to improve sanction detection rates across all police forces. For that reason, a major drive has been under way since last summer with the aim of achieving a significant increase in sanction detection rates. This includes a range of operational improvements intended to build the investigative capability of the police service, together with some targeted support for forces with performance concerns.

Secure Establishments

Ms Keeble: To ask the Secretary of State for the Home Department what the ratio of staff to residents is in *(a)* Home Office secure establishments, *(b)* secure training centres and *(c)* local authority secure accommodation. [33688]

Fiona Mactaggart: In Prison Service juvenile young offender institutions, for each member of staff the number of young people varies between 0.4 and 1.4. (These figures include all staff working in the establishment. Where a juvenile establishment shares a site with a young offenders institute for 18–20 year olds, the ratio is based on the combined figures for both staff and inmates.)

In secure training centres, the ratio of staff directly supervising the young people is: one member of staff to between 2.5 and 3.5 children. In addition, there are custody officers on site to cover admissions, movements and supervision of visits.

In local authority secure children's homes, the ratio of staff directly supervising the young people is: one member of staff to between 1.3 and two children.

Serious Organised Crime and Police Act

Anne Main: To ask the Secretary of State for the Home Department if he will issue guidance on lone protesters in relation to the Serious Organised Crime and Police Act; and if he will make a statement. [38871]

Paul Goggins: No. The Serious Organised Crime and Police Act is clear. Within a public place in the designated area, any person who organises a demonstration, or takes part in a demonstration or carries on a demonstration by himself, is guilty of an offence if authorisation for the demonstration has not been given by the Commissioner.

Sexual Assault Referral Centres

Alison Seabeck: To ask the Secretary of State for the Home Department whether the number of Sexual Assault Referral Centres (SARCs) will be increased; and if he will establish a SARC in Devon. [38551]

Hazel Blears: There are currently 13 Sexual Assault Referral Centres (SARCs) in England and Wales. Additionally, three new SARCs, in Calderdale, Kirklees and Cleveland will be opening in the new year with the support of funding from the Home Office Victims' Fund. We have also made offers of a further three grants, which if accepted, will result in another three SARCs in the next year.

The decision to establish a SARC in a particular area must be made locally as they are funded primarily by partnerships between the local police, health services and the voluntary sector. National Service Guidelines on Developing SARCs, published jointly by the Home Office and Department of Health in 2005 strongly recommend the development of SARCs across England and Wales.

Steven Shingler

Daniel Kawczynski: To ask the Secretary of State for the Home Department if he will examine the case of the hon. Member for Shrewsbury's constituent, Mr. Steven Shingler, with a view to allowing Mr. Shingler's Russian wife to join him in the UK. [34582]

Dr. Howells: I have been asked to reply.

I regret that I cannot provide this information as it is not our practice to disclose details of individual entry clearance cases in a public forum. However, my noble Friend, the Foreign and Commonwealth Office Parliamentary Under-Secretary of State, Lord Triesman of Tottenham, will write to the hon. Member in his capacity of Minister with responsibility for UK Visas about the case shortly.

Stun Guns

Anne Snelgrove: To ask the Secretary of State for the Home Department how many incidents of violence involving the use of stun guns there were in *(a)* England and Wales and *(b)* the South West in each year since 1997. [36668]

Hazel Blears: Statistics for crimes involving stun guns have only been collected separately since April 2004. Full data for 2004–05 is not yet available but will be published in 'Violent Crime Overview, Homicide and Gun Crime 2004–05', in January 2006.

Mr. Amess: To ask the Secretary of State for the Home Department how many people in *(a)* Southend, *(b)* Essex, *(c)* Hertfordshire, *(d)* Greater London and *(e)* England and Wales he has authorised to have stun guns. [37539]

Hazel Blears: Stun guns are prohibited weapons and can only be possessed with the authority of the Secretary of State under section five of the Firearms Act 1968. Only one authority to possess a stun gun has been issued in England and Wales.

In addition, two authorities have been issued for lasers in England and Wales for supply to the police only. The Taser is deployed in 34 police forces in England and Wales, including the Metropolitan Police, City of London Police, Essex Police and the Hertfordshire Constabulary. The Taser is limited to use by Authorised Firearms Officers (AFOs), and in situations where a firearms authority has been given.

It is an operational matter for individual chief officers of police to determine the number of authorised firearms officers in their force. During 2004–05, the

Metropolitan Police Service had 2,134 Authorised Firearms Officers, City of London 89, Essex 202, and Hertfordshire 53.

Tackling Drugs, Changing Lives

Paul Flynn: To ask the Secretary of State for the Home Department what the cost was of the tackling drugs, changing lives conference held between 30 November and 1 December. [38221]

Paul Goggins: The tackling drugs changing lives national conference, which was held over two days, was free to delegates, over a 1,000 of whom attended. The event represented a major milestone in the tackling drugs changing lives campaign, which is a ministerial-led programme supporting direct engagement with key stakeholders and partners responsible for delivering the drug strategy across the country.

The cost to the Home Office of this key event was £311,850.89, a cost per delegate of £304.54.

Terrorism Bill

Mr. Holloway: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) he and (ii) his representatives contacted Kent Police about the Terrorism Bill; and what form that contact took. [37594]

Hazel Blears: I refer the hon. Gentleman to the answer given to a question from the hon. Member for Lancaster and Wyre (Mr. Wallace) on 17 November 2005, *Official Report*, column 1436W. Beyond the contact with Association of Chief Police Officers (ACPO) referred to in that answer, there has been no contact with Kent police about the Terrorism Bill.

UK Jurisdiction

Mr. Salmond: To ask the Secretary of State for the Home Department whether passengers on aircraft which land for a period, but who do not disembark at UK airports, fall within UK jurisdiction for the period they are on UK soil. [35099]

Mr. McNulty: Passengers who remain on board a plane that lands on UK soil, for example to refuel, are regarded as airside transit passengers. Other than the requirement for certain nationalities to hold a direct airside transit visa, passengers are not normally subject to any immigration control until they seek leave to enter the UK.

An immigration officer may examine anyone who has arrived in the UK, including transit passengers not seeking leave to enter the UK.

In England and Wales, a constable may arrest a person without a warrant under section 24 of the Police and Criminal Evidence Act (PACE) 1984. Section 17 provides a constable with the power to enter and search any premises for the purpose of arresting a person for an arrestable offence. An aircraft falls within the definition of premises.

Similar provisions exist in Northern Ireland under Article 26 and Article 18 of the Police and Criminal Evidence (Northern Ireland) Order 1989.

In Scotland, a constable may detain a person without a warrant under section 14 of the Criminal Procedure (Scotland) Act 1995 where he has reasonable grounds for suspecting that a person has committed or is committing an offence punishable by imprisonment. Section 14 does not contain any power to enter and search premises prior to detention without a warrant. If the police are satisfied that there is evidence that a person or persons have committed a crime, they can arrest them without warrant at common law where that is necessary in the interests of justice.

Unsolved Murders

Andrew Rosindell: To ask the Secretary of State for the Home Department pursuant to the answer of 9 November 2005, *Official Report*, column 1784W, on unsolved murders, if he will make a statement on the increase in unsolved murders since 2000-01. [37817]

Hazel Blears: The data previously provided referred to the position as at 22 October 2004, when the data collection had been closed in preparation for the annual publication 'Crime in England and Wales 2003-04: Supplementary Volume: Homicide and Gun Crime'. Subsequent court hearings or other information received will change both the number of deaths recorded as homicides, and the number of these that are unsolved, at a particular time. The number of unsolved homicides each year since 2000-01 should not, therefore, be considered definitive as they are likely to decrease as time elapses.

US Bases (Police Authority)

Sir Menzies Campbell: To ask the Secretary of State for the Home Department what authority UK police forces have in United States military bases situated in the United Kingdom; and if he will make a statement. [36910]

Hazel Blears: Police in England and Wales have the authority to exercise their constabulary powers anywhere within the borders of England and Wales. This applies to police in Scotland and Northern Ireland and their respective borders.

Under Article VII of the Agreement regarding the Status of Forces of the parties to the North Atlantic Treaty (SOFA), United States Forces stationed in the United Kingdom have the right to police the premises which they occupy and may take all appropriate measures to ensure the maintenance of order and security on such premises. Where there are no United States policing and security forces present or a significant threat exists from demonstrator activity, the United States Forces have agreed that the Ministry of Defence Police (MDP) can undertake the policing task on their behalf.

The MDP is a statutory British Police Force with constabulary powers as defined in the MDP Act 1987, as amended by the Anti-Terrorism, Crime and Security Act 2001. Although the MDP can exercise these constabulary powers, incidents solely involving United States Forces personnel and associated civilians will normally be handled by the United States authorities in accordance with SOFA.

EDUCATION AND SKILLS

0870 Numbers

Dr. Cable: To ask the Secretary of State for Education and Skills pursuant to the answer of 8 November 2005, *Official Report*, column 443W, on 0870 numbers, what contractual arrangements her Department has for the provision of the non-profit making 0870 lines. [37640]

Bill Rammell: The Department for Education and Skills normally obtains non profit making 0870 lines from its current telephone service provider as a published service offering within that contract. The exception to that policy is where advanced notification has been provided of an impending Machinery of Government change and, in these cases, non profit making 0870 numbers are obtained outside of the normal contractual arrangements in order to ease transition to the new Department.

Ability Grouping

Mr. Gibb: To ask the Secretary of State for Education and Skills how many schools found to be inadequate by Ofsted in 2004–05 were found not to be making appropriate use of ability grouping. [39514]

Jacqui Smith: This information is not available.

Access Arrangements

Miss McIntosh: To ask the Secretary of State for Education and Skills what account is taken by the Children and Family Court Advisory and Support Service of Child Support Agency decisions on payment when advising the courts on access arrangements to the non-resident parent in any particular case. [38886]

Maria Eagle: This is a matter for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the CAFCASS chief executive, will write to the hon. Member with this information and a copy of his reply will be placed in the House Library.

Letter from Anthony Douglas, dated 21 December 2005:

I am writing to you in response to the above Parliamentary Question that you put to the Secretary of State and Education and Skills on 20 December 2005.

It is my responsibility, as CAFCASS Chief Executive, to reply to this particular Parliamentary Question.

Recommendations to the courts are based entirely on the best interests of the child and promoting good quality, and ensuring contact with the non-resident parent where it is safe to do so. Decisions made relating to financial payments would only be considered if they had a direct bearing on the welfare of the child.

I would like to add that CAFCASS is committed to providing a quality service to all its users. CAFCASS believes that the welfare of the child is paramount and any decisions made about a child's future must reflect this principle.

Adult Education (Kent)

Mr. Holloway: To ask the Secretary of State for Education and Skills what funds have been made available in 2005–06 for adult education courses in Kent; and what percentage change this represents over the previous year. [28594]

Bill Rammell: The Government's Skills Strategy, reaffirmed in the White Paper published on the 22 March 2005, sets clear priorities for public funding to support the drive to ensure that employers have the skills they need to be successful, and individuals have the skills they need to be employable and personally fulfilled. Funding for further education (FE) increased by 4.4 per cent. in 2005/06. Funding for non-vocational learning opportunities for adults, delivered mainly through local authority adult education services, has also increased. In 2004/05 we provided over £207 million to the Learning and Skills Council (LSC) in support of this learning. This has risen to £210 million in 2005/06.

This funding will enable colleges and other providers to deliver a wide range of learning opportunities to meet the needs of adults in local communities but those who are able to do so will need to pay higher fees in the future. I set out the Government's priorities for the learning and skills sector and the impact on funding in 2006–07 and 2007–08 on the 21 October 2005 and full details can be found in 'Priorities for Success' on the LSC's website.

Total further education funding allocated by the LSC to colleges and other providers in Kent is £107.67 million in 2005/06-up 5 per cent. on 2004/05. Allocations for individual colleges and providers are available on the LSC's website: www.lsc.gov.uk. The 2005/06 funding allocations for Personal & Community Development Learning (formerly Adult & Community Learning) have been made to providers but have not yet been published by the LSC.

My Department does not hold funding figures for college and other providers in Kent. As the level of funding allocations in local areas relates to the LSC's operational responsibilities, Mark Haysom, the LSC's chief executive, has written to the hon. Member with further details about Kent's 2005/06 funding. A copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 20 December 2005:

I am writing in response to your Parliamentary Question that asked "how many young people in Gravesham have been granted an Education Maintenance Allowance (EMA)?"

Information on the number of young people who have applied, enrolled and received EMA is available at Local Authority level, but not at constituency level. The information relates to academic years.

By the end of October 2005, 7,872 young people in the Kent Local Education Authority area had received one or more EMA payments in the academic year 2005/06 so far During the academic year 2004/05, 5,317 young people in the Kent Local Education Authority received one or more EMA payments

I hope this information is helpful and addresses your question. If you would like further details please contact Chris Bradley at the LSC National Office on 0114 207 4512 or Christopher.bradley@lsc.gov.uk

Adult Guidance Provision

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many adult guidance providers are running at a loss. [25086]

Phil Hope: Information, advice and guidance services on learning and work for adults are delivered by the Learning and Skills Council through an integrated

information and advice service comprising the national learn direct telephone and on-line advice service, and 47 local next step information and advice providers.

Operational matters relating to the performance of these providers are a matter for the Learning and Skills Council (LSC). Mark Haysom the LSC's chief executive has written to the hon. Member and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 16 November 2005:

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills in which you asked how many adult guidance providers are running at a loss. Mr Phil Hope referred your question to the Learning and Skills Council (LSC) for a response to be sent to you directly.

Adult guidance providers in England are funded through a variety of public and private income streams. It is therefore impossible to ascertain how many operate at a loss.

However, as part of the LSC procurement process for the provision of adult information, advice and guidance services—delivered under the brand name 'nextstep'—we undertake a financial risk assessment of potential contractors to ensure financial viability.

The settlement from the 2004 Spending Review in 2004–05 enabled the LSC to invest 34,000,000 in the delivery of information and advice services. There are currently 35 'nextstep'—contractors who subcontract information and advice services to a further 600 organisations (predominantly from the voluntary and community sector).

The majority of these providers also access other public funds such as Jobcentre Plus subcontracted provision and European Social funds in addition to private contracts from employers and individuals.

Adult Learning Inspectorate

Mr. Hayes: To ask the Secretary of State for Education and Skills what representations she received from business groups on the decision to merge the adult learning inspectorate with Ofsted. [40431]

Jacqui Smith: A number of business organisations, including the Confederation of British Industry, the Institute of Directors and the British Chambers of Commerce, responded to the consultation "A Single Inspectorate for Children and Learners". As part of the consultation Tri-Energy Consulting facilitated for the Department [five] focus group discussions on the consultation questions relating to the adult learning inspectorate. They concluded that

"ultimately, respondents were not attached to ALI per se, but to what they felt ALI offered. If this could be offered in a different way-improved upon, even-they would generally be happy."

Agency Staff

Mr. Weir: To ask the Secretary of State for Education and Skills how many staff were employed by non-departmental public bodies and agencies for which she has responsibility in *(a)* total and *(b)* each region and *(c)* London in 2004–05. [35934]

Maria Eagle: The total number of staff employed by Executive NDPBs sponsored by my Department in 2004–05 was 10,671. Numbers for each nation of the UK and English region, including Greater London are listed as follows:

UK	*Number*
England	9,338
Scotland	1,120
Wales[1]	206
Northern Ireland	7
England	
Greater London	1,803
South West	827
South East	733
North West	808
North East	460
West Midlands	1,984
East Midlands	748
East	1,213
Yorkshire and Humberside	762

[1] Under the Children Act 2004, the Children And Family Court Advisory and Support Service (CAFCASS) function in Wales was devolved to the Welsh Assembly Government on 1 April 2005.

Broadcast and Print Media Analysis

Mr. Davey: To ask the Secretary of State for Education and Skills if she will make a statement on her Department's policy on the use of broadcast and print media analysis. [36040]

Bill Rammell: The Department does not have a policy on the use of broadcast and print media analysis.

Building Schools for the Future

Sarah Teather: To ask the Secretary of State for Education and Skills what funding has been allocated to schools in Brent under the Building Schools for the Future programme; and if she will make a statement. [40390]

Jacqui Smith: Building Schools for the Future (BSF) aims to renew all secondary schools in England in 15 waves of investment starting from this year. Brent has been informed that it may expect to start in the programme in waves seven to nine. Prioritisation in BSF is based on the relative educational and social needs of geographical groups of schools proposed by the authority; which in the case of Brent is for a single project for all its secondary schools. Funding is not allocated until authorities start in the programme, and details of their projects, including a strong educational vision which supports Government priorities, are agreed.

Child Protection Offences

Andrew Selous: To ask the Secretary of State for Education and Skills what criteria social services use in deciding whether to refer alleged child protection offences to the police for investigation. [40155]

Maria Eagle: The Government's inter-agency guidance "Working Together to Safeguard Children" states that whenever the social services department encounters or has a case referred to it which constitutes, or may constitute, a criminal offence against a child, it should always inform the police at the earliest opportunity. This will enable both agencies to consider jointly how to proceed in the best interests of the child.

Children with Disabilities

Lynne Featherstone: To ask the Secretary of State for Education and Skills how much funding was allocated for the provision of after school care for children with disabilities in each London borough in each year since 1997; and if she will make a statement. [39059]

Beverley Hughes: We are making funding available to all local authorities and schools up to 2008 to support them in setting up and embedding extended services in mainstream and special schools. The Government do not specify how much of this funding should be spent on disabled children. It will be for individual local authorities, in discussion with all schools in their area, to take a strategic approach to developing access to after school care through schools.

The Extended Schools prospectus issued in June 2005 makes it clear that children with disabilities or special educational needs must be able to access all new services, and schools have a responsibility to ensure this happens. The needs of children in particular schools will vary. Schools will need to work closely with parents to ensure that services are shaped around the needs of children and the wider community.

Class Sizes

Jon Trickett: To ask the Secretary of State for Education and Skills how many children aged between 11 and 16 years are taught in classes with a pupil-teacher ratio of more than one teacher to *(a)* 12, *(b)* 15 and *(c)* 18 pupils. [39226]

Jacqui Smith: Pupil-teacher ratios are not available at class level.

In January 2005 the within school pupil-teacher ratio for maintained secondary schools was 16.7.

Information on the number of pupils in secondary schools, in classes taught by one teacher, by class size is shown as follows.

Maintained secondary schools[1,2]: classes as taught by one teacher[3]: January 2005

England

	Taught by one teacher	
	Number of classes	*Number of pupils*
Classes of size:		
One to12	19,997	156,767
13 to 15	10,077	141,705
16 to 18	13,008	221,974
19 plus	100,413	2,587,573
Total	143,495	3,108,019

[1] Includes middle schools as deemed.
[2] Includes secondary schools with a sixth form.
[3] Classes as taught during a single selected period in each school on the day of the census in January.
Source:
Annual School Census

Jon Trickett: To ask the Secretary of State for Education and Skills how many children aged between five and 11 years are taught in classes in state run schools with a size of more than *(a)* 20, *(b)* 25 and *(c)* 28. [39250]

Jacqui Smith: The age of individual pupils in classes is not collected centrally. The available information is shown in the table.

Maintained primary and secondary schools[1] classes as taught by one teacher[2]—January 2005

England

	Taught by 1 teacher							
	Key Stage 1[3,4]				*Key Stage 2*			
	Maintained primary		*Maintained secondary*		*Maintained primary*		*Maintained secondary*	
	Number of classes	*Number of pupils*	*Number of classes*	*Number of pupils*	*Number of classes*	*Number of pupils*	*Number of classes*	*Number of pupils*

Annual Schools' Census

Compensation Claims

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will list the 10 most frequent types of compensation claims made against the education system since 1997. [39881]

Jacqui Smith: The Department does not collect this information.

Consultants

Ms Katy Clark: To ask the Secretary of State for Education and Skills what change there has been in the use of consultants since the National Audit Office and Department for Education and Skills Internal Audit Report compiled in March entitled Engagement and Use of Consultants in the DfES. [39388]

Maria Eagle: Since the issue of the joint Internal Audit/National Audit Office report a range of steps have been taken to enhance the use and monitoring of consultants. These focus mostly on ensuring that managers are better aware of and comply more fully with best practice, including that sound and properly approved business cases are in place and contracts are robustly managed and evaluated. A Good Practice Guide has been produced, a copy of which is in the House of Commons Library. We are also introducing better arrangements to collect information on

consultants, what they are doing, the classification of costs and the implementation of consultants' recommendations.

Ms Katy Clark: To ask the Secretary of State for Education and Skills when the trade union side in her Department will receive a copy of the National Audit Office and Department for Education and Skills Internal Audit Report compiled in March 2005, entitled Engagement and Use of Consultants in the DfES. [39392]

Maria Eagle: The Department's Trade Union Side are aware that Internal Audit Reports are produced for internal management purposes and are not published. However, emerging findings form the Report were shared with the Trade Union Side in December 2004. An outcome of the report was the publication of a Good Practice Guide on the Engagement and Use of Consultants in the Department. This guidance has been welcomed by the Trade Union Side and is available to all staff via the Department's intranet. A copy of this guide has been placed in the House Library.

Correspondence

Clare Short: To ask the Secretary of State for Education and Skills when she will reply to the letter from the right hon. Member for Birmingham, Ladywood dated 26 October regarding Aston Manor School, Birmingham. [36994]

Jacqui Smith: I responded to this letter on 21 December.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Education and Skills if she will list the former *(a)* buildings and *(b)* land of (i) her Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which her Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by her Department and *(y)* claimed by the Treasury. [40146]

Maria Eagle: The information is as follows:

Land and buildings sold by DfES since 7 May 1997

Property	*Date of disposal*	*Disposal value (£)*
Swindon Skillcentre	1 August 1997	1,435,850
Letchworth Skillcentre	1 October 1998	1,500,000
East Lane House Runcorn	6 May 2003	1,300,000
Total		4,235,850

All of the receipts were remitted to Treasury as Consolidated Fund Extra Receipts.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Education and Skills how much was spent on advertising by *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by her Department in each year since May 1997. [39091]

Maria Eagle: My Department's expenditure on advertising for the last five years is set out as follows:

	Advertising spend (£ million)
1997–98	7.5
1998–99	10.0
1999–2000	11.9
2000–01	23.9
2001–02	16.6
2002–03	11.3
2003–04	16.9
2004–05	11.8
2005–06 (Spend to date)	2.4

All expenditure is exclusive of VAT. It is only possible at disproportionate cost to provide detail of expenditure on advertising for non-departmental public bodies, executive agencies or dependent statutory bodies.

Norman Lamb: To ask the Secretary of State for Education and Skills how many widescreen televisions have been purchased by her Department for use in London Headquarters in each of the last five years; and what the cost was in each year. [39143]

Maria Eagle: The information could be supplied only at disproportionate cost.

Mr. MacNeil: To ask the Secretary of State for Education and Skills how much has been spent by her Department on taxi travel in the 2005–06 financial year; and what proportion of such travel was undertaken in each nation and region of the United Kingdom, including London. [37464]

Bill Rammell: There is no central record of taxi usage and an assessment of the staff time and associated costs could be obtained only at disproportionate cost.

Departmental Publications

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will list the publications from her Department which have been sent to teachers during 2005. [39910]

Jacqui Smith: The Department ceased sending publications automatically to schools in England on a phased basis between April and December 2004. Discussions with Head teachers and detailed research showed that schools wanted to be able to choose the printed publications they needed, when they needed them, and to be able to order multiple copies.

We have given schools this choice by introducing an online ordering system which enables schools to choose whether to download electronic copies or order the paper based publications they need at the right time for them and in the multiples they require. This system is linked directly to the fulfilment service and an existing telephone ordering line. A fortnightly email service to schools informs them of new and important publications.

This has resulted in schools being able to order a wider variety of publications from the Department, putting schools in direct control of what they receive, when they receive it.

Departmental Report

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to her answer of 5 December 2005, *Official Report*, column 940W, on the departmental report, how much funding was received by each of the programmes aggregated under other miscellaneous programmes in table 12.2 of her Department's 2005 departmental report. [38687]

Bill Rammell: The amount of funding allocated in 2005-06 to each programme aggregated under other miscellaneous programmes in table 12.2 of the Department for Education and Skills 2005 departmental report is shown as follows:

	2005-06 plans (£000)
Schools	
Physical Education and Sport	105,000
City Technology Colleges	82,600
Targeted Improvement Grant Excellence in Cities	18,800
School Enterprise Initiative	61,100
Education Action Zones	32,100
Key Stage Central	53,000
Other programmes to Support Secondary Education	14,000
Teaching and Learning: Gifted and Talented Pupils	18,700
Modern Foreign Languages	36,400
Inclusion Programmes (including Behaviour and Aim Higher)	14,600
Music and Ballet Scheme	18,300
British Education Communications and Technology Agency	12,000
Premature Retirement Compensation for Teachers in Voluntary Colleges	11,500
Innovations Fund	10,000
Teachers Pensions—Contractual Costs	9,100
Licensing for School Activities	8,700
School Performance and Accountability—Assessment team	6,400
Assisted Places Scheme	2,500
Research on School Performance	2,500
Energy Savings Trust and Learning Through Landscapes	500
ICT Development and Evaluation	2,000
Teachers' Medical Fees	1,000
Total	520,800
Higher Education	
Student Support Contingency Reserve	132,800
Aim Higher	56,000
Foundation Degree Marketing	18,700
European University—Initiative Subscription	2,800
Europe International Services	1,000
College of Europe Bologna Centre	300
European University Institute Bursaries	300
Student Loans Debt Sale Adjustment[1]	-6,400
Total	205,500
Support for Children, Young People and Families	
Extended Schools	75,000
Vulnerable Children Grant	39,400
Parenting Fund and Activities Supporting Parenting	28,800
Family Fund Trust	22,800
Youth Related Activities	19,800
Special Education Needs including support for Early Years, Communications Aid Project, Disability Tribunal and Non-maintained Special Schools	31,600
Change Fund	14,600
Teenage Pregnancy	12,000
Information Sharing and Assessment	11,800
Disabled Access: Youth Service	8,000
Communication Unit	7,900
Local Authority Capacity and Intervention	6,000
DirectGov	4,700
Section 64 Grant to Voluntary Sector	4,200
Children's Commissioner	3,000
Publicity	3,000
Participation Fund	2,500
Adoption Services	2,000
Invest to Save Funded Children's Agenda Programmes	1,700
Child Contract Centres	1,700
Child Protection Co-ordinators	1,300
Quality Protects Regional Development Fund	1,300
Total	303,100
Further Education, Adult Learning, Skills and Lifelong Learning	
FE Teach Learn Train Bursary	95,900
Student Support	38,000
International Education Programmes	20,300
International Labour Organisation Subscription	9,100
Management Information Across Partners	2,800
Bridging Allowance for 16 to 19-year-olds	1,300
Total	167,800
Activities to Support all Functions	
E-portals	1,400

[1] This represents a gain resulting from an adjustment in the calculation of the student loans debt.

Departmental Staff

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to her answer of 29 November 2005, *Official Report*, column 478W and column 321W, on departmental staff, how much was spent by the Learning and Skills Council on the development of basic skills *(a)* within her Department and *(b)* in all Government Departments in the last year for which figures are available. [36028]

Bill Rammell: Improving the skills of workers who are delivering public services is a key priority for the Learning and Skills Council (LSC) and they secure basic skills provision through a range of sources, including further education colleges, to meet local needs. As the information requested is of an operational nature Mark Haysom, the LSC's chief executive, has written to the hon. Member with further information. A copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 21 December 2005:

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills, where you asked how much was spent by the Learning and Skills Council (LSC) on the development of basic skills a) within her Department and b) within Government departments generally, in the last year for which figures are available. The Parliamentary Question was referred to the LSC by Bill Rammell for me to write to you with further information.

The LSC funds colleges and other education and training providers to provide basic skills training to individuals and employers. Whilst the Council has a strategic interest in the total numbers of individuals undertaking basic skills training, we do not routinely collect data on the employers of individual learners. Therefore the Council has no data on any provision of basic skills training to individuals working within government departments (including the Department for Education and Skills). In addition the Council has no agreement for direct funding of basic skills provision within government departments (including the Department for Education and Skills). Neither are we aware of any direct agreement between any of our funded providers and government departments (including the Department for Education and Skills) for the provision of basic skills.

Mr. Spellar: To ask the Secretary of State for Education and Skills how many civil servants in her Department worked from home for at least one day a week in the last year for which figures are available. [40292]

Maria Eagle: My Department does not monitor the number of staff who work from home centrally and the information could be obtained only at disproportionate cost. However, within the newly launched 10 point plan "Delivering a Diverse Civil Service" there is senior leadership commitment to work life balance and all senior civil service (SCS) and feeder grade posts should be available on a flexible working pattern basis unless robust and objective justification is provided.

Disabled Workers

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what plans she has to expand skills training for disabled workers in Coventry; and if she will make a statement. [29331]

Phil Hope *[holding answer 21 November 2005]:* More people than ever before with self-declared learning difficulties and/or disabilities are now engaged in LSC funded education and training with 579,000 learners across the post-16 sector in 2003–04 at a total cost of around £1.3 billion. We want to work closely with the LSC to continue to break down the barriers that people with disabilities face in accessing quality training. The Learning and Skills Act 2000 places a statutory duty on the Learning and Skills Council (LSC) to promote equality of opportunity between persons of different racial groups, men and women, and between disabled and non-disabled. To support that work, the LSC has introduced Equality and Diversity Impact Measures as a planning tool to promote greater equality of opportunity in both fair access to and outcomes from publicly-funded training.

Earlier this year, in our White Paper "Skills Getting on in business, getting on at work" we outlined how the LSC is providing capital funding to support colleges and training providers in making the necessary changes to their accommodation, in order to improve access for disabled learners.

However, responsibility for the planning and funding of skills training in Coventry, including skills for people with disabilities, is the responsibility of the LSC. Mark Haysom, the council's chief executive, has written to my hon. Friend with further information. A copy of his letter has been placed in the House Library.

Letter from Mark Haysom, dated 5 December 2005:

I am writing to you to follow up the Secretary of Stated answer to your recent Parliamentary Question regarding plans to expand training for disabled workers in Coventry.

I know that you have recently met again with Mike Bell, the Executive Director for Coventry and Warwickshire to discuss our plans for transforming the LSC. I believe you agreed to meet with Mike after Christmas for a further update on this topic but I know he will be happy to meet with you sooner if you want further details on our plans for provision for learners with disabilities in Coventry and across the West Midlands.

I am enclosing a copy of the Strategic Review the Secretary of State referred to in her written answer to your question. This was carried out by Coventry and Warwickshire Learning and Skills Council earlier this year and is now being implemented. Mike and his colleagues will be happy to discuss the detail with you.

I would, however, like to draw your attention to a few points that might help inform a local meeting.

We have increased our overall budget for learners with learning needs and disabilities from £138 million to £157 million for 2006–2007 and this will increase again to £181 million in 2007–2008, rises of 14% and 15% year on year from 2005. These rises are significantly greater than the overall increase in our budget over the same period, which increases by 3% and 5%.

We are making this additional investment in response to the national review of support for learners with disabilities carried out for us by Peter Little. While the review is still out for consultation and we will need to agree nationally how the LSC's expenditure on learning is matched by what other agencies pay for by way of social and domestic support, we acknowledge that our own contribution must rise. This is because the overall numbers of learners with disabilities are rising as medical advances continue.

At a time when numbers of young people are falling and 80% of the workforce of 2010 is already in the labour market we regard it as essential that the aspirations and abilities of all learners are supported and developed. Budgets will shortly be allocated to regions and local LSC's, which will then be able to plan support for next year. Coventry and Warwickshire's local review will be of great help to them in allocating resources appropriately.

We want to get the best support for learners with disabilities by making better use of specialist provision across regions. Mike is leading on this work in the West Midlands and has already begun a review in partnership with the Royal National Institute for the Blind to look at how we better support this particular group of learners. The same approach will apply to a wider review of all specialist support.

We are also working with MIND to appoint specialist coordinators to help us work with learners with mental health problems, which will also improve our ability to meet their needs.

Coventry and Warwickshire LSC chairs the Employment sub-group of the Coventry Learning Disabilities Partnership Board. This group includes representatives from Jobcentre Plus, Connexions, Social Services, Mencap and Henley College and has developed a strategy to improve access to employment for people with learning disabilities.

The local LSC is also working as part of the newly-formed Children and Young People's Partnership for Coventry to improve progression for younger learners with disabilities into adulthood and employment.

I will ask Mike to contact you to as soon as possible arrange a meeting to discuss both these issues, and the detail of your question regarding the effectiveness of vocational education.

Mike will give me feedback once he has met with you, but if you would like any further information before or after your meeting please do contact me.

Drinking Water

Dr. Stoate: To ask the Secretary of State for Education and Skills (1) what measures her Department is taking to improve the access of *(a)* primary and *(b)* secondary school students to fresh drinking water; [39527]

(2) what guidance her Department issues to local authorities regarding the provision of drinking water facilities in *(a)* new build schools and *(b)* refurbished schools. [39529]

Jacqui Smith: The Education (School Premises) Regulations 1999 apply to all existing and new schools maintained by a local education authority: that is, to nursery, community, community special, foundation, foundation special and voluntary schools, and to pupil referral units. These require that a school shall have a wholesome supply of water for domestic purposes,

including a supply of drinking water. The Regulations do not specify how drinking water should be provided for pupils. However, in our guidance note "Standards for School Premises" (DFEE 0029/2000), we say that those responsible should consider the pattern of demand within schools, which can be concentrated within quite short breaks.

We give further advice on drinking water supplies in Building Bulletin 87, "Guidelines for Environmental Design in Schools" (2nd Edition Version 1-May 2003). This gives technical guidance, but also makes it clear that adequate supplies of wholesome drinking water should be accessible to staff and pupils throughout the school day. In addition, it states that all water outlets should be labelled as "Drinking" or "Not for Drinking".

Dr. Stoate: To ask the Secretary of State for Education and Skills if she will make it her policy to ask each primary and secondary school to draw up a school hydration policy, setting out the measures it will take to improve access to fresh drinking water in the school, promote water awareness amongst students and encourage sustainable use of water resources. [39528]

Jacqui Smith: We are aware of the importance of children drinking water during the school day and the benefits that it brings. The interactive Food in Schools Toolkit, published jointly by Department of Health and DfES, provides a wide range of guidance, resources and interactive tools to inspire and support schools in taking a whole school approach to healthy eating and drinking, including water provision. The 'Water Provision' guidance supports schools in reviewing and improving current provision and in promoting water consumption.

The Cross Departmental "Healthy Living Blueprint", issued to all schools, brings together all government advice and examples of best practice about healthy eating and drinking in schools. It provides schools with advice on how to improve children's approach to food and drink and exercise, and shows how developing whole school approaches can help bring about significant improvements to the health of children.

Healthy School Lunches guidance, published by the DfES, contains the Secretary of State's expectation that drinking water should be available to all pupils every day, free of charge. This view is mirrored in the 'Healthy Living Blueprint for Schools', which states that,

> "all pupils should have access to drinking water at all times at a number of points around the school, preferably not from taps in the toilets. Pupils should be permitted to carry water with them and consumption encouraged both in class and during break and lunch time".

The School Meals Review Panel (SMRP) made a reference to drinking water in recommendation 7 of their report-Turning the Tables: "There should be easy access to free, fresh, chilled drinking water throughout the school day (paragraph 2.32)". The consultation closed on 31 December 2005 and officials are now collating the responses.

It is the responsibility of headteachers and school's governing bodies to decide when water should be made available. We consider that they are best placed to make these decisions in their role of having responsibility of the day to day running of the school and with their knowledge of the individual circumstances of their pupils.

Education Model (Sweden)

Dr. Kumar: To ask the Secretary of State for Education and Skills what research her Department has commissioned into the Swedish education model. [37782]

Bill Rammell: The Department, alongside education authorities in Sweden and other member countries of the OECD and the EU, commissions regular international studies of educational attainment from several multilateral research bodies. The picture of the Swedish education system's performance that emerges is mainly strong. Particular strengths are in primary-age reading and in adult literacy; for both, Sweden came first in international studies. For literacy among secondary school pupils Sweden does well but is not one of the leaders, and mathematics performance is average by OECD standards.

From time to time the Department commissions its own studies of education in other countries, covering aspects of the Swedish model. Because of its strong adult education tradition, Sweden has been chosen as one of the exemplar countries for a study entitled "International Comparisons in Further Education", now under way and due to report by mid-February 2006.

It is not possible to ascribe Sweden's success for certain to the nature of its education system. The Swedish model is broadly similar to that of other Nordic countries, at least as regards schools: start of compulsory education at age 7; all-through schools to age 15; pupil testing to standards determined at school rather than national level; and a high degree of decentralisation across the entire system. Swedish and Finnish performance is consistently strong, while Denmark and Norway with similar systems have mixed results.

Educational Psychologists

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of educational psychologists in English schools have a doctorate in psychology. [39505]

Maria Eagle: This information is not collected centrally.

Educational Trips

Jeremy Corbyn: To ask the Secretary of State for Education and Skills if she will take steps to assist families on low incomes, including those above the income support threshold, with the cost of educational trips. [40366]

Jacqui Smith: The consultation on the education outside the classroom manifesto, which endorses all pupils having the opportunity for high quality out-of-classroom educational experiences, will finish at the end

of January 2006. The ten working groups will make proposals for action early next year. No decisions have yet been made on assistance for families on low incomes.

Engineering Apprenticeships

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many people have *(a)* begun and *(b)* successfully completed apprenticeships related to engineering in each of the last five years for which records are available. [30116]

Phil Hope: Figures for those starting and successfully completing apprenticeships in engineering and related occupations funded by the Learning and Skills Council (LSC) derive from the Individual Learner Record (ILR). This was collated for the first time in 2001/02 (as an Interim ILR) and comparable completions figures are available for the three years from then.

(a) Table 1 shows the number of starts on apprenticeships or NVQ training done within a work-based learning programme in engineering, technology and manufacturing.

Table 1: Number of starts in LSC funded WBL provision in engineering, technology and manufacturing

	2001/02	2002/03	2003/04
Advanced Apprenticeships	16,200	16,600	20,600
Apprenticeships at level 2	8,000	11,400	15,400
NVQ training	7,700	6,400	4,100
Total—any framework or NVQ	32,000	34,400	40,100

Note:
Numbers may not add to totals due to rounding.

(b) Table 2 shows numbers (and proportions) of learners who successfully completed LSC funded apprenticeships or NVQ training done within a work-based learning (WBL) program in engineering, technology and manufacturing.

Table 2: Number of successful completers of LSC funded WBL provision in engineering, technology and manufacturing

	Framework (A)		*NVQ only (B)*		*NVQ successes (A + B)*		*Total learners*
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*
Advanced Apprenticeships 2001/02	5,100	35	1,200	8	6,300	44	14,500
Advanced Apprenticeships 2002/03	6,600	45	1,000	7	7,600	52	14,600
Advanced Apprenticeships 2003/04	6,200	43	1,000	7	7,200	50	14,600
Apprenticeships at level 2 2001/02	1,300	19	900	13	2,200	32	6,900
Apprenticeships at level 2 2002/03	1,900	24	1,100	14	3,000	38	7,800
Apprenticeships at level 2 2003/04	2,800	30	1,100	12	3,900	42	9,400
NVQ training 2001/02			4,000	43			9,100
NVQ training 2002/03			3,300	44			7,600
NVQ training 2003/04			3,000	62			4,800
Total—any framework or NVQ 2001/02					12,500	41	30,600
Total—any framework or NVQ 2002/03					13,900	46	29,900
Total—any framework or NVQ 2003/04					14,100	49	28,700

Note:
Numbers and percentages may not add up to totals due to rounding

EU Committees

Angus Robertson: To ask the Secretary of State for Education and Skills how many meetings of the EU *(a)* Socrates Committee, *(b)* Erasmus sub-committee, *(c)* Comenius sub-committee, *(d)* Tempus Committee, *(e)* Leonardo da Vinci Committee and *(f)* Advisory Committee on vocational training have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement. [38644]

Jacqui Smith: The EU Socrates Committee, the Leonardo da Vinci Committee and the Comenius sub-committee met once each during the UK's presidency of the EU, and there was also one meeting of the Advisory Committee on Vocational Training (ACVT). In addition, there was a joint meeting of the Socrates and Leonardo da Vinci Committees. The Erasmus sub-committee also met once but UK officials were not able to attend as a result of a transport strike in Belgium. There was no meeting of the Tempus Committee.

The United Kingdom was represented by officials of the Joint International Unit for the Department for Education and Skills and Department for Work and Pensions, and an official from the Department for Education and Skills also attended the ACVT meeting. Officials of DG Education and Culture presided over all the meetings. The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Angus Robertson: To ask the Secretary of State for Education and Skills how many meetings of the EU *(a)* Committee for the implementation of the Community action programme concerning co-operation policy in the youth field, including European voluntary service and youth exchanges within the Community and with third countries, *(b)* Scientific and Technical Research Committee and *(c)* Euratom Scientific and Technical Advisory Committee have taken place during the UK

presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved Governments; and if she will make a statement. [38645]

Jacqui Smith: The EU Youth Programme Committee met once during the UK's Presidency of the EU. Officials of the DG Education and Culture presided over the meeting. The United Kingdom was represented by officials of the Joint International Unit for the Department for Education and Skills and Department for Work and Pensions.

The other committees fall within the responsibility of my right hon. Friend, the Secretary of State for Trade and Industry. I understand, however, that the Scientific and Technical Research Committee (CREST) met four times during the UK's Presidency of the EU. Officials from DG Research chaired each meeting. Officials from the Office of Science and Technology and DTI's Innovation Group represented the United Kingdom. The Euratom Scientific and Technical Advisory Committee met once during the UK Presidency. The meeting was chaired by an Italian technical representative. Scientific experts from UKAEA represented the UK.

The UK Government takes into account the views and interests of the devolved Administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved Administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved Administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Angus Robertson: To ask the Secretary of State for Education and Skills how many meetings of the EU *(a)* Advisory Committee on veterinary training, *(b)* Advisory Committee on training in architecture and *(c)* Committee on the second general system for the recognition of professional education and training have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement. [38783]

Jacqui Smith: No meetings of the Advisory Committee on veterinary training or the Committee on the second general system were held during the UK presidency. Two meetings of the Advisory Committee on training in architecture took place during the UK presidency. The meetings were chaired by Dr. James Horan (Head of the School of Architecture at the Dublin Institute of Technology). The representatives, on behalf of all UK countries, were Professor James Low (Head of the School of Architecture of the University of Central England, Birmingham) on 30 September 2005 and Dr. Jon Levett (Head of Education, Architects Registration Board) on 15 December 2005.

Examination Results

Mr. Byers: To ask the Secretary of State for Education and Skills if she will list the secondary schools where *(a)* 10 to 20 per cent. and *(b)* more than 20 per cent. of pupils gained no GCSE or equivalent qualification in the last year for which figures are available, broken down by local education authority; and what percentage of pupils in each school was entitled to free school meals. [38942]

Jacqui Smith *[holding answer 20 December 2005]:* The information, for 2004, is provided in the table.

LA name	*Institution name*	*FSM*[1]
Greater than 20 per cent. of 15-year-old pupils achieving no GCSE (or equivalent) qualifications in 2004

2002/03[4]	15	0.11	50	0.12	1,470	0.14	9,290	0.12
2003/04[4]	21	0.15	72	0.17	1,590	0.15	9,880	0.13

n/a = Not available.
[1] Includes middle schools as deemed.
[2] Includes maintained and non-maintained special schools.
[3] The number of permanent exclusions expressed as a percentage of the number (headcount) of pupils, excluding dually registered pupils.
[4] Some schools are known to have under-reported the number of permanent exclusions in their Annual Schools' Census return, so the Department carried out a data checking exercise at local authority level for which the local authority, regional and England levels are based upon. Information at parliamentary constituency level is based upon returns as recorded by schools, so is known to be incomplete.
Note:
Local authority, regional and national totals have been rounded to the nearest 10.

Annual Schools' Census

Foundation Schools

Mr. Todd: To ask the Secretary of State for Education and Skills how many foundation schools were given notice to improve in each year since 1999. [39306]

Jacqui Smith: Ofsted give a school a notice to improve when they judge that it requires significant improvement. This category came into force on 1 September 2005 and it replaced the previous designation of serious weaknesses. 18 primary and 18 secondary foundation schools went into serious weaknesses during the period 1 September 1999 to 31 August 2005. The breakdown by year is shown in the following table together with the total number of primary and secondary schools found to have serious weaknesses for comparison purposes.

Since 1 September 2005, two primary and four secondary foundation schools have been issued with a notice to improve. This compares with a total of 39 primary and 26 secondary schools that have been placed in this new category.

	Number of foundation schools with serious weaknesses		Number of schools with serious weaknesses	
	Primary	Secondary	Primary	Secondary
1 September 1999 to 31 August 2000	4	2	226	60
1 September 2000 to 31 August 2001	4	2	180	30
1 September 2001 to 31 August 2002	2	3	151	36
1 September 2002 to 31 August 2003	3	3	121	29
1 September 2003 to 31 August 2004	2	3	150	33
1 September 2004 to 31 August 2005	3	5	82	21

Further Education

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what proportion of course provision is allocated to *(a)* A-levels and *(b)* other vocational courses in each college in England. [25000]

Bill Rammell: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). We do not agree specific budgets with the LSC for different types of qualifications or budgets for individual colleges and providers. It is for the LSC to determine the most appropriate balance of investment in learning provision, within the funds allocated to it and within the overall framework set by Government. The LSC works closely with Regional Skills Partnerships to ensure that

emerging skills needs are identified and addressed. Local LSCs agree development plans with colleges to meet the needs of local communities both of learners and employers.

This is a matter for the LSC and Mark Haysom, the Council's chief executive, has written to the hon. Member with the information requested and a copy of his reply has been placed in the Library.

Letter from Mark Haysom, dated 18 November 2005:

Please find enclosed information relating to your recent Parliamentary Question to the Secretary of State for Education and Skills which Bill Rammell has referred to the Learning and Skills Council were you asked 'what proportion of course provision is allocated to a) A-levels and b) other vocational courses in each college in England.

We have provided you with the total number of courses offered in each college, and the proportion of those which are A-levels. The total number of courses includes vocational courses, although we cannot provide details on the number of 'other vocational courses' as there is no specific category for such courses.

Free School Meals

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of pupils attending maintained *(a)* grammar schools and *(b)* comprehensive schools were eligible for free school meals in each year since 1995. [39507]

Jacqui Smith: The information requested is shown in the table.

Maintained secondary schools: number and percentage of pupils known to be eligible for free school meals[1], position as at January each year: England

	Grammar schools	*All other secondary schools[2]*	*Total secondary schools*
1995			
Number on roll	122,270	2,866,680	2,988,950
Number of pupils known to be eligible for free school meals[1]	4,730	534,710	539,440
Percentage of pupils known to be eligible for free school meals	3.9	18.7	18.0
1996			
Number on roll	126,770	2,880,170	3,006,940
Number of pupils known to be eligible for free school meals[1]	4,800	546,110	550,900
Percentage of pupils known to be eligible for free school meals	3.8	19.0	18.3
1997			
Number on roll	127,780	2,909,220	3,036,990
Number of pupils known to be eligible for free school meals[1]	4,730	548,170	552,900
Percentage of pupils known to be eligible for free school meals	3.7	18.8	18.2
1998			
Number on roll	129,410	2,939,620	3,069,030
Number of pupils known to be eligible for free school meals[1]	4,400	532,670	537,070
Percentage of pupils known to be eligible for free school meals	3.4	18.1	17.5
1999			
Number on roll	140,010	2,978,270	3,118,280
Number of pupils known to be eligible for free school meals[1]	4,320	523,020	527,340
Percentage of pupils known to be eligible for free school meals	3.1	17.6	16.9
2000			
Number on roll	144,410	3,033,590	3,178,000
Number of pupils known to be eligible for free school meals[1]	4,070	519,560	523,630
Percentage of pupils known to be eligible for free school meals	2.8	17.1	16.5
2001			
Number on roll	145,670	3,081,300	3,226,970
Number of pupils known to be eligible for free school meals[1]	3,560	506,120	509,680
Percentage of pupils known to be eligible for free school meals	2.4	16.4	15.8
2002			
Number on roll	147,790	3,113,140	3,260,930
Number of pupils known to be eligible for free school meals[1]	3,260	483,090	486,350
Percentage of pupils known to be eligible for free school meals	2.2	15.5	14.9
2003			
Number on roll	150,770	3,157,720	3,308,490
Number of pupils known to be eligible for free school meals[1]	3,160	475,750	478,920
Percentage of pupils known to be eligible for free school meals	2.1	15.1	14.5
2004			
Number on roll	152,650	3,174,150	3,326,800
Number of pupils known to be eligible for free school meals[1]	3,380	473,910	477,290
Percentage of pupils known to be eligible for free school meals	2.2	14.9	14.3
2005			
Number on roll	154,100	3,163,490	3,317,590
Number of pupils known to be eligible for free school meals[1]	3,300	462,220	465,520
Percentage of pupils known to be eligible for free school meals	2.1	14.6	14.0

[1] Prior to 2003 includes dually registered pupils and excludes boarding pupils; from 2003 onwards includes dually registered and boarding pupils.

[2] Includes middle deemed, comprehensive, modern, technical and other secondary schools.

[3] Prior to 2002 numbers of pupils eligible for free school meals were collected at school level. From 2002 onwards these numbers have been derived from pupil level returns.

Note:
Figures have been rounded to the nearest 10.

Annual Schools Census.

GCSEs

Mr. Hayes: To ask the Secretary of State for Education and Skills what proportion of the total number of level 2 GCSE equivalent awards were in vocational subjects for each academic year since 2001–02. [40444]

Jacqui Smith: The available information is given in the following table.

Table 1: Results[1] of 15-year-old pupils[2] in Level 2 qualifications for pupils in all schools by type of qualification

	Number of Level 2 qualifications			
	2004–05[3]	*2003–04*[3]	*2002–03*[3]	*2001–02*[3]
Full Course GCSEs[4]	3,035,800	3,016,800	2,894,300	2,846,200
Short Course GCSEs[4,5]	197,433	192,454	163,045	149,746
GNVQ Full Intermediate[6]	56,888	45,839	33,361	14,318
GNVQ Part one Intermediate	—	—	47,100	38,269
GCSEs in Vocational Subjects[4,7]	54,178	36,503	—	—
Basic Skills	6,193	123	—	—
Key Skills	5,930	6,581	—	—
VRQ	5,823	1,882	—	—
NVQ Language units[8]	287	—	—	—
NVQ	48	14	—	—
Total awards	3,362,580	3,300,196	3,137,806	3,048,533

1. Including achievements by these pupils in previous academic years.
2. Pupils aged 15 at the start of the academic year i.e. 31 August.
3. Figures for 2004–05 are provisional, all other figures are final.
4. Level 2 qualifications include those at grades A*-C for GCSE qualifications.
5. Short course GCSEs are equivalent to ½ Full course GCSE.
6. GNVQ Full Intermediate are equivalent to 4 Full course GCSEs.
7. GCSEs in Vocational Subjects are equivalent to 2 Full course GCSEs.
8. There were no qualifications in NVQ language units prior to 2004–05.

Note:
From 2003–04 a new group of qualifications approved pre-16 were incorporated.

Vocational qualifications include GCSEs in vocational subjects, GNVQs, VRQs, NVQs and NVQ language units.

The following table shows the percentage of level 2 awards in vocational qualifications for each year.

Table 2: Percentage of Level 2 awards in vocational qualifications for pupils in all schools

	2004–05	*2003–04*	*2002–03*	*2001–02*
Number of awards in level 2 vocational qualifications	117,224	84,238	80,461	52,587
Total number of awards in level 2 qualifications	3,362,580	3,300,196	3,137,806	3,048,533
Percentage of awards for level 2 qualifications in vocational subjects	3.5	2.6	2.6	1.7

Government Policy (Media Coverage)

Mr. Davey: To ask the Secretary of State for Education and Skills what analysis her Department has conducted of print and broadcast media coverage of Government education policy in the past 12 months. [36873]

Bill Rammell: The Department does not conduct media analysis of Government education policy.

Graduate Earnings Premium

Greg Clark: To ask the Secretary of State for Education and Skills what monitoring her Department conducts of the Graduate Earnings Premium; and if she will make a statement. [38167]

Bill Rammell *[holding answer 20 December 2005]:* The Department carefully monitors the labour market for graduates, including the earnings premium, using a variety of methods.

Over recent years we have commissioned a series of projects using independent researchers to investigate the wage benefits to different levels of qualifications. In addition, we have recently published "The Class of '99"—a study of the labour market progress of 1999 graduates[1]. The Department also has strong links with relevant members of the academic and wider research community, to ensure awareness of all recent developments in the literature.

The latest evidence seems to indicate a small fall in the graduate premium in recent years. We don' know if this is a temporary reduction to a specific set of recent graduates—but even if confirmed the average premium would still remain comfortably over £100,000 across the lifetime of a graduate, in today's valuation, compared with a similar individual with 2+ A levels.

Serious academics agree that the earnings benefit to a degree remains substantial, and OECD data shows that the UK has one of the highest rates of return to higher education investment by international standards. But evidence also shows that we still need more graduates to meet the economy's future needs: projections suggest that 50 per cent. of the total new jobs required by 2012 are in occupations most likely to demand HE-qualified workers[2].

[1] All research reports are available at www.dfes.gov.uk/research. "The Class of '99" is DfES research report no. 691.

[2] Research entitled "Working Futures", available at www.ssda.org.uk/ssda/PDF/wf-national.pdf

Graduates

Mrs. Dorries: To ask the Secretary of State for Education and Skills how many British students have graduated from universities in England in each year since 1997; what percentage were entrants from *(a)* the state sector and *(b)* the independent sector; and if she will make a statement. [22921]

Bill Rammell: The latest available figures for graduates are shown in the first table. Information for 2004/05 will be available in January 2006. The latest available information on the school background of higher education students covers young (aged under 21) entrants, and is shown in the second table. Figures for 2004/05 will be available in July 2006.

UK domiciled full-time and part-time first degree students graduating from English Institutions

	Graduates
1997/98	192,620
1998/99	196,780
1999/2000	197,460
2000/01	199,545
2001/02	201,215
2002/03	206,350
2003/04	212,570

Note:
Numbers have been rounded to the nearest 5.
Source:
"Students in Higher Education Institutions" published by the Higher Education Statistics Agency (HESA).

UK domiciled young full-time first degree entrants to English Institutions

		Of which proportion from:	
	Total entrants	*States schools and colleges*	*Independent schools*
1997/98	238,350	81.0	19.0
1998/99	229,810	84.4	15.6
1999/2000	229,260	84.1	15.9
2000/01	228,870	85.0	15.0
2001/02	240,080	85.2	14.8
2002/03	251,460	86.4	13.6
2003/04	254,340	86.1	13.9

"Performance indicators in Higher Education" published by the Higher Education Statistics Agency (HESA).

Grammar Schools

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will make a statement on the future of grammar schools. [39918]

Jacqui Smith: We are clear that we are opposed to academic selection and do not wish to see it extended. Primary legislation already prevents the introduction of any new selection by ability and there will, therefore, be no new grammar schools. However, we believe that it is for local people to determine the future of grammar schools where they already exist and we have no plans to change the existing arrangements.

Health and Safety

Mr. Hayes: To ask the Secretary of State for Education and Skills what guidelines her Department has issued concerning the observance of health and safety requirements in order to avoid compensation claims. [39797]

Maria Eagle: DfES issues Health and Safety information to staff through both the Departmental Health and Safety Policy Statement and four Site Safety Policy Statements. These documents set out clearly how health and safety is to be managed and controlled in the Department and the individual responsibilities placed on each member of staff to adhere to the requirements, the emphasis being the prevention of injury.

Key Stage Results

Mr. Gibb: To ask the Secretary of State for Education and Skills what the *(a)* mean and *(b)* median total point score in England was at (i) Key Stage 2, (ii) Key Stage 3 and (iii) GCSE in each year since 1995. [34745]

Jacqui Smith: The mean point scores for Key Stage 2 and GCSE for each year since 1995 are available in the House Library.

The mean point score for Key Stage 3 for each year since 2001 is available in the House Library.

The mean point score for Key Stage 3 for the years 1995–2000 can be provided only at disproportionate cost.

The median point scores for Key Stage 2, Key Stage 3 and GCSE can be produced only at disproportionate cost.

Learndirect

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will make a statement on the inclusion of a Researching Your Ancestors element on the Learndirect website; and how much this has cost. [39868]

Phil Hope: The Researching your Ancestors article was included on the learndirect website to attract users to the site and to get them thinking about learning opportunities relating to the topic. Ufi does not pay to provide links from the learndirect website to other sites, or receive payment from third parties for the inclusion of their material on the learndirect website. All the links from the article on Researching Your Ancestors to other websites are free public information sites.

Mr. Hayes: To ask the Secretary of State for Education and Skills what the cost has been of the Learndirect Advice programme; and how many callers it has dealt with during 2005. [39869]

Phil Hope: Ufi, the organisation which runs the learndirect service, plays an important part in helping the Government deliver its Skills Strategy, by providing widespread access to world class learning through its learndirect e-learning network. In the academic year 2004/05, the latest period for which this information is available, the learndirect information and advice service received funding of £14 million. During this time, a total of 5.9 million web and telephone advice sessions were delivered, of which 789,000 were telephone sessions.

Learning and Skills Council

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills from which budget headings the Learning and Skills Council drew funds to finance the difference between its 2004–05 administration in budget and its actual expenditure on administration. [37120]

Bill Rammell: The total LSC Administration budget for 2004–05 was £248.6 million. This was made up as follows:

£218.4 million allocated as part of the 2004–05 Grant Letter, and a further £30.2 million transferred from the Department during the year. The LSC actually spent £235.3 million, a saving of over £13 million. The following table illustrates this.

The additional £30.2 million Administration budget transferred to the LSC was mainly as a result of technical accounting changes to Depreciation and Cost of Capital Budgets, previously held centrally by the Department. There were also some minor increases to reflect additional work transferred to the LSC.

LSC Administration Budget 2004–05	*£ million*
Initial Grant Letter Allocation	218.4
Increase in Administration Budget in-year	30.2
Administration Budget at year-end	248.6
Administration spend from Accounts	235.3
Administration underspend against Budget	13.3

Mr. Drew: To ask the Secretary of State for Education and Skills how many people are employed by the Learning and Skills Council in Gloucestershire; how many were employed *(a)* at its inception and *(b)* in each subsequent year; and how many people she expects it will employ after the proposed changes have taken effect. [37337]

Bill Rammell: The LSC is embarking upon a major transformation programme that will make it a smaller, more dynamic and more customer-focused organisation. This will build upon its existing strengths; further develop its relationships with providers and with its partners, and help push the highest proportion of its funding out through colleges and providers into front line delivery. At local level, the LSC will develop small teams of professional staff who will support the delivery of its priority objectives through strategic relationships with colleges, providers and other key stakeholders and so ensure that the needs of local employers and learners are met. I fully support the changes the LSC is making as I believe it will help bring about an organisation that is fit for purpose.

The effects on organisation and staffing are matters for the LSC. I have therefore asked Mark Haysom, the LSC's chief executive, to write to the hon. Gentleman with further information. A copy of his reply will be placed in the Library.

Letter from Mark Haysom, dated 21 December 2005:

In his response to a Parliamentary Question that you raised with Bill Rammell (Minister of State for Higher Education and Lifelong Learning) he suggested that I write to you directly to outline, in more detail, the Learning and Skills Council's strategy for agenda for change and its impact on the Gloucestershire Learning and Skills Council.

The overarching purpose of our programme of change is to ensure that we develop a structure which is fit for purpose as we take forward our agenda for change with colleges and other post-16 providers of education and training. Through this process our front-line relationships with colleges will change to become more strategic, focussing more sharply on what we are buying to ensure its relevance to the needs of learners and employers is both enhanced and increased. In examining the organisational structure to deliver this important change agenda, it is clear that we can channel many of the "back room" functions of our business away from local offices and carry out these functions more efficiently through a more substantial regional office. This will reduce duplication and create efficiencies that will, ultimately, enable us to invest an additional £40 million on learning programmes to support our community of learners.

The effect of this change agenda on the Gloucestershire office of the Learning and Skills Council will be to reduce the cadre of staff, freeing them from more routine activities and thus enabling them to spend more time on the strategic relationship with providers and partner organisations. It is important to emphasise that this smaller cadre of staff will be supported by a regional office whose key function will be to undertake many of the important but routine functions.

When the Learning and Skills Council Gloucestershire became operational in April 2001 it had an establishment of 74 full time equivalent posts. Following the Reshaping exercise in April 2004 the establishment stood at 44 posts. Currently there are 47 full time equivalent posts in the Gloucestershire office which, as a result of this reorganisation, will reduce to a cadre of 13 core posts.

I am confident that this reorganisation will enable us to meet the needs of learners, employers, communities and the economy across Gloucestershire.

I am copying this letter to Pauline Bailey, our Acting Executive Director for Gloucestershire, and I am asking her to keep you informed as the reorganisation develops.

Local Authorities/Schools Relationship

Dr. Kumar: To ask the Secretary of State for Education and Skills what assessment she has made of the effectiveness of the working relationship between local authorities and schools since 1997. [37847]

Jacqui Smith: Many local authorities are working effectively with schools and partnerships of schools to raise standards, increase access to education and life chances for pupils. Schools responsibility for driving up standards is reinforced by the New Relationship with Schools, which builds on the freedoms they have increasingly received and also strengthens the changed role of local authorities, which is to challenge and support schools improvement, and, in particular, to intervene to prevent or overcome failure. The recently published White Paper 'Higher Standards, Better Schools For All' continues this direction of travel by building further on and extending school freedoms, and clarifying the new role for local authorities, as commissioner rather than provider. This will be central to the transformation of our school system and to all our reforms across education and children's services.

Local Authority Expenditure

Annette Brooke: To ask the Secretary of State for Education and Skills what discussions she has had with the local authority in Poole on funding services previously financed by the Safeguarding Children Grant under the Local Government Settlement for 2006–07. [40410]

Maria Eagle: We have had a number of discussions with the Local Government Association and Association of Directors of Social Services about the Safeguarding Children's Grant. The grant has always been consistently described as being for 2004–06.

London Challenge New Views Scheme

Jeremy Corbyn: To ask the Secretary of State for Education and Skills (1) how many schools in Islington have been offered the opportunity to participate in the London Challenge New Views scheme; and how many have participated in the scheme; [39613]

(2) what plans she has to extend the London Challenge New Views scheme to other regions of the country. [39614]

Jacqui Smith: The New Views programme of residential visits has been offered to all London secondary schools as part of the London Student Pledge. Every secondary school in Islington has had the opportunity to take part. Eight secondary schools out of the nine in Islington chose to take part in this voluntary scheme.

The consultation on the Education outside the Classroom Manifesto, which endorses all pupils having the opportunity for high quality out-of-classroom educational experiences, including residentials, will finish at the end of January 2006. The 10 working groups will make proposals for action early next year. Decisions have not yet been made on extending New Views outside London.

Mental Health

Mr. Pelling: To ask the Secretary of State for Education and Skills what steps her Department takes to support staff with mental ill-health. [36865]

Maria Eagle: My Department has in place a range of measures to support managers and employees on health and welfare issues. Staff with mental ill-health can access professional counselling and awareness sessions undertaken by the Department's employee assistance provider Right Corecare.

The services of Right Corecare are complemented by internal policies and procedures aimed at ensuring consistent standards of behaviour, enabling fair and prompt mediation in the event of a grievance and through the provision of flexible working options. A number of flexible working options e.g. job share, part-time, part year, compressed hours and home working are available to staff to help them achieve a better work/life balance and to enable them to work effectively within the department.

My Department has developed a draft stress prevention policy based on the HSE Management Standards and is working towards introducing it with supporting procedures early in the new year. Health promotion events and internal communication systems are used to promote occupational health issues including healthy lifestyle options, time management and leisure activities. Leisure activities such as aerobics and the use of on site or local fitness centres are supported and encouraged.

Ministerial Discussions

Dr. Kumar: To ask the Secretary of State for Education and Skills what recent discussions she has had with *(a)* local authorities and *(b)* education specialists in (i) the UK, (ii) the North East and (iii) Middlesbrough, South and East Cleveland constituency. [37779]

Ruth Kelly: I regularly meet many people from all parts of the country, including people from local authorities and education specialists, to discuss a range of issues.

Ministerial Travel

Bob Russell: To ask the Secretary of State for Education and Skills on how many occasions since 7 July she has used the London Underground in connection with her official duties. [35019]

Ruth Kelly: I have not used the London Underground in connection with my official duties since 7 July 2005.

All Ministers in my Department use the most efficient and cost effective mode of transport for official business which is undertaken in accordance with the rules set out in "Travel by Ministers".

Modern Apprenticeships

Mr. Hayes: To ask the Secretary of State for Education and Skills what percentage of people aged 22 years and under had started a modern apprenticeship by 2004; and if she will make a statement. [40439]

Phil Hope: Final figures for the academic year 2004/05 show that 28.1 per cent. of young people started an apprenticeship by age 22 in that year. This is slightly higher than our PSA Target of 28 per cent. and was a great achievement by all involved in the apprenticeship programme, particularly the Learning and Skills Council and training providers. In meeting this ambitious target we have successfully revived apprenticeships as a highly valued learning option following many years of decline.

Mr. Hayes: To ask the Secretary of State for Education and Skills how many people enrolled on advanced modern apprenticeships in each academic year since 2001–02. [40441]

Phil Hope: This information is published in the Statistical First Release "Further Education, Work Based Learning for Young People and Adult and Community Learning—Learners Numbers in England 2004/05", published on 8 December 2005. The document is available from the Learning and Skills Council website www.lsc.gov.uk and copies have been placed in the House Libraries.

Peer Review

Mr. Gibb: To ask the Secretary of State for Education and Skills what peer review process is undergone by the conclusions of research *(a)* commissioned and *(b)* produced by her Department. [39508]

Jacqui Smith: My Department decides whether and how the conclusions of research it *(a)* commissions and *(b)* produces should be peer reviewed on a case-by-case basis. Given the diversity or research conducted, my Department does not consider it practical to have a fixed approach.

PR Companies

Mr. Weir: To ask the Secretary of State for Education and Skills if she will list the public relations companies that have had contracts with *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by her Department and other such organisations since May 1997. [39090]

Bill Rammell: The following list at *(a)* is the public relation companies that the Department have had contracts with:

(a) Ad hoc PR/sponsorship departmental contracts for specific projects/function:

Redhouse Lane—Learning Direct PR, 15 March 1999 to 14 June 1999

Geronimo—Millennium Volunteers PR, 1 October 1999 to 31 September 2000

Geronimo—Age Diversity PR, 4 January 2000 to 31 March 2001

Barclay Stratton—Childcare Recruitment PR, 30 June 2000 to 30 April 2001

Brewer Blacker—Millennium Volunteers sponsorship, 26 November 2001 to 31 March 2002

Premier Consulting—Dads and Sponsorship, 1 November 2001 to 31 March 2002 and 5 June 2002 to 31 December 2002

Pinsents—Business relationships and sponsorship, 16 March 2004 to 31 March 2005

Weber Shandwick—Business relationships and sponsorship, 1 April 2005 to 31 March 2008

Suppliers on a previous framework agreement 6 November 2000 to 30 April 2004:

Coleman Getty

Pure PR

(b) Non-departmental public bodies/executive agencies

Not available except at disproportionate cost.

(c) Independent statutory bodies

This information is not held centrally.

Primary Schools (Haringey)

Lynne Featherstone: To ask the Secretary of State for Education and Skills what the Key Stage 2 results were in each primary school in Hornsey and Wood Green in each year since 2000; and if she will make a statement. [36757]

Jacqui Smith: This information is published on the Department's website at http://www.dfes.gov.uk/performancetables/.

They are also available in the House Library.

Public Service Agreements

Mr. Philip Hammond: To ask the Secretary of State for Education and Skills what timescales have been set for achievement of the 2004 public service agreement target number 5. [29182]

Maria Eagle: PSA target 5 runs until 2008. As set out in the target's accompanying technical note, progress on placement stability will be measured through the DfES annual data collection about looked after children, which measures the position at 31 March each year. Progress on the educational achievement of looked after children is measured each autumn, once the public examination results are available for this group of young people. We are in the process of amending the technical note to reflect this.

Mr. Philip Hammond: To ask the Secretary of State for Education and Skills whether the data required to measure the 2004 public service agreement target number 2 are taken from consistent data sources. [29183]

Beverley Hughes: PSA 2 has three elements. The first element of the target—to increase the stock of Ofsted registered childcare by 10 per cent.—is measured using Ofsted registration data. This is administrative data resulting from the process of registering and de-registering childcare providers. It is available quarterly and has been used to monitor childcare places since 2003.The second element—increase the take up of formal childcare by lower income working families by 50 per cent.—is measured using Households Below Average Income (HBAI) data which is sourced from the Department for Work and Pension's Family Resources Survey (FRS). The third element of the target—introduce, by April 2005, a successful light-touch childcare approval scheme—is measured through data provided by the CAS contractor, Nestor. Nestor are managed under contract by the DfES.

These methods of measurement are the most appropriate for each of the elements and are broadly consistent. Both Ofsted registration data and the FRS track formal childcare although the FRS makes use of a marginally wider definition.

Qualifications and Curriculum Authority

Mr. Gibb: To ask the Secretary of State for Education and Skills what mechanisms the Qualifications and Curriculum Authority uses to monitor examination standards over a period of time. [38471]

Jacqui Smith: QCA has a rolling programme of standards reviews, which began in 1997. The reports are available on the QCA website.

QCA has also established an Independent Committee to advise it publicly on examination standards. A report by the Independent Committee on Examination Standards report was published in December 2004.

Mr. Gibb: To ask the Secretary of State for Education and Skills what plans the Qualifications and Curriculum Authority has for the Independent Committee on Examination Standards; and what consultation it is carrying out with regard to this. [38472]

Jacqui Smith: Two of the three members of the Independent Committee on Examination Standards, Dr. Barry McGaw (Chair) and Professor Caroline Gipps, have stood down from the Committee due to

other work commitments. Dr. McGaw is now working in Australia and Professor Gipps was appointed Vice Chancellor of the University of Wolverhampton. The Committee will be reconstituted next year and QCA will then ask the Committee to undertake a new programme of work, which will be agreed in advance by the QCA Board.

Dr. Gibson: To ask the Secretary of State for Education and Skills what discussions she has had with the Qualifications and Curriculum Authority on its location; and if she will make a statement. [38568]

Jacqui Smith: Ministers and officials have regular discussions with the Qualifications and Curriculum Authority (QCA) on a range of issues, including its location. In response to the Lyons Review, the Department has agreed to relocate out of London and the South East around 800 posts from the Department and its partner organisations by 2010. We continue to work with our partners on their business cases for relocation.

Mr. Gibb: To ask the Secretary of State for Education and Skills what discussions she has had with the Qualifications and Curriculum Authority (QCA) on *(a)* the abolition of the Independent Committee on Examination Standards and *(b)* alternative methods of presenting results of tiered examinations; what the outcomes were of the QCA/departmental risk workshop on 6 September; and if she will make a statement. [38569]

Jacqui Smith: I have had no discussions with QCA on *(a)* the abolition of the Independent Committee on Examination Standards; *(b)* alternative methods of presenting results of tiered examinations.

Officials from the Department and the QCA held a joint workshop on 6 September 2005, to discuss the management of risk in projects and programmes.

Mr. Gibb: To ask the Secretary of State for Education and Skills what methods the Qualifications and Curriculum Authority uses to monitor the effective functioning of its Regulation and Standards Division. [40371]

Jacqui Smith: The management of the Qualifications and Curriculum Authority (QCA) is a matter for the chief executive of the QCA, Ken Boston. He will write to the hon. Member.

Mr. Gibb: To ask the Secretary of State for Education and Skills how many members of the Regulation and Standards Division of the Qualifications and Curriculum Authority are independent of her Department. [40372]

Jacqui Smith: The Regulation and Standards Division is one of seven into which, with the National Assessment Agency, the Qualifications and Curriculum Authority (QCA) is organised. The staff of the Regulation and Standards Division are employed by the QCA and are accountable to the chief executive and through him to the QCA Board.

As a non-departmental public body of the Department for Education and Skills, the QCA is accountable to Ministers, including for the regulation of qualifications, which it undertakes independently of the Department.

Religious Services

Mr. Hollobone: To ask the Secretary of State for Education and Skills pursuant to the answer of 19 December 2005, *Official Report*, column 2425W, on religious services, what assessment she has made of the level of compliance with DFES circular 1/94. [40423]

Jacqui Smith: Circular 1/94 sets out the legal requirements for religious education and collective worship in maintained schools.

Under the current Ofsted inspection framework, schools are inspected across a range of areas, including those covered by Circular 1/94. In schools which are designated as having a religious character, the content of collective worship is inspected separately along with the teaching of denominational education where this is delivered.

My Department does not make any other assessment of the level of compliance with DfES Circular 1/94.

School Admissions

James Dud[illegible]ge: To ask the Secretary of State for Education and Skills pursuant to the written ministerial statement of 13 December 2005, *Official Report*, column 135WS, on school admissions, when she expects her Department to lay the revised codes of practice on school admissions and school admission appeals. [39461]

Jacqui Smith: We have not set a date for the laying of revised codes of practice. The existing codes will remain in force for the 2007 admission round.

Mr. Chaytor: To ask the Secretary of State for Education and Skills what percentage of secondary school selection was by aptitude in each of the last five years, broken down by *(a)* local authority, *(b)* school category and *(c)* subject; and how many pupils this involved in each case. [40615]

Jacqui Smith: The information requested is not collected centrally.

School Buildings

Mr. Graham Stuart: To ask the Secretary of State for Education and Skills how much money has been allocated for *(a)* capital repairs and *(b)* new buildings in (i) primary and (ii) secondary schools in (A) the East Riding of Yorkshire and (B) Kingston upon Hull. [39954]

Jacqui Smith: When we make allocations of capital funding to local authorities we do not prescribe what sums should be spent on new buildings as opposed to repairs and, for the most part, funding is not designated between primary and secondary schools. The allocation of funds is decided by local authorities in accordance with their asset management plans and local priorities. No records are maintained centrally that allow a breakdown of the allocations by the categories requested. Total capital funding allocated in 2005–06 to the East Riding of Yorkshire local authority and schools in its area was £17 million, and total capital funding allocated in 2005–06 to Kingston upon Hull local authority and schools in its area was £8.4 million.

School Funding

Miss Kirkbride: To ask the Secretary of State for Education and Skills if she will set out in cash terms the increases for each local education authority in each year from 1997–98 to 2007–08 set out in percentage terms in the school funding settlement published in December. [38888]

Jacqui Smith *[holding answer 20 December 2005]:* The information requested has been placed in the House Libraries.

School Meals

Mr. Byers: To ask the Secretary of State for Education and Skills what percentage of pupils entitled to free school meals achieved *(a)* 5 GCSEs at grades A* to C, *(b)* no GCSE qualifications and *(c)* no qualification in the last year for which figures are available. [38940]

Jacqui Smith *[holding answer 20 December 2005]:* The available information is given in the following table. Figures for 2005 will be available in February 2006.

Percentage of 15-year-old pupils[1] achieving certain GCSE and equivalent[2] grades by eligibility for Free School Meals (FSM)[3] in 2004

	Eligible for FSM
Number of pupils eligible for FSM	82,860
Proportion of pupils eligible for FSM achieving[4] (percentage)	
5 or more A* to C at GCSE	26
No GCSE qualifications	12
No qualifications	11

[1] Pupils aged 15 at the beginning of the academic year (i.e. 31st of August).
[2] Figures include GCSEs and other approved qualifications.
[3] Figures for attainment by pupil characteristics have been derived from the National Pupil Database (NPD).
[4] These figures are for maintained schools only and are not directly comparable with the national attainment figures that underpin the Department's PSA targets.

Schoolchildren

Mr. Bone: To ask the Secretary of State for Education and Skills what estimate she has made of the number of children of secondary school age in *(a)* Wellingborough and *(b)* East Northamptonshire local authority area in each of the next 20 years. [40537]

Jacqui Smith: Population projections for Wellingborough and East Northamptonshire are the responsibility of the Office for National Statistics. The 2003 based projections for the population aged 11 to 18 are:

Estimated and projected population aged 11 to 18 at mid-year

	Wellingborough	Thousand East Northamptonshire
Estimates		
2003	7.9	9.3
2004	7.9	9.6
Projections (2003 base)		
2005	7.8	9.7
2006	7.8	9.8
2007	7.7	9.8

Estimated and projected population aged 11 to 18 at mid-year

	Wellingborough	Thousand East Northamptonshire
2008	7.7	9.8
2009	7.7	9.9
2010	7.6	10.0
2011	7.6	10.1
2012	7.5	10.2
2013	7.4	10.2
2014	7.4	10.3
2015	7.4	10.4
2016	7.4	10.5
2017	7.4	10.6
2018	7.4	10.6
2019	7.4	10.7
2020	7.4	10.8
2021	7.4	10.8
2022	7.4	10.9
2023	7.3	10.8

Schools (Charitable Status)

Mr. Marsden: To ask the Secretary of State for Education and Skills what discussions she has had with the Charity Commission about the likely charitable status of *(a)* community schools, *(b)* trust schools, *(c)* special schools, *(d)* city academies, *(e)* pupil referral units, *(f)* federated schools and *(g)* foundation schools under the proposals in the Schools White Paper. [38209]

Jacqui Smith: Under current legislation the governing bodies of foundation, voluntary and foundation special schools have charitable status. The foundations of foundation and voluntary schools also have charitable status. In the case of trust schools both their governing bodies and their trusts will have charitable status. Community schools, community special schools and pupil referral units do not have charitable status. Academies are charitable companies limited by guarantee.

Federated schools are not a distinct category of schools, and federations may include any of the categories of maintained schools listed previously (but not pupil referral units, which are not a category of maintained school). Education law does not explicitly provide for the charitable status of the governing body of a federation so the position will depend on general charity law.

The proposals in the White Paper will not affect the charitable status of any of the institutions listed above. We intend to put in place further safeguards around trusts, in particular by requiring them to have specific charitable objects. Officials and legal advisers from my Department have discussed these safeguards with the Charity Commission. As the White Paper explained, we are considering the implications of trust status for special schools, but we do not envisage the need for any discussions with the Charity Commission about this.

Schools White Paper

Mr. Marsden: To ask the Secretary of State for Education and Skills what discussions she has had with the *(a)* National Governors Council and *(b)* National Association of School Governors on the implications for school governors of the proposals in the Schools White Paper. [37670]

Jacqui Smith: Ministers and officials regularly meet the National Governors Council and National Association of School Governors to discuss a wide range of issues. I met them most recently on 15 December 2005 when we discussed the implications of the proposals contained in the "Better Schools, Higher Standards For All" White Paper.

Science

Mrs. Dorries: To ask the Secretary of State for Education and Skills how many qualified science lecturers there have been in universities in England in each year since 1997; and if she will make a statement. [22911]

Bill Rammell: The latest available information is given in the table. In 2003/04, changes to the definitions of full-time and part-time staff meant that less academic staff members were classed as full-time. The figures for this year are therefore not directly comparable with those for earlier years.

Full-time academic staff by major subject of highest qualification English HE institutions

	Major subject of highest qualification			
	Science[1]	*Other subjects*	*Not known*	*Total*
1997/98	51,000	33,830	4,285	89,115
1998/99	51,500	34,700	5,485	91,685
1999/2000	51,015	35,720	4,800	91,535
2000/01	52,065	36,550	5,055	93,670
2001/02	54,665	37,240	4,940	96,845
2002/03[2]	56,790	36,130	4,425	97,345
2003/04[3]	47,495	31,485	7,030	86,010

[1] Science covers Medicine and Dentistry, Subjects allied to medicine, Biological sciences, Veterinary science, Agriculture and related subjects, Physical sciences, Mathematical sciences, Computer science, Engineering and Technology, and Architecture

[2] A new classification of academic subjects was introduced in 2002/03.

[3] The format and coverage of the Staff Record was changed in 2003/04, one effect of which was to reduce the number of staff classified as full-time and increase the number of staff who were classified as part-time. As a result, the figures for these two years are not directly comparable with those for previous years.

Figures are rounded to the nearest 5.

Source:

The Higher Education Statistics Agency's Staff Record.

Mrs. Dorries: To ask the Secretary of State for Education and Skills (1) how many non-British students have studied sciences at universities in England in each year since 1997; and if she will make a statement; [22925]

(2) how many British students have studied sciences at universities in England in each year since 1997; what percentage were entrants from *(a)* the state sector and *(b)* the independent sector; and if she will make a statement. [22931]

Bill Rammell: The latest available information showing the number of students on science courses is shown in the table. Information for 2004/05 will be available in January 2006. Information on the school background of young (under 21) higher education students is published annually by the Higher Education Statistics Agency (HESA) in "Performance Indicators in Higher Education", but this covers all students and does not show figures for each subject separately. The latest data collected by HESA for 2003/04, covering students of all ages, shows that 11 per cent. of entrants to undergraduate science courses came from the independent sector, compared to 12 per cent. of entrants to all undergraduate courses of any subject. Comparable figures for earlier years are not available centrally at present.

Higher Education students enrolled on undergraduate science[1] courses

		of which, from:	
HE institutions in England	*Total students*	*UK*	*Overseas*[2]
1997/98	429,815	386,445	43,370
1998/99	444,315	402,245	42,070
1999/2000	452,235	410,955	41,280
2000/01	463,990	422,465	41,525
2001/02	474,360	432,580	41,780
2002/03	524,540	477,880	46,655
2003/04	580,885	533,390	47,495

[1] Science covers the following subjects: Medicine & Dentistry, Subjects allied to medicine, Biological sciences, Veterinary science, Agriculture & related subjects, Physical sciences, Mathematical sciences, Computer Science, Engineering and Technology, Architecture, Building and Planning.

[2] Including students from the EU.

Note:

Figures based on a snapshot count as at December 1st . Numbers are given to the nearest 5 so components may not sum to totals.

Higher Education Statistics Agency (HESA)

Secondary School Places

Mr. Bone: To ask the Secretary of State for Education and Skills what provision is available to help pupils over the age of 16 but below the age of 18 years to find a secondary school place when they move into a new local education authority. [40541]

Jacqui Smith: There is no statutory duty on local authorities to provide post-16 education via secondary schools. Where they do, it is not necessary for pupils already in the school to apply formally for places in year 12 or year 13, though they may be required to meet specified minimum entry requirements.

Legislation gives parents the right to apply for a place for their child at any school providing post-16 education and if refused, they are entitled to appeal.

The Learning and Skills Council is responsible for planning and funding post-16 provision in England and has a responsibility under the Learning and Skills Act 2000 to ensure that all young people aged 16 to 18 have access to education or training through a school sixth form, or further education college or an Apprenticeship.

Sector Skills Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the Donated Asset Reserve in the Learning and Skills Council annual report and accounts 2004–05 is; and what guidelines cover its use. [36578]

Bill Rammell: I have overall responsibility for the Learning and Skills Council (LSC). However the operations of the LSC are managed and overseen by Mark Haysom, the LSC's chief executive. Details of the LSC's statutory accounts and the guidelines and policies they use for the donated asset reserve are a matter for the LSC. Mark Haysom has written to the hon. Member with further information. A copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 22 December 2005:

I refer to your recent parliamentary questions in which you asked the Secretary of State a) what the donated asset reserve in the Learning and Skills Council (LSC) Annual Report and Accounts 2004–05 is and what guidelines cover its use b) what the Government Capital Reserve in the LSC Annual Report and Accounts 2004–05 is and guidelines cover its use. I am pleased to provide the following information answering your questions below.

The Donated Asset Reserve reflects the current net book value of the fixed assets transferred to the LSC from the Training and Enterprise Councils (TECs) when the LSC was set up. The Executive Non-Departmental Public Bodies (NDPBs) Annual Reports and Accounts Guidance for 2004–05 provides further detail on the accounting for this reserve. The Government Accounting manual covers the management of assets.

The Government Capital Reserve reflects the current net book value of fixed assets acquired by the LSC. The Government Capital Reserve is credited with the amount of the grant that equates to the asset's acquisition cost. Notes 9 and 10 to the accounts provide further details on the fixed assets of the LSC. The Executive NDPBs Annual Reports and Accounts Guidance for 2004–05 provides further detail on the accounting for this reserve. The Government Accounting manual covers the management of assets.

I trust the above information will be of assistance to you.

Skills for Life Programme

Mr. Hayes: To ask the Secretary of State for Education and Skills how much has been spent on the Skills for Life programme in each year since its inception. [40432]

Phil Hope: I refer the hon. Member to table 13 of the NAO's report 'Skills for Life: Improving adult literacy and numeracy', 15 December 2004, which sets out estimated actual spend on Skills for Life from 2000–01. Copies of this report have been placed in the House Libraries. Confirmed spend for 2004/05 is not yet available.

Social and Emotional Aspects of Learning Programme

Jeff Ennis: To ask the Secretary of State for Education and Skills whether she has reviewed the effectiveness of the Social and Emotional Aspects of Learning (SEAL) programme; and whether she plans to extend the current earmarked funding for SEAL. [40399]

Jacqui Smith: The Primary Behaviour and Attendance pilot, which included SEAL, has been evaluated by London University's Institute of Education. The evaluators found evidence of a positive impact on behaviour and learning. Their report is due to be published early this year.

As recommended by the Practitioners' Group on School Behaviour and Discipline, we are providing a further year's earmarked funding for the dissemination of SEAL. Standards Fund grants for 2006–07 will include £7 million for this purpose.

Student Grants

Jim Cousins: To ask the Secretary of State for Education and Skills what percentage of students *(a)* applied for, *(b)* were granted in full and *(c)* were granted on an income-related taper student grants in each English local education authority area in the academic year 2005/06. [38296]

Bill Rammell: It is assumed that the question refers to the Higher Education Grant (HEG) introduced for new students in academic year 2004/05, and the question has been answered on this basis.

The number of new students in academic year 2004/05 in each English local authority (LA) who applied for support from the Student Loans Company (SLC), and the percentage of those receiving a full or partial HEG are shown in the table.

Local authority [1]	*Number of new students applying for support* [2]	*Percentage of new students receiving a full HEG*	*Percentage of new students receiving a partial HEG*
Barking and Dagenham	990	32	5
Barnet	3,110	22	4

[1] Data for LAs whose returns are made by another LA on their behalf will be included in the data of the LA making the return.
[2] Numbers rounded to the nearest 10.

It is not possible to provide the percentage of students applying specifically for a grant, therefore the total number of students applying for support has been provided. Students make a single application for student support and are assessed for all elements of the support package. They will receive a grant if they are assessed to be eligible and meet the necessary criteria.

Data on HEGs for 2005/06 will be available in summer 2006.

Sure Start

Mr. Drew: To ask the Secretary of State for Education and Skills how many children are participating in the Sure Start programme in Stroud constituency. [39244]

Beverley Hughes: There is one mini Sure Start local programme (Dursley and Cam) in Stroud constituency. Numbers of children registered at or seen by mini Sure Start programmes are not held, but each programme was intended to reach around 150 under-fours. This programme is linked to a 50 place neighbourhood nursery (Treetops nursery) in Dursley with additional outreach and family support services being delivered from Rednock community centre in Dursley and from the GL11 Community Project in Cam. This provision is being developed into a children's centre to reach around 1,200 children under five and their families in the Dursley, Berkeley, Cam East and Cam West wards by March 2006.

Surplus School Places

Mr. Marsden: To ask the Secretary of State for Education and Skills pursuant to the answer of 19 December 2005, *Official Report*, column 2432W, on surplus school places, who will be charged with determining whether authorities have a sufficiently strong strategic vision for the delivery of secondary education in their area to be prioritised under the Building Schools for the Future programme under the proposals in the Education White Paper; and what role the proposed Schools' Commissioner will have in this process. [40412]

Jacqui Smith: As Minister of State for Schools and 14–19 Learners, I have responsibility for determining whether authorities have a sufficiently strong strategic vision for the delivery of their local Building Schools for the Future programme. The advice of senior departmental officials is a key consideration in my

determinations, as will be the advice of the Schools Commissioner, particularly in relation to the issues of delivering diversity, choice and fair access for parents in the provision of secondary education.

Vulnerable Minors

Chris Ruane: To ask the Secretary of State for Education and Skills which 50 areas have the highest proportion of registered vulnerable *(a)* children and *(b)* young adults per 10,000 head of population. [39292]

Maria Eagle: The Department does not collect data on the number of registered vulnerable children and young adults. This is not a category of children and young people defined within the legislation covering social services functions. Information showing local authority areas with looked after children aged under 18 years of age per 10,000 head of population can be found in "Children looked after by local authorities, year ending 31 March 2004". This is available on the Department's website at:

http://www.dfes.gov.uk/rsgateway/DB/VOL/v000569/index.shtml

Chris Ruane: To ask the Secretary of State for Education and Skills how many vulnerable *(a)* children and *(b)* young adults are in placements outside their own local authority area by social services Departments. [39293]

Maria Eagle: The Department does not collect data on the number of vulnerable children and young adults. This is not a category of children and young people defined within the legislation covering social services functions. Information about the number of looked after children aged under 18 years of age and placed out of authority is collected centrally. I refer the hon. Member to my answer of 18 July 2005, *Official Report*, column 1402W.

Work Experience

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer of 5 October 2005, *Official Report*, column 2785W, on work experience, what the figures were for *(a)* 2000–01, *(b)* 2001–02 and *(c)* 2002–04. [25064]

Jacqui Smith: There is a majority take up of Work Experience among Key Stage 4 pupils, however, the actual breakdown of numbers per sector participating in WE is the responsibility of the Learning and Skills Council (LSC). Mark Haysom, chief executive of the LSC, will be writing to my hon. Friend, and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 22 December 2005:

Further to your question to the Secretary of State for Education and Skills requesting the number of Key Stage 3 pupils who undertook work-experience placements between 1995 and 2005.

The Learning and Skills Council (LSC) collects data for work-experience placements for Key Stage pupils in Years 10 and 11. It does not collect information on Key Stage 3 students as part of the LSC Education Business Link funded activity.

WorldSkills Competition

Mr. Marsden: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of hosting the WorldSkills Competition in the UK on the *(a)* economy and *(b)* skills levels of (i) the host regional areas and (ii) the UK. [39309]

Phil Hope: It is difficult to assess the potential impact of an event such as the WorldSkills Competition as it has benefits to the UK, to the host region, and a number of wider, less tangible, legacy effects. These benefits include enhancing the value which, as a nation, we place on skills, changing our attitudes towards vocational and academic qualifications, raising the aspirations of individuals, providers and employers, and improving permanently the supply of and demand for world class skills in the UK.

Prior to submitting our Expression of Interest PricewaterhouseCoopers was commissioned to carry out a study looking at the feasibility of a UK bid to host WorldSkills. Their report considered the wider social and economic benefits of a UK bid. The hosting region would benefit directly from increased visitor expenditure, as well as from visitor travel to and from the event. Other benefits, for both the region and the UK as a whole, would include an enhanced commitment to skills development, increased attainment in skills and participation in training, leading to increased productivity and earnings. In addition, because highly trained people tend to have higher lifetime earnings, this would be expected to lead to additional taxation receipts which would benefit the UK as a whole over time.

The UK bid is adopting a partnership approach as a way of securing direct and indirect legacy effects throughout the UK. At its first meeting on 7 December, the UK wide Steering Group confirmed the value of this approach and stressed the importance of 'diversity' and 'inclusion' to help build a sustainable skills competitions infrastructure in each region of the UK. This has the support of the Government and Ministers in each of the Devolved Administrations and will help to make the UK bid distinctive and, hopefully successful.

Written Answers to Questions

Tuesday 10 January 2006

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare Bill

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate the Government have made of the cost to local authorities of implementing the Animal Welfare Bill; and how this will be funded. [39494]

Mr. Bradshaw: Our estimate of the costs to local authorities of implementing our proposals under the Animal Welfare Bill is detailed in the Regulatory Impact Assessment (RIA), which was published alongside the Bill. We estimate that the Bill will not impose any significant additional costs on local authorities.

Avian Influenza

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what advice and information is being issued to keepers of *(a)* captive bred and *(b)* wild disabled birds registered with her Department on (i) avian influenza and (ii) obtaining seasonal influenza injections. [38436]

Mr. Bradshaw: Guidance on biosecurity and on keeping birds separate from wild birds has been issued very widely to those who keep birds commercially, to veterinary practices and to many others including wildfowl trusts, the RSPCA and the Pet Care Trust. Further guidance on local risk assessments and contingency planning is on the DEFRA website. Advertisements have been placed in a variety of journals to bring the biosecurity guidance and the ban on shows, fairs and sales to the attention of keepers of backyard flocks and captive birds respectively.

DEFRA is guided by the Department of Health in relation to advice on seasonal influenza vaccination. The current position is that routine vaccination of poultry workers, veterinarians or those dealing with wild birds with seasonal human flu vaccine is not recommended, but should be used in a confirmed outbreak of avian flu as a protection against the possibility of re-assortment with human flu virus for those people who might be exposed to the virus during disease control activities.

Mr. Mullin: To ask the Secretary of State for Environment, Food and Rural Affairs if she will compensate those whose livelihoods have been affected by the ban on bird shows; and if she will make a statement. [38874]

Mr. Bradshaw: I announced on 20 December 2005 that all bird shows are now allowed to go ahead under a general licence; details are available on the DEFRA website at:

http://www.defra.gov.uk/animalh/diseases/notifiable/disease/ai/poultrykeepers.htm#birdfair

There are no plans to offer compensation to those who have been affected by this ban.

Mr. Dunne: To ask the Secretary of State for Environment, Food and Rural Affairs (1) why her Department has not banned live importation of birds from poultry shows in other European Union countries; [38170]

(2) whether live birds may be imported from poultry shows in European Union countries; and what risk assessment she has undertaken of the potential importation of Avian influenza from these sources. [38171]

Mr. Bradshaw *[holding answer 20 December 2005]:* Live birds may be brought into the United Kingdom from poultry shows within the EU as long as the correct import procedures are followed. Rules on importing poultry are available on the Defra website at: http://www.defra.gov.uk/animalh/int-trde/animl-im/animl-im.htm

The movement of birds within the EU is controlled by Community rules, which do not require birds to be quarantined. However, the UK's Salmonella controls require all fowl species (for example chicken, ducks and turkeys) arriving in the UK from other member states to be isolated for at least 112 days after arrival.

Defra carries out qualitative veterinary risk assessments when officially notified of a disease outbreak in an EU-member state, a country on the border of the EU or one of the UK's trading partners worldwide. There are currently no cases of High Pathogenic Avian Influenza in EU member states. Based on veterinary risk assessments, we consider that the risk to birds in the UK is currently low.

If an EU member state experiences an outbreak of serious disease such as Avian influenza, existing EU trade rules set out the measures that must be adopted by that member state to prevent the spread of the disease. If the situation demands it, the European Commission will propose additional safeguard measures. It is not open to other member states to take unilateral action which goes beyond Community trade rules.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the United Kingdom's poultry imports came from China in 2004–05. [39238]

Mr. Bradshaw *[holding answer 20 December 2005]:* Imports of poultry products from China into the UK for the period 2004 to September 2005 are as shown. The final row in the table shows that these represented 0.1 per cent. (by value) of total poultry imports into the UK for the period January to September 2005.

The figures in the table below reflect imports of processed bird feathers, which have undergone treatment to ensure no pathogens are transmitted and are permitted for import from China. Imports of any other poultry products from China are not permitted.

	2004		January to September 2005	
	Thousand tonnes	£ million	Thousand tonnes	£ million
Imports from China	2	1	1	1
Total imports	622	1,153	495	854
Proportion of imports from China (percentage)	0.3	0.1	0.2	0.1

Aviation Emissions

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what measures to reduce aviation emissions the Government are considering. [39727]

Mr. Morley: The Government believe the best way for aviation to contribute to the long-term goal of climate stabilisation is through a well-designed emissions trading scheme. This work programme was a priority for the UK Presidency of the EU and under our Presidency, the European Council endorsed the inclusion of aviation into the EU ETS. The European Commission aims to bring forward a legislative proposal by the end of 2006 and we are pressing for inclusion from 2008 or as soon as possible thereafter.

We are also encouraging industry to improve their operational practices; invest in research and development programmes; and to take voluntary action to control their greenhouse gas emissions. We have committed to offset carbon dioxide emissions from official air travel in central Government starting from April 2006 and continue to explore the use of other economic instruments, such as taxes and charges.

On local air quality, local authorities have a statutory duty to review and assess the local air quality in their area for the purpose of local air quality management. Where it is likely that the air quality objectives will not be met by the relevant deadline, the local authority must designate an air quality management area and take action, along with others, to work towards meeting the air quality objectives.

Air quality management areas in respect of the Nitrogen dioxide national air quality objective have been designated in the vicinities of Heathrow and Gatwick airports. The local authorities involved have drawn up or are working up air quality action plans, in partnership with the airport operators and other interested parties, setting out proposed measures to tackle the problem.

Batteries

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to regulate the *(a)* sale and *(b)* disposal of batteries in the UK; and what current EU regulations apply to batteries waste. [39721]

Mr. Bradshaw: Directive 91/157/EEC (as amended) on batteries and accumulators containing certain dangerous substances is the sole EU legislative measure applying to batteries. This directive only covers those batteries containing specified levels of mercury, cadmium or lead, which are deemed hazardous.

However, proposals for a new batteries directive, to cover all batteries, is currently undergoing negotiation, and we expect the directive to be finalised this year. The proposed directive will require member states to adopt appropriate measures to collect and recycle their waste batteries. Once the directive has been agreed, HMG will consider how to transpose its requirements, including requirements relating to sales and disposal, into UK law.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to transpose European Union legislation regarding the sale and disposal of batteries in the UK. [39722]

Mr. Bradshaw: Negotiations on the proposed Batteries Directive have not concluded yet, and so we do not know what the final requirements will be. Once the Directive is agreed, HMG will consider how to transpose its requirements into UK law.

Bovine TB

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs whether those on fixed term contracts in her Department's Animal Welfare Unit dealing with the current tuberculosis trials have been given notice of redundancy; and what assessment she has made of the implications of this for future badger studies. [40461]

Mr. Bradshaw: Staff have been informed that their fixed term contracts will end on 31 March 2006.

Our 10 year strategy to address bovine tuberculosis includes a delivery plan for Government funded research.

Climate Change Programme Review

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government will publish their Climate Change Programme Review. [39913]

Mr. Morley: We are aiming to publish the revised climate change programme as soon as possible in the beginning of this year.

Countryside Stewardship Scheme

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the access authorities which have taken part in the Access

Management Grant Scheme; and what total level of funding has been granted to each such authority since the scheme's inception. [31842]

Jim Knight *[pursuant to the reply, 30 November 2005, Official Report, c. 505–06W]:* My answer was incorrect, and should have been as follows:

The Access Management Grant Scheme is administered by the Countryside Agency on behalf of DEFRA. The Agency's records show that up to 1 November 2005, 53 access authorities have been granted a total of £3,063,591 in funding under the Access Management Grant Scheme, as follows:

	£
Barnsley	15,018
Bath and North East Somerset	2,475
Bedfordshire	11,260
Blackburn with Darwen	9,333
Bolton	6,026
Bracknell Forest	269
Bradford	27,076
Brighton and Hove	19,955
Buckinghamshire	41,432

West Berkshire	2,225
West Sussex	130,350
Wiltshire	50,388
Worcestershire	25,133

[1] Excludes funding for the Open Access Black Mountains project.

Departmental Vehicles

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much petrol fuel her Department's vehicles have used in each year since 1997; and at what cost in each year. [21416]

Jim Knight: DEFRA and its Executive agencies do not hold central records on the amount of petrol used by official vehicles or the costs incurred.

Dog Wardens

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how many dog wardens are employed by each London borough. [40408]

Mr. Bradshaw: Defra does not collect these figures.

Fisheries

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many UK fishing vessels of 12 metres of more in length, operating in ICES areas VII e, f, g, h and j and using bottom set gillnet or entangling net will be required from 1 January 2006 to use acoustic deterrent devices under Regulation (EC) No 812/2004 (art.2); [38830]

(2) what the total *(a)* length and *(b)* effort in kilometres per hours is of bottom set gillnet and entangling net used by UK fishing vessels of 12 metres or more in length operating in ICES areas VII e, f, g, h and j. [38832]

Mr. Bradshaw: There are approximately 20 UK vessels of 12 metres or more in length regularly prosecuting this fishery. Gill nets are used for catching hake all year round and entanglement nets are used for catching monkfish, turbot and rays from March to September; a number of vessels prosecute more than one fishery, including wreck netting.

We estimate that the 12 regular hake netters deploy some 240k of nets; the 14 regular entanglement netters some 11,200k; and, the 6 wreck netters some 24k. This gives a total for the fishery of 11,464k of nets.

The data are not available to calculate the effort in kilometres per hour.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs whether it will be her Department's policy to follow the scientific advice from the International Council for the Exploration of Our Seas at the December Fisheries Council meeting. [38840]

Mr. Bradshaw: The International Council for the Exploration of the Seas (ICES) produces scientific advice annually on the state of stocks in the north Atlantic. Following these assessments by ICES, further advice on the status of stocks covered by the Common Fisheries Policy is received from the Commission's Scientific Technical and Economic Committee for Fisheries (STECF). The advice from ICES and STECF informs the decisions taken but the Fisheries Council must balance environmental, economic and social considerations in reaching its decisions.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is her Department's policy to agree increases in quotas on species with a high cod by-catch on condition that measures to reduce this by-catch are implemented. [38846]

Mr. Bradshaw: At the December 2005 Fisheries Council, the Government gave priority to addressing the small mesh fisheries which take cod as a by-catch. These include the beam trawl sector and the sector which catches nephrops. The measures adopted by the Council include a cut in the number of fishing days for these sectors and incentives for them to adopt more selective gear.

Decisions on total allowable catches and quotas need to take into account the state of the target stocks as well as their by-catches of cod and other species. On this basis, the Council was able to adopt significant increases in nephrops TACS which will be of significant benefit to the UK fishing industry.

Foot and Mouth

Mr. George Howarth: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library advice received by Ministers regarding the decision in March 2001 to carry out a contiguous cull of farm animals. [38993]

Mr. Bradshaw: The background to and justification for the contiguous cull is set out in Chapter 10 of the Report "Foot and Mouth 2001: Lessons to be Learnt Inquiry" published on 22 July 2002. I have placed a further copy in the Library.

Mr. George Howarth: To ask the Secretary of State for Environment, Food and Rural Affairs how many legal cases involving foot and mouth disease clean-up contractors are pending. [38994]

Mr. Bradshaw: Currently, five cases are the subject of High Court litigation.

Mr. George Howarth: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library in respect of all court cases where proceedings are complete relating to foot and mouth disease clean-up contractors; what the *(a)* dates and times of proceedings, *(b)* verdicts and *(c)* costs incurred by her Department were; and if she will make a statement. [38995]

Mr. Bradshaw: The registry of each court keeps a publicly accessible register of claims which have been issued out of that court or court office. There is no central register held of all cases held in all courts. The only register of this nature is held for the county courts (which can be found at www.registry-trust.org.uk). Her Majesty's Court Service database contains judgments dating back to 1996 (which can be found at www.hmcourts-service.gov.uk.

If the proceedings are from the civil or criminal divisions of the Court of Appeal, or from the administrative court, both WordWave International's Casetrack website (official shorthand writer to the court), and the BAILII website (British and Irish Legal Information Institute) may provide further information. If the case (or cases) my right hon. Friend is interested in is (are) from the High Court, the Court itself should be contacted for a copy(ies) of the judgment(s). House of Lords judgments delivered since 14 November 1996 are available on the House of Lords website at www.parliament.the-stationery-office.co.uk

It is not possible to provide details of the final outcomes of all court cases where legal proceedings are completed relating to foot and mouth disease clean-up contractors because in some cases (sometimes at the instigation of the contractor) both parties have agreed to keep the terms of settlement confidential.

The Department has been diligent in pursuing those cases where it believes it was overcharged by contractors and valuers during the FMD outbreak.

Where it has the evidence to pursue fraud in either a civil or criminal context it will do so. The Department will have finished its review of all contractor accounts by the end of March 2006 but is dependent on judicial time scales and the work of the relevant investigating authorities in concluding all the commercial and valuer disputes. There have been delays in settlement because of the unwillingness of some contractors to engage in dispute resolution procedures and these have in come cases necessitated, and will necessitate, legal proceedings. The Department has spent to date £30.341 million on professional services investigating close to £1.3 billion of expenditure on goods, services and works arising out of the FMD outbreak. Direct savings of £88.237 million have been achieved to date and, currently, five cases are the subject of High Court litigation.

Integrated Pollution Legislation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many court cases have *(a)* the Environment Agency and *(b)* her Department taken on breaches of the integrated pollution prevention and control legislation; and what the outcome was in each case where proceedings are complete. [37340]

Mr. Bradshaw: In 2003 the Environment Agency prosecuted Kvaerner Engineering and Construction UK Limited for a breach of the PPC Regulations.

In 2004 the Environment Agency prosecuted Sita Southern Limited for a breach of the PPC Regulations.

In 2005 the following companies were prosecuted by the Environment Agency for breaches of the PPC Regulations: Global Commodities (UK) Limited, HLC Waste Management Services Limited, Istil (UK) PLC, James Cropper PLC, Monckton Coke and Chemical Company Ltd, Robert Wiseman & Sons Limited and Sita Southern Limited.

A table providing additional information such as the offence, the date of prosecution and the outcome of each prosecution will be deposited in the Library of this House.

This Department does not itself take prosecutions, but some installations are regulated by local authorities rather than the Environment Agency.

We publish statistics annually which give the number of prosecutions taken by local authorities, although do not distinguish between those taken under their air pollution powers from those under their integrated pollution prevention and control powers.

In 2004–05 13 prosecutions were reported. This information is listed in table 12a of the recently published Statistical Survey at this address http://www.defra.gov.uk/environment/airquality/lapc/survey0405/index.htm . The survey reports for both 2002–03 and 2003–04 are also available on the same website at this address http://www.defra.gov.uk/environment/ppc/index.htm .

Landfill

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the burden on local waste disposal authorities of the current *(g)* landfill tax penalties and *(h)* landfill allowance targets; what financial support will be made available to assist them in funding the new waste disposal technologies; if she will take steps to return to the waste disposal authorities who pay landfill tax the funding raised by the tax to assist them in funding their minimisation and recycling initiatives. [38996]

Mr. Bradshaw: The information is as follows:

(a) There are no penalties within the Landfill Tax regime. Budget 2003 announced that future increases in the standard rate of landfill tax would be introduced in a way that is revenue neutral to business as a whole and to local government, reflecting the need to consider the social and economic effects of the increase. In last year's Spending Review funding through increased levels of landfill tax where recycled back into the Environmental Protective and Cultural Services block of the Formula Spending Share.

(b) Funding has been made available on a consistent basis to assist local authorities in developing new waste technologies. In last years Spending Review the Government announced an increase in the Environmental Protective and Cultural Services block of the Formula Spending Share of £888 million by 2007–08 over 2004–05. Over the three-year period to 2005–06, authorities are also benefiting from a total of £294 million invested through the Waste Minimisation and Recycling Fund and its successor the Waste Performance and Efficiency Grant, will provide a further £260 million over the three years to 2007–08. Finally, through the private finance initiative credits worth £355 million have been made available over the three years to 2005–06, with a further £535 million available in 2006–07 and 2007–08.

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what progress is being made in meeting EU Landfill Directive targets for *(a)* 2010, *(b)* 2013 and *(c)* 2020. [38901]

Mr. Bradshaw: The Government, through the Office for Government Commerce are currently undertaking an information gathering project with the Local Government Association and other local government stakeholders to assess the current and future diversion capacity in England. The information from this project will give a clear indication about how the targets are being met. Data collection from waste collection and waste disposal authorities was undertaken in July, with a 70 per cent. response rate. The results of the exercise are currently being analysed and will be used to assess the potential LATS diversion, recycling recovery and data for current and future procurement contracts. The results will be published early in 2006. The intention is to review this project annually, to allow the Government to closely monitor and evaluate progress towards the targets.

Municipal Waste

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs how much municipal waste was produced in each of the last 10 years. [38975]

Mr. Bradshaw: Information on municipal waste arisings is available from the Defra Municipal Waste Management Survey. Annual estimates for England are only available from 1996–97 to 2003–04.

	Thousand tonnes
1996–97	24,588
1997–98	25,711
1998–99	26,337
1999–2000	27,480
2000–01	28,057
2001–02	28,905
2002–03	29,494
2003–04	29,105

Nappies

Lynne Featherstone: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of *(a)* household waste sent to landfill and *(b)* total biodegradable waste sent to landfill was made up of disposable nappies in the last 12 months for which figures are available. [39562]

Mr. Bradshaw: We do not collect information on the amount of disposable nappies used nor of the disposal route for specific waste streams.

The Strategy Unit report 'Waste Not Want Not' estimated that in 2000–01 nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes. In 2003–04 72 per cent. of our household waste was sent to landfill and just under 9 per cent. went to incineration.

Natural Environment and Rural Communities Bill

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of vehicular rights likely to be extinguished under clause 62 of the Natural Environment and Rural Communities Bill if enacted in its current form. [39420]

Jim Knight *[holding answer 9 January 2006]:* Clause 62 of the Natural Environment and Rural Communities Bill will extinguish certain unrecorded public rights of way for mechanically propelled vehicles. For the very reason that these rights of way are unrecorded, it is difficult to give an accurate account of the number of vehicular rights that are likely to be affected.

A study commissioned by the Countryside Agency and the Countryside Council for Wales, which reported in March 2002, estimated that there are 2,700 km of rights of way (both unrecorded or recorded as other categories of rights of way) that, but for this legislation,

would be likely to qualify as byways open to all traffic. It is likely that public rights for mechanically propelled vehicles will be extinguished over all of these routes under the new legislation.

In addition, it is likely that public rights for mechanically propelled vehicles will be extinguished on most of the routes that are currently recorded as roads used as public paths. These extend to about 6,000 km in England and Wales, roughly 3 per cent. of the current rights of way network. However, some of these routes would already have been included in the results of the study referred to above, although we cannot quantify the extent of this overlap.

Public rights of way for vehicles that are not mechanically propelled will not be affected, nor will private rights for mechanically propelled vehicles.

Poultry

James Duddridge: To ask the Secretary of State for Environment, Food and Rural Affairs how many poultry owners are registered with her Department; and what the flock size is of each registered poultry owner. [38029]

Mr. Bradshaw *[holding answer 15 December 2005]:* As of midnight on 13 December 2005, 88 eligible poultry premises have been registered on the new GB poultry register. In some cases, an owner has registered more than one premises. The total numbers of poultry on each registered premises are as follows:

Poultry premise	*Total number of poultry*

Racehorses (Whipping)

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 13 December 2005, *Official Report*, column 1854W, on racehorses (whipping), what recent representations she has received about the practice of whipping racehorses. [39278]

Mr. Bradshaw: We have received occasional correspondence on the whipping of racehorses.

Radioactive Waste Management Committee

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to receive the final report of the Committee on Radioactive Waste Management. [36867]

Mr. Morley: The final report is due in July 2006.

Rare Birds

Mr. Iain Wright: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to protect the rare birds population on the North East coast. [39158]

Jim Knight: There is a suite of statutory sites protecting bird populations along the North East coast of England which form part of a national, European and international network of protected sites. Those areas designated for their national importance, sites of special scientific interest (SSSIs), underpin and extend beyond the boundaries of six Special Protection Areas (SPAs), classified under the EC Birds Directive. Three of these SPAs are also designated as Ramsar sites under the Convention on Wetlands of International Importance especially as Waterfowl Habitat. These sites are protected for their nationally and internationally important populations of waders, wildfowl, terns and seabirds[1].

[1]Farne Islands SPA

Coquet Island SPA

Flamborough Head and Bempton Cliffs SPA

Lindisfarne SPA and Ramsar site

Northumbria Coast SPA and Ramsar site

Teesmouth and Cleveland Coast SPA and Ramsar site

Recovered Fuel Oil

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the status of recovered fuel oil in the definitions of waste recovery contained in the revised Waste Framework Directive. [39391]

Mr. Bradshaw: On 21 December 2005 the European Commission published a proposal for a Thematic Strategy on the prevention and recycling of waste and associated legislative proposals. The latter includes a revision of the Waste Framework Directive (WFD) (Council Directive 75/442/EEC as amended). The proposals are available on the Commission's website at http://europa.eu.int/comm/environment/waste/strategy.htm

The draft WFD published by the Commission includes a proposed revision of the definition of "recovery". The purpose of the revised definition is to enable a more effective distinction to be made between waste disposal operations and waste recovery operations—both of which are subject to control under the existing WFD. The revised definition of "recovery" does not affect the status of recovered fuel oil (e.g. its classification as waste).

The UK has actively participated in the Commission's consultations on the Waste Thematic Strategy and associated consultations; and will continue to be active in negotiations with the Commission and other member states on the revised WFD. In doing so, we will comply with the guidance on "UK handling of EU proposals" available on the Cabinet Office's website at http://www.cabinetoffice.gov.uk/regulation/europe/uk_handling/index.asp—including appropriate consultation with external stakeholders.

Recycling

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of plastics used for baling on farms has been recycled in each of the last five years. [39196]

Mr. Bradshaw: The Department does not keep such records.

Waterways (Public Access)

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the merits of amending the Countryside and Rights of Way Act 2000 to cover public access to waterways. [37010]

Jim Knight: We commissioned research into the opportunities and demand for water-based sport and recreation during the passage of the then Countryside and Rights of Way Bill through Parliament. The report, 'Water-Based Sport and Recreation: the facts', was published in December 2001. It concluded that there is some unmet demand for white water and long distance routes for canoeists, but that for most canoeists, as for most other water users, overall supply is roughly in balance with demand. We therefore concluded that the case for a statutory right of access had not been made and that we should pursue a voluntary approach instead.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to improve public access to waterways. [37011]

Jim Knight: Following publication of the report, "Water-Based Sport and Recreation: the facts" in 2001 we commissioned the Countryside Agency to work in partnership with other Government agencies to pilot four demonstration projects to develop best practice for access agreements for canoeists on key stretches of water in England. The feasibility study indicated that voluntary agreements can offer a means of increasing access to water and we asked the Environment Agency to complete agreements in all four pilot areas. In addition we have agreed to the development of a strategic approach to recreational access to water inland waters, led by the Environment Agency but in collaboration with other key stakeholders.

Rural Communities (North-East)

Mr. Iain Wright: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to improve the economy of rural areas in the North East. [39159]

Jim Knight: Defra and other Government Departments have provided a significant amount of funding to improve the rural economy in the North East. This includes:

Over £12.5 million which has been allocated over the six years of the current England Rural Development Programme (ERDP) project-based schemes (Rural Enterprise Scheme, Vocational Training Scheme and Processing and Marketing Grants);

A significant amount of money will also be provided from ERDP agri-environment schemes to farmers to manage the landscape. This will offer wider economic gains in rural areas from a well maintained countryside;

£11 million has been spent on average per annum through Structural Funds;

The One North East Regional Rural Programme will deliver £20 million of assistance over the period 2005–08;

£16 million of Regional Development Agency single pot assistance will also be delivered over the same 2005–08 period by Sub-Regional Partnerships in Durham, Tees Valley and Northumberland under the Rural and Environmental Programme.

In addition, the West Durham Pathfinder project, one of eight local pathfinders announced in Rural Strategy 2004, is looking at a range of measures to contribute to improving the economic performance of the area, including developing the knowledge economy, and skills and enterprise development in support of sustainable tourism.

I am placing more details of the projects Defra is supporting in the Library of the House and on the Department's website.

Sustainable Development

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what penalties are in place for Government Departments which fail their sustainable development targets, as reviewed by the Sustainable Development Commission on 16 December. [39726]

Mr. Morley: These are internal targets that don't involve penalties but are open and transparent. The targets are set out in the Framework for Sustainable Development on the Government Estate. In accordance with that Framework, all Government Departments are responsible for their own performance and data. The Sustainable Development Commission reported on progress for the first time this year, in line with the commitment in the UK Government Sustainable Development Strategy that future reports should be 'wholly independent of Government'.

Waste Exports (Carbon Cycle)

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been *(a)* commissioned and *(b)* evaluated into the implications for carbon life cycle of shipping recyclable waste abroad. [38896]

Mr. Bradshaw: No such research has been commissioned. The logistics of international cargo movements, including those of wastes for recycling, can enable containers to be used as efficiently as possible. For example, containers used to import goods into the UK may be offset by use of the same containers to take wastes for recycling to overseas destinations. In some circumstances the containers could otherwise be returning empty.

Wild Bird Ringing

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what information her Department collects on wild bird ringing groups operating in the UK and licensed by the British Trust for Ornithology; and what advice and information her Department has circulated to such groups in each region on *(a)* monitoring of possible avian influenza and *(b)* obtaining seasonal influenza injections. [38435]

Mr. Bradshaw: DEFRA continues to have regular discussions with a number of ornithological organizations in Great Britain for assistance in implementing a surveillance programme for avian influenza in wild birds. This comprises three strands:

Reporting and sampling unusual mortality events in wild bird species

sampling by cloacal swabbing of live caught birds at Wildfowl and Wetlands Trust sites at several locations across the UK

taking faecal samples by cloacal swabbing from freshly shot birds submitted by the British Association for Shooting and Conservation (BASC) from various sites across the UK

Stewardship of the network of ringing groups lies with the ornithological organisations, including the BTO, and they have been working with DEFRA to identify the key issues concerning bird migration and behaviour, habitats, distribution of species of interest and issues around sensible measures for the protection of both employees and volunteers who may come into contact with wild birds through ringing and other activities.

Following consultation with the Department of Health, advice is available on the DEFRA website regarding submission of bird carcasses from unusually high mortality events. DEFRA has also issued advice cleared by the health authorities to those that are conducting sampling of birds for wild bird surveillance.

Further information can be found on DEFRA website at:

http://defra.gov.uk/animalh/diseases/notifiable/disease/ai/wildbirds/survey.htm

DEFRA is guided by the Department of Health in relation to advice on seasonal influenza vaccination. The current position is that routine vaccination of poultry workers, veterinarians or those dealing with wild birds with seasonal human flu vaccine is not recommended, but should be used in a confirmed outbreak of avian flu as a protection against the possibility of re-assortment with human flu virus for those people who might be exposed to the virus during disease control activities.

FOREIGN AND COMMONWEALTH AFFAIRS

Middle East

9. **Richard Burden:** To ask the Secretary of State for Foreign and Commonwealth Affairs If he will make a statement on the prospects for peace in the middle east. [40205]

Mr. Straw: Important progress has been made in recent months: the level of violence on both sides has been significantly reduced, and whilst much remains to be done, overall prospects have been transformed by the withdrawal from Gaza and northern settlements in the West Bank, in mid August. The UK and EU have been heavily involved in all this. Elections in the Occupied Territories for the Palestinian Legislative Council are due on 25 January, and a general election is due in Israel on 28 March.

Israeli Prime Minister Ariel Sharon deserves great credit for his courage and foresight in leading many of the recent positive developments. I am sure the whole House will join me in sharing my deep concern about his illness; our thoughts and prayers are with his family and friends and the people of Israel.

19. **Rosie Cooper:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Israeli Government about the peace process in the middle east. [40215]

Dr. Howells: We regularly discuss progress on the Middle East Peace Process with the Israeli Government, at all levels. Since disengagement in September 2005, both my right hon. Friend the Foreign Secretary and I have met with members of the Israeli Government to discuss progress on their Roadmap commitments. The Israelis tell us that they remain committed to making progress against the Roadmap.

Collinson Grant Report

12. **Andrew Mackinlay:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the findings of the Collinson Grant report. [40208]

Dr. Howells: The Foreign and Commonwealth Office commissioned Collinson Grant to further improve its operations and efficiency and accepts many of the reports' conclusions. Actions resulting include substituting locally engaged for some UK-based staff; rationalising the various programmes intended to bring change in the FCO; reducing the number of people providing short term cover or working on temporary duties; improving the workings of the internal market and reducing administrative costs.

Extraordinary Rendition

13. **Angus Robertson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with EU colleagues about extraordinary rendition. [40209]

Mr. Straw: On 21 November last year, EU Foreign Ministers discussed United States handling of detainees and agreed to ask for clarification of the reports of US transfer and detention of terrorist suspects through and in European countries. I subsequently wrote to EU partners to convey the response of the US Secretary of State, Dr. Condoleezza Rice.

There have been further discussions about the matter at subsequent meetings in Brussels, and I have spoken bilaterally to EU Foreign Minister colleagues. I gave evidence on this matter to the Foreign Affairs Committee on 12 December.

Iraq

14. **Mr. David Anderson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what financial assistance and advice has been given to the Iraqi Government to help build civil society. [40210]

Dr. Howells: The Government are committed to supporting the development of a vibrant civil society in Iraq. Since 2004 we have committed over £17 million to programmes to help build civil society capacity. While we have built a strong relationship with the State Ministry for Civil Society the majority of our funding is targeted directly at civil society organisations. Projects have focused included protection of minority rights, trade unions, justice and the rule of law, inter-faith dialogue and media development.

22. **Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Iraqi elections. [40218]

Dr. Howells: Certified results have not been announced. However the fact that almost 11 million Iraqis from all communities voted illustrates their desire to determine their country's future. This shows great progress in building a new political system.

All parties are engaged in determining the formation of a fully representative Government. This Government will face many challenges and there is much we and the international community can continue to do to assist.

Iran

15. **Richard Ottaway:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Iran's nuclear programme. [40211]

Mr. Straw: In 2003, Iran was forced to admit that for many years it has been operating secret facilities to enrich uranium, in clear contravention of its obligations under the non-proliferation treaty. Other breaches relating to plutonium have been ascertained. We also know of Iranian contact with the Pakistani nuclear weapons expert A. Q. Khan, who admitted working with clandestine nuclear weapons programmes in Libya and North Korea.

Since 2003, the United Kingdom, French and German Governments, with Javier Solana, the EU high representative, have worked tirelessly to prevent nuclear weapons proliferation by Iran through ensuring that it complies fully with its international obligations. As part of this, I ran agreed towards the end of 2003 to suspend enrichment-related and reprocessing activities.

This morning, I regret to say, the International Atomic Energy Agency confirmed that Iran had broken seals at nuclear facilities, including its uranium-enrichment facility at Natanz, with a view to resuming research and development, including the introduction of uranium hexafluoride into the centrifuges. That is enrichment. This is a profound concern. It is a further rejection by Iran of IAEA board requests and a violation of the commitments that Iran made in the Paris agreement in November 2004. In view of all that, I shall be meeting my French and German colleagues and Javier Solana as soon as this can be arranged, to discuss our joint and firm response.

24. **Mr. Dismore:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent comments by the President of Iran concerning Israel. [40220]

Dr. Howells: I condemn unreservedly President Ahmadinejad's calls for Israel to be relocated or destroyed, and his denial of the existence of the Holocaust. Such remarks are wholly unacceptable, and

have no place in civilised debate. The United Nations Security Council has also condemned them, with our full backing.

World Trade Organisation

16. **Jim Sheridan:** To ask the Secretary of State for Foreign and Commonwealth Affairs What discussions he has had with EU counterparts on the World Trade Organisation ministerial conference in Hong Kong. [40212]

Ian Pearson: My ministerial colleagues and I meet regularly with our EU counterparts. The World Trade Organisation (WTO) Round is often discussed in that context. Ahead of the ministerial conference in Hong Kong, EU Foreign Ministers discussed the issue at several meetings chaired by my right hon. Friend the Foreign Secretary. My right hon. Friend the Secretary of State for Trade and Industry chaired meetings of EU Trade Ministers in Hong Kong

Albania

17. **Mr. David Chaytor:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Albania's prospects for becoming an applicant country for membership of the European Union. [40213]

Dr. Howells: The EU confirmed in June 2003 that the future of the Western Balkans lies in Europe. Albania has been negotiating a Stabilisation and Association Agreement since January 2003 as a first step towards realising its EU aspirations. Albania's progress toward the EU is conditional on implementing reforms, especially those needed to tackle organised crime and corruption.

India

18. **Helen Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on UK relations with India. [40214]

Dr. Howells: Britain's bilateral relations with India are stronger than they have ever been. India is and will continue to be a key strategic partner for this country.

The Prime Minister had a further productive summit meeting with Manmohan Singh in September 2005. There is a constant flow of ministerial visits in both directions.

Afghanistan

20. **Linda Gilroy:** To ask the Secretary of State for Foreign and Commonwealth Affairs what further steps his Department is taking to encourage other Governments to give financial support to Afghanistan. [40216]

Dr. Howells: We routinely lobby countries for financial support for the Government of Afghanistan's counter narcotics programmes. We have also lobbied for Afghanistan election funding on behalf of the UN.

The UK is playing a leading role in the reconstruction of Afghanistan. We will host a London Conference on Afghanistan on 31 January–1 February, co-chairing with the UN and the Afghan Government. The conference will seek continued international support for Afghanistan.

Lisbon Agenda

21. **Mr. Crabb:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Lisbon agenda. [40217]

Dr. Howells: 2005 marked the midpoint of the Lisbon Agenda—and saw real progress on Better Regulation and the Services Directive and agreement on REACH (Registration, Evaluation and Authorisation of Chemicals), balancing the interests of the environment with the competitiveness of EU industry. There remains a need to build momentum behind reform. Member states have underlined their commitment to this by submitting individual Lisbon National Reform Programmes.

Lebanon

23. **Mr. David:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of Syria's involvement in Lebanese internal affairs. [40219]

Dr. Howells: My right hon. Friend the Foreign Secretary visited Lebanon on 4–5 January and was concerned by the extent to which Syrian behaviour still dominates Lebanon. For this reason we support the full implementation of all relevant UN Security Council Resolutions.

British Prisoners Overseas

25. **Dr. Pugh:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many British subjects are known to be in foreign jails. [40221]

Dr. Howells: On 31 March 2005, we were aware of 2,764 British nationals in detention overseas. This, which is the most recent definitive figure we have, includes detainees on remand, as well as those serving custodial sentences.

China

Adam Afriyie: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on religious freedom in China. [40039]

Ian Pearson: The Government are concerned about limitations on freedom of religious belief in China and the treatment of religious practitioners, including the political "re-education" of monks and nuns in Tibet. We regularly raise our concerns with the Chinese Government. We did so at the last UK-China Human Rights Dialogue in June 2005. Freedom of religion was a focus of the last EU-China Human Rights Dialogue, which took place under the UK presidency in October 2005. I spoke at length about the persecution of Christians in China during an Adjournment debate on 5 July 2005. The EU Troika raised freedom of religion with the Chinese Government in Beijing on 29 December. Individual cases of concern were raised at this meeting and at the Dialogues. We will continue to raise our concerns about religious freedom with the Chinese authorities at every appropriate opportunity.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what action has been taken under the UK's EU presidency to advance the European Parliament's resolution of 8 September on

religious freedom in China, with particular reference to the calls for the release of Pastor Zhang; and if he will make a statement. [40631]

Ian Pearson: The Government remain concerned about freedom of religion in China. Progress was made in advancing the European Parliament's resolution on this matter in a number of respects during the UK presidency. Freedom of religion was a focus of the EU-China Human Rights Dialogue in October 2005. The UK presidency led a follow-up EU demarche in Beijing in December 2005. Several individual cases were raised at the Dialogue and in the demarche, including that of Pastor Zhang, whose case we continue to follow closely. An EU-China seminar on the ratification of the International Covenant for Civil and Political Rights was held in December 2005; and the UN Special Rapporteur on Torture visited China in November 2005. We will continue to raise religious freedom with the Chinese Government, and urge further progress on points raised in the resolution.

Mr. David Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of the People's Republic of China over the jailing of Xu Wanping. [40720]

Ian Pearson: We monitor closely the treatment of human rights defenders in China and regularly raise individual human rights cases with the Chinese Government, including at the biannual UK and EU-China Human Rights Dialogues. The Government have not made representations to the Chinese Government over the recent imprisonment of Xu Wanping, but we will look into his case.

Cigarettes

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact on visitors from the UK to France and Belgium of French proposals to limit the carrying outside the home of more than 200 cigarettes at any one time; and if he will make a statement. [37860]

Dawn Primarolo: I have been asked to reply.

The Government have not made an assessment of the impact French proposals to limit the carrying of cigarettes outside the home would have on visitors from the UK to France. However, national measures concerning France's domestic treatment of tobacco purchased for personal use are a matter for the French Government, subject to compliance with their obligations under EC law.

Common Agricultural Policy

Adam Afriyie: To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals for Common Agricultural Policy reform the Government has made; and if he will make a statement. [40235]

Mr. Douglas Alexander: EU Heads of State and Government agreed in December a proposal from the UK presidency for the Union's budget over 2007–13, including the Common Agricultural Policy (CAP). That proposal included a provision allowing member states to transfer up to 20 per cent. of their funding for CAP market support and direct payments to rural development. This Government have always supported moving funds in this direction, and will continue to do so. The agreement in December also contained a commitment to review all EU expenditure, including the CAP, in 2008–09. On 2 December, the Government published a paper setting out the UK's vision for reform of the CAP, which we hope will inform that debate. This is available at http://www.hm-treasury.gov/uk/media/E76/04/a_Vision_for_the_CAP.pdf. The Government are in on-going discussions with other member states and other stakeholders about their views on that vision, and their own ideas for the future of the CAP. The UK presidency also managed to secure agreement with other member states in November on a historic liberalising reform of the EU sugar regime.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by his Department and *(y)* claimed by the Treasury. [40140]

Mr. Douglas Alexander: A list of the buildings and land sold by the Foreign and Commonwealth Office (FCO) and the British Council, a Public Corporation receiving a grant-in-aid from the FCO, since the start of financial year 1997–98 will be placed in the Library of the House. No FCO non-departmental public bodies have sold buildings or land since 1997. The BBC World Service is part of the BBC, a public corporation, and is funded by the FCO through a grant in aid. It has sold only one property since 1997, a building in Singapore in 2001, the proceeds of which were approximately £3.3 million and which were re-invested in the World Service's Oman transmitter project.

It was agreed in the 1997 Comprehensive Spending Review settlement that the FCO should retain 100 per cent. of the proceeds from property sales for re-investment, up to an agreed ceiling for each spending review period, which has not been exceeded. We do not re-value properties once sold, and could not do so now without incurring disproportionate costs.

Departmental Expenditure

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs how many widescreen televisions have been purchased by his Department for use in London Headquarters in each of the last five years; and what the cost was in each year. [39140]

Mr. Douglas Alexander: The Foreign and Commonwealth Office (FCO) does not categorise expenditure down to this level of detail in its accounts. In addition, the FCO delegates budgets for such equipment to individual internal departments and does not therefore hold a centralised record of such purchases. The information could therefore only be provided at disproportionate cost.

Standard FCO guidance applies to the purchase of television equipment. This is based on achieving value for money.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs what the administrative costs were of each non-departmental public body for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40060]

Mr. Douglas Alexander: The breakdown of the administrative costs in 2004–05 for each of the Foreign and Commonwealth Office (FCO) non-departmental public bodies (NDPB) is as follows:

British Council

	£000
Employee costs	55,897
Accommodation costs, rent, rates etc.	22,000
Office service costs	44,373
Depreciation and cost of capital charges	6,642
Other non-cash items eg auditors' remuneration	155
Total	129,067

	£
Westminster Foundation for Democracy	
Employee costs	546,309
Accommodation costs, rent, rates etc.	54,086
Office service costs	218,583
Depreciation and cost of capital charges	11,359
Other non-cash items eg auditors' remuneration	8,114
Total	838,451
Great Britain and China Centre	
Employee costs	177,576
Accommodation costs, rent, rates etc.	43,784
Office service costs	15,836
Depreciation and cost of capital charges	5,739
Other non-cash items eg auditors' remuneration	2,891
Total	245,826
Britain Association for Central and Eastern Europe	
Employee costs	169,196
Accommodation costs, rent, rates etc.	40,471
Office service costs	16,977
Depreciation and cost of capital charges	5,858
Other non-cash items eg auditors' remuneration	21,175
Total	253,677
Marshall Aid Commemoration Commission	
Employee costs	245,204
Accommodation costs, rent, rates etc.	0
Office service costs	19,000
Depreciation and cost of capital charges	0
Other non-cash items eg auditors' remuneration	23,850
Total	288,054

NDPB expenditure, including the administrative costs of all FCO NDPBs, is classified as "non-identifiable" for the purposes of public expenditure statistical analysis.

EU Agreements (Human Rights)

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what review mechanisms the EU has established to assess how its agreements with third countries are being implemented with regard to human rights. [39319]

Mr. Douglas Alexander: EU Heads of Mission and European Commission delegations report regularly on human rights issues in third countries. The EU holds regular political dialogue with all countries with which it has agreements, and this includes discussion of the relevant human rights provisions. Under the Barcelona Process, the EU is establishing sub-committees with all Mediterranean partners with functioning Association Agreements to monitor the implementation of their human rights commitments. The European Neighbourhood Policy, through its country-specific Action Plans, links the development of relations with the EU to economic and political reform, including human rights and democracy. The Partnership Agreement with African, Caribbean and Pacific countries (the Cotonou Agreement) provides under its Article 8 for a systematic dialogue on the three essential elements of human rights, democratic principles and rule of law, with formal consultation procedures which have already been invoked on a number of occasions. The Council's Working Group on Human Rights is also developing a regular overview of EU dialogues with third countries.

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received representations from the Euro-Mediterranean Human Rights network on their human rights review on the EU and Israel. [39320]

Mr. Douglas Alexander: On 9 December 2005, officials from the Foreign and Commonwealth Office met with representatives of the Euro-Mediterranean Human Rights network to discuss its human rights review. They discussed at length the recent agreement between the EU and Israel to establish a working group on human rights. My officials were grateful for the information provided by the Euro-Mediterranean Human Rights network and are in contact with them regarding specific human rights issues.

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on arrangements for assessing compliance with the terms of the EU-Israel Association agreement. [39321]

Mr. Douglas Alexander: The EU maintains a regular dialogue at official and ministerial level with Israel to monitor our respective commitments under the framework of the EU-Israel Association Agreement. In this respect, the EU-Israel Political Dialogue and Co-operation sub-committee met for the first time on 21 November 2005 to assess the implementation of the political clauses in the EU-Israel Association Agreement and the Israel European Neighbourhood Policy Action Plan. At the meeting, the EU and Israel proposed the creation of a new working group on human rights.

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the EU has set up a human rights sub-committee under the EU-Israel Association agreement. [39323]

Mr. Douglas Alexander: The EU and Israel agreed to establish a working group on human rights at the EU-Israel Political Dialogue and Co-operation sub-committee on 21 November 2005. The European

Commission will be consulting Israel and member states on the modalities of the EU-Israel Human Rights Working Group with a view to a meeting taking place in the first quarter of 2006. Reinforcing our dialogue with Israel on human rights through this working group will help to monitor the implementation of the relevant provisions of the EU-Israel Association Agreement.

EU Committees

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK Joint Ministerial Committee meetings regarding European Union issues have been held since 1 July 1999. [39218]

Mr. Douglas Alexander: No Joint Ministerial Committee (Europe) meetings were held in 1999 and 2000, two meetings were held in 2001, two in 2002, four in 2003, 11 in 2004 and nine in 2005.

Kyrgyzstan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the prospect for democratic change in Kyrgyzstan. [39696]

Mr. Douglas Alexander: As presidency of the EU, the UK noted that the presidential elections in July 2005 marked tangible progress by the Kyrgyz Republic towards meeting Organisation for Security and Co-operation in Europe commitments, as well as other international standards for democratic elections. The UK, both through the EU and bilaterally, is now encouraging the Kyrgyz Government to take forward the recommendations of the International Election Observation Mission and to pursue further democratic reform, including constitutional reform.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to foster democracy in Kyrgyzstan. [39697]

Mr. Douglas Alexander: The Foreign and Commonwealth Office (FCO) has funded a variety of projects to promote democracy and good governance in Kyrgyzstan. Up to £150,000 is available for smaller scale project work in these areas in Kyrgyzstan for 2005–06.

Projects completed in the current financial year have included electoral support initiatives, prison reform and media/freedom of expression projects. On-going projects cover voter education, advancing parliamentary accountability and dialogue between citizens and parliamentarians, and promoting the abolition of the death penalty. The FCO also funded 10 per cent. of the Office for Democratic Institutions and Human Rights election monitoring missions for both the Kyrgyz parliamentary and presidential elections in 2005. Additionally, the Department for International Development's programme work in Kyrgyzstan includes an allocation of £4.9 million over a five-year period aimed at the modernisation of public administration and promotion of transparent management of revenues by Government, both of which support democracy building.

Queen's Diamond Jubilee

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans are being discussed to celebrate throughout the Commonwealth the Diamond Jubilee of Her Majesty The Queen's Accession in 2012. [40535]

Mr. Douglas Alexander: Planning for the Diamond Jubilee in 2012 of Her Majesty The Queen's Accession has not yet started. However, I have no doubt that the suggestion of celebrations throughout the Commonwealth will be factored into the planning process.

UK Embassies/Consulates

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs how many consulates have *(a)* closed and *(b)* opened in the last 10 years. [39688]

Mr. Douglas Alexander: The Foreign and Commonwealth Office (FCO) has closed 11 and has opened six consulates in the last 10 years. The following table provides further details. Like any well-run organisation, the FCO continues to realign its resources flexibly in line with UK interests.

Consulates

	Country	*Closed*	*Opened*
1997–98	Colombia	Barranquilla[1]	
1998–99	Malaysia	Kuching	
	Thailand	Chiang Mai	
	Togo		Lome[1]
1999–2000	USA	Cleveland	
	China		Chongqing
	Japan		Fukuoka
	Sweden		Gothenburg
2000–01	Haiti		Port-au-Prince[1]
	USA		Denver
2004–05	Cameroon	Douala[1]	
	Portugal	Oporto	
2005–06	USA	Dallas	
	USA	San Juan[1]	
	Japan	Fukuoka[1]	
	Germany	Frankfurt	
	Germany	Stuttgart	
Total		11	6

[1] Consulates staffed by locally engaged staff only.

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* cultural and *(b)* military attaches are based at each UK embassy. [39689]

Mr. Douglas Alexander: Cultural work overseas is the lead responsibility of the British Council. The British Council has 291 UK-based staff working overseas. Whether or not such staff hold the formal title of Cultural Attache depends on various factors, including local diplomatic practice. The UK Defence Attache network consists of 123 posts. To obtain the information in the format requested would incur disproportionate costs as it is not held centrally.

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* non-UK citizens, *(b)* UK citizens, *(c)* non-EU citizens and *(d)* non-Commonwealth citizens are working at British embassies and consulates. [39690]

Mr. Douglas Alexander: The Foreign and Commonwealth Office employs 12,973 staff overseas, of which 2,910 are UK-based and 10,063 are locally employed. UK-based staff are British citizens. Local Staff nationality records are not maintained centrally but are held at individual posts. This information could therefore only be obtained at disproportionate cost.

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* embassies and *(b)* consulates there are outside capital cities. [39691]

Mr. Douglas Alexander: The British embassy in Kazakhstan is in Almaty. We are planning to move to the new capital Astana in the course of 2006. There are 65 United Kingdom consulates outside capital cities.

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* embassies and *(b)* consulates are shared with another country. [39932]

Mr. Douglas Alexander: I refer the hon. Member to the reply I gave the hon. Member for Eastleigh (Chris Huhne) on 30 November 2005, *Official Report*, column 646W.

HOUSE OF COMMONS COMMISSION

Departmental Expenditure

Mr. Spellar: To ask the hon. Member for North Devon, representing the House of Commons Commission how much the Commission spent on bottled water in 2004–05. [40332]

Nick Harvey: The cost of providing bottled water for Westminster Hall, Committee and other meeting rooms in 2004–05 was £11,400.

Energy Wastage

Mr. Rogerson: To ask the hon. Member for North Devon, representing the House of Commons Commission what steps the Commission is taking to limit energy wastage on the Parliamentary Estate; and if he will make a statement. [40464]

Nick Harvey: A range of measures are being taken to improve energy efficiency on the Parliamentary Estate. A new Energy and Water Saving Policy which contains targets for energy consumption, water consumption and carbon emissions was adopted in late 2005 by both Houses. These targets mirror those set by most Government Departments as proposed in the 'Framework for Sustainable Development on the Government Estate', published by DEFRA.

Consultants have been recently appointed to advise on the renewal of the current basement heating and cooling systems and the Carbon Trust has been working with the Parliamentary Estate since 2004 to advise on methods to reduce energy consumption and carbon emissions. Recently consultants have advised on heating controls, kitchen energy use and heating, ventilation and air conditioning plant and have identified scope for energy consumption reduction in some areas.

To raise staff awareness of the importance of energy efficiency the Parliamentary Estates Directorate is embarking on an awareness campaign. The December 2005 issue of 'inHouse', the staff magazine for the House of Commons and the House of Lords, contained an article on the Parliamentary Estate's Energy Savers Group. Guest speakers are to be invited to make presentations on environmental issues to staff every few months. The first presentation was made by Professor David Bellamy on 21 November 2005, entitled "Sustainability and governance" and was very well received. A second speaker, Dave Hampton has been asked to make a presentation during February 2006 on reducing carbon emissions.

Mobile Phones

Sarah Teather: To ask the hon. Member for North Devon, representing the House of Commons Commission how many mobile telephones are *(a)* rented and *(b)* owned by the House authorities; and what the total cost was in 2004–05. [40407]

Nick Harvey: At 1 January 2006 the Parliamentary ICT service provided 275 mobile phones for use by staff of the House of Commons and the Parliamentary ICT service itself. All these telephones are owned by the House authorities. No mobile telephones are rented.

The cost of the service in 2004–05 was around £54,600.

Office Equipment

Lynne Featherstone: To ask the hon. Member for North Devon, representing the House of Commons Commission how *(a)* computers, *(b)* printers, *(c)* telephones and *(d)* office furniture no longer required by the House Estate are disposed of; how many computers have been disposed of in the last 10 years; and if he will make a statement. [39064]

Nick Harvey: The House of Commons currently has a number of arrangements in place for the disposal of computers and printers. All of these ensure that the equipment is disposed of in a secure and environmentally sound manner. If possible equipment is offered for resale Member's equipment with useful life remaining is redeployed within the House Administration. There is no record of the number of computers disposed of across the House during the last 10 years.

Telephone handsets are refurbished and reused if possible and otherwise disposed of safely. Redundant mobile telephones are sent for recycling and the proceeds are donated to the children's ward at St. Thomas's Hospital. Office furniture is sold at auction by a Government approved auction house.

Project Costs

Mr. Andrew Turner: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 5 December 2005, *Official Report*, column 1369W, on project costs, if he will list *(a)* the 250 readily identifiable projects and *(b)* other construction projects costing in excess of £100,000. [38368]

Nick Harvey: A list of the 250 readily identifiable projects has been placed in the Library. This list includes construction projects costing in excess of £100,000.

DEPUTY PRIME MINISTER

Administration Costs

Angus Robertson: To ask the Deputy Prime Minister which functions of his core Department are carried out in *(a)* England and *(b)* London; and what administration costs were associated with these functions for each area in the last year. [39818]

Jim Fitzpatrick: The objectives of the Office of the Deputy Prime Minister (ODPM) are set out in the "Office of the Deputy Prime Minister: Annual Report 2005" (Cm 6526, June 2005).

The total net administration costs incurred by ODPM (excluding the Government Offices for the Regions) for 2004–05 were £166,963,000. ODPM does not monitor the regional breakdown of administration costs relating to the central Department. Such a breakdown could be obtained only at disproportionate cost.

Stewart Hosie: To ask the Deputy Prime Minister what the total administration costs for his core Office are; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39843]

Jim Fitzpatrick: The total net administration costs incurred by the Office of the Deputy Prime Minister (excluding the Government Offices for the Regions) for 2004–05 were £166,963,000.

For the purposes of public expenditure statistical analyses, 67 per cent. of these costs are identifiable and 33 per cent. are non-identifiable.

Mr. MacNeil: To ask the Deputy Prime Minister what the administrative costs were of each agency for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39852]

Jim Fitzpatrick: In 2004–05, gross administrative costs for executive agencies sponsored by the Office of the Deputy Prime Minister were as follows:

Executive agencies	*Admin costs (gross) (£)*
The Fire Service College	[1]4,786,000
The Planning Inspectorate	[1]47,670,000
The Queen Elizabeth II Conference Centre	[2]6,710,000
Total	59,166,000

[1] identifiable
[2] non-identifiable

Mr. Salmond: To ask the Deputy Prime Minister what the administrative costs were of each non-departmental public body for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40061]

Jim Fitzpatrick: In 2004–05, administrative costs for executive non-departmental public bodies (NDPBs) sponsored by the Office of the Deputy Prime Minister (ODPM) were as follows:

Executive NDPBs	*Admin costs (£)*
English Partnerships	[1]40,000,000
The Housing Corporation	[1]42,341,000
The Leasehold Advisory Service	[1]781,162
London Thames Gateway Development Corporation	[1]1,234,320
The Standards Board for England	[2]9,534,000
Stonebridge Housing Action Trust	[1]3,733,000
Thurrock Thames Gateway Development Corporation	[1]1,125,099
West Northants Development Corporation	[1]109,190
The Valuation Tribunal Service	[2]10,793,000
Total	109,650,771

[1] identifiable
[2] non-identifiable

Cleveland Fire Authority

Mr. Iain Wright: To ask the Deputy Prime Minister what plans he has to re-examine to top-up the proposed changes to the 'A' risk formula grant share in relation to Cleveland Fire Authority in the light of the Hemel Hempstead oil depot fire. [39156]

Jim Fitzpatrick: The category classification of risk is obsolete and therefore the 'A' risk indicator is no longer used in the formula grant calculations.

Following full public consultation over the summer, my hon. Friend the Minister for local government confirmed on 5 December 2005 that the Office of the Deputy Prime Minister propose an indicator to measure top tier control of major accident hazards (COMAH) sites per head as the high risk top up element in the formula.

The Office of the Deputy Prime Minister will consider all points raised in the current consultation before putting forward our proposed formula for use in 2006–07 and 2007–08, which the House will have the opportunity to debate.

Departmental Mobile Phones

Sarah Teather: To ask the Deputy Prime Minister what the criteria are for allocating mobile telephones to staff in his Department. [40391]

Jim Fitzpatrick: A business justification must be provided to support the purchase of mobile phones. The justification must include; why the provision of a mobile phone is necessary, the type of equipment to be provided and which members of staff will make use of the phone.

Sarah Teather: To ask the Deputy Prime Minister how many short message service messages were sent via mobile telephones owned by his Department in the last year for which figures are available. [40392]

Jim Fitzpatrick: The information requested is not held centrally, and could only be provided at disproportionate cost.

Faith Communities

John Battle: To ask the Deputy Prime Minister if he will list the publications his Department and its predecessors have produced relating to faith communities since 1989. [35352]

Jim Fitzpatrick: The Office of the Deputy Prime Minister was established on 29 May 2002, since then the publications produced relating to faith communities are as follows:

2002—The Community Cohesion Guide' Report of the ICRC Community Cohesion Seminar in Bradford.

2004—ODPM Home Office revised version of the Community Cohesion Guide. Tools for Regeneration—A Holistic Approach to Faith Communities'.

2005—Diversity and Neighbourhood Renewal fact-sheet. 'The Local Inter-Faith Guide: Community Co-operation in Action'. This was produced with the Inter-Faith Network for the UK.

Local Government Finance

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the cost was of supporting borrowing by local authorities in England and Wales for each year since 1997; and what estimates have been made for each of the next five years. [40868]

Mr. Woolas: Government support for borrowing by local authorities is issued as part of the Revenue Support Grant Settlement. Revenue Support Grant is an unhypothecated resource and therefore it is not possible to separately identify figures for the costs of supported borrowing. Neither are there estimates of supported borrowing for future years.

TRADE AND INDUSTRY

Centre for Ecology and Hydrology

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry what steps he is taking to ensure that the quality of British environmental science is not harmed by the proposed closure of the Centre for Ecology and Hydrology at Monks Wood; and if he will make a statement. [39547]

Barry Gardiner *[holding answer 9 January 2006]:* The Government are fully committed to maintaining the quality of environmental science in the UK and provides funding to the Natural Environment Research Council for this purpose. NERC is currently consulting widely with stakeholders on proposals on how best the Centre for Ecology and Hydrology can contribute on a sustainable basis to this. I am sure that NERC Council will consider all evidence and views on the potential impact of the proposals, including proposals for the closure of the CEH site at Monks Wood.

Commission for Equality and Human Rights

Ms Abbott: To ask the Secretary of State for Trade and Industry what assessment he has made of the merits of a statutory race Committee in relation to the proposed Commission for Equality and Human Rights; and if he will make a statement. [39418]

Meg Munn: The Government believe that Committees can play a valuable role in supporting the work of the Commission for Equality and Human Rights through enabling engagement with the communities it serves and ensuring that they can contribute to its strategy and policies. It has therefore provided wide ranging and flexible powers in the Equality Bill for the Commission, as an independent body, to establish Committees as it sees fit and to delegate functions to them. It will be open to the Commission to decide to establish a Committee to oversee its race equality work including its partnership with the Racial Equality Councils and its role in promoting good relations between communities.

Data Storage

Mr. Duncan: To ask the Secretary of State for Trade and Industry what steps his Department has taken to ensure that users of internet data storage companies are informed of the data protection legislation governing providers based in the EU and US. [39427]

Alun Michael *[holding answer 9 January 2006]:* Enforcement and guidance regarding the Data Protection Act, which is derived from the EU Data Protection Directive, is the responsibility of the Information Commissioner, details of the Commissioner's work can be found at (http://www.informationcommissioner.gov.uk/). The Data Protection Act puts an obligation on UK-based companies to ensure that data is adequately protected, regardless of where the data are stored.

Advice regarding data protection legislation has been provided as part of the DTI's information security business advice web pages (http://www.dti.gov.uk/industries/infonnation_security/) and through various information security publications. The advice is generic and not targeted at any specific sector. It's based upon how Information Security standard BS 7799 can contribute towards meeting the security requirements of the UK Data Protection Act.

Mr. Duncan: To ask the Secretary of State for Trade and Industry what steps his Department has taken to encourage the development of the UK data storage industry. [39733]

Alun Michael *[holding answer 9 January 2006]:* The DTI's Technology Programme supports strategically important technologies and knowledge transfer, often cutting across the needs of specific sectors. The Programme aims to fund industry-academic collaborative research and development projects focusing on industrially relevant leading-edge technology development. It is currently funding a £10 million competition focusing on "Data and Content Storage, Management, Retrieval and Analysis".

In addition, UK Trade and Investment aims to attract key businesses to set up or extend high value added operations in the UK, as well as to market the strengths of the UK's ICT sectors generally. Activities include inviting overseas companies that are interested in buying from, partnering with or exchanging technology to the UK to meet with UK companies. The UK has attracted and retained several businesses with interests in data storage. Notable examples are, Hewlett Packard, which conducts storage research within its laboratories in Bristol, Seagate Technologies which manufactures key magnetic components in Northern Ireland and an

Atlanta based company called Iron Mountain who recently established a data storage centre in Scotland, providing 100 jobs.

The Government recognises that information technology more widely is a key source of business competitiveness and productivity and is backing a coherent strategy and action plan for IT skills, spearheaded by e-Skills UK, the Sector Skills Council for IT, Telecoms and Contact centres. Employers across the sector are pledging support for the concept of an e-Business Academy as a national hub for IT-related skills development and support.

Departmental Expenditure

Norman Lamb: To ask the Secretary of State for Trade and Industry pursuant to his answer on 31 October 2005, *Official Report*, column 698W what the total cost of *(a)* publications and *(b)* surveys by his Department were including (i) commissioning costs and (ii) printing costs. [28889]

Alan Johnson: To distinguish between surveys and other types of publications and to identify separate costs for commissioning and printing could only be done at disproportionate cost as this information is not held centrally.

Pursuant to my answer on 31 October 2005, when I informed you that between 1 January 1997 and 20 October 2005, the number of titles produced by my department was 10,066, the total cost of producing these titles including commissioning and printing amounted to £66,007,130. This equates to an average cost of £6,600 per title.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many meetings of the *(a)* Standing Committee for the approximation of the laws of the member states concerning pressure equipment, *(b)* Committee on electronic signatures and *(c)* Advisory Committee on the implementation of open network provision (ONP) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [39005]

Alun Michael: The information is as follows:

(a) The mandate of the pressure equipment Standing Committee is contained in Article 7.2 of the Pressure Equipment Directive 97/23/EC. The provisions of this Article have not yet been put into effect and the Committee has therefore never met.

(b) The Electronic Signatures Committee, set up under Article 9 of Directive 1999/93/EC, did not meet during the UK presidency.

(c) The Advisory Committee on the implementation of open network provision (ONP) did not meet during the UK presidency.

No provisions would have been made for representation of the devolved governments as these are not devolved issues.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many meetings of the *(a)* Committee for the adaptation to technical progress of directives on the removal of technical barriers to trade in the sector of measuring instruments and methods of metrological control; *(b)* Committee for the adaption to technical progress of directives on the removal of technical barriers to trade in the sector of construction plant and equipment and *(c)* Committee for the adaption of technical progress of directives on the removal of technical barriers to trade in the sector of pressure vessels have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [39007]

Alun Michael: The information is as follows:

(a) Unfortunately it is not possible to identify a committee which precisely fits the description provided. However no meeting of the Measuring Instruments Committee set up under directive 2004/22/EC (concerning measuring instruments and methods of metrological control) have taken place in the UK presidency.

(b) Unfortunately it is not possible to identify a committee which precisely fits the description provided. The sort of plant and equipment mentioned might typically fall under the scope of directive 98/37/EC on the approximation of the laws of the member states relating to machinery. The Standing Committee set up under Article 6 of this directive met in Brussels on 11–12 October 2005. The meeting was chaired by the European Commission and one official from the Department of Trade and Industry and one from the Health and Safety executive represented the United Kingdom.

(c) There is no 'pressure vessels directive' and so there is no such Committee. There is a Simple Pressure Vessels Directive (87/404/EEC) but this does not include any provision for such a Committee to be established. Issues concerning the administration of 87/404/EEC would, in principle, be handled by the Committee provided for under the Pressure Equipment Directive (97/23/EC). I am responding separately to the hon Member's question about the Directive.

No provisions were made for representation of the devolved governments as these are not devolved issues.

Foreign Registered Companies

Peter Law: To ask the Secretary of State for Trade and Industry if he will list foreign registered companies that have received a grant from each regional development agency (RDA) in each year since RDAs were created. [35836]

Alun Michael: England's regional development agencies do not generally keep details of companies based on country of registration for all their programmes.

Internet Rogue Dialling

Mr. Bone: To ask the Secretary of State for Trade and Industry if he will take steps to compensate victims of internet rogue dialling. [40298]

Alun Michael: In the first instance it is a matter for the telecoms companies to resole the problems their own customers may face with charges from internet rogue diallers. Customers with disputed bills can use the alternative dispute resolution schemes, of which all telecoms companies are members, to sort out disagreements.

The Government have taken action to ensure consumers are adequately protected from internet rogue diallers. As a result of discussions with ICSTIS, the

premium rate services regulator, a prior permission scheme for internet diallers was put in place in August 2004. This means that all diallers have to be approved by ICSTIS before they can be released. ICSTIS can order service providers to pay redress if they breach the Code, with the threat of automatic barring from providing any premium rate service if they default. The number of complaints has fallen dramatically since the scheme was introduced in August 2004. Complaints to ICSTIS fell to a low of about 50 per month in recent months, down from 10,000 per month when this problem was at its peak in 2004. The Government also asked the media and telecoms regulator, Ofcom, to review premium rate regulation in August 2004.

Ofcom made a number of recommendations to reduce the scope for consumer harm. Many of these recommendations have already been implemented including raising the maximum penalty to £250,000 for those that abuse premium rate services. The flow of funds from network operators to service providers has now been slowed down. This will keep money in the system, which can then be used to pay redress to consumers who have been the victims of a scam. New rules on compensation for consumers who have been subject to a scam are being implemented. This change will mean that not only will ICSTIS be able to order refunds from service providers but also to collect the money from the telecoms companies to compensate consumers if it is not forthcoming from the service provider.

Mr. Bone: To ask the Secretary of State for Trade and Industry what measures the Government are taking to tackle internet rogue dialling. [40300]

Alun Michael: The Government have taken action to ensure consumers are adequately protected from internet rogue diallers. As a result of discussions with ICSTIS, the premium rate services regulator, a prior permission scheme for internet diallers was put in place in August 2004. This means that all diallers have to be approved by ICSTIS before they can be released. ICSTIS can order service providers to pay redress if they breach the Code, with the threat of automatic barring from providing any premium rate service if they default. The number of complaints has fallen dramatically since the scheme was introduced in August 2004. Complaints to ICSTIS fell to a low of about 50 per month in recent months, down from 10,000 per month when this problem was at its peak in 2004. The Government also asked the media and telecoms regulator, Ofcom, to review premium rate regulation in August 2004.

Ofcom made a number of recommendations to reduce the scope for consumer harm. Many of these recommendations have already been implemented including raising the maximum penalty to £250,000 for those that abuse premium rate services. The flow of funds from network operators to service providers has now been slowed down. This will keep money in the system, which can then be used to pay redress to consumers who have been the victims of a scam. New rules on compensation for consumers who have been subject to a scam are being implemented. This change will mean that not only will ICSTIS be able to order refunds from service providers but also to collect the money from the telecoms companies to compensate consumers if it is not forthcoming from the service provider.

Mr. Bone: To ask the Secretary of State for Trade and Industry what estimate he has made of the cost of internet rogue dialling to consumers in each year since 2003; and how many consumers he estimates were affected in each year. [40301]

Alun Michael: Internet rogue diallers are regulated by the premium rate services regulator, the Independent Committee for the Supervision of Standards of Telephone Information Services (ICSTIS).

ICSTIS has no information on the cost of Internet rogue diallers to consumers either as a cumulative figure or in year on year statistics.

ICSTIS is not in possession of sufficient information to estimate the number of consumers affected by rogue diallers though ICSTIS does record and investigate all complaints that the public submit.

To this end, ICSTIS received the following numbers of complaints about dialler services in the years 2003 until 2005.

	Number
2003	4,600
2004	57,750
2005	4,550

As the figures clearly demonstrate, ICSTIS received record numbers of complaints about dialler services during 2004, which resulted in the introduction of a prior permission regime by ICSTIS for the software that enabled these services. This includes prominent pricing and premium rate number information prior to access of the service as well as the requirement to provide an on-screen clock that displays call duration and cumulative costs for a user.

The level of complaints in 2005, demonstrates the impact that ICSTIS has had on the number of complaints received from members of the public.

In the first instance it is a matter for the telecoms companies to decide how to resolve the problems facing their own customers over charges from Internet rogue diallers. Customers with disputed bills can use the services of the alternative dispute resolution schemes, of which all telecoms companies are members, to sort out disagreements. New rules on compensation for consumers who have been subject to a scam are also being implemented by ICSTIS. This change will mean that not only will ICSTIS be able to order refunds from service providers but also to collect the money from the telecoms companies to compensate consumers if it is not forthcoming from the service provider.

Natural Environment Research Council

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry what total financial support from public funds was allocated to the Natural Environment Research Council in each of the last five years. [39548]

Barry Gardiner *[holding answer 9 January 2006]:* Amounts allocated to the Natural Environment Research Council (NERC) from the Science Budget are as follows (as set out in the Science Budget allocations publications, http://www.ost.gov.uk/research/funding/budget01-04/index.htm.)

Science budget	*£ million*
2000-01	181.8
2001-02	192.9
2002-03	205.4
2003-04	264.1
2004-05	314.2

In addition, NERC receives public funding from a number of other Government Departments and agencies.

Retirement Age (Public Sector Workers)

Mr. Holloway: To ask the Secretary of State for Trade and Industry whether the retirement age for existing public sector workers will remain at 60 years. [34655]

Mr. Des Browne: I have been asked to reply.

Retirement age is not the same as the normal pension age but simply the age at which workers leave the labour market. The normal pension age is the age at which scheme members can draw an unreduced pension from the scheme—this has been the subject of recent negotiations.

On 18 October 2005 the Government reached agreement with unions on a set of principles underpinning reform in the civil service, NHS and teachers pension schemes. The main focus of that agreement was the proposed increase in the normal pension age from 60 to 65. The TUC accepted that new schemes for new entrants would have a normal pension age of 65, and that these schemes would be launched as soon as practicable following a period of scheme-specific consultation to be completed by June 2006. Existing staff are not being compelled to move to a normal pension age of 65. Other aspects of scheme reform, apart from the normal pension age issue, will be considered in scheme specific negotiations to be completed as soon as practicable.

Technology Programme

Kitty Ussher: To ask the Secretary of State for Trade and Industry how many projects have been funded through his Department's technology programme and its nearest equivalent predecessors in *(a)* small and medium-sized enterprises, *(b)* other businesses, *(c)* universities and *(d)* other organisations in each year since 1997; what the total sums awarded were in each case; and what the total value was of contributions to funded projects required from participants in each case. [35497]

Alun Michael: Substantive information addressing sizes and type of organisation offered support, sums involved and contributions from recipient organisations is contained in Annex A to the annual report of the Technology Strategy Board which is in the Libraries of the House. Work is progressing on a catalogue of support for applications to the first three competitions are due to be published in March 2006.

Kitty Ussher: To ask the Secretary of State for Trade and Industry how much funding was provided for each individual project that has been awarded funds under his Department's technology programme; over how many years this funding is provided for the project; what the name is of each participant in the project; what category of organisation each falls into; how much funding was provided to each participant; and what the value was of each contribution required to be made by a participant in each case. [35498]

Alun Michael: The restricted commercial nature of support offered by the technology programme to consortia and the stage reached by them accepting and confirming their intra-project collaborations, prevents the release of detailed information on individual projects. However, substantive information addressing sizes and types of organisations offered support, sums involved and contributions from recipient organisations is contained in Annex A to the annual report of the Technology Strategy Board which is in the Libraries of the House. Work is progressing on a catalogue of support for applications to the first three competitions are due to be published in March 2006.

Temporary Migration

Dr. Kumar: To ask the Secretary of State for Trade and Industry what steps he has taken to encourage temporary migration by workers from abroad. [33418]

Mr. Sutcliffe: While the Home Office has lead responsibility for migration policy, my officials are working closely with their Home Office colleagues to ensure that the needs of business for migrant workers are taken into account.

The UK needs migration—tourists, students and migrant workers make a vital contribution to the UK economy. We need to ensure, however, that while we let in migrants with the skills and talents to benefit Britain we stop those who are trying to abuse our hospitality and place a burden on our society.

The aim is to ensure that those who can contribute most to the UK are selected for entry and that the country takes in only as many people as our economy needs at any one time.

The 5-year strategy on Immigration and asylum published in February 2005 set out the next stage of the Government's comprehensive reform of the UK's immigration and asylum system of which the points-based selective migration system was a part. It puts the interests of Britain first with strict controls that work.

The main aims of the new points-based system will be, to:

improve public confidence in the system;

fill skills gaps;

attract highly productive and highly skilled workers and students;
attract investment and increase productivity and flexibility in the labour market; and
ensure people leave at the end of their stay.

The new system will be clearer and more transparent and easier for applicants and employers to understand and use and there will be more objective and easily verifiable criteria.

The consultation period on the consultation document "Making Migration Work for Britain" closed on 7 November. The Home Office are now analysing all the responses received. We anticipate the Government response to the consultation exercise will be published in the new year, together with a clearer timetable for the next steps. We will continue to consult with key stakeholders on specific issues as we formulate our response and during future stages of the process.

We are also aware that migrant workers may face difficulties in understanding and asserting their rights. We have offered to work with the Governments of all the new member states, to prepare bi-lingual "know before you go" leaflets, giving advice on questions to ask before leaving the country and on legal protections offered to workers including agency workers. It is particularly important to reach workers in the host country before they leave as it is often much harder to help workers, who may not speak English and have no accommodation arranged, once they arrive.

To date we have produced leaflets in partnership with the Polish and Lithuanian Governments. These followed a similar leaflet we produced in partnership with the Portuguese Government, and benefited from input from the TUC, the CBI and other stakeholders. These have been distributed widely in both the workers' home country and the UK. In Poland, for example, they have been publicised on television and our embassy and the Polish authorities have worked hard to distribute them via job centres, recruitment fairs and other channels. The text of the leaflets is also available on the DTI website—ttp://www.dti.gov.uk/er/agency/migrant_workers.htm

CULTURE, MEDIA AND SPORT

2012 Olympics

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what provision she is making for access for disabled and elderly spectators at the Olympics in 2012. [40603]

Tessa Jowell: Provisions for disabled people and the elderly are based on the successful 'Games Mobility' model used at the Manchester Commonwealth Games in 2002. This will operate throughout both the 2012 Olympic Games and Paralympic Games and covers every spectator service from disability awareness training for staff, inclusive ticketing processes, special transport and drop-off systems. Among other things, the service will include pre-booking of various forms of wheelchair; bookable access to individual electric buggies for transfers to competition venues; provision of personalised travel plans at the point of event ticket purchase; provision of wide access at airport-style security screening; appropriate signposting; audio-visual information provision; and induction loops at stations.

Transport plans for the Olympic Games and Paralympic Games will provide excellent access for all spectators and all competition venues will be served by fully accessible transport options. Mobility impaired spectators travelling by car will either be able to park close to venues or at spectator transport malls, and use Games Mobility facilities to transfer to public transport.

The interim Olympic Delivery Authority is developing its approach to the design of the Olympic Park and venues to ensure they are accessible environments, the principles for which will be contained in the 'Access for All' strategy which is currently being prepared as part of the planning process. This strategy is expected to be ready later this year.

Libraries

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many *(a)* books, *(b)* DVDs, *(c)* video cassettes, *(d)* computer games and *(e)* audio books have been available in library service stock in (i) Brent and (ii) London in each year since 1997. [40679]

Mr. Lammy: I refer the hon. Member to the answer I gave her on 1 November 2005, *Official Report*, column 899W, on the total book stock held by libraries across inner and outer London and my answer to her of 21 November 2005, *Official Report*, column 1612W, on audio-visual materials held by Brent Libraries and by other libraries across Greater London. The numbers of books held by Brent from 1997–98 is shown in the table. Information about the number of computer games is not held centrally. However, the number of multi-media, open learning and language packs and, separately, CD-Roms and Software items held by Brent Libraries and those in the rest of Greater London (including Brent) is shown in the table.

	Total bookstock held by Brent libraries
1997–98	579,669
1998–99	644,330
1999–00	532,094
2000–01	483,798
2001–02	466,792
2002–03	451,221
2003–04	443,185

	Brent		*Greater London*	
	Multi-media, opening learning and language packs	*CD-roms and software*	*Multi-media, opening learning and language packs*	*CD-roms and software*
1997–98	[1]—	[1]—	17,567	4,607
1998–99	536	103	20,369	5,767

Public Service Agreement

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how her Department defines high quality for the purposes of its public service agreement performance target 1; and if she will make a statement. [40253]

Mr. Caborn: The document 'High Quality PE and Sport for Young People—A Guide to recognising and achieving high quality PE and sport in schools and clubs' (DfES/DCMS, March 2004), provides a detailed description of the outcomes of high quality physical education and school sport. For the purposes of the joint DCMS/DfES PE and school sport public service agreement target, high quality PE and school sport produces young people with the skills, understanding, desire and commitment to continue to improve and achieve in a range of PE, sport and health-enhancing physical activities, in line with their abilities.

A further document, 'Do You Have High Quality PE and Sport in Your School—A guide to self-evaluating and improving the quality of PE and school sport' (DfES/DCMS, January 2005), helps teachers to use the pupil outcomes of high quality to carry out self-evaluation of the quality of PE and sport they provide. Copies of these documents have been placed in the Libraries of both Houses.

INTERNATIONAL DEVELOPMENT

Debt Management

John Bercow: To ask the Secretary of State for International Development what steps have been taken by his Department to disseminate best practice on debt management. [40595]

Hilary Benn: We have established procedures and guidance on debtor management and these are linked into specific targets. Quarterly senior management reports include data on debtors to ensure that debtor management has a high profile within DFID.

Our Finance Training Strategy provides for debtor management training. Training is modular based and is linked into our systems and procedural training. There are also e-modules aimed at ensuring information and guidance is widely available across DFID.

Departmental Estate

Pete Wishart: To ask the Secretary of State for International Development if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by his Department and *(y)* claimed by the Treasury. [40147]

Mr. Thomas: DFID did not bring to book its assets until 2001–02 so any disposals before that are not recorded within the accounts. We have not sold any properties or land since that time.

There are no DFID Agencies, or non-departmental public bodies (NDPBs) who own properties or land. DFID wholly owns the CDC Group plc, which sold the lease on its London headquarters building in 2004. The proceeds of the sale were £24.5 million which was retained by the CDC. No estimate of the current value of this building is available, but in any event this would be misleading as it has undergone significant refurbishment since the sale.

Departmental Expenditure

Pete Wishart: To ask the Secretary of State for International Development what the annual expenditure on training and development by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005–06. [40001]

Hilary Benn: The Department for International Development (DFID) does not currently hold all training and development cost details centrally, and we do not have a breakdown by UK region.

As far as we are able to ascertain from our individual Divisional records, expenditure for training and general staff development throughout DFID during the last three financial years was as follows:

Financial year	*Training and other staff development (£ million)*
2002–03	[1]2.28
2003–04	5.22
2004–05	5.7
2005–06[2]	5.6

[1] The method of acquiring, recording and reporting information on costs changed during 2002–03, providing for a higher degree of accounting accuracy for subsequent years.

[2] Planned.

EU Agricultural Trade Policies

Adam Afriyie: To ask the Secretary of State for International Development if he will take steps to encourage the EU to adopt a rigid timetable for the liberalisation of its agricultural trade policies. [38726]

Mr. Thomas: The Government are working hard to encourage the EU to liberalise its agricultural trade policies, including through promoting reform of the Common Agricultural Policy (CAP) as well as continuing to press for an ambitious outcome in the overall round of current World Trade Organisation (WTO) talks beyond that just concluded at the WTO ministerial meeting in Hong Kong.

HM Treasury and the Department for the Environment, Food and Rural Affairs (DEFRA) released in December 2005, "A Vision for the Common Agricultural Policy", to stimulate further debate in the EU. In the document the Government have laid out how, within the next 10 to 15 years, we will work towards promoting a European agricultural industry which does not distort international trade and the world economy. In addition, in the context of the WTO, we have successfully worked with EU member states, the European Commission and other WTO members in Hong Kong to agree an end date of 2013 for all forms of agricultural export subsidy, with a substantial part to be phased out by 2010. These are the most unfair and distorting of agricultural subsidies.

HIV/AIDS (China)

John Bercow: To ask the Secretary of State for International Development what recent discussions he has had with the Government of China on tackling HIV/AIDS. [40590]

Mr. Thomas: I refer the hon. Member for Buckingham to the response I gave to my hon. Friend for Hartlepool on 8 December 2005, *Official Report*, column 1488w.

DFID frequently discusses the HIV and AIDS situation with the Chinese authorities. During my visit to China last month, I had a specific discussion on 2 December with the vice minister of health, Mr. Huang Jiefu.

Pakistan (Earthquake)

Sarah Teather: To ask the Secretary of State for International Development what aid his Department is giving to the Government of Pakistan to enable victims of the earthquake in Pakistan to be moved away from affected areas by road. [40797]

Mr. Thomas *[holding answer 9 January 2006]:* DFID has provided financial assistance to the United Nations, Non-Government Organisations (NGOs), the International Committee of the Red Cross (ICRC) and the International Federation of Red Cross and Red Crescent Societies. This support (both financial as well as in-kind support) has enabled them to provide assistance to the affected population whether this is in their places of origin or in the areas to which they have been displaced. In some cases this has included activities such as medical evacuation undertaken either by road or by helicopter.

In addition, we have provided targeted support to the International Community's overall logistic (including transport) capacity which has supported the Government of Pakistan's overall efforts to bring assistance to the affected population.

Sarah Teather: To ask the Secretary of State for International Development how many helicopters the British Government have made available for relief efforts in the Pakistan earthquake zone; what plans he has to change *(a)* the number of helicopters available and *(b)* the frequency of aid flights that they make; and if he will make a statement. [40798]

Mr. Thomas *[holding answer 9 January 2006]:* DFID worked to ensure that helicopters were available as quickly as was possible. It was important however to ensure that only those helicopters that were suitable to the task were sent. Once DFID identified two available PUMA helicopters, it tasked the Ministry of Defence to airlift them from Spain to Islamabad for use by the International Committee of the Red Cross (ICRC). These arrived on 17 October. In addition, DFID committed £1 million to the World Food Programme (WFP) and £2.5 million to the ICRC, both of which included support to helicopter provision, and £1.7 million to United Nations Humanitarian Air Service (UNHAS) specifically for helicopters. Three Chinook helicopters were also provided through the Ministry of Defence from 25 October until 28 November to transport relief items and carry out medical evacuations.

The priority now is to ensure that there is enough helicopter capacity to continue delivery of assistance to remote areas throughout the winter period which lasts until March. Therefore DFID, at the request of the WFP, contracted four helicopters for four months (80 flying hours per helicopter per month), from 24 November as part of a £5.5 million package of support to UNHAS.

Palestine

Mr. Andrew Smith: To ask the Secretary of State for International Development what steps he has taken to ensure that *(a)* UK and *(b)* EU assistance to agencies working in Palestinian territories complies with International Court of Justice injunctions in relation to the wall constructed by Israel. [39322]

Hilary Benn: The International Court of Justice's (ICJ) Advisory Opinion of 9 July 2004 recognised two legal obligations for states operating in the occupied Palestinian territories: not to recognise the illegal situation resulting from the construction of the barrier; and not to render aid or assistance in maintaining the

situation created by such construction. In addition, states who are parties to the fourth Geneva convention are required to ensure Israel's compliance with international humanitarian law as embodied in that convention. The UK Government continue to urge Israel to route the barrier away from occupied territory. UK and EU assistance complies with the ICJ legal obligations.

Lynne Featherstone: To ask the Secretary of State for International Development what steps the Government take to ensure that aid to the Palestinian Authority is used for legitimate and accountable purposes; and if he will make a statement. [40814]

Hilary Benn: The Government are committed to ensuring that all UK development assistance is properly accounted for, used for the intended purposes and represents value for money.

Since 2004, all DFID financial support to the Palestinian Authority (PA) budget has been provided through a Reform Trust Fund managed by the World Bank. Funding is conditional on the achievement of benchmarks for reform, progress against which is carefully monitored. These conditions have helped the Palestinian Authority improve its financial control and management.

Other forms of DFID assistance for Palestinians are channelled through organisations whose accounts are independently audited.

Renewable Energy

Mr. Ancram: To ask the Secretary of State for International Development how many renewable energy projects his Department has undertaken since 1997; in what year each was undertaken; in what location; and what the *(a)* nature and *(b)* cost was of each project. [38224]

Mr. Thomas *[holding answer 19 December 2005]:* DFID has funded 22 energy projects since 1997 through our knowledge and research (KaR) programme. These had a total value of just under £3.4 million giving an average project value of £154,000. These projects covered a wide range of technologies including wind, small hydropower, solar photovoltaic and biomass. The following table shows a breakdown by year, location, nature of project and cost.

The projects typically covered a period of two or three years. Some involved the development and improvement of technologies while others studied the institutional and financial issues surrounding the greater deployment of renewable energy sources in developing countries. Most of the projects were carried out in developing countries, working with local organisations and community groups.

In addition, DFID funded the installation of three wind turbines to generate electricity on the island of St. Helena, completed in 1999. This was part of a wider (electricity) generation and load management project carried out at a capital cost of approximately £625,000.

Our overriding interest in energy is to improve access in developing countries to affordable and reliable energy services, especially to the poor and in support of pro-poor growth and social development. We are encouraging the World Bank, through our support to the energy sector management assistance programme (ESMAP), to give greater attention to renewable energy as part of their efforts to improve access to energy. The World Bank is scaling up its financial support for renewable energy and energy efficiency and has recently announced a rise to $748 million for the year to June 2005, compared to $339 million the previous year. This exceeds the commitment they made in 2004 to increase by 20 percent. per annum their renewable energy and energy efficiency investments over the next five years. We very much welcome this increased focus by the World Bank on clean energy investments.

We continue to work with various UK-based and international organisations and partnerships working towards the greater use of renewable energy as part of the effort to improve access to energy services.

DFID engineering knowledge and research projects in renewable energy since 1997

Start year	*Location*	*Nature of Project*	*Cost (thousand GBP)*
1997	Kenya	Renewable, general	292
1997	Nepal, Colombia, Peru	Hydro	178
1997	Various	Photovoltaic	62
1998	Peru, Sri Lanka	Wind	123
1998	China	Wind	50
1998	China, India, South Africa	Wind	104
1998	Kenya, Uganda, Ethiopia	Renewable, general	106
1998	Nepal, Sri Lanka	Hydro	90
1998	China	Hydro	59
1999	Sri Lanka, Zimbabwe, Peru, Kenya, Nepal	Renewable, general	114
1999	China , India, South Africa	Renewable, general	111
1999	Uganda, Zimbabwe	Biomass	137
1999	Various	Photovoltaic	70
2000	Various	Hydro	99
2000	Bangladesh, Vietnam	Biomass	248
2000	Bangladesh, Colombia, Ghana, Sri Lanka	Renewable, general	206
2001	Cuba, Colombia, Peru	Renewable, general	374
2001	Tanzania, Ghana, Kenya	Renewable, general	199

DFID engineering knowledge and research projects in renewable energy since 1997

Start year	Location	Nature of Project	Cost (thousand GBP)
2002	India	Hydro	149
2002	South Africa, India	Renewable, general	300
2002	Nepal, Sri Lanka, Ethiopia, Uganda	Renewable, general	235
2002	Vietnam, Philippines	Renewable, general	77
		Total	3,383

MINISTER FOR WOMEN

Equal Pay

Miss McIntosh: To ask the Minister for Women and Equality what the difference in pay was between *(a)* full-time and *(b)* part-time male and female workers in each year since 2001. [26801]

Meg Munn: The table shows the difference in pay between male and female full-time and part-time workers in the UK in each year since 2001. These figures are from the Annual Survey of Hours and Earnings from the Office for National Statistics.

The difference in pay between male and female part-time workers is less reliable than for full-time workers and there is more uncertainty in the trend over years for part-time workers. This is due to:

differences in life-time working patterns of male and female workers;

the number of male part-time workers being about 25 per cent. of the number of female part-time workers which results in lower sample sizes for male part-time workers.

	Full-time Median hourly earnings (£)			*Part-time Median hourly earnings (£)*		
	Male	*Female*	*Percentage difference*[1]	*Male*	*Female*	*Percentage difference*[1]
2005	11.31	9.84	-13.0	6.50	6.67	2.6
2004	10.97	9.38	-14.5	6.14	6.31	2.8
2003[2]	10.58	9.04	-14.6	6.00	6.08	1.3
2002[2]	10.26	8.67	-15.5	5.68	5.71	0.5
2001[2]	9.84	8.23	-16.4	5.30	5.50	3.8

[1] Difference between female and male median hourly earnings as a percentage of male median hourly earnings.
[2] Due to changes in survey methodology, estimates for years 2001 to 2003 are not entirely consistent with estimates for 2004 and 2005. Estimates are available on both the old and new basis for 2004. For 2004 the percentage difference for full-time workers is 14.1 per cent. when calculated on the 2001–03 basis, compared with the figure of 14.5 per cent. shown in the table, a change of 0.4 per cent.

TRANSPORT

Bus Travel

Stephen Hammond: To ask the Secretary of State for Transport how many bus passenger journeys there were in *(a)* 2000–01 and *(b)* 2004–05. [40841]

Ms Buck: There were 4,319 million bus journeys undertaken within Great Britain in 2000–01. The equivalent number in 2004–05 was 4,609 million.

Channel Tunnel Rail Link

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 24 November 2005, *Official Report*, column 2220W, on rail subsidies, whether the Government plans to make further grants available to London and Continental Railways Limited for the completion of the Channel Tunnel Rail Link construction of section 2. [39385]

Derek Twigg: In accordance with the 1996 Development Agreement, Government have continued to contribute towards the construction cost of the Channel Tunnel Rail Link by way of grants (£109 million in 2001, £444 million in 2002, £342 million in 2003 and £1,097 million in 2005), and is due to contribute a further £1,149 million before the completion of construction of section 2 in 2007.

In addition, from March 2005, Government have made a grant of up to £402 million available to London and Continental Railways Limited (LCR) to construct Temple Mills Depot. This asset will eventually transfer to LCR in exchange for Waterloo International Station and North Pole Depot.

Christmas Celebrations

David T.C. Davies: To ask the Secretary of State for Transport what steps the Department is taking to celebrate Christmas this year. [36749]

Ms Buck: The Department took a number of steps to celebrate Christmas last year, including publicising the Whitehall carol service and the DfT, ODPM and DEFRA carol service.

Concessionary Transport

Andrew Rosindell: To ask the Secretary of State for Transport what discussions he has held with Transport for London on discounted or free parking in London for resident pensioners. [40611]

Ms Buck: None, although Transport Ministers meet the Mayor and the Commissioner of Transport for London from time to time to discuss matters of mutual interest.

Responsibility for parking enforcement in London generally rests with the relevant borough. It is a matter for individual local authorities to decide on the nature and scope of parking controls and to balance the needs of residents, emergency services, local business and those who work in and visit the area.

Connex South Eastern Franchise

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 14 November 2005, *Official Report*, column 895W, on railways, how much his Department spent on external consultants in connection with the termination of the Connex South Eastern franchise under section 30 of the Railways Act 1993, broken down by consultancy. [39381]

Derek Twigg: The information is as follows:

	£
First Class Partnerships	670,000
PriceWaterhouseCoopers	595,000
KPMG	421,000
Linklaters	385,000
Eversheds	261,000
Clifford Chance	156,000
AB Publishing Ltd.	54,000
Hwe8 Ltd(J McLaren)	17,000
Total	2,559,000

Damages

Mr. Hayes: To ask the Secretary of State for Transport pursuant to the answer of 7 December 2005, *Official Report*, columns 1309–10W, on damages, if he will make a statement on each case to which he refers. [39719]

Ms Buck: The Department's policy is that damage claims are subject to special control procedures as laid out in government accounting, which is available at www.government-accounting.gov.uk. Every claim is looked at on a case-by-case basis, and following careful appraisal legal advice is sought where necessary. It would not be appropriate to reveal further specific details of individual cases where these would conflict with commercial or legal confidentiality.

Departmental Correspondence

Dr. Strang: To ask the Secretary of State for Transport what estimate he has made of how much correspondence from his Department was addressed to people who have *(a)* died and *(b)* moved house in each of the last five years. [40048]

Ms Buck: The Department does not keep a record of returned correspondence and is therefore unable to provide the information requested. The only exception is for vehicle registration documents transactions carried out by the Driver and Vehicle Licensing Agency, where all Post Office returned registration documents were analysed. This showed that, over the five years ending December 2005, a total of 533,864 (0.6 per cent.) of the 86,505,364 registration documents issued were undelivered.

Of these 84 were returned because the intended recipient had died and 71,812 because the intended recipient had "gone away".

A further 174,042 were returned because the intended recipient was not known at the address given, 277,626 because of application error by the licensing dealer or customer and 10,330 without a specific reason being given.

Departmental Data

Dr. Strang: To ask the Secretary of State for Transport what methods his Department employs to ensure that its data are up-to-date, with particular reference to information on people who have *(a)* moved house and *(b)* died. [37789]

Ms Buck: A variety of means are used to ensure that the Department keeps the personal data it holds up to date including:

Internal cross checking across business units;

Customer helpdesk/inquiry unit;

Proactive communications with clients;

Website facilities; and

Where it is appropriate and lawful, sharing personal data between government departments and other parts of the public sector.

Specific details for the Department's Agencies are as follows:

DVLA

It is a legal requirement for drivers and vehicle keepers to notify DVLA of a change of name, address or vehicle details. DVLA is dependent on the motoring public to inform the Agency of new information as soon as the change occurs. Until a change is notified, DVLA remains unaware that the record is out of date. Because of legislative constraints, DVLA is unable to use third party information to update its records.

DVLA has introduced several initiatives aimed at improving the accuracy, traceability and up to dateness of its records. These initiatives include the introduction of the new vehicle taxation rules (continuous registration), rollout of the new vehicle registration certificate to all vehicle keepers, and an intensive accuracy publicity campaign.

DVLA marks the record of those who have died on the basis of information received from the Office of National Statistics to prevent further correspondence being sent out which may cause distress to the bereaved's family.

The results of DVLA's 2005 Accuracy Survey indicate that 97.4 per cent. of vehicle keepers are able to be traced from the information on the vehicle record. The equivalent figure for 2003 was 90 per cent.

DSA

The Driving Standards Agency keeps registers of approved trainers and instructors, including Approved Car Driving Instructors (ADIs) and LGV Driving Instructors. Instructors are encouraged to inform the

Agency of any change of name or address within 10 days. All ADIs are provided with a change of address card when they register. The four yearly renewal of instructors' registration and periodic testing of ADIs' continued fitness and ability to give instruction, require up to date information. Otherwise an instructor could face removal.

DSA is introducing an Integrated Register of Driver Trainers. To ensure information on the new Register is as current as possible DSA wrote to all instructors last year. The details requested included their email address for possible future communications.

DSA is establishing an Internet service that will enable instructors to update their own records electronically.

Details are checked when instructors contact DSA. In addition, DSA sends a quarterly magazine Despatch and ad hoc updates to instructors. Any returns are checked against DSA and DVLA records to see if a more up to date address is available.

MCA

Customers are encouraged to provide up-to-date information to validate our records whenever they require the services of the agency. Re-validation of certificates, which occur on a regular basis, for both ships and seafarers require up-to-date information.

VOSA

The Vehicle and Operator Services Agency (VOSA) does not hold data on the public.

Users of the computerised MOT system are responsible for updating their records on the system. Site Managers annually receive a reminder to confirm or amend information about their site including personnel details. When VOSA receive notification of a person's death their record is amended accordingly. Instructions on these processes are included in the system user guide and internal VOSA Operating Instructions.

Pre-funded account holders are similarly responsible for updating VOSA on any changes in their contact details.

Operator licence holders update their records with VOSA's traffic area offices through a self-service system.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Transport if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by his Department and *(y)* claimed by the Treasury. [40137]

Ms Buck: The Department was formed in May 2002.

The requested information has been placed in the Library of the House. Information on the current value of sale prices can be provided only at disproportionate costs.

Sale proceeds were retained by the following DfT agencies: Driving Standards Agency, the Maritime and Coastguard Agency, the Vehicle and Operator Services Agency and the Highways Agency.

All Northern Lighthouse Board and Trinity House Lighthouse Service sale proceeds are remitted to the General Lighthouse Fund.

Departmental Expenditure

Norman Lamb: To ask the Secretary of State for Transport how many widescreen televisions have been purchased by his Department for use in London Headquarters in each of the last five years; and what the cost was in each year. [39137]

Ms Buck: This information is not held centrally and could be obtained only at disproportionate cost.

Departmental Staff

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 15 November 2005, *Official Report*, column 1150W, on train operating companies, what the size is of the specialist team within his Department continuously managing the franchise contracts with train operating companies. [39374]

Derek Twigg: The Rail Service Delivery Directorate, which manages the delivery of rail franchises within the Department, consists of 77 posts. 43 are directly involved with the management of franchise delivery.

Docklands Light Railway

Mr. Spellar: To ask the Secretary of State for Transport pursuant to the answer of 19 December 2005, *Official Report*, column 2299W, on the Docklands Light Railway, what assessment he has made of the merit of bringing forward from 2009 the in-service date for increased capacity on the Docklands Light Railway. [40821]

Ms Buck: The upgrades to the Docklands Light Railway are the responsibility of Transport for London and the London Mayor. The planned upgrade to three car services on some sections of the Docklands Light Railway will require works at affected stations, to ensure that all platforms can accommodate the longer trains. On this basis, 2009 remains the preferred date for the introduction into service of the longer trains.

Light Rail Schemes

Mr. George Howarth: To ask the Secretary of State for Transport what criteria he used to assess the competence of *(a)* the Greater Manchester passenger transport executive, *(b)* Merseytravel and *(c)* Nottinghamshire passenger transport executive to develop and run a light rail scheme. [35259]

Derek Twigg: In deciding whether to approve light rail schemes, the Department takes account of a number of factors, including value for money, the proposed contractual structure, financial and other risks, and deliverability. The competence of the authority in question is not separately assessed but can be relevant to the considerations noted above.

London Local Authorities and Transport for London Act

Mr. Amess: To ask the Secretary of State for Transport if he will make a statement on the operation of sections 4 to 19 of the London Local Authorities and Transport for London Act 2003. [39707]

Ms Buck: The London Local Authorities and Transport for London Act 2003 ("the Act") resulted from a private bill jointly promoted by the Association of London Government (ALG), the City of Westminster and Transport for London (TfL). The operation of the Act under sections 4–19 (the whole of Part II) is a matter the ALG, TfL and the London boroughs. For more information contact:

Association of London Government Transport and Environment Committee

New Zealand House

80 Haymarket

London

SW1Y 4TE

Parking Fines

Mr. Paterson: To ask the Secretary of State for Transport (1) what the total value of unpaid parking fines was in each year since 1997; [38457]

(2) what the total revenue raised by parking fines has been in each year since 2001. [38607]

Paul Goggins: I have been asked to reply.

Information on unpaid parking fines and the revenue raised from parking summary offences is not available centrally.

The information collected by the Home Office identifies the number of fixed penalties ordered to be paid and the number and amounts of court-imposed fines issued for such offences. Not all fines and fixed penalties will have been paid.

The Department for Constitutional Affairs currently estimates the overall payment rate for fines in general to be 80 per cent. It is not possible to establish accurately the total value of unpaid parking fines.

Under the Road Traffic Act 1991, Decriminalised Parking Enforcement (DPE) powers allow local authorities to take over responsibility for enforcing parking contraventions from the police. Data on Penalty Charge Notices (PCNs) from individual local authorities operating Decriminalised Parking Enforcement was first published in the Home Office publication 'Offences relating to motor vehicles, England and Wales 2002 Supplementary tables'. The latest publication detailing 2003 information lists data by local authorities partaking in the scheme, [Tables 22*(a)* -22*(b)* refers], a copy of which is available in the Library. This publication can also be accessed on the Home Office Research Development and Statistics (RDS) website at: http://www.homeoffice.gov.uk/rds/index.htm

Railways

Mr. Hollobone: To ask the Secretary of State for Transport what recent discussions his Department has had with officials from the Growth Areas Directorate of the Office of the Deputy Prime Minister about the reinstatement of passenger rail services to link Kettering to Corby. [39786]

Derek Twigg *[holding answer 9 January 2006]:* Discussions were held with the ODPM in 2005 which resulted in the East Midlands Development Agency providing a grant of £200,000 to carry out a detailed study of the technical feasibility of restoring rail passenger services to Corby. Catalyst Corby has commissioned Network Rail to carry out the study and work is now under way.

Mark Williams: To ask the Secretary of State for Transport if he will make a statement on the performance of Arriva Trains Wales on the Wales and Borders network since 2003. [40244]

Derek Twigg: The Arriva Trains Wales performance figures since 2003 are published in 'National Rail Trends', a copy of which is available in the Library.

Mr. Paterson: To ask the Secretary of State for Transport (1) how many miles of track have been repaired in each year since 1997; and how many miles of track are awaiting repair; [38460]

(2) how many miles of track have been *(a)* commissioned and *(b)* decommissioned in each year since 1997; [38465]

(3) how many new miles of railway track have been commissioned for installation in each of the next five years. [38468]

Derek Twigg: Maintenance and renewal of the national rail network is the responsibility of Network Rail (NR). I have asked NR to respond directly to the hon. Member.

Greg Mulholland: To ask the Secretary of State for Transport what the morning peak *(a)* annual passenger count for use of Leeds Station and *(b)* passengers in excess of capacity figure for trains entering (i) Leeds and (ii) London was in each of the last 10 years. [38720]

Derek Twigg: Information on the numbers of passengers arriving at Leeds station in the morning peak is not held by the Department. The Passengers in Excess of Capacity (PIXC) regime applies only to London and so PIXC figures for Leeds are not available. The figures for London are set out in the National Rail Trends Yearbook, a copy of which is available in the House Library.

Mr. Weir: To ask the Secretary of State for Transport (1) how many kilometres of railway track there are in *(a)* Scotland, *(b)* Wales, *(c)* each of the English regions and *(d)* Northern Ireland; and how many kilometres are (i) double or multiple-track and (ii) electrified in each case; [39211]

(2) how many *(a)* kilometres of track and *(b)* railway junctions in (i) Scotland, (ii) Wales, (iii) each of the English regions and (iv) Northern Ireland are controlled by (A) colour light signal systems, (B) radio-electronic token signals and (C) mechanical semaphore signals; [39212]

(3) how much track in kilometres in *(a)* Scotland, *(b)* Wales, *(c)* each of the English regions and *(d)* Northern Ireland has electronic train protection. [39213]

Derek Twigg: Operation of the rail network in Great Britain is the responsibility of Network Rail (NR) and I have asked NR to write direct to the hon. Member. Railways in Northern Ireland are the responsibility of the Northern Ireland Office.

Gregory Barker: To ask the Secretary of State for Transport what plans South Eastern trains has to increase fares for passengers in 2006. [39261]

Derek Twigg: In line with current fares regulation, South Eastern Trains will increase their regulated fares by 1 per cent. above inflation in 2006. The unregulated fares, which are set by the Train Operating Company and are not linked to inflation have increased by an average of 3.1 per cent.

Mrs. Lait: To ask the Secretary of State for Transport when he expects to announce the final decision on the frequency of trains during the rush hour on the Hayes line as a result of the consultation conducted by the Strategic Rail Authority. [39172]

Derek Twigg: The Integrated Kent Franchise has now been awarded to London and South Eastern Railway Ltd (a wholly owned subsidiary of Govia) and it is for the new operator to develop and agree a detailed timetable with Network Rail. The new franchise commences on 1 April 2006.

Road Improvements

Mr. Spellar: To ask the Secretary of State for Transport when he plans to introduce hard shoulder running on major routes. [40664]

Dr. Ladyman: Controlled use of the hard shoulder during periods of traffic congestion is due to be introduced on the M42 by March 2007, as part of the Highways Agency's Active Traffic Management (ATM) pilot project.

In order to measure the impact of hard shoulder running, a period of 12 months of operation is required during which comprehensive monitoring will be undertaken. Initial conclusions about the effectiveness of this measure and the possibility of its further use on the network are therefore not expected until 2008. Due to the relatively low number of accidents that occur on motorways, three years of accident data will be needed before overall conclusions can be reached on the impact of hard shoulder running on safety.

Speeding Fines

Mr. Paterson: To ask the Secretary of State for Transport (1) how much of the total revenue raised by speeding fines has been paid to the Treasury in each year since 1997; [38454]

(2) what the total value of unpaid speeding fines was in each year since 1997. [38455]

Paul Goggins: I have been asked to reply.

Information on the total revenue from speeding fines is not collected centrally.

The information collected by the Home Office identifies the number of fixed penalties ordered to be paid and the number and amounts of court-imposed fines issued for such offences. Not all fines and fixed penalties will have been paid.

The Department for Constitutional Affairs currently estimate an overall payment rate for fines in general of 80 per cent. It is not possible to establish accurately the total value of unpaid speeding fines.

Toll Charges (Buses)

Mr. Austin Mitchell: To ask the Secretary of State for Transport what multiple of the car toll is charged for public service buses on each publicly operated toll charging *(a)* bridge and *(b)* tunnel. [40350]

Dr. Ladyman: The following information relates to publicly-operated bridges and tunnels in England.

Humber Bridge—for a bus designed to carry fewer than 17 passengers the toll charge is 1.8 times the toll charge for a car. For a bus designed to carry 17 or more passengers, the toll charge is four times the car toll charge.

Mersey Tunnels—for a bus with two axles the toll charge is the same as for a car. For a bus with three axles the toll charge is treble the car toll charge.

Tamar Bridge—there is no toll charge for public service buses that take part in the bridge's tag system and are registered with the bridge operator and the local authority.

Tyne Tunnel—for a bus designed to carry fewer than 16 passengers the toll charge is the same as for a car. For a bus designed to carry 16 or more passengers, the toll charge is 1.2 times the car toll charge.

Itchen Toll Bridge—there is no toll charge for public buses.

Train Protection Systems

Mr. Weir: To ask the Secretary of State for Transport how many *(a)* miles of track and *(b)* junctions in (i) Scotland, (ii) Wales, (iii) each of the English regions and (iv) Northern Ireland are not covered by (A) electric and (B) electronic train protection. [39587]

Derek Twigg: Operation of the rail network in Great Britain is the responsibility of Network Rail (NR) and I have asked NR to write direct to the hon. Member. Railways in Northern Ireland are the responsibility of the Northern Ireland Office.

Transport (Gravesham)

Mr. Holloway: To ask the Secretary of State for Transport what his projections are for traffic growth on trunk roads in Gravesham for each of the next 10 years. [40622]

Dr. Ladyman: The current traffic growth forecast for the section of A2 trunk road, which runs through Gravesham district and south of Gravesend town, is an average of 1.6 per cent. per annum between 2006 and 2016. This compares to the national forecast growth rate of 1.5 per cent. per annum over the same period.

Urban Bus Challenge Fund

Stephen Hammond: To ask the Secretary of State for Transport how much the Government have spent on the Urban Bus Challenge since its inception. [40840]

Ms Buck: There have been three annual competitions held for Urban Bus Challenge awards, the first in 2001 and the last in 2003. The Department awarded £53 million to 106 schemes in the competitions. Schemes were typically funded over three years. Grant payments made so far are expected to total £44 million at the end of the current financial year. The remainder of the £53 million will be paid to authorities in subsequent financial years.

DEFENCE

Arctic Emblem

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 12 December 2005, *Official Report*, column 1678W, on the Arctic Emblem, if he will ensure that, once the design has been agreed, the Arctic Emblem can be worn on both the Atlantic Star and the 1939–45 Star; and if he will make a statement. [38204]

Mr. Touhig: I refer the hon. Member to the answer I gave on 19 December 2005, *Official Report*, column 2350W.

Armed Forces (South African Personnel)

Adam Price: To ask the Secretary of State for Defence what discussions he has had with his South African counterpart about the extent to which South Africans serving in the UK armed forces have received the required approval to do so under the relevant South African legislation. [28326]

Mr. Ingram *[holding answer 14 November 2005]:* Approval is not currently required from the South African Government for South African personnel to serve in the UK armed forces. There is, however, draft South African legislation on mercenaries and private military and security services which has recently been issued, and is due to be presented to their Parliament in the near future. If enacted, this would require permission to be sought for South African personnel to serve in the UK armed forces.

Catering/Entertainment Contracts

Mr. MacNeil: To ask the Secretary of State for Defence what the total value is of *(a)* catering and *(b)* entertainment contracts let by his Department; and what value of such contracts has been let in each nation and region of the UK, including London. [37489]

Mr. Touhig: Present arrangements for catering and entertainment are being replaced by 'Super Multi-Activity Contracts' (S MACs) to provide, among other services, catering, retail and leisure facilities to military personnel and civilian staff throughout the United Kingdom. Seven contracts were let in financial year 2005–06. The total value of the catering, retail and leisure elements of these contracts is anticipated to be in the region of £145 million over seven years. A breakdown of this figure by Government office region is shown in the following table. This figure does not necessarily represent all expenditure in the fields of catering and entertainment as there are a number of other existing contracts that provide these kinds of services. Cost information on these contracts cannot, however, be broken down to identify these elements separately without incurring disproportionate cost.

Region	*Value (£ million) over 7 years*
Scotland	11.6
The North East/North West of England[1]	14.4
Yorkshire and the Humber[2]	31.0
South East	55.9
East Midlands	16.4
London	16.3

[1] One S MAC contract covering two Government office regions.
[2] Catterick Garrison only

South Africa/Mozambique Visits

Andrew Mackinlay: To ask the Secretary of State for Defence pursuant to the answer of 19 December 2005, *Official Report*, column 2347W, on visits to South Africa, what the names were of employees of his Department who took part in the visits to South Africa and Mozambique. [39908]

Mr. Ingram: Dr. John Thompson, named in a UN Security Council Report on the investigation of alleged use of CW in Mozambique in January 1992, was one of the staff. However, in accordance with the provisions of the Data Protection Act, I am unable to release the remaining names as to do so would contravene the data protection principles.

Andrew Mackinlay: To ask the Secretary of State for Defence pursuant to the answer of 19 December 2005, *Official Report*, column 2347W, on visits to South Africa, whether the combined UK and UN team found that chemical weapons had been used in Mozambique; and if he will make a statement. [39912]

Mr. Ingram: The findings and conclusions of the United Nations investigation can be found in a UN Security Council Report, S/24065 dated 12 June 1992, available on the United Nations website at http://www.un.org.

The report stated that

"we cannot conclude that a chemical warfare agent was used in the attack."

Defence Contracts (Wales)

David Wright: To ask the Secretary of State for Defence how many defence contracts have been awarded to facilities or organisations operating in Wales since 1997; what the value of these contracts was; and how many jobs have been created. [39131]

Mr. Ingram: Information relating to facilities or organisations operating in Wales is not held centrally and could be provided only at disproportionate cost.

Mr. Ian Austin: To ask the Secretary of State for Defence how many defence contracts have been awarded to facilities and organisations in Wales since 1997; what the value of those contracts was; and how many jobs have been created as a result of the contracts. [40489]

Mr. Ingram: Information relating to facilities or organisations operating in Wales is not held centrally and could be provided only at disproportionate cost.

Defence Training Review

Mr. Ian Austin: To ask the Secretary of State for Defence what assessment he has made of the impact on manufacturing and engineering companies in the West Midlands if Cosford is chosen as *(a)* a Super site and *(b)* a preferred location for aeronautical training as part of the Defence Training Review. [40386]

Mr. Touhig: The Defence Training Review (DTR) Programme is currently evaluating the bidding consortia's proposals. The impact on manufacturing and engineering companies and the extent to which they are drawn into training design, delivery and support and the exploitation of third party opportunities and revenue depends on Bidders' training and estates solutions. Until the evaluation phase is complete and a decision has been taken to select a preferred training partner, currently expected in summer 2006, I am not in a position to make any detailed comment on the wider impact of the DTR solution.

Mr. Ian Austin: To ask the Secretary of State for Defence what assessment he has made of the impact on the retention and recruitment of training staff if defence training activities are moved to areas outside reasonable daily travel times as part of the Defence Training Review. [40427]

Mr. Touhig: The ability of the bidding consortia to retain and recruit suitably qualified staff throughout the duration of the contract is being evaluated under clearly defined criteria to determine the overall deliverability of proposed solutions. This assessment will contribute to the selection of the preferred training partner, which will not take place until summer 2006, once the evaluation and Ministry of Defence approval process has concluded.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Defence if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by his Department and *(y)* claimed by the Treasury. [40133]

Mr. Touhig: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Defence what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of his (i) Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40087]

Mr. Touhig: This information is not held centrally and could be provided only at disproportionate cost.

Mr. Spellar: To ask the Secretary of State for Defence how much his Department spent on bottled water in 2004–05. [40339]

Mr. Touhig: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Staff

Stewart Hosie: To ask the Secretary of State for Defence what the value is of *(a)* pay supplements, *(b)* bonuses and *(c)* other incentive packages that are payable in his Department on the basis of geographic location; how many people are in receipt of each payment; and what the total cost to his Department of each payment was in 2004–05. [35889]

Mr. Touhig: The Ministry of Defence has national pay scales for the 70,000 staff below the senior civil service who are covered by the MOD main pay deal. Staff appointed/recruited to London since 1999 receive a four per cent or 7 per cent. pay supplement (dependent on pay level) while they work in London—the higher rate applies to junior administrative staff and equivalents. Staff serving in overseas locations also receive the London pay supplement. Overall, 3,075 staff are in receipt of the London pay supplement at an annual cost of £3,149,909.40.

As MOD establishments are generally in remote locations, local recruitment and retention allowances (RRA) are payable in a number of areas. There are 137 locational RRA's in operation currently payable to 15,022 staff in total at an annual cost of £28,421,339.32.

Bonuses and other incentive packages are not payable on a geographic basis.

Mr. Spellar: To ask the Secretary of State for Defence how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40294]

Mr. Touhig: It is Ministry of Defence policy that alternative working patterns, including home working, are open to all staff if the business needs can be met. The agreements are made locally between the individuals and their line managers and funding to provide equipment to work at home is also authorised locally. The Ministry of Defence only records full-time non-industrial home workers and as at 1 April 2005, there were 120 such non-industrial staff recorded. Information on those staff who work at least one day a week could be obtained only at disproportionate cost.

Mr. Pelling: To ask the Secretary of State for Defence what initiatives are being taken in his Department to help civil servants with chronic back pain. [34975]

Mr. Touhig: The Ministry of Defence is sympathetic to all staff with back problems. All staff using display screen equipment are required to undertake an on-line workplace assessment which includes ergonomics and posture. In cases of severe ongoing discomfort workplace assessments can be carried out by the Department's occupational health (OH) adviser or another expert specialising in back problems. For staff with chronic back problems specialist seating and other aids (footrests etc.) are provided on an individual basis on the advice of the individual's GP or the Department's OH adviser. The MOD also provides training on

manual handling and lifting where appropriate. These policies are supplemented by procedures appropriate to the individual circumstances. These procedures are:

Confidential advice from a member of the Occupational Welfare Service.

Time off for medical appointments and treatment (including physiotherapy);

Reasonable adjustments to hours of work and the nature of their duties;

Early involvement and support from our occupational health experts;

Gradual rehabilitation including reduced hours and duties;

A comprehensive suite of work/life policies, including home working, and flexible working hours.

Dr. Cable: To ask the Secretary of State for Defence what assessment he has made of relocation opportunities within the next five years in relation to the Bristol-Bath-Shrivenham Defence Cluster. [36999]

Mr. Touhig: As we have already announced, it is our intention that the Defence Logistics Organisation co-locate within the area. No further relocations into the area are currently planned, but we keep the size and location of the estate under continuous review.

Disability

Danny Alexander: To ask the Secretary of State for Defence if he will make a statement on the initial activity undertaken by his Department in response to those recommendations in the Prime Minister's Strategy Unit Report, Improving the Life Chances of Disabled People, where lead responsibility was assigned to all Government Departments. [37060]

Mr. Touhig: The initial activity undertaken by the Ministry of Defence in response to the recommendations in this report relates mainly to its duties as an employer. These duties correspond closely to the obligations placed on public authorities by the Disability Discrimination Act 2005. The Ministry of Defence is currently developing an overall equality scheme which will fully take into account those obligations. Any other recommendations in the report for employers will be progressed once we have advice from the ministerial group.

Japanese Compensation Scheme

Mr. Austin Mitchell: To ask the Secretary of State for Defence when the bloodlink connection in the Far Eastern Civilian Prisoners of the Japanese Compensation Scheme requiring applicants to be born in the UK or have a parent or grandparent born in the UK was introduced; for what reason; whether it was also imposed on former military personnel held by the Japanese as prisoners of war; and how many applicants who did not have this bloodlink *(a)* were paid prior to its introduction as a criterion and *(b)* have been refused since its introduction. [39440]

Mr. Touhig: The "Birthlink" criterion was introduced in March 2001 and formally announced on 11 July 2001, *Official Report*, columns 516–17W. It was intended to clarify the eligibility criteria for civilian internees and specifically to define the nature of the close link with the United Kingdom at the time of internment required of civilian internees. The criterion applies only to the civilian element of the Scheme; for military internees (prisoners of war) the nature of the close link was defined in terms of membership of UK armed forces at time of internment. The data requested regarding the number of applicants who did not meet the birthlink criterion is being gathered as part of the review I announced on 12 December 2005, *Official Report*, column 1119.

Landing Ships Dock Auxiliary Vessels

Mr. Gerald Howarth: To ask the Secretary of State for Defence what recent discussions he has held with *(a)* ship repair yards and *(b)* others on (i) completing and (ii) enhancing the capabilities of the Landing Ships Dock Auxiliary vessels; and what estimate he has made of the cost of (A) completion and (B) enhancement. [40425]

Mr. Ingram: When the Landing Ship Dock (Auxiliary) ships are accepted off contract from the shipbuilders they will enter their Part II sea trials programme in preparation for formal entry into operational service. In line with normal practice, the Ministry of Defence has invited companies to declare expressions of interest to undertake work during the Part II trials phase to bring the ships to completion for operational service. The value of this work is yet to be determined as much of the activity results from experience in operation in the Part II trials. A number of companies have expressed an interest in undertaking such work. There are currently no plans to enhance the key capabilities of the ships.

Marconi Weapons System

Andrew Mackinlay: To ask the Secretary of State for Defence on what date the document known as the Prosecution Exhibit bundle pages 51 to 59 in the case of R *v.* Michael John Smith held in the Central Criminal Court from September to November 1993, relating to the Marconi Space and Defence Systems Ltd. Demonstrator Programme Requirement Specification Bandpass Filter Assembly component dated 8 January 1982 reference 79481/PBH/BB/SO8 became linked to a weapons system; which weapons system it was linked to; on what date it became obsolete and no longer linked to any weapons system; and if he will make a statement. [39458]

Mr. Ingram: I am currently unable to provide a response to the questions raised as the subject is the matter of an investigation by the Criminal Cases Review Commission (CCRC) and it would be inappropriate to provide the information requested while this investigation is ongoing.

Married Quarters

Mr. Ancram: To ask the Secretary of State for Defence how many married quarters will be upgraded in each of the next five financial years; and what the total cost of this planned programme will be in each year. [23328]

Mr. Touhig: The Defence Estates corporate plan 2005–06 contains key targets for upgrading service families accommodation in England, Wales and Scotland. These targets require 600 quarters to be upgraded in 2005–06 and 900 in each of the subsequent three years. Figures for 2009–10 and beyond have not yet been agreed.

Currently, the planned budget for upgrading service families accommodation stands at some £25 million per year, for the years 2005–06, 2006–07 and 2008–09. This figure is not fixed, however, and can change according to future budgetary decisions taken by the Department.

Military Equipment

Andrew Rosindell: To ask the Secretary of State for Defence pursuant to the answer of 22 November 2005, *Official Report*, column 1877W, how many complaints about *(a)* body armour, *(b)* weapons and *(c)* machinery have been recorded in the recent campaigns in (i) Iraq and (ii) Afghanistan. [37853]

Mr. Ingram: In respect of body armour, I can confirm that this was included in my earlier reply, 22 November 2005, *Official Report*, column 1877W, as a clothing product. Defect reports on clothing products are held for 12 months. During the past 12 months there have been no such reports emanating from either Iraq or Afghanistan.

"Weapons and machinery" have, for the purposes of this question, been defined as small arms and vehicles. "Complaints" has been defined as those issues giving rise to an equipment failure report (EFR) or serious equipment failure (SEF). An EFR is logged if the user believes that 'an item of equipment or component has failed unreasonably early in its life, or that it exhibits a design, handling or safety problem'. A SEF is defined as 'a failure or suspected failure that results in, or has the potential to result in, personal injury, loss of life or serious damage'. All EFRs and SEFs are reported to the Defence Logistic Organisation for investigation and any necessary action. Available records for EFRs and SEFs on small arms and vehicles emanating from Afghanistan and Iraq/Kuwait are in the following tables:

Iraq and Kuwait—21 March 2003 to 15 December 2005

Equipment type	*Number of equipment failure reports*	*Number of serious equipment failures*
Combat Vehicle Reconnaissance (Tracked)	141	4
Armoured Fighting Vehicle 430 Series	106	6
Warrior Armoured Personnel Carrier	419	24
Challenger 2 Main Battle Tank	399	7
Challenger Repair and Recovery Vehicle	27	1
Leyland (all variants)	52	9
Bedford (all variants)	87	1
Heavy Equipment Transporters	234	2
Fuel &Water Tankers + Recovery Vehicles	40	4
Pinzgauer	22	0
BV206	23	0
Land Rover (all variants)	967	22
Material Handling Equipment and Earth Moving Equipment	64	5
Rifle 5.56 mm SA80	[1]101	3
Light Support Weapon 5.56mm	[1]47	0
MINIMI Light machine Gun 5.56 mm	0	1
General purpose Machine Gun 7.62 mm	[1]4	1
Under-slung Grenade Launcher	[1]5	1

Afghanistan—1 April 2002 to 15 December 2005

Equipment type	*Number of equipment failure reports*	*Number of serious equipment failures*
Land Rover (all variants)	39	1
Saxon	12	—
JCB (All variants)	7	—
Leyland (all variants)	8	—
Rifle 5.56 mm SA80 A2	[1]4	—
Machine Gun 5.56mm (Minimi)	[1]1	—
Night Vision Goggles	5	—
Under-slung Grenade Launcher	1	—

[1] Information on weapons not available before 1 August 2003

RAF Aircraft

Mr. Bone: To ask the Secretary of State for Defence when he expects the RAF's C-130Ks to be replaced. [40549]

Mr. Ingram: The C-130K will be replaced by the A400M, which is planned to enter service in 2011.

Service Quarters

Pete Wishart: To ask the Secretary of State for Defence how many single accommodation places there are for each of the services in *(a)* Scotland, *(b)* Wales, *(c)* each of the English regions and *(d)* Northern Ireland for (i) officers and (ii) other ranks, broken down by location; how many are occupied; how many are subject to demolition; how many are to be disposed of on the private market in each year since 7 May 1997; what the total sum accrued in each year was at (A) constant and (B) current prices; what the sale price for each was (1) at the time of sale and (2) at current prices; and whether the money accrued was (x) retained by his Department and *(y)* claimed by the Treasury. [40132]

Mr. Touhig: Some 150,000 single accommodation places, within barrack blocks or messes, are provided for the armed forces, and are located throughout the defence estate world-wide. Records held centrally do not provide current single accommodation occupancy in the detail required and this could be provided only at disproportionate cost.

The Ministry of Defence does not, as a general rule, demolish barrack blocks or messes other than to permit the construction of new accommodation. As such places are almost invariably located within the boundary fence of a military establishment, they remain a part of the parent unit and it is highly unlikely that they would be disposed of separately.

All receipts from the disposal of surplus defence property come to the defence budget.

Southampton Docks

Mr. Hancock: To ask the Secretary of State for Defence (1) what criteria his Department used to decide to change its requirement for using Southampton Docks from recreational to operational use for nuclear powered Royal Navy ships; [38997]

(2) if he will invite the Solent Coalition Against Nuclear Ships as an observer to the Nuclear Accident Exercise in Southampton on 22 February 2006; [39106]

(3) what plans he has to send nuclear powered Royal Navy ships to *(a)* Southampton Docks and *(b)* Portsmouth Harbour; and if he will make a statement. [39107]

Mr. Ingram: There has been no decision to change the requirement for Royal Navy nuclear powered vessels to occasionally berth at Southampton. The Z Berth in Southampton docks will, in common with others around the UK, enable our nuclear submarines to visit. Although Z Berths have, in some documentation, been described as 'recreational' berths, there is no change of use or requirement as Z Berths have always been used for operational reasons, such as crew recuperation, replenishment and representational duties.

On 22 February 2006, Southampton City Council will test the Council's 'off-site' emergency plans to deal with the extremely unlikely event of a 'nuclear emergency' from a nuclear powered submarine. The Royal Navy will support the Council and facilitate the opportunity to demonstrate that the Council's plans will dovetail with the Navy's own 'operator's emergency plan'. Responsibility for the production and test of the 'off-site' plan rests with the Southampton City Council. It is not appropriate for me to invite observers from the Solent Coalition Against Nuclear Ships to the exercise.

It is intended that Royal Navy nuclear powered submarines will make occasional visits to both Southampton and Portsmouth.

Surplus Military Equipment Sales

Mr. Heathcoat-Amory: To ask the Secretary of State for Defence (1) what restrictions have been placed on the resale of surplus military aircraft disposed of by his Department to private individuals during the past five years; [40225]

(2) what restrictions are placed on the sale of drop tanks with surplus military aircraft. [40347]

Mr. Ingram: There are currently no restrictions placed on the resale of surplus military aircraft to private individuals. The Ministry of Defence ensures that the aircraft is prepared for disposal by reducing its security status to unclassified. There are, however, a number of terms and conditions, which limit the use of any aircraft sold. These include, for example, the responsibility of the purchaser to obtain a Certificate of Airworthiness, if the intention is to fly the aircraft and to apply for an export licence if it is transferred outside the UK.

Drop tanks, fitted to a military aircraft, are considered to be an integral part of the whole aircraft and are subject to the normal terms and conditions that ensure that the MOD takes all reasonable steps to inform purchasers of hazards. Used drop tanks are hazardous because they have contained fuel. As individual items they are disposed of in accordance with current environmental legislation.

Mr. Heathcoat-Amory: To ask the Secretary of State for Defence (1) whether it is his Department's policy to allow the advertising for sale of its surplus military equipment on the internet; [40227]

(2) what surplus military equipment being sold on behalf of his Department during the last five years has been advertised on the internet. [40228]

Mr. Ingram: It is the policy of the Ministry of Defence, subject to certain exclusions, to allow the advertising for sale of its surplus equipment on the internet. Records of the equipment advertised on the internet are not held.

Type 23 Frigates

Mr. Hancock: To ask the Secretary of State for Defence how many helicopters are carried by each of the Type 23 frigates, broken down by type of helicopter. [39176]

Mr. Ingram: The information requested is shown as follows.

Ship name	*Helicopter type*	*Number*
HMS Argyll	Lynx Mk8	1
HMS Sutherland	Lynx Mk3	1
HMS Montrose	Lynx Mk8	1
HMS Saint Albans	Lynx Mk8	1
HMS Iron Duke	Lynx Mk8	1
HMS Kent	Lynx Mk8	1
HMS Portland	Lynx Mk8	1
HMS Somerset	Lynx Mk8	1
HMS Grafton (non-operational from 31 March 2006)	Lynx Mk8	1
HMS Lancaster	Merlin Mk1	1
HMS Monmouth	Merlin Mk1	1
HMS Westminster	Merlin Mk1	1
HMS Northumberland	Merlin Mk1	1

Hydrocarbon Oils Duty

Mr. Greg Knight: To ask the Secretary of State for Defence what assessment he has made of the impact on the UK agricultural sector of the proposed EU harmonisation of duty rates on hydrocarbon oils; and if he will make a statement. [38928]

John Healey: I have been asked to reply.

The European Commission has not adopted any new proposals to harmonise the rates of duty for commercial diesel. The Government see no reason for harmonised excise duty rates on hydrocarbon oils and believe that tax policy is the responsibility of individual member states. It is for member states to decide what policies

they should pursue through the use of fiscal instruments and, subject to minimum rates in some areas, what rates of duty they should apply.

The UK has a number of exemptions from the Energy Products Directive which enable duty to be charged at a reduced rate on oils that are put to certain uses, including use in leisure boats for private use. The Government are minded to apply for an extension these derogations and will issue an initial regulatory impact assessment on the effects of ending the derogation. This document will analyse the costs and benefits of the derogation, and be used as the basis for further information gathering and discussions.

LEADER OF THE HOUSE

Departmental Equipment

Mr. Weir: To ask the Leader of the House how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machine his office owned in (i) 2003–04 and (ii) 2004–05. [40101]

Mr. Hoon: In 2003–04 and 2004–05, the Office of the Leader of the House of Commons owned three fax machines. All other IT equipment was leased through a service level agreement with the Cabinet Office.

Departmental Expenditure

Mr. Weir: To ask the Leader of the House what the annual expenditure on *(a)* fixture and fittings, *(b)* general office expenses and *(c)* office equipment was of his Office in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40102]

Mr. Hoon: The Office of the Leader of the House of Commons comes within the administrative responsibility of the Privy Council Office.

Annual expenditure on fixtures and fittings is not disaggregated by business unit. Information on expenditure on general office expenses and staff is published in the Privy Council Office Resource Accounts for each of the last three years, and these are available in the House of Commons Library and at www.pco.gov.uk.

Plans for 2005–06 direct costs include a 5 per cent. reduction compared to last year's budget.

Mr. Weir: To ask the Leader of the House what the expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of his Office in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40103]

Mr. Hoon: The Office of the Leader of the House of Commons comes within the administrative responsibility of the Privy Council Office (PCO). Information on expenditure on buildings is published in the Privy Council Office Resource Accounts for each of the last three years, and is available in the House of Commons Library and at www.pco.gov.uk.

It does not purchase commercial insurance for the risks it faces as, in general, it is cheaper for Government to cover their own risks. The only exception was the purchase of annual travel insurance, at a cost of £75 in 2005–06.

The PCO's planned expenditure on buildings occupied by the Office for 2005–06 is £342,000, which includes £90,000 for external decoration—a lease obligation. The rental element of this figure is subject to the outcome of ongoing lease negotiations.

Mr. Spellar: To ask the Leader of the House how much his office spent on bottled water in 2004–05. [40330]

Mr. Hoon: In 2004–05, the Office of the Leader of the House of Commons spent £10.53 on bottled water. In addition, £306.45 was spent on the provision of water for water dispensers.

Stewart Hosie: To ask the Leader of the House what the total administrative costs were for his office in the last year; and whether these are regarded as identifiable or non-identifiable for the purposes of public expenditure statistical analyses. [40052]

Mr. Hoon: The Office of the Leader of the House of Commons comes within the administrative responsibility of the Privy Council Office.

Information on administration costs for last year is published in the Privy Council Office's Resource Accounts, which are available in the House of Commons Library and at www.pco.gov.uk.

These costs are regarded as non-identifiable for the purposes of public expenditure statistical analyses.

CONSTITUTIONAL AFFAIRS

Identity Cards

Mrs. Spelman: To ask the Minister of State, Department for Constitutional Affairs what assessment the Government have made of whether a new electoral register database *(a)* will be of assistance in and *(b)* may be used to assist the introduction of identity cards. [39492]

Ms Harman: The Government are currently consulting on proposals for national access to electoral register information, in particular the development of a consolidated record of all that information in a centrally-held dataset. This consultation paper on the proposed co-ordinated online record of electors (CORE) identifies a number of ways in which such a consolidated record could be of assistance, in particular in respect of decreasing the administrative burden on existing users of electoral register data and strengthening measures to counter any attempted fraud in relation to electoral registration.

The consultation paper also seeks views on longer-term possibilities opened up by establishing a co-ordinated record of electors. Such possibilities include the potential for comparison of electoral register data with that in any identity card register, so that the integrity of the former can benefit from the high levels of verification proposed for ID cards.

Legal Aid

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs how much legal aid was given to non-British citizens in each quarter in the last three years. [39465]

Bridget Prentice: The nationality of those seeking legal aid does not form part of the eligibility criteria for receipt of legal aid, and is therefore not recorded by the Legal Services Commission (LSC).

Non-departmental Public Bodies

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs how many staff were employed by non-departmental public bodies and agencies for which she has responsibility in 2004–05 in *(a)* total and *(b)* each (i) nation and (ii) region of the UK and *(c)* London. [35952]

Ms Harman: Total executive NDPB staff numbers by department as at 31 March 2005 are recorded in Table 2 of Public Bodies 2005, a copy of which is in the House Libraries, and which is available online at: http://www.civilservice.gov.uk/the future of the civil service/agencies and public bodies/publications/pdf/public-bodies/publicbodies2005.pdf

The number of staff in individual executive agencies as at 1 April 2004, including a regional analysis, is available in civil service statistics 2004 which was published in February 2005, a copy of which is in House Libraries.

It is also available online at:
http://www.civilservice.gov.uk/management of the civil service/statistics/contents for civil service statistics 2004 report/number of civil servants/ind ex.asp
Regional NDPB breakdowns are not detailed and can be obtained only at disproportionate cost.

EDUCATION AND SKILLS

Consultants

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will list ongoing projects in her Department for which consultants have been hired. [39911]

Bill Rammell: The information requested is not held centrally, and could be provided only at disproportionate cost.

Correspondence

Mr. Amess: To ask the Secretary of State for Education and Skills how many *(a)* letters from hon. Members, *(b)* letters from members of the public and *(c)* Parliamentary Questions from (i) hon. Members and (ii) Lords were dealt with by her Department in each year since 1995; in respect of what percentage her Department took (A) more than one month and (B) more than three months to provide a substantive answer; and if she will make a statement. [37381]

Bill Rammell: We are unable to provide the requested figures without incurring disproportionate cost.

The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of departments in replying to Members/Peers correspondence. The Report for 2004 was published on 6 April 2005, *Official Report*, columns 137–40WS. Reports for earlier years are available in the Library of the House.

The Department's target for correspondence from members of the public is to reply to 95 within 15 working days of receipt. Ministers take responses to Parliamentary Questions very seriously, and endeavour to answer within Parliamentary deadlines where possible.

Departmental Expenditure

Pete Wishart: To ask the Secretary of State for Education and Skills what the annual expenditure has been on training and development for *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which she is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39998]

Maria Eagle: Within my Department, the prime responsibility for developing staff lies with line managers who are best placed to assess individual needs. Most learning and development takes place on the job, supplemented by off the job learning as need requires. Records are not held centrally on this.

In addition, staff have access to development provided through the Department's internal learning and development unit.

The annual learning programme budgets for activities provided through the Department's internal learning and development unit since 2002 are as follows:

	£
2002–03	1,500,000
2003–04	2,400,000
2004–05	3,600,000

My Department's expected investment in learning and development for 2005–06 is £4,000,000.

Other activities take place across the Department which incorporate elements of learning and development within them. It is not possible to separate these out or quantify costs.

Records are not held centrally on the annual expenditure on learning and development for non-departmental public bodies, executive agencies, other public bodies in Scotland, Wales, the English regions and Northern Ireland.

Departmental Staff

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to her answer of 29 November 2005, *Official Report*, column 478W, on Departmental Staff, what remuneration is received by the tutor in basic skills from the Learning and Skills Council. [36024]

Bill Rammell: The Learning and Skills Council is not responsible for the remuneration of the basic skills tutor. Westminster Adult Education Service is responsible for the remuneration of its staff.

Records are not held centrally on the remuneration arrangements of Westminster Adult Education Service.

Ealing

Stephen Pound: To ask the Secretary of State for Education and Skills what steps she is taking to reduce the funding gap between school sixth forms and further education colleges in Ealing. [40702]

Bill Rammell: The Learning and Skills Development Agency's (LSDA) report into the funding gap between schools sixth forms and further education (FE) colleges for like-for-like 16–19 provision was commissioned by the Learning and Skills Council (LSC) as part of the agenda for change development programme. The report was the first attempt at a comprehensive assessment of all the factors that contribute to the total funding gap and estimated it to be in the region of 13 per cent.

We recognise that closing the funding gap will not be easy but we have taken some important steps towards doing this. My right hon. Friend the Secretary of State announced on 16 November the progress that we have made and our future plans for addressing the gap.

The LSDA report was based on 2003/04 figures and since then we have increased FE funding rates relative to school sixth forms. In both 2004/05 and 2005/06 LSC funding rates for FE were increased by 5 per cent. compared to 4 per cent. for schools sixth forms. We have committed to matching the schools' Minimum Funding Guarantee for 16–19 FE. We are also addressing a number of technical anomalies between the two funding system through removal of the in-year adjustment and by beginning a phased removal of the Real Terms Guarantee for school sixth forms. We estimate that these measures will together reduce the funding gap to 8 per cent. by 2006/07.

We will follow this with further work and our next steps will be to bring greater consistency to the treatment of student retention and achievement between the school and college sectors from 2008. That should narrow the gap by a further 3 per cent.

Beyond that, we will work to establish a common funding approach across the two sectors through the LSC's agenda for change programme.

Education Maintenance Allowance

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many young people in Tamworth have been granted an education maintenance allowance. [33730]

Maria Eagle: This is a matter for the Learning and Skills Council, who operate education maintenance allowances for the DfES and hold the information about take-up of the scheme. Mark Haysom, the council's chief executive, has written to my hon. Friend with the information requested and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 20 December 2005:

I am writing in response to your Parliamentary Question that asked "how many young people in Tamworth have been granted an education maintenance allowance?"

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance (EMA) is available at Local Authority level, but not at constituency level. The information relates to academic years.

By the end of October 2005, 5,158 young people in the Staffordshire Local Education Authority area had received one or more EMA payments in the academic year 2005/06 so far.

During the academic year 2004/05, 3,632 young people in the Staffordshire Local Education Authority received one or more EMA payments.

I hope this information is helpful and addresses your question. If you would like further details please contact Chris Bradley at the LSC National Office on 0114 207 4512 or christopher.bradley@lsc.gov.uk

Sarah Teather: To ask the Secretary of State for Education and Skills how many young people in *(a)* Brent and *(b)* London have been granted an education maintenance allowance. [35585]

Maria Eagle: This is a matter for the Learning and Skills Council, who operate education maintenance allowances for the DfES and hold the information about take-up of the scheme. Mark Haysom, the council's chief executive has written to the hon. Member with the information requested and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 22 December 2005:

I am writing in response to your Parliamentary Question that asked "how many young people in a) Brent and b) London have been granted an Education Maintenance Allowance (EMA)?

Information on the number of young people who have applied, enrolled and received EMA is available at Local Authority level, but not at constituency level. The information relates to academic years.

By the end of November 2005, 2,570 young people in Brent Local Education Authority area and 55,450 in the London region had received one or more EMA payments in the academic year 2005/06 so far.

During the academic year 2004/05, 2,744 young people in the Brent Local Education Authority and 50,896 in the London region received one or more EMA payments. During the academic year 2003/04 EMA was piloted in Brent and 1,902 young people received EMA payments.

I hope this information is helpful and addresses your question. If you would like further details please contact Chris Bradley at the LSC National Office on 0114 207 4512 or christopher.bradley@lsc.gov.uk

Alison Seabeck: To ask the Secretary of State for Education and Skills how many young people in Plymouth have received an education maintenance allowance payment since it was introduced. [34958]

Maria Eagle: This is a matter for the Learning and Skills Council, who operate education maintenance allowances for the DfES and hold the information about take-up of the scheme. Mark Haysom, the Council's chief executive, has written to my hon. Friend with the information requested and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 21 December 2005:

I am writing in response to your Parliamentary Question that asked "how many young people in Plymouth have received an Educational Maintenance Allowance payment since it was introduced?"

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance (EMA) is available at Local Authority level, but not at constituency level. The information relates to academic years.

By the end of October 2005, 1,963 young people in the Plymouth Local Education Authority area had received one or more EMA payments in the academic year 2005/06 so far.

During the academic year 2004/05, 1,425 young people in the Plymouth Local Education Authority received one or more EMA payments.

I hope this information is helpful and addresses your question. If you would like further details please contact Chris Bradley at the LSC National Office on 0114 207 4512 or christopher.bradley@lsc.gov.uk

Jim Cousins: To ask the Secretary of State for Education and Skills how many students at each educational institution in Newcastle upon Tyne are in receipt of an education maintenance allowance. [38291]

Maria Eagle *[holding answer 19 December 2005]:* This is a matter for the Learning and Skills Council, who operate Education Maintenance Allowances for the DfES and hold the information about take-up of the scheme. Mark Haysom, the Council's chief executive has written to my hon. Friend with the information requested and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 22 December 2005:

I am writing in response to your Parliamentary Question that asked "how many students are in receipt of an education maintenance allowance at each educational institution in Newcastle upon Tyne."

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance is available at Local Education Authority level, but not at constituency level.

Attached is a breakdown by school / college in the Newcastle upon Tyne Local Education Authority of students who are in receipt of EMA at 15 December 2005.

I hope this information is helpful and addresses your question. If you would like further details please contact Chris Bradley at the LSC National Office on 0114 207 4512 or christopher.bradley@lsc.gov.uk

Table showing numbers of EMA recipients in Newcastle upon Tyne local education authority according to the school/college they attend.

School/College	*Numbers in receipt of EMA*
All Saints College	45
Benfield School	54
Central Newcastle High School	17
Dame Allan's Boys' School	23
Gosforth High School	200
Heaton Manor School	117
Kenton School	188
La Sagesse School	10
Newcastle Bridges School	2
Newcastle College	1,846
Newcastle-upon-Tyne Church High School	14
Northern Counties School	8
Royal Grammar School	29
Sacred Heart High School	123
Sage Academy of Performing Arts	5
Sir Charles Parsons School	14
St Cuthbert's High School	67
St Mary's Catholic Comprehensive School	47
Thomas Bewick School	4
Trinity School	1
Walbottle Campus Technology College	87
Walker Technology College	105
West Gate Community College	50
Westfield School	9

Note:
The data is at 15 December 2005 and relates to academic year 2005/06.

Further Education

Mr. Hayes: To ask the Secretary of State for Education and Skills if she will make a statement on her plans for reform following the report by Sir Andrew Foster on the further education sector. [39880]

Bill Rammell: Sir Andrew has produced an excellent report which recognises the current strengths of the FE sector and sets out a compelling set of arguments for reform. There are challenges for all parts of the FE system with a clear and convincing set of priorities which we must address. The report is full of significant material which we need to take time to consider, and we want to do this in discussion with colleges and other stakeholders. In the light of that debate, the Government intend to set out in the spring the next stage of reform and how this will be implemented. The purpose of the Government's response will be to set out a coherent programme of reform which draws together Sir Andrew's report, Agenda for Change and other existing reform strategies to show how this sector can achieve its potential for economic and social impact.

Tim Farron: To ask the Secretary of State for Education and Skills pursuant to the answer of 19 December 2005, *Official Report*, column 2414W, on further education (funding), what her Department's policy is on whether further education colleges should recruit extra 16 to 19-year-olds above their plans agreed with the relevant local learning and skills council. [40772]

Bill Rammell *[holding answer 9 January 2006]:* My Department's policy on provision for young people is outlined in the Learning and Skills Act, 2000 which details our commitment, and the Learning and Skills Council's (LSC) duty, to secure the provision of education and training for all those aged 16–19 years. Colleges may enrol students above the numbers they have agreed with the LSC and can do so if they wish, and have the capacity. I would expect colleges to respond positively to learner demand where they are able to do so. I would also expect that any unplanned growth in student numbers will be reflected in the plans colleges agree with local LSCs for the following year. Where individual colleges cannot respond to increased demand local LSCs will ensure there is appropriate alternative provision.

Tim Farron: To ask the Secretary of State for Education and Skills pursuant to the answer of 19 December 2005, *Official Report*, column 2414W, on further education (funding), whether school sixth forms which recruit more 16 to 19-year-olds than their agreed

plans will receive additional funding to the levels they have agreed with the relevant local learning and skills council. [40785]

Bill Rammell *[holding answer 9 January 2006]:* My hon. Friend the Minister of State for Schools announced on 7 December the schools funding settlement for 2006-07 and 2007-08. We intend that school 6th form funding for 2006/07 and 2007/08 should align with these new arrangements. The allocations for school 6th forms for 2006/07 made by the Learning and Skills Council (LSC) last month, and based on the September 2005 pupil count, therefore are fixed. For 2006/07 there will be no adjustment made, upwards or downwards, for extra or fewer pupils enrolled in school 6th forms in September 2006. The LSC have special arrangements for new and closing schools and will on an exceptional basis look at school 6th forms where provision is planned to increase significantly. In line with our announcement on multi-year budgets for schools, the LSC has also provided indicative allocations for 2007/08 which will be adjusted on the basis of school enrolment data for September 2006. These arrangements notified to the sector through Priorities for Success—School 6th Form Funding, published on 21 October 2005, will ensure better consistency of approach in funding 16 to 19-year-olds in schools and further education colleges and provide more stability of funding.

GEMS Education

Sandra Gidley: To ask the Secretary of State for Education and Skills what public monies are received by GEMS Education; and if she will make a statement. [40816]

Bill Rammell: The Department for Education and Skills has no record of making any payments to GEMS Education.

International Students

Ms Gisela Stuart: To ask the Secretary of State for Education and Skills how many international students are studying science and technology subjects; and what the equivalent figure was in 1998. [40650]

Bill Rammell: The latest available information is given in the table. Figures for 2004/05 will be available in mid-January.

Non-UK domiciled enrolments to science and technology subjects[1] at English HE institutions

Academic year	*Enrolments*
1998/99	65,665
2001/02	72,645
2002/03[2]	82,670
2003/04	87,605

[1] 'Science and technology' includes 'Medicine and dentistry', 'Subjects allied to medicine', 'Biological sciences', 'Agriculture & veterinary sciences', 'Physical sciences', 'Mathematical sciences', 'Computer sciences', 'Engineering & technology' and 'Architecture building & planning'.

[2] In 2002/03 JACS replaced HESACODE as the coding frame for subject of study. This along with a change in methodology to apportion students between subjects means that figures for 2002/03 onwards are not directly comparable to earlier years.

Note:
Figures are on a snapshot basis as at 1 December and are rounded to the nearest 5.

Source:
Higher Education Statistics Agency (HESA) student record.

Maths GCSE Curriculum

Mr. Gibb: To ask the Secretary of State for Education and Skills when the Qualifications and Curriculum Authority will publish the requirements for the new two tier maths GCSE curriculum and examination; and if she will make a statement. [40726]

Jacqui Smith: Ken Boston, chief executive of the Qualifications and Curriculum Authority, wrote to head teachers on 4 January advising them that a standard two-tier GCSE model for mathematics would be introduced for first teaching from September 2006 and the current three-tier model would be withdrawn. He made it clear that the only change would be to the format of assessment and there would be no change to the related key stage 4 programme of study. Awarding bodies are expected to make revised specifications available shortly.

Ofsted Inspections

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of lessons inspected by Ofsted were recorded as setted in *(a)* geography, *(b)* music, *(c)* history, *(d)* religious education, *(e)* English, *(f)* modern foreign languages and *(g)* mathematics in (i) years (A) 7, (B) 8, (C) 9, (D) 10, (E) 11 and (ii) overall (1) in England and (2) in West Sussex local education authority in each year since 1995. [38605]

Jacqui Smith: This is a matter for Ofsted. HM chief inspector, Maurice Smith has written to the hon. Member and a copy of his reply has been placed in the House Library.

Postgraduate Courses

Ms Gisela Stuart: To ask the Secretary of State for Education and Skills how many *(a)* international students and *(b)* UK domestic students took up postgraduate courses in each year since 1998; and how many in each category were research students. [40741]

Bill Rammell *[holding answer 9 January 2006]:* The latest available information is given in the table. Figures for 2004/05 will be available in mid-January.

Entrants to postgraduate courses at English HE Institutions

	UK domiciles		*Non-UK domiciles*	
Academic year	*Entrants*	*Of which research*	*Entrants*	*Of which research*
1998/99	129,175	13,555	38,865	7,875
1999/2000	127,105	13,345	41,810	7,865
2000/01	128,705	13,330	46,130	8,385
2001/02	131,610	13,035	50,505	8,480
2002/03	138,060	12,925	61,895	8,890
2003/04	141,995	12,930	69,105	9,580

Note:
Figures are on a snapshot basis as at 1 December and are rounded to the nearest 5.

Higher Education Statistics Agency (HESA) student record.

Public Service Agreement

Mr. Philip Hammond: To ask the Secretary of State for Education and Skills whether the data required to measure 2004 public service agreement target number 1 are *(a)* available and *(b)* published. [29174]

Beverley Hughes: The PSA 1 target comprises 2 elements. The first element of the target relates to the proportion of children across England achieving a good level of development by 2008 and is derived from a pupil level sample. The second element of the target relates to reduction in the inequalities in achievement between children in the 20 per cent. most disadvantaged areas and the rest of England by 2008 and is measured by combining the 10 per cent. pupil level sample with an Index of Deprivation. The target will be considered to be met if both parts are met individually. Both of these elements focus the numbers of children achieving a good level of development. A full technical definition of how good development is defined, and other aspects of the target, is available on the Department's Sure Start website http://www.surestart.gov.uk/publications/?Document=1393.

The current figures for the proportions of children achieving a good level of development as defined by both elements of the PSA1 target have yet to be published.

The final figures for the Foundation Stage Profile for 2005 will form the baseline for the target and will be published in a Statistical First Release (SFR) in February. The SFR will include a table showing these baseline percentages.

The provisional figures on the Foundation Stage Profile were published in Statistical First Release 44/2005 "Foundation Stage Profile 2005: National Results (Provisional)", which is available on the Department's website www.dfes.gov.uk/rsgateway/. These results were derived from the summary data supplied by local authorities.

Schoolchildren (Mental Health)

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what assessment she has made of mental health problems in children below the age of 11 in mainstream education, with particular reference to *(a)* vulnerable children and *(b)* those with minor learning difficulties. [40616]

Maria Eagle: Two national surveys of children's mental health have been conducted by the Office for National Statistics (ONS), the first ("Mental Health of Children and Adolescents in Great Britain) in 1999, and the second in 2004. The data is not presented according to the educational establishment which children attend but the 2004 survey report shows that, among five to 10 year-olds as a whole, 10 percent. of boys and 5 percent. of girls had a clinically diagnosable mental health disorder. The survey found that the prevalence of mental disorders is greater among vulnerable groups, such as children and young people from more deprived socio-economic backgrounds. Children with a mental disorder were also found to have higher rates of special educational need and to be further behind in their scholastic development than those without disorders. In the five year period between the surveys, prevalence rates overall were unchanged.

The surveys have not explored the links to minor learning difficulties, though the 1999 survey did touch on the prevalence of mental disorder in relation to associated and specific learning difficulties such as dyslexia. The figures showed that the percentage prevalence rate for mental disorders among those with a specific learning difficulty was 22 percent., compared to 8 percent. among those with no specific learning disorder.

The full reports from both main surveys and related follow-up reports can be accessed via the virtual bookshelf/health and care theme on the ONS website:

www.statistics.gov.uk.

Schools Graded Satisfactory

Mr. Gibb: To ask the Secretary of State for Education and Skills what steps she is taking in respect of *(a)* primary schools and *(b)* secondary schools graded as satisfactory by Ofsted. [40722]

Jacqui Smith: Schools judged to be satisfactory following Ofsted inspection should be striving to improve their performance. We believe that all schools should aspire to be good or outstanding. The inspection report will identify areas for improvement in a satisfactory school and these should be reflected in a revised school development plan.

Under the proposals in the Schools White Paper 'Higher Standards, Better Schools For All', local authorities will be expected to help all schools improve their standards, through the support and challenge of School Improvement Partners, and drawing on the resources of the National Strategies. Local authorities will be expected to intervene decisively in schools that are falling below expectations, including coasting schools whose performance is not as good as parents have a right to expect, by issuing warning notices and taking radical action where necessary. In addition, Ofsted will be consulting on moving to a more proportionate inspection system, under which high-performing schools might receive minimal inspection, while under-performing schools could be monitored more frequently, with a focus on those issues of concern in the school. This would reinforce the drive for improvement in such schools.

Setting

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) what measures her Department is taking to ensure that schools set pupils by ability; [40373]

(2) what advice her Department offers teachers on the best methods of setting pupils by ability. [39513]

Jacqui Smith: It is for schools to use their own professional judgment to decide when and how to group pupils and set by ability. We have encouraged schools to use setting since 1997, and putting children in ability groups within a class is now commonplace in primary schools. In secondary schools the majority of lessons in English, maths, science and modern foreign languages are set by ability.

The Department has commissioned research to illustrate effective school practice on setting pupils by ability which will report early this year. This will provide the raw materials for any further advice or guidance on setting.

Through the National Strategies and our Gifted and Talented programme we will continue to offer advice and guidance to schools on classroom practice so that they can make decisions about where and how to use pupil setting as part of their overall commitment to personalising and tailoring learning to meet the needs of all their pupils.

Specialist Schools

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of secondary schools are specialist schools in *(a)* arts, *(b)* business and enterprise, *(c)* engineering, *(d)* humanities, *(e)* language, *(f)* mathematics and computing, *(g)* music, *(h)* science, *(i)* sports and *(j)* technology. [40727]

Jacqui Smith: There are currently 2,375 designated specialist schools covering 10 specialisms across all curriculum subject areas. This represents just over 75 per cent. of all secondary schools. The numbers in each specialism, and the proportion they represent, are as follows:

	Number	*Percentage*
Arts	383	12.3
Business and Enterprise	201	6.5
Engineering	41	1.3
Humanities	60	1.9
Language	213	6.8
Mathematics and Computing	206	6.6
Music	15	0.5
Science	269	8.6
Sports	333	10.7
Technology	572	18.3

Additionally, there are 70 (2.3 per cent.) schools that have chosen a specialism combining two of the subjects and 12 special schools designated in one of the new SEN specialisms.

Student Loans

Sarah Teather: To ask the Secretary of State for Education and Skills how many people in London applied for a student loan in the last five years. [40393]

Bill Rammell: Latest data on the numbers of student applying for support domiciled in London[1] who were eligible for an income-contingent loan for academic years 2000/01 to 2004/05 (provisional) are given in the table.

[1] Includes inner and outer London boroughs.

Academic year	*Students eligible for a loan (000s)*
2004/05[1]	129.9
2003/04	128.3
2002/03	123.0
2001/02	114.3
2000/01	98.2

[1] Provisional.

Source:
Student Loans Company (SLC)

Data specifically on student loan applications are not available, therefore, numbers of applicants eligible for a loan have been provided. Applications for loans will be marginally higher than numbers of applicants eligible for a loan.

Sure Start

Mr. Graham Stuart: To ask the Secretary of State for Education and Skills how many children are participating in the Sure Start programme in Beverley and Holderness. [39584]

Beverley Hughes: There is one Sure Start children's centre in Beverley and Holderness. Withernsea Children's Centre has 687 children under five within its catchment area. East Riding of Yorkshire council is planning to develop further centres in this constituency between April 2006 and March 2008. By March 2010 all children under five in the area will be able to access children's centre services as part of the Government's commitment to extend the programme across the whole of England.

University Entrance

Jon Trickett: To ask the Secretary of State for Education and Skills how many young people went to university from secondary schools in *(a)* Minsthorpe, *(b)* Hemsworth, *(c)* Featherstone, *(d)* Kettlethorpe and *(e)* Crofton in each of the last five years. [38137]

Bill Rammell: Information on the number of pupils from individual small towns and villages is not held by the Department. The five areas mentioned all lie within the Hemsworth constituency. The latest available figures on participation by constituency were published by the Higher Education Funding Council for England in January 2005 in "Young Participation in England", which is available from their website at: http://www.hefce.ac.uk/pubs/hefce/2005/05_03/ This shows the number of young entrants (aged 18 or 19) participating in higher education for the years 1997 to 2000. The figures for the Hemsworth constituency are shown in the table.

Higher Education entrants and young participation rate (YPR(A)) for Hemsworth constituency

Year cohort	*Entrants*[1]	*Participation rate (YPR(A))*[2] *(%) Hemsworth*	*England*
1997	250	23	29
1998	260	22	29
1999	250	21	29
2000	240	22	30

[1] Figures are rounded to the nearest 10.
[2] Figures are rounded to the nearest 1 per cent.

Higher Education Funding Council for England (HEFCE)

Vulnerable Minors

Chris Ruane: To ask the Secretary of State for Education and Skills what monitoring her Department undertakes of vulnerable *(a)* children and *(b)* young adults placed by social services departments outside their own local authority area; and if she will make a statement. [39290]

Maria Eagle: Monitoring of vulnerable children or young adults placed outside of their own authority area is not undertaken centrally. For children looked after, including those placed out-of-authority, arrangements for care planning and the review and monitoring of care planning are a matter for the local authority which is responsible for looking after them. This includes a requirement, where a child is placed in another authority's area, to inform the local authority and the primary care trust (PCT) or, if there is no PCT, the health authority for the area in which the child is placed. Where young people are care leavers, the authority responsible for their care has a duty to stay in touch with them and plan for their support, wherever they are living.

The Department's annual volume of statistics for children looked after as at 31 March by local authorities in England includes data on children placed outside their own authority boundary. The latest statistical volume is available at:

http://www.dfes.gov.uk/rsgateway/DB/VOL/v000569/index.shtml

Work Placements

Kerry McCarthy: To ask the Secretary of State for Education and Skills if she will amend the Education (Student Support) Regulations 2005 to allow students undertaking full year unpaid work placements as part of their degree to receive the higher rate of loan from the Student Loan Company. [39305]

Bill Rammell: We have no plans to amend the Regulations. The amount of support for living costs that is available via grants and loans to higher education students is related to the number of weeks of full-time study in the academic year. Students on sandwich course placements are eligible for lower rates of support because they are normally expected to receive a salary from the firm or organisation with whom they have been placed. However, students on certain full-year unpaid placements in the public or voluntary sectors, which are specified in the Regulations, are entitled to receive full-time rates of student support, subject to the standard income assessment process.

TREASURY

Administrative Costs

Mr. Salmond: To ask the Chancellor of the Exchequer what the administrative costs were of each non-departmental public body for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40062]

John Healey: The Treasury has responsibility for two advisory non departmental public bodies, the Statistics Commission and the Public Services Productivity Panel.

Information on the Statistics Commission's costs, which are non identifiable, is set out in that body's 2004–05 annual accounts, copies of which are in the Library and accessible via

http://statscom.org.uk/media_pdfs/annuals/Annual_report_2004–05.pdf

The Public Services Productivity Panel does not have any administration costs. Panel members' expenses are met by the Treasury but cannot be disaggregated.

Average Wage

David Simpson: To ask the Chancellor of the Exchequer what the average weekly wage was for workers in the *(a)* private and *(b)* public sector in (i) England, (ii) Scotland, (iii) Wales and (iv) Northern Ireland in each of the last 10 years. [39793]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average weekly wage was for workers in the *(a)* private and *(b)* public sector in (i) England, (ii) Scotland, (iii) Wales and (iv) Northern Ireland in each of the last 10 years. (39793)

Currently average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

I attach a table showing the Average Gross Weekly Earnings for full time employees by private and public sector for England, Scotland, Wales and Northern Ireland from 1997 to 2005. Results prior to 1997 are not available.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Gross weekly(£) pay for full-time employee jobs[1] by place of work— England

	Public		Private	
	Median	Mean	Median	Mean
1997	353	377	315	380

Banking System (China)

Mr. Spellar: To ask the Chancellor of the Exchequer what assessment his Department has made of *(a)* the stability of the banking system in China and *(b)* the effect on the UK economy of weaknesses in the system. [40663]

Mr. Ivan Lewis: HM Treasury continually monitors the stability of financial systems around the world and their effects on the UK economy. The outlook for UK economy was set out in the PBR. A recent IMF report provides an authoritative up-to-date assessment of the banking system in China (see the Staff Report for the 2005 Article IV Consultation) and concludes that progress has been made in reform, but that considerable work remains to be done to improve the efficiency of banking intermediation. UK banks are playing a leading role in modernising China's financial sector.

British Overseas Territories

Mr. Weir: To ask the Chancellor of the Exchequer what representations he has made to the elected governing authorities of *(a)* Guernsey, *(b)* Jersey, *(c)* the Isle of Man, *(d)* the Falkland Islands, *(e)* Gibraltar, *(f)* Saint Helena *(g)* Anguilla, *(h)* Montserrat, *(i)* Bermuda, *(j)* the British Virgin Islands, *(k)* the Turks and Caicos Islands and *(l)* the Cayman Islands about their domestic monetary and fiscal policies since 1997. [39215]

John Healey: The Chancellor has made no direct representations to the elected governing authorities of the Crown Dependencies or Overseas Territories about their domestic monetary and fiscal policies since 1997.

However, the UK Government, led by the Foreign and Commonwealth Office and Department for International Development, has a continuing dialogue with the Overseas Territories on all aspects of domestic policy, including on occasion domestic monetary and fiscal policies.

Mr. Weir: To ask the Chancellor of the Exchequer what powers of the intervention he has over the domestic monetary and fiscal policies of *(a)* Guernsey, *(b)* Jersey, *(c)* the Isle of Man, *(d)* the Falkland Islands, *(e)* Gibraltar, *(f)* Saint Helena *(g)* Anguilla, *(h)* Montserrat, *(i)* Bermuda, *(j)* the British Virgin Islands, *(k)* the Turks and Caicos Islands and *(l)* the Cayman Islands. [39216]

John Healey: Guernsey, Jersey and the Isle of Man (the Crown Dependencies) are self-governing dependencies of the Crown. They are not part of the United Kingdom. Each Crown Dependency has its own legislative assembly, administrative, legal and fiscal system and has domestic competence over its monetary and fiscal policies.

In the case of Gibraltar, domestic monetary and fiscal policy are Defined Domestic Matters under the Gibraltar Constitution. However, as Gibraltar is in the EU as part of the UK member state, they have an obligation to

transpose EU legislation into domestic Gibraltar law, including in financial areas. HM Government liaises with the Government of Gibraltar to assist in undertaking this transposition. But monetary policy remains in the hands of the Government of Gibraltar.

The Falkland Islands and St. Helena have domestic competence over monetary and fiscal policy.

Anguilla, Montserrat, Bermuda, the British Virgin Islands, the Turks and Caicos Islands and the Cayman Islands either use the US dollar as their currency or have currencies which are linked in value to the US dollar. Fiscal policy is the responsibility of the governing authorities of these territories.

Child Tax Credit

Mr. Laws: To ask the Chancellor of the Exchequer for what reasons birth certificates do not have to be provided as part of a claim for child tax credit. [36805]

Dawn Primarolo: Parents are required to supply birth certificates when applying for child benefit.

The tax credit IT system automatically checks whether a child matches with a record in the Child Benefit Office database. Where there is no evidence of child benefit, HM Revenue and Customs will ask the tax credit claimant to supply a birth certificate or medical card to support their claim for child tax credit.

Common Agricultural Policy

Mr. Brady: To ask the Chancellor of the Exchequer what estimate his Department has made of the annual cost of the common agricultural policy arising from *(a)* increased food prices and *(b)* direct costs to the Exchequer under the new financial perspective 2007 to 2013. [39459]

Mr. Des Browne *[holding answer 9 January 2006]:* The OECD estimates the annual cost of the common agricultural policy to EU consumers arising from increased food prices at around €50 billion each year, of which part will be borne by UK consumers. In addition, taxpayers in the UK and other member states pay the fiscal costs of the CAP. I refer the hon. Member to the answer I have given to his related question number 39460.

For a more comprehensive assessment of the costs of the CAP, I refer the hon. Member to the paper "A Vision for the Common Agricultural Policy" published by the Department for Environment, Food and Rural Affairs and HM Treasury in December, copies of which are available in the Library of the House.

Mr. Brady: To ask the Chancellor of the Exchequer what estimate his Department has made of the cost of the common agricultural policy to *(a)* the EU and *(b)* the UK under the new financial perspective 2007 to 2013. [39460]

Mr. Des Browne *[holding answer 9 January 2006]:* The European Council meeting of 15–16 December agreed to set the EU budget for pillar 1 of the common agricultural policy (market-related expenditure and direct payments) for 2007–13 at €293.105 billion in 2004 prices. The rural development budget was set at €69.25 billion, excluding transfers from pillar 1 to this budget.

The UK contributes to the budget as a whole, not to specific policies. I refer the hon. Member to the answer I have given to the right hon. Member for Wokingham (Mr. Redwood), question number 40045.

A wide-ranging assessment of the economic, financial, social and environmental costs of the CAP is contained in the paper "A Vision for the Common Agricultural Policy" published by the Department for Environment, Food and Rural Affairs and HM Treasury in December, copies of which are available in the Library of the House.

Contingent Liabilities

Mr. Weir: To ask the Chancellor of the Exchequer what the total Government expenditure was on contingent liabilities which became payable in each year since 1992. [39621]

Mr. Des Browne: The Government do not separately record expenditure on items previously recorded as contingent liabilities. The cost of obtaining details of contingent liabilities that became payable in each year since 1992 would therefore exceed the Disproportionate Cost Threshold for answering parliamentary questions and so I am unable to provide the information requested.

Correspondence

Dr. Strang: To ask the Chancellor of the Exchequer how many items of departmental correspondence were addressed to people who had *(a)* died and *(b)* moved house in each of the last five years. [41029]

John Healey: The information requested is not held.

Debt Relief

Andrew George: To ask the Chancellor of the Exchequer (1) what assessment he has made of corrective actions proposed by the International Monetary Fund for members whose performance is below requirements for the Multilateral Debt Relief Initiative; [39758]

(2) what assessment he has made of the International Monetary Fund's plans to implement the G8 debt deal. [39759]

Mr. Ivan Lewis: On the 21 December 2005, the IMF Executive Board confirmed 19 countries as qualifying for the Multilateral Debt Relief Initiative. Qualifying countries will get irrevocable debt relief with immediate effect, once final administrative matters have been completed. The UK fully supports and welcomes the IMF's implementation plans for debt relief for Benin, Bolivia, Burkina Faso, Cambodia, Ethiopia, Guyana, Ghana, Honduras, Mali, Madagascar, Mozambique, Nicaragua, Niger, Rwanda, Senegal, Tanzania, Tajikistan, Uganda and Zambia.

The IMF Board also concluded that at this stage, while Mauritania is eligible for debt relief, it will not qualify immediately due to issues regarding macro-economic performance and public expenditure management since it reached completion point in the HIPC initiative in 2002. The IMF will work closely with the authorities in the coming months to help Mauritania qualify for MDRI debt relief. The UK welcomes efforts by the IMF and

Mauritanian authorities to establish a track record, and we hope that Mauritania will qualify for debt relief in the near future.

Departmental Expenditure

Pete Wishart: To ask the Chancellor of the Exchequer what the cost was of pension contributions incurred by *(a)* his Department, *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39987]

John Healey: Pension contributions and other pension costs for past years are disclosed in the annual accounts of each public body, which are available in the Library of the House or from the websites of the respective bodies. Further analysis could be provided only at disproportionate cost.

Dormant Bank Accounts

Andrew Rosindell: To ask the Chancellor of the Exchequer what steps the Government will take to encourage people who may have dormant accounts to claim their money before the funds are used by the Government. [37963]

Mr. Ivan Lewis: As announced in the pre-Budget report 2005, the Government have been in discussion with the industry about continuing to follow best practice in reuniting assets with their owners.

Duty Free Allowance

Mr. Amess: To ask the Chancellor of the Exchequer (1) what progress has been made by the European Commission regarding his proposal to increase the duty free allowance to £1,000; and if he will make a statement; [39667]

(2) what recent representations he has made to the European Commission about increasing the duty free allowance to £1,000; and if he will make a statement. [39668]

Dawn Primarolo: The Chancellor of the Exchequer wrote to the European Commission at Budget 2005 proposing that the limit on goods (excluding wine, spirits, tobacco and perfume) brought into the EU without incurring tax or duty on arrival should be increased to £1,000. The Commission has expressed support in principle for an increase in the allowance, and we hope they will soon come forward with draft legislation addressing our request and reducing unnecessary restrictions on travellers bringing goods into the EU for their own use.

ECOFIN Council of Ministers

Chris Huhne: To ask the Chancellor of the Exchequer who the most senior UK representative was at each meeting of the EU's ECOFIN Council of Ministers since June 1997. [39899]

Mr. Ivan Lewis: Ministerial attendance and the outcome of each ECOFIN have been reported either by written ministerial statement, written answer or, occasionally, by letter to the Chairman of the European Scrutiny Committee.

Economic Inactivity (London Boroughs)

Sarah Teather: To ask the Chancellor of the Exchequer what assessment he has made of the levels of economic inactivity in each London borough. [40681]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about economic inactivity. (40681)

The Office for National Statistics (ONS) compiles statistics of inactivity for local areas from the National Population Survey following International Labour Organisation definitions. The table, attached, shows the numbers of inactive people of working age, resident in each London Borough, for the 12 months ending March 2005. The table also shows the number of inactive people as a percentage of the total working age population resident in each Borough.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty.

Number of persons of working age resident in each London borough who are economically inactive, and working age inactivity rate, March 2004 to April 2005

London borough	Number of inactive persons (thousand)	Inactivity rate[1] (percentage)
Barking and Dagenham	31	31.2
Barnet	54	25.1
Bexley	25	18.3
Brent	50	29.0
Bromley	30	16.5
Camden	43	30.6
City of London	[2]	[2]
Croydon	40	18.3
Ealing	49	23.8
Enfield	52	29.4
Greenwich	38	27.7
Hackney	52	37.4
Hammersmith and Fulham	30	24.2
Haringey	46	30.8
Harrow	29	21.3
Havering	28	20.8
Hillingdon	32	19.8
Hounslow	34	24.4
Islington	35	28.3
Kensington and Chelsea	40	33.3

Annual Population Survey

Employees' Earnings

Mr. Moore: To ask the Chancellor of the Exchequer how many and what proportion of *(a)* all employees, *(b)* full-time employees and *(c)* part-time employees in (i) Scotland, (ii) each of the unitary local authority areas in Scotland and (iii) the United Kingdom had hourly

gross earnings excluding overtime below (A) £7.61, (B) £5.72 and (C) £4.85 for the categories: (1) male, (2) female and (3) all workers. [40445]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006: As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many and what proportion of *(a)* all employees, *(b)* full-time employees and *(c)* part-time employees in (i) Scotland, (ii) each of the unitary local authority areas in Scotland and (iii) the United Kingdom had hourly earnings (gross, excluding overtime) below (A) £7.61, (B) £5.72 and (C) £4.85 for the categories: (1) male, (2) female and (3) all workers. (40445).

Currently average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

I am placing a table in the House of Commons Library showing the proportion of all employees, full time employees and part-time employees by local authority by place of work for Scotland and unitary local authority areas for 2005. These statistics are also available on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=13101.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Mr. Moore: To ask the Chancellor of the Exchequer what the distribution of gross earnings was for those earning *(a)* under the point below which 10 per cent. of earners fall and *(b)* the point above which 10 per cent. of earners exceed, for (i) male, (ii) female and (iii) all workers in (A) Scotland and (B) each of the unitary local authority areas in Scotland. [40446]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the distribution of gross earnings was for those earning *(a)* under the point below which 10 per cent. of earners fall and *(b)* the point above which 10 per cent. of earners exceed, for the categories: (i) male, (ii) female and (iii) all workers in (A) Scotland and (B) each of the unitary local authority areas in Scotland. (40446)

Currently average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates whose pay for the survey period was not affected by absence. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

I attach a table showing the points above and below which 10% of earners fall for Gross Weekly Earnings for all, male and female workers, by local authority by place of work for Scotland and unitary authorities for 2005. These statistics are also available on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=13101

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Ethnic Population

Philip Davies: To ask the Chancellor of the Exchequer what percentage of the UK population is from an ethnic minority. [39791]

John Healey: The information requested is the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking what percentage of the UK population is from an ethnic minority. (39791)

The 2001 Census recorded 4.635 million people in the United Kingdom as belonging to an ethnic minority group. They accounted for 7.9 per cent. of the UK population. The ethnic minority population is defined here as all people from a Non-White group and excludes the White Irish and Other White ethnic group categories.

EU Budget

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer what his estimate is of the changes to the UK's annual net contributions to the EU arising from the European Council's recent budget decisions in terms of *(a)* increased contributions arising from enlargement, *(b)* reduction of the UK rebate and *(c)* other factors; and what assessment he has made of how increased contributions will be funded. [39452]

Daniel Kawczynski: To ask the Chancellor of the Exchequer (1) what assessment he has made of the impact on Government borrowing of the revised UK rebate from the EU; [40454]

(2) what assessment he has made of the impact of the recently agreed deal on the UK's EU rebate on *(a)* Budget proposals and *(b)* Treasury forecasts as set out in the pre-Budget report. [40455]

Mr. Ivan Lewis: I refer my hon. Friend and the hon. Member to the answer given to my right hon. Friend the Member for West Dunbartonshire (Mr. McFall) on 20 December 2005, *Official Report*, column 2796W.

Mr. Redwood: To ask the Chancellor of the Exchequer what discussions his Department had with other ministerial colleagues before the UK made its proposals for the EU budget settlement. [40044]

Mr. Ivan Lewis: The Treasury worked closely with the Foreign Office, Cabinet Office, the UK permanent representation in Brussels and other Government Departments on the EU Budget dossier, both during the UK presidency of the EU and beforehand. This included ministerial discussions.

Mr. Bone: To ask the Chancellor of the Exchequer what the UK's *(a)* gross contribution, *(b)* net contribution and *(c)* rebate has been in each year since the United Kingdom joined the European Economic Community (i) in cash terms and (ii) in inflation-adjusted real terms. [40539]

Mr. Ivan Lewis: UK gross contributions, abatement and net contributions for the period 1973–74 to 2004–05 in both cash terms and at constant 2004–05 prices are set out in the following tables.

UK gross contributions, abatement and net contributions to the EC Budget

	Gross contribution	Abatement	(£ million) Net contribution
1973–74	200	—	96
1974–75	197	—	−35

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Committee for the implementation of the Regulation establishing an Instrument for Structural Policies for Pre-accession and *(b)* Economic Policy Committee: working party and reduced compositions have taken place during the UK Presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [38775]

Mr. Ivan Lewis: The Committee for the Implementation of the Regulation establishing an Instrument for Structural Policies for Pre-accession met once during the UK Presidency of the EU. The meeting was chaired by the European Commission. The UK Government was represented by officials from the Department for International Development and the UK Permanent Representation to the European Union, Brussels.

The Economic Policy Committee (EPC) met formally five times during the UK Presidency of the EU. The various working groups and reduced compositions of the EPC met 15 times over the same period. These meetings were chaired by designated members of the EPC. Treasury officials represent the United Kingdom.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Committee on administrative cooperation in the field of indirect taxation, including the Fiscalis programme: anti-fraud (SCAF), *(b)* Committee on administrative cooperation in the field of indirect taxation, including the Fiscalis programme: training (SCAT), *(c)* Committee on administrative cooperation in the field of indirect taxation, including the Fiscalis programme: information technology (SCIT) and *(d)* Committee on excise duties have taken place during the UK Presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [38804]

Dawn Primarolo: During the period of the UK's Presidency of the EU from 1 July to 31 December 2005 the Standing Committee on Administrative Co-operation (SCAC) met on 12 July and 9 December, its IT sub-Committee (SCIT) met on 20 July and 25 November, and the Excise Committee on 25 November. There were no meetings of the Fiscalis Committee. A European Commission DG TAXUD official chaired each of the meetings and in accordance with long standing arrangements, UK representation was provided by a designated official from HM Revenue and Customs (HMRC).

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Customs Cooperation Sub-committee-EEC-Slovenia, *(b)* Customs Cooperation Committee (EEC-Turkey), *(c)* Customs Cooperation Committee-EEC-Andorra, *(d)* Customs Cooperation Sub-committee-EEC-Romania and *(e)* Customs Cooperation Sub-committee-EEC-Russia have taken place during the UK presidency of the EU; who presided over each meeting;

which other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [39026]

Dawn Primarolo: None of the Committees and Sub-committees concerned met during the UK presidency.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* EEC-European Free Trade Association Joint Committee (and working parties), *(b)* Customs Cooperation Sub-committee—EEC-Canada, *(c)* Customs Cooperation Sub-committee—EEC-Korea and *(d)* Customs Cooperation Sub-committee—EEC-United States of America have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39028]

Dawn Primarolo: There have been three meetings of the EEC-European Free Trade Association Joint Committee (and working parties) during the UK presidency. The Commission chaired all these meetings and the UK representatives were from HMRC. Customs matters are a reserved matter for HMG and are not within the competence of the devolved governments.

There have been no meetings of the Customs Cooperation Committee EC-Canada during the UK presidency.

There have been no meetings of the Customs Cooperation Committee EC-Korea during the UK presidency.

There have been no meetings of the Customs Cooperation Committee EC-US during the UK presidency.

Examination Markers

Mr. Bone: To ask the Chancellor of the Exchequer (1) whether those who mark examination papers are treated as *(a)* employed and *(b)* self-employed for (i) income tax and (ii) national insurance purposes; [40625]

(2) if he will make a statement on the tax position of people marking examination papers. [40626]

Dawn Primarolo: The treatment of examiners for tax purposes will depend upon the terms of their engagement. But generally examiners including those individuals who mark examination papers are engaged under terms and conditions amounting to contracts of employment.

For national insurance purposes there are special rules that treat examiners as self-employed where they are responsible for the conduct or administration of examinations lading to any certificate, diploma, degree or professional qualification, and the whole of the work is performed under a contract in less than 12 months.

External examiners that are engaged by universities for masters' degrees and doctorates are generally treated as self-employed for both tax and NICs.

Fees relating to examinations other than GCSE, 'A' level and university degrees, for example for professional qualifications, may be chargeable to tax under trading income or as employment income, depending on whether a contract of employment exists.

Exports (Burma)

Andrew George: To ask the Chancellor of the Exchequer which UK companies have exported goods to Burma in each year since 1997 for which records are available. [39761]

Dawn Primarolo: For reasons of confidentiality, the Department does not publish information at the level of detail required by this question.

Film Productions

Adam Afriyie: To ask the Chancellor of the Exchequer if he will make a statement on the Government's tax policy on *(a)* film productions and *(b)* British film productions in the UK. [38914]

Dawn Primarolo: The Chancellor made a number of key announcements regarding the new film tax incentives at the pre-Budget report. Further details of the new tax incentives will be announced in due course.

Fuel Duty

Mr. Greg Knight: To ask the Chancellor of the Exchequer (1) what discussions he has had on the impact of the proposed harmonisation of duty rates on hydrocarbons; and if he will make a statement; [38926]

(2) what assessment he has made of the impact on the UK economy of the proposed harmonisation of duty rates on hydrocarbon oils; and if he will make a statement; [38927]

(3) what assessment he has made of the *(a)* costs and *(b)* benefits of (i) the EU proposal to harmonise rates of duty on hydrocarbon oils and (ii) the EU derogation in respect of rebated diesel fuel; and if he will make a statement. [38930]

John Healey: The European Commission has not adopted any new proposals to harmonise the rates of duty for commercial diesel. The Government see no reason for harmonised excise duty rates on hydrocarbon oils and believe that tax policy is the responsibility of individual member states. It is for member states to decide what policies they should pursue through the use of fiscal instruments and, subject to minimum rates in some areas, what rates of duty they should apply.

The UK has a number of exemptions from the Energy Products Directive which enable duty to be charged at a reduced rate on oils that are put to certain uses, including use in leisure boats for private use. The Government are minded to apply for an extension these

derogations and will issue an initial regulatory impact assessment on the effects of ending the derogation. This document will analyse the costs and benefits of the derogation, and be used as the basis for further information gathering and discussions.

GDP Growth Rate

Mr. Weir: To ask the Chancellor of the Exchequer what the average GDP growth rate for the United Kingdom has been in each year since 1997–98. [40028]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average GDP growth rate for the United Kingdom has been in each year since 1997–98. (40028)

The information requested is shown in the table below.

Average growth rate of UK gross domestic product chained volume measure, 1997–2004

Calendar year	*Growth rate*
1997	3.2
1998	3.2
1999	3.0
2000	4.0
2001	2.2
2002	2.0
2003	2.5
2004	3.2

Gershon Review

David Taylor: To ask the Chancellor of the Exchequer what savings have been made by each Department as a result of recommendations in the Gershon Review. [39963]

Mr. Des Browne: Departments have reported progress towards their efficiency targets, as set out in their Efficiency Technical Notes, in their Autumn Performance Reports.

Government Expenditure and Revenue

Mr. Weir: To ask the Chancellor of the Exchequer whether documents comparable to Government Expenditure and Revenue in Scotland are published for *(a)* Wales, *(b)* Northern Ireland and *(c)* the regions of England. [39620]

Mr. Des Browne: Government Expenditure and Revenue in Scotland is published annually by the Scottish Executive. There are no similar publications for Wales, Northern Ireland or the English Regions.

Her Majesty's Courts Service

Mr. Pelling: To ask the Chancellor of the Exchequer what discussions his Department has had with the Department for Constitutional Affairs about the pay negotiations with former magistrates court staff transferred to Her Majesty's Courts Service. [39588]

Mr. Des Browne: Responsibility for pay negotiations with former magistrates court staff transferred to Her Majesty Courts Service lies with the Department for Constitutional Affairs (DCA). Like all civil service departments, DCA is required to clear a pay remit for negotiations with the Treasury based on a number of considerations, including recruitment, retention and affordability.

HM Revenue and Customs Staff

Jenny Willott: To ask the Chancellor of the Exchequer how many HM Revenue and Customs staff in *(a)* Wales and *(b)* each constituency in Wales are expected to be made redundant under the Government's latest spending review in (i) 2005–06 and (ii) 2006–07; and if he will make a statement. [39582]

Dawn Primarolo: HMRC has no plans for compulsory redundancies in Wales in 2005–06 and 2006–07.

Jenny Willott: To ask the Chancellor of the Exchequer how many HM Revenue and Customs staff in *(a)* Wales and *(b)* each constituency in Wales have been made redundant under the Government's latest spending review; and if he will make a statement. [39583]

Dawn Primarolo: HM Revenue and Customs has made no staff compulsorily redundant in Wales since 1 April 2004.

Income Tax/National Insurance

Mr. MacNeil: To ask the Chancellor of the Exchequer how much in *(a)* income tax and *(b)* national insurance contributions was raised from (i) the top one per cent., (ii) the top five per cent., (iii) the top 10 per cent. and (iv) the bottom 50 per cent. of taxpayers in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in the last year for which figures are available; and how many people in each of these areas paid no income tax in the last year for which figures are available. [39965]

Dawn Primarolo: The information on income tax can be found in the following table.

	Amount of income tax[1] (£ million)				
Government office region	*Lower 50 per cent.*	*Top 10 per cent.*	*Top 5 per cent.*	*Top 1 per cent.*	*Estimated total number of non-taxpayers[2] (million)*
North East	450	1,380	1,020	490	1.4
North West	1,190	4,590	3,490	1,710	3.6
Yorkshire and the Humber	910	3,280	2,510	1,220	2.7
East Midlands	840	3,220	2,450	1,190	2.2
West Midlands	1,000	3,660	2,780	1,370	2.8
East of England	1,250	6,130	4,720	2,400	2.7
London	1,870	12,220	9,950	5,700	4.1
South East	2,000	10,730	8,230	4,130	4.1
South West	1,010	3,910	2,970	1,420	2.5

Government office region	Amount of income tax[1] (£ million) Lower 50 per cent.	Top 10 per cent.	Top 5 per cent.	Top 1 per cent.	Estimated total number of non-taxpayers[2] (million)
Wales	480	1,570	1,160	540	1.6
Scotland	1,010	3,650	2,760	1,330	2.6
Northern Ireland	270	930	710	350	1.0

[1] Based on tax liability before allowing for tax credits.
[2] Total 2003 mid-year population in each region less the number of taxpayers.

The income tax information is based upon the 2003–04 survey of personal incomes (SPI) which is the last year for which figures are available.

Similar information for national insurance contributions is not readily available.

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer how many taxpayers would not pay *(a)* income tax and *(b)* national insurance contributions if the earnings level at which such payments began to be paid were raised in the forthcoming Budget to £10,000 per annum. [37845]

Dawn Primarolo: In 2006–07, an estimated 6.4 million people would be taken out of income tax and 3.9 million would not be required to pay national insurance contributions if all personal allowances (including age related personal allowances) and related thresholds were raised to £10,000.

The provided figures exclude any estimate of behavioural response to the tax change, which could be significant given the scale of the changes.

Inheritance Tax

Helen Goodman: To ask the Chancellor of the Exchequer what the impact on inheritance tax revenue would be of *(a)* not increasing the threshold above the statutory indexation in 2005–06, *(b)* retaining a threshold of £275,000 over three years to 2007–08, *(c)* cutting the threshold to (i) £250,000 and (ii) £200,000 and *(d)* retaining the current threshold and statutory indexation but raising the rate to (A) 50 percent., (B) 60 percent. and (C) 70 percent.. [39526]

Dawn Primarolo: The estimated impact of the options on inheritance tax revenue accruing in years 2006–07 and 2007–08 is shown in the following table. In each case the comparison is with forecast revenues using the zero-rate thresholds already announced by the Chancellor of £285,000 for 2006–07 and £300,000 for 2007–08, and the rate of 40 percent. on value above the zero-rate threshold.

Option	Increase in revenue (£) 2006–07	2007–08
(a) not increasing the threshold above the statutory indexation in 2005–06 (giving a threshold in 2006–07 of £283,000, indexed from the actual threshold of £275,000 in 2005–06).	40 million	n/a
(b) retaining a threshold of £275,000 over three years to 2007–08.	190 million	480 million
(c) cutting the threshold to:		
(i) £250,000	700 million	n/a
(ii) £200,000	2 billion	n/a
(d) retaining the current threshold and statutory indexation but raising the rate to		
(A) 50 percent	1000 million	n/a
(B) 60 percent	1900 million	n/a
(C) 70 percent	2900 million	n/a

Notes:
1. Estimates are based on information held on a sample of taxpaying and non-taxpaying estates relating to deaths in the year 2003–04.
2. Estimates take no account of behavioural changes which may occur when tax structures and rates are changed.
3. Estimates for option *(c)*, which involves large reductions in the threshold, are particularly approximate and have been rounded appropriately.

Inland Revenue (Sheriff Officers)

Mr. Weir: To ask the Chancellor of the Exchequer how much expenditure was incurred by the Inland Revenue through using sheriff officers in each of the last eight years; and what proportion of that expenditure arose as a result of incorrect call-outs based on inaccurate information supplied by the Inland Revenue. [39622]

Dawn Primarolo: The expenditure incurred by the former Inland Revenue in respect of sheriff officer fees for the last eight years is not held. We can provide information for the six years to end of October 2004 and this is detailed as follows:

Year to end October	£ million
1999	1.11
2000	1.29
2001	1.33
2002	1.90
2003	1.37
2004	1.14

Information for accounting year 2005 is not yet available.

Her Majesty's Revenue and Customs is not aware of having supplied inaccurate information to any sheriff officer. A sheriff officer would only be instructed to serve

a Sheriff Court writ/summons or carry out diligence for established debt that is overdue and after telephone and/or written application for payment.

Interest Rates

Mr. Weir: To ask the Chancellor of the Exchequer how often he has received representations from the elected governing authorities of *(a)* Guernsey, *(b)* Jersey, *(c)* the Isle of Man, *(d)* the Falkland Islands, *(e)* Gibraltar and *(f)* Saint Helena about interest rates set by the Bank of England since 1997. [39214]

John Healey: The Chancellor has not received any representations about interest rates from the governing authorities of the Crown Dependencies and UK Overseas Territories listed. Since May 1997 the Bank of England has had operational independence in the setting of interest rates.

Local Authorities (England)

Mr. Weir: To ask the Chancellor of the Exchequer how many whole-time equivalent jobs there are in each of England's local authorities, broken down by region. [39860]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about full-time equivalent jobs in England's local authorities. (39860)

I am placing a table in the House of Commons Library showing the number of full-time and part-time employee jobs in each unitary and local authority in England in December 2004; the latest period for which information is available. Part-time jobs are defined as those requiring less than 30 hours per week. Statistics for full-time equivalent jobs are not available.

These estimates are from the Annual Business Inquiry and, as with any sample survey, are subject to a margin of uncertainty.

Lord Turner's Letter

Mr. Laws: To ask the Chancellor of the Exchequer pursuant to the answer of 5 December 2005, *Official Report*, column 914W, on Lord Turner's letter, what the result of the inquiry headed by Nicholas Macpherson into the leak of his letter to Lord Turner was; and if he will make a statement. [40488]

John Healey: The Treasury does not comment on the progress or outcome of leak inquiries.

Malnutrition

Sarah Teather: To ask the Chancellor of the Exchequer for how many deaths malnutrition was given as the cause in London in each of the last five years. [40810]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking for how many deaths malnutrition was given as the cause in London in each of the last five years (40810)

The latest year for which figures are available in 2004. Figures showing numbers of deaths for London where malnutrition or deprivation of food was mentioned on the death certificate are given in the table below, for deaths registered in each year from 2002 to 2004.

Number of deaths where malnutrition or deprivation of food[1] was mentioned on the death certificate, London,[2] 2000 to 2004[3]

	Deaths
2000	26
2001	23
2002	22
2003	27
2004	17

[1] Cause of death was defined using the codes below from the International Classification of Diseases, Ninth Revision (ICD-9) for the year 2000, and Tenth Revision (ICD-10) from 2001 onwards:
ICD-9260-Kwashiorkor;
261-Nutritional marasmus;
262-Other severe protein-calorie malnutrition;
263-Other and unspecified protein-calorie malnutrition;
994.2-Effects of hunger.
ICD-10 E40-E46-Malnutrition;
T73.0-Effects of hunger.
Deaths were selected using the original cause of death.
[2] Deaths of usual residents of the London Government Office Region.
[3] Deaths registered in each calendar year.

Minimum Wage

David Simpson: To ask the Chancellor of the Exchequer what percentage of the workforce in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland has been employed at the minimum wage in each year since its introduction. [39794]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about what percentage of the workforce in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland has been employed at the minimum wage in each year since its introduction. (39793)

The Office for National Statistics (ONS) calculates estimates of the number of jobs paid less than the minimum wage for the United Kingdom and Government Office Regions. Estimates are also produced of the number of jobs paid below successive 10p thresholds for the United Kingdom, including those bands around the minimum wage. These results can be found on the National Statistics website at:

http://www.statistics.go.uk/downloads/theme_labour/jobs_below.xls

http://www.statistics.gov.uk/downloads/theme_labour/2004_10pbands.xls

Estimates of number and percentage of jobs paid at the minimum wage for England, Scotland, Wales and Northern Ireland are not available.

Yours sincerely

National Insurance

Chris Huhne: To ask the Chancellor of the Exchequer (1) if he will estimate the revenue paid in employees' national insurance contributions each year by those who are aged above the state retirement age, broken down by *(a)* male and *(b)* female contributions; [39893]

(2) what the payments *(a)* to and *(b)* from the national insurance fund were in each of the last 30 financial years; and what each payment was as a percentage of national income; [39894]

(3) what the principal differences are in the definition of taxable income and income on which employees' national insurance contributions are paid; and if he will estimate the revenue change to the *(a)* exchequer and *(b)* national insurance fund that would accrue were the national insurance contributions liable base to be aligned with taxable income for income tax purposes. [39895]

Dawn Primarolo: National insurance contributions are paid by employees between the ages of 16 and state retirement age (60 for women and 65 for men) only. Therefore the amount of employees' national insurance contributions paid by those above the state retirement age is zero.

National insurance fund receipts and payments for each financial year can be found in the National Insurance Fund Account (for Great Britain) and the Northern Ireland National Insurance Fund Account published by The National Audit Office, copies of which are in the Commons Library.

To calculate each payment as a percentage of GDP, I refer the hon. Member to the UK Gross Domestic Product figures which can be obtained from the HM Treasury website:

http://www.hm-treasury.gov.uk./economic_data_and_tools/gdp_deflators/data_gdp_fig.cfm

The principal differences between taxable income and the amount on which individuals pay national insurance contributions are:

taxable income has a broader base and is paid by all companies and individuals regardless of age. For individuals, income tax is payable on both earned income from employment, unearned income and pension income. Unearned income includes property income, interest from bank accounts, share dividends and many state benefits. Unearned and pension income is subject to income tax, but not national insurance contributions.

national insurance contributions on earnings are paid by employees and self-employed individuals between the ages of 16 and state retirement age only.

contributions to approved pension schemes benefit from income tax relief but are part of the income subject to national insurance contributions.

The effect of aligning national insurance liability with taxable income would depend on the exact nature of the charge which would apply to income which is currently taxed but not subject to national insurance, and whether contributions to approved pension schemes which benefit from tax relief ceased to be subject to national insurance contributions.

Mr. Frank Field: To ask the Chancellor of the Exchequer (1) if he will estimate what the path of employee and employer national insurance contributions would be up until 2050 under the proposals of the Pension Commission for the basic state pension and second state pension; [35715]

(2) when he will answer the question tabled by the hon. Member for Birkenhead on 5 December, reference 35715, on national insurance contributions. [38158]

Dawn Primarolo: Projections of rates of national insurance contributions depend on a number of factors. The Government Actuary's Quinquennial Review of the National Insurance Fund as at April 2000 (Cm6008) sets out possible paths for national insurance contributions for a number of possible policy scenarios, including where the basic state pension is indexed by earnings—one of the Pensions Commission's options for reform.

Mr. Frank Field: To ask the Chancellor of the Exchequer how much revenue the Treasury gained in national insurance contributions from men under 65 years in full-time work who had already acquired a full contribution record for the state retirement pension in each of the last five years. [39533]

Dawn Primarolo: The latest information is in the table.

Estimates on national insurance contributions from males under the age of 65 with a full contribution record

	National Insurance Contributions (£ million)
1999–2000	555
2000–01	564
2001–02	585
2002–03	600
2003–04	718

Source:
DWP Lifetime Labour Market Database, May 2005

The estimates only include the primary national insurance contributions paid by an individual after reaching full entitlement, and exclude the amounts paid by the employer for that individual.

These figures are subject to revision in future years as some employers submit individuals' contributions information late.

Office for National Statistics

Mr. Weir: To ask the Chancellor of the Exchequer what the budget of the Office for National Statistics was in each year since 1992. [39619]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the budget of the Office for National Statistics was in each year from 1992 (39619).

The requested information is shown in the attached table.

Office for National Statistics Spending[1]

Financial year	*Expenditure*[2] *(£ million)*
1992–93	97
1993–94	90
1994–95	93
1995–96	103
1996–97	110
1997–98	95
1998–99	102
1999–2000	110
2000–01	156

Office for National Statistics Spending[1]

Financial year	*Expenditure*[2] *(£ million)*
2001–02	212
2002–03	146
2003–04	151
2004–05	191
2005–06[3]	197

[1] The Office for National Statistics was created as a Government Department and an executive agency on 1 April 1996 by merging the Central Statistical Office (CSO) and the Office of Population Censuses and Surveys (OPCS). The figures for 1992–93 to 1995–96 reflect the combined outturn for CSO and OPCS.
[2] Expenditure figures from 1998–99 are presented on a resource basis. Figures for earlier years are in cash terms. Figures from 1998–99 onwards include additional provision for planning, fieldwork and initial processing of the 2001 Census of Population in England and Wales. Figures from 2003–04 onwards include additional funding for modernisation.
[3] Planned expenditure.

P11D Notices

Dr. Cable: To ask the Chancellor of the Exchequer what the total value of incorrectly issued P11D notices was in each of the last five years for which information available; and if he will make a statement. [38751]

Dawn Primarolo: In answering this question we have taken the term 'P11D notices' to mean 'P11D *(b)* penalty notices'.

We do not hold information in the form needed to answer the specific question raised.

Pension Provision (Benefits System)

Greg Clark: To ask the Chancellor of the Exchequer pursuant to the evidence of his Department's officials to the Public Accounts Committee on 7 December, what assessment his Department has made of the effect of the complexity of the benefits system on pension provision; and if he will make a statement. [38937]

Mr. Ivan Lewis: In his statement to the House on 30 November the Secretary of State for Work and Pensions set out five tests on which the Government's response to the Pensions Commission's Second Report will be based. One of those tests is whether proposals simplify the system.

Pensioner Deaths

Andrew Rosindell: To ask the Chancellor of the Exchequer for how many deaths of people of retirement age *(a)* cold and *(b)* malnutrition were found to have been causes in each of the last 10 years, broken down by (i) county and (ii) London borough. [40609]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent question concerning how many deaths of people of retirement age *(a)* cold and *(b)* malnutrition were found to have been causes in each of the last 10 years, broken down by (i) county and (ii) London borough. (40609)

The latest year for which figures are available is 2004. Cold is not recorded as a cause of death in itself, however hypothermia (subnormal body temperature) may be mentioned on the death certificate. Figures provided are for the number of deaths where *(a)* hypothermia and *(b)* malnutrition or deprivation of food was mentioned anywhere on the death certificate, for deaths registered in each of the years 1995 to 2004.

As retirement age differs for males and females, tables are provided separately for deaths of women aged 60 and over and men aged 65 and over.

Counties in England and Wales have been subject to administrative changes which affected the structure of many of these areas in the mid-1990s. Figures are therefore provided using current county boundaries which exclude unitary authority areas created from 1995 onwards.

These tables have been placed in the Library of the House of Commons.

Population Projections

Mr. Hollobone: To ask the Chancellor of the Exchequer whether the 2003-based sub-national population projections for England produced by the Office for National Statistics include population increases as a result of Growth Area expansions from the Milton Keynes and South Midlands Sub-Regional Spatial Strategy. [40426]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning the 2003-based subnational population projections. (40426)

The 2003-based subnational population projections are based on assumptions about local fertility, mortality and migration levels derived from the five-year reference period 1999 to 2003. They are demographic trend-based projections and take no account of any future growth or development policies of an area.

The effects of the Milton Keynes and South Midlands Sub-Regional Spatial strategy will be covered in future sets of projections when they are observed in the mid year estimates and historic migration estimates that are used to set the projection assumptions.

Private Finance Initiative Projects

Daniel Kawczynski: To ask the Chancellor of the Exchequer how much capital expenditure in existing private finance initiative projects will come from public funds. [40763]

John Healey: The private sector contractor funds initial capital expenditure for PFI projects. Payment is made by the public sector over the life of a PFI project for services provided and is dependent on the contractor delivering those services to the quality specified. Capital investment represents one of the activities undertaken by the private sector in order to deliver these services and so is reflected in such payments.

Red Diesel

Mr. Spellar: To ask the Chancellor of the Exchequer how many litres of red diesel were distributed in *(a)* Great Britain and *(b)* Northern Ireland in the last five years for which figures are available; and what estimate he has made of the tax revenue foregone on red diesel compared with the standard rate of duty for diesel fuel. [40776]

John Healey: Hydrocarbon oils clearance figures are published by Customs and Excise in the Hydrocarbon Oils Bulletin, a copy of which can be found on the UK Trade Information website www.uktradeinfo.com. However, this data is not disaggregated by geographical region, so the data do not distinguish between Great Britain and Northern Ireland.

Charging the standard rate of duty for diesel fuel rather than the rebated gas oil rate would imply the following revenue yields. However in practice the actual yield would be significantly lower than this because such an increase in the duty rate would considerably reduce the demand for rebated gas oil.

	£ billion
2000–01	3.1
2001–02	2.9
2002–03	2.8
2003–04	2.6
2004–05	2.7

Road Fuels (Northern Ireland)

Mr. MacNeil: To ask the Chancellor of the Exchequer what his latest estimate is of revenue lost due to the *(a)* cross-border purchasing and *(b)* smuggling of road fuels in Northern Ireland; and what his latest estimates are for the volume of legitimate fuel imports from the Republic of Ireland to (i) Northern Ireland and (ii) Great Britain. [39966]

John Healey: The latest estimates of revenue loss in the hydrocarbon oils sector are published in 'Measuring Indirect Tax Loss-2005', which was published alongside the PBR. All estimates for Northern Ireland relate to total non-UK duty paid consumption rather than the illicit market. This is because it is not yet possible to split revenue losses between those resulting from the illicit market and those from legitimate cross-border shopping

In 2004, road fuel imports from the Republic of Ireland totalled 137,895 tonnes. Of this 135,530 tonnes were imported into Great Britain and 2,365 were imported into Northern Ireland.

Scottish Fiscal Autonomy

Mr. Weir: To ask the Chancellor of the Exchequer what recent representations he has received from the Scottish Executive on Scottish fiscal autonomy. [40030]

Mr. Des Browne: No representations have been received by the Treasury from the Scottish Executive on the issue of fiscal autonomy. The funding arrangements for the devolved Administrations are set out in the Statement of Funding Policy published in July 2004.

Mr. Weir: To ask the Chancellor of the Exchequer how the budget of the Scotland Office is determined. [40031]

Mr. Des Browne: Details of the funding arrangements for the Scotland Office and Scottish Executive are set out in the Treasury publication "Funding the Scottish Parliament, National Assembly for Wales and Northern Ireland Assembly". Details are also provided in the Scotland Office annual report.

Mr. Weir: To ask the Chancellor of the Exchequer how the comparability factors for Scottish expenditure for the purposes of the Barnett formula were determined. [40032]

Mr. Des Browne: Details of the comparability factors underlying the Barnett Formula can be found within the Treasury publication "Funding the Scottish Parliament, National Assembly for Wales and Northern Ireland Assembly".

Self-invested Personal Pensions

Mr. Hoban: To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of self-invested personal pensions that made off-plan purchases of residential property prior to 5 December 2005. [40275]

(2) what representations he has received from representatives of the *(a)* financial services and *(b)* property sectors about the availability of transitional relief to self-invested personal pensions (SIPP) where a SIPP had bought a residential property off plan prior to 5 December 2005. [40276]

Mr. Ivan Lewis *[holding answer 9 January 2006]:* No estimate has been made of the number of SIPPs who have purchased off-plan properties prior to 5 December 2005, nor have there been any representations about the availability of transitional relief for those purchasing off-plan properties.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer (1) what his latest estimate is of the cost of fraud relating to the tax credits e-portal; and if he will make a statement; [35699]

(2) when his Department first became aware of tax credit fraud in relation to the tax credits e-portal; and if he will make a statement; [35700]

(3) on what dates since April 2003 Ministers have been briefed on organised fraud involving the tax credits system; and if he will make a statement; [35697]

(4) when Ministers were first informed of organised tax credit fraud via the e-portal; and if he will make a statement; [37915]

(5) what assessment he has made of the level of fraudulent use of the tax credit portal. [36807]

Dawn Primarolo *[holding answer 13 December 2005]:* HMRC assesses all tax credits claims for compliance risk whether they are made through the e-portal or on paper. As with any area in which the Government are distributing large amounts of money, there will be some people intent on defrauding the system and HMRC therefore has a number of sophisticated measures to help it detect fraudulent claims.

Over the last 12 months HMRC has detected an increase in the number of organised attacks on the tax credits system, predominantly via the internet. HMRC continued to monitor the situation closely and updated me in June 2005. A decision was taken to suspend the internet service from 2 December following an assessment by HMRC that the nature of the threat had

changed, which in turn changed the balance of judgment between maintaining the service for genuine customers and the need to protect revenues.

HMRC is currently undertaking a programme of work on finalised 2003–04 awards—the first year of working tax credit and child tax credit—to provide more comprehensive information on the level of claimant error and fraud. This is due to be completed in spring 2006.

Dr. McCrea: To ask the Chancellor of the Exchequer how many families in each constituency in Northern Ireland have received *(a)* child and *(b)* working tax credits since they were introduced; and how many have received incorrect payments due to computer problems. [15268]

Dawn Primarolo: I refer the hon. Member to my reply to the hon. Member of Swansea, East (Mrs. James) on 28 June 2005, *Official Report*, column 1430W. Regarding the second part of the question, this information is not available.

Jim Cousins: To ask the Chancellor of the Exchequer what the costs have been of specialist advice outside the EDS contract on the capacity, structure and performance of the tax credit computer system since 1 January 2004. [19264]

Dawn Primarolo: The tax credits IT system went live in 2002, under the (then) Inland Revenue's outsourcing contract with EDS. The EDS contract ended on the 30 June 2004, when it was replaced by a new contract with Capgemini. Between 1 January and 30 June 2004, HM Revenue and Customs did not receive any specialist advice outside of the EDS contract on the capacity, structure and performance of the tax credit computer system.

Mr. Laws: To ask the Chancellor of the Exchequer what letters of comfort were sought from EDS in *(a)* January, *(b)* February, *(c)* March and *(d)* April 2003; if he will publish them; and if he will make a statement. [19285]

Dawn Primarolo: I refer to the answer I gave the hon. Gentleman on 2 December 2005, *Official Report*, column 804W.

Mr. Frank Field: To ask the Chancellor of the Exchequer what recent assessment he has made of the robustness of the tax credit computer system; and if he will make a statement. [19408]

Dawn Primarolo: In my statement to the Treasury Sub Committee of 26 October I explained that HMRC is taking forward objectives to create a more flexible IT system that will allow process improvements, such as changes to award notices, to be introduced much more quickly. However, having established the integrity of the IT system and significantly improved its performance, the priority must be to ensure that progress to more flexibility is done in a measured and orderly way.

Mr. Laws: To ask the Chancellor of the Exchequer if he will make a statement about the introduction of interim assessments for tax credits. [19721]

Dawn Primarolo: Tax credits awards are initially based on a family's current circumstances and their income for the previous tax year. If a family's circumstances do not change and there are no significant changes in income during the year, the initial award will run until the end of the tax year. Families are encouraged to report in-year changes of circumstances that can lead either to an increase or decrease in their award. At the end of the year, families are asked by the Tax Credits Office to confirm their details and their actual income for the year just ended.

Mr. Laws: To ask the Chancellor of the Exchequer what proportion of complaints about tax credits have been responded to within 15 working days in each of the last 12 months. [20015]

Rosie Cooper: To ask the Chancellor of the Exchequer what proportion of complaints from West Lancashire about tax credits have been responded to within 15 working days in each of the last 12 months; and how many cases remain unresolved after *(a)* 12 months and *(b)* 24 months. [27610]

Dawn Primarolo: The information requested is not available.

Bill Wiggin: To ask the Chancellor of the Exchequer what his most recent assessment is of the effectiveness of the computer system used for calculating tax credits. [23211]

Dawn Primarolo: In my Statement to the Treasury Sub Committee of 26 October I explained that HMRC is taking forward objectives to create a more flexible IT system that will allow process improvements, such as changes to award notices, to be introduced much more quickly. However, having established the integrity of the IT system and significantly improved its performance, the priority must be to ensure that progress to more flexibility is done in a measured and orderly way.

Mr. Laws: To ask the Chancellor of the Exchequer what is the tolerance level over which the recovery of tax credit overpayments is not considered cost-effective; what factors were taken into account in arriving at the current figure; and whether it is being applied to all overpayments. [23573]

Dawn Primarolo: No tolerance level is applied to on-going tax credits awards as the IT system automatically adjusts payments to recover overpayments. Her Majesty's Revenue and Customs (HMRC) does have tolerances which influence whether or not it collects overpayments from ceased tax credits awards. But HMRC believes that disclosing the level of those tolerances might prejudice its ability to enforce the law and recover monies properly payable in respect of tax credit overpayments.

Mr. Frank Field: To ask the Chancellor of the Exchequer (1) what assessment has been made of *(a)* the likely effectiveness of manual intervention in a tax credit case where an overpayment has been identified and automatic recovery has begun and *(b)* the likely impact this will have on the tax credit computer system; [24163]

(2) pursuant to the Paymaster General's evidence to the House of Commons Treasury Sub-committee on 26 October, what the evidential basis was for her statement that manual attempts to stop the automatic clawback of tax credit overpayments would be less effective than an automated procedure. [24164]

Dawn Primarolo: In my statement to the Treasury Sub Committee of 26 October I explained that, subject to testing, HMRC would be introducing interim procedures to prevent the automatic recovery of a disputed overpayment until the case had been examined. Final testing was completed successfully in early November and the Chief Secretary informed the House at Treasury Orals on 10 November that the new procedures had been implemented.

The interim procedures rely on a manual intervention to the existing computer system, which was not designed to enable automatic recovery of an overpayment to be suspended. HMRC is working to develop bespoke computer functionality to suspend recovery, but as I explained to the Treasury Sub Committee, having established the integrity of the IT system and significantly improved its performance, the priority must be to ensure that progress to a more flexible IT system is made in a measured and orderly way.

Mr. Laws: To ask the Chancellor of the Exchequer how many times he has written off an overpayment of tax credits because *(a)* of official error where it was reasonable for the recipient to think the award was correct, *(b)* it would have caused hardship to have recovered all of the overpayment and *(c)* it would have caused hardship to have recovered part of the overpayment, in each month since April 2003. [25242]

Dawn Primarolo: For details of the number of disputed overpayments written off as a result of official error up to and including June 2005, I refer the hon. Gentleman to the answer I gave him on 10 October 2005, *Official Report*, column 282W. Between July and October 2005 (inclusive), HM Revenue and Customs wrote off around 75,000 disputed overpayments.

In 2003–04 no overpayments of tax credits were written off because of hardship. Details for 2004–05 and 2005–06 are not yet available.

HMRC has procedures in place to help claimants who might suffer hardship as a result of an overpayment being recovered. Where there is no award in the current year the customer can pay back the overpayment in 12 monthly instalments if they wish. If they require more than 12 months, income and expenditure details are obtained and consideration is given to payment over an extended period of time. For cases where there is an ongoing award, reduced rates of recovery apply for those claimants on lower incomes.

Where there is an ongoing award reduced rates of recovery apply for those claimants on lower incomes. The maximum amounts by which HMRC would reduce payments to recover overpaid tax credit from the previous year are:

(a) 10 per cent. for claimants receiving the maximum award

(b) 100 per cent. for claimants receiving only the family element of child tax credit, and

(c) 25 per cent. for all other claimants.

As a result of changes announced in the pre-Budget review, from November 2006 these limits will also apply to in-year adjustments to payments.

Mr. Laws: To ask the Chancellor of the Exchequer whether the value of additional tax credits awarded in cases of hardship following the identification of an overpayment is added to the total overpayment to be recovered; and if he will give an illustration. [25252]

Dawn Primarolo: The circumstances in which HM Revenue and Customs will make additional tax credits payments, and how this affects a claimant's overpayment of tax credits, are explained in HMRC's Code of Practice 26 'What happens if we have paid you too much tax credit?'.

Dr. McCrea: To ask the Chancellor of the Exchequer what assessment he has made of the extent to which Northern Ireland claimants of tax credits are experiencing difficulties in accessing the tax credits helpline; what action is being taken to improve access to the helpline; and if he will make a statement. [28406]

Dawn Primarolo: There are no particular difficulties around accessibility to the tax credits helpline for Northern Ireland residents. The helpline is open 362 days a year from 8am to 8pm, closing on only Christmas day, Boxing day and new years day. In November 2005 the Northern Ireland tax credits helpline became part of the virtual network for tax credits calls. This has provided NI residents with access to a greater pool of resources, improving accessibility to the tax credits helpline.

Mr. Laws: To ask the Chancellor of the Exchequer (1) in how many cases HM Revenue and Customs, and its predecessor, *(a)* imposed a penalty under section 31 of the Tax Credits Act 2002 for making an incorrect statement or declaration or supplying incorrect information or evidence and *(b)* imposed a penalty under section 32(3) of the Tax Credits Act 2002 for failing to notify a specified change of circumstances in (i) 2003–04, (ii) 2004–05 and (iii) 2005–06 to date; and what the average penalty was in each case; [30661]

(2) in how many cases HM Revenue and Customs and its predecessors applied to the Appeals Service under section 32(1) and (2) of, and Schedule 2 to, the Tax Credits Act 2002 for a summons against an individual for failing to provide information or evidence or failing to comply with a requirement regarding a final notice in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date. [30662]

Dawn Primarolo: The information is as follows:

(a) The following table shows the total number of penalties imposed under sections 31 and 32(3) of the Tax Credits Act 2002 and the average penalty imposed for 2004–05 and 2005–06 to end November. No penalties were charged in 2003–04.

A breakdown between penalties imposed under section 31 and section 32(3) is not available

	Number of cases	*Average penalty per case (£)*
2004–05	1,114	400.04
2005–06 to end November	1,348	363.15

(b) To the end of October HMRC had made 10 applications in 2005–06 for a summons against an individual under section 32(1) and (2) of, and Schedule 2 to, the Tax Credits Act 2002. No such applications were made in 2003–04 or 2004–05.

Mr. Laws: To ask the Chancellor of the Exchequer whether it is his policy, when writing-off overpaid tax credits caused by official error, to reimburse all overpayment recovered before the decision to write-off is made; and if he will make a statement. [35725]

Dawn Primarolo *[holding answer 12 December 2005]:* Where a decision is taken to write-off all or part of an overpayment, any previously re-paid amount will be reimbursed either by a one-off payment, or by adjustments to future tax credit payments, or a combination of both.

Mr. Frank Field: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the form TC647. [36224]

Dawn Primarolo: This has been done.

David Simpson: To ask the Chancellor of the Exchequer in how many cases in Northern Ireland disputed tax credit overpayments have been written off in 2005–06. [36249]

Dawn Primarolo: Between April 2005 and November 2005, HM Revenue and Customs agreed that around 13,700 disputed overpayments of tax credits in Northern Ireland should be written off on the grounds of official error.

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many tax credit awards are paid into bank accounts not in the name of the tax credit recipient; [36795]

(2) on how many occasions HM Revenue and Customs started paying tax credit awards into a different bank account at the request of the tax credit recipient in each month since April 2003. [36804]

Dawn Primarolo: The information requested is not available.

Mr. Laws: To ask the Chancellor of the Exchequer what proof of identity is required as part of an application for tax credits. [36802]

Dawn Primarolo: When tax credits claims are processed HM Revenue and Customs carries out a series of verification checks on claimant identity. Should further verification be required; birth certificates, passports and other forms of identification can be requested.

I would also refer the hon. Member to the announcement made by my right hon. Friend the Chancellor of the Exchequer in his pre-Budget report on 5 December 2005. The report announced measures to improve tax credits compliance by doubling the checks HMRC carry out on new claims for tax credits before payments are made.

Mr. Laws: To ask the Chancellor of the Exchequer what checks are made by advisers on the tax credit helpline on a caller's identity when a request is made to change a bank account for the payment of tax credits. [36803]

Dawn Primarolo: Prior to accepting a change in bank details, advisers ask a number of security questions about a variety of different items of personal information held by HM Revenue and Customs.

Mr. Laws: To ask the Chancellor of the Exchequer how many referrals have been made to the Security Specialist Section of the Tax Credit Office in each month since 2003–04. [38556]

Dawn Primarolo: The Tax Credit Office does not have a Security Specialist Section.

Mr. Laws: To ask the Chancellor of the Exchequer how many tax credit awards have been paid into overseas bank accounts in each year since 2003. [38697]

Dawn Primarolo: This information is not readily available and could be obtained only at disproportionate cost.

Greg Clark: To ask the Chancellor of the Exchequer what the *(a)* total and *(b)* average income increases resulting in the overpayment of tax credits were in 2003–04. [38934]

Dawn Primarolo *[holding answer 20 December 2005]:* I refer the hon. Member to the answer I gave to the hon. Member for Yeovil (Mr. Laws) on 12 September 2005, *Official Report*, column 2387W.

Greg Clark: To ask the Chancellor of the Exchequer what distribution of income increases was assumed in producing the Government's £800 million estimate of the additional final tax credit entitlement resulting from the £2,500 disregard in 2003–04; and what the statistical basis is for this distribution. [38935]

Dawn Primarolo *[holding answer 20 December 2005]:* The estimate of £800 million was derived by modelling the annualised level of entitlement at 5 April 2004, both with and without the £2,500 disregard, for a representative sample of tax credit awards current at that date.

Greg Clark: To ask the Chancellor of the Exchequer what his Department's estimate is of the additional final tax credit entitlement resulting from the change in the income increase disregard from £2,500 to £25,000; and what basic assumptions were made when making the estimate. [38936]

Dawn Primarolo *[holding answer 20 December 2005]:* Precise estimates of the change in entitlement resulting from the higher disregard from April 2006 will not be known until 2006–07 awards have been finalised in early 2008.

Mr. Frank Field: To ask the Chancellor of the Exchequer how many full-time tax credit staff were working in *(a)* debt management and banking, *(b)* disputed overpayments, *(c)* bank liaison, *(d)* childcare provider checks, *(e)* complex cases, *(f)* employer liaison, *(g)* international claims, *(h)* persons from abroad, *(i)* post room, *(j)* specialist trace unit, *(k)* claims processing, *(l)* appeals, *(m)* complaints, *(n)* valuables and *(o)* tax credit hotlines in each month since January 2003. [38947]

Dawn Primarolo: The information requested is not available and could be obtained only at disproportionate cost.

Chris Ruane: To ask the Chancellor of the Exchequer what *(a)* financial assistance and *(b)* help in kind his Department has offered to (i) Citizens Advice Bureaux and (ii) other voluntary advice agencies to help their advisers in tax credit cases. [39299]

Mr. Ivan Lewis: The Treasury does not provide any direct financial or other assistance in kind to Citizens Advice Bureaux or any other voluntary advice agency.

Her Majesty's Revenue and Customs does provide financial assistance to a range of voluntary organisations including Citizens Advice Bureaux to assist the public on tax credit issues. Planned expenditure for 2005–06 is expected to be approximately £680,000.

Jenny Willott: To ask the Chancellor of the Exchequer what the average length of time was from receipt of a tax credit claim to payment of the credit to the claimant in Wales in each year since the tax credit system began; and if he will make a statement. [39473]

Dawn Primarolo: The information is not available in the format requested. For details of tax credits processing times I refer the hon. Member to the answer I gave my right hon. Friend the Member for Birkenhead (Mr. Field) and the hon. Member for Guildford (Anne Milton) on 2 November 2005, *Official Report*, column 1058W.

Jenny Willott: To ask the Chancellor of the Exchequer (1) how many tax credit overpayments have been made in Wales; what proportion of tax credits have been overpaid in Wales; what the total tax credit overpayments in Wales were in each year since the tax credit system began; and if he will make a statement; [39475]

(2) what the average overpayment was for tax credits in Wales in each year since the tax credit system began; and if he will make a statement. [39476]

Dawn Primarolo: Information on the number and sizes of 2003–04 tax credits awards overpaid and underpaid at 5 April 2004, by region, are published in "Child and Working Tax Credits. Finalised Awards 2003–04. Supplement on payments in 2003–04. Geographical Analysis." This publication and provisional estimates for the number of in-work families by region with tax credit awards as at selected dates in 2004–05 are available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm.

Mr. Jenkins: To ask the Chancellor of the Exchequer how many cases of fraud were detected in relation to tax credit claims in Tamworth constituency in each of the last five years. [40686]

Dawn Primarolo: The information requested is not available by Parliamentary constituency and could be obtained only at disproportionate cost.

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many cases of organised fraud within tax credits have been detected in the last year for which figures are available; [19180]

(2) what evidence he has received that tax credits have been targeted by organised criminals; and if he will make a statement; [20442]

(3) how many cases of organised fraud within tax credits have been detected in each year of its operation; [20692]

(5) how many tax credit awards have been terminated on suspicion of organised fraud in each month since April 2003; [25250]

(4) what assessment he has made of whether tax credits have been targeted by organised criminals; and if he will make a statement; [24586]

(6) how many cases of identity theft have been detected in the tax credit system in each month since April 2003. [25243]

Dawn Primarolo: HMRC uses a number of sophisticated tools to help detect claims, which are fraudulent or wrong and wherever possible, this compliance activity is aimed at preventing these claims from being paid. HMRC are aware of persistent attempts by organised criminals to obtain tax credits by using stolen or fictitious identities and it monitors payments to detect organised fraud so that any payments can be stopped and followed up with those responsible. Figures relating specifically to such instances are only available from 2004.

In 2004–05 HMRC intervened on 17164 incorrect claims before the tax credit payments were made where fraud or error was suspected. Between April to end of November 2005 HMRC have made 38,924 such interventions, of which HMRC estimate over half have been as a result of organised attacks. From October 2004 to end of November 2005 HMRC also identified and stopped 22,284 tax credit claims in payment, where organised fraud was suspected.

Where fraud is detected HMRC may use its powers to charge a financial penalty or—in the most serious cases—investigate with a view to securing a criminal prosecution under the new criminal offence of tax credit fraud. HMRC prosecuted 153 individuals in 2004–05 and has prosecuted 159 in the current financial year to the end of November. Around 97 other cases are currently awaiting verdict.

Teenage Pregnancies

Sarah Teather: To ask the Chancellor of the Exchequer how many under 16-year-olds fell pregnant in *(a)* London and *(b)* each London borough in each year since 1997. [40806]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many under 16 year olds fell pregnant in *(a)* London and *(b)* each London borough in each year since 1997. (40806)

Available figures are estimates of the number of pregnancies that resulted in a live birth, stillbirth or termination.

The most recent complete year for which estimates are available is 2003. Figures for 1997 to 2003 are given in the attached table.

Number of conceptions to girls aged under 16 years by area of usual residence, London, 1997–2003

Area of usual residence	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
London	1,141	1,152	1,058	1,246	1,252	1,229	1,247
Camden LB	25	24	21	24	22	25	23

Note:
To preserve confidentiality, counts for City of London have been combined with those for Hackney LB.

Treasury Enterprise Team

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what the remit of the Enterprise Team in the Treasury is. [40374]

John Healey: The Enterprise Team's remit is to help to maximise the contribution of business and enterprise to the economic performance of the UK by:

driving progress across government to create the right conditions for firms to start, innovate and grow;

ensuring that government promotes creation of an enterprise society, in which people with the talent and motivation are able to set up, innovate and succeed in business;

harnessing the potential of enterprise to tackle disadvantage and to create new business opportunities;

working to reduce the burden on businesses on burdensome or disproportionate regulations;

shaping industrial policy to create a positive business environment; and

improving and broadening the Treasury's corporate relationships with the community.

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what methods the Enterprise Team uses to liaise with businesses, with particular reference to small and medium-sized enterprises. [40377]

John Healey: The Enterprise Team uses a number of methods to liaise with businesses including small and medium-sized enterprises. These range from one-to-one meetings to large conferences and include seminars, round table discussions, telephone conversations, attendance at business association events and meetings, presentations and consultations.

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer if he will list the meetings the Enterprise Team has had with business associations in the last six months. [40383]

John Healey: Members of the Enterprise Team, in common with other Treasury officials, have meetings with a wide range of individuals and organisations as part of the process of policy development and analysis. It would not be practicable to provide details of all such meetings. Treasury meetings are conducted in accordance with the ministerial code and the civil service code, as appropriate.

Unemployment

Mr. Graham Stuart: To ask the Chancellor of the Exchequer how many people in Beverley and Holderness were unemployed for more than two years in each year since 1997. [40040]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in Beverley and Holderness. (40040)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey following International Labour Organisation definitions. However for the Beverley and Holderness constituency sample numbers are insufficient to provide estimates of numbers of people unemployed for more than two years.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 1, attached, shows the annual average (January to December) number of JSA claimants, who have been claiming for more than two years, in the Beverley and Holderness constituency, for each year from 1997 to the present.

The claimant count data are published on the Office for National Statistics' Nomis website: www.nomisweb.co.uk

Annual average number of people claiming JSA for more than two years in the Beverley and Holderness constituency

Twelve month period ending November:	*Average number of claimants*
1997	180
1998	125
1999	145
2000	130
2001	125
2002	100

Jobcentre Plus Administrative system

Mr. Graham Stuart: To ask the Chancellor of the Exchequer how many people in Beverley and Holderness were economically inactive in each year since 1997. [40041]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about economic inactivity in Beverley and Holderness. (40041)

The Office for National Statistics (ONS) compiles statistics of economic inactivity from the Labour Force Survey following International Labour Organisation definitions. Table 1, attached below, shows the numbers of inactive people of working age resident in the Beverley and Holderness constituency. The table also shows the number of inactive people of working age as a percentage of the total working age population resident in the constituency. The data shown cover the 12 month periods ending in February each year from 1997 to 2004 and in March 2005.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

These data are published on the Office for National Statistics' Nomis(r) website: www.nomisweb.co.uk.

Number of working age economically inactive persons, and working age inactivity rate, resident in the Beverley and Holderness constituency

Twelve month period ending February:	*Number of inactive persons (000)*	*Inactivity rate (per cent.)*
1998	13	21.1
1999	12	21.3
2000	11	20.3
2001	13	21.0

Number of working age economically inactive persons, and working age inactivity rate, resident in the Beverley and Holderness constituency

Twelve month period ending February:	*Number of inactive persons (000)*	*Inactivity rate (per cent.)*
2002	12	21.0
2003	11	21.2
2004	11	19.9
March 2005	14	23.5

Annual local area Labour Force Survey; Annual Population Survey

Vehicle Excise Duty

Mr. Paterson: To ask the Chancellor of the Exchequer how much has been raised in vehicle excise duty in each year since 1997, broken down by category of vehicle. [38828]

John Healey: The Department for Transport publish statistics of VED revenues broken down into vehicle category in their annual Transport statistics bulletin. This is available at: www.dft.gov.uk/transstat

NORTHERN IRELAND

Administration Costs

Mr. Weir: To ask the Secretary of State for Northern Ireland which functions of his core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administrative costs were associated with these functions for each area in the last year. [39948]

Mr. Woodward: The Northern Ireland Office (NIO) Core Department functions and the associated administrative costs for 2004–05, carried out in *(a)* Northern Ireland and *(b)* Wales were as follows:

(a)

Function	*Total administrative costs 2004–05 (£)*
Central Administration	27,898,559
Ministers	3,080,107
Political Directive	4,848,917
Bloody Sunday (Saville) Inquiry	1,180,000
Dept of the Director of Public Prosecutions	14,542,000
Criminal Justice	10,421,000
Policing and Security	4,634,000

(b) There are no functions of the NIO Core Department carried out in Wales.

Compensation Agency

David Simpson: To ask the Secretary of State for Northern Ireland what the total cost was of compensation payments paid out by the Compensation Agency as a result of terrorist attacks since the beginning of the Troubles, broken down by category. [39652]

Mr. Hain: The Compensation Agency cannot provide information about the cost of compensation stemming specifically from terrorist attacks as there is often no way of ascertaining the motives of a victim's assailants unless a prosecution follows. In many cases where the assailant(s) are unknown, or where no prosecution has

taken place, the Agency could only speculate about the perpetrator's motives and consequently figures provided on that basis would be very unreliable.

Departmental Expenditure

Mr. Spellar: To ask the Secretary of State for Northern Ireland how much his Department spent on bottled water in 2004–05. [40329]

Mr. Woodward: The Northern Ireland Office, excluding its Agencies and NDPBs, spent £29,915 on bottled water in 2004–05.

Ministerial Visits

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many overnight stays in Northern Ireland each Minister has made since taking up their post. [37588]

Mr. Hain: The number of overnight stays each Northern Ireland Minister has made between taking office in May 2005 and December 31 2005 is as follows:

Minister	*Overnight*	*Day*
Shaun Woodward	26	67
David Hanson	47	87
Angela Smith	62	88
Jeff Rooker	43	84

In addition to the time spent in Northern Ireland, Ministers undertake NIO business in Parliament and in the Northern Ireland Office at 11 Millbank.

Northern Ireland (Offences) Bill

Adam Afriyie: To ask the Secretary of State for Northern Ireland whether he has received written representations from members of the armed forces in support of the Northern Ireland (Offences) Bill. [40533]

Mr. Hain: No.

Shoplifting (Prosecutions)

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 13 December 2005, *Official Report*, column 1866–67W, on prosecutions, how many people were prosecuted for shoplifting in each constituency. [39274]

Mr. Hanson: Prosecution data is not readily available broken down by Northern Ireland constituency. The statistics provided in the table are for the years 2000 to 2003 and are based on the PSNI district command unit in which an offender's address falls. Due to the incomparability of 1999 data, (available only by the police division to which an offence was reported) 1999 figures are not included.

Data are collated on the principal offence rule, thus only the most serious offence for which an offender is charged is included. Statistics beyond 2003 will become available in early 2006.

Prosecutions for shoplifting by police district command unit 2000–03

District command unit	*2000*	*2001*	*2002*	*2003*
Antrim	33	29	29	15
Ards	18	18	26	18
Armagh	2	8	11	15
Banbridge	5	2	5	12
East Belfast	91	61	44	54
North Belfast	172	109	79	106
South Belfast	56	38	39	45
West Belfast	100	63	67	72
Ballymena	26	33	20	17
Ballymoney	5	5	6	5
Carrickfergus	21	25	19	15
Coleraine	25	20	27	20
Cookstown	1	6	7	8
Craigavon	16	17	29	23
Castlereagh	27	13	8	24
Dungannon and South Tyrone	3	6	5	12
Down	17	10	15	9
Fermanagh	17	9	9	11
Foyle	69	69	59	50
Larne	4	13	10	3
Limavady	11	15	7	4
Lisburn	29	48	43	37
Magherafelt	3	6	5	7
Moyle	5	3	4	1
Newtownabbey	35	19	12	8
North down	24	38	22	26
Newry and Mourne	8	15	26	22
Omagh	7	12	14	11
Strabane	8	7	8	10
Missing	20	13	14	14
Total	838	730	669	674

Notes:

1. Data are based on the police district command unit (DCU) in which an offender's address falls.
2. Police DCUs became operational in April 2001, However, for the purposes of comparability, calendar year 2000 data are also disaggregated by DCU, rather than police division.
3. It is not possible to disaggregate data by DCU for 1999. Missing data relate to those offenders for which DCU information is not available.

HOME DEPARTMENT

Community Support Officers

Mr. Oaten: To ask the Secretary of State for the Home Department what guidance he has issued to police authorities on meeting the shortfall in central funding for police community support officers in 2006–07. [38193]

Mr. Charles Clarke: We will be providing police authorities with good practice guidance early next year to assist them in developing their strategies for working with partners to obtain matched funding for police community support officer posts.

Experience Corps

Mr. Fallon: To ask the Secretary of State for the Home Department when he expects the March 2005 accounts of the Experience Corps to be published. [40238]

Paul Goggins: The Secretary of State for the Home Department has no responsibility for the March 2005 accounts of the Experience Corps. Section 47 of the Charities Act 1993 requires that all registered charities publish annual accounts.

Mr. Fallon: To ask the Secretary of State for the Home Department when a Minister in his Department last met representatives of the Experience Corps. [40239]

Paul Goggins: On 8 July 2003 Fiona Mactaggart met Baroness Greengross and Mavis Best of the Experience Corps and Stuart Etherington of the National Council of Voluntary Organisations.

Mr. Fallon: To ask the Secretary of State for the Home Department why his Department did not renew its original grant of £20 million to the Experience Corps. [40242]

Paul Goggins: The decision not to renew funding for the Experience Corps beyond March 2004 followed a fully independent assessment of their performance.

Mr. Fallon: To ask the Secretary of State for the Home Department what public funding the Experience Corps is receiving in 2005–06. [40243]

Paul Goggins: The Home Office did not make any funding available to the Experience Corps in the financial year 2005–06.

Illegal Taxis

Mr. Amess: To ask the Secretary of State for the Home Department how many people have been prosecuted for operating an illegal taxi service in *(a)* Southend, *(b)* Essex, *(c)* Hertfordshire, *(d)* Greater London and *(e)* England and Wales in each of the last five years. [37552]

Fiona Mactaggart: Data from the court proceedings database held by the Office for Criminal Justice Reform is given in the table. It shows the number of defendants prosecuted at the magistrates court for the offence of 'touting for hire car services in a public place' under Section 167 of the Criminal Justice and Public Order Act 1994 for South East Essex petty sessional area (which includes Southend), Essex, Hertfordshire, Greater London and England and Wales 2000–04.

It is not possible to identify those prosecutions in Southend as the data are not collected at this level of detail.

Number of defendants proceeded against at the magistrates courts for operating an illegal taxi service, 2000–04[1]

Offence descriptions: touting for hire car services in a public place
Statute: Criminal Justice and Public Order Act 1994 S.167

Location	*2000*	*2001*	*2002*	*2003*	*2004*
South East Essex PSA	—	—	—	—	—
Essex	—	—	1	1	2
Hertfordshire	—	2	1	1	3
Greater London	144	164	222	242	467
England and Wales	156	178	229	256	483

[1] These data are on the principal offence basis

Court statistics for 2005 will be available in the autumn 2006.

Independent Monitoring Boards

Mr. Bellingham: To ask the Secretary of State for the Home Department what estimate he has made of the cost of changing the recruitment process for the appointment of independent monitoring board members; and if he will make a statement. [16379]

Fiona Mactaggart: The recruitment process for members of independent monitoring boards is currently under review by the National Council for Independent Monitoring Boards and no decision has been taken on changes which may be made to the process.

Internet (Improper Use)

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 5 October 2005, *Official Report*, column 2845W, on improper use of the internet, when he expects the full business case for the IMPACT programme to be completed; for what reasons the full business case was not delivered in line with the Home Office progress report on the Bichard Recommendations of 22 December 2004. [32860]

Mr. Charles Clarke: The IMPACT programme has been significantly re-engineered since the first progress report, in recognition of its scale and complexity. As reported in the second progress report, published in November, an outline business case was considered by the Home Office Group Investment Board in September 2005. Following further work to develop the options in consultation with the police service and other stakeholders, a further business case will be considered in March 2006.

Police

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate he has made of the likely change in police precepts as a result of the Government's commitment to increase the number of police community support officers to 24,000 by 2008; what *(a)* representations on this matter and *(b)* estimates of precepts he has received from (i) police authorities and (ii) local authorities; and if he will place copies in the Library. [37766]

Mr. Charles Clarke: We have received no formal representations from police authorities or local authorities on this issue.

We are providing additional resources of £88 million in 2006–07 and £340 million in 2007–08 through the Neighbourhood Policing Fund to support an increase in the numbers of community support officers to 24,000 by 2008. The Statement made by my right hon. friend the Minister for local government on 5 December clearly set out that we expect to see average council tax increases of less than five percent. in each year in 2006–07 and 2007–08. With judicious financial planning, there is no reason for police authorities to set excessive increases in police precepts on council tax next year.

Probation Officers

Mr. Amess: To ask the Secretary of State for the Home Department how many probation officers broken down by grade, were suspended from duty in *(a)* Southend, *(b)* Essex, *(c)* Hertfordshire and *(d)* the Metropolitan Police area of London in each of the last 15 years for which figures are available. [37547]

Fiona Mactaggart: Information is not available for the full period requested, as data for periods over 12 months can be obtained only at disproportionate costs.

As staffing information is held by each probation area it has not been possible to show the figures for Southend separately. The staffing figures are therefore provided for Essex, London, and Hertfordshire probation areas only.

The following figures show the number of probation officers who have been suspended during the last 12 months.

Area	*Grade*	*Outcome of suspension*
Southend Essex	1 x senior probation officers	No case to answer
	3 x probation officers	No case to answer
Hertfordshire	1 x probation officer	Dismissed
Metropolitan police area for London	4 x probation support officers	3 x investigation ongoing 1 x no case to answer
	1 x trainee probation officer	1 x investigation ongoing

Queen's Award for Voluntary Service

Mr. Burstow: To ask the Secretary of State for the Home Department which organisations were *(a)* nominated and *(b)* awarded the Queen's Award for Voluntary Service in (i) 2003, (ii) 2004 and (iii) 2005, broken down by local authority area. [24551]

Paul Goggins: Recipients of The Queen's Award for Voluntary Service, given to groups of two or more volunteers, are published (by region) in the *London Gazette* Supplement No.1 on 1 June each year, which is the date of the announcement of this Award from Buckingham Palace. This information can also be found on the website: www.queensawardvoluntary.gov.uk. It also contains FAQ's on the administration of the Award.

Perhaps the most apposite way to request information on the break down of recipients by local authority would be through regional Government Offices as they are involved in the Award selection process through a local Selection Panel. Their recommendations are sent for final selection to the Award Committee. The Devolved Administrations in Scotland, Northern Ireland and Wales should also be able to supply this information.

On the question of nominated groups. 1,391 eligible nominations were received in 2002–03; 667 in 2003–04 and 580 in 2004–05. Details on each nominated group are contained on forms sent to the administrators of this Award by an individual nominator and has always been regarded as personal information and has never been published.

Race Equality Impact Assessments

Keith Vaz: To ask the Secretary of State for the Home Department how many Race Equality Impact Assessments his Department completed between *(a)* April 2004 and March 2005 and *(b)* April 2005 and November 2005; and how many assessments in each period resulted in a change of policy. [32821]

Paul Goggins: The Home Office has conducted 10 race equality impact assessments during the April 2004 to March 2005 period. Five of which resulted in policy changes being made. So far five assessments have been conducted during the April-November 2005 period.

Sex Offenders

Mr. Hollobone: To ask the Secretary of State for the Home Department how many people in *(a)* England, *(b)* Northamptonshire and *(c)* Kettering constituency have appeared on the sex offenders register in each of the last 10 years. [37049]

Fiona Mactaggart: The notification requirements of the Sex Offenders Act 1997 (often known as the sex offenders register) came into force on 1 September 1997. These requirements have been updated and strengthened through the Sexual Offences Act 2003.

Until 2001, data on the number of sex offenders were collated on a national basis from the police national computer. However, this arrangement was overtaken following the introduction of the Multi-Agency Public Protection Arrangements (MAPPA) and the requirement on each police and probation area to produce annual reports detailing the work undertaken to safeguard the public and manage dangerous offenders in the community. The MAPPA reports include statistics on the number of offenders who are subject to the notification requirements. The 2001–02 reports state that on 31 March 2002 there were 18,513 registered sex offenders living in the community in England and Wales. The 2002–03 reports state that on 31 March 2003 the number was 21,413. The 2003–04 reports state that on 31 March 2004 the number was 24,572 and the most recent 2004–05 reports state that on 31 March 2005 the number was 28,994. This increase is to be expected before the notification requirement regime, which was introduced in 1997 with a partially retrospective operation, matures and stabilises.

The MAPPA report for Northamptonshire is available from Northamptonshire police, Northamptonshire probation service and also from the National Probation Service website. Statistics are not available for the number of offenders within a constituency.

Terrorist Suspects

Grant Shapps: To ask the Secretary of State for the Home Department pursuant to his answer of 6 December 2005, *Official Report*, column 1112W, on terrorist suspects, how many of the 11 suspects charged after being held for 13 to 14 days in 2004 and 2005 were successfully prosecuted, where all proceedings in the case are complete. [38544]

Mr. Charles Clarke: The Metropolitan police have advised that only one of the cases recorded as being held for 13 to 14 days has been completed and that the individual was convicted.

Treason

Mr. Hollobone: To ask the Secretary of State for the Home Department when the last conviction for treason was; and what penalty was imposed. [38150]

Fiona Mactaggart: The last conviction for treason was in 1994, under the Treason Felony Act 1848. The sentence was a community supervision order. The death penalty for treason was replaced by a maximum of life imprisonment in 1998.

Victim Support

Mr. Hoyle: To ask the Secretary of State for the Home Department what role is played by Victim Support in helping victims of crime in Chorley. [37731]

Fiona Mactaggart: Since 1997 the Home Office Grant-in-Aid to Victim Support has nearly trebled, from £11.7 million to almost £30 million in 2005–06.

The grant-in-aid memorandum sets out the services that Victim Support is expected to deliver to victims and witnesses. However, decisions regarding the management of these services in Chorley are the responsibility of the Victim Support Lancashire Board of Trustees.

Victim Support Lancashire's Chorley branch provides free and confidential support for victims of crime. Victim Support Lancashire also runs the witness service, supporting those attending court, in all Lancashire criminal courts.

Youth Offender Teams

Chris Ruane: To ask the Secretary of State for the Home Department what the performance of youth offender teams against their key indicators was in *(a)* North Wales and *(b)* England and Wales between April 2004 and March 2005. [36884]

Fiona Mactaggart: The following table shows performance against the Key Performance Indicators for the four Youth Offending Teams in North Wales (Conwy and Denbighshire, Flintshire, Gwynedd and Mon and Wrexham) and the outturn for England and Wales for the period April 2004 to March 2005.

Youth offending team performance (April 2004 to March 2005)

Key performance indicator	*[1]Target*	*North Wales Yots outturn 2004–05*	*Percentage England and Wales outturn 2004–05*
Prevention[2]		162	24,411
Recidivism[3]		30.9	46.9
Final warnings	80	81.1	85.3
Use of custody			
Use of custodial remands	30	40.8	44.4
Use of custodial disposals	6	5.3	6.2
RJ and victim satisfaction			
Use of restorative processes	75	87.1	81.8
Victim satisfaction	75	98.0	96.8
Parenting			
Parental intervention	10	18.0	11.7
Parental satisfaction	75	99.2	97.6
ASSET			
Community ASSET Start	100	88.5	94.7
Community ASSET End	100	89.1	95.8
Custodial ASSET Start	100	90.1	97.9
Custodial ASSET Middle	100	95.8	98.0
Custodial ASSET End	100	93.1	97.6
Pre sentence reports	90	98.1	88.6
DTO training plans	100	86.1	82.1
Education, Training and Employment	90	80.5	74.2
Accommodation	100	91.4	93.6
CAMHS			
Acute mental health	100	81.3	85.3
Non acute mental health	100	34.2	90.4
Substance Misuse			
Substance misuse assessment (within five days)	100	83.2	73.5
Substance misuse treatment (within 10 days)	100	93.2	92.2

[1] As published in YJB Corporate Plan 2004–05 to 2006–07

[2] Measured as a figure, (the number of young people that area identified and targeted for support based on YISP or other effective arrangements), rather than as a percentage against target of 200 per Yot. There were 155 Yots in England and Wales 2004–05.

[3] Recidivism rate, collected by local Yots, of the 2002 cohort after 24 months.

HEALTH

A&E Departments

Mr. Maude: To ask the Secretary of State for Health what recent assessment she has made of the effect on *(a)* costs and *(b)* risks to patients' health of running split-site accident and emergency departments. [35155]

Mr. Byrne: There are national health service trusts that are responsible for two or more hospitals that each provides accident and emergency services but I am not aware of any single departments working on split sites or of any plans to provide services in this way. No assessment of the costs or risks of a single department being split between two or more sites has therefore being made.

Allergies

Mrs. Dorries: To ask the Secretary of State for Health what steps she is taking to increase the number of training places for allergy specialists; and if she will make a statement. [19762]

Mr. Byrne: The number of doctors in training in allergy increased from two in 2000 to seven in 2004.

Anorexia

Mrs. James: To ask the Secretary of State for Health what plans she has to develop NHS services for patients with anorexia nervosa. [38238]

Ms Rosie Winterton: We take the issue of eating disorders, especially among young people, very seriously. Anorexia nervosa in particular can have serious consequences for general health, and has high rates of mortality. This is why we asked the National Institute for Health and Clinical Excellence (NICE) to publish guidelines on core interventions for these disorders as part of its second programme of work. NICE published clinical guidelines on eating disorders in January 2004.

We envisage that services for people with eating disorders will improve, along with the whole spectrum of mental health services, as a result both of the Government's prioritisation of mental health services through the implementation of the 1999 national service framework for mental health and our increased spending on mental health from £4.07 billion in 1999–2000 to £5.09 billion in 2003–04.

Asylum Seekers

Ms Abbott: To ask the Secretary of State for Health whether primary care trusts have responsibility for monitoring the standard of care provided in detention centres for asylum seekers. [37846]

Caroline Flint: On site services at immigration removal centres are subject to monitoring by Home Office contract monitors and are included in Her Majesty's Chief Inspector of Prison's inspections of individual centres. Operating standards for the centres also exist, including for healthcare, and the centres are required to audit compliance with them and submit their findings to the Director of Detention Services. In addition, initial discussions have taken place with the Healthcare Commission with a view to the possible registration of the private contractors who provide services at removal centres, which would bring them within the Healthcare Commission's oversight and inspection programme. While primary care trusts are not part of the formal monitoring process, they are being encouraged to work together with the removal centres to develop local protocols to improve the interface between healthcare services within the centres and the local national health service.

Blood

Steve Webb: To ask the Secretary of State for Health pursuant to the answer of 28 October 2005, *Official Report*, columns 566–67W, on blood, what percentage of *(a)* hospitals and *(b)* primary care trusts are (i) partially and (ii) fully compliant with current requirements and best practice. [38007]

Caroline Flint: Hospital blood banks or primary care trusts do not require authorisation but are required under the provisions of the Blood Safety and Quality Regulations 2005 (as amended) to submit a report on or before 31 December 2005 to the Medicines and Healthcare products Regulatory Agency (MHRA) if undertaking activities covered by these regulations. These reports will be assessed by the MHRA for compliance with the regulations and regulatory action will follow where necessary.

Blood establishments do require authorisation. Seven hospital blood banks have thus far been granted blood establishment authorisations under the regulations.

Breast Cancer

Dr. Gibson: To ask the Secretary of State for Health when she expects guidelines to be issued by the National Cancer Research Institute on the administration of Herceptin prior to a licence being obtained for its use in early breast cancer and on related issues. [37715]

Ms Rosie Winterton: I understand that the National Cancer Research Institute hopes to be able to issue this guidance imminently.

Cancer Treatment

Mr. Lansley: To ask the Secretary of State for Health (1) when she expects the National Institute for Health and Clinical Excellence to issue appraisals on *(a)* Velcade for multiple myeloma, *(b)* Taxotere for breast cancer, *(c)* Taxol for breast cancer, *(d)* MabThera for non-Hodgkin's lymphoma, *(e)* Gemzar for advanced breast cancer and *(f)* Fludara for lymphocytic leukaemia; [39328]

(2) if she will instruct the National Institute for Health and Clinical Excellence to fast-track appraisals for the drugs *(a)* Arimidiex for early stage breast cancer, *(b)* Aromasin for early stage breast cancer, *(c)* Femara for early stage breast cancer, *(d)* Avatsin for colorectal cancer, *(e)* xeloda for colorectal cancer, *(f)* taxotere for prostate cancer, *(g)* aransep for chemotherapy-induced anaemia, *(h)* eprex for chemotherapy-induced anaemia, *(i)* neorocoromon for chemotherapy-induced anaemia, *(j)* eloxititan for colorectal cancer, *(k)* alimta for mesothelioma, *(l)* temodol for high grade gliomas, *(m)* Tarceva for non-small cell lung cancer,

(n) rubetican for pancreatic cancer, *(o)* Campto for adjuvant-advanced colorectal cancer, *(p)* Alimta for non-small cell lung cancer, *(q)* Erbitux for locally advanced recurrent metastatic head and neck cancer, *(r)* atrasentan for prostate cancer and *(s)* Exetrol for hypercholestolaemia. [39329]

Jane Kennedy: Using its single technology appraisal (STA) process, the National Institute for Health and Clinical Excellence (NICE) has already started work on appraising Velcade, Taxotere, Taxol and MabThera. I understand NICE will start work on Gemazar and Fludara early in 2006.

We are currently discussing with NICE a second tranche of topics to go through the STA process.

Capital Schemes

Mr. Burstow: To ask the Secretary of State for Health if she will set out the basis on which the NHS capital programme is financed by credit guarantee finance.[35149]

Mr. Byrne: The HM Treasury document, "PFI—Meeting the Investment Challenge" (2000) set out the Government's approach to the private finance initiative (PFI) and the role of private finance in PFI. This included the Government's plans to test the use of alternative finance for certain PFI projects—credit guarantee finance (CGF).

CGF is a loan, guaranteed by banks, monolines or other acceptable finance institutions, from the sponsoring department to a PFI project special purpose vehicle on market terms.

National health service capital spending, including PFI, is shown in figure 4.1 in the 2005 departmental report. 2004–05 total outturn was £4,864 million and 2005–06 plan is £6,087 million. CGF has provided finance for two health PFI schemes—£265 million for Leeds in 2004–05 and Portsmouth, expected to be about £262 million, which will reach financial close in the next few days. The CGF amounts are included in the totals.

Chase Farm Hospital

Lynne Featherstone: To ask the Secretary of State for Health (1) what assessment she has made of the effects of closing down the accident and emergency department at Chase Farm hospital on transport times for *(a)* patients and *(b)* employees who will now go to North Middlesex; [38699]

(2) if she will place in the Library a copy of the research and statistics underlying the proposed closure of the accident and emergency department of Chase Farm hospital; [38700]

(3) what assessment she has made of the likely effects of the proposed closure of the accident and emergency department at Chase Farm hospital on *(a)* the quality and *(b)* accessibility of services for the people using North Middlesex hospital accident and emergency services. [38701]

Jane Kennedy: The department has made no assessment.

The disposition of services at Chase Farm hospital is a local matter. The trust with local primary care trusts has been conducting a local engagement exercise with local stakeholders, in line with national policies on public and patient involvement, to develop proposals for the future. Any proposals for change will be for full public consultation, which will set out the reasons for change and the implications for patients and staff locally.

The role of Government are to set the national agenda. It is down to the strategic health authority, working in partnership with the primary care trusts, and local stakeholders who are best placed to plan and develop services, according to the needs of the local community.

Chemical ITX

Norman Baker: To ask the Secretary of State for Health what research she has evaluated on the migration of the chemical ITX from food packaging into food; and if she will make a statement. [38838]

Caroline Flint: The chemical isopropylthioxanthone (ITX) is a component of printing inks used on some Tetrapak food packaging. It has been found at very low levels in some foodstuffs in this type of packaging, including liquid infant formula products. The European Food Safety Agency has assessed the safety of ITX and advised that it does not give cause for health concern at the levels reported. Tetrapak has now stopped using this type of printing for infant formula products and is stopping its use for other food products.

Continuing Care

Mr. Lansley: To ask the Secretary of State for Health how many people have received NHS-funded continuing care in each year since 1997. [39365]

Mr. Byrne: The available data is shown in the table.

Total number of individuals receiving continuing care in each financial year

	Number of individuals
2002–03	17,019
2003–04	19,723
2004–05	20,842

Source:
Continuing care data submitted by primary care trusts at quarter four (31 March) as part of local delivery planning return collection.

Dentistry

Mr. Sanders: To ask the Secretary of State for Health how many dentists there are per head of population in *(a)* Torbay and *(b)* England. [38482]

Ms Rosie Winterton: The number of general dental services and personal dental services dentists per 10,000 population in England and Torbay Primary Care Trust as at 30 September 2005 is shown in the table.

	Dentists per 10,000 population
England	4.19
Torbay PCT	5.64

Source:
NHS Health and Social Care Information Centre

The figures are calculated using Office for National Statistics 2003 mid-year population estimates based on the 2001 census.

Mr. Keetch: To ask the Secretary of State for Health how many NHS dentists there are in Hereford constituency; and what percentage of their time each spent treating NHS patients in the last period for which figures are available. [38915]

Ms Rosie Winterton: As at 30 September 2005, there were 69 national health service dentists with a general dental services (GDS) or personal dental services (PDS) contract within Hereford constituency.

A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the primary care trust. The Dental Practice Board has no information concerning the amount of time dedicated to private or NHS work by individual dentists.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Answer of 22 November 2005, *Official Report*, column 1795W, on NHS dentistry, when she expects to publish the budget. [39313]

Ms Rosie Winterton: Primary care trusts have already been informed, in confidence, of their dentistry budgets for 2006–07 to allow them to plan their provision for next year. These are still subject to minor adjustments and will be published as part of the normal annual financial information for the national health service in the spring.

Chris Ruane: To ask the Secretary of State for Health how many *(a)* hospital and *(b)* community dentists have been employed in each year from 1979 to 1997, broken down by strategic health authority area. [36895]

Ms Rosie Winterton: The data requested is only available from 1987 and is shown in the tables.

[1] Other includes regional health authorities, special health authorities and special hospitals. Most regional health authority and special health authority organisations existed prior to the creation of the SHA boundaries and therefore cannot be mapped into a specific SHA. Special hospitals are national centres (e.g. National Blood Authority) and therefore cannot be mapped to a specific SHA.

Source:

NHS Health and Social Care Information Centre Medical and Dental Workforce Census.

Mr. Sheerman: To ask the Secretary of State for Health how many NHS dentists there are in *(a)* England, *(b)* West Yorkshire and *(c)* Huddersfield. [37108]

Ms Rosie Winterton: The information requested is shown in the table.

Number of dentists in England, West Yorkshire strategic health authority (SHA) and Huddersfield parliamentary constituency as of 30 September 2005

England	20,890
West Yorkshire SHA	836
Huddersfield Constituency	53

Notes

1. Data include all notifications of dentists joining or leaving the general dental service or personal dental service, received by the Dental Practice Board, up to 2 November 2005 for England data, and 19 October 2005 for SHA and constituency data.
2. The definition of dentists includes principals, assistants and trainees. Prison contracts have been excluded from the data.

Source

Dental Practice Board

Mr. Graham Stuart: To ask the Secretary of State for Health what measures she is taking to ensure adequate provision of NHS dentistry in Beverley and Holderness. [37439]

Ms Rosie Winterton: In 2004–05, the Department allocated £1.3 million to the North and East Yorkshire and Northern Lincolnshire strategic health authority (SHA) to improve access, choice and quality in national health service dentistry. In 2004–05, the East Yorkshire primary care trust (PCT) and the Yorkshire Wolds and Coast PCT, received £147,000 and £160,000 respectively.

The SHA advises that these funds were used to assist the development of new dental practices at Bridlington, Driffield, Pocklington and Beverley together with expansion of existing practices at Brough and South Cave. The new practices will allow 17,500 new national health service patient registrations and 2,000 additional NHS patients to access NHS care at the expanded practices.

In addition, a new practice is due to open in early February at Beverley, providing care for 3,000 NHS patients, under a personal dental service (PDS) contract.

There are access centres at Bridlington, Pocklington, Driffield, Goole, Cottingham, Withernsea and also at Hull. The access service provides care for over 40,000 patients annually.

Two Polish dentists have been recruited through the Department's overseas recruitment programme and are now working within a practice in the Yorkshire Wolds and Coast PCT area.

Both PCTs have been working with dental practices to support them in moving over to the new PDS contract. The number of dental practices which have converted to PDS within each of the PCTs is as follows:

East Yorkshire PCT: six practices, 15 whole-time equivalent (wte) practitioners, 40,602 patients,

Yorkshire Wolds and Coast PCT: eight practices, 14 wte practitioners, 43,219 patients.

Drug Supplies

Norman Baker: To ask the Secretary of State for Health what estimate she has made of the cost to pharmacists of providing full patient packs if reimbursement is based on the quantity of drugs prescribed; and if she will make a statement. [38845]

Jane Kennedy: No estimates have been made by the Department of dispensing patient packs if reimbursement is based on the quantity of medicine prescribed. Work undertaken by the Prescription Pricing Authority has shown that the quantity prescribed matches that of an available pack size in the majority of cases. For example, sample statistics show that drugs available in a pack size of 28 is prescribed in multiples of 28 nearly 78 per cent. of the time. In these cases the cost to the pharmacist of providing full patient packs is nil.

It is not possible to ascertain whether pharmacists would incur cost by providing patient packs when reimbursement is based on the quantity prescribed as providing a full pack could mean that the amount dispensed is varied both upwards and downwards in comparison to the amount prescribed on different occasions, therefore the times more is dispensed may be balanced by the times less is dispensed.

Furthermore, if pharmacists are not obligated to dispense a quantity other than that which is prescribed, they would retain the option of dispensing exactly as prescribed, thereby incurring no costs or losses.

EU Committees

Angus Robertson: To ask the Secretary of State for Health (1) how many meetings of the EU *(a)* Committee on the Community action programme on injury prevention, *(b)* Committee for the implementation of the Community action programme for the prevention of AIDS and certain other communicable diseases, *(c)* Committee on the action programme on rare diseases in the framework of the action plan for public health and *(d)* Advisory Committee on cancer prevention have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement; [38642]

(2) how many meetings of the EU Committee for the implementation of the Community action programme on *(a)* the prevention of drug dependence in the framework of the action plan for public health, *(b)* pollution-related diseases in the framework of the action plan for public health, *(c)* health promotion information, education and training and *(d)* health monitoring in the framework of the action plan for public health have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if she will make a statement. [38643]

Ms Rosie Winterton: The Committees no longer sit and did not meet during the United Kingdom presidency of the European Union.

European Medicines Evaluation Agency

Mr. Paterson: To ask the Secretary of State for Health what the UK financial contribution to the running of the European Medicines Evaluation Agency was in 2004–05. [19862]

Jane Kennedy: The European Medicines Evaluation Agency (EMEA) is funded in part through fees paid by pharmaceutical companies for work undertaken by the EMEA to assess marketing authorisation applications, and in part by community subsidy, to which the United Kingdom pays a financial contribution.

In 2005, the European Union budgetary commitment and payment to the European Medicines Agency, inclusive of orphan drugs, was €29,100,000, of which €3.5 million was provided by the UK.

European Working Time Directive

Mr. Hands: To ask the Secretary of State for Health how many staff have been recruited by *(a)* Hammersmith and Fulham NHS trust and *(b)* Hammersmith hospitals NHS trust as a result of the European working time directive. [38559]

Jane Kennedy: This information is not held centrally.

Implementation of the working time directive (WTD) is the responsibility of local national health service trusts and strategic health authorities were required to draw up affordable plans to meet WTD 2004.

The Government agreed to implement the European working time directive as United Kingdom legislation to improve the health and safety and working lives of all employees in this country. The vast majority of staff groups have been covered by the 48-hour week since 1998. The Government negotiated an extension to the WTD for doctors in training to enable phased implementation from August 2004.

Foundation Trusts

Mr. Gordon Prentice: To ask the Secretary of State for Health how many NHS foundation trusts have *(a)* closed and *(b)* downgraded their accident and emergency departments since their establishment. [38275]

Mr. Byrne: The information requested is not held centrally. Information relating to the operational management of national health service foundation trusts (NHSFTs) can be obtained via the chairman of each organisation.

The terms of authorisation for NHSFTs requires them to comply with national healthcare targets and standards, which includes a key target that patients should wait no longer than four hours to be treated in accident and emergency. A significant failure to comply with standards and targets may lead to intervention by Monitor, the statutory name of which is the independent regulator of NHSFTs.

Mr. Gordon Prentice: To ask the Secretary of State for Health if she will list the hospital trusts in England that are considering proposals to downgrade their accident and emergency departments to accept planned admissions only. [38276]

Mr. Byrne: The Department does not routinely collect operational management information on proposals to close wards or capacity.

National health service bodies are under a duty to consult local authority overview and scrutiny committees on any plans to make substantial changes to NHS services.

Gentamicin-resistant Staphylococcus Aureus

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to control gentamicin-resistant staphylococcus aureus. [39366]

Jane Kennedy: Minimising the development and spread of strains such as gentamicin resistant "staphylococcus aureus" requires prudent prescribing of antibiotics as well as strict adherence to infection control measures. This is why prudent prescribing is part of our programme to tackle healthcare associated infections. To support this we have provided £12 million over three years for hospital clinical pharmacists.

Health Bill

Mr. Amess: To ask the Secretary of State for Health what recent evaluation her Department has undertaken of public opinion on Part I of the Health Bill; and if she will make a statement. [35967]

Caroline Flint: The most recent data on public attitudes to smoking restrictions is available in the Office for National Statistics publication "Smoking Related Behaviour and Attitudes 2004," which surveyed opinion on restrictions on smoking in certain places.

Smoking should be restricted in certain places (Table 6.13)	*Percentage agreeing*
at work	88
in restaurants	91
in pubs	65
in indoor shopping centres	87
in indoor sports and leisure centres	93
in indoor areas in railway/bus stations	82
in other public places	93

Suggested restrictions on smoking in pubs 2003–04.

In pubs, would prefer (Table 6.21)	*Percentage agreeing*
no smoking allowed anywhere	31
mainly non-smoking with smoking areas	47
mainly smoking with non-smoking areas	16
smoking allowed throughout	5
don't go to pubs/don't know	2

Part I of the Health Bill recognises these differences in public opinion between general work places, public places and places where meals are consumed, and the different attitude towards pubs.

Health Services

Mr. Hollobone: To ask the Secretary of State for Health (1) if she will meet local hon. Members to discuss proposals for future provision of *(a)* health care services and *(b)* local NHS dentistry provided by (i)

Kettering general hospital and (ii) Northamptonshire Heartlands primary care trust; and when she plans to respond to previous requests to do so; [38107]

(2) if she will visit Kettering constituency to discuss funding for the local general hospital and primary care trust. [38125]

Ms Rosie Winterton: I would be happy to consider meeting with the hon. Member to discuss local health issues and possibility of visiting Kettering.

Rosie Cooper: To ask the Secretary of State for Health how many job losses she expects as a result of the merger of primary care trusts in West Lancashire; what budget she has allocated for severance payments in *(a)* West Lancashire and *(b)* England; and if she will make a statement. [38374]

Mr. Byrne: Ministers have given the go-ahead for all 28 strategic health authorities (SHAs) to begin local consultations on boundary changes to SHAs and primary care trusts. Consultations started on 14 December and will continue for a period of 14 weeks (until 22 March). No decisions on boundary changes will be taken until these local consultations have been completed and their outcomes considered by Secretary of State. Until any boundary changes are agreed, it is not possible to calculate the number of job losses in any particular area.

Strategic health authorities have been asked to minimise the cost of severance and where possible, these should be financed from in-year management cost savings.

Health Spending

Lynne Featherstone: To ask the Secretary of State for Health what the projected per capita Government spending on health in London is for 2005–06; and if she will make a statement. [39135]

Jane Kennedy: The total spend by national health service organisations in London for 2005–06 will be reported in the 2005–06 final accounts, which will be published in autumn 2006.

The forecasts for 2005–06 recently published on the Department publications website are based on un-audited data. The forecasts are available at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en

The latest year for which audited financial data is available is 2004–05. The following table shows the spend per head for primary care trusts (PCTs) in London for 2004–05.

2004–05 expenditure per head

PCT	*£*
Barking and Dagenham	1,211
Barnet	1,223
Bexley Care Trust	1,105
Brent Teaching	1,363
Bromley	1,128
Camden	1,635
City and Hackney Teaching	1,481
Croydon	1,135
Ealing	1,281
Enfield	1,160
Greenwich Teaching	1,310
Hammersmith and Fulham	1,337
Haringey Teaching	1,343
Harrow	1,147
Havering	1,167
Hillingdon	1,114
Hounslow	1,320
Islington	1,716
Kensington and Chelsea	1,397
Kingston	1,114
Lambeth	1,664
Lewisham	1,414
Newham	1,348
Redbridge	1,109
Richmond and Twickenham	1,163

Audited primary care trust summarisation schedules 2004–05
2003 based 2004 Office for National Statistics projections

Hepatitis C

Dr. Iddon: To ask the Secretary of State for Health (1) how many hospitals offer treatment for hepatitis C;[38205]

(2) which primary care trusts do not have a hospital in their area which offers treatment for hepatitis C. [38206]

Caroline Flint: This information is not available centrally. In line with "Shifting the Balance of Power", decisions about the provision of local services, including for hepatitis C are made by local national health service organisations.

Information at NHS trust level about finished consultant episodes with hepatitis C recorded as a primary diagnosis is usually available. However, this information cannot currently be provided due to disruption to the hospital episodes statistics service following the recent fire at the fuel storage depot in Hemel Hempstead.

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the effectiveness of the FaCe It campaign on hepatitis C; what the total expenditure on the campaign has been since it was introduced; when funding for the FaCe It campaign will cease; and what steps she intends to take to heighten awareness of hepatitis C following the end of the FaCe It campaign. [39348]

Caroline Flint: Qualitative research of hepatitis C awareness among general practitioners and practice nurses has been carried out this year. This research, which repeats a baseline study carried out in 2001, indicates that awareness of hepatitis C is much improved compared to 2001 and that hepatitis C testing is being offered to those known to be at risk.

The Health Protection Agency has been monitoring the number of reported laboratory diagnoses of hepatitis C, which is a national outcome indicator for implementation of the "Hepatitis C Action Plan for England". There has been a noticeable upward trend in

hepatitis C diagnoses since 2000 from just under 5,000 reports to around 8,000 in 2004. Injecting drug users are the group currently at greatest risk of hepatitis C infection in this country. The unlinked anonymous prevalence monitoring programme's survey of injecting drug users in contact with specialist services[1] showed that 67 per cent. had had a voluntary confidential test for hepatitis C in 2004 compared to 49 per cent. in 2000.

There has also been qualitative research this year into format and design of the hepatitis C "Face Your Past" leaflet, which is being widely distributed as the hepatitis C awareness photography exhibition tours regional cities. This research suggested that the design, content and tone were effective at gaining attention and giving a clear message without causing panic.

Research into public awareness of hepatitis C will be carried out in 2006. This will repeat a survey of awareness among the general public and groups at increased risk of infection in 2003.

Total expenditure on the "FaCe It" campaign to date has been £1.55 million. We will review the position on the future of the campaign at the end of the current financial year.

Note:

[1] For example, needle exchanges or treatment programmes, such as methadone maintenance.

HIV/AIDS

Mr. Hunt: To ask the Secretary of State for Health what means the Department uses to raise awareness of HIV testing; and if she will make a statement. [38283]

Caroline Flint: The National Strategy for Sexual Health and HIV (2001) included a goal to reduce the prevalence of undiagnosed HIV infection. Action to achieve this includes the following measures:

The Government has set a national standard that all genito urinary medicine (GUM) services should offer an HIV test to clinic attendees on their first screening for sexually transmitted infections. Uptake of voluntary confidential testing (VCT) for HIV at GUM clinics among gay men has increased from 64 per cent. in 2003 to 79 per cent. in 2004. In heterosexuals, VCT uptake increased from 54 per cent. in 2003 to at least 75 per cent. in 2004.

The Department continues to support comprehensive programmes of targeted HIV prevention and health promotion work for gay men and Africans through contracts with the Terrence Higgins Trust and the African HIV Policy Network. The Department has funded the Terrence Higgins Trust to undertake pilots in a number of locations to offer HIV testing in community settings.

Targets to reduce vertical, mother to child, transmission of HIV were announced in 1999. The success of offering and recommending an HIV test to every pregnant woman has resulted in a dramatic fall in the number of women giving birth to HIV positive babies.

Hospital Cleanliness

Mr. Lansley: To ask the Secretary of State for Health how many different organisations are able to inspect hospitals for cleanliness. [39341]

Jane Kennedy: A number of statutory organisations may undertake cleanliness inspections across the national health service, which may include every NHS site, a sample of sites or individual named sites as required. They are:

Healthcare Commission
Monitor
National Audit Office
Patient Forums
Environmental Health

Patient environment action teams (PEAT) also carry out annual assessments for the Department.

Medical Staff (West Suffolk)

Mr. Spring: To ask the Secretary of State for Health how many *(a)* doctors and *(b)* nurses there were in the constituency of West Suffolk in (i) 1997 and (ii) the last year for which figures are available. [38873]

Ms Rosie Winterton: The information requested is shown in the table.

National health service hospital, public health medicine and community health services: all doctors and nurses in the Norfolk, Suffolk and Cambridgeshire Strategic Health Authority area and in each specified organisation as at 30 September[1] for each specified year

	All doctors[2]		Qualified nursing[3]	
	1997	2004	1997	2004
Headcount	3,876	4,983	13,457	18,592
Total specified organisations	154	457	689	1,368
East Anglian Ambulance NHS Trust	0	0	1	4
West Suffolk Hospitals NHS Trust	154	264	688	1,013
Suffolk West Primary Care Trust	[4]—	193	[4]—	351

[1] Excludes Hospital Medical Hospital Practitioners and Hospital Medical Clinical Assistants, most of whom are GPs working part time in hospitals.
[2] Data as at 30 September each year except GP and Practice Nurse data as at 1 October 1997.
[3] Includes GP practice nurses.
[4] Not applicable. PCTs were not established until 2000.
1997 SHA figures are based on the 2002 organisational structure

Mental Health Bill

David Taylor: To ask the Secretary of State for Health (1) how many meetings officials in her Department have held with representatives from black and minority ethnic mental health groups as part of the consultation on the race equality impact assessment of the Mental Health Bill; [33319]

(2) when details of the consultation on the race equality impact assessment of the Mental Health Bill were first posted on the Department's website; and what the deadline is for submissions. [33320]

Ms Rosie Winterton *[holding answer 1 December 2005]:* We have been undertaking a range of consultation activities as part of the process of Race Equality Impact Assessment on the draft Bill. This has included;

establishing an advisory group of stakeholders and experts in the field, which has provided its own recommendations, based on existing consultation material on the draft Bill, and on the basis of a workshop with stakeholders that was held in July. In addition, the assessment proformas used by the advisory group were made widely available and we received some direct submissions based on these documents;

three regional consultation events held in early November;

interviews and focus groups with detained patients conducted on behalf of the Department by the Mental Health Act Commission in 12 provider units;

written submissions from the Mental Health Act Commission's service user panel;

written consultation with professional groups who will be operating the Bill;

web-based opportunity for people to submit their own comments and views on the issues that have arisen out of earlier consultation. This was posted on the Department's website on 14 November, with a deadline for 25 November.

Officials have been in close consultation with black and minority ethnic stakeholder groups, primarily through the black and minority ethnic (BME) mental health network, throughout the race impact assessment on the draft Bill. For example, we had jointly planned with the BME mental health network a series of consultation events, which were to be held in the spring. Regrettably, these events were cancelled when the general election was called, due to the rules about communication on government policy in the period leading up to a general election.

The responsible Minister has also recently met with the Advisory Group and with the BME mental health network. The network was consulted about the consultation activities listed above and asked for more time for further dialogue to take place. We have agreed to extend the opportunity for dialogue and we are currently discussing with stakeholders what further consultation might be carried out before the Bill is introduced in Parliament.

Mental Health Services

Mr. Burstow: To ask the Secretary of State for Health how much was spent on psychological therapies in the NHS in 2004–05. [38878]

Ms Rosie Winterton: "The 2004–05 National Survey of Investment in Mental Health Services" reported that in 2004–05, planned spend on psychological therapy services was £141,378,000.

Mr. Burstow: To ask the Secretary of State for Health how many graduate primary care mental health workers were in post in *(a)* December 2004 and *(b)* December 2005. [38879]

Ms Rosie Winterton: The information requested is not available. However, the most recent data identified 353 graduate workers in September 2004 and 648 in March 2005.

Mesothelioma

Bob Russell: To ask the Secretary of State for Health how many people died from mesothelioma in each of the last five years; how many people she estimates will die from mesothelioma in 2005; what estimate she has made of the number of likely deaths from mesothelioma over the next five years; and if she will make a statement. [39191]

Ms Rosie Winterton: The table shows the number of people who have died from mesothelioma since 2001. Comparable data are not available for years prior to 2001 due to the use of the international classification of diseases ninth revision (ICD-9) between 1979 and 2000, which did not contain a disease category for mesothelioma.

	Number of deaths
2001	1,510
2002	1,499
2003	1,534
2004	1,597

The Department has not made an estimate of the number of likely deaths from mesothelioma over the next five years.

The Department recognises that in the past lung cancer has not received the attention it requires and has set up the lung cancer and mesothelioma advisory group to facilitate collaboration and to promote mutual understanding between the Department, the voluntary sector, patient and professional groups and to advise Ministers, the National Cancer Director and the Department on the development and delivery of high quality services for lung cancer patients. A mesothelioma sub-group has been set up to advise on the provision of high quality services for mesothelioma patients.

Myalgic Encephalomyelitis

Mr. Hoyle: To ask the Secretary of State for Health if she will make a statement on services for sufferers of myalgic encephalomyelitis in Lancashire. [37798]

Mr. Byrne: The Chorley and South Ribble primary care trust is the lead commissioning organisation for a new chronic fatigue syndrome (CFS) service for Lancashire and South Cumbria. This has been recently launched and is expected to be fully operational by January 2006.

A specialist multi-disciplinary team, comprising consultant, physiotherapist, nurse and technical instructor, is providing a service for people with CFS or myalgic encephalomyelitis across the geographical area of Lancashire and South Cumbria.

National Service Framework for Long-Term Conditions

Mr. Boswell: To ask the Secretary of State for Health if she will make a statement on progress on adoption by NHS Trusts of the provisions of the national service framework for long-term conditions, with particular reference to neurological disorders. [38854]

Mr. Byrne: There is a 10 year implementation period for the national service framework (NSF) for long-term conditions, with pace of delivery determined by local priorities.

Over the course of the three-year planning period 2005–08 health bodies will be expected to demonstrate that they are making progress in planning and developing the levels of service quality described in the NSF. Both the Healthcare Commission and the

Commission for Social Care Inspection may carry out improvement reviews to assess progress, jointly where appropriate.

NHS Central Registration System

Adam Afriyie: To ask the Secretary of State for Health how many people are registered on the NHS central registration system. [38506]

John Healey: I have been asked to reply

The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 10 January 2006:

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent Parliamentary Question concerning how many people are registered on the NHS central registration system. (38506)

The number of patients on the NHS Central Register who are registered with a GP is 56,358,031.

Yours sincerely

NHS Commissioning

Lynne Jones: To ask the Secretary of State for Health pursuant to the answer of 14 November 2005, *Official Report*, column 971W, on primary care trusts (Oxfordshire), whether all proposals to put NHS commissioning out to private tender require public consultation prior to decision. [38779]

Caroline Flint: There are no proposals to put the delivery of the commissioning function of PCTs in any area out to private tender.

As part of the proposals for primary care trust (PCT) reconfiguration, one strategic health authority (SHA) proposed to procure an external management team to run one of their newly proposed PCTs. However, this proposal will not be considered during the forthcoming local consultation as it is for the new PCTs, not the current SHAs, to decide how best to manage their responsibilities after reconfiguration.

If the new PCTs do decide to pursue this option in the future, decisions will of course be subject to public consultation.

NHS Financial Deficits

Mr. Hollobone: To ask the Secretary of State for Health what aspects of local health service provision she expects to be affected by attempts to minimise the 2005–06 financial deficit in the *(a)* Northamptonshire Heartlands primary care trust and *(b)* Kettering general hospital NHS trust. [38903]

Ms Rosie Winterton: Strategic health authorities (SHAs) are responsible for the overall financial management of national health service organisations in their localities and to ensure that they can achieve financial balance. It is for primary care trust (PCTs) in partnership with SHAs and local stakeholders to determine how to use the funds allocated to them to plan, develop and modernise health services for their local populations.

NHS Financial Management

Lynne Jones: To ask the Secretary of State for Health pursuant to the written ministerial statement of 7 November 2005, *Official Report*, column 4WS, on NHS financial management, if she will list the new approaches to healthcare and healthcare services being undertaken by NHS foundation trusts; whether such approaches are also being taken by other trusts; and in what ways the latter are not able to innovate in the same way as foundation trusts. [38309]

Mr. Byrne: While national health service foundation trusts (NHSFTs) are fledgling organisations working in a new environment with new freedoms, case studies being presented by the foundation trust network give details about how NHSFTs are demonstrating innovative thinking and new ways of working while using their capital freedoms to invest in the delivery and expansion of new services and improving accountability to their local populations. While NHS trusts can innovate new approaches to patient care in much the same way as NHSFTs can, we know that freedoms conferred by foundation status are allowing NHSFTs to do this more quickly and efficiently. The report into NHSFTs published by the Healthcare Commission, the statutory name of which is the Commission for Healthcare audit and inspection in the summer also confirmed that NHSFTs were making good progress in developing new services.

NHS Pension Scheme

Mrs. Humble: To ask the Secretary of State for Health whether new IT systems will be introduced in the NHS in connection with the new pension scheme regulations to be introduced in 2006. [38046]

Mr. Byrne: Mandatory changes arising from the Finance Act 2004 affect public and private pension schemes. The NHS Pensions Agency is currently undertaking changes to information technology (IT) systems in order to meet the mandatory requirements of the Finance Act by 6 April 2006.

The national health service pension scheme review is being led by the NHS Employers Organisation in partnership with NHS Trade Unions and includes representatives from the NHS Pensions Agency and the Department. NHS Employers will make recommendation to Ministers on the future design of the NHS pension scheme. Preserved rights from the current scheme, and potential pension rights in a new scheme will be addressed as part of that process. The review partners expect to conclude negotiations by June 2006 but the implementation of a new scheme is not expected until 2007 at the earliest.

A full review of the Agency's IT systems is underway. The outcome of negotiations will inform the development of a new IT system or changes to the existing IT system.

NHS Reconfiguration

Rosie Cooper: To ask the Secretary of State for Health how much money has been set aside for severance packages consequent on the restructuring of *(a)* Cheshire and Merseyside Strategic Health

Authority, *(b)* Lancashire and Cumbria Strategic Health Authority and *(c)* all strategic health authorities in England. [37418]

Mr. Byrne: Ministers have given the go-ahead for all 28 strategic health authorities (SHAs) to begin local consultations on boundary changes to SHAs and primary care trusts. Consultations started on 14 December for a period of 14 weeks (until 22 March). No decisions on boundary changes will be taken until these local consultations have been completed and their outcomes considered by Secretary of State. Until any boundary changes are agreed, it is not possible to calculate the cost of any severance packages. There will be no central fund to finance any cost of redundancy and SHAs have been asked to minimise severance costs.

NICE

Dr. Gibson: To ask the Secretary of State for Health what criteria will be used to select technologies for referral to *(a)* the new single technology appraisal system and *(b)* the existing appraisal system within the National Institute for Health and Clinical Excellence. [35140]

Jane Kennedy: The first tranche of topics for the single technology appraisal (STA) was arrived at in consultation with the National Institute for Health and Clinical Excellence (NICE). NICE reviewed the topics on its existing technology appraisal programme, considering when they were licensed, the potential impact on length and quality of life and the demand for guidance. The suitability of future topics for the STA process will be assessed in discussion with NICE. The STA process will only be able to appraise single technologies for single indications.

The existing multiple technology appraisal process will sit alongside the new process and will be available for use where an STA is not appropriate, for example where there is a need to look at two or more technologies together, or where the evidence base is particularly complex.

The Department and NICE are reviewing the process for selecting topics for the Institute's work programme, and a consultation document will be published in due course.

Nurses

Anne Main: To ask the Secretary of State for Health what estimate she has made of the number of nurses who left nursing employment in the NHS within six months of qualification in each of the last five years. [38577]

Mr. Byrne: The Higher Education Statistics Agency conducted a survey of students who had successfully completed their course at a publicly-funded higher education institution in England between 1 August 2003 and 31 July 2004 and had a response rate of 79.9 percent., amongst pre-registration nursing students (including midwives). Of the 4,874 nursing students counted in the 2005 survey, 4,274 (87.7 percent.) were employed as a nurse on 15 January 2005. 5.8 percent., were employed elsewhere. 5.2 percent., were not in employment.

Anne Main: To ask the Secretary of State for Health if she will collect figures for the number of nurses who qualify and then find employment within the NHS. [38876]

Mr. Byrne: We already collect information on the number of staff employed in the national health service through the workforce census. We have no plans to collect additional information in the form requested. Following the shifting the balance of power initiative, we have moved to reduce gradually the number of data collections required from the NHS. Since 1997, the qualified nursing workforce has increased by 78,600.

Obesity Care Pathway

Julia Goldsworthy: To ask the Secretary of State for Health in what ways the draft document on the obesity care pathway used in the second round of consultations differed from that in the first round; and what assessment she has made of whether the consultation complied with the Cabinet Office code of practice on consultations. [38004]

Caroline Flint: The Department is developing an obesity care pathway as an interim tool to assist the frontline health professionals in managing overweight and/or obese patients, until the availability of the National Institute for Health and Clinical Excellence's definitive guidance in 2007. As part of the process of developing this tool, early drafts were shared with some potential users to ascertain their views on how it might best be applied.

A consultation on the content is currently underway on the obesity care pathway and related documents, and a draft weight loss guide. The consultation ended on 3 January 2006. As required by the Cabinet code on consultation, I have agreed that the consultation period should be time limited, given the interim nature of the tools and the importance of getting them quickly to health professionals.

Osteoporosis

John Penrose: To ask the Secretary of State for Health whether sufferers of osteoporosis under the age of 70 will continue to receive *(a)* bisphosphonates, *(b)* ralox and *(c)* strontium ranelate free on the NHS. [38869]

Jane Kennedy: Government policy is to help those who may have difficulty paying prescription charges. The current exemption and charge remission arrangements are intended to ensure that no one need be deterred from obtaining any necessary medication on financial grounds.

Children under 16 and people aged 60 or over who are osteoporosis sufferers are entitled to free national health service prescriptions on the grounds of their age. Entitlement to free prescriptions is based on the principle that those who can afford to contribute should do so, while those who are likely to have difficulty in paying should be protected. However/people who have to pay can seek help under the NHS low income scheme, which provides help with health costs on an income-related basis.

Palliative Care

Mr. Caton: To ask the Secretary of State for Health what steps the Government is taking to fulfil the commitment in Building on the Best to offer all adult patients nearing the end of life, regardless of diagnosis, access to high quality palliative care to enable them to choose if they wish to die at home; and what the timescale is for these measures. [35056]

Ms Rosie Winterton: The Government have invested an additional £12 million over three years (2004 to 2007) to deliver the end of life care programme, providing choice to those who want to die at home. This programme is providing training for staff in acute, community and care home settings so that all patients near the end of life have access to high quality palliative care and are able to choose where they receive care. This involves supporting the roll-out of three key tools, the gold standards framework, the Liverpool care pathway, and the preferred place of care.

Geraldine Smith: To ask the Secretary of State for Health what plans she has to increase funding for palliative care services; and if she will make a statement. [37306]

Ms Rosie Winterton: In our Manifesto, we said we would increase the choice for patients with cancer and double the investment going into palliative care services, giving more people the choice to be treated at home. We have extended this commitment to improve end of life care for children and adults who are suffering from cancer or any life-threatening condition.

The details of delivering our manifesto commitment are being discussed with a range of key stakeholders. Along side this, the views of the public, service users and national health service staff on end of life care was one of the issues covered in the "Your Health, Your Care, Your Say" consultation. We will take account of what people have said in this consultation in the way we discharge our manifesto commitment.

Patient Choice

Lynne Jones: To ask the Secretary of State for Health pursuant to the answer of 21 November 2005, *Official Report*, columns 1725–26W, on patient choice, what communications have been sent to *(a)* primary care trusts and *(b)* strategic health authorities to convey Government policy since Sir Nigel Crisp's letter of 28 July on Commissioning a Patient-led NHS. [37771]

Mr. Byrne: There have been two written communications issued to strategic health authority (SHA) chief executives since the publication of Sir Nigel Crisp's letter on 28 July 2005, and we have also provided SHAs with a consultation guidance document. A letter was issued on 26 August 2005, which stated that:

> "We expect discussions on provider functions to follow the restructuring discussion, be led by the new PCTs and to take into account any conclusions from the upcoming White Paper. Any proposals would then require a further specific consultation."

A further letter was issued on 30 November 2005, which stated that:

> "The consultation must cover the reconfiguration of organisational boundaries only. Discussions or decision about provider functions are not a matter for this consultation".

Enclosed with this letter was a consultation guidance document, which stated:

> "In our proposals sent out on 28 July we indicated that we were minded to require PCTs to reduce their service provision functions by the end of 2008. Since that document, we have listened to stakeholders. The policy moving forward, in relation to service provision, is that this will be a matter for PCTs to determine locally. So any move away from direct provision of services will be a decision for the local NHS within the framework set out in the forthcoming White Paper and after local consultation, including professions allied to medicine.
>
> We will support PCTs who want to do that, but we will not instruct PCTs to do it, nor will we impose any timetable. What matters is getting the best services for each community—and that is what the White Paper will focus on."

Prescribing Policy

Mr. Lansley: To ask the Secretary of State for Health what her policy is on the prescribing to a patient of a generic alternative to a branded medicine following the expiry of a patent in circumstances where they were initially prescribed a branded medicine and wish to remain on this medication. [39326]

Jane Kennedy: Practitioners are encouraged to prescribe rationally and to make the best possible use of national health service resources. It has long been the Department's policy to encourage practitioners to prescribe drugs by their generic name, where possible, for reasons of good professional practice and because of the opportunities for more effective use of NHS resources.

Prescription Charges

Mr. Lansley: To ask the Secretary of State for Health what guidance she has issued on whether patients in hospital should pay prescription charges for their medication. [39357]

Jane Kennedy: Guidance revised and issued in October 2003 entitled, "The Controls Assurance Standards" included a reminder to trusts that arrangements should be in place for the collection of prescription charges as specified by the National Health Service (Charges for drugs and appliances) Regulations 2000.

Regulation 5 (1) says an NHS trust, and NHS foundation trust or a primary care trust which supplies to a patient for the purposes of his treatment, drugs, otherwise than for administration at a hospital, or appliances, shall, subject to limited exemptions make and recover from the patient a charge of £6.50.

The information leaflet HC11, "Help with Health Costs", which is freely available to patients and NHS staff, sets out when and where prescription charges should be made.

Primary Care Trusts

Mr. Lansley: To ask the Secretary of State for Health if she will reconsider the pace at which primary care trusts are moved towards their target allocation under the weighted capitation formula. [39353]

Mr. Byrne: Pace of change policy is decided by Ministers for each allocations round. In 2003–04, the most under target primary care trust (PCT) was 22 percent., under target. For the 2006–08 revenue

allocations, it has been decided to move PCTs more quickly towards their fair share of funds, and by 2007–08, no PCT will be more than 3.5 percent., below its fair share.

There are no plans to revisit the 2006–08 revenue allocations or the in pace of change. Pace of change policy for the next allocations round will be considered in light of all the circumstances at the time.

Mr. Jenkins: To ask the Secretary of State for Health how many job losses she expects as a result of the possible merger of primary care trusts in Staffordshire; what budget she has allocated for severance payments; and if she will make a statement. [37829]

Ms Rosie Winterton: Ministers have given the go-ahead for all 28 strategic health authorities (SHAs) to begin local consultations on boundary changes to SHAs and PCTs. Consultations started on 14 December and will continue for a period of 14 weeks, until 22 March. No decisions on boundary changes will be taken until these local consultations have been completed and their outcomes considered by Secretary of State. Until any boundary changes are agreed, it is not possible to calculate the number of job losses in any particular area.

There will be no central fund to finance any cost of redundancy. SHAs have been asked to minimise the cost of severance and where possible, these should be financed from in-year management cost savings.

Mr. Truswell: To ask the Secretary of State for Health what process will be used for primary care trusts to transfer the services they provide to alternative providers. [19637]

Mr. Byrne: There are no central plans for primary care trusts to transfer services they provide to alternative providers.

Any move away from direct provision of services will be a decision for the national health service locally, within the framework to be set out in the forthcoming White Paper and after local consultation with a range of stakeholders including staff.

Psychiatrist/Psychologist Waiting Times

Mr. Hoyle: To ask the Secretary of State for Health what the *(a)* average and *(b)* target waiting time was to see a (i) psychiatrist and (ii) psychologist for (A) adults and (B) children in Chorley in each of the last five years. [37800]

Mr. Byrne: The information requested is shown in the table.

Estimated average waiting time from GP written referral to first out-patient appointment, September 2001 to September 2005, provider based

Effective length of wait from receipt of GP written referral request to first out-patient attendance (weeks)
Sum of seven Trusts merged to form Lancashire Care NHS Trust

Quarter	*0 to <4*	*4 to <13*	*13 to <26*	*26 plus*	*Median wait*
September 2001	477	432	78	11	4.5

Effective length of wait from receipt of GP written referral request to first out-patient attendance (weeks)

Lancashire Care NHS Trust *Quarter September*	*0 to <4*	*4 to <13*	*13 to <17*	*17 to <21*	*21 plus*	*Median wait*
2002	480	332	39	5	5	3.6
2003	470	289	28	19	0	3.4
2004	419	232	25	0	0	3.2
2005	299	156	0	0	0	3.1
East Lancashire Hospitals NHS Trust						
2001	n/a	n/a	n/a	n/a	n/a	n/a
2002	n/a	n/a	n/a	n/a	n/a	n/a
2003	41	20	6	2	0	3.4
2004	12	15	24	0	0	12.4
2005	13	9	1	1	0	3.8

n/a = not applicable

Notes:

Lancashire Care NHS Trust was formed in an April 2002 merger of the following organisations:
RMB—Blackburn, Hyndburn and Ribble Valley Healthcare NHS Trust (MH services)
RML—Blackpool, Wyre and Fyde Community Health NHS trust (MH services)
REU—Burnley Health Care NHS Trust (mental health services)
RJU—Chorley and South Ribble NHS Trust (mental health services)
RME—Communicare NHS Trust (psychology and drugs services)
RMG—Guild Community Healthcare NHS Trust
RVT—North Sefton and West Lancashire Community NHS Trust
Data for specialties:
710—Mental Illness
711—Child & Adolescent Psychiatry
712—Forensic Psychiatry
713—Psychotherapy
715—Old Age Psychiatry

1. Due to small numbers, the calculation of the median wait is prone to fluctuation at PCT and SNA level. Care should be taken when interpreting these figures.
2. Waiting times apply to Consultant-led appointments only. Services in many areas are now run by multidisciplinary teams.

Department of Health form QM08

Resource Allocation Formula

Peter Luff: To ask the Secretary of State for Health if her Department will examine the methods used by the resource allocation formula for primary care trusts to assess the health needs of rural areas. [38541]

Mr. Byrne: The weighted-capitation formula is the best available mechanism to determine the health needs of local populations.

The formula is continuously overseen by the advisory committee on resource allocation (ACRA). ACRA is an independent body, made up of national health service managers, academics and general practitioners. ACRA's objective is to ensure equity in resource allocation.

Rurality has been looked at by ACRA on a number of occasions. A wide ranging review of the weighted capitation formula was undertaken by ACRA, prior to the 2003–04 revenue allocations to primary care trusts. As a result of this review, the formula takes account of the effects of access, transport and poverty in calculating health need in rural areas.

ACRA are considering all aspects of weighted capitation formula in advance of next allocations, including health needs in rural areas.

Sure Start Post-natal Visits

Mr. Bacon: To ask the Secretary of State for Health how many Sure Start post-natal visits by health visitors to new mothers are recommended by her Department. [37986]

Mr. Byrne: The national service framework (NSF) for children, young people and maternity services recommends that a family is visited at home by the health visitor or midwife when a child is around 12 days old, to assess the health of the child and family. It also recommends that a child receives a physical examination when they are between six and eight weeks old. This should concentrate on the child's eyes, heart and hips and is normally carried out by the general practitioner or the health visitor. Where a family requires more support or has complex needs the health visitor should offer further visits.

A health visitor based in a Sure Start children's centre would also have regard to the advice set out in the NSF. They may also have other contacts with families during the post-natal period through the various programmes delivered at the centre.

Terminally Ill Patients

Mrs. James: To ask the Secretary of State for Health what guidance her Department has issued to NHS hospitals on the provision of support to terminally ill patients without next of kin at the time of death. [38299]

Ms Rosie Winterton: No guidance has been issued to national health service hospitals on the provision of support specifically for terminally ill patients without next of kin at the time of death. However, the National Institute for Health and Clinical Excellence's guidance on supportive and palliative care, issued in 2004, provides recommendations for the provision of optimal care for those who are dying. This guidance also endorses several tools to support the provision of high quality and responsive care for people at the end of life. These tools: the gold standards framework, the Liverpool care pathway, and the preferred place of care, are being rolled out nationally as part of the Government's end of life care programme, which is running for three years from 2004 to 2007.

The Department also issued advice for the NHS, "When a Patient Dies", which sets out the principles and key elements of good bereavement services. This includes advice that all those involved in the death of a patient should work in partnership to ensure a coordinated response that meets individual needs.

UK/EU Health Agencies

Mr. Paterson: To ask the Secretary of State for Health what the relationship is between the National Institute for Health and Clinical Excellence, the European Medicines Evaluation Agency and the EU Committee on Medicinal Products for Human Use. [19927]

Jane Kennedy: The National Institute for Health and Clinical Excellence provides advice to the national health service in England on the clinical and cost effectiveness of selected new drugs once they are licensed by the Committee for Medicinal Products for Human Use, a committee of the European Medicines Agency.

Waiting Times

Mr. Marsden: To ask the Secretary of State for Health what the target waiting times are for *(a)* psychiatry and *(b)* psychology appointments. [37658]

Ms Rosie Winterton: The maximum waiting time for a first out-patient appointment with a psychiatry consultant is 17 weeks. From the end of 2005, the target will reduce to 13 weeks.

The Department has not set waiting time targets for services that are not consultant-led such as those delivered by psychologists.

Steve Webb: To ask the Secretary of State for Health how she will measure performance of the 18-week waiting time target for courses of treatment involving multiple organisations. [37987]

Mr. Byrne: The Department is currently collating the responses of a service-wide listening exercise on proposed principles and definitions to underpin the 18-week patient pathway commitment. The discussion document "Commissioning an 18 week patient pathway proposed principles and definitions" is available at www.18weeks.nhs.uk/documents/Principles_definitions.pdf and has been placed in the Library. Paragraphs 57 to 59 of this document address patient pathways, which involve multiple organisations. Paragraph 77 refers to the need for commissioners to manage the hand-offs between organisations. The outcome of the listening exercise and the final principles and definitions will be published in 2006.

Mr. Lansley: To ask the Secretary of State for Health what estimate she has made of the average length of time women wait for their first appointment to test whether they are carrying the BRCA1 or BRCA2 gene. [39370]

Ms Rosie Winterton: The Department does not collect routine data on the waiting time for a first appointment with genetics services.

The first appointment with the clinical genetic service will be to assess the individual's risk of carrying a mutation in the BRCA1 or BRCA 2 genes based on a detailed investigation of their family history. A key part of the process is the gathering of accurate information about occurrence and age at onset of any relevant cancers in the family before a meaningful first appointment can take place to assess whether it would be appropriate to offer a genetic test. This can take some time.

The ability to test for breast cancer pre-disposition genes has led to a significant increase in workload for genetic services. We are working with commissioners and providers of genetic services to ensure that patients are being appropriately referred into services and that testing capacity is increased.

WORK AND PENSIONS

Adult Education

Mr. Hollobone: To ask the Secretary of State for Work and Pensions what opportunities are made available by his Department in Kettering constituency to retrain, reskill or educate local adult residents for paid employment. [39781]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 10 January 2006:

The Secretary of State has asked me to reply to your question concerning what opportunities are made available by his Department in the Kettering constituency to retain, reskill or educate local adult residents for paid employment. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus in Kettering offer training courses which are available to unemployed people in Retail and Customer Service, Fork Lift Licence (counterbalance and ach), and Basic Skills (literacy and numeracy). A Basic Employability course is available and addresses various barriers to employment facing people who have been out of work for some time.

For those eligible for help under the New Deal programmes, assistance is available with jobsearch skills (C.V. writing, application form completion, interview techniques) and courses are also offered with work experience undertaken in the voluntary sector.

In addition, we are working with key local employers from the logistics sector to develop a tailor-made work preparation course for customers unemployed for six months or more. This will focus on the key skills needed to work in this environment.

I hope this is helpful.

Benefit Payments

Miss McIntosh: To ask the Secretary of State for Work and Pensions how many women are receiving incapacity benefit payments; and what the figures were in each of the last four years. [39608]

Margaret Hodge: The information is in the table.

The number of female incapacity benefit and severe disablement allowance claimants: Great Britain

	Number of claimants
May 2001	1,129,000
May 2002	1,146,800
May 2003	1,161,700
May 2004	1,171,800
May 2005	1,166,000

Notes:

1. Figures are rounded to the nearest hundred.
2. 'Claimant' figures include all incapacity benefit (IB) and severe disability allowance (SDA), including IB credits only cases.

Source:

DWP Information Directorate, Work and Pensions Longitudinal Study 100 per cent. data.

Child Support

Mark Fisher: To ask the Secretary of State for Work and Pensions how many people who are paying child support remain on the old computer programme. [23096]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child support Agency the Secretary of State promised a substantive reply from the Chief Executive.

I asked the Secretary of State for Work and Pensions how many people who are paying child support remain on the old computer programme.

You can find this information in the CSA Quarterly Statistical Supplement published on the DWP website (www.dwp.gov.uk), a copy of which is also held in the House of Commons library.

Mr. Laws: To ask the Secretary of State for Work and Pensions what assessment he has made of the potential impact of fixing maintenance liabilities for periods longer than one week; and if he will make a statement. [37941]

Mr. Plaskitt: Because many clients of the Child Support Agency are in receipt of benefits which are assessed on a weekly basis, it is more practical to calculate liability for child support on a weekly basis.

Mr. Holloway: To ask the Secretary of State for Work and Pensions how much information relating to Child Support Agency cases in Kent has been lost due to the new IT system. [28595]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what bonuses were paid to staff managing the EDS contract at the Child Support Agency in each of the last four years; and what bonuses related to performance were paid to these staff in each of the last four years. [30019]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, who will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what bonuses were paid to staff managing the EDS contract at the Child Support Agency in each of the last four years; and what bonuses related to performance were paid to these staff in each of the last four years?

All staff in the Department of Work and Pensions qualify for performance-related pay. The performance-related pay arrangements operate on a sliding scale with over 90% of staff receiving a payment at the end of the performance year. In addition the Department operates a "special bonus" scheme, which rewards staff for exceptional achievements outside the requirements of their key work objectives.

Set out in the table below are the special bonus payments relating to staff involved in managing the EDS Contract. These staff also perform other functions in addition to that role.

These payments arose from when the new Child Support Computer System went live in March 2003.

£

Financial year	*Amount of payment*
2003–04	1,600.00
2004–05	0
2005–06[1]	500.00
Total	2,100.00

[1] To date.

I hope this information is helpful.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions (1) what percentage of the Child Support Agency cases waiting to be transferred from the old to the new scheme contain anomalies, inaccuracies or incomplete data; [30046]

(2) how many anomalies, inaccuracies and pieces of incomplete data are contained in the Child Support Agency records of the cases waiting to be transferred from the old to the new scheme; [30047]

(3) how long he expects the work needed to bring records of Child Support Agency cases up to a standard acceptable for transfer to the new scheme to take; and if he will make a statement; [30048]

(4) what proportion of the anomalies, inaccuracies and incomplete data contained in the Child Support Agency records of the cases waiting to be transferred from the old to the new scheme require human intervention; and if he will make a statement. [30049]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions:

What percentage of the Child Support Agency cases waiting to be transferred from the old to the new scheme contain anomalies, inaccuracies or incomplete data. [30046]

How many anomalies inaccuracies and pieces of incomplete data are contained in the Child Support Agency records of the cases waiting to be transferred from the old to the new scheme. [30047]

How long he expects the work needed to bring records of Child Support Agency cases up to a standard acceptable for transfer to the new scheme to take; and if he will make a statement. [30048]

What proportion of the anomalies inaccuracies and incomplete data contained in the Child Support Agency records of the cases waiting to be transferred from the old to the new scheme require human intervention; and if he will make a statement. [30049]

Whilst the Agency does not have robust numbers for the type of cas[illegible] specified, we do know that a substantial proportion of the old scheme caseload will have corrupted data that needs to be corrected before cases are moved to the new scheme.

Work is being undertaken to identify and resolve the problems caused by issues with the data on old scheme cases as they move to the new system and as relevant cases get transferred to the new scheme. I regret that this work has not yet produced definitive answers to the questions you have asked.

I hope this is helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) how many non-resident parents were paying the flat rate of £5 child support per week in the latest period for which figures are available; and in how many cases these payments are being deducted from social security payments by the Child Support Agency; [30068]

(2) how many and what proportion of non-resident parents have a net income such that they pay child support maintenance *(a)* at the £5 flat rate and *(b)* on the taper for net income between £100 and £200. [37927]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions: how many non-resident parents were paying the flat rate of £5 child support per week in the latest period for which figures are available; and in how many cases these payments are being deducted from social security payments by the Child Support Agency.

You also asked how many and what proportion of non-resident parents have a net income such that they pay child support maintenance *(a)* at the £5 flat rate and *(b)* on the taper for net income between £100 and £200.

Due to the limitations of currently available new scheme management information, it is not possible to provide the number or proportion of non-resident parents with net income between £100 and £200. However, information can be provided about the number of parents paying child support maintenance at the £5 rate through analysis of maintenance calculations. This is presented below.

Under the new scheme, in most circumstances the minimum allowable calculation for a non-resident parent is £5.

However, if the non-resident parent (NRP) or their partner is on Income Support or Income Based Jobseekers Allowance, where their partner is also an NRP, then the total liability for them both is £5, split equally across both cases.

The NRP can also have a liability of less than £5 a week if they have children with more than one parent with care (PWC), but they do not share care with all of them. For example:

NRP X receives Incapacity Benefit, so is liable to pay the flat rate of £5.

They have two children cared for by PWC A and also one child with PWC B. Care is shared with PWC B only.

The £5 liability is apportioned according to the number of children so 2/3 (£3.33) goes to PWC A and 1/3 (£1.67) to PWC B.

But, because care is shared with PWC B, liability in this case is reduced to nil, meaning the NRP has a total liability of £3.33 in respect of PWC A.

Additionally, if the NRP had a nil assessment under the old scheme, has been reactively converted to the new scheme because of relevant links to a new scheme application, and received a new scheme assessment of £5 then, under phasing rules, the NRP would be liable to pay £2.50 for the first year rising to £5 thereafter.

It is therefore possible to have NRPs who are liable to pay £5 flat-rate, but whose current liability is less than £5. For this reason, the figures quoted in the table below also include those NRPs who are liable to pay the flat rate of maintenance, but whose current liability is less than £5.

Figures relating to the total number and proportion of NRPs assessed to pay maintenance at a level of £5 or less and whether or not this is scheduled to be collected via a deduction from benefit are presented below.

Child support new scheme flat rate maintenance assessment value by method of collection—September 2005

	Number of non-resident parents			
Value of assessment	*Method of collection via deduction from benefit*	*Other method of collection*	*Total*	*Percentage of all non resident parents*
£0.01 to £4.99	4,000	2,000	6,000	2
£5.00	59,000	15,000	74,000	29
Total (£0.01 to £5.00)	63,000	17,000	80,000	31

Volumes are rounded to the nearest thousand and percentages to nearest whole percent. Due to rounding, components may not sum to totals.

I hope you find this helpful.

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) how many requests for information Child Support Agency staff made in each month since 2001 in relation to Scottish claims; and what the average time taken to receive a response was; [31124]

(2) how many requests to HM Revenue and Customs for information regarding the income of non-resident parents for Scottish claims were made by the Child Support Agency in each month over the last three years; and what the average time taken to respond was; [31125]

(3) what estimate he has made of the proportion of time staff working on Scottish claims at the Child Support Agency spent *(a)* assessing levels of maintenance, *(b)* on enforcement activity and *(c)* on compliance activity in (i) 1998 and (ii) the latest period for which figures are available; [31126]

(4) what the average time was in Scotland between receipt of an application by the Child Support Agency and the granting of a warrant from a magistrate in each of the last five years; [31132]

(5) how many compensation payments have been made in Scotland by the Child Support Agency for maladministration since 1 January 1998; and how many of these exceeded *(a)* £1,000, *(b)* £10,000 and *(c)* £50,000; [31135]

(6) how many complaints relating to Scottish claims have been made to the Child Support Agency in each month since January 2003; [31140]

(7) what the latest estimate is of the time taken to take action on a Scottish Child Support Agency claim clerically; [31141]

(8) how many people have *(a)* been sent to prison and *(b)* lost their driving licence for a period of time for refusing to comply with the Child Support Agency in regard to Scottish claims in each quarter since 1995–96; [31143]

(9) how many staff handling Scottish claims *(a)* were employed by the Child Support Agency and *(b)* left the Child Support Agency in each of the last six years; [31146]

(10) what plans he has for Child Support Agency staff numbers handling Scottish claims for the period 2005 to 2008; [31148]

(11) what proportion of Child Support Agency staff handling Scottish claims have been working for the Agency for *(a)* less than one year and *(b)* less than two years; and if he will make a statement. [31149]

Mr. Plaskitt: Information requested is not available for Scotland.

Danny Alexander: To ask the Secretary of State for Work and Pensions how many penalties the Child Support Agency has issued in Scotland for *(a)* failure to provide information and *(b)* providing false information in each of the last eight years. [31128]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many penalties the Child Support Agency has issued in Scotland for *(a)* failure to provide information and *(b)* providing false information in each of the last eight years.

The new criminal sanctions under Scottish law were only introduced from 31 January 2001:

Pursuant to a request for information, making a statement or representation knowing it to be false (section 14A(2)*(a)*); and

Providing or knowingly causing or knowingly allowing to be provided a document or other information which is known to be false in a material particular (section 14A(2)*(b)*).

Failing to comply with a request for information without reasonable excuse (section 14A(3) of the Child Support Act 1991).

A person guilty of an offence under this section is liable on summary conviction to a fine not exceeding level 3 on the standard scale (i.e. a fine not exceeding £1000)

The information requested is set out in the attached tables. I hope this will be helpful.

Child support agency criminal compliance prosecution cases under Scottish law

	14A(2) cases prosecuted under Scottish law	*Cases convicted*
Section 14A(2)—Providing the agency with false information		
April 2001 to March 2002	0	0
April 2002 to March 2003	0	0
April 2003 to March 2004	0	0
April 2004 to March 2005	1	1
April 2005 to October 2005	0	0
Total	1	1

	14A(3) cases prosecuted under Scottish law	*Cases convicted*
Section 14A(3)—Failure to provide the agency with required information		
April 2001 to March 2002	0	0
April 2002 to March 2003	0	0
April 2003 to March 2004	1	1
April 2004 to March 2005	2	1
April 2005 to October 2005	4	4
Total	7	6

Danny Alexander: To ask the Secretary of State for Work and Pensions what proportion of parents with care in Scotland on income support and income-based jobseeker's allowance has received Child Support Agency maintenance in each reporting period since 1999–2000. [31139]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what proportion of parents with care in Scotland on income support and income-based jobseeker's allowance have received Child Support Agency maintenance in each reporting period since 1999–2000.

It is currently only possible to provide Scotland specific information for cases operating on the old computer system prior to the introduction of the new scheme in March 2003. Available figures are presented in the attached table.

I hope you find this helpful.

Proportion of parents with care in Scotland on Income Support and income based jobseeker's allowance receiving maintenance between February 1999 and February 2003

	Percentage
February 1999	23
May 1999	24
August 1999	24
November 1999	25
February 2000	24
May 2000	24
August 2000	24
November 2000	24
February 2001	23
May 2001	24
August 2001	24
November 2001	23
February 2002	23
May 2002	23
August 2002	23
November 2002	23
February 2003	23

Notes:

1. Percentages rounded to the nearest whole number.
2. Robust information covering the period from March 2003 to date is not currently available for new scheme cases, and old scheme cases on the new computer system.
3. The methodology used to produce these statistics is consistent with that used in the measurement of the Department's public service agreement target in this area. Namely, all those cases with a child maintenance calculation or assessment where the parent with care is on income support or income based jobseeker's allowance (including those with a nil liability) who are in receipt of maintenance.

Danny Alexander: To ask the Secretary of State for Work and Pensions on how many occasions payments have been made in Scotland under the authority of the *(a)* Chief Executive and *(b)* the Deputy Chief Executive of the Child Support Agency but without their personal written authorisation; how much these payments have amounted to; and for what reasons they were made.[31142]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions on how many occasions payments have been made in Scotland under the authority of the *(a)* Chief Executive or *(b)* the Deputy Chief Executive of the Child Support Agency but without their personal written authorisation; how much these payments have amounted to; and for what reasons they were made.

All payments made by officers of the Child Support Agency are made under the authority of the Chief Executive as the Accounting Officer for the Agency—this includes all payments made in Scotland. There are delegated authority levels and controls in place throughout the Agency to support these arrangements. In certain exceptional circumstances, the personal written authorisation of the Chief Executive or his Deputy is required before payment of redress can be made.

I hope that this information is helpful.

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) how many and what proportion of applications for child maintenance support from people in Wales were awaiting processing at the end of each year since 1997; and if he will make a statement; [39468]

(2) what the average time was for processing child maintenance support cases originating in Wales in each year since 1997; and if he will make a statement; [39469]

(3) how many and what proportion of applications for child maintenance support from people in Wales took *(a)* under one month, *(b)* between one and three

months, *(c)* between three and six months, *(d)* between six and 12 months and *(e)* over a year to process in each year since 1997; and if he will make a statement. [39470]

Mr. Plaskitt: The information can not be provided at the geographical level requested.

Jenny Willott: To ask the Secretary of State for Work and Pensions how many compensation payments to Welsh claimants have been made by the Child Support Agency for maladministration since 1997; what proportion of total claims for child maintenance support this represents; and how many exceeded *(a)* £1,000, *(b)* £10,000, *(c)* £50,000 and *(d)* £90,000; and if he will make a statement. [39471]

Mr. Plaskitt: The information requested is not available broken down by nationality, including for Welsh claimants.

Child Support Agency

Anne Milton: To ask the Secretary of State for Work and Pensions (1) what the target time for the processing of Child Support Agency applications is; [17688]

(2) what percentage of Child Support Agency applications were processed within the target time in the most recent period for which figures are available; [17689]

(3) how many Child Support Agency applications are being processed; [17690]

(4) how many Child Support Agency applications being processed were received *(a)* more than six months ago and *(b)* more than one year ago; and if he will make a statement. [17691]

Mr. Plaskitt: The Child Support Agency currently has no set target for processing applications because of its current and well documented backlog position.

The available information on the volumes and time taken to process outstanding Child Support Agency applications is in the table.

Time taken to process outstanding Child Support Agency applications

	Number of cases[1]
Potential new-scheme applications yet to be cleared	264,000
Of which:	
Received in the last six months	50,000
Received between six months and a year ago	35,000
Received more than a year ago	96,000
Unknown[2]	85,000
Old-scheme cases yet to be cleared[3]	75,000
Total number of cases yet to be cleared	339,000

[1] Numbers are rounded to the nearest 1,000. Numbers may not sum due to rounding.

[2] There are currently 85,000 potential new-scheme applications that have come through Job Centre Plus, which are yet to be cleared, and for which management information is not currently available.

[3] The new scheme became operational in March 2003. Therefore, all old-scheme cases yet to be cleared were, by definition, received more than a year ago.

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) in what proportion of Child Support Agency cases no payments have ever been made in each year since 2000–01; [21434]

(2) what proportion of Child Support Agency applications under the new scheme rules resulted in maintenance payments being made in the latest period for which figures are available; and if he will make a statement. [21441]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive, as Stephen Geraghty is on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, in what proportion of Child Support Agency cases no payments have ever been made in each year since 2000–01.

You also asked what proportion of Child Agency applications under the new scheme rules resulted in maintenance payments being made in the latest period for which figures are available; and if he will make a statement.

The information requested is only available for new-scheme cases on a scheme-to-date basis.

At the end of September 2005, of the 202,000 cases where the initial assessment indicated maintenance was due, 72 per cent. had either received one or more payments via the collection service, or a Maintenance Direct arrangement had been put in place. Conversely, 28 per cent. had yet to receive any payment.

I hope you find this helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many Child Support Agency (CSA) cases under the new CSA scheme have been *(a)* received, *(b)* cleared and *(c)* closed without payments being made. [21437]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions;

How many Child Support Agency (CSA) cases under the new CSA scheme have been *(a)* received *(b)* cleared and *(c)* closed without payments being made.

As at the end of September 2005, since the new scheme began the Agency has received 755,000 applications, of which 494,000 (65 per cent.) had been cleared. Of those applications cleared, 219,000 (44 per cent.) had a calculation and payment arrangement in place, of which 202,000 resulted in a positive liability, with the remainder having nil calculations. The remaining 276,000 (56 per cent.) were cleared prior to the point at which maintenance was calculated, and hence before any payment was made. Of this latter group, 236,000 cases were closed and 40,000 identified as either claiming good cause, being subject to a reduced benefit decision or a change of circumstances in relation to an existing case (as opposed to a new calculation).

It should be noted that an application is defined as cleared if the case is closed, a maintenance calculation has been carried out and a payment arrangement between the parent with care (PWC) and the non-resident parent is in place. In addition, an application is also counted as cleared if the PWC is identified as claiming Good Cause, the PWC is subject to a Reduced Benefit Decision or the application is identified as being a change of circumstances on an existing case as opposed to a new application.

The figures included in this response have been rounded to the nearest thousand.

I hope you find this information helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) how many Child Support Agency cases were awaiting a decision in each month between October 2004 and October 2005; [21444]

(2) what the backlog of Child Support Agency cases has been under *(a)* the old system and *(b)* the new system for each month from January 2004 to October 2005; and if he will make a statement; [21581]

(3) what the total backlog of cases awaiting processing is under the new Child Support Agency scheme calculation for each month since June 2003; and if he will make a statement. [21853]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what the total backlog of cases awaiting processing under the new Child Support Agency scheme calculation for each month since June 2003 is; how many Child Support Agency cases were awaiting a decision in each month between October 2004 and October 2005 and what the backlog of Child Support Agency cases has been under *(a)* the old system and *(b)* the new system for each month from January 2004 to October 2005.

The table below sets out the number of uncleared cases for each month for which information is currently available:

	2005								
	January	*February*	*March*	*April*	*May*	*June*	*July*	*August*	*September*
New Scheme	259,000	264,000	266,000	266,000	265,000	263,000	263,000	264,000	261,000
Old Scheme	103,000	92,000	87,000	86,000	82,000	78,000	76,000	75,000	73,000
Total Agency	362,000	357,000	353,000	352,000	346,000	341,000	340,000	339,000	333,000

Notes:

1. Figures are rounded to the nearest thousand.
2. Information for new and old-scheme cases on the new computer system is not currently available between March 2003 and December 2004, therefore volumes for this period cannot be provided.
3. At September, 32,000 old-scheme cases were suspended on the old computer system, principally because the Agency has been unable to trace the non-resident parent. Similar types of cases will also exist for both new and old-scheme cases on the new computer system, the volumes of which cannot currently be quantified.

I hope you find this helpful

Education and Training

Sarah McCarthy-Fry: To ask the Secretary of State for Work and Pensions (1) what measures are in place to enable young people between the ages of 19 and 25 years who are living independently and claiming jobseeker's allowance to participate in further education and training; [33440]

(2) what measures are in place to ensure that young people participating in the new deal are encouraged to take part in education and training, with particular reference to A-level courses. [33442]

Margaret Hodge: Young people claiming Jobseeker's Allowance (JSA) who are interested in further education and training can receive advice and guidance from Jobcentre Plus Advisers on education and training opportunities, including details of educational establishments that provide A Level courses. A condition of claiming JSA is that recipients continue to make themselves available for and actively seek work, so any education or training undertaken must comply with conditions for continuing to receive JSA.

Young people aged 18–24 who have been claiming JSA for six months are required to participate in the mandatory new deal for young people (NDYP) programme. The primary aim of NDYP is to help move people into sustainable work as quickly as possible, however, participants on the programme may access education and training opportunities through the full-time education and training (FTET) option.

FTET courses assist new deal participants in achieving vocational qualifications at or equivalent to S/NVQ level 2. They are not designed to compete with qualification courses run by further education establishments, for example GCSE or A level courses. FTET provision is delivered across a wide range of employment sectors for varying lengths of time and is tailored to the needs of the individual and local employers. People aged 25 and over who have been claiming JSA for 18 out of the last 21 months are required to join the mandatory new deal 25 plus (ND25 plus) programme. The employment and training option (ETO) within new deal 25 plus provides participants with the opportunity to acquire the formal qualifications, generally up to and including S/NVQ Level 3, that may be necessary for them to their particular jobs or occupational sectors. Personal advisers can approve early entry to both NDYP and ND25 plus for some people if this is appropriate to their needs.

Some eligible young people may also participate on other new deal programmes. People on new deal for lone parents (NDLP), which is a voluntary programme, have access to a range of new deal training opportunities, including the NDYP FTET option, or may participate in other approved training. They can have access to this help from the first day of joining the programme. Normally NDLP funding can only be used for education and training courses up to NVQ/SNVQ Level 2 or equivalent. However, where it is clear that a lone parent can achieve an NVQ/SNVQ Level 3 in a year (for example where they have the appropriate qualification levels in the subject) funding could be considered. In all cases Advisers must consider whether the training will lead to sustainable employment.

New deal for disabled people (NDDP), which is also a voluntary programme, is designed to support people in receipt of disability or health-related benefits in finding and sustaining paid employment. Although NDDP Job

Brokers work closely with providers of training, they usually focus on vocational training which would not normally incorporate further education qualifications such as A-level courses.

Finally, young people may also participate on the voluntary new deal for partners programme which offers partners of people claiming certain benefits support in tackling barriers to work. Partners are eligible to join the programme from the first day of the claim and can be referred to the FTET option of NDYP or the ETO Option of ND25 plus, or other suitable training which will improve their job readiness.

People aged 18–24 are also eligible for LSC modern apprenticeship training where the young person is employed, paid a wage and given the training needed to gain a qualification.

Industrial Injuries Scheme

Mr. Laws: To ask the Secretary of State for Work and Pensions how many recipients of industrial injuries benefit there have been in each of the last 10 years; and how much the benefit has cost in *(a)* cash and *(b)* real terms over the same period. [40471]

Margaret Hodge: The available information is in the tables.

Industrial injuries disablement benefit assessments in Great Britain

	Number
1995–96	240.7
1996–97	253.7
1997–98	265.2
1998–99	274.2
1999–2000	276.9
2000–01	276.3
2001–02	273.7
2002–03	267,125
2003–04	266,475
2004–05	267,145

Notes:
1. Number of assessments at the end of each statistical year (end of March).
2. A person may be in receipt of more than one assessment (up to the end of 2001–02).
3. Figures from 1995–96 to 2001–02 are based on a 10 per cent. sample, and are in thousands.
4. Figures from 2002–03 are from the Industrial Injuries Computer System, and present a 100 per cent. sample of recipients (not assessments).

Expenditure on industrial injuries benefits in nominal terms

	Industrial disablement benefits	*Industrial death benefit*	*Other industrial injuries benefits*	*Total industrial injuries benefits*
1995–96 outturn	670	58	3	731
1996–97 outturn	685	55	3	743
1997–98 outturn	690	55	2	747
1998–99 outturn	710	49	2	761
1999–2000 outturn	700	52	2	753
2000–01 outturn	708	49	2	759
2001–02 outturn	727	49	2	778
2002–03 outturn	733	48	2	783
2003–04 estimated outturn	737	46	1	783
2004–05 plans	751	43	1	795

Expenditure on industrial injuries benefits in real terms (2005–06 prices)

	Industrial disablement benefits	*Industrial death benefit*	*Other industrial injuries benefits*	*Total industrial injuries benefits*
1995–96 outturn	859	74	4	937
1996–97 outturn	848	69	3	920
1997–98 outturn	830	66	3	898
1998–99 outturn	832	58	2	892
1999–2000 outturn	804	59	2	866
2000–01 outturn	803	56	2	861
2001–02 outturn	806	54	2	862
2002–03 outturn	786	52	2	840
2003–04 estimated outturn	770	48	1	819
2004–05 plans	768	45	1	814

Notes:
1. Figures are given in millions.
2. Totals may not sum due to rounding.
3. Expenditure for 2004–05 reflects the latest benefit-by-benefit estimate of outturn, and not the amounts voted by Parliament.

Jobcentres (Tower Hamlets)

Mr. Galloway: To ask the Secretary of State for Work and Pensions (1) for what reasons his Department has changed the provisions and incentives that are available from the publicly-run job centres in the London borough of Tower Hamlets; [36364]

(2) what changes to staffing at the local jobcentres in the London borough of Tower Hamlets will be made as a result of contracting out work to private contractors. [36365]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 10 January 2006:

The Secretary of State has asked me to reply to your questions asking for what reasons his department has reduced the provisions and incentives that are available from the publicly-run jobcentres in the London Borough of Tower Hamlets; and what changes to staffing at the local jobcentres in the London borough of Tower Hamlets will be made as a result of contracting out work to private

contractors. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

As part of a national modernisation programme we are improving services offered to the residents of Tower Hamlets. The City Jobcentre Plus Office opened on 8 November to provide the full range of services to residents and the Poplar Jobcentre Plus office will open in the New Year. In addition the Employment Zones, established in the borough in April 2000, provides specialist provision for unemployed adults aged 25 and over and the Working Neighbourhood pilot is an additional service in recognition of the fact that some residents of Tower Hamlets need extra help to gain employment.

There has been no reduction in staffing levels in Tower Hamlets' Jobcentre Plus offices as a result of the introduction of the Employment Zones or the Working Neighbourhood pilot.

I hope this is helpful.

New Deal

Mr. Rooney: To ask the Secretary of State for Work and Pensions (1) how many lone parents *(a)* were referred to and *(b)* accessed training after participating in the new deal for lone parents in each month between January 2004 and October 2005; [35285]

(2) what the average value was of awards made from the Advisers Discretionary Fund to lone parents participating in the new deal for lone parents in each month between January 2004 and October 2005; [35286]

(3) how many lone parents entered employment after participation in the new deal for lone parents in each month between January 2004 and October 2005; and how many Advisers Discretionary Fund Awards were made to lone parents participating in the new deal for lone parents in each month between January 2004 and October 2005. [35287]

Margaret Hodge *[holding answers 6 December 2005]:* New deal for lone parents (NDLP) is a voluntary programme which is available to lone parents who are not working, or working less than 16 hours a week. New deal personal advisers provide offer lone parents advice with job seeking, training, in-work benefits and childcare, and the programme has already been successful in helping more than 410,000 lone parents into work.

The available information on the number of lone parents undertaking training through new deal for lone parents in each month from January 2004 is in the table.

Training participants on new deal for lone parents

Month of first education/training start	*Number of lone parents*
January 2004	460
February 2004	310
March 2004	180
April 2004	480
May 2004	340
June 2004	290
July 2004	370
August 2004	260
September 2004	600
October 2004	450
November 2004	330
December 2004	180
January 2005	330
February 2005	210
March 2005	320
April 2005	380
May 2005	290
June 2005	210
July 2005	230
August 2005	110
Total	6,320

Notes:

1. Information on the number of lone parents referred to training through new deal for lone parents is not available.
2. Latest data is to August 2005.
3. Data is rounded to the nearest 10.

Source:

Information Directorate, DWP

A total of 180,287 Adviser Discretion Fund awards averaging £99.26 were made to participants on new deal for lone parents between January 2004 and October 2005.

Information broken down by each month is in the table.

Adviser discretion fund awards to participants on new deal for lone parents

January 2004-October 2005	*Number of awards*	*Average value of awards (£)*
January 2004	8,332	109.46
February 2004	7,745	106.99
March 2004	8,829	107.62
April 2004	8,716	106.56
May 2004	8,164	104.72
June 2004	7,705	107.45
July 2004	9,769	104.12
August 2004	7,969	108.99
September 2004	12,479	107.78
October 004	10,901	105.67
November 2004	10,330	104.71
December 2004	7,011	105.59
January 2005	8,010	103.62
February 2005	9,713	99.17
March 2005	9,981	97.39
April 2005	8,541	99.47
May 2005	6,952	85.25
June 2005	6,602	77.51
July 2005	5,011	79.77
August 2005	4,274	75.74
September 2005	7,215	71.23
October 2005	6,038	71.78

Notes:

1. It is possible for participants on new deal for lone parents to receive more than one award from the Adviser Discretion Fund.
2. The amount of Adviser Discretion Fund available to a customer within a 12 month period was reduced from £300 to £100 from 9 May 2005.

Information Directorate, DWP

Outsourced Programmes

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions what the administration costs are for each outsourced employment programme; and what percentage of total expenditure on the programme this represents in each case. [27867]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the right hon. and learned Member.

Letter from Leslie Strathie, dated 10 January 2006:

The Secretary of State has asked me to reply to your question concerning the administration cost for each outsourced employment programme, and what percentage this represents of the total expenditure for each programme. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The available information is set out in the table below.

Administrative expenditure on New Deal and action teams

	Start date of programmes	*Administration expenditure (£ million)*	*Percentage of start date of programmes total expenditure*
New Deal for Young People 25 plus	January 1998/July 1998	878	30
New Deal 50 plus	April 2000	28	10
New Deal for Lone Parents	October 1998	201	73
New Deal for Disabled People	July 2001	51	42
New Deal for Partners	April 1999	32	91
Action Teams	June 2000	59	39

Notes:
1. Figures are from the start of the programme to 2003–04.
2. The administrative expenditure figures include the costs attributable to personnel adviser salaries and staff costs. In 2003–04 approximately 5,500 personnel advisers were employed on New Deal and Action Team activities. Other administrative expenditure includes the cost of developing the programmes and support functions.

I hope this is helpful.

Pensioners

Mr. Laws: To ask the Secretary of State for Work and Pensions how many and what proportion of *(a)* single men, *(b)* single women and *(c)* couples aged 75 years or over would (i) be floated off pension credit, (ii) remain in receipt of guarantee credit and (iii) become eligible for savings credit were a full basic state pension to be made payable to them in (A) 2005–06, (B) 2010, (C) 2020, (D) 2030, (E) 2040 and (F) 2050. [35373]

Mr. Timms: The information is in the table.

Notes:

1. Projections for numbers in all the tables have been rounded to the nearest 10,000 and for proportions to the nearest 5 per cent. They are subject to a wide margin of error and should be used as broad indications only.
2. These estimates are based on a long term version of the Department's Policy Simulation Model, which uses Family Resources Survey data for 2003–04 projected forward into the future to estimate the extent of eligibility for each pensioner household on the survey.
3. A dash in the data represents numbers that are negligible.
4. Couples include those with at least one member aged 75 or over.
5. The proportions floated off pension credit are in relation to those who are projected to be in receipt of pension credit if the change in BSP had not occurred.
6. The proportions that remain in receipt of guarantee credit are in relation to those who are projected to be in receipt of guarantee credit if the change in BSP had not occurred.
7. The proportions that become eligible for savings credit are in relation to those who are projected to be in receipt of guarantee credit only, if the change in BSP had not occurred.

Pensions Commission

Lynne Featherstone: To ask the Secretary of State for Work and Pensions what the timetable is for *(a)* responding to the Pensions Commission's report and *(b)* legislating on pensions reform; and if he will make a statement. [40223]

Mr. Timms: The Government plan to publish a White Paper in the spring in response to the Pensions Commission's report. This will set out what legislation will be needed and a planned timetable for reforms.

Pension Credit

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions how many calls were made by his Department's staff to pensioners in Beverley and Holderness regarding take-up of the pension credit in each of the last 12 months. [40317]

Mr. Timms: The information requested is not available. The Pension Service does not collate such data at constituency level.

Written Answers to Questions

Wednesday 11 January 2006

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Administrative Savings

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs what administrative savings have been made by her Department in each of the last eight years. [34950]

Jim Knight: Information on gross and net controlled administration costs underspends for Whitehall Departments is published in the Public Expenditure Outturn White Papers for the relevant years. These are available in the Library of the House.

DEFRA has also agreed efficiency targets, financial and staff, for the Spending Review 2004 period. These are set out in the Efficiency Technical Note which was published on DEFRA's website on 5 December 2005. It can be found at:

http://www.defra.gov.uk/corporate/busplan/efficiencynote-0511.pdf.

Apiculture

Damian Green: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect on the UK honey bee population of the reduction in the National Bee Unit's budget. [39411]

Jim Knight: The Department has not reduced its expenditure with the National Bee Unit.

Damian Green: To ask the Secretary of State for Environment, Food and Rural Affairs how many seasonal bee inspectors she expects to be employed by her Department in *(a)* January 2006 and *(b)* January 2007. [39412]

Jim Knight: Bee inspectors are employed by the National Bee Unit, which is part of the Central Science Laboratory, a Defra agency. The Unit expects to employ 28 seasonal bee inspectors in England in 2006 and 2007, unchanged from the number employed during 2005.

Bottom Ash Incinerator

Mr. Grieve: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the risk assessment carried out by the Environment Agency in relation to the use of Incinerator Bottom Ash in the Tesco construction site at Gerrards Cross, Buckinghamshire; and if she will make a statement.[38939]

Mr. Bradshaw *[holding answer 20 December 2005]:* Incinerator bottom ash aggregates were being used as a secondary construction material in the Tesco construction site of Gerrards Cross, Buckinghamshire under an exemption from waste management licensing. The Environment Agency does not normally carry out a risk assessment itself on exempted activities as they are considered low risk, but does check whether the information provided by the operators of the activity meets the terms and conditions of the exemption.

Jacksons Civil Engineering Ltd. notified the Environment Agency of the use of this material in construction of the Tesco site, Gerrards Cross, as an exempt activity under the Regulations. The notification included a risk assessment provided by the producers of the aggregate. In accordance with Environment Agency policy, this document has been placed on the public register at their Hatfield Office (North East Area Office, Apollo Court, 2 Bishops Square Business Park, St. Albans Road West, Hatfield, Hertfordshire. AL109EX).

Climate Change

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs which bodies are funded by her Department which are concerned with climate change; and how much funding these bodies received in 2003–04. [39724]

Mr. Morley *[holding answer 10 January 2006]:* The two key bodies funded by Defra to combat climate change are the Energy Saving Trust and the Carbon Trust. Total expenditure in 2003–04 by the Department on the Carbon Trust was £52.4 million and on Energy Saving Trust £29.8 million (including the Community Energy Programme).

The Department also funds a number of research contracts relating to climate change. The total value of these in 2003–04 was £13.5 million. These include around £9.9 million for the Hadley Centre (part of the Meterological Office) and around £0.6 million funding to Oxford University for the UK Climate Impacts Programme.

In addition the Environment Agency contributes to mitigation of greenhouse gases through its regulation of emissions and to society's adaptation to the impacts of climate change, notably by flood risk management. However, it is not possible to assess the proportion of the Agency's £1 billion per annum budget (60 per cent. of which is funded by Grant-in-Aid from Defra) that can specifically be attributed to climate change work.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding the Government spent in 2003–04 on climate change adaption. [39725]

Mr. Morley *[holding answer 10 January 2006]:* The Government has no specific overall budget for adaptation to climate change. In many fields, adaptation to climate change is in its early stages and in general would be an incremental element of existing programmes. No detailed assessment has been made of the scale of this additional work.

The Department is currently consulting on the development of the Government's Adaptation Policy Framework, an exercise that includes collation of a database of policies, measures and programmes that are already taking account of adaptation requirements. The results of this consultation exercise will be reported later in 2006.

The answer given on 3 March 2005, *Official Report*, column 1275W, detailed the Department's spending in 2003–04 on research into the impacts of climate change and the identification of adaptation and mitigation options.

Departmental Costs

Mr. Salmond: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* salary bill was and *(b)* administrative costs were for her Department in (i) each (A) nation and (B) region of the UK and (ii) London in 2004–05. [35878]

Jim Knight: The administration budgets regime overseen by the Treasury relates to Whitehall Departments only. How administration costs are controlled in the devolved Administrations is a matter for them. We do not monitor regional or central London administration costs separately.

The most recent Public Expenditure Outturn White Paper (CMD 6639) records provisional 2004–05 departmental administration costs outturn. The DEFRA departmental report contains the estimated 2004–05 pay bill outturn.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on advertising by *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by her Department in each year since May 1997. [39076]

Jim Knight: The Department does not maintain separate records of its expenditure for advertising. The expenditure for publicity by Defra's Communications Directorate includes marketing, advertising, publications, events, shows and direct mailings and is recorded for the financial years since Defra's creation in June 2001 as follows:

	£ million
2001–02	6.6
2002–03	4.7
2003–04	2.5
2004–05	4.2

This includes communications on a wide range of matters, much of it necessary or beneficial to the public and the wide range of industries in which Defra has an interest, together with local government, voluntary organisations and other bodies.

Individual records of advertising spend for Defra's NDPBs, agencies and financially sponsored organisations are not held centrally and could be obtained only at disproportionate cost.

Norman Lamb: To ask the Secretary of State for Environment, Food and Rural Affairs how many widescreen televisions have been purchased by her Department for use in London Headquarters in each of the last five years; and what the cost was in each year. [39138]

Jim Knight: The following table summarises the Department's rounded expenditure on widescreen televisions across the London headquarters estate since the beginning of the financial year 2001–02.

	Quantity	*Cost (£)*
2001–02	—	—
2002–03	—	—
2003–04	1	1,400
2004–05	7	10,900
2005–06	15	22,520

Departmental Staff

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs how many civil servants in her Department worked from home for at least one day a week in the last year for which figures are available. [40291]

Jim Knight: No specific data is held by the Department on the precise extent of home working by staff. However, the practice appears to be on the increase now that we are promoting smart working and new, flexible, working practices (including home working). Recent staff survey data shows that 83 percent. of staff believe they are encouraged to work flexibly. Whilst these approaches are designed to improve the way we do business and deliver more efficiently, data from the same survey shows that 67 percent. of staff said they were able to achieve the optimum work/life balance.

Digital Mapping

Mr. Jenkin: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to date is of the Rural Payments Agency's digital mapping exercise; how many staff have been employed for the exercise; at what cost; what the cost of the digital mapping software was; and what the annual running costs of the digital mapping exercise are. [40395]

Jim Knight *[holding answer 9 January 2006]:* Following the launch of the Rural Land Register in September 2004 the level of demand was higher than anticipated and this has affected the running costs for the first year.

The approximate cost of establishing and running the Rural Land Register to date is £16.4 million.

The approximate total number of staff including agency staff employed by the Rural Payments Agency for varying durations has been 865 at an approximate cost of £7.3 million.

The cost of the digital mapping software was £0.4 million.

The estimated annual running costs of the digital mapping exercise is £1.9 million.

Energy Consumption

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs if she will require local authorities to follow the example of Woking borough council in reducing energy consumption. [34481]

Mr. Morley: Placing a requirement to act on local authorities would require the Government to fully fund this as a new burden. The Government cannot commit to beginning a programme of investment that had not been planned for. Neither Government nor local councils have made provision for such a programme.

However many local authorities are already actively reducing energy consumption, both in their own operations and in the communities they serve. Through the beacon council theme on sustainable energy the Government are ensuring that good practice is shared. Woking borough council was granted Beacon Council Status for its work on Sustainable Energy in 2005

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Management Committees of the common organisation of agricultural markets for cereals, *(b)* Management Committees of the common organisation of agricultural markets for dehydrated fodder and *(c)* Management Committees of the common organisation of agricultural markets for sugar have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement. [38784]

Mr. Morley: The Cereals Management Committee normally meets on a weekly basis in Brussels. The dates of meetings held during the UK presidency of the EU and the items discussed can be viewed at the following internet address:

http://europa.eu.int/comm/agriculture/minco/manco/cereals/index.htm.

The Dried Fodder Management Committee met for the last time on 14 July 2005 in Brussels. A summary of the items discussed can be viewed at the following internet address:

http://europa.eu.int/comm/agriculture/minco/manco/feed/index.htm.

In future, dried fodder issues will fall within the remit of the Cereals Management Committee.

The Sugar Management Committee meets on either a fortnightly or weekly basis, depending on the time of year, in Brussels. The dates of meetings held during the UK presidency and the items discussed can be viewed at the following internet address:

http://www.europa.eu.int/comm/agriculture/minco/manco/sugar/index.htm

The European Commission provides the Chair for each of these Committees. The UK is represented by officials from Defra and additionally, as necessary, by officials from the Rural Payments Agency and other UK Agriculture Departments.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Management Committees of the common organisation of agricultural markets for oils and fats, *(b)* Management Committees of the common organisation of agricultural markets for natural fibres and *(c)* Management Committees of the common organisation of agricultural markets for milk and milk products have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved Governments; and if she will make a statement. [38786]

Jim Knight: The information is as follows:

(a) On 1 November the Management Committee for Fats and Oils became the Olive Oil Management Committee. It meets every month so during the UK presidency there have been six meetings. There was also a meeting when a vote was taken in the margins of another Management Committee. The meetings were chaired by European Commission officials. A Defra official represented the UK at each meeting. Reports of these meetings are copied to devolved administrations for information and comments.

(b) The Management Committee of the common organisation of agricultural markets for natural fibres met three times in the period: 5 September 2005, 17 November 2005, and 29 November 2005. The meetings were chaired by European Commission officials. Defra officials represented the UK at each meeting. Reports of these meetings are copied to members of the devolved administrations for information and comments.

(c) The Milk Management Committee met on 14 and 28 July, 25 August, 15 and 29 September, 13 and 27 October, 10 and 24 November, 15 December. The meetings were chaired by European Commission officials. Defra officials represented the UK at each meeting. Reports of these meetings are copied to members of the devolved administrations for information and comments, and during 2005 officials from the Welsh Assembly Government Environment, Planning and Countryside Department have attended as observers when subjects of particular interest were discussed.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Committees of the common organisation of agricultural markets for beef and veal, *(b)* management committees of the common organisation of agricultural markets for sheep and goats and *(c)* management committees of the common organisation of agricultural markets for pigmeat have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved Governments; and if she will make a statement. [38788]

Jim Knight: The Beef and Veal Management Committee normally meets on a monthly basis in Brussels and is chaired by European Commission officials. The dates of meetings held during the UK presidency and the items discussed can be viewed at the following internet address: http://europa.eu.int/comm/agriculture/minco/manco/beef/index.htm

The UK was represented at these meetings by officials from Defra. Officials from the Rural Payments Agency and other UK Agriculture Departments attend as necessary but did not do so during the UK presidency.

The Sheep and Goat Management Committee met twice during the UK presidency (on 16 November and 7 December). Both meetings were chaired by European Commission officials. The UK was represented by Defra officials.

The Pigmeat Management Committee met during the UK presidency of the EU on 13 July, 20 September, 19 October, 16 November and 7 December 2005. Meetings were chaired by European Commission officials. The UK was represented by one official from Defra. The devolved authorities were consulted on agenda items prior to each meeting, and receive reports and papers shortly after each meeting.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU Committee on *(a)* geographical indications and protected designations of origin for agricultural products and foodstuffs, *(b)* certificates of specific character for agricultural products and foodstuffs and *(c)* organic production of agricultural products and indications referring thereto on agricultural products and foodstuffs have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved Governments; and if she will make a statement. [38822]

Jim Knight: The information is as follows:

(a) The Regulatory Committee on protected geographical indications and protected designations of origin for agricultural products and foodstuffs met twice in the period: 4 October 2005 and 6 December 2005. Both meetings were chaired by an official from the European Commission. Two Defra officials represented the UK at each meeting. Arrangements are in place to consult with the devolved administrations on the business conducted by the Regulatory Committee.

(b) The Regulatory Committee on Certificates of Specific Character met once in the period: on 4 October 2005. The meeting was chaired by an official from the European Commission. Two Defra officials represented the UK. Arrangements are in place to consult with the devolved administrations on the business conducted by the Regulatory Committee.

(c) The Standing Committee on Organic Farming met three times in the period; on 1 July 2005, 26 September 2005 and 30 November/1 December 2005. The Committee is chaired by an official of the European Commission. Officials from Defra represent the UK. Arrangements are in place for consultation with the devolved administrations on the business conducted by the Standing Committee.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* management committees of the common organisation of agricultural markets for seeds, *(b)* management committees of the common organisation of agricultural markets for live plants and floriculture products and *(c)* management committees of the common organisation of agricultural markets for bananas have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement. [39012]

Jim Knight: Meetings of the Bananas Management Committee were held on 12 July, 15 November, 29 November and 13 December 2005. All four meetings were held in Brussels, chaired by officials of the European Commission and attended by Defra officials.

There were no meetings of the Management Committees of the common organisation of the markets for seeds or live plants and floriculture products during the UK presidency.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government).

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many meetings of the EU *(a)* Implementation Committee for spirit drinks, *(b)* Implementation Committee on aromatised wine-based drinks and *(c)* Joint Meetings of Management or regulatory committees in the field of agriculture—promotion of agricultural products have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if she will make a statement. [39014]

Mr. Bradshaw: The Spirit Drinks Implementation Committee met once and the Joint Management Committee for the Promotion of Agricultural Products four times during the UK presidency of the EU. The Aromatised Wine Implementation Committee did not meet at all and has not done so since 2002.

The Spirit Drinks Implementation Committee meeting took place on 27 September 2005. Two DEFRA officials represented the UK. The Joint Management Committee for the Promotion of Agricultural Products meetings took place on 19 July 2005, 28 September 2005, 30 November 2005 and 21 December 2005. A DEFRA official represented the UK at July and September's meetings and a DEFRA official and a Rural Payments Agency official did so at November's meeting. Two Rural Payments Agency officials attended December's meeting. All of these meetings were presided over by European Commission officials.

The UK Government takes into account the views and interests of the devolved Administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved Administrations is set out in paragraphs B4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the

devolved Administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister. A copy is available on the internet at:
www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Institute of Grassland and Environmental Research

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list her Department's contractual obligations to the Institute of Grassland and Environmental Research in each of the last 10 years. [39396]

Mr. Morley: Defra has committed funds for Research and Development projects to the Institute of Grassland and Environmental Research over the 10 year period in question as follows:

	£ million
1996–97	6.875
1997–98	6.082
1998–99	6.318
1999–2000	6.437
2000–01	6.275
2001–02	6.040
2002–03	6.339
2003–04	6.537
2004–05	6.996
2005–06	[1]6.383)

[1] Provisional

Details of the projects funded, including individual project costings and the final reports from completed projects, are available on the Defra website at:

http://www2.defra.gov.uk/research/project data/Default.asp.

National Flood Forum

Mr. Keetch: To ask the Secretary of State for Environment, Food and Rural Affairs what criteria were taken into account when deciding to discontinue funding of the National Flood Forum; and if she will make a statement. [40753]

Mr. Morley: Defra has policy responsibility for flood risk management in England. The Environment Agency is the principal operating authority with responsibility for flood risk management in England.

I understand the Agency has agreed with the National Flood Forum Board of Directors that their core funding from the Agency will be phased out over a three-year period from December 2004 to ensure the Forum's independence from a single funding source, and allow it to establish a broader funding base. The Agency will continue to provide funding for the Forum on a project by project basis.

Parliamentary Questions

Mr. Dismore: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to Question 31449, on the EU sugar regime, tabled by the hon. Member for Hendon on 21 November 2005. [40272]

Jim Knight: I replied to the hon. Member on 20 December 2005.

Research and Development Strategy

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Welsh Assembly Government on the Institute of Grassland and Environmental Research's role in her Department's research and development strategy. [39337]

Mr. Morley: The Welsh Assembly Government have been consulted in the development of Defra's Evidence and Innovation Strategy; is an assessor on Defra's farming and food Research Priorities Group; and is party to the development of Defra's research funding plans.

Defra procures R and D relevant to agriculture and fisheries at a range of research establishments including the Institute of Grassland and Environmental Research (IGER). This research is funded to support both Defra and the Welsh Assembly Government policies. The Welsh Assembly Government are a close partner in the formulation of Defra research funding plans at a number of levels ranging from our Department wide Evidence and Innovation Strategies through to statements of policy rationale and scientific objectives for individual R and D programmes.

INTERNATIONAL DEVELOPMENT

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for International Development how much was spent on external consultants and advisers by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39086]

Hilary Benn: For details of Contracts awarded to DFID since 1997 to assist with International Development, I refer the hon. Member for Angus to the response I gave to the hon. Member for St. Ives (Andrew George) on 28 November 2005, *Official Report*, column 55W.

The Department for International Development (DFID) is responsible for financial sponsorship of Commonwealth Development Corporation (CDC). They do not however, retain a central record of expenditure on external consultants and to obtain this information would incur a disproportionate cost.

Guatemala (Violence against Women)

David Taylor: To ask the Secretary of State for International Development what steps he has taken to help the Guatemalan authorities reduce the incidence of violence against Guatemalan women. [40820]

Mr. Thomas: The Department for International Development is contributing €1 million through its share of the European Commission's (EC) 2004–07 project to strengthen the ability of the Guatemalan Indigenous Women's Ombudsman (Defensoria de la Mujer Indigena) to address the high levels of exclusion

and violence suffered by poor indigenous rural women. The Ombudsman is part of the Guatemala Presidential Commission of Human Rights.

The UK provides 18 per cent. of the funding of EC programmes to Guatemala.

Pakistan (Earthquake)

Sarah Teather: To ask the Secretary of State for International Development what shelters the UK Government is providing for the people of Pakistan following the earthquake there; and what assessment it has made of the adequacy of such shelters for winter temperatures and conditions in the affected region. [40799]

Mr. Thomas *[holding answer 9 January 2006]:* As a part of DFID's overall response to the Pakistan earthquake, we have provided in-kind assistance in the form of 5,500 winterised tents, as well as plastic sheeting, blankets and ropes which are an integral part of the International Organisation for Migration's (IOM) tent winterisation package. In addition, we are providing financial support as well as staff secondments to the IOM, the lead international agency managing shelter issues, as well as financial support to six non governmental organisations that are implementing shelter programmes. This support is helping relocated North West Frontier and Kashmir populations in camps at lower altitude as well as those villagers living in remote locations above 5,000 feet. It has enabled the construction of temporary "warm rooms" made of galvanised iron sheets to assist those affected by the earthquake to survive the Himalayan winter.

DFID has been working actively with a range of donor partners, the Government of Pakistan, as well as beneficiaries, to gauge the appropriateness of the shelter assistance provided. When it became clear that a high proportion of the shelters distributed (excluding the DFID-provided tents) was not winterised, DFID provided an additional £2,000,000 of in-kind assistance to support the activities of the responding international community. We are currently discussing whether additional financial or in-kind support is required. DFID support through the financing of transport aircraft provided by NATO and in-country helicopter operations includes the delivery of shelter materials for the UN and humanitarian agencies.

The tents provided by DFID are fully certified winterised tents with provision for heating by stove. We are content that the additional in-kind support is of appropriate quality and meets UN and/or International Committee of the Red Cross (ICRC) standards.

NORTHERN IRELAND

Police Service

8. **Mr. David Anderson:** To ask the Secretary of State for Northern Ireland what assessment he has made of the effect of the 50/50 ruling on the recruitment of suitably qualified Protestants to the Police Service of Northern Ireland; and if he will make a statement. [40309]

Mr. Woodward: Since 2001, the unprecedented level of interest in joining the PSNI, from across the whole community, has reflected the increasing confidence in policing in Northern Ireland, and has created an inevitable surplus of suitably qualified candidates for a finite number of posts. I am advised that only 541 suitably qualified non-Catholic candidates, from the first eight campaigns, will be rejected as a result of 50/50. This is less than two percent of all non-Catholic applications.

Kneecappings

9. **Mr. Hollobone:** To ask the Secretary of State for Northern Ireland how many kneecappings have been recorded in Northern Ireland in each of the last five years. [40310]

Mr. Woodward: The PSNI does not record offences separately. I can tell you that in the last five years the number of shootings has more than halved, from 186 in 2001 to 85 last year.

Northern Ireland (Offences) Bill

10. **Mr. Wallace:** To ask the Secretary of State for Northern Ireland what discussions he has had with Sinn Fein on the Northern Ireland (Offences) Bill. [40311]

Mr. Hanson: The Secretary of State and Ministers have had discussions with a number of political parties including Sinn Fein.

School Admissions

11. **Philip Davies:** To ask the Secretary of State for Northern Ireland what steps his Department has taken to consult parents in Northern Ireland on his plans to change arrangements for academic selection for post-primary education. [40312]

Angela E. Smith: Throughout the review of post-primary education, the Department has consulted with parents in a number of ways, including through public meetings, focus groups, questionnaires including a household response form, meetings with representative groups and through written submissions. All views were considered before decisions were taken on the new post-primary arrangements.

14. **Angela Watkinson:** To ask the Secretary of State for Northern Ireland what steps his Department has taken to consult parents in Northern Ireland on his plans to change arrangements for academic selection for post-primary education. [40315]

Angela E. Smith: I refer the hon. Member to the answer I gave to the hon. Member for Shipley (Philip Davies).

Giant's Causeway

12. **Jeff Ennis:** To ask the Secretary of State for Northern Ireland what progress is being made in developing visitor facilities at the Giant's Causeway. [40313]

Angela E. Smith: I can confirm that good progress continues to be made In relation to the provision of new visitor facilities at the Giant's Causeway. The design has been selected following a very successful international architectural competition. In addition, a separate firm of designers has recently been appointed to design and fit out the new facilities.

On-the-run Terrorists

13. **Mr. Leigh:** To ask the Secretary of State for Northern Ireland if he will make a statement on his plans to deal with on-the-run terrorists returning to Northern Ireland. [40314]

Mr. Hain: I refer the hon. Member to the answer I gave earlier.

Ambulance Services

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will make a statement on *(a)* ambulance service cover in Derry city and *(b)* night-time cover in Derry city during the Christmas period. [40752]

Mr. Woodward: Accident and emergency ambulance services in Derry city are commissioned by the western health and social services board from the Northern Ireland Ambulance Service (NIAS) on the basis of historical patterns of demand. Levels of cover therefore vary to meet demand but there are usually three to five vehicles on duty during the day and two to three at night crewed by a total complement of 46 operational staff.

During the recent Christmas period, NIAS experienced an unusually high level of staff sickness absence. In addition to six Altnagelvin station staff already absent, a further seven reported sick at short notice. As a result, of 58 planned shifts over the period 24 to 29 December, it was possible to cover only 41. However, full cover was resumed on 30 December 2005 and was maintained over the rest of the period including new year's eve.

Immediate action taken to reduce the impact of the sickness absence included redeploying staff from other stations, offering overtime to ambulance staff throughout Northern Ireland, assigning day shift staff to night-time cover, redeploying rapid response vehicles and introducing additional non-emergency vehicles to minimise the need for emergency crews to undertake non-emergency work.

In the longer term NIAS plans to review its procedures for allocating leave and overtime, and shift rotas to ensure effective staff cover. NIAS will incorporate its findings into a review of its absence management procedures.

While there was considerable additional pressure placed on ambulance personnel in NIAS's western division, I am pleased to say that the ambulance service's response to life threatening calls in the area and, in particular within Derry city itself, remained on a par with its performance across Northern Ireland performance during the period.

Civil Servants

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the basic hourly rate is for Northern Ireland civil service starting grades. [40784]

Angela E. Smith: The Northern Ireland civil service general service recruitment grades are administrative assistant, administrative officer, executive officer II and staff officer graduate. New entrants are normally recruited at the minimum of the respective salary scale. The basic hourly rate for the minimum of these grades are as follows:

	£
Administrative assistant	5.132
Administrative officer	5.617
Executive officer II	6.557
Staff officer graduate	9.172

Departmental Expenditure

Mr. Spellar: To ask the Secretary of State for Northern Ireland what estimate his Department has made of public expenditure on housing in *(a)* the public and *(b)* the private sector in the last five years for which figures are available. [40778]

Mr. Hanson: The amounts of public expenditure allocated to housing in the public and private sectors over the last five years is as follows:

£ million

	Public sector funding	*Private sector funding*	*Total*
2000–01	318.748	42.133	360.881
2001–02	330.453	43.104	373.557
2002–03	387.555	43.000	430.555
2003–04	421.196	42.119	463.315
2004–05	408.853	45.742	454.595

Departmental Software

Mr. McGrady: To ask the Secretary of State for Northern Ireland to what extent open-source software is being used by Government Departments in Northern Ireland; and whether the recommendations of the e-Government policy unit on this are being implemented. [39425]

Angela E. Smith: Open Source is currently being used in two Government Departments in NI for specific projects.

Other Departments are evaluating it and this is underpinned by the NICS ICT strategy which states that the NICS will consider the use of Open Source.

The NICS has adopted the UK Government e-Government Interoperability Framework (eGIF) which mandates open standards and specifications.

Driving Offences (Mobile Phones)

Ben Chapman: To ask the Secretary of State for Northern Ireland how many successful prosecutions there have been in Northern Ireland for the offence of using a mobile phone while driving since its introduction. [40674]

Mr. Hanson: Until 2004 data relating to offences prosecuted by the police become available early this year information is currently available only for those cases prosecuted by the new Public Prosecution Service. Since the introduction of the offence on 1 February 2004, a total of 18 persons have been found guilty of driving while using a mobile phone. The majority of minor offences dealt with in the magistrates courts are prosecuted by the police and this continues to be the case except in the Belfast Region and Fermanagh and Tyrone which are now covered by the Public Prosecution Service which commenced in June 2005.

Government Estate

David Simpson: To ask the Secretary of State for Northern Ireland how many buildings in Northern Ireland are owned by the Government; what the average spare office capacity in them has been in each of the last 10 years; and what plans he has to lease further space to private firms. [38588]

Angela E. Smith: There are currently 162 Government owned office buildings in Northern Ireland. Records showing the average spare office capacity for each building in each of the last 10 years are not held. However, at 1 December 2005 0.8 per cent. of the 261,000 m^2 of space available was vacant. There are currently no plans to lease space out to private firms.

Ministerial Car Fleet

David Simpson: To ask the Secretary of State for Northern Ireland what has been the cost of *(a)* ministerial cars and *(b)* drivers in Northern Ireland in each of the last 10 years. [39650]

Mr. Woodward: The Northern Ireland Office cannot provide the information requested by the hon. Gentleman as we cannot identify separate costs for Ministers' cars and drivers.

All Ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

In respect of Ministerial cars provided by the Government Car and Despatch Agency (GCDA); my hon. Friend, the Parliamentary Secretary at the Cabinet Office (Jim Murphy) has asked Roy Burke, Chief Executive of the GCDA, to write to the hon. Member with details of the costs of Ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library.

For information for the financial years 2000–01 to 2003–04 I refer the hon. Member to the letters from the Chief Executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and to the then hon. Member for Arundel and South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library.

Public Bodies/Agencies

Mr. Weir: To ask the Secretary of State for Northern Ireland how many staff are employed by non-departmental public bodies and agencies for which he has responsibility. [36006]

Angela E. Smith: As at 31 March 2005 there were 84,353 staff employed by non-departmental public bodies sponsored by the Northern Ireland departments and the Northern Ireland Office and 19,402.5 staff employed in Executive Agencies attached to Northern Ireland departments and the Northern Ireland Office.

Public Order

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people have been *(a)* arrested, *(b)* charged and *(c)* convicted following public order disturbances in North Belfast since 1 January. [7092]

Mr. Woodward: PSNI advise that during the period 1 January to 31 December 2005, there were 93 persons charged with riotous behaviour, riotous assembly and disorderly behaviour in North Belfast DCU.

1. Statistics refer to those brought against a person after the original period of detention (including extensions). Any subsequent changes, additions, deletions to the original charges are not included.

2. Statistics are provisional and may be subject to minor amendment.

PSNI do not link charges to specific incidents.

PSNI do not record the number of arrests centrally.

PSNI do not record convictions.

Short Measures

David Simpson: To ask the Secretary of State for Northern Ireland how many publicans in Northern Ireland were fined for selling short measures in each of the last 10 years. [38587]

Angela E. Smith: In the last 10 years, three publicans in Northern Ireland were fined for short measure offences: one in 1996 and two in 2005.

Sickness Absence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) what estimate he has made of the cost to public funds of absence from work in the Province in the last five years; [24908]

(2) what estimate he made of the cost to public funds of absence from work in the Province due to work-related illness in the last five years. [24924]

Angela E. Smith: The information requested is not available. However the hon. Lady may wish to refer to the workplace health strategy for Northern Ireland, "Working for Health', published by the Health and Safety Executive in 2003. This estimated Northern Ireland's whole economy bill for work-related ill health at some £330 million per year. A copy of this document will be placed in the Library.

Waiting Lists (Neurology)

Mark Durkan: To ask the Secretary of State for Northern Ireland what the *(a)* length of the waiting list is and *(b)* average waiting times are to (i) see a neurologist and (ii) receive beta interferon in each of the four health and social services board areas. [40637]

Mr. Woodward: Waiting list information is collected by time band. It is therefore not possible to calculate the arithmetic mean (average) length of time waiting. It is however possible to identify the median or mid point waiting time band.

(i) The number of patients waiting for a first outpatient appointment with a neurology consultant at 30 September 2005 and the median waiting time in each health and social services board is shown in the following table.

Health board of residence	Waiting for a first outpatient appointment with a neurology consultant at 30 September 2005 (a) Number waiting	(b) Median waiting time band
Eastern	1,857	3–5 months
Northern	1,288	3–5 months
Southern	865	3–5 months
Western	1,047	6–8 months
NI Total	5,068	3–5 months

Note:
Patients currently suspended from waiting list are excluded from these figures. The NI total of 5,068 patients includes 11 patients whose board of residence was not specified (including private patients and those resident outside of Northern Ireland). The most recent information available from the Department is at 30 September 2005.

Source:
Departmental Information Return CH3 Parts 1 and 2

(ii) The number of patients waiting for beta interferon treatment at 30 November 2005 and the median waiting time in each health and social services board is shown in the following table.

Health board of residence	Waiting for beta interferon treatment at 30 November 2005 (a) Number waiting	(b) Median waiting time band
Eastern	54	6–8 months
Northern	62	6–8 months
Southern	16	6–8 months
Western	20	9–11 months
NI Total	152	6–8 months

Note:
Nine patients currently suspended from the waiting list are excluded from these figures.

Royal Group of Hospitals HSS Trust

TREASURY

EU Agriculture Budget

Michael Gove: To ask the Chancellor of the Exchequer what proportion of the EU budget will be spent on agriculture, including rural development, over the period 2007 to 2013; and what proportion of the EU budget was spent on agriculture, including rural development, in each year since 2000. [40949]

Mr. Ivan Lewis: The EU budget agreed by the European Council on 17 December for the period 2007–2013 will be €863 billion (in 2004 prices) on a commitments basis. Forty three percent. of this total is allocated to agriculture, including rural development (Heading 2). The comparable figures for the period 2000–2006 are:

	Proportion of spending on agriculture (Heading 1)
2000	44
2001	46
2002	47
2003	47
2004	43
2005	43
2006	43

EU Finances

Michael Gove: To ask the Chancellor of the Exchequer what the estimated value will be *(a)* in euros and *(b)* as a proportion of gross national income of each member state's (i) gross contribution to the EU including overseas aid spending, (ii) contribution to the UK abatement, (iii) receipts of EU spending and (iv) net contribution to the EU budget over the period 2007 to 2013. [40950]

Mr. Ivan Lewis: I refer the hon. Gentleman to the answer given to the hon. Member for Altrinchham and Sale West on 10 October 2005, *Official Report*, column 290W.

Regional GDP

Mr. Weir: To ask the Chancellor of the Exchequer what steps the Government are taking to decrease disparities in regional gross domestic product and gross value added per capita; and which Minister is in charge of those steps. [39623]

Mr. Des Browne: The Government are committed to a public service agreement (PSA) target to: "make sustainable improvements in the economic performance of all English regions by 2008, and over the long-term reduce the persistent gap in growth rates between the regions." The Deputy Prime Minister, Chancellor of the Exchequer and Secretary of State for Trade and Industry are jointly responsible for this target. The Government are working with the devolved administrations to promote economic growth, full employment and prosperity for Scotland, Wales and Northern Ireland.

Tax Credits

Mr. George Osborne: To ask the Chancellor of the Exchequer what the average length of a phone call to the tax credit helpline was in the last period for which figures are available; what percentage of calls to the tax credit helpline were answered within *(a)* one minute, *(b)* two minutes, *(c)* five minutes and *(d)* at all; and what the average waiting time was for calls to be answered by a tax credit helpline operator. [9845]

Dawn Primarolo: We do not have available information on the average length of a phone call to the tax credit helpline. Information on percentages of calls answered within specific times other than 20 seconds is not kept.

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what is the cost of the programme to digitise telephone conversations between members of the public and staff of HM Revenue and Customs in relation to queries about tax credits. [21874]

Dawn Primarolo: Total costs incurred to date on the Witness Call Archiving project are around £2 million.

The benefits of the Witness Call Archiving project are that they allow call recordings to be stored in an easily retrievable way that helps with queries, complaints, call monitoring etc. This system allows appropriately authorised users to search and replay calls remotely, this ultimately saves a significant amount of time in the complaints/query process.

Mr. Laws: To ask the Chancellor of the Exchequer how many disputed tax credit cases were decided in each month since June 2004; what proportion of disputes have been decided in the disputant's favour; how many tax credit disputes received since April 2003 have yet to be decided; and how many disputes have been raised since June. [29706]

Dawn Primarolo: A monthly breakdown of the number of disputed overpayment decisions is not available for 2004–05.

To ensure they provide the most accurate information available, HM Revenue and Customs has changed its method of counting decisions made in 2005–06 since I answered the hon. Gentleman on 21 July 2005 and 10 October 2005, *Official Report*, columns 2033W and 282W. Figures for July 2005 to November 2005, inclusive, are around:

Month (2005)	*Disputed overpayment decisions (households)*
July	30,500
August	42,500
September	52,000
October	45,500
November	22,000

For those cases, HMRC wrote off a disputed overpayment in around 35 per cent. of cases up to 30 November 2005.

At the end of November 2005, around 54,000 disputes were awaiting a decision.

Between 1 June 2005 and 30 November 2005 around 187,000 households disputed a tax credits overpayment.

David Simpson: To ask the Chancellor of the Exchequer how many cases of fraud have been detected in Northern Ireland in relation to tax credit claims in each of the last five years. [36506]

Dawn Primarolo: The information requested is not available and could be obtained only at disproportionate cost.

VAT

John Hemming: To ask the Chancellor of the Exchequer whether he has plans to charge VAT on domestic flights. [38195]

Dawn Primarolo: VAT is already charged on aircraft fuel supplied for flights within the UK at either the standard rate or reduced rate of 5 percent., depending on the type and quantity of fuel being supplied.

TRANSPORT

Air Quality

Tom Brake: To ask the Secretary of State for Transport when he expects to publish the revised methodology for air quality around airports; and if he will place a copy in the Library. [41045]

Ms Buck: The Department's air quality technical panel process was initiated following commitments in the Air Transport White Paper related to the future development of Heathrow. It is expected to complete its report during February. This activity concerns the approach to modelling of air quality at Heathrow only. The report will be placed in the House Library.

Automatic Number Plate Recognition

Tom Brake: To ask the Secretary of State for Transport pursuant to the answer of 11 July 2005, *Official Report*, column 759W, on automatic number plate recognition, how long information collected by the police will be held as a record on police computer databases before deletion in *(a)* the pilot programme and *(b)* the proposed national scheme. [31501]

Paul Goggins: I have been asked to reply.

Pursuant to the reply I gave the hon. Member for Carshalton and Wallington on 11 July 2005, *Official Report*, column 759W, my officials have been working closely with the Association of Chief Police Officers (ACPO) to ensure that information collected by Automatic Number Plate Recognition (ANPR) technologies and retained by the Police is cognisant of the relevant data protection legislation. The specific ACPO guidance states:

> "a period of two years in a 'live, searchable system' incorporating 'a controlled access environment' after 90 days. This period of retention is to facilitate the searching of that data on a case-by-case basis, should a crime committed during the deployment come to light during that two-year period. It would be expected that after the initial 90 days period, the data will be 'partitioned' for the rest of its retention period. In the period of 91 days to two years, the data will only be accessed for a justified policing need. Access to this data will be 'controlled and documented' to ensure its compliance with the proportionality, justification and use. In exceptional circumstances there may be operational grounds to justify retention of ANPR data beyond the two-year period. Should this occur a record of the grounds should be retained".

This document covers the European Convention for Human Rights. Data Protection, the Regulatory Investigative Powers Act 2000 and the Freedom of Information Act 2000 relating to the Police use of ANPR (excluding speed enforcement devices) and is applicable to all police forces in England and Wales.

Bridges

Tom Brake: To ask the Secretary of State for Transport (1) what estimate he has made of the cost to date of strengthening bridges to accommodate 44 tonne lorries; [40878]

(2) what percentage of the costs of strengthening bridges to accommodate 44 tonne lorries has been borne by *(a)* the Highways Agency, *(b)* local authorities, *(c)* Network Rail, *(d)* Railtrack, *(e)* British Rail and *(f)* other organisations. [41046]

Dr. Ladyman: Since 1 January 1999 the United Kingdom has been required to implement EU Directive 89/460/EC, which allows the use of road vehicles with 11.5 tonne axle loads and plated vehicle weights of 40 tonnes. These vehicles are more demanding in loading terms than a 44 tonne vehicle on six axles. The Directive applies to "principal routes" used in international traffic, and in the UK these have been assumed to be motorways, all purpose trunk roads and the primary route network.

Under The Railway Bridges (Load Bearing Standards) Regulations (England and Wales) Order 1972 (SI 1705/1972) bridges carrying highways over railways are required to take a 24 tonne rigid lorry or a 32 tonne articulated lorry. So any strengthening to take 40 tonne (or 44 tonne) lorries is the sole responsibility of the relevant highway authority.

When the Directive came into force, all bridges on the motorway and trunk road network were able to accommodate 40 tonne vehicles. In the six years from 2001–02 to 2006–07 £205 million has been provided to strengthen bridges on the local authority primary route network to take 40 tonne lorries. In the same period £703 million has been provided to strengthen local authority bridges not on the primary route network, but not all of these bridges are required to take the 40 tonne loading.

Bypasses

Chris Grayling: To ask the Secretary of State for Transport if he will list bypasses built in each of the last five years. [40569]

Dr. Ladyman: The following table lists the Highways Agency trunk road and local authority bypass schemes (at a cost of over £5 million) which have been completed in each of the last five years:

	Scheme
2000	Rainworth Bypass
2001	A174 Skelton and Brotton Bypass
	Burntwood Bypass Phase 1 and 2, Staffordshire
	A151 Weston Bypass
	C541 Addlethorpe Bypass and Bernd Improvement
2002	A143 Broome-Ellingham
	A131 Great Leighs
	A6023 Denaby Main Diversion
	A511 Ashby Bypass
	A27 Polegate Bypass
	A43 Silverstone Bypass
	A6 Clapham Bypass
	A66 Stainburn and Great Clifton Bypass
	Wyre Piddle Bypass, Worcestershire
	A428 Crick Bypass
2003	A350 Semington—Melksham Diversion
	Barnsley Coalfields Link Road (aka Shafton Bypass)
	A6 Great Glen Bypass
	A53 Hodnett Bypass
	5 Nesscliffe Bypass
	500 Basford, Hough and Shavington Bypass
	6 Rothwell—Desborough Bypass
	6 Rushden and Higham Ferrers Bypass
	6 Alvaston Bypass
	650 Bingley Relief Road
	4146 Stoke Hammond and Linslade Bypass (Northern Section)
	South Thames Development Route
	41 Aston Clinton Bypass
	527 Biddulph Inner Bypass
	Ashton-Under-Lyne Northern Bypass (Greater Manchester)
2004	St Clements Way, Thurrock (aka West Thurrock Marshes Relief Road)
	A607 Rearsby Bypass
	Mansfield Ashfield Regeneration Route
	A63 Selby Bypass
	A10 Wadesmill Colliers End
2005	A167 Chilton Bypass
	A21 Lamberhurst Bypass
	A47 Thorney Bypass
	A142 Fordham Bypass
	Gloucester South West Bypass (Castlemeads section)
	A5 Weeford-Fazeley Improvement
	A158 Coastal Access Improvement Phase 1—Partney Bypass
	A428 West Haddon Bypass
	A57 Cadishead Way (Brinell Drive to City Boundary) (Greater Manchester)

Concessionary Transport

Chris Grayling: To ask the Secretary of State for Transport what estimate he has made of the percentage of *(a)* elderly and *(b)* disabled people who paid half fare or less on public transport in (i) 2000 and (ii) 2004. [40562]

Ms Buck: Based on data from the National Travel Survey, it is estimated that in 2000 41 per cent. of people of pensionable age in England held a pass for reduced or free travel. In 2004, following the extension of the eligibility of passes to men aged 60 and over in 2003, 51 per cent. of people aged 60 and over in England had a pass for reduced or free travel.

Data on the percentage of disabled people benefiting from reduced or free travel on public transport are not available.

Tom Brake: To ask the Secretary of State for Transport what assessment he has made of the cost of extending the free fares local bus scheme for over 60s and people with disabilities to a national free fares bus scheme. [40708]

Ms Buck: Initial analysis suggests the cost could be around £100 million a year, but £160 million if peak bus services were included, on top of the additional funding (£350 million for 2006–07) already being provided.

Eurostar

Damian Green: To ask the Secretary of State for Transport if he will ask Eurostar to review security arrangements on journeys from Waterloo and Ashford, with particular reference to baggage checks on all passengers. [40361]

Derek Twigg: Eurostar is directed on security matters under the Channel Tunnel (Security) Order 1994. Amongst a number of measures designed to provide a level of security proportional to the threat is the requirement to screen baggage. This is done using X-ray equipment similar to that in use at airports. Security measures are kept under continual review.

Heathrow Airport

Justine Greening: To ask the Secretary of State for Transport how many responses to the first stage of the night flight restrictions at Heathrow, Gatwick and Stansted airports consultation relating to Heathrow advocated a rise in the number of night flights over and above the existing movement restrictions at Heathrow; how many advocated *(a)* a reduction in the number of and *(b)* a ban on such flights in (i) the immediate short-term and (ii) the long-term; and if he will make a statement. [40913]

Ms Buck: A summary of responses to the stage one paper has been published on the Department's website and includes some of the general comments made by

consultees. The consultation posed nine questions about issues such as the way aircraft are classified for night restrictions purposes and the possible noise abatement objectives for the airports concerned. Consultees were not specifically asked for their views on what the number of night flights at each airport should be, as this matter was to be dealt with in the stage two consultation. Of the approximately 1800 responses to the consultation paper about 400 indicated in commenting that they would like to see an immediate ban or a commitment to working towards a ban on night flights. A large majority of these responses were from the Heathrow area.

Justine Greening: To ask the Secretary of State for Transport how many consultation responses relating to Heathrow were received in the *(a)* first and *(b)* second stage of the night flight restrictions at Heathrow, Gatwick and Stansted airports consultation; and if he will make a statement. [40914]

Ms Buck: There were approximately 1800 responses to stage one of the consultation exercise. The following table shows responses received which commented specifically on the position at Heathrow area:

Category	*Number of responses*
Local authorities	22
Environmental groups	33
Individuals	850
Petitions	500

Responses were also received from airlines, airline organisations and other industry representatives but their responses tended to include all three airports and were not generally Heathrow specific.

Responses from the stage two consultation are still being analysed and a summary, including some numerical analysis will be available, in due course.

Justine Greening: To ask the Secretary of State for Transport how many responses to the second stage of the night flight restrictions at Heathrow, Gatwick and Stansted Airports consultation relating to Heathrow *(a)* supported and *(b)* opposed the proposal in paragraph 7.25 for a rise in the number of night flights over and above the existing movement restrictions at Heathrow; and if he will make a statement. [40915]

Ms Buck: Responses to the stage two consultation paper are being analysed and decisions will be announced in due course. A summary of responses to the consultation along with some numerical analysis will be published with the decision announcement.

Low-speed Zones

Chris Grayling: To ask the Secretary of State for Transport how many 20 mph zones have been established in each of the last five years; and what the total cost was in each of those years. [40563]

Dr. Ladyman: This information is not held by the Department. Local highway authorities are responsible for setting local speed limits, including 20 mph limits where they deem these to be appropriate.

Park and Ride

Stephen Hammond: To ask the Secretary of State for Transport how many park and ride schemes have been opened since 2000; and how many he expects will open in *(a)* 2005–06 and *(b)* 2006–07. [40842]

Ms Buck: The local authority returns provided to the Department indicate that outside London 55 new park and ride schemes have opened in the financial years 2001–02 to 2004–05 (inclusive). 21 were forecast to open in 2005–06. There is not a recent forecast available for 2006–07.

Rail Freight

Chris Grayling: To ask the Secretary of State for Transport what funding was made available for rail freight in each year since 2000–01. [40566]

Derek Twigg: Direct support for rail freight is provided through three schemes. These are Freight Facilities Grants (FFG), Track Access Grant (TAG) and Company Neutral Revenue Support (CNRS). The amounts spent in the period is as follows (incl. England, Scotland and Wales):

	TAG	*CNRS*	*FFG*
2000–01	13.9	0	[1]22.3
2001–02	19.9	0	41.2
2002–03	21.3	0	30.6
2003–04	17.5	0	19.8
2004–05	1.7	22.0	4.8

[1] 2000–01 includes waterways FFG.

Railways

Mr. Paterson: To ask the Secretary of State for Transport what the average age of trains used on the UK's railways is; and what the average life of a train is. [38459]

Derek Twigg: The average age of the UK passenger fleet as at 1 October 2005 is 13 years. Typically the design life of rolling stock is between 30 and 35 years.

Road Improvements

Chris Grayling: To ask the Secretary of State for Transport if he will list trunk roads widened in each of the last five years. [40570]

Dr. Ladyman: A total of eight trunk roads have been widened, over the last five years, as follows:

Scheme	*Date of completion*
A43 Whitfield Turn—Brackley Hatch Improvement	September 2002
A43 M40—B4031 Dualling	September 2002
A1 Willowburn to Denwick Improvement	March 2003
A11 Roudham Heath—Attleborough Improvement	March 2003
A46 Newark—Lincoln Improvement	July 2003
A1033 Hedon Road Improvement	November 2003
A120 Stansted—Braintree Improvement	July 2004
A2 Bean—Cobham Phase 1 Bean—Tollgate	December 2004

In addition three motorways have been widened and these are:

Scheme	Date of completion
A1 (M) Wetherby—Walshford	December 2004
M5 J17–18A Northbound Climbing Lane	October 2005
M25J12–15 Widening	December 2005

Chris Grayling: To ask the Secretary of State for Transport if he will list schemes completed in the Highways Agency Targeted Programme of Improvements. [40576]

Dr. Ladyman: Since 2002, 32 schemes formerly in the Targeted Programme of Improvements have now been completed. These are as follows:

Date of completion	Scheme
June 2002	A27 Polegate Bypass
September 2002	A43 Silverstone Bypass
September 2002	A43 Whitfield Turn-Brackley Hatch Improvement
September 2002	A43 M40-B4031 Dualling
December 2002	A6 Clapham Bypass
December 2002	A66 Stainburn and Great Clifton Bypass
February 2003	A6 Great Glen Bypass
March 2003	A1 Willowburn to Denwick Improvement
March 2003	A5 Nesscliffe Bypass
March 2003	A11 Roudham Heath-Attleborough Improvement
May 2003	A500 Basford, Hough, Shavington Bypass
July 2003	A46 Newark-Lincoln Improvement
August 2003	A6 Rushden and Higham Ferrers Bypass
August 2003	A6 Rothwell-Desborough Bypass
October 2003	A41 Aston Clinton Bypass
November 2003	A1033 Hedon Road Improvement
December 2003	A6 Alvaston
December 2003	A650 Bingley Relief Road

Stephen Hammond: To ask the Secretary of State for Transport what progress the Government have made towards their aim to halt the deterioration in local road conditions by 2004; what schemes it funded to meet that aim; and how much each scheme cost. [40839]

Ms Buck: The National Road Maintenance Condition Survey for 2004 showed that the Government had achieved their aim of halting the deterioration in local roads by that year. Local road condition overall in 2004 was significantly better than in 2000.

To help to achieve this improvement the Government provided £3.264 billion of capital funding and £7.920 billion of revenue funding for local highway maintenance in the four years from 2001–02 to 2004–05. Specific schemes that were funded in that period and their costs are shown as follows:

Authority	Scheme	Cost (£ million)
Birmingham	Highway Maintenance PFI	379.00
Leeds	Street Lighting PFI	94.60
Surrey	Street Lighting PFI	65.60
Newcastle/North Tyneside	Street Lighting PFI	44.40
Manchester	Street Lighting PFI	34.10
Derby City	Street Lighting PFI	32.47
Dorset	Street Lighting PFI	31.60
South Tyneside	Street Lighting PFI	31.50
Barnet	Street Lighting PFI	27.77
Ealing	Street Lighting PFI	25.28
Surrey	Walton Bridge	25.26

Total for specific schemes		980.08

Stratford Stations

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to his answer of 29 November 2005, *Official Report*, column 327W, on Stratford stations, what kind of direct access he expects will be provided between Stratford International and Regional Stations from 2010; and whether any arrangements besides step-free access from Dockland Light Railway trains to street level will be provided for passengers with disabilities travelling to or between Stratford International and Regional Stations during the 2012 Olympic Games. [36908]

Derek Twigg: Subject to the approval of applications which are currently before the Secretary of State, the main form of direct access between the Stratford International and Regional Stations will be the proposed Docklands Light Railway (DLR) link from 2010. Access from DLR trains to platforms will be step free and both Stratford International and Stratford Regional Stations will provide step free access from platform to street for passengers with mobility difficulties.

In addition, the deemed planning permission for the CTRL development at Stratford (granted in 2001 to Union Railways North, a subsidiary of LCR), requires a 'mechanised link1 such as a travelator to be constructed between Stratford Regional and International Stations.

Also, the outline planning consent for the Stratford City development, granted in 2004, requires the developer to make physical provision for the mechanised link, provided that LB Newham agree the procurement date and design of the travelator by January 2006. Discussions on how this requirement might be fulfilled are underway between LCR and London borough of Newham, who as local planning authority are responsible for the enforcement of these conditions.

Transport (Gravesham)

Mr. Holloway: To ask the Secretary of State for Transport what discussions he has had with Gravesham borough council on the Government's plans for concessionary travel for pensioners. [40623]

Ms Buck: None. The statutory entitlement to free off-peak local bus travel in England for people 60 and over and disabled people will come into effect on 1 April 2006. The Department for Transport has issued guidance to local authorities on implementation but it is for individual concessionary travel authorities, to design and operate their local concessionary fares scheme.

Unadopted Roads

Mr. Crabb: To ask the Secretary of State for Transport what estimate he has made of the number of unadopted roads in England. [39590]

Ms Buck: We have no current estimate of the number of unadopted roads in England as this information is not held centrally.

CULTURE, MEDIA AND SPORT

Administrative Costs

Angus Robertson: To ask the Secretary of State for Culture, Media and Sport which functions of her core Department are carried out in *(a)* England and *(b)* London; and what administrative costs were associated with these functions for each area in the last year. [39813]

Mr. Lammy: My Department's main activity is to set Government policy on a range of cultural and leisure activities. An analysis of administration costs by activity for 2004–05 as published in the Department's Annual Account 2005 (page 87) is shown in the table.

Analysis by activity	*£ million*
Arts and Culture	11
Sport	5
Tourism, Libraries and Communities	6
Creative Industries, Broadcasting and Gambling	9
Central administration	10
Total net administration costs	[1]41

[1] Estimated outturn

My core Department is wholly based in London and, at present, administration costs are not attributed to areas.

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport what the total administrative costs for her core Department are; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39840]

Mr. Lammy: The administration budgets regime overseen by the Treasury relates to Whitehall Departments only. Control of administration costs in the devolved Administrations is a matter for them.

My Department's net administration costs were £40,452k in 2004–05, and £39,335k in 2003–04. Table 8.19 of Public Expenditure Statistical Analyses (PESA) 2005 shows the Department's expenditure on services for 2003–04 (the latest available), including the elements of each that are identifiable and non-identifiable. Expenditure on administration is classified as in the same way as the service it supports. Copies of PESA 2005 are available in the Library of the House.

British Film Industry

Adam Afriyie: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact on the British film industry of the requirements that film production projects applying for the new tax incentives are required to meet. [38518]

Dawn Primarolo: I have been asked to reply.

The Chancellor made a number of key announcements regarding the new film tax incentives at the pre-Budget report. Further details of the new tax incentives will be announced in due course.

Digital Broadcasting

Mr. Hollobone: To ask the Secretary of State for Culture, Media and Sport what the expected average cost per household is of digital switchover. [39783]

James Purnell *[holding answer 9 January 2006]:* On 8 November 2005, Ofcom published research by the Generics Group which examined the cost and power consumption implications of digital switchover for UK households. The report estimates that the actual cost to individual households of switchover-driven non-voluntary conversion of sets and VCRs is estimated to range from £26 to £153 depending on the equipment in the home.

Licensing Hours

Susan Kramer: To ask the Secretary of State for Culture, Media and Sport how many pubs and clubs have sought variations in their licensing hours for televised events since the introduction of the Licensing Act 2003; and if she will make a statement. [40271]

James Purnell: Information on the number of pubs and clubs seeking variations in licensing hours for televised events is not held centrally.

Rural Tourism

Mr. Graham Stuart: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on rural tourism in East Yorkshire. [39504]

James Purnell: Rural tourism is a vital element of the English and British tourism offer, and is supported at national and regional levels. At national level, my Department funds the work of VisitBritain and the England Marketing Advisory Board in promoting rural tourism to both the domestic and international markets. VisitBritain spent £1 million in directly promoting rural areas across England in 2004–05.

The regional development agencies have been responsible for supporting tourism at regional level since 2003. Yorkshire Forward's Economic Strategy for 2003 to 2006 includes tourism initiatives which take account of the region's rural areas. The Agency will be investing £4 million in the promotion of local tourism across the county over 2003 to 2006.

Following publication of the Government's Rural Strategy in 2004, the Department for Environment, Food and Rural Affairs requires each English region to set out its priorities in a Regional Rural Delivery Framework, setting out its rural priorities and agreeing how public sector bodies will work together to deliver them.

Television/Radio

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport how many *(a)* television broadcast stations, *(b)* generic television repeater broadcast stations, *(c)* am radio broadcast stations, *(d)* am repeater radio broadcast stations, *(e)* fm radio broadcast stations, *(f)* fm repeater radio broadcast stations, *(g)* short wave repeater radio broadcast stations and *(h)* short wave radio broadcast stations are sited in (i) Scotland, (ii) Wales, (iii) each of the English regions and (iv) Northern Ireland. [39205]

James Purnell: Details on transmitters, as determined by Ofcom, are listed in the following table.

	England	*Wales*	*Scotland*	*NI*	*Total*
TV[1]	679	216	234	50	1,179
FM radio	877	279	387	70	1,613
AM radio	141	11	16	5	173
SW radio	2	0	0	0	2

[1] Includes restricted service licences and non-co-sited Channel 5 transmitters.

Note:
Figures for England include The Channel Islands and The Isle of Man.

We do not have a breakdown of the above figures for radio transmitters, indicating broadcast sites and repeater broadcast sites. For a breakdown of TV transmission sites across the country, I suggest visiting either the Ofcom website at: http://www.ofcom.org.uk/static/reception_advice/index.asp.html or the BBC website at: http://www.bbc.co.uk/reception/transmitters/tv_trans/index.shtml

Mr. Hollobone: To ask the Secretary of State for Culture, Media and Sport what the average number of television sets per household is. [39788]

James Purnell: According to figures from the research company GfK, there is currently an average of 2.6 TVs per home.

EDUCATION AND SKILLS

Adult and Community Learning

Mr. Hayes: To ask the Secretary of State for Education and Skills how many adult and community learning enrolments there were in each year since 2001. [40440]

Phil Hope *[holding answer 9 January 2006]:* There were 915 thousand learners funded by the Learning and Skills Council (LSC) enrolled on Adult and Community Learning (ACL) courses in 2004/05 in England; the comparable figure for 2003/04 was 923 thousand learners.

Changes to the data collection systems, when this provision was funded through local authorities (then termed local education authorities), mean that figures for earlier years are not comparable.

Education (Milton Keynes)

Mr. Lancaster: To ask the Secretary of State for Education and Skills what assessment she has made of the effects of prioritising 14 to 19 education on the funding of Prince's Trust schemes in North East Milton Keynes. [27206]

Bill Rammell: I refer the hon. Member to the reply given to the hon. Member for Kingston and Surbiton (Mr. Davey) on 11 January.

As the allocation of funding in local arrears relates to the LSC's operational responsibilities, Mark Haysom the LSC's chief Executive has written to the hon. Member with the information requested for Milton Keynes and a copy of his reply has been placed in the House Libraries.

Letter from Mark Haysom, dated 11 January 2005:

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills, where you asked what assessment she has made of the effects of prioritising 14 to 19 education on the funding of Prince's Trust schemes in North East Milton Keynes.

The Learning and Skills Council provides funding for Prince's Trust activities to Milton Keynes College through two separate methods.

Firstly, Milton Keynes College directly provides Prince's Trust provision and this is funded from the College's mainstream Further Education budget, as provided by the LSC. This funding is used for activities chiefly in Milton Keynes and Aylesbury, although we do not have a breakdown of the information into specific constituencies or wards for Milton Keynes.

Secondly, the Learning and Skills Council in the South East has decided, on a regional basis, to continue to support Prince's Trust activity via a conduit college; in this case, Milton Keynes College. The College occupies an important place in this process and acts as the 'conduit college' to enable other non-FE providers to undertake Prince's Trust activities.

The South East, as an LSC region, has committed to continue to fund Prince's Trust activity within the region for the coming year. This academic year (2005/06) the budget allocated for the South East region is £1.3 million.

Milton Keynes College is the conduit college for Prince's Trust Volunteers funding within the South East region. Funding is channelled through the college out to 12 partner deliverers of Prince's Trust programmes across the 6 South East LSC areas. Target learners are 16–25 and from groups, such as disaffected, care leavers, drug abusers, ex-offenders, etc. They follow the Prince's Trust Team Programme through which they aim to achieve the customised City & Guilds Profile of Achievement. In the period August 01 to Dec 04, 1,687 learners participated in programmes in the southeast. Milton Keynes College record learners as part of the college's Individual Learner Record and Prince's Trust activity is included within the college Final Claim and Audit

For 2004/05 the amount spent on Prince's Trust activities by the team within Milton Keynes College operating within the Milton Keynes area totalled £63,515.70. The amount projected by the College for 2005/06 is £109,112.75.

In 2004/05 the schemes benefited 15 learners under the age of nineteen and 10 learners over the age of nineteen.

In 2005/06, it is anticipated that the schemes will benefit 18 under nineteen-year-olds and .18 learners over the age of nineteen.

From these figures there would not appear to be an adverse impact on the learner numbers for either age group.

I trust this is helpful.

Education Funding

Mr. Hayes: To ask the Secretary of State for Education and Skills what the percentage change in funding to *(a)* schools, *(b)* further education colleges and *(c)* universities has been since 1997; and what the change in (i) the numbers of students and (ii) academic results was over that period. [39917]

Bill Rammell: School funding (including school sixth forms) has increased by 62 per cent. in real terms from £24.2 billion in 1997–98 to £39.2 billion in 2005–06.

Since 1997 Government funding for further education colleges has increased by around £2.5 billion—equivalent to around 48 per cent. in real terms.

We do not hold detailed figures for universities. However, funding for Higher Education as a whole rose from £7.2 billion in 1997–98 to a planned level of £7.8 billion in 2005–06, a real terms increase of 11 per cent.

The number of Full-Time Equivalent (FTE) pupils in maintained schools was 7,506,910 in January 2005. This is 67,150 higher than in 1997.

16–18 full time numbers in Further Education have increased by over 59,000 to 557,000 between 1997/98 and 2004/05. Total Higher Education students in England rose from 1,465,800 to 1,755,400.

The number of pupils achieving 5 or more A*—C grades at GCSE and equivalent nationally has risen from 45.1 per cent. in 1997 to 55.7 per cent. (provisional) in 2005. The percentage of 11-year-olds achieving the target level for their age (level 4) has increased from 63 per cent. in 1997 to 79 per cent. in 2005 in English and from 62 per cent. to 79 per cent. in mathematics.

Further Education has seen an increase in average student success rates from 53 per cent. to 72 per cent. between 1997/98 and 2004/05. Over the same period, the proportion of newly qualified graduates who obtained a first or upper second class degree rose from 50 per cent. to 55 per cent.

Higher Education

Grant Shapps: To ask the Secretary of State for Education and Skills how many students are in higher education in 2005/06. [39607]

Bill Rammell: The Higher Education Funding Council for England (HEFCE) collects data annually in the Higher Education Students Early Statistics survey (HESES) which gives a first indication of student numbers each year. The data for 2005–06 has been collected from institutions by HEFCE but has not been fully validated. We would expect to have the final data, verified by institutions, by end January.

For the academic year 2004/05, the Higher Education Statistics Agency (HESA) student record shows that there were 2,157,155 students enrolled on HE courses at UK HE institutions.[1]

[1] Figures are on a DfES whole year count basis and exclude the University of Buckingham, a private institution who returned data to HESA for the first time in 2004/05.

Higher Education

Jo Swinson: To ask the Secretary of State for Education and Skills how many United Kingdom nationals entered higher education at institutions based in England in the last five years; and if she will make a statement. [38002]

Bill Rammell: The available information is given in the table.

Full time undergraduate entrants to English HE institutions who are UK Nationals[1], 2000/01 to 2004/05

	2000/01	2001/02	2002/03	2003/04	2004/05
Total entrants	302,655	318,335	335,475	342,230	346,225
Total entrants (of known nationality)	215,210	213,140	301,785	312,895	320,185
Percentage of whose nationality is not known[2]	29	33	10	9	8
Total, of knowns, who are UK nationals	183,130	179,770	248,050	255,625	258,745
Percentage of knowns, who are UK nationals	85	84	82	82	81

[1] Information on nationality is not compulsory on the HESA dataset. Coverage is better for full time students.

[2] Not known includes those recorded as missing or not known.

Note:

Figures have been rounded to the nearest 5 and are on a DfES whole year count basis.

Higher Education Statistics Agency (HESA) student record

Prince's Trust

Mr. Davey: To ask the Secretary of State for Education and Skills (1) what assessment she has made of the effects of prioritising 14 to 19 education on the funding of Prince's Trust schemes in *(a)* Greater Manchester and *(b)* London.; [24574]

(2) what recent representations she has received on the funding of Prince's Trust schemes by Learning and Skills Councils; and if she will make a statement. [24575]

Bill Rammell: We recognise the work of the Prince's Trust, particularly through their team programme, in helping hard to reach young people back into learning. We acknowledge that the Trust have had some difficulties getting funding to support this programme. However, the LSC has indicated that more than £11 million will be available to support the programme in 2005/06. The LSC has set up a taskforce to allow the Prince's Trust to continue to deliver this programme. The taskforce will be looking at how the programme can be nationally accredited as well as the future planning, quality and funding arrangements to ensure sustainability. I have already met with the Prince's Trust to discuss these issues and will be meeting with them and the LSC to discuss progress shortly. We have not had any representations from Learning and Skills Councils regarding this. As the allocation of funding in local areas relates to the LSC's operational responsibilities, Mark Haysom the LSC's Chief Executive has written to the hon. Member with the information requested for Greater Manchester and London. A copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 19 December 2005:

I write in response to your recent Parliamentary Questions to the Secretary of State for Education and Skills.

Firstly, you asked what representations she has received on the funding of Prince's Trust schemes by Learning and Skills Councils (LSC). The LSC has been working with the Trust for many years, supporting and funding the Team Programme through our local offices and colleges. As you may be aware, the LSC's funding priorities are decided at regional and local level, and the total amount of funding for the Team Programme therefore varies from region to region. The discussions between the LSC and our providers and the Prince's Trust are currently ongoing, with support already identified and finalised for this funding year in the majority of LSC regions. Across the LSC our funding support for this academic year will total approximately £11 million, which I hope demonstrates our ongoing commitment to the Team Programme.

We are working closely with The Prince's Trust to establish the contribution of the programme towards LSC priorities and to identify additional sources of funding, outside of the LSC. We have also created a task force between the LSC and the Prince's Trust who are working together to establish how our joint planning cycles can support this aim. Our shared ambition is for a secure future for the Team Programme that is not dependent on a single LSC funding source.

In your further question to the Secretary of State you asked what assessment she has made of the effects of prioritising 14 to 19 education on the funding of Prince's Trust schemes in Greater Manchester. LSC Funding is currently channelled through a lead college out to other partners delivering Prince's Trust programmes across the LSC areas in the region. Each learner joins the Prince's Trust Team Programme through which they aim to achieve the customised City & Guilds Profile of Achievement.

The LSC in Greater Manchester currently spends approximately £265m on provision for young people, much of which supports learners from disadvantaged backgrounds. Our commitment to this group of learners remains a key priority for the LSC both locally and nationally. The Prince's Trust provision is one of the many routes we are supporting for young people, and the LSC has to make some difficult funding decisions this year in order to balance a range of priorities for the area. This has therefore affected the level of funding support available to the Prince's Trust provision.

However, the funding earmarked for Prince's Trust in Greater Manchester for this year will total at least £750,000, a considerable investment in the Team Programme. I understand my colleagues in the local office are working with key partners and providers to identify potential further funding to support this provision. We are also working closely with the Prince's Trust locally and nationally to ensure that we plan together effectively to meet our shared priorities.

Trust this is helpful.

University Students

Mr. Hollobone: To ask the Secretary of State for Education and Skills what proportion of students at university in England came from countries outside the European Union in each of the last 10 years. [39782]

Bill Rammell: The latest available information is given in the table.

Proportion of enrolments at English HE institutions by non-EU overseas domiciles[1]

Academic year	*Percentage*
1995/96	6.1
1996/97	6.0
1997/98	6.3
1998/99	6.2
1999/2000	6.5
2000/01	6.9
2001/02	7.4
2002/03	8.5
2003/04	9.2
2004/05 (including the 10 EU accession countries)	9.6
2004/05 (excluding the 10 EU accession countries)	9.1

[1] For 2003/04 and earlier, the 10 EU accession countries are included as non-EU overseas domiciles. For 2004/05 they are classed as EU domiciles. To allow comparisons, proportions for 2004/05 have been given both including and excluding these students.

Note:
Percentages are based upon figures calculated on a snapshot basis as at the 1 December to maintain a consistent time series across all years.

Higher Education Statistics Agency (HESA) student record.

DEFENCE

Anthrax Vaccinations

Mr. Robathan: To ask the Secretary of State for Defence how many anthrax vaccinations are held by his Department; how much those anthrax vaccinations cost; what the stated shelf-life is of such vaccinations; what assessment has been made by his Department of whether the vaccinations remain viable throughout their stated shelf-life; which company provides these vaccinations; and if he will make a statement. [31423]

Mr. Touhig *[holding answer 24 November 2005]*: The Health Protection Agency (previously titled the Centre for Applied Microbiology and Research), currently manufactures and supplies the Ministry of Defence (MOD) with Anthrax vaccine. Stability trials are the responsibility of the Department of Health (as the licence holder) and the manufacturer. These are performed in compliance with current regulatory requirements. The licensed shelf-life has recently been extended by the Medicines and Healthcare Regulatory Agency from two to three years. The MOD holds sufficient doses of Anthrax vaccine to meet its projected requirements; the precise numbers held cannot be released as this would be prejudicial to defence activities. The total spend last year was £4.2 million.

Chemical Defence Establishment

Andrew Mackinlay: To ask the Secretary of State for Defence pursuant to the answer of 19 December 2005, *Official Report*, column 2347W, if on the occasion of their visits in January and March 1992 the Ministry of Defence employees met Walter Basson. [39884]

Mr. Ingram: I presume that as with previous questions my hon. Friend has asked, this question refers to Dr. Walter Basson. During their passage through South Africa in January and March 1992 the Ministry of Defence employees, from what was then the Chemical Defence Establishment at Porton Down were not knowingly introduced to anyone named Walter Basson.

Departmental Jobs (Regional Distribution)

Mr. Weir: To ask the Secretary of State for Defence how many and what percentage of jobs in *(a)* his Department, *(b)* each arm of the armed forces including support staff and *(c)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which his Department is responsible, statutory bodies, organisations and bodies financially sponsored by his Department are located in (A) Scotland, (B) England, excluding Greater London, (C) Greater London, (D) Wales, (E) Northern Ireland and (F) overseas. [39806]

Mr. Touhig: Available information is given in the following tables:

UK regular service personnel by service and United Kingdom country, London and overseas, at 1 October 2005

Service	Total	England (excluding London)	London	Wales	Scotland	Northern Ireland	Centrally administered	Overseas	Unknown
Royal navy	32,050	27,380	480	40	2,950	20	230	930	20

Notes:

1. Due to the rounding methods used, figures may not always equal the sum of the parts. When rounding to the nearest 10, numbers ending in 5 have been rounded to the nearest 20 to prevent systematic bias.

2. The detailed figures above have been compiled from unit statistics related to unit postcodes. For some units postcode information is either unavailable or inappropriate.

3. Figures are for UK regular forces, both trained and untrained, located in the UK and overseas. They therefore exclude Gurkhas, full time reserve service personnel, the Home Service battalions of the Royal Irish Regiment and mobilised reservists. Location statistics are not available for FTRS, the Home Service battalions of the Royal Irish Regiment and Mobilised Reservists.

[1] Denotes less than 5
Notes:
1. This table uses data from the Cabinet Office Public Bodies website and includes full and part-time staff.
2. The figures in this table are rounded separately so the rounded totals may not be the sum of the rounded values.

Mr. Weir: To ask the Secretary of State for Defence if he will indicate, including a breakdown for the English regions, and by arm of armed service, how many of those in the armed services *(a)* based and *(b)* stationed in each English region are deployed elsewhere on (i) active duty and (ii) training, broken down by service; and where they are deployed in each case. [39807]

Mr. Ingram: Location statistics may be compiled based on posted location or deployed location. Posted location is where an individual is permanently based. Deployed location is where an individual is physically located at a particular point in time and is typically used for short tours of duty.

Available information on the posted location of service personnel is shown in the table:

UK regular forces posted in United Kingdom, by Government office region: at 1 October 2005

	Service				
England	Royal Navy	Royal Marines	Army	RAF	Total
North East	20	20	740	790	1,560
North West	30	20	1,190	220	1,470
East Midlands	300	—	1,530	7,310	9,140
West Midlands	200	10	3,760	2,460	6,420
Yorkshire and the Humber	20	100	11,350	2,070	13,540
East of England	780	70	8,700	9,220	18,760
London	480	70	4,930	1,530	7,010
South East	12,520	470	23,550	10,100	46,640
South West	13,520	5,270	16,320	5,400	40,510
Wales	40	—	1,540	1,200	2,770
Scotland	2,950	1,170	2,770	6,040	12,920
Northern Ireland	20	10	5,600	970	6,590
Grand total	30,870	7,200	81,990	47,350	167,410

Notes:
1. Due to the rounding methods used, figures may not always equal the sum of the parts. When rounding to the nearest 10, numbers ending in 5 have been rounded to the nearest 20 to prevent systematic bias.
2. The detailed figures above have been compiled from unit statistics related to unit postcodes. For some units postcode information is either unavailable or inappropriate.
3. Figures are for UK regular forces, both trained and untrained, located in the UK. They therefore exclude Gurkhas, full-time reserve service personnel, the home service battalions of the Royal Irish Regiment and mobilised reservists. Location statistics are not available for FTRS, the home service battalions of the Royal Irish Regiment and mobilised reservists.
4. Figures do not include 90 personnel who have no location indicator, or 1,470 who are centrally administered.

Source:
DASA (Tri Service)

Deployment information for service personnel posted to specific regions is not held centrally.

The strength by posted location for UK regular armed forces is published quarterly in Tri-Service Publication (TSP) 10, copies of which are held in the House of Commons Library.

Far Eastern Civilian Prisoners of War Compensation Scheme

Mr. Austin Mitchell: To ask the Secretary of State for Defence if he will ensure that the review of the far eastern civilian prisoners of war compensation scheme announced on 12 December considers whether the bloodlink criterion amounts to racial discrimination. [39437]

Mr. Touhig: The "birthlink" criterion is used to determine eligibility for the civilian element of the ex-gratia payment scheme for former far east prisoners of war and civilian internees; it is based on the place of birth (in the UK) of the individual or one of his or her parents or grandparents and not on a specific racial or "bloodlink" criterion. The question of whether use of this criterion resulted in racial discrimination is currently the subject of appeals by both the Secretary of State and the claimant (Mrs. D Elias) against a High Court decision on a case brought by a former civilian internee. The outcome of the legal proceedings will determine whether use of the criterion amounts to racial discrimination. The review that I outlined in my statement on 12 December 2005, *Official Report*, column 1119, will examine whether consistent eligibility criteria were used to determine eligibility for civilian internees; it will not address whether the scheme was discriminatory. The Department has accepted, however, that it should have reviewed the operation of the scheme under the terms of section 71 (1) of the Race Relations Act 1976; we are currently considering the appropriate timescale for undertaking this review but do not consider that it could sensibly be completed until the legal proceedings referred to above have been completed.

Helicopters

Mr. Hancock: To ask the Secretary of State for Defence how many *(a)* Merlin, *(b)* Lynx and *(c)* Sea King helicopters operated by the Royal Navy are held in attrition reserve; and for what reasons they are held. [39177]

Mr. Ingram: Attrition reserve aircraft are held to allow the required fleet size to be maintained throughout the service-life of the platform. This policy is designed to avoid the prohibitive costs that would be incurred if orders for single aircraft were to be made after the main production run was complete. Once a platform enters Service, fleet sizes may be changed and thus the numbers of aircraft classified as "attrition reserve" may also change.

There are currently five Merlin, one Sea King and no Lynx helicopters held in attrition reserve. In addition to the one Sea King representing attrition reserve, there are 34 aircraft in storage which are provisionally allotted for disposal. Until the disposal point is reached these are also available for recovery if required.

Joint Strike Fighter

Mr. Bone: To ask the Secretary of State for Defence whether the contract for the F35 joint strike fighter includes all the accompanying software, with particular reference to faults analysis software. [40924]

Mr. Ingram: The United Kingdom is a level 1 partner in the F35 Joint Strike Fighter programme and UK requirements are embedded in the contract. This includes all the software required to operate and maintain the aircraft, perform diagnostics and analyse faults.

Military Establishments (Incidents)

Mrs. Humble: To ask the Secretary of State for Defence what measures he has taken to ensure that guidance on police primacy in investigating serious incidents at military establishments is circulated outside the police community. [26304]

Mr. Ingram: Guidance on 'The Reporting and Investigation of Crime and Other Disciplinary Offences in the Ministry of Defence, Armed Forces and Defence Estates in the United Kingdom' is contained within Defence Council Instruction (DCI) General 117/03.

The DCI, which is widely available in the MOD outside the police community, gives comprehensive and clear guidance to Commanding Officers/Heads of Establishment, the Ministry of Defence Police (MDP), the Service Police and others on police primacy and jurisdiction of all offences committed on and off military establishments.

The MDP also has a Protocol with the Home Department Police Forces (HDPF) which covers, among other things, primacy of investigations. This protocol is currently being renegotiated to include the Service Police.

These documents have been supplemented by a further protocol between my right hon. Friend the Secretary of State for Defence and the Association of Chief Police Officers, which reinforces the fact that primacy for investigating all deaths (and serious injury likely to prove fatal) of any person occurring on or in military establishments in the UK rest with the Chief Officer of the HDPF under whose jurisdiction the incident occurs.

Guidance has also been drafted which provides advice to non-police Service personnel regarding the action to be taken on discovering a serious incident. This guidance provides specific advice regarding crime-scene preservation and the reporting of incidents to the relevant police agencies that have primacy for dealing with the matter. This advice is currently in the final stages of the staffing process and will be disseminated widely in the very near future.

Ministerial Travel

Norman Baker: To ask the Secretary of State for Defence how much has been spent in each year from 1 May 1997 on ministerial travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27662]

Mr. Touhig: All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Library of the House.

Within the Ministry of Defence, the ministerial car for the Secretary of State is provided by the Government Car and Despatch Service and all other ministerial cars are provided internally.

For Ministerial cars provided by the Government Car and Despatch Service, my hon. Friend the Parliamentary Secretary at the Cabinet Office (Mr. Murphy) has asked Roy Burke, Chief Executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library of the House.

For information for the financial years 2000–01 to 2003–04, I refer the hon. Member to the letters from the chief executive of the GCDA to the hon. Member for Buckingham (John Bercow) of 10 January 2005 and to the then hon. Member for Arundel and South Downs (Howard Flight) of 13 September 2003. Copies of these letters are available in the Library of the House.

For ministerial cars provided internally by the Ministry of Defence, the aggregate direct costs for each year since 1997 are as follows:

	£
1997–98	135,000
1998–99	138,000
1999–2000	138,000
2000–01	138,000
2001–02	144,000
2002–03	146,000
2003–04	142,000
2004–05	142,000

It should be noted that the costs relate to the total expenditure incurred for each vehicle and include some costs incurred while supporting departmental staff other than Ministers. It is not practicable to break out the details, and they could be provided only at disproportionate cost.

For overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas, costing £500 or more during each financial year, undertaken by Cabinet Ministers. The Government have also published annually the cost of all Ministers' visits overseas. Copies of the lists are available in the Library of the House. These report information for the financial years 1995–96 to 2004–05. Information for 2005–06 will be published as soon as it is ready after the end of the current financial year.

Information about other ministerial travel is not held centrally and could be provided only at disproportionate cost.

Troop Deployments

Tony Baldry: To ask the Secretary of State for Defence how many UK troops he expects to be based in Northern Ireland at the end of 2006. [40316]

Mr. Ingram: As at the 30 November 2005 there were some 9,500 armed forces personnel (Navy, Army and RAF) stationed in Northern Ireland. I expect this number to reduce during 2006 as the armed forces move towards the permanent military garrison of no more than 5,000 by 1 August 2007, envisaged in the revised Annex to the Joint Declaration published by the Government last year. A structured plan for the reduction will be published by 31 March 2006.

RAF Aircraft

Mr. Bone: To ask the Secretary of State for Defence what the original in-service date was of *(a)* the Eurofighter Typhoon, *(b)* the Joint Strike Fighter and *(c)* the Nimrod MRA4; and what the current estimated in-service date is. [40403]

Mr. Ingram: The original estimated in-service date and the current estimated in-service date (MPR 2005) are:

	Original estimated in-service date	*Current estimated in-service date*
Nimrod MRA4	December 2000	The in-service date for this project will not be set until the Main Gate approval for Production.
Eurofighter Typhoon	December 1998	June 2003 (achieved)
Joint Strike Fighter	December 20 12 (planning assumption only)	The in-service date for this project will not be set until the Main Gate approval for Production.

Mr. Bone: To ask the Secretary of State for Defence what the original cost was of the *(a)* Nimrod MRA4, *(b)* Eurofighter Typhoon and *(c)* Joint Strike Fighter; and what the current estimated cost is in each case. [40404]

Mr. Ingram: The original cost and the current estimated cost (MPR 2005) are:

£ billion

	Original cost	*Current estimated cost*
Nimrod MRA4	2.8	3.8
Eurofighter Typhoon	16.7	—
Joint Strike Fighter (demonstration phase only)	2.2	1.9

The current estimated cost of Typhoon is not included as it is commercially sensitive.

Service Quarters

Pete Wishart: To ask the Secretary of State for Defence how many married quarters are available to each of the armed forces in *(a)* Scotland, *(b)* Wales, *(c)* each of the English regions and *(d)* Northern Ireland, broken down by location; how many are occupied by families; how many are subject to demolition; how many are to be disposed of on the private market; how many have been disposed of on the private market in each year since 7 May 1997; what the sale price for each was (i) at the time of sale and (ii) at current prices; and whether the money accrued was (A) retained by his Department and (B) claimed by the Treasury. [40131]

Mr. Touhig: As at December 2005 the number of available service families accommodation (SFA) in Great Britain was some 52,000. These are allocated on a tri-service basis and not by single service arrangements. The following self explanatory table provides as much of the information requested as is available.

The majority of the SFA in England and Wales was sold to Annington Homes Ltd. (AHL) under the terms of the November 1996 sale agreement and are leased back from AHL, for use by the Ministry of Defence (MOD). Properties owned by AHL, for which the Department has no long-term service requirement, are released to AHL who then make a commercial judgment (in which the Department has no involvement) as to the disposal route. Housing stock for Scotland and Northern Ireland remains in MOD ownership.

The number of SFA disposed of on the private market in each year since 7 May 1997 is not held centrally and to collate such detail would incur disproportionate cost. The sale price for individual houses, or groups of houses remains commercially confidential.

Since May 1997, around 13,000 properties have been released back to AHL. A profit share agreement is currently in place as part of the AHL sale agreement, which allows Government participation in any profit AHL may make over certain agreed levels. Since 1996, £126 million has been paid to HM Treasury under this arrangement.

In terms of the disposal of properties remaining in MOD ownership this often forms part of larger disposals and it is thus not possible to identify separately the sums received for individual properties.

Areas of service housing

	Counties covered	*Available stock*	*Number occupied by service families*	*Properties identified for possible demolition*	*Being considered for future disposal on the open market*	*For return, or possible future return to Anningtons*

[1] Not applicable in Scotland.
[2] 90 houses at Ballykelly have recently been disposed of by auction.

CABINET OFFICE

Government Car and Despatch Agency

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster what the running costs of the Government Car and Despatch Agency were in each of the past five years. [39655]

Mr. Jim Murphy: The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car Despatch Agency. I have asked its chief executive Mr. Roy Burke to write to the hon. Member. Copies of his letter will be placed in the Library.

Press Complaints Commission

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster if he will list the occasions since 1997 when the Government has referred a matter to the Press Complaints Commission. [40434]

Mr. Jim Murphy: This is a matter for individual departments. The information requested is not held centrally.

FOREIGN AND COMMONWEALTH AFFAIRS

African Union Summit

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the African Union (AU) regarding cancellation of the extraordinary summit of the AU scheduled for January 2006 in Khartoum. [40419]

Ian Pearson: My noble Lord the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, is in regular contact with the African Union (AU) about a wide range of issues, and most recently met with senior AU officials during a visit to Addis Ababa on 17 December. It is for the AU to decide whether and where to hold its Assemblies of Heads of State and Government, the next ordinary session of which is scheduled for Khartoum, in late January.

British Overseas Territories

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the elected governing authorities of *(a)* Guernsey, *(b)* Jersey, *(c)* the Isle of Man, *(d)* the Falkland Islands, *(e)* Gibraltar, *(f)* Saint Helena *(g)* Anguilla, *(h)* Montserrat, *(i)* Bermuda, *(j)* the British Virgin Islands, *(k)* the Turks and Caicos Islands and *(l)* the Cayman Islands about their domestic monetary and fiscal policies since 1997. [39221]

Mr. Douglas Alexander: Guernsey, Jersey, and the Isle of Man, are dependencies of the Crown. The Department for Constitutional Affairs is the formal point of communication between the UK and the Island Authorities. My right hon. Friend the Foreign Secretary has made no representations to the Government of Guernsey, Jersey, or the Isle of Man about their domestic monetary and fiscal policies since 1997.

Under their respective constitutions, the United Kingdom has for the most part devolved responsibility for domestic monetary and fiscal policies to the Overseas Territories (OT) Governments of Falkland Islands, Gibraltar, Saint Helena, Anguilla, Montserrat, Bermuda, the British Virgin Islands, the Turks and Caicos Islands, and the Cayman Islands. Foreign and Commonwealth Office Ministers and officials are in frequent and regular dialogue with OT Government Ministers and officials on a broad range of issues, including matters related to monetary and fiscal policy. However, in the case of Gibraltar, some parts of the EC Treaty apply to Gibraltar by virtue of Article 299(4) of that Treaty, and therefore the Government of Gibraltar (GoG) has an obligation to transpose EU legislation in domestic law including in financial areas, where appropriate. The Government liases with GoG to help them undertake this transposition. But policy remains in the hands of GoG.

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs what powers of representation in international bodies he has in relation to the domestic monetary and fiscal policies of *(a)* Guernsey, *(b)* Jersey, *(c)* the Isle of Man, *(d)* the Falkland Islands, *(e)* Gibraltar, *(f)* Saint Helena *(g)* Anguilla, *(h)* Montserrat, *(i)* Bermuda, *(j)* the British Virgin Islands, *(k)* the Turks and Caicos Islands and *(l)* the Cayman Islands. [39222]

Mr. Douglas Alexander: Under their respective constitutions, the Governments of the Crown Dependencies (CDs) have competence for domestic monetary and fiscal policies, as do, for the most part, the Governments of the Overseas Territories (OTs). However, the UK is responsible for the international relations of the CDs and the OTs. As far as possible, we encourage OT and CD Governments to participate as part of the UK delegation at relevant international meetings. Where appropriate, OTs and CDs may attend international meetings in their own right. The OTs and CDs are not members of the World Bank or the International Monetary Fund (IMF), as they are not independent countries, and so do not attend World Bank or IMF meetings. In the case of Gibraltar, which is a part of the European Community, it is the responsibility of the UK to represent Gibraltar's interests there.

Departmental Advice

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent advice he has received from Mockbul Ali, departmental Islamic issues adviser, on *(a)* the Muslim Brotherhood and *(b)* Jamaal-e-Islami; and if he will make a statement. [39637]

Dr. Howells: The Foreign and Commonwealth Office (FCO) Islamic issues adviser is a position based in the FCO's Engaging with the Islamic World Group and contributes to the work of that group accordingly. With respect to advice given by the group, I refer my hon. Friend to the answer given by the Parliamentary Under-Secretary of State for Home Affairs (Paul Goggins) on 20 December 2005, *Official Report*, column 2654W.

Egypt

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of Egypt on the use of torture of prisoners. [40555]

Dr. Howells: We regularly discuss human rights issues with the Egyptian government, most recently on 22 December. The last time the issue of torture was specifically raised was in April 2005.

Eritrea

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government have made direct representation to the Eritrean President, Isaias Afewerki, concerning the the decision to expel UN peacekeepers. [40647]

Ian Pearson: We have not talked to the President of Eritrea directly. However, my noble Friend the Minister for Africa, Lord Triesman of Tottenham, summoned the Eritrean ambassador on 9 December to make clear the EU's concern about Eritrea's decision to expel monitors of certain nationalities serving with the UN Mission to Ethiopia and Eritrea. We also supported a UN Security Council Presidential Statement, which declared that the Eritrean action was unacceptable and demanded its immediate and unequivocal reversal without preconditions. To date, the President of Eritrea, Isaias Afewerki, has declined to meet representatives of the international community including the UK to discuss this issue.

Ethiopia

Mr. Rob Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will condemn the ongoing human rights violations in Ethiopia; if he will take and take *(a)* economic and *(b)* diplomatic action to press the Government of Ethiopia to (i) release immediately opposition party leaders, supporters and journalists, (ii) cease the killing, arrest and intimidation of political opponents, (iii) accept an independent investigation into the June and November killings of civilians and (iv) start immediately the political process to resolve the issues regarding the May election. [39241]

Ian Pearson: We continue to monitor the human rights situation and have expressed our concerns to the Ethiopian Government. We condemned the tragic loss of life of both civilians and members of the security forces in the civil unrest of June and November. My noble Friend the Foreign and Commonwealth Minister for Africa, Lord Triesman of Tottenham, raised our concerns about the current political crisis and the aftermath of the elections with Prime Minister Meles, during his visit to Ethiopia on 17 December.

We continue to work with the Government of Ethiopia and other stakeholders for progress on human rights and governance issues. Along with our EU and US partners, we have called for the release of all political detainees, including opposition leaders and for those individuals not charged under due process to be released immediately. We have also called for full access to those detained for their families, legal counsel and representatives of the International Community of the Red Cross or other appropriate representatives of the international community.

Prime Minister Meles has, through Parliament, established a Commission of Inquiry into the unrest. We continue to urge the Government of Ethiopia to engage in dialogue with opposition political parties and other stakeholders to resolve the crisis that followed the May 15 election.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received regarding *(a)* violence and *(b)* mass detentions in Ethiopia. [40587]

Ian Pearson: Since 1 November to date, our records show that we have received 10 written Parliamentary Questions, and 41 letters from Members of Parliament, including those from Members of the European Parliament, and 12 letters and seven emails from members of the public.

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings of the *(a)* Joint Committee (EC-Laos), *(b)* MED Committee (Financial and technical cooperation between the Community and Mediterranean non-member countries) and *(c)* Joint Committee (EEC-Paraguay) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39045]

Mr. Douglas Alexander: Two meetings of the MED Committee have taken place during the UK presidency, on 13 July and 14 September 2005. As EU presidency the UK presided over the meeting. The UK was represented by officials from the Department for International Development. The EC Paraguay Joint Committee met on 14 November 2005. The UK presidency was represented by the local Italian presidency. There have been no meetings of the EC Laos Joint Committee.

The Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government), a copy of which is available at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf.

Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

Far-Filastin Jail (Damascus)

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the evidence of the alleged use of torture in the Far-Filastin jail in Damascus; when this assessment was last revised; and if he will make a statement. [34344]

Dr. Howells: We have not made an assessment of the evidence of the alleged use of torture in the Far Filastin prison.

We have a number of serious concerns about Syria's human rights record, in particular the continued practices of torture, arbitrary arrests, unfair trials and the detention of political prisoners which run contrary to international human rights norms. We regularly raise our concerns about Syria's human rights record, both bilaterally and through the European Union.

Guatemala

David Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his Guatemalan counterpart about the status and treatment of Guatemalan women. [40819]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary has not recently discussed the status and treatment of Guatemalan women with his Guatemalan counter-part. However, the UK holds regular discussions on human rights, including women's rights and violence against women, with the Guatemalan authorities.

On 7 October 2005, officials from the British embassy in Guatemala met a representative from the human rights prosecutor's office of the Guatemalan public prosecutor's office to discuss, in particular, the recent rise in violent acts against women in Guatemala. A representative from Guatemala's network for the prevention of violence against women was also present.

Interest Rates

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how often he has received representations from the elected governing authorities of *(a)* Guernsey, *(b)* Jersey, *(c)* the Isle of Man, *(d)* the Falkland Islands, *(e)* Gibraltar and *(f)* Saint Helena about interest rates set by the Bank of England since 1997. [39220]

Mr. Douglas Alexander: Guernsey, Jersey, and the Isle of Man, are dependencies of the Crown. The Department for Constitutional Affairs is the formal point of communication between the UK and the island authorities. My right hon. Friend the Foreign Secretary has received no representations from the Government of Guernsey, Jersey, or the Isle of Man about interest rates set by the Bank of England since 1997.

The Foreign and Commonwealth Office (FCO), as appropriate in conjunction with the Department for International Development (DfID), takes lead responsibility for the Government on issues pertaining to the UK Overseas Territories (OTs). FCO, and where appropriate DfID, Ministers and officials are in frequent and regular dialogue with OT Government Ministers and officials on a broad range of issues. We have no records of my right hon. Friend the Foreign Secretary receiving representations from the Government of the Falkland Islands, Gibraltar, or Saint Helena about interest rates set by the Bank of England since May 1997.

Iran

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of statements by the President of Iran denying the Holocaust. [40552]

Dr. Howells: My right hon. Friend the Foreign Secretary has condemned unreservedly the comments in which President Ahmadinejad denied the existence of the Holocaust. He has called the President's remarks wholly unacceptable, and said they have no place in civilised debate. President Ahmadinejad's remarks were also condemned by the United Nations Security Council and by European Union Heads of Government, with our full support.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals the Government have put to the International Atomic Energy Agency concerning Iran's nuclear power programme; and if he will make a statement. [40378]

Dr. Howells: The E3/EU and the International Atomic Energy Agency (IAEA) want Iran to take steps that will build international confidence that its nuclear programme is for solely peaceful purposes and to address in full the requests of the IAEA Board of Governors. The IAEA has not been a party to discussions between the E3/EU and Iran, which are political rather than technical in nature, but are kept fully informed of developments and proposals. We welcome the IAEA's work in monitoring Iran's implementation of its Safeguards Agreement.

Israel's Security Wall

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on Israel's security wall; and what assessment he has made of the effect the wall will have on *(a)* communities living near the wall and *(b)* the future for peace between Palestine and Israel. [39876]

Dr. Howells: We remain very concerned with the current routing of the barrier on occupied land, which is contrary to international law and we have communicated our concerns clearly to the Israelis. We recognise Israel's right to self defence against terrorism and a barrier is a reasonable way to do this, as long as it is on or behind the Green Line and has a minimal effect on the communities living in close proximity to it.

We believe that the full implementation of the Roadmap by both Parties is the best way to achieve peace in the region.

Mohammed Haydar Zammar

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations *(a)* he, *(b)* his Department and *(c)* other members and representatives of the UK Government have received during the UK's presidency of the EU about the (i) whereabouts and (ii) (A) the grounds for detention of and (B) conditions of detention of Mohammed Haydar Zammar; and if he will make a statement; [34345]

Syria

(2) what discussions *(a)* he, *(b)* his Department and *(c)* other Members and representatives of the UK Government have had during the UK's presidency of the EU with (i) Members and representatives of the Government of Syria and (ii) Members and representatives of the Administration of the US about

the (A) whereabouts and (B) (1) grounds for detention and (2) conditions of the detention of Mohammed Haydar Zammar; and if he will make a statement. [34346]

Dr. Howells: No representations have been received or discussions had by the Government or by officials during the UK's presidency of the European Union in relation to the case of Mohammed Haydar Zammer.

Small Arms

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK Government are taking to control the *(a)* proliferation and *(b)* misuse of small arms around the world. [40231]

Dr. Howells: The UK is one of the most active participants in international efforts to combat the global proliferation of Small Arms and Light Weapons (SALW). We have allocated £13.25 million to a UK SALW strategy over the period 2004–07. We are also one of the largest donors supporting the UN effort to combat the proliferation of SALW. UK funding assists UN agencies, regional organisations, governments and non-governmental organisations. Since 2004 we have supported work on strengthening controls on trade in SALW; collecting, managing and destroying weapons and ammunition; reducing demand; implementing existing regional agreements; devising national action plans and helping build the capacity of local civil society.

South Africa (Biological Materials)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment the Government have made of the extent to which all the materials detailed in the biological materials inventory assembled by South Africa's Project Coast have been *(a)* recovered and secured by the South African Government and *(b)* destroyed in accordance with international treaty obligations; and if he will make a statement. [40632]

Dr. Howells: We have no reason to doubt that relevant biological materials assembled by South Africa's Project Coast programme have been secured, recovered and destroyed as appropriate.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Sudan concerning its continuing detention of individuals arrested in the aftermath of the death of Dr. John Garang. [39627]

Ian Pearson: We have held several discussions with the Government of Sudan about the detention of individuals arrested in the civil disturbances that followed the death of First Vice President Dr. John Garang in a helicopter accident on 30 July. The UK and international partners held detailed discussions with the Sudanese Advisory Council for Human Rights on 1 December 2005 on this issue. We have consistently made clear that charges must be brought against anyone in detention swiftly, and that all detainees in Sudan be given prompt access to legal assistance. During this meeting the Advisory Council for Human Rights agreed to examine a number of individual cases, including those raised in the Khartoum Monitor on 30 November.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Sudan concerning its reform of its judiciary and legal systems. [39628]

Ian Pearson: The UK makes regular representations to the Government of Sudan on the need to ensure its judicial process is fair and transparent. We also regularly raise our concerns on a number of individual cases with the Government. We are pleased that, under the provisions of the Comprehensive Peace Agreement, the parties have committed themselves to a comprehensive review of the Sudanese judicial system, and to guaranteeing free and fair trials for all and complying fully with international human rights treaties. The UK plans to play a leading role in supporting reform of the Sudanese justice sector. As part of our £7.2 million programme in this area, we are working to provide assistance to the National Judicial Service Commission, which is tasked with monitoring this process. We are also funding programmes through the UN Development Programme and the Sudanese Organisation Against Torture to support legal aid training and to raise awareness of human rights standards.

Mr. Rob Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the African Union force in Darfur. [40788]

Ian Pearson: The African Union Mission in Sudan (AMIS) has established an increasingly effective presence in Darfur, and, in his most recent report on Darfur, the UN Secretary-General praises their 'commendable efforts'. AMIS now numbers some 6,885 personnel, including 1,300 African Union (AU) police officers. The UK and other international partners recently participated in a joint assessment mission with the AU to examine the effectiveness of the mission. The recommendations and conclusions of this report are due to be discussed by the AU at their Political and Security Council meeting on 12 January. We have made clear that we stand ready to help the AU implement the recommendations of this report and improve the effectiveness of the mission, most recently at the EU/AU Troika in Bamako on 2 December 2005, when the issue was raised by my noble Friend, Lord Triesman of Tottenham, the Minister for Africa.

The UK has committed £19 million funding this financial year to AMIS. This brings our total contribution to AMIS, since its inception, to almost £32 million. This money is to provide equipment, including a further 460 vehicles in addition to the original 450, as well as military and civilian policing advice, expertise and training. Some of our contribution will also fund airlift of troops into Darfur, and further troop rotation this year.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the prospect of progress being made at the Abuja peace talks. [39695]

Ian Pearson: The Darfur peace talks continue in Abuja, Nigeria, between the Government of Sudan and the Sudan Liberation Movement/Army and the Justice and Equality Movement. The Parties are now discussing all three key issues—Power Sharing, Wealth Sharing and Security Arrangements—concurrently. Rather faster progress has been made on wealth sharing than the other two strands. The UK provides two security experts, and a negotiations expert to assist the African Union (AU) mediation. We are urging the parties to make more rapid headway and stand ready to provide further experts to assist the AU mediators. We welcome the Chairman's announcement that the talks will now sit in permanent session. We remain firmly committed to the Abuja process, and plan to maintain a UK presence throughout the talks, in support of the mediation and the parties.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what factors underlay the decision not to add to the United Nations sanctions list members of the Sudan *(a)* government, *(b)* military and *(c)* Janjaweed who are suspected of war crimes; [39710]

(2) what discussions he has had with his counterparts at the UN about implementing sanctions against those suspected to be guilty of war crimes and crimes against humanity in Darfur; [39711]

(3) what discussions he has had with members of the UN Security Council on the implementation of the recommendations of the Sanctions Committee Panel of Experts in Darfur; [40491]

(4) when he expects sanctions and penalties to be imposed by the UN Sanctions Committee upon those individuals listed by the Panel of Experts on Darfur; and what assessment he has made of the reasons they have not yet been imposed. [40504]

Ian Pearson: The Panel of Experts established under UN Security Council Resolution 1591 presented their report and recommendations to the Sanctions Committee on 23 December. Discussions on the Panel's recommendations, and the possible imposition of sanctions on individuals, will take place in the Sanctions Committee in the coming days. We are pressing for swift action on the Panel's recommendations. We are determined to make full use of the existing sanctions, and continue to press for the arms embargo on Darfur to be extended to the whole country.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what financial and technical resources have been provided by his Department to the African Union force in Darfur to strengthen its capacity to protect civilians. [40414]

Ian Pearson: The UK has committed £19 million funding this financial year to the African Union Mission in Sudan (AMIS). This brings our total contribution to AMIS, since its inception, to almost £32 million. This money is to provide equipment, including the purchase of a further 460 vehicles in addition to our original 450, as well as military and civilian policing advice, expertise and training. Some of our contribution will also fund airlift of troops into Darfur, and further troop rotation this year. These contributions will assist the African Union in carrying out their mandate, including contributing to a more secure environment. However the primary responsibility for the protection of its own citizens lies with the Government of Sudan.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the African Union on the *(a)* enforcement of its mandate to protect civilians in Darfur and *(b)* the protection of mass graves and other forensic evidence to support the work of the International Criminal Court. [40417]

Ian Pearson: The UK and other international partners recently participated in a joint assessment mission with the African Union (AU). This concluded that the AU Mission in Sudan's (AMIS) current mandate is adequate but is not clearly understood by commanders at all levels. We will continue to press the AU to interpret its mandate flexibly and robustly in order provide the necessary degree of protection to civilians within its capabilities.

We have regularly raised this issue of mass graves and other forensic evidence directly with the AU. We understand they are continuing their investigations into the alleged discoveries of mass graves. We also continue to urge the AU to work with and support the International Criminal Court.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the African Union (AU) regarding the rules of engagement in Darfur in relation to the use of deadly force by AU troops. [40421]

Ian Pearson: The UK and other international partners recently participated in a joint assessment mission with the African Union. Their report concluded that the present draft Rules of Engagement are effective although they have not yet been formally approved for use.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with members of the UN Security Council regarding the renewal of the mandate of the Sanctions Committee Panel of Experts in Darfur. [40492]

Ian Pearson: The United Nations (UN) Security Council adopted Resolution 1651 on 21 December which extends the mandate of the UN Panel of Experts on Darfur until 29 March 2006.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with members of the UN Security Council bringing forward a resolution calling for the Government of Sudan to *(a)* suspend from duty, investigate and prosecute Government officials suspected of human rights abuses in Darfur, *(b)* co-operate fully with the International Criminal Court Prosecutor and *(c)* stop obstructing the African Union mission. [40493]

Ian Pearson: The UN Security Council has already called for the investigation and prosecution of anyone responsible for human rights abuses and on the Government of Sudan to provide full co-operation with the African Union mission in Sudan under resolutions 1556, 1564, 1574, 1591 and 1593. Resolution 1593, which referred the situation in Darfur to the

International Criminal Court (ICC), demands that the Government of Sudan co-operate fully with the ICC investigation.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Sudan regarding the investigation and prosecution of *(a)* government officials, *(b)* military commanders, *(c)* militia personnel, *(d)* soldiers, *(e)* police officers, *(f)* intelligence officers and *(g)* members of the Popular Defence Forces implicated in serious violations of human rights in Darfur. [40495]

Ian Pearson: The Government of Sudan is fully aware of our view that they must fully investigate human rights abuses throughout Sudan and bring the perpetrators to justice regardless of their position. We continue to raise this matter with them on a regular basis.

The UK sponsored United Nations Security Council Resolution 1593 which referred the situation in Darfur to the International Criminal Court (ICC). The ICC has begun its independent investigation and will issue indictments in due course.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations have been made by his Department to the *(a)* Sudan Liberation Army and *(b)* Justice and Equality Movement on (i) respect for human rights, (ii) civilian freedom of movement and (iii) respect for humanitarian workers in Darfur. [40499]

Ian Pearson: We have made consistently clear to all parties to the conflict in Darfur, including the Sudan Liberation Army and Justice and Equality Movement, that we expect them to abide by their obligations to uphold human rights, provide freedom of movement for civilians and facilitate the work of humanitarian workers, in accordance with their obligations under UN Security Council Resolutions 1556, 1564, 1574 and 1591 as well as the Abuja Humanitarian and Security Protocols.

The parties are currently discussing general principles for security arrangements, which include the need to cease all attacks and facilitate the work of the humanitarian community. The UK observer in Abuja regularly raises these issues directly with the parties and presses them to make swift progress

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with *(a)* the Government of Sudan, *(b)* the Sudan Liberation Army and *(c)* the Justice and Equality Movement regarding the recruitment and use of child soldiers in Darfur. [40500]

Ian Pearson: We have regularly made clear to the Government of Sudan that we expect it to uphold the commitments it has made under International Human Rights law, particularly the Convention on the Rights of the Child (CRC) and its optional Protocol on the Involvement of Children in Armed Conflict. The UK led an EU demarche to the Government of Sudan on Children in Armed Conflict in July 2005.

We have also made clear to the Sudan Liberation Army and Justice and Equality Movement that the recruitment and use of child soldiers is wholly unacceptable and is in contravention of their obligations under the Abuja Security Protocol, signed on 8 November 2004, which commits both movements and the Government of Sudan to refrain from recruiting children as soldiers or combatants, and to abide by the CRC, the Optional Protocol to the CRC on the Involvement of Children in Armed Conflict and the African Charter on the Rights and Welfare of Children.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the African Union regarding strengthening the deployment of *(a)* military troops and *(b)* civilian police in Darfur. [40501]

Ian Pearson: The UK took part in an international assessment mission for the African Union Mission in Darfur in December. This has reported back to the African Union (AU) that the current size of the mission is adequate for its assigned tasks. It is for the AU to take any final decisions on force size. But we continue to offer the AU support in reinforcing the effectiveness of its mission.

Syria

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the United Kingdom's relations with Syria. [33594]

Dr. Howells: The Government have concerns about Syrian support for the insurgency in Iraq, its continued interference in Lebanon and its support for Palestinian rejectionist groups and Hizballah, which are having a destabilising effect on regional stability. My right hon. Friend the Foreign Secretary most recently raised some of our concerns with Syrian Foreign Minister Shara'a during the Euro-Med Summit in Barcelona. We want a better relationship with Syria, but Syria needs to change its behaviour and play a constructive role in the region and on the world stage.

UK Embassies/Consulates

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs whether any *(a)* embassies and *(b)* consulates are combined with two or more countries to provide a service for British citizens. [39865]

Dr. Howells: While we share office accommodation with other countries, in no single post do we provide a combined service for British citizens.

UN Convention Against Torture

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what definition the Government use of *(a)* mental and *(b)* physical severe pain or suffering as set out in Article 1 of the UN Convention Against Torture. [37965]

Mr. Straw: The international community, including the UK, has resisted formal definition of what constitutes severe physical or mental pain or suffering, as used in the UN Convention Against Torture's definition of torture. Whether any particular treatment would cause an individual severe mental or physical pain or suffering depends on the specific circumstances

of a case. A definition could not be exhaustive, leaving the possibility for argument that some types of clearly torturous behaviour were not in fact forbidden as torture. Section 134 of the Criminal Justice Act 1988 provides that a public official commits torture if he intentionally inflicts severe pain or suffering on another in the performance of his duties, and does not define "severe pain or suffering".

As the UN Human Rights Committee noted in 1992, with regard to the International Covenant on Civil and Political Rights: "The Covenant does not contain any definition of the concepts covered by article 7 [prohibiting torture, or cruel, inhuman or degrading treatment], nor does the Committee consider it necessary to draw up a list of prohibited acts to establish sharp distinctions between different kinds of punishment or treatment; the distinctions depend on the nature, purpose and severity of the treatment applied."

CONSTITUTIONAL AFFAIRS

Channel Islands

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs whether she plans to visit the Channel Islands to discuss *(a)* electoral and *(b)* legal reform. [40519]

Bridget Prentice: The Department of Constitutional Affairs is responsible for the UK's relationship with the Channel Islands and DCA Ministers visit the Islands from time to time to discuss a wide range of topics. There are no Ministerial visits planned for the immediate future.

Channel Islands are not part of the United Kingdom. They have their own legislative assemblies, administrative, fiscal and legal systems and their own courts of law. Responsibility for electoral or legal reform is a domestic matter for them.

Solicitors (Complaints Procedures)

John Mann: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the effectiveness of complaints procedures in relation to solicitors for *(a)* those with literacy problems and *(b)* other vulnerable groups. [40696]

Bridget Prentice: I am satisfied that the Law Society and the Office of the Legal Services Ombudsman (OLSO) have mechanisms in place to identify and assist customers with literacy problems, and other vulnerable groups, who wish to complain about their solicitor.

The Law Society can provide literature in different languages and in different formats, including in Braille and large print and on audiotape, and it can arrange translations and organise sign language interpreters. It can also appoint a Local Conciliation Officer where a customer requires assistance to formulate responses and encourage greater telephone communication if written communication is difficult.

The OLSO can produce information in large print and on different coloured paper and offers a translation service. It provides a tape recorder service, has a Hearing Loop installed and the facility to use BT Type Talk. In addition, its Support Staff, who receive incoming calls, have received Mental Health Awareness training.

Solicitors (New Regulatory Body)

John Mann: To ask the Minister of State, Department for Constitutional Affairs what locations she is considering for the new independent regulatory body for solicitors [40693]

Bridget Prentice: The Government published a White Paper on 17 October 2005 setting out proposals for the future of Legal Services in England and Wales.

The Government will bring forward legislation to establish a new oversight regulator, the Legal Services Board (LSB). The location of the Legal Services Board will be determined taking into account a number of factors, including putting the needs of consumers first.

HOME DEPARTMENT

2012 Olympics

Patrick Mercer: To ask the Secretary of State for the Home Department what organisational structures are being established in order to ensure the security of the London 2012 Olympics. [37795]

Paul Goggins: The security proposals were a strong feature of the London bid. The planning, preparatory and operational arrangements will be delivered through a multi agency structure that will ensure maximum priority is accorded to all aspects of security and public safety. These arrangements will be overseen by a Cabinet-style committee chaired by the Home Secretary.

Antisocial Behaviour

Mr. Oaten: To ask the Secretary of State for the Home Department what steps he has taken to encourage the take-up of individual support orders for young people subject to anti-social behaviour orders. [37758]

Mr. Charles Clarke: Promoting individual support orders (ISOs) and increasing their up-take forms part of our overall drive to reduce antisocial behaviour. The Home Affairs Committee's report on antisocial behaviour acknowledged the usefulness of ISOs in tackling antisocial behaviour and recommended additional Government funding to increase take-up. On 29 June the Government announced that they will make an extra £0.5 million available this financial year for ISOs. This money is ring-fenced and given to the Youth Justice Board (YJB) to allocate to youth offending teams (YOTs). The YJB are also promoting their take up with the YOTs.

Departmental Estate

Pete Wishart: To ask the Secretary of State for the Home Department if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and

(2) is at current prices; and whether the money accrued was (x) retained by his Department and *(y)* claimed by the Treasury. [40139]

Mr. Charles Clarke: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Expenditure

Norman Lamb: To ask the Secretary of State for the Home Department how many widescreen televisions have been purchased by his Department for use in London headquarters in each of the last five years; and what the cost was in each year. [39149]

Mr. Charles Clarke: No widescreen televisions were purchased in the five years leading up to the move to the new Home Office HQ at 2 Marsham street.

Leading up to the move to 2 Marsham street in February 2005 a business case was put forward to the Director General, Resources and Performance for a series of widescreen televisions in the new building. This was signed off.

The aim was to deliver a Home Office in-house television channel to replace posters/promotional materials etc. The business case requested 78 widescreen TVs to be ceiling and wall mounted within 2 Marsham street. No widescreen TVs were requested for other London buildings as the technology was not in place within other buildings to run this channel.

The cost was £330,000. This budget was signed off on the clear proviso that all posters (we had over 100 poster sites in the London based Home Office buildings) were to discontinue and no more centrally produced promotional materials were to be published.

By discontinuing posters/materials etc. we are making net savings of £139,000 (2005–06), £144,000 (2006–07), £149,000 (2007–08) and £154,000 (2008–09). The cost of procuring and delivering the widescreen TV channel would therefore be covered and breaking even by 2008.

Departmental Property

Mr. Weir: To ask the Secretary of State for the Home Department what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of (i) his Department and (ii) each (A) non-departmental public body, (B) Executive agency and (C) other public body for which his Department is responsible in each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40075]

Mr. Charles Clarke: This information is not held centrally and could be prepared only at disproportionate cost.

Departmental Staff

Dr. Cable: To ask the Secretary of State for the Home Department what plans he has to relocate staff in his Department and related agencies into London and the South East. [31743]

Mr. Charles Clarke: There are no plans to relocate staff into London and the South East.

Economic Crime Units

Jim Cousins: To ask the Secretary of State for the Home Department whether the economic crime unit of the Metropolitan police and the city of London police are to merge; and what their relationship is with the Serious Organised Crime Agency. [37429]

Paul Goggins: The Attorney General commissioned a national review of fraud, reporting in spring 2006. Until the findings of the review are known, it would not be appropriate to comment on potential options for change. The Serious Organised Crime Agency will commence operations in April 2006 and until then work is in hand to develop effective relationships between the agency and all police forces nationwide.

Emergency Vehicles (Speeding)

Mr. Spellar: To ask the Secretary of State for the Home Department what advice is given to police forces regarding prosecution of drivers of emergency vehicles breaking the speed limit. [40278]

Paul Goggins: This is an operational matter for the police. The Association of Chief Police Officers (ACPO) wrote to all forces in summer 2004 with a protocol for dealing with emergency service vehicles detected by camera when being driven in excess of the speed limit. This provided that as a rule no further action would be taken where vehicles were clearly displaying their emergency blue lights. General guidance is also given in the revised version of their Code of Practice for Operational Use of Road Policing Enforcement Technology, issued in November 2004. The code is available on the ACPO website at www.acpo.police.uk.

Parliamentary Questions

Mr. Maples: To ask the Secretary of State for the Home Department when he will answer questions *(a)* 26311, *(b)* 26309 and *(c)* 26310 tabled by the hon. Member for Stratford-on-Avon on 3 November. [33014]

Mr. Charles Clarke: The answers to parliamentary questions number 26309, *Official Report*, column 39W and 26310, *Official Report*, columns 39–40W, were published on 28 November 2005. The answer to parliamentary question number 26311, *Official Report*, column 2225W, was published on 15 December 2005.

People Trafficking

Nick Harvey: To ask the Secretary of State for the Home Department what plans he has to provide funding for the POPPY project beyond March; and whether his Department is planning to expand support and rehabilitation provision for the victims of trafficking. [40655]

Paul Goggins: Home Office funding for the POPPY scheme since March 2003 stands at around £1.5 million. The grant funding agreement with Eaves Housing for Women, the current service provider, was due to end in September 2005 but was extended to the end of March this year to enable completion of work on the formal evaluation of the scheme and consideration of the

evaluation findings, we propose to increase the geographical coverage of support services for victims and introduce support at varying levels of intensity according to individual need. We are currently running a competitive exercise to test the extent to which the current Home Office grant to Eaves Housing represents value for money, and to select a provider for support services to this group of victims from April 2006 until March 2008. Eaves Housing is amongst the organisations invited to submit a bid for Home Office funding for services for this group. The selection exercise commenced on 20 December and will conclude in mid-late February 2006 with the award of a two year grant funding agreement. Further information about the UK strategy on human trafficking, including plans for support for victims of trafficking are contained in the document "Tackling Human Trafficking—Consultation on Proposals for the UK Action Plan". The consultation document can be found on the Home Office website at:

http://www.homeoffice.gov.uk/about-us/haveyoursay/curren-consultations.

Nick Harvey: To ask the Secretary of State for the Home Department what assessment has been made of the effect of the closure of the safe house for trafficked 16 and 17 year-olds which was trialled in Sussex in April 2004; and what plans he has to provide support services to child victims of trafficking. [40656]

Paul Goggins: The provision of "safe houses" for victims of trafficking is a long-standing concern of voluntary organisations and practitioners working in this field. A safe house for minors was set up by West Sussex social services in 1995 following a number of disappearances of West African girls in local authority care. Voluntary organisations welcomed the provision but unfortunately 50 percent. of the girls went missing, with fears that the safe house had been infiltrated by traffickers. West Sussex social services department took the decision to close the house and provide foster placements instead. A further safe house was set up by Integrated Care in West Sussex, but was closed shortly after it opened in early June 2005 following a lack of referrals by local authorities. It is recognised that child victims of trafficking will be in need of welfare services and protection under the provisions of Child Care Legislation.

Local authorities have a duty to safeguard and promote the welfare of children in need or at risk of harm by providing a range and level of service appropriate to each child's needs. Government funding is allocated to local authorities with Children's Services responsibilities on the basis of the needs of their populations. A supplement is paid to children's services authorities which accommodate unaccompanied asylum seeking children, some of whom may have been victims of trafficking. Home Office officials are giving further consideration to ways in which the options available to safeguard and support child victims of trafficking might be extended. This includes re-examining the potential value of providing dedicated and secure accommodation and specialist professional foster care placements.

Proceeds of Crime Act

Mr. Hurd: To ask the Secretary of State for the Home Department how much money seized as a result of the Proceeds of Crime Act 2002 was invested in *(a)* Hillingdon and *(b)* Greater London in each year of its operation; and if he will make a statement. [39456]

Paul Goggins: Information is not available in the form requested. Receipts from recovered criminal assets are allocated to a range of initiatives. The Recovered Assets Incentive Fund was set up in 2003–04 to incentivise asset recovery by asset recovery agencies. £15.5 million a year for three years was allocated to the Fund. From the Fund, four new multi-agency Regional Asset Recovery Teas (RARTs) were set up to disrupt criminal groups, confiscate more criminal assets and to tackle money laundering. The London Regional Asset Recovery Team was allocated £4.3 million over three years

£7 million a year for three years have been made available separately for investment in community based projects in England and Wales.

In addition a new police incentivisation scheme introduced in 2004–05 has enabled police forces in England and Wales, and the Police Service of Northern Ireland, to receive a share of the criminal assets they recover locally. Under the scheme the Metropolitan Police Service received over £4 million this financial year based on its performance in 2004–05.

From 2006–07 a new incentive scheme will operate under which all agencies involved in asset recovery will get back 50 per cent. of the assets they recover.

Mr. Jenkins: To ask the Secretary of State for the Home Department what plans he has to increase the share of income from the Proceeds of Crime Act 2002 that is allocated to the police force that recovered it; and if he will make a statement. [40827]

Paul Goggins: As agreed with the Association of Chief Police Officers (ACPO), under the police incentivisation scheme the police service receive one-third of the total assets recovered over and above £40 million in 2004–05, increasing to one half in 2005–06. The Government are spending more than the first £40 million to support existing spending commitments in the asset recovery field. It was also agreed with ACPO that incentive payments would be based on each force's annual performance in the recovery of criminal assets. There are no plans to change this agreement. However, the Home Secretary announced last November that Home Office funding of £2.6 million per year for financial investigators in police forces, which was due to end in March, would be extended for a further year. From 2006–07 a new incentive scheme will operate under which all agencies involved in asset recovery, including the police service, will get back 50 per cent. of what they recover. There are at present no plans to increase this share.

Rates

Angus Robertson: To ask the Secretary of State for the Home Department how much was paid in rates to each relevant local authority in relation to his central headquarters function in 2004–05. [39174]

Mr. Charles Clarke: My Department paid £5.6 million to city of Westminster in respect of its central London headquarters function during financial year 2004–05. This may be adjusted downwards on completion of current negotiations to settle the rateable value of 2 Marsham street.

Regional Offices

Mrs. Spelman: To ask the Secretary of State for the Home Department (1) which *(a)* non-departmental public bodies and *(b)* executive agencies within the remit of his Department have regional offices based on the Government Offices for the Regions' regional structure; and when the regional offices were established in each case; [15193]

(2) what regional *(a)* bodies, *(b)* institutions, *(c)* taskforces, *(d)* panels, *(e)* offices and *(f)* organisations have been established since May 1997 which are the responsibility of his Department. [15194]

Mr. Charles Clarke: The majority of my Department's services are arranged nationally. However, in bringing increased local focus to delivering public priorities, since 1997, my Department has established the following regional bodies: 354 Crime and Disorder Reduction Partnerships in England and 22 Community Safety Partnerships in Wales. 49 Drug Action Teams in England were first established in 1995, but realigned with local authority boundaries in April 2002 The bodies in the following table have been closed or reclassified since 1997:

	Name	*Date closed*
1.	Holocaust Memorial Day Project Delivery Co-ordination Group. Replaced by the "Holocaust Memorial Day Trust" which is an independent charity under the Charity Commission.	2005
2.	Task Force on Child Protection on the Internet (reclassified an informal expert stakeholder group)	Reclassified 2005
3.	Vehicle Crime Reduction Action Team	Reclassified 2005
4.	Community Builders Group	Renamed 2004
5.	Criminal Records Bureau—Consultative Panel (formerly Customer Forum)	2004
6.	Firearms Consultative Committee	2004
7.	Police Complaints Authority	2004
8.	Advisory Board of Restricted Patients	2003
9.	Community Capacity Building Group	2003
10.	Fundamental Review of the Coroners System	2003
11.	Group on Developing Capacity in the Voluntary and Community Sector	2003
12.	Ministerial Advisory Group on Retail Crime	2003
13.	Retail Crime Reduction Action Team (RCRAT)	2003
14.	Working Group on Police Performance and Best Value	2003
15	Criminal Records Bureau—Ministerial Advisory Board	2002
16.	Property Crime Reduction Action Team	2002
17.	Working Group on Resourcing Community Capacity	2002
18.	Home Secretary's Mobile Phone Theft Group	2001
19.	National Crime Reduction Task Force	2001
20.	Working Group on Misuse of Public Office	2001
21.	Active Community Unit Research Forum	2000
22.	Interception of Communications Tribunal	2000
23.	Intelligence Services Tribunal	2000
24.	Security Service Tribunal (Items no. 22–24 were replaced by the Investigatory Powers Tribunal under S65 of the Regulation of Investigatory Powers Act 2000)	2000
25.	Metropolitan Police Committee	2000
26.	Review of the Law Relating to Involuntary Manslaughter	2000
27.	The Criminal Injuries Compensation Board	2000
28.	Review of the Law Relating to Criminal Memoirs	1998
29.	Misuse of Drugs Advisory Body	1998
30.	Misuse of Drugs Professional Panel	1998
31.	Misuse of Drugs Tribunal	1998

Rental Costs

Mr. Weir: To ask the Secretary of State for the Home Department how much was paid in rent for properties used for his central headquarters function in 2004–05. [39115]

Mr. Charles Clarke: My Department paid £15.9 million in rent in respect of property used for its central London headquarters function during financial year 2004–05.

Serious Organised Crime Agency

Mr. Hayes: To ask the Secretary of State for the Home Department if he will make a statement on the nature of changes to the oath of allegiance to follow the establishment of the Serious Organised Crime Agency. [39799]

Paul Goggins: There will be no changes to the oath of allegiance following the establishment of the Serious Organised Crime Agency.

Special Advisers

John Hemming: To ask the Secretary of State for the Home Department if he will list the special advisers in post in his Department, broken down by pay band; and what the total budgeted cost to his Department of special advisers is for 2005–06. [29408]

Mr. Charles Clarke: I refer the hon. Member to the answer given by the Parliamentary Secretary of the Cabinet Office on 16 November 2005, *Official Report*, column 1258W.

Information relating to costs for 2005–06 will be published after the end of the current financial year.

David Davis: To ask the Secretary of State for the Home Department how many special advisers have been employed by the Home Office in each year since 1997; and what the average salary has been for specialist advisers in each year. [31738]

Mr. Charles Clarke: Numbers of special advisers employed by the Home Office since 1997 are listed as follows:

	Number
1997–98	2
1998–99	2
1999–2000	2
2000–01	4
2001–02	4
2002–03	4
2003–04	4
2004–05	3
Currently	3

Special advisers are paid according to the relevant Cabinet Office pay scales.

Sports Grounds (Arrests)

Sarah Teather: To ask the Secretary of State for the Home Department how many arrests there were at *(a)* cricket grounds, *(b)* football grounds, *(c)* Rugby Union grounds, *(d)* Rugby League grounds, *(e)* horse racing tracks and *(f)* motor racing tracks in the last 12 months. [40389]

Paul Goggins: During the 2004–05 football season there were 3,628 football-related arrests, an 11 per cent. decrease on the previous season's total. Arrest data are not collated centrally for the other sporting events.

Traffic Offences

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were convicted of motoring offences in (i) Southend, (ii) Essex and (iii) England and Wales in 2004, broken down by offence. [39717]

Paul Goggins: The information from the court proceedings database held by the Office for Criminal Justice Reform is contained in the table and give the number of males and females found guilty of motoring offences by offence class in South East Essex petty sessional area (Southend), Essex police force area and England and Wales 2004.

Number of offenders found guilty of motoring offences by gender and offence class at all courts in South East Essex petty sessional area, Essex police force area and England and Wales, 2004[1]

Offence class	*South East Essex PSA*[2]		*Essex*		*England and Wales*	
	Males	*Females*	*Males*	*Females*	*Males*	*Females*
Dangerous driving	11	2	98	6	5,169	191
Driving etc. after consuming alcohol or taking drugs	474	78	2,266	332	76,428	10,168
Careless driving	116	30	712	124	17,845	3,201
Accident offences	77	23	247	56	5,246	911
Driving Licence related offences	250	21	1,013	91	52,550	4,087

[1] These data are based on the principal offence basis.
[2] Includes Crown court where Southend was the committing court

Websites

Lynne Featherstone: To ask the Secretary of State for the Home Department how many visits to the website www.thinkuknow.co.uk there were in each month since its inception; and if he will make a statement. [32787]

Mr. Charles Clarke: The number of visits follows. The data system 'Sitestat' has only been used since April 2003, so only data from that date are available.

Total visits

Date	*Visits*
February 2003	3

DEPUTY PRIME MINISTER

Brownfield Land

Greg Clark: To ask the Deputy Prime Minister (1) what records his Department keeps of the amount of development on different categories of brownfield land; [40528]

(2) what assessment his Department has made of trends in the loss of privately-owned green space as a result of new residential development. [40531]

Yvette Cooper: The Office of the Deputy Prime Minister (ODPM) records amounts of land use change in its Land Use Change Statistics. The most recent results were published on the ODPM website in November, as 'Land Use Change in England to 2004: Additional Tables'.

Land Use Change Statistics show the amount of land being developed according to its previous use, including previously-developed (brownfield) uses. Information on the ownership of the land is not, however, recorded so that there is no information on any loss of privately owned green space.

Council Tax Revaluation

Mr. Rob Wilson: To ask the Deputy Prime Minister whether council-appointed inspectors visiting private properties take photographs of the interiors for council tax revaluation purposes. [40731]

Mr. Woolas: Councils do not appoint inspectors to visit properties for council tax revaluation purposes—that is a function undertaken by Valuation Office Agency staff, and I would refer the hon. Member to the answer given on 13 July 2005, *Official Report*, column 1071W. It would be extremely rare that photographs are taken inside a person's home and this would only be done with the occupier's permission.

Local Government Finance

Mr. Pope: To ask the Deputy Prime Minister what the percentage change was in central Government funding to Rossendale borough council in each of the last five years. [40034]

Mr. Woolas: The percentage change in central Government funding to Rossendale borough council in each of the last five years for which data are available is shown in the following table.

	Change in all central Government funding on previous year (percentage)	*Of which percentage change in formula grant (revenue support grant, police grant and redistributed business rates)*
2000–01	4.1	3.9
2001–02	5.5	4.8
2002–03	2.8	2.3
2003–04	15.9	9.5
2004–05	38.3	-6.7

Notes:

1. These figures are as reported by Rossendale borough council on the revenue out-turn (RO) returns submitted to ODPM.
2. Central Government funding is defined here as the sum of specific grants inside aggregate external finance (AEF) and formula grant (revenue support grant, redistributed business rates and police grant). Specific grants inside AEF are those revenue grants paid for councils' core services (such as waste collection), excluding funding for local authorities' housing management.
3. The information provided excludes capital funding and funding for local authorities' housing management responsibilities.
4. The information excludes those grant programmes, such as European funding, where authorities are simply one of the recipients of funding paid towards an area.
5. Comparisons across years may not be valid because the figures shown are not adjusted for changes in local authority responsibilities.

The increase in central Government funding in 2003–04 is in part due to housing benefit and council tax benefit administration specific grant doubling from £243,000 in 2002–03 to £493,000 in 2003–04.

The large increase in total central Government funding 2004–05 is principally due to a £2.2 million grant for a Housing Stock Options Appraisal Project.

The decrease in formula grant between 2003–04 and 2004–05 is due largely to the removal, with effect from 2004–05, of local authorities' responsibility for paying part of the costs of council tax benefit and housing benefit.

WORK AND PENSIONS

Asbestos Regulations

Mr. Boswell: To ask the Secretary of State for Work and Pensions what the evidential basis is in relation to *(a)* risk and *(b)* cost of the Health and Safety Executive's recent proposals for modifying the Asbestos Regulations and revising the related code of practice. [38853]

Mrs. McGuire: The proposals for revised asbestos regulations and an approved code of practice take account of evidence on risk from a risk assessment, and on cost from a regulatory impact assessment. These documents are attached as annexes to the consultative document.

Benefit Claimants Living Overseas

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions what reports he has received concerning benefit fraud by British citizens resident in Thailand; what steps he has taken to investigate them; and if he will make a statement on his policy on investigating allegations in newspapers. [41059]

Mr. Plaskitt: As with all allegations of benefit fraud, those involving people claiming benefits while living abroad are investigated where there is evidence that benefit is wrongly being claimed. Where benefit fraud is established appropriate action will be taken, which can include prosecution leading to imprisonment for the more serious offences.

Allegations in newspapers are considered on the same basis as all allegations of benefit fraud and will be investigated where there is evidence that benefit has been wrongly claimed.

Benefit Fraud

Gordon Banks: To ask the Secretary of State for Work and Pensions (1) how many investigations into benefit fraud have been undertaken in each of the last 10 years; [27639]

(2) how many prosecutions have been brought for benefit fraud in each of the last 10 years; and how many were successful. [27640]

Mr. Plaskitt *[holding answer 11 November 2005]:* The available information is in the tables.

Benefit fraud investigations,, prosecution, convictions and sanctions by DWP

	Referrals accepted for investigations	*Prosecutions*	*Convictions*	*Sanctions*
1995–96	720,617	12,181	9,993	n/a
1996–97	938,770	16,887	9,801	n/a
1997–98	925,501	11,523	11,386	n/a
1998–99	923,853	10,129	9,967	n/a
1999–2000	564,543	9,272	9,129	11,030
2000–01	441,368	11,584	11,403	15,560
2001–02	389,633	11,355	11,183	13,550
2002–03	334,974	9,396	9,267	14,270
2003–04	325,706	9,204	9,091	16,160
2004–05	309,343	8,670	8,573	18,505

Notes:

1. 'Referrals accepted for investigations' exclude general Matching Service cases.

2. The fraud database shows completed cases that commenced in the relevant period. Due to the time between commencement of investigation and completion of prosecution, some cases will be included data collated for earlier periods. All totals are therefore correct at the time when quoted but subject to adjustment at a later date.

3. The significant reduction in 1998–99 results from a changed definition of cases to be referred to investigation. Prior to this year any cases in error was referred. After that date any case in error where there was a suspicion of fraud was referred.

4. The decline in referrals from 1999–2000 reflects our success in reducing the level of fraud significantly over that period—down by over 60 per cent. in IS/JSA.

5. Sanctions include Administrative Penalties and Cautions. Administrative Penalties as an alternative to prosecution, were introduced by the Social Security Administration (Fraud) Act (1997) with effect from December 1998. Cautions were made available to local authorities as a sanction from the start of 2001–02.

Fraud Information By Sector system and data from Fraud Investigation Service (Serious and Organised Operations Branch)

Benefit fraud investigations, prosecution and convictions by local authorities

	Referrals accepted for investigations	*Prosecutions*	*Convictions*
1995–96	n/a	n/a	n/a
1996–97	n/a	n/a	n/a
1997–98	n/a	n/a	700
1998–99	n/a	n/a	800
1999–2000	n/a	n/a	900
2000–01	n/a	n/a	1,100
2001–02	214,722	2,101	1,732
2002–03	185,723	3,187	2,503
2003–04	163,231	4,601	3,747
2004–05	163,247	5,544	4,688

Notes:

1. The investigations figures only cover the local authorities that have submitted the relevant information on their stats 124 and WIB5 forms and are therefore a reflection of the information that we hold, which might not be complete.

2. For local authorities, figures prior to 2001–02 have been rounded to the nearest 100 because they include estimated values for non-responding local authorities.

3. Figures for local authority prosecutions which did not lead to conviction are not available prior to 2001–02.

4. The figures only cover the local authorities that have submitted the relevant information on their stats124 and WIB5 forms and is therefore a reflection of the information that we hold, which might not be complete.

Sources:

1. The data for the numbers of investigations have been taken from HB MIS stats124.

2. From 2001–02 onwards the numbers of prosecutions and convictions are taken from subsidy claim forms. Prior to this the numbers are taken from management information returns.

Benefit Office Closures

Chris Ruane: To ask the Secretary of State for Work and Pensions what *(a)* representations he has had from and *(b)* discussions he has had with (i) Citizens' Advice and (ii) other benefit advice organisations on the workload of such organisations since the benefit office closure programme. [34623]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to my hon. Friend.

Letter from Lesley Strathie, dated 11 January 2006:

The Secretary of State has asked me to reply to your question concerning the discussions he has had with the Citizen's Advice Bureau and other benefit advice organisations following the closure of benefit offices. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus was created in April 2002 bringing together the former Employment Service and those parts of the former Benefits Agency delivering services to working age people. We have been refurbishing and replacing the offices of the former Benefits Agency and Employment Service, on a rolling programme, to enable us to deliver the new, integrated Jobcentre Plus service to our customers.

Jobcentre Plus is not just about new offices however; it is about the service we provide to thousands of people. By 2006, we will have transformed our service making it available through the telephone, through the Internet and through the personal service that we offer to people in Jobcentre Plus offices.

The District Manager for Wrexham and North Wales Coast has written to local stakeholders, including the Citizen's Advice Bureau, on a number of occasions, since April 2004, to ensure they are kept fully informed of the changes we are making to local service delivery.

I hope this is helpful.

Child Support Agency

Mr. Bone: To ask the Secretary of State for Work and Pensions how many complaints were registered with the Child Support Agency in each year from 1997 to 2005 in *(a)* England, *(b)* Northamptonshire and *(c)* Wellingborough. [26777]

Mr. Plaskitt: The information is not available at the geographical level requested.

Adam Afriyie: To ask the Secretary of State for Work and Pensions (1) if he will make a statement on the *(a)* reform and *(b)* performance of the Child Support Agency (CSA); and what recent meetings he has had with the chief executive of the CSA; [38519]

(2) when he expects *(a)* reform of the Child Support Agency (CSA) to be completed and *(b)* all CSA maintenance cases to be calculated under the new scheme. [38520]

Mr. Plaskitt: The Secretary of State will make an announcement on child support shortly.

I and ministerial colleagues regularly meet with the agency's chief executive Stephen Geraghty. While there have been some improvements in the Child Support Agency's performance we are not satisfied with its overall level.

A copy of the most recent Child Support Agency quarterly statistical summary, which gives information on the agency's performance, has been placed in the Library and is available on line at www.dwp.gov.uk/asd/csa.asp.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what bonus pay awards will be made to senior staff at the Child Support Agency this Christmas; and what the total cost to his Department of the bonus payments will be. [39179]

Mr. Plaskitt: No bonus pay awards will be made to senior civil servants at the Child Support Agency this Christmas and there will be no resulting cost to my Department.

CSA

Anne Snelgrove: To ask the Secretary of State for Work and Pensions how many cases are currently with the Child Support Agency's specialist enforcement teams; and what action he is taking to reduce that number. [26100]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds, dated 11 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive, as Stephen Geraghty is on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions how many cases are currently with the Child Support Agency's specialist enforcement teams; and what action he is taking to reduce that number.

There are currently 15,784 cases with the Child Support Agency's specialist debt enforcement teams who are responsible for recovery of debt by means of civil debt recovery through the courts. It is expected that the number of cases referred to enforcement will increase over the short term as the Agency instigates enforcement action earlier in the process when lower amounts of debt have accrued.

The enforcement teams are becoming much more successful in utilising their enforcement powers. This is being demonstrated by the significant improvement in the in-month cash collections achieved, rising from £0.52m in January 2005 to £1.42m in November 2005.

In addition, the enforcement teams are closely monitoring the times taken to drive cases forward for both old scheme cases and new scheme cases and these times are improving. This action is being taken to ensure that we reach agreement on payment in full, or a payment arrangement with the non-resident parent quickly and effectively, ensuring money is obtained for the parent with care.

I hope you find this response helpful.

Mr. Hepburn: To ask the Secretary of State for Work and Pensions how many people the Child Support Agency has reported as not paying the correct amount of child support in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [26569]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 10 January 2006:

In reply to your Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many people the Child Support Agency has reported as not paying the correct amount of child support in *(a)* Jarrow constituency *(b)* South Tyneside *(c)* the North East and *(d)* the UK in each year since 1997.

The attached table shows the number and percentage of cases being charged maintenance via the CSA's collection service for which the NRP paid the full amount of maintenance requested in the quarter ending August of each year.

Where full payment was not received from the NRP, cases have been separated into two groups; those where partial payment was made and those where no payment was received.

Unfortunately it is not possible to disaggregate the information requested to any geographical levels requested below that of Great Britain.

I hope you find this answer useful.

Number and percentage of Child Support Agency collection service cases for which full, partial or nil payment of maintenance was received from the non resident parent in the quarter ending August of each year—Great Britain 1997–2005

Quarter ending August:	Nil compliant	%	Partially compliant	%	Fully compliant	%	Total
1997	70,000	32	58,000	26	93,000	42	221,000
1998	87,000	31	81,000	29	112,000	40	279,000
1999	101,000	30	84,000	25	151,000	45	335,000
2000	105,000	29	80,000	22	178,000	49	364,000
2001	101,000	27	96,000	26	173,000	47	370,000

Number and percentage of Child Support Agency collection service cases for which full, partial or nil payment of maintenance was received from the non resident parent in the quarter ending August of each year—Great Britain 1997–2005

Quarter ending August	Nil compliant	%	Partially compliant	%	Fully compliant	%	Total
2002	90,000	24	85,000	23	198,000	53	373,000
2003	[1]	[1]	[1]	[1]	[1]	[1]	[1]
2004	123,000	30	101,000	24	191,000	46	415,000
2005	125,000	30	101,000	24	194,000	46	420,000

[1] Figures for the years 1997–2002 relate to old scheme cases only, whereas those for 2004–05 relate to overall performance across both old and new schemes. Robust information/information for new and old scheme cases on the new computer system is not available for the quarter ending August 2003.

Notes:

1. Numbers are rounded to the nearest 1,000 and percentages to the nearest whole per cent.
2. Figures are given as at August in each year as this is the latest available period for which comparable old scheme figures are available in earlier years.
3. The above includes those old scheme cases with a full maintenance assessment and those new scheme cases with either a full maintenance calculation, or a default maintenance decision. Old scheme cases with a punitive interim maintenance assessment are excluded from this analysis in line with the Agency's target definitions, as are new scheme cases being processed clerically.
4. The proportion of compliant cases is calculated by expressing cases which are currently open and have paid any of the maintenance due via the collection service over the preceding quarter expressed as a percentage of all those (currently open) cases charged maintenance via the collection service (either regular maintenance and/or arrears) over the same quarter.
5. The table excludes maintenance direct cases (of which there were 99,000 in August 2005), in which the CSA have carried out a maintenance calculation or assessment, and the non resident parent then pays his/her maintenance liability directly to the parent with care. As the CSA is no longer directly involved in the case, it is not possible to say how much, if any of the original CSA maintenance liability is being paid.

Customer Management System

John McDonnell: To ask the Secretary of State for Work and Pensions what the total cost has been to date of the implementation of the Customer Management System computer system. [38387]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 11 January 2006:

The Secretary of State has asked me to reply to your question concerning what the total cost has been to date of the implementation of the Customer Management System (CMS) computer system. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Firstly, CMS is not yet fully deployed across the Jobcentre Plus network of local offices and contact centres and consequently there will be implementation costs not yet incurred.

CMS and CMS2 were inter-related developments of the system and the costs were not separated. CMS3 was a release designed to improve the operation of the system based on lessons learned from the earliest deployment in a live environment.

The total cost of CMS and CMS2 to 31 October 2005 was £243.6 million. The cost of CMS3 is estimated to be £9.98 million.

I hope this is helpful.

Departmental Expenditure

John McDonnell: To ask the Secretary of State for Work and Pensions what the cost of administering the Department's appraisal system was in *(a)* 2003–04 and *(b)* 2004–05, broken down by (i) staff time costs, (ii) travel and meeting costs, (iii) venue hire and (iv) other associated administration costs. [38744]

Mrs. McGuire *[holding answer 19 December 2005]:* The information requested is not available.

Departmental Staff

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what criteria were used to determine performance-related bonus payments for senior civil servants in his Department in each of the last four years. [30013]

Mrs. McGuire: For each of the last four years bonus decisions have been made by relatively assessing individuals in relation to others in the same senior civil service pay band. When determining performance-related bonus payments the following criteria were used:

2004–05	Performance against agreed priority business objectives or targets; Total delivery record over the year; Relative stretch; Response to unforeseen events which affected the performance
2003–04 and 2004–05	How successful staff were in meeting their objectives; How difficult/challenging the objectives were, given available resources, foreseen and unforeseen factors; How the success had been achieved taking account of the departmental aims and values.
2002–03	A particularly high achievement in relation to a particular task or tasks; A strong performance in response to unexpected developments or requirements which emerged during the year; Contribution to departmental objectives over and above the immediate demands of the job by changed working practices, improved productivity or delivered efficiency savings; Whether challenges were taken on which were above and beyond the agreed range of the individual's objectives which delivered benefits for the organisation

Disability Living Allowance

Roger Berry: To ask the Secretary of State for Work and Pensions how many people under the age of 60 years receiving *(a)* the middle rate of the care component, *(b)* the higher rate of the care component and *(c)* the higher rate of the mobility component of disability living allowance stopped receiving these benefits due to death in each month of the last five years. [41409]

Mrs. McGuire: The available information is in the table.

Disability living allowance: number of awards in Great Britain which included a higher rate care component, or a middle rate care component, or a higher rate mobility component in which payment was terminated by the death of recipients under 60 years of age at the time of their death in each quarter in the period from 30 November 2001 to 31 May 2005

Quarter ending on the last day of:	*Number of awards in which payment was terminated by death of recipients under 60 years of age (thousands)*
May 2005	5.1
February 2005	5.4
November 2004	5.1
August 2004	5.1
May 2004	5.0
February 2004	4.8
November 2003	4.5
August 2003	3.9
May 2003	4.1
February 2003	4.9
November 2002	4.9
August 2002	4.7
May 2002	4.3
February 2002	4.9
November 2001	4.6
August 2001	4.0
May 2001	4.3
February 2001	4.7
November 2000	4.7

Notes:

1. Figures are rounded to the nearest hundred and expressed in thousands.

2. Figures include only cases where the reason for termination of payment is recorded as "death of claimant". Not all cases where payment has terminated have a reason recorded.

DWP Information Directorate: Work and Pensions Longitudinal Study for totals and 5 per cent. samples for detail/long time series.

EU Committees

Angus Robertson: To ask the Secretary of State for Work and Pensions how many meetings of the EU *(a)* Audit Board of the Administrative Commission on social security for migrant workers, *(b)* Technical Committee on information processing and *(c)* Committee for implementation of the action programme to promote gender equality have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [38799]

Mr. Plaskitt: The information is as follows:

(a) There was one meeting of the Audit Board of the Administrative Commission on social security for migrant workers during the UK presidency. An official from the Department of Health presided and two other officials from the Department of Health also attended.

(b) There was one meeting of the Technical Commission on Data Processing during the UK presidency. An official from the Department for Work and Pensions presided and an official from the Department Health also attended.

(c) The Committee for the implementation of the action programme to promote gender equality met once during the UK presidency. An official of the European Commission chaired the meeting. A representative of the Department of Trade and Industry attended.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations attend Councils by agreement with the lead Whitehall Minister.

A copy is available on the internet at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Angus Robertson: To ask the Secretary of State for Work and Pensions how many meetings of the EU *(a)* Advisory Committee on the implementation of the Community action programme to combat social exclusion, *(b)* Advisory Committee on the Free Movement of Workers and *(c)* Technical Committee for the implementation of regulations concerning the free movement and employment of workers have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provision was made for representation of the devolved Governments; and if he will make a statement. [38800]

Mr. Plaskitt: The information is as follows.

(a) There was one meeting of the Advisory Committee on the implementation of the Community action programme to combat social exclusion during the UK presidency. An official of the European Commission chaired the meeting. The UK was represented by an official from the Department for Work and Pensions.

(b) The Advisory Committee on the Free Movement of Workers and *(c)* the Technical Committee on the Free Movement of Workers each met once during the UK presidency. An official of the European Commission chaired each meeting. On each occasion, the UK Government were represented by two officials from the Department for Work and Pensions.

The UK Government take into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12 to 15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations attend councils by agreement with the lead Whitehall Minister.

A copy is available on the internet at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf.

Angus Robertson: To ask the Secretary of State for Work and Pensions how many meetings of the EU *(a)* Administrative Commision on social security for migrant workers (and working parties), *(b)* Committee of the European Social Fund and *(c)* Technical adaptation

Committee on the introduction of measures to encourage improvements in the safety and health of workers at work have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38801]

Mr. Plaskitt: The information is as follows:

(a) The Administrative Commission on Social Security for Migrant Workers met twice during the UK presidency. There were no working parties during the UK presidency. An official from the Department for Work and Pensions presided over both meetings. Two other DWP officials attended the first meeting and three attended the second. An official from the Department of Health attended both meetings and two officials from HM Treasury were present at the second meeting.

(b) There were two meetings of the EU Advisory Committee of the European Social Fund during the UK presidency. An official from the European Commission chaired the meetings. The UK representatives were two officials from the Department for Work and Pensions and representatives from the Confederation of British Industry and the Trades Union Congress.

(c) The Technical Adaptation Committee on the introduction of measures to encourage improvements in the safety and health of workers at work did not meet during the UK presidency.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations attend Councils by agreement with the lead Whitehall Minister.

A copy is available on the internet at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Angus Robertson: To ask the Secretary of State for Work and Pensions how many meetings of the EU *(a)* Standing Committee on agricultural statistics, *(b)* Advisory Committee on employment and *(c)* Advisory Committee on incentives in the field of employment have taken place during the UK presidency of the EU; who was presiding over each meeting; what other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [38803]

Mr. Plaskitt: The information is as follows:

(a) There has been one meeting of the Agricultural Statistics Committee under the UK presidency; an official from Defra attended the meeting. There was prior consultation between Defra and the devolved administrations ensuring that the representations made at the Committee reflected the common view of Defra and the devolved governments. The Committee is presided over by the Commission.

(b) There have been two meetings of the Employment Committee (EMCO) under the UK presidency the first was an informal meeting on the 18 and 19 October and the second on the 24–25 November. All EMCO meetings are presided over by an elected chair; this is currently Maarten Camps (Netherlands). Both meeting were attended by officials from the Department of Work and Pensions (DWP). Officials from the Scottish Executive attended the Informal EMCO held between Glasgow and Edinburgh in October.

(c) The Advisory Committee on Employment Incentives (EIM) meets twice a year in the spring and autumn, therefore it has only met once under the UK presidency on 7 October. No UK officials attended (only delegations from half the member states managed to attend the meeting due to industrial action in Belgium). When the Committee does meet it is presided over by the Commission.

The UK Government takes into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations attend Councils by agreement with the lead Whitehall Minister.

A copy is available on the internet at:

http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Angus Robertson: To ask the Secretary of State for Work and Pensions how many meetings of the *(a)* Committee on statistics relating to the trading of goods between member states, *(b)* Committee for implementation of the action programme to tackle discrimination and *(c)* Restricted Committee of the Safety and Health Commission for the Mining and other Extractive Industries have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [39004]

Mr. Plaskitt: I understand from the Office for National Statistics that that there was one meeting of the Committee on statistics relating to the trading of goods between member states during the UK presidency. It was chaired by the Commission and was attended by representatives from Her Majesty's Revenue and Customs.

The EU Committee for implementation of the action programme to promote gender equality met once during the UK presidency and the Commission chaired the meeting, in the usual way. The Department of Trade and Industry represents the UK.

The Restricted Committee of the Safety and Health Commission for the Mining and other Extractive Industries was wound up when the European Commission rationalised its consultative machinery on health and safety during 2003–04. In its place, a Standing Working Party on Mining and the Other Extractive Industries of the Advisory Committee on Safety and Health at Work has been established. The Standing Working Party has met once during the UK Presidency on 13 December 2005 and it was presided over by a German Government representative. A senior official of the Health and Safety Executive (HSE) attended.

On such committees, it is normal practice to send a single UK representative. When appropriate, they will consult the devolved Administrations.

Jobcentres (Tower Hamlets)

Mr. Galloway: To ask the Secretary of State for Work and Pensions (1) for what reasons the decision was taken not to use the local jobcentres in the London borough of Tower Hamlets to deliver the employment zone and the working neighbourhood pilot; [36366]

(2) how jobcentre staff in the London borough of Tower Hamlets were given the opportunity to compete with the private sector to provide job seeking services. [36372]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 11 January 2006:

The Secretary of State has asked me to reply to your questions asking for what reasons the decision was taken not to use the local jobcentres in the London Borough of Tower Hamlets to deliver the Employment Zone and the Working Neighbourhood Pilot; and how jobcentre staff in the London Borough of Tower Hamlets were given the opportunity to compete with the private sector to provide job seeking services. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

In 1997 the then Employment Service was given the opportunity to compete to deliver the Employment Zone in Tower Hamlets, but decided not to submit an in-house bid. Instead, it formed a consortium with Manpower and Ernst & Young called Working Links' to provide a public/private partnership. This provided Jobcentre staff in Tower Hamlets with the opportunity of applying for secondment to work for Working Links.

Employment Zone contractors used their own premises to deliver their business. They were offered space within Jobcentre offices and most took the decision to provide a small presence for a first point of contact before referring customers to their own premises.

Lone Parents

Mr. Laws: To ask the Secretary of State for Work and Pensions what changes to lone parent benefit entitlements have been implemented since 1990; and if he will make a statement. [36165]

Margaret Hodge: Currently, the only benefit for which "lone parent" is a category for entitlement is income support.

The criteria allowing lone parents to qualify for income support have principally remained unchanged since 1988 in that the customer would, in addition to being a lone parent, also have to satisfy other conditions of entitlement common to all claimants. The criteria for claiming income support as a lone parent did see substantial change when Work Focused Interviews were introduced in August 2000.

The Work Focused Interview for Lone Parent (LPWFI) regulations require lone parents to participate in a Work Focused Interview at the outset of their claim. From October 2005 lone parents are also required to attend a Work Focused Interview once every three months when their youngest child is aged 14 or over, to help them prepare for the transition to JSA once their child reaches 16 years and avoid drift onto incapacity Benefit.

While the introduction of LPWFI presented a major change to the criteria for claiming the benefit, income support has continued to evolve to meet the needs of all the people it provides for. Many changes introduced on income support have not been exclusive to lone parents, though along with other client groups they have continued to benefit from the enhancements made to the benefit; such as Mortgage Interest Run-On (MIRO) or the recent introduction of Child Maintenance Premium (CMP).

The key social security changes affecting lone parents are in the table.

Key changes to lone parent benefits since 1990

	Changes
1993	The introduction of the Child Support Agency (CSA) sought to ensure absent parents met the financial responsibilities for their children.
1997	Introduction of Child Maintenance Bonus payments on movement into full-time work, of 16 or more hours a week. Launch of New Deal for Lone Parents (NDLP) in eight prototype areas. Standard amount payable for Dependant Children Significant increase to the amount of Dependants Allowance.
1998	Lone parent premium in Income Support and One Parent Benefit abolished for lone parents making a new claim. Childcare disregard increased to £100 where two or more children are eligible (children up to age 12). NDLP implemented nationally. Improved provision for work-related training within NDLP. Introduction of linking rule to preserve benefit entitlement for breaks of up to 12 weeks.
1999	Family Credit replaced with Working Families' Tax Credit to supplement the income of working parents. Introduction of National Minimum Wage. Lone Parent Benefit Run-On (LPRO) introduced—subsequently replaced by the two levels of Job Grant in October 2004, which ensure the financial assistance available to assist customers in their transition from benefits into work is more equitable for all benefit recipients.
2000	Work Focused Interview target group extended to those with a youngest child aged three or over (formerly aged five and three months or over). Introduction of compulsory Personal Adviser meetings in three 'pathfinder' areas. Introduction of In-Work Training Grant pilots for those already in employment.
2001	Target set to get 70 per cent. of lone parents into work by 2010. National introduction of compulsory Personal Adviser meetings for new and repeat claimants and existing claimants with youngest child 13–15 years. Extension of NDLP to all non-working lone parents and to those working fewer than 16 hours (regardless of whether claiming benefits). Extension of Work-Based Learning for Adults to lone parents aged 18–24.

Key changes to lone parent benefits since 1990

	Changes
	Basic skills screening introduced at initial NDLP interview. Adviser Discretion Fund replaces Jobseeker's Grant for lone parents. Introduction of Jobcentre Plus. Self employment option is available for NDLP from autumn 2001.
2002	Outreach to increase participation in voluntary NDP/NDLP. Personal advisor (PA) meetings extended further with roll-out to existing one parent claimants with youngest child aged 9–12 and new repeat clients with youngest child aged three and above. Compulsory six monthly PA review meetings in pathfinder areas and for all new lone parent claimants nationally. Full national roll out of Jobcentre Plus. 12-monthly review meetings for existing lone parent claimants introduced.
2003	New Child Tax Credit and Working Tax Credits begin. Mandatory PA meetings extended to new and repeat lone parent claimants of IS with children under 3 and to existing claimants with youngest children aged 5–8 years.
2004	Mandatory PA meetings extended to cover more frequent interviews. Extended WFI regulations ensuring all lone parents on income support are covered. A new mentoring service across the country tailored specifically for lone parents. The development (working closely with employers) of a targeted communications strategy in six metropolitan areas, to supplement existing national and local advertising campaigns. Discovery Week pilots in six major metropolitan areas to boost soft skills and knowledge of help available. Childcare taster pilots from April 2004. The introduction of a new £20 per week Work Search Premium in 8 pilot areas and new £40 per week In-Work Credit in 12 pilot areas available to lone parents who have been on income support for 12 months or more. A new flexible fund for debt advisory services. Lone parents joining Employment Zones.
2005	The Pathways to Work for Lone Parents pilot was launched, bringing together extra support and childcare help with added financial incentives for lone parents to look for and move into work.

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of lone parents are in employment; what work search responsibilities apply to lone parents with teenage children; and if he will make a statement. [36166]

Margaret Hodge: Since 1997 the lone parent employment rate has increased by 11 percentage points to 56.6 per cent. In May 2005 there were 787,000 people claiming lone parent benefits, down from 1,013,500 in May 1997.

New deal for lone parents (NDLP) is a voluntary programme, which is available to lone parents who are not working, or working less than 16 hours a week. They must be aged 16 or over and have a dependent child under 16 years of age. Under NDLP, lone parents are offered support and financial incentives via Personal Advisers, who can help their customers identify and deal with any barriers preventing them from moving into work.

Lone parents in receipt of income support are required to participate in a Work Focused Interview at the outset of their claim. From October 2005 lone parents are also required to attend a Work Focused Interview once every three months when their youngest child is aged 14 or over, to help them prepare for the transition to JSA once their child reaches 16 years and avoid drift onto incapacity benefit.

From October 2005 lone parents are also required to agree an action plan with their Personal Adviser as a condition of completing their initial WFI.

The condition of entitlement to IS as a lone parent ceases once their youngest child reaches age 16. At this stage, if they are not in work and wish to continue to receive benefit, they must claim jobseeker's allowance or, if they have a health problem, incapacity benefit. They would then be subject to the respective conditionally rules associated with these benefits.

Ministerial Cars

David T.C. Davies: To ask the Secretary of State for Work and Pensions how much the Department has spent on ministerial cars in each of the last five years for which figures are available. [27149]

Mrs. McGuire: My hon. Friend the Parliamentary Secretary at the Cabinet Office has asked Roy Burke, Chief Executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library.

For information for the financial years 2000–01 to 2003–04 I refer the hon. Member to the letters from the Chief Executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and to the then hon. Member for Arundel and South Downs dated 13 September 2003. Copies of these letters are available in the Library.

Mr. Gareth Davies

Mr. Ruffley: To ask the Secretary of State for Work and Pensions to which official post Mr. Gareth Davies has been appointed in his Department; what level of remuneration he will receive; and from what date the appointment took effect. [40352]

Mrs. McGuire: Mr. Gareth Davies has not been appointed to any post in this Department.

New Deal

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions how many *(a)* over 25s, *(b)* lone parents, *(c)* over 50s and *(d)* young people have participated in the new deal in Beverley and Holderness in each year since its inception. [37441]

Margaret Hodge: The information requested is in the tables.

Number of starts to new deal 25 plus, per year, in Beverley and Holderness (individuals)

Time period	*Number starts to ND25+ (individuals)*
July 1998-March 1999	70
April 1999-March 2000	90
April 2000-March 2001	90
April 2001-March 2002	150

Number of starts to new deal 25 plus, per year, in Beverley and Holderness (individuals)

Time period	Number starts to ND25+ (individuals)
April 2002-March 2003	170
April 2003-March 2004	140
April 2004-March 2005	130
April 2005-August 2005	20

Notes:
1. New deal 25 plus was introduced nationally in July 1998.
2. Latest data is to August 2005.
3. Data is rounded to nearest 10.

Pension Forecasts

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions how many pension forecasts have been sent by his retirement pension forecasting team *(a)* in total and *(b)* to persons aged (i) under 18 years and (ii) between 18 and 25 years of age since the inception of the scheme. [38060]

Mr. Timms *[holding answer 15 December 2005]:* State pension forecasts have been issued since 1988. Information on the number of forecasts issued is only available from April 1996. Since that date 21.85 million pension forecasts have been issued.

Information on age groups is only available from April 2003. Since that date 560,000 pension forecasts have been sent to persons aged under 18 years, and a further 1.20 million pension forecasts have been sent to persons aged between 18 and 25 years.

Pensioner Poverty

Andrew Rosindell: To ask the Secretary of State for Work and Pensions how many people of retirement age were living on an income deemed to be beneath the poverty line in *(a)* England, *(b)* Scotland, *(c)* Wales, *(d)* Northern Ireland and *(e)* London in each of the last five years. [40612]

Mr. Timms: The number of pensioners living in households with incomes below 60 per cent. of contemporary median—a measure of 'relative' low income—and below 60 per cent. of 1996–97 GB median—a measure of 'absolute' low income—are presented in the following tables. For consistency all figures are presented as three-year rolled averages as single year estimates for the English regions, including London, are not robust. Equivalent data is not available for Northern Ireland, as the necessary information has only been collected for two financial years.

Number of pensioners living in households with incomes below 60 per cent. of contemporary median

[1] Nil or negligible.

Notes:

1. Parliamentary constituency caseloads are rounded to the nearest 100 therefore totals may not sum.
2. Data for parliamentary constituency and wards are not released simultaneously. The data provided is the most recent for each.
3. All benefit counts at ward level are rounded to a multiple of 5 to protect the confidentiality of the individual claimants.
4. Pension credit (PC) replaced minimum income guarantee (MIG) on 6 October 2003. Existing MIG recipients were automatically converted onto pension credit on that date (assuming they still met the eligibility criteria).
5. WPLS data are taken as at 31 May2005.
6. These figures used for the parliamentary constituencies are early estimates.

Operational processing times mean that a number of claim commencements and terminations are not reflected in the figures. The final figures incorporated within the Work and Pensions Longitudinal Study (WPLS) will take account of such cases and these figures become available three to four months after the early estimates.

7. Couples may contain a number of partners who are less than the age of 60.
8. The table includes clients who are in receipt of Guarantee Credit only and those who receive Guarantee Credit and Savings Credit.
9. Parliamentary constituencies and wards are assigned by matching postcodes against the relevant ONS postcode directory.
10. All wards nest within the Vale of Clwyd parliamentary constituency apart from Llandyrnog which is partly with Clwyd West constituency, therefore the sum of the wards will not match the Vale of Clwyd parliamentary constituency value.

DWP Information Directorate: Work and Pensions Longitudinal Study (100 per cent. data).

HEALTH

Abortion

Mr. Binley: To ask the Secretary of State for Health how many abortions were performed between 18 and 32 weeks of gestation in the Leicestershire, Northamptonshire and Rutland strategic health authority in 2004–05, broken down by week of gestation. [36416]

Ms Rosie Winterton: The available information is shown in the table.

Number of abortions by gestation 18 weeks and over for women resident in Leicestershire, Northamptonshire and Rutland strategic health authority, 2004[1]

Gestation weeks	Number
18	52
19	48
20	36
21	21
22	17
23 and over	20

[1] Data published by calendar year. Data for 2005 will be available in summer 2006.

Note:

Totals for gestations over 23 weeks are less than 10 and for confidentially reasons are not available for release.

Mr. Binley: To ask the Secretary of State for Health how many abortions have been performed in the Leicestershire, Northamptonshire and Rutland strategic

health authority in each year since 1975 on girls between the ages of 10 and 17, broken down by age; and how many were performed to save the life of the patient. [36417]

Ms Rosie Winterton: The available information is shown in the table.

Numbers of terminations by age for women aged under 18, resident in Leicestershire, Northamptonshire and Rutland strategic health authority (SHA), 2002–04[1]

	Age			
	14 and under	*15*	*16*	*17*
2004	32	66	154	239
2003	27	76	148	225
2002	34	57	150	223

[1] Prior to 2002, information was published by health authority and not directly comparable with SHAs.

Notes:

1. The total number of terminations to girls under 18 resident in Leicestershire, Northamptonshire and Rutland SHA that were performed to save the life of the pregnant woman was less than 10, between zero to nine, and for confidentiality reasons are not available for release.
2. Individual ages for 14 and under are less than 10 and for confidentiality reasons are not available for release.

Mr. Binley: To ask the Secretary of State for Health how many *(a)* live births and *(b)* abortions there were in (i) Leicestershire, Northamptonshire and Rutland strategic health authority, (ii) Northampton primary care trust, (iii) Daventry and South Northamptonshire primary care trust and (iv) Northamptonshire Heartlands primary care trust in each year since 1976. [36419]

Ms Rosie Winterton: The available information is shown in the table.

Number of live births and abortions to residents of Leicestershire, Northamptonshire and Rutland strategic health authority (SHA) and Northampton, Daventry and South Northamptonshire and Northamptonshire Heartlands primary care trusts, 2002–04[1].

	Live Births	*Abortions*
Leicestershire, Northamptonshire and Rutland SHA

2004	3,484	1,087	202	44	14
2003	3,321	1,068	189	45	18
2002	3,294	937	184	38	20

[1] Number of abortions throughout the whole of the women's reproductive life.

[2] Prior to 2002, information was published by health authority and not directly comparable with SHAs or PCTs.

Note:

For confidentiality reasons, groups shown are where the totals are 10 or more.

Academic Medicine

Mr. Maude: To ask the Secretary of State for Health how many posts in academic medicine there were in each of the last 10 years, broken down by specialty; and what forecasts have been made for such posts for each of the next three years. [35160]

Mr. Byrne: The council of heads of medical schools and the council of deans of dental schools collect this information which can be found at www.chms.ac.uk. The Department does not collect data centrally on clinical academics.

Agency Staff

Mr. Weir: To ask the Secretary of State for Health how many staff were employed by non-departmental public bodies and agencies for which she has responsibility in *(a)* total and *(b)* each (i) nation and (ii) region of the UK and *(c)* London in 2004–05. [35940]

Jane Kennedy: The total number of staff employed by executive non-departmental public bodies sponsored by the Department as at 31 March 2005 is recorded in table 2 of public bodies 2005, a copy of which is available in the Library and is also available on the civil service website at:

www.civilservice.gov.uk/the_future_of_the_civil_service/agencies_and_public__bodies/news/index.asp.

However, public bodies does not give the regional breakdowns sought and this data is not held by the Department. They could be provided only at disproportionate cost.

The number of staff employed in the Department's executive agencies as at 1 April 2004, including a regional analysis, is available in civil service statistics 2004, published in February 2005. A copy is available in the Library and is also available on the civil service website at:

www.civilservice.gov.uk/management_of_the_civil_service/statistics/contents_for_civil_service_statistics_2004__report/index.asp.

Alcohol Misuse

John Bercow: To ask the Secretary of State for Health what discussions she has had with the Home Secretary on developing multi-agency action on alcohol misuse through the community safety partnerships. [39429]

Caroline Flint: The Department and Home Office Ministers have regular discussions on a range of issues including the role of community safety partnerships.

Multi-agency action is an important building block of the alcohol harm reduction strategy. Community safety partnerships, which include the police, local authorities, and primary care trusts, are taking forward local initiatives to manage the night time economy and the impact that alcohol misuse can have in the community.

The recently launched, "Alcohol Misuse Interventions—Guidance on developing a local programme of improvement" places a great emphasis on working in partnership. Annex G specifically mentions the role of the crime and disorder reduction partnerships and encourages health organisations to work within them to plan for and deliver improved local alcohol treatment services and other interventions.

John Bercow: To ask the Secretary of State for Health what discussions she has had with the Home Secretary on providing education and training for *(a)* public and *(b)* voluntary sector staff who work with vulnerable groups on screening for alcohol problems, with particular reference to people in the criminal justice system. [39438]

Caroline Flint: The Department and Home Office Ministers have regular discussions on a range of issues involving alcohol misuse.

The Department plans to commission a programme of trailblazer pilots for alcohol screening and brief interventions. Although the contract has still to be finalised, we have selected a consortium led by St. George's Medical School (University of London) and Newcastle University to operate theses pilots and extract the learning from them to apply to a larger roll-out programme planned for the future.

These trailblazer pilots will operate in three settings; primary care, accident and emergency and criminal justice settings. These pilots will involve training people within the criminal justice system to deliver alcohol screening and brief interventions In some of these settings voluntary sector agencies may be contracted to provide these interventions and they will be appropriately trained to do so. The purpose of the pilots is to determine which methods of training, which screening tools and which brief interventions are most effective in each of the settings.

As the findings from these pilots emerge, we will make the learning available to the wider health and social care network, including the voluntary sector, as well as the criminal justice system to encourage them to implement the alcohol screening and brief interventions into their practice.

John Bercow: To ask the Secretary of State for Health what plans she has to develop local campaigns to promote sensible drinking. [39439]

Caroline Flint: Local communications are being considered as part of a national campaign to address binge drinking. The national campaign will develop new materials for use at local level. Currently, some local national health service organisations are already considering or delivering local campaigns to promote sensible drinking.

Animal Insulins

Mr. Hollobone: To ask the Secretary of State for Health (1) whether the pharmaceuticals company Novo Nordisk will continue to produce pork insulins for use in the UK; [40154]

(2) what recent discussions she has had with Wockhardt regarding maintaining the supply of animal insulin; and if she will make a statement; [40156]

(3) pursuant to the answer of 23 November 2005, *Official Report*, column 2108W, on diabetes, what steps she has taken to ensure that patients requiring insulin treatment have access to their usual insulin species while in hospital as an in-patient. [40448]

Jane Kennedy *[holding answer 9 January 2006]*: Novo Nordisk has informed the Department that it will make a decision about the continued supply of its animal insulin in the United Kingdom in 2006.

The Department is in regular contact with Wockhardt UK. The company has confirmed that it has no plans to discontinue supply of its animal insulin's in the UK.

Animal insulin's are available in the UK to treat patients in hospitals, as well as those in the community. It is up to the clinician, in consultation with the patient, to decide which treatment is most suitable.

Aylesbury Vale PCT

John Bercow: To ask the Secretary of State for Health what account she has taken in decisions on funding for Aylesbury Vale primary care trust of changes in the number of people in the area was reported living with a limiting long-term illness between the 1991 and 2001 census. [39675]

Caroline Flint: The weighted capitation formula used to inform allocations to all primary care trusts in England includes an age standardised measure of limiting long-term illness from the 1998 to 2000 Health Survey for England in the component of the formula that measures relative additional need for primary medical services.

Cancer Treatment

Mr. Lansley: To ask the Secretary of State for Health when she expects the *(a)* Medicines and Healthcare products Regulatory Agency product licence and *(b)* National Institute for Health and Clinical Excellence guidance to be issued on the use of Herceptin for the treatment of early stage breast cancer. [23964]

Jane Kennedy: On the 22 September 2005, the European Medicines Agency (EMEA) issued a press statement anticipating that Roche would submit a product licence variation application for use of Herceptin in early stage breast cancer by the beginning of 2006. The statement further indicated that similar types of submissions in important oncology indications in the past have been dealt with by the EMEA in an expedited review within two to three months.

Herceptin for early stage breast cancer was referred to the National Institute for Health and Clinical Excellence (NICE) on 21 July 2005. Herceptin will be one of the first drugs to be appraised using NICE'S new single technology appraisal process, which will allow guidance to be issued shortly after any licence is granted.

Lynda Waltho: To ask the Secretary of State for Health how many patients with suspected cancer waited less than two weeks for a specialist appointment in the last 12 months; and if she will make a statement. [38578]

Ms Rosie Winterton: In the last 12 months some 498,310 (96.6 per cent.) patients with suspected cancer were seen by a specialist within two weeks of urgent referral by their general practitioner.

Cardiac Rehabilitation Services

Mr. Bone: To ask the Secretary of State for Health how long on average patients who had had a heart attack waited for cardiac rehabilitation services in *(a)* England, *(b)* Kettering hospital NHS Trust and *(c)* Northampton General hospital NHS Trust in 2004–05. [40538]

Ms Rosie Winterton: This information is not collected centrally.

Cholesterol

Dr. Stoate: To ask the Secretary of State for Health what recent estimate she has made of the annual cost to the NHS of treating people with unhealthy cholesterol levels. [36760]

Caroline Flint: £769 million was spent on lipid-regulating drugs for the treatment of unhealthy cholesterol levels in England in 2004. The wider costs of treatments for people with raised cholesterol have not recently been estimated.

Dr. Stoate: To ask the Secretary of State for Health how much was spent by *(a)* her Department and *(b)* the NHS on (i) dietary advice and (ii) drug treatment for those at risk of raised cholesterol. [36765]

Caroline Flint: To date, the Department has spent approximately £6.9 million on promoting positive benefits of a healthy diet and approximately £2.82 billion on lipid-regulating drugs, used to treat those at risk of raised cholesterol. The Department has not separately estimated the cost of dietary advice for those at risk of raised cholesterol.

Contingency Planning

Mr. Burstow: To ask the Secretary of State for Health what consultation has been undertaken concerning the preparation of the draft emergency regulations which could be made under the Civil Contingencies Act 2004 in the event of a health emergency. [35051]

Ms Rosie Winterton: The Government maintains a set of draft emergency regulations which could provide the basis for emergency regulations should the criteria for the use of emergency powers set out in the Civil Contingencies Act 2004 be met. The development of these draft regulations has been informed by the regular dialogue which takes place within and beyond government on the full range of civil contingencies issues, including health emergencies.

Dentistry

Mr. Hollobone: To ask the Secretary of State for Health if she will make a statement on the potential impact of the new general dental services contract on NHS dentistry. [38905]

Ms Rosie Winterton *[holding answer 20 December 2005]*: The impact of the new general dental services contract means that instead of being paid separate fees for each individual item of treatment, dentists will carry out an agreed number of courses of treatment over the course of a year. The required commitment will be 5 per cent. below traditional levels of activity.

The evidence from pilot personal dental services schemes, where dentists do not work on the item of service system, is that moving away from the 'item of service' treadmill allows dentists to follow a more preventive approach, with fewer, individual items of treatment within the average course of treatment.

Primary care trusts (PCTs) will now hold their own dental budget for primary care services. For the first time, PCTs will be able to commission new services to replace capacity where a dentist leaves the national health service or reduces their NHS commitment, and to determine where new practices are established to meet local needs.

Mr. Leech: To ask the Secretary of State for Health how many dental practices in Manchester, Withington constituency have stopped carrying out NHS work since 1997. [40406]

Ms Rosie Winterton: Within the Withington constituency, one dental surgery working in the national health service general dental service (GDS) or personal dental service (PDS) ceased to provide a GDS or PDS service between September 1997 and September 2005.

Mr. Lansley: To ask the Secretary of State for Health whether she intends to abolish the maximum annual patient dental charge with the introduction of the new General Dental Services contract in April 2006. [36432]

Ms Rosie Winterton: No maximum annual patient dental charge currently exists. The maximum charge per course of treatment is £384. The new charging regime means that from April 2006 the maximum charge for national health service dental treatment will be a band three charge, which for 2006–07 is £189—a reduction of over 50 per cent. from the current maximum charge for treatment.

Departmental Staff

Mike Penning: To ask the Secretary of State for Health how many staff in her Department were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27444]

Jane Kennedy: For the number of civil servants between 1998 and 2004, I refer the hon. Member to table C in Civil Service Statistics 2004 which covers permanent staff numbers (full-time equivalent basis) in the Department. Civil Service Statistics 2004 are available in the Library and on the Cabinet Office Statistics website at:

www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp

The data for 1997 can be obtained from table C in Civil Service Statistics 2003, which is also available in the Library.

Information on the number of contractors within the Department is not held centrally and could be obtained only at disproportionate cost.

Diabetes

Mr. Hollobone: To ask the Secretary of State for Health pursuant to the answer of 23 November 2005, *Official Report*, column 2108W, on diabetes, what assessment she has made of the safety of long-term use of insulin analogues, with particular reference to carcinogenic risks. [40447]

Jane Kennedy *[holding answer 9 January 2006]:* Human insulin analogues are licensed through the European centralised licensing procedure. The quality, safety and efficacy of these products in assessed prior to licensing by the European Scientific Advisory Committee, the Committee on Medicines for Human Use in accordance with European regulatory guidelines, including "Points to consider document on the non-clinical assessment of the carcinogenic potential of insulin analogues". The available clinical data does not provide any evidence to suggest that diabetic patients who receive either human insulin, insulin analogues or animal insulin analogues are at an increased risk of developing cancer.

The safety of human insulin analogues in clinical practice is continually monitored by the Medicines and Healthcare products Regulatory Agency and the European Medicines Agency.

Mr. Hollobone: To ask the Secretary of State for Health pursuant to the answer of 23 November 2005, *Official Report*, column 2108W, on diabetes, what steps she has taken to *(a)* ensure that patients' next-of-kin and carers are able to make a fully informed choice among all insulin treatment options and *(b)* such choice is also available when individual insulin options are discontinued. [40449]

Ms Rosie Winterton *[holding answer 9 January 2006]:* I refer the hon. Member to the replies I gave on 23 November 2005, Official Report, column 2108W and the reply I gave today.
